REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand only moderate and prices without important change though inclined to favor buyers.

WINTER WHEAT—Rather dull and weaker. Local millers again holding off and prices about ½@1c lower, with some ordinary lots showing even a greater loss. No. 2 Red in store quotable at $1 17@1 17⅞, and fresh arrivals free on board at $1 17@1 20 No. 3 Red fresh receipts free on board sold at $1 13@1 15 No. 4 Red fresh receipts free on board sold at $1 06@1 11½. No 2 Hard fresh arrivals sold at $1 14@1 15. No 3 Hard fresh arrivals quotable at $1 05@1 11. No. 4 Hard at the river sold at $1 05.

SPRING WHEAT—Ruled easier and prices 1c lower. Buyers less disposed to purchase and the poor Wheat was especially dull and difficult to sell. No. 1 Northern fresh arrivals free on board quotable at $1 17@1 20. No. 2 Northern fresh receipts free on board sold at $1 17. No. 3 Spring fresh receipts free on board sold at $1 08 for fair and at $1 11 for hard variety and quotable at $1 05@1 15, with sales at the river at $1 06@1 10. No 4 Spring fresh receipts free on board sold at 65@77c for poor, at 85@95c for common to fair, and at $1 00@1 07 for hard variety

REGULAR WHEAT—Just a fair trade within a lower range of prices, the close showing the December ⅝@¾c lower, while the May lost ½c. Selling was general from the start and increased as the session advanced, the market acting as though floor traders had prepared for an advance yesterday owing to the political situation in Europe. The more assuring advices from that quarter, coupled with the lower cables, fine weather and liberal receipts, caused a complete change in sentiment, and liquidation of "long" property was the rule. Liverpool quoted spot unchanged, but futures came ¾@1⅛d lower, and London declined 1⅜d Receipts at Liverpool the past three days were 824,000 bu, and none from America. Paris was up 1c Berlin advanced ¼c and Buda Pesth was ½c higher Antwerp was unchanged. Argentina shipped 984 000 bu, and since Jan. 1, 86,125,000 bu, against 60,200 000 bu one year ago The visible there is now 2,464,000 bu, against 2,688,000 bu one year ago Crop conditions reported satisfactory. Argentine cables indicated favorable conditions for growth and development of the new crop Primary receipts were 83 000 bu larger than last year, the arrivals in the Northwest being 37 cars smaller. Kansas City and St Louis 261,000 bu, against 234,000 bu one year ago. Minneapolis stocks are expected to increase 1,000,000 bu this week and Duluth increase 750,000 bu. Minneapolis wired that the contract stocks on September 1 were 1,214,000 bu and now 703,700 bu. Exports this week were 1,480,000 bu and since July 1 aggregate 23,166,000 bu, compared with 53,493,000 bu one year ago. At the close the seaboard reported 3 boat loads accepted. Kansas City reported Minneapolis again in that market for cash Wheat. Winnipeg had 309 cars, against 299 cars one year ago. Duluth near the close reported the sale of 250,000 bu cash to go to Eastern mills. Receipts at Duluth 177 cars, at Minneapolis 620 cars, total of 797 cars, against 468 cars yesterday, 795 cars a week ago, and 834 cars last year. Future Deliveries of No. 2 Rye—Quiet and steady October quotably 79½c. December sold at 79¾c and closed at 79½c bid and 80c asked. May nominally 81c

BARLEY—There was no news especially The market did not present any change. It was quiet and dull Of all grades the offerings were small; of really good to choice qualities there were no offerings. Holders were firm but the fact of small receipts and light offerings did not cause any improvement in prices Demand from maltsters was very tame Some of the usual buyers were doing nothing at all. Feed or export Barley was wanted and quotably firm, but only a few cars on sale. Screenings rather dull on account of Oats being easy Twenty-seven cars were inspected in Nothing to speak of was done in Screenings, there was a nominal quotation of 28@37c for poor to choice Low grade Barley, feed, quiet and quotable at 37½c, some, heavy, nice cars at 38c and poor down to 35c. Malting, low grade small berry, some heavy, but dirty, ranged at 38@41c, clean, fair to good, at 42@43c, and large berry, heavy, quotable at 45@48c, with choice to fancy 50@52c. Fancy in a round lot up to 54c.

SEEDS—Very little was done. Hardly any business, and there could be little, for the market was almost bare of offerings There were no price changes in any of the several lines.

Timothy Nothing was done in futures and only a small business in cash Seed Offerings and demand were both small No changes in prices were presented Contract spot or October delivery was nominally $2 60. January was held at $2 72½ and $2 70 was bid. March delivery nominally $2 80. Country lots on the cash market quotable at $1 85@2 65 for low grade to fancy, inferior lower; fair to good, $2 30@2 35; high-grade Seed, $2 40@2 45, and rough, dirty or hulled, $2 15@2 25.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Oct. 27.]

There has been no great change in weather influences the past week as affecting crop conditions and the movement of products. The temperature average has been lowered without reaching freezing conditions other than in exceptional instances in the Central and Western sections. Precipitation has been light or absent, and agricultural operations have had little or no hindering interference. The growing Wheat crop has made a rather slower show opment under the cool temperature and dry conditions prevailing in most sections—but this can not be held as prejudicial to the position and future of the crop, which in most sections is in fine promise. There is little reference to presence of fly in the Wheat fields—a few localities in the West have reported something of its presence, but it is not sufficient to warrant more specific comment in any section. The general position of the new crop of Wheat is favorable as to its start, and with an enlarged area in comparison with last year.

Few disappointments in the yield of Corn are being reported incident to such progress as is being made in gathering the Grain, and the disappointments apparently are fully announced or more than equaled by evidences of better results than calculated on in other instances and localities, so that so far as the volume of the crop is concerned the season in its progress is not developing evidences of over-estimates in a general way of the extent of this crop. The conditions have been so favorable for maturing the Corn crop as to make a larger proportion than last year will be merchantable product and of good quality.

Current prices of Wheat are manifestly at a position which speculation can not be counted on more is supporting. But it is not clear that speculation may not maintain the abnormal relation of this G nin to other products, under the usual situation of supplies. The following are the averaged views out of line with reason as to the season's resources and requirements, and in time this will likely be inconveniently plain.

The range between Corn and Wheat as to value is not definable in such manner as to afford satisfactory conclusions as to what influence the one may have on the other in times of unusual conditions surrounding the one or the other. The country ten years ago saw the market price of Corn equal to and actually higher than Wheat for equal quantity. May Corn at 50 cents per bushel represents 82c for 100 lbs and May Wheat $1 88—a relation which cannot be justified by existing and prospective situation of supply and demand.

The current receipts of Wheat at the Spot Mkts at primary markets are not notably liberal. Wheat receipts since the close of June are about 8,000,000 bu in excess of corresponding time last year, and shipments about 5,000,000 bu in excess, leaving 3,000,000 bu more than last year in the net receipts. For the past five weeks the receipts of Wheat at primary markets have been about 10,000,000 bu, against 14,000,000 bu last year; shipments about 15,000,000 bu, against 18,000 000 bu last year. This movement implies net receipts of 25,000,000 bu for this period this season, against 32,000,000 bu last year. Primary receipts of Corn for five weeks about 12,000,000 bu, against 18,000,000 bu last year, and of Oats 23,000,000 bu, against 19,000,000 bu last year.

Corn husking operations are not yet generally active, but are expected to be enlarged materially within two or three weeks. Country offerings do not indicate comparatively little trading in the interior in new Corn as yet.

The offerings and movement of Hay are enlarging, this article being abundant and largely of good quality. A feature of the season is a smaller than usual proportion of Clover Hay.

The condition of Potatoes is very generally more than usually favorable, although the early rotting reserves which implies a saving in Corn consumption.

There has been tardiness of interest in Cattle feeding operations, but there are some indications of improvement. Live Stock is generally healthy in all sections. Hogs for current and near future marketing are not generally in forward, but young stock is abundant and will furnish liberal supplies later in the season.

THE CROP MONEY DRAIN.

[From the Daily Stockholder, Oct. 28.]

In view of the talk that by reason of the sharp flurry in foreign exchange there is a danger of shipping Gold to Paris, the probable duration of the harvest money drain is of interest. In previous years the movement of currency to the interior has been so fluctuating and the date of the turn has been so uncertain that the cessation of this season's heavy withdrawals following the abnormally large New York balances accumulated by our local banks during the period of easy money and trade reaction is hard to foretell. Should the outflow keep up in last year's volume the banks of New York will lose during the next six weeks approximately $8,000,000. This represents the net drain to the interior, irrespective of the dealings with the Treasury between this date and Nov. 1, the week when the movement begins in favor of this center a year ago. At this date in 1902 the banks faced only four weeks of withdrawals, with a net loss of $4,994,114 sustained before the outflow ceased in the week of Nov. 8. Then the movement turned in the last week in October. The year previous the drain subsided in the same week. The banks losing on the fortnight $3,790,-34c. In 1899 the movement was extraordinary, and in some respects without precedent. Business was very active at the best, and out-of-town banks were taking very heavy remittances from this city in the drain continuing until Christmas. In the interval of ten weeks from the month of October and the time when the outflow ceased, New York banks lost to the interior $11,912,000

EARNINGS OF NEW YORK BANKS.

The following tables give an exhibit of earning power of the larger New York banks. The period covered is new one of the year, and is the first at the same time great competition among certain banks of the metropolis to increase their deposits. Two of the banks, the Chemical and the American Exchange, do not pay interests on deposits. The National bank of Commerce is omitted because of an increase in capital and surplus by subscription during the year.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Oct. 27.]

The recent movement of Hogs into market chanels has not been fully maintained the past week. There is considerable increase in comparison with the corresponding week last year, but a shortage when compared with two years ago. The total Western packing was 370,000 Hogs, compared with 395,000 the preceding week and 385,000 two weeks ago. For corresponding time last year the number received was 350,000 Hogs, against 2,000 from March 1 the total is 19,830,000, against 12,655,000 a year ago, an increase of 366,000. The quality is without notable change in its variableness, with the larger proportion of the corn-fed organized as fair to good. Prices at the close for prominent markets average about $5 10 per 100 lbs, compared with $5 05 a week ago, $5 80 two weeks ago, $5 25 a year ago $6 80 two years ago, and $6 40 three years ago.

The speculative Provision market was rather quiet the past week, and the tone was easy. There was no feature, and no decided gain shown as surrounding the market and aside from the usual influences of Hog receipts and Grain prices, there were no developments affecting trade sentiment. Demand was only moderate and the Lard and Pork markets made no important changes. The export clearances of Product were fairly liberal, but show a decrease as compared with the preceding week, but there is a decided gain shown as compared with the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year
Pork, pounds	620,000	390,000
Bacon, pounds	8,500,000	7,700,000
Total, Meats	8,576,000	8,175,000
Lard, pounds	2,900	11,981,000
Total, Products	11,476,000	20,556,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places compared with last year, as follows:

WHITE CLUB WHEAT NOT GOOD MILLING.

[From the Baltimore Produce Report.]

At this time when millers in Virginia, Pennsylvania, Ohio and Maryland have been driven to sub-titute Pacific Coast Wheat for the nearby product it is important to know just what value the estimate is as to the Flouring qualities of this Wheat, which has been secured in such large quantities.

Regarding the Red Wheat we have nothing to say, but the experience with the White Club is distinctly disappointing. One of our progressive millers gave this variety of Wheat a careful and fair trial, and emphatically states that he would not use his own language, "he does not care to try this Wheat any more." The Flour made from this White Wheat was without any strength or life. In fact had nothing the qualities required. Apart from smell—than Flour. This may read rather strong, but is just as it was given to us by the miller. He says that he would positively not deter his further use of White Club Wheat. It is notable that this White Wheat has the appearance of having smut in it, though none of the balls were actually seen, yet the Flour has an unmistakable smell.

POSTAL RULES ON WHEAT SAMPLES.

[From the American Elevator and Grain Trade.]

A new rule has been established by the Postoffice Department that hereafter samples of Grain may be sent hereafter as third-class matter at ic postage for each two ounces instead of fourth-class at 1c an ounce. The selling price may be attached to the envelope.

This decision was reached after prolonged investigation and correspondence originating at Minneapolis. The question arose through sample envelopes having such notations as "Sold 50c," "Sold 50c," "2910. C. G. W.—Sold 42c." The postal regulations permit third-class matter to have a few words added to the name of the party, the name, occupation and address of the sender and any marks, numbers and names which are for the purpose of identification, but nothing in the nature of personal notice or memorandum.

Samples would ordinarily go fourth-class, but Wheat samples passed as third-class under the provision made for Seeds. The difficulty was the nature of the tags, which sometimes contained letters and figures referred to the price, test, car numbers, etc., which proved satisfactory to the department.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 28 to 40; clear. Northwest—Temperature 38 to 60; clear. West—Temperature 31 to 50; clear, killing frost at Chicago. Southwest—Temperature 36 to 48; clear; killing frost at Oklahoma City. Ohio Valley—Temperature 38 to 42; clear.

Indications are for mostly fair weather in this forecast district, except cloudiness and threatening in Upper Lake Region this afternoon or tonight. Slight changes in temperature.

ITEMS OF GENERAL INTEREST.

The Chesapeake and Ohio Railway Company has declared the regular annual dividend of 1 per cent.

The Casein Company of America has declared the regular quarterly dividend of 1 per cent on its preferred stock, payable Nov. 10. Books close Oct. 31 and reopen Nov 10.

Spontaneous combustion is believed to have caused a fire which did $100,000 damage to the plant of the New Home Sewing Machine Company in Orange, Mass., Monday. Ten thousand new machines were destroyed.

Hay amounting to 43,814 tons was exported during the eight months prior to Sept. 1, against 29,-710 tons during the corresponding period of the preceding year, according to a report by O. P. Austin, chief of the Bureau of Statistics.

The *Wall Street Journal* says controlling interests in all Chicago elevated railroads have declared their unanimous approval of consolidation of these lines. Plans are now being worked out by Blair & Co., who proposed the scheme.

It was stated in New York Tuesday by a broker having close associations with all parties that dividends on Ontario and Western at the rate of 1½ per cent per annum would be guaranteed jointly by the New Haven and Pennsylvania roads.

"There is reason to believe," says the New York *Herald*, "that plans have been nearly completed for retiring the Oregon Short Line participating 4 per cent bonds issued by the management of the Union Pacific Railroad to finance the purchase in 1900 100 of $78,100,000 Northern Pacific stock.

"Nebraska will have 300,000,000 bu of Corn this year," said an elevator man, of David City, Neb., Thursday. "Our farms at David City are yielding 60 bu to 75 bu per acre. The quality is fine, too, and while there are a few spots that show poor Corn, there is so much good that I believe the crop is the largest on record."

The $1,000,000 5 per cent collateral trust notes authorized on Monday by directors of the Public Service Corporation of New Jersey were sold to an Eastern syndicate. The underwriting price is not given. The notes are to provide for all the company's financial needs for extensions and improvements, for several years to come.

Net earnings of the United States Steel Corporation in the quarter ended with September were $18,773,332, as compared with $10,490,792 in the June quarter and $39,462,955 in the September quarter last year. The surplus earnings over charges and dividends in the September quarter were $12,326,885, as compared with $2,777,644 in the June quarter and $12,311,605 in the September quarter of 1903.

The Winnipeg correspondent of the *Northwestern Miller*, writing under date of Oct. 24, says: "The crusher here is now in full operation. Rains have fallen almost every day this last week. This delays threshing very much. Our daily papers and land agents have been telling us here that threshing is almost over, but this is far from being the case. It is safe to say that not more than 60 per cent has been finished, if that much. In the northern Department districts the proportion is less than half."

The Virginia-Carolina Chemical Company, instituting the Southern Cotton Oil Company, reports as the close of the quarter ended Aug. 31 a surplus of $2,852,034, a decrease from the similar surplus on July 15 of $650,000, but $260,000 of this decrease was due to the commission necessary to be paid on the sale of the company's new issue of preferred stock. Current assets amount to $19,058,845, and current liabilities $5,852,376, an excess of assets over liabilities of $13,206,469. The company has in cash on hand amounting to $3,674,

Railroad Commissioner Thomas, in a report to the Governor of Wisconsin, charges that the railroad companies of the State have held out more than $5,000,000 in taxes on franchises and earnings in a loss of $113,899 in license fees One-half of the amount held out. Mr. Thomas says, was in the shape of rebates. E L Thomas of Milwaukee, representing the railroads, has filed affidavits and documents to which Mr Thomas refers are made under the "commodity law," by which a refund is granted when the manufactured product of factories is shipped by the same line that transported the raw material.

The Chicago *Inter Ocean* says: "Tennessee Coal and Iron has completed three-fourths of its fiscal year, and the financial returns for the period are entirely unfavorable as compared with the corresponding period in the preceding year. It is the policy of the company to issue no statement of earnings other than those contained in reports in view of the unsatisfactory condition of the Iron market most of the year, coupled with the fact that several of its Coal mines have been shut down on account of a strike. It is conceded, however, that profits have diminished in consequence. From present indications it is doubtful if the company will show for the fiscal year much more than its fixed charges. The company is well equipped, however, to make a good showing in the way of earnings after the Iron and Steel business returns to normal conditions."

A New York dispatch, Wednesday, said: "By reason of a boosting of prices the anthracite Coal barons in the last four years have wrested from the public $50,000,000 in profits. I have here a statement of the Lackawanna Iron and Steel Company as the cost of producing Coal had increased 61c a ton between 1900 and 1903. The increased cost to the consumer was $1 00. Figured on the total output the increase represented $50,000,000 in profits," said $000 " Attorney Shearn, counsel for William R. Hearst in his complaint of collusion on the part of the anthracite Coal roads in the matter of charges exorbitant prices, made the statement before the Inter-State Commerce Commission. A heated argument followed between counsel, and the commission. Mr. Shearn, Mr. S. Baker, attorney for the Delaware, Lackawanna and Western Railroad Coal department, to submit a more complete statement of the company's expenses and receipts in mining and selling Coal.

The following is an official statement given out by President George Westinghouse: "George Westinghouse, when asked in regard to the reported issue of mortgage bonds by the Westinghouse Electric and Manufacturing Company, stated that there had been no consideration of the issue of first mortgage bonds, the retirement of the preferred stock or of the outstanding debentures, or any of the other details mentioned. In view of the large increase in the company's business which will follow the introduction of the single phase system for the operation of steam and interurban railways, the continued growth in the volume of sales of other standard lines of electrical apparatus and the desirability of providing working capital for such large increased business, there had been created by appropriate action of the board, in accordance with a report of a committee, a number of issues of debentures which can be retired from the sale of investment securities or earnings in lieu of a further increase of fixed capitalization."

The Paris financial correspondent of the *Northwestern Miller*, writing under date of Oct. 21, says: "The recent bulge in the Chicago Wheat market started buying on Eastern account afresh, and sales for the past week are estimated to exceed 2,000,000 bu. It is impossible accurately to report the sales that have already been made this season for Eastern shipment, but it is generally admitted that the amount is between 15,000,000 and 15,000,000 bu. This amount, added to the shipments that have come out to tidewater for export as either Wheat or Flour, is coming very close to 20,000,000 bu, and if to this be added the purchases that have been made by the mills to fill forward contracts, the aggregate amount that has passed out of first hands would cover the entire prospective 1904 available surplus than was ever before changed hands prior to Nov. 1. The exporters are doing nothing on foreign account except where an occasional Barley ship can be supplied with enough Wheat cargo for stiff-ning. The car shortage in the Wheat belt is becoming a serious matter, and says about the American Crop Company: "As has so often proved the case, people thoroughly acquainted with the affairs of the American Can Company are organizing to take advantage of the mistakes. Among the gentlemen back of the new concern is Mr. Daugherty, formerly in charge of the packing plant of the American Can Company at Baltimore. It is said that the American Can Company, realizing the value of Mr. Daugherty to a competitor, is bringing strong pressure to bear upon him to induce him to stay with them. This new competition is certainly not a favorable feature to the American Can Company. This latter corporation has only just been put upon its feet and is facing a readjustment of its capitalization which will mean the water in the concern. The corporation, which reduced the number of operated plants since its organization several hundred thousand, has capitalized at $60,000,000 and has only been able to pay at the rate of 5 per cent on its preferred stock. Moreover, the earnings of the past fiscal year were approximately only 6 per cent, leaving no large margin of safety. As a 6 per cent issue sure of its payments, the preferred stock should be worth around 50, providing, of course, the earnings are sufficiently large to show a goodly margin of safety. It has been the intention of the insiders to make the preferred a 5 per cent issue and in some way to fund the cumulative dividends."

For the corresponding week last year the exports were 307,000 brls of Flour and 930,000 bu of Wheat.

A New York dispatch says: "All negotiations for the purchase of the Clover Leaf system by interests representing the Cincinnati, Hamilton and Dayton Railroad have been abandoned. The road cannot be bought without the purchase of General Thomas H Hubbard's holdings. Mr. Hawley is also known to have a considerable interest in the property. Whoever buys the road will have to offer to each and every stockholder the same price that is paid to General Hubbard. The Clover Leaf property will not remain independent indefinitely, however."

In Wall Street there was a resumption of the activity and strength in Stocks, and decided advances. Sales were 1,071,300 shares, an unusual business for Saturday. A clearing away of the war cloud, and an agreement to arbitrate between Great Britian and Russia, combined with favorable trade conditions, were important factors. Anthracite Coal shares were active. Lackawanna advanced 9 points. Delaware and Hudson 1¾, but reacted 1¼. These advances were on reports that there is to be a readjustment in the Coal trade, and that New York Central has secured control of Delaware and Hudson. Western Railways gained ⅝ to 2 points, Tractions 1¼ to 2¾, and Industrials 1 to 2½.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market rather quiet here, but Minneapolis reports an improved demand.

WINTER WHEAT—Dull: prices 1@2c lower. Buyers, both outside and local, holding off. No. 2 Red in store nominally $1 16@1 17¼ and fresh arrivals free on board quotable at $1 17@1 19. No. 3 Red fresh receipts free on board sold at $1 14@1 15¾. No. 4 Red fresh receipts free on board sold at $1 05@1 08. No. 2 Hard fresh arrivals free on board sold at $1 15 and ranged at $1 11@1 15. No. 3 Hard fresh arrivals free on board sold at $1 13 and was quotable at $1 03@1 13.

SPRING WHEAT—Was quiet and prices 1@2c lower. Scarcely any demand, although there was sale for choice hard variety at reduced prices. No. 1 Northern fresh receipts free on board quotable at $1 17@1 19. No. 2 Northern fresh arrivals free on board quotable at $1 11@1 16. No. 3 Spring fresh receipts free on board was quoted at $1 03@1 14, with a sale free on board at $1 11, and a car hard variety at the river sold at $1 13. No. 4 Spring fresh receipts free on board sold at 65@80c for poor to common and $1 11 for hard variety, with sales at the river at 65@95c.

REGULAR WHEAT—Resting spots for the day showed losses of 1⅜@1⅝c as compared with the close of last night. Business in cash was small in all positions, and this was one of the "bearish" influences of the day. Little recovery was shown from the bottom prices which were reached. Considerable pressure on the market early with some of the smaller "longs" eager sellers, followed by "long" Wheat coming out on Eastern account. There was considerable selling on "short" account, too. The market hung in the balance up to mid-session, or until the English visible was received, when the lowest prices of the day were recorded. During the week the supplies over there increased 3,220,000 bu, compared with an increase of 123,000 bu a year ago. Northwestern cars were 4,457 for the week, against 5,107 cars the week before and 5,206 cars a year ago. Primary receipts for the week were considerably smaller than the previous week as well as for the same week last year; shipments were smaller, too. Australian shipments for the past week were 200,000 bu, compared with 581,000 bu the week before. World's shipments are estimated by *Broomhall* to foot up 9,200,000 bu, with a good decrease on passage. Imports into the United Kingdom for the week 6,400,000 bu, against 5,200,000 bu the week before, and 3,700,000 bu a year ago. English farmers' deliveries for the week 384,000 bu at an average price of 92¼c; week before 368,000 bu at 91¾c; year ago 326,000 bu at 78¾c. Liverpool was ½@⅞d lower, while London was up ⅛d. Decline at Liverpool was on continued liquidation. Spot at Liverpool unchanged to ½d lower. Paris 1@1¼c better. Strength in latter market due to lack of rain in France. Buda Pesth 2c lower; Berlin ⅝@¾c lower. A Liverpool cable says that the settlement of the Russian Baltic fleet incident acted as a "bearish" influence there and drove some of the "longs" out of their positions, but that the tone was steadied by early sellers turning buyers late. Receipts at Duluth 218 cars at Minneapolis 599 cars, total of 817 cars, against 797 cars yesterday, 685 cars a week ago, and 965 cars last year. Local receipts included 34 cars Winter, 24 cars Spring and 15 cars mixed, a total of 73 cars, against 87 cars last year. Included in above were 3 cars contract grade. There were also 6 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 104 cars. The withdrawals were 23,603 bu. Receipts at Western points were 1,230,951 bu, against 122,998 bu last year. At Eastern points 26,714 bu, against 52,914 last year. Shipments from Western points 511,031 bu, against 929,352 last year, and from Eastern points no bu, against 182,240 bu last year. Shipments of Flour were 52,914 brls. Exports of Wheat in Flour were equal to 31,680 bu.

Future Deliveries of Regular Wheat—Fair trade at lower prices.

OCTOBER—Entirely nominal, and closed at about $1 11¼.

DECEMBER—Sold at $1 12@1 13¼. Opened at $1 13¼ to $1 13⅛, sold to $1 13, to $1 13⅛, to $1 12⅞, to $1 13, to $1 12½, to $1 12⅞, to $1 12⅝, to $1 12½, to $1 12, and closed at $1 12 bid.

MAY—Sold at $1 11@1 11⅞. Opened with sales at $1 11⅞ to $1 11¾; sold to $1 11¾@1 11⅞, to $1 11½@1 11⅝, to $1 11¼, to $1 11⅛, to $1 11⅜, to $1 11⅛, to $1 11¼, to $1 11, to $1 11⅛, to $1 11, to $1 11@1 11⅛, and closed at $1 11@1 11⅛ asked.

JULY—Sold at 95¾@95⅞c and at 97c. Opened at 97c, sold to 96½c, to 96¾c, to 96⅝c, to 96⅛c, to 96½c, to 96¼c, to 95¾@95⅞c, and closed at 95¾@95⅞c.

CORN—The close showed net losses for the day of ⅛@¼c. As the day wore away there was an inclination on the part of the small traders to even up accounts over Sunday. The big holders and the big "shorts" gave the market but little attention late. Cash trade was small, both at Chicago and at the seaboard. Cash sales here 65,000 bu. Several big sales of May around the opening seemed to cast a doubt over the friends of this market, and their purchases were made rather carefully. The trade was mainly on room trading account, with the "bull" party inclined to support the May in order to hold the December above a certain level. Advices from the interior indicated a somewhat freer movement of the new crop. There was a decline of ⅛@¼d at Liverpool for futures, while spot was unchanged to ½d higher. Loss in futures was in sympathy with Wheat. The weather was again clear and fine all through the Corn belt. Out-inspection 59,500 bu and 31 cars. Local receipts 97,900 bu, shipments 256,412 bu. Local receipts 98 cars, with 6 cars contract. Car lots were quiet and prices ½@¾c lower. Demand light. No. 2 closed at 55c. No. 2 Yellow closed at 56½c. No. 3 closed at 54½c. No. 3 Yellow sold at 56¼c and closed at 56c. No. 4 sold at 55½c for yellow.

Corn by sample—Was in only fair request and offerings moderate. Prices ½@¾c lower. Sales on track and free on board. No Grade new sold at 46@49c. No. 4 new at 50c, and old at 53½@56c. No. 3 at 54½@55c. No. 3 Yellow at 56½@57c. No. 2 at 55@55¼c. Billed through: No. 4 at 52¾@55½c. No. 3 at 53½@55½c. No. 3 Yellow at 54@55¾c. No. 2 Yellow at 55@56½c. No. 3 White at 53@54c.

Future Deliveries of No. 2 Corn—Trade comparatively small after the first half hour of the day and prices closed ⅛@¼c lower.

OCTOBER—Closed at 52½c nominal.

DECEMBER—Sold at 48c and 48⅞@49c. Opened at 48¾c to 48¾c, sold to 48½c, to 48⅞@49c, to 48½c, to 48⅝c, to 48½c, closing with sellers at 48½@48⅝c.

MAY—Sold at 45⅛@45½c. Opened at 45½c to 45⅜c, sold to 45¼c, to 45⅜c, to 45¼c, to 45½c, to 45⅛@45¼c, to 45¼@45⅜c, to 45⅛c, closing at 45⅛@45¼c asked.

JULY—Sold at 45@45⅛c. Opened at 45⅛c, sold to 45c, and closed with sellers at latter price.

OATS—Were weak and closed at the bottom at a net loss of ⅜c. There was good support from commission houses early, but selling by local and Northwestern cash interests and liquidation started by the break in other Grains carried prices off. Cash sales were 75,000 bu. Arrivals 98 cars, against 269 cars last year, and 101 cars are expected Monday. Withdrawals 1,925, and seaboard clearances 10,000 bu. Car lots to go to store were steady to ¼c lower. No. 4 White sold at 29½c. No. 3 White at 30c. Standard at 31¼c. Standard in store closed at 29¼c.

Oats by sample were in liberal supply with a lighter demand and prices steady to ¼c lower. Sales on track and free on board: No. 4 White at 29@30¼c. No. 3 at 29¾c. No. 3 White at 30@30¼c. Standard at 30¾@31¼c. No. 2 at 29½c. No. 2 White 31¼@31½c. Billed through: No Grade smoky at 24c. No. 4 at 27½c for musty. No. 4 White at 27@30c. No. 3 White at 30@30½c. Standard at 30@31¼c. No. 2 at 29@30¼c. No. 2 White at 31c. At the river: No. 4 White at 28@28½c. No. 3 White at 28¾@29¼c. Standard at 29½@29¾c.

Future Deliveries of Contract Oats—Were weaker and lower.

OCTOBER—Closed at 29¼c.

DECEMBER—Sold at 28¾c and at 29@29⅛c. Opened at 28⅞@29c, sold to 29@29⅛c, to 28¾c at close.

MAY—Good trading. Sold at 30⅞c and at 31⅛@31¼c. Opened at 31c to 31⅛c, sold to 31@31¼c, to 30⅞c, to 30⅞@31c at close.

JULY—Active. Sold at 30¾@30⅞c and at 31c. Opened at 31c, sold to 30¾@30⅞c at close.

RYE—The market was quiet and the feeling easy, with December ½c lower. Trade very light, but fresh receipts wanted by local manufacturing industries. The receipts were four car. There were withdrawn from public elevators 6,350 bu and from private warehouse one car. No exports from New York. No. 2 in store nominally 79c and a car fresh receipts free on board sold at 83c.

Future Deliveries of No. 2 Rye—Quiet and easy. October nominally 79c. December sold at 79¼c. May nominally 81c.

BARLEY—Ruled quiet. There was nothing new or changed especially. There were just moderate offerings of low grade to good malting. Attendance of buyers was small. Those present had no trouble in securing all they wanted at former prices; they did not seem to want much. Choice to fancy Barley scarce. Low grade or feed Barley in small supply; demand continues for it with prices steady. Screenings of medium quality slow sale; the cheaper and best grades were salable. A number of cars held over because bids were not up to the views of sellers. Twenty-two cars inspected in. Market for Screenings quotable at 25@37c for poor to choice. Low grade Barley, feed, quiet and quotable at 37½c, some, heavy, nice cars possibly 3c, and poor down to 35c. Malting, low grade, small berry, some heavy, but dirty, quotable at 38@41c; clean, fair to good, at 42@43c, and large berry heavy, quotable at 45@48c, with choice to fancy 50@52c. Fancy in a round lot up to 54c.

SEEDS—More was doing in cash Timothy and market strong, but speculation neglected. More Clover offered and sold. No change in prices especially, except for Flax, which ruled lower.

Timothy—Rather a better demand existed for cash Seed. A somewhat stronger tone developed, and in some cases a shade better prices were obtained. Increased offerings appeared and a good volume of business was done. Trading was over a range of $1 60@2 40 for poor to very nice quality, main sales at $2 35@2 37½ for good quality. Market for country lots quotable at $1 75@2 55 for low grade to fancy. Inferior lower; fair to good, $2 30@2 37½; high-grade Seed, $2 40@2 45 and rough, dirty or hulled $2 15@2 25. Futures were not mentioned, and they could be only quoted as nominal at $2 60 for October, $2 70 for January and at $2 80 for March delivery.

Flax—In consequence of a break in prices in the Northwest bids were reduced 1½@2½c. There was, however, no business done, for the market was devoid of offerings. Local movement very small, only 1 car, or 900 bu, received and none taken out. At Minneapolis the receipts were 64 cars and at Duluth 98 cars. No. 1 Northwestern cash was $1 15, and $1 08 bid for No. 1 Rejected, depending on quality, quotable at $1 06@1 13. October bids reduced to $1 08 and December bids lowered to $1 10.

Clover—Increased movement of the crop has caused a weaker feeling, at the same time no essential change in prices. More consignments were offered as the sales elsewhere given show. The market for contract grade, spot or October delivery remains nominally $12 15. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good $10 25@11 60.

Other Seeds—A car of Millet offered and sold. Nothing else on sale. Quotably about steady all around. Hungarian at 80c@$1 05 for common to choice. Millet, common, was quotable at 75@90c for common to choice. German at 85c@$1 10. Broom Corn Millet at 90c@$1 00. Siberian at 60@80c, and Early Fortune about 75@90c. Mustard about 75c@$1 00. Buckwheat, good milling spot about $1 35.

HOG PRODUCTS—Only a moderate speculative business was transacted in Hog Products, and mainly on local account. Outside orders were small. Offerings were not very large, and the demand was only fair. Some buying of January and May deliveries by packers. Undertone to the market was a little stronger early, and prices averaged slightly higher, but gradually settled back again toward the close, and the market closed rather steady. Near deliveries quiet. Hogs were in fair request, and prices ruled slightly higher. Good supply anticipated during the coming week. Receipts at the leading Western packing points were estimated at 29,000, compared with 30,800 one year ago. Foreign markets were steady for Meats, while Lard was rather dull and 6d lower. Domestic markets quiet. Receipts of Products were good—of Lard and Meats about 25 cars. Shipments were fair—of Lard and Meats about 127 cars. Shipping demand continues limited, both on domestic and export account, and offerings were only fair. Sales were light, with little change to note in prices.

Mess Pork—Trade in Mess Pork was on a moderate scale, and the feeling was steadier. Offerings were not very large, and the demand was only fair. Bulk of the trading in January contracts. Prices ruled 2½@5c higher early, but settled back again 7½@10c, and the market closed steady around inside figures. Very little demand for shipment and offerings were moderate. Cash lots were quotable at $10 90@11 60.

OCTOBER—Quiet and quotable at $10 90.

DECEMBER—Quiet, with small sales at $11 07½.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO FRIDAY EVENING, October 28, 1904.

There were no developements in the money market. Rates were unchanged at 4½ to 5 per cent, with some loans of a special character at 4 per cent. Currency is going to the country fairly in about the same volume. Supplies of commercial paper are redily sought and are not large enough to go round. Deposits are holding well. Country banks in most instances are carrying good balances here. In New York conditions are not essentially changed. Call money on Stock Exchange was 1¼ to 2 per cent. Time loans were at 3 to 4½ per cent and there was plenty of money for all requirements. There was a better feeling in all banking circles owing to the improvement in the stock market and in general business.

In New York Exchange was ¨c to 15c discount per $1,00), and closed at 6c.

Foreign Exchange was firmer and rates averaged higher. Shippers sixty day documentary sterling bills on London ranged at 482¾ to 483.

Local Securities were active with a higher range in prices, although fluctuations were not broad, and were influenced largely by the action of values in Wall Street. There were more stocks in the market. The advances were followed by good realizing sales and fair declines. Chicago Telephone made a good advance on rumors of a deal pending, but nothing definite was announced. Illinois Brick had a good advance. The pool operating in it is trying to have the common stock taken up, but the company has made no move in that direction. The dividend on preferred has been fixed at 2 per cent. Elevated shares were more active and steps are under way for a consolidation of all of the four companies, the leading interests favoring the move, but it will be some time before the details are worked out. The bond market was in good shape and prices averaged better.

In the New York Stock market there was heavier and mere sensational trading than in the previous week, the volume of business being larger, on one day exceeding 2,000,000 shares. A feature was the buying of 103,000 shares Union Pacific in thirty minutes within a range of ¼ point. This made a new record in stock trading, and it was most remarkable that so much business could be transacted within so small a range. It was not a one-sided market by any means, there being more of a reactionary feeling after each bulge. Heavy realizing of profits was noticed on all advances, and on the breaks there was good support at the necessary moment. A disturbing influence was the fresh complications growing out of the Hull blunder by the Russian fleet. It made large operators cautious about taking the buying side and resulted in considerable selling for profits by some of the leaders who have been instrumental in making the advance. Gold exports also had a depressing influence. Wall street was filled with rumors regarding the rearrangement of different railroads and the settlement of the Northern Securities, it being understood that Morgan and Hill get Harriman's holdings. There were also reports that the leading rate disturbers in the West had been gathered into stronger hands, making the stability of rates more permanent. Erie was among the most active stocks and there were the usual rumors regarding its intentions, all of which had effect. Pennsylvania, Norfolk and Western, Ontario and Western, St. Paul and Colorado Fuel and Iron were heavily traded in and at times were the features. United States Steel was not so well thought of toward the last, the statement given out acting as a check to further buying and started a realizing movement, but it rallied at the close. At the close stocks of the Coal roads were advanced sharply. Gold exports and a stronger market for exchange were features that had considerable to do with the selling for profits late in the week. Closing sales on the majority of the list were at small net losses for the week. Sales for the week were 9,630,000 shares, against 5,944,000 shares the previous week, and 2,037,100 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

Cotton in New York averaged higher. The movement was large, and in excess of last year. On all the weak spots good supporting orders were forthcoming from the "bull" interests. On the advances profit taking prevented prices going up to fast. Foreign news and crop news was in favor of maintenance of values. Neill estimated the crop at the minimum at 12,000,000 bales. Closing prices were at losses of 1 to 5 points for the week.

In the mercantile trade conditions are greatly improved over those of a few months ago. There is conservative expansion going on among merchants and manufacturers. Goods are being bought with more confidence by distributers, and consumption is increasing. This has been brought around by the good Corn crop and by the advance in stocks. The presidential campaign has had but little effect. Stocks of goods throughout the country among distributers are moderate and collections good. The most marked improvement is noticable in the Iron and Steel interest, there being a material increase in the output of the mills, a better general placing of orders and free specifications on previous orders. Prices are showing decided strength. The Bar Iron Association has reaffirmed its previous rates. Pig Iron is being taken freely at an advance and production is enlarged. In the Pittsburg district shippers complain about the scarcity of cars. The distribution of light and heavy hardware was increased, the feature being the enlarged call for shop supplies. Lumber and building materials were bought more freely and prices on all grades of lumber, particularly white pine in the north are showing a firmer undertone. Stocks there are being shipped out freely and prospects are that there will be very little left at the mills to carry over during the winter. The movement of coal was fair, but trading on the whole is not entirely satisfactory. Refined sugars advanced 5 points and the grocery trade is general and good.

COMMERCIAL.

A fair amount of interest was manifested in commercial circles on the Chicago Board of Trade during the week just closed, though the volume of business was only moderate. Outside orders came chiefly from other speculative centers, there being a hesitancy on the part of operators who trade in moderate quantities and present conditions are likely to prevail until after the presidential election. The bulk of the trading was professional and operators apparently were satisfied with small profits or losses. Commission men are anticipating an increase in business after the election, but the campaign up to date has not been such as to detract interest in the principal markets. The activity in Stocks has no doubt detracted a good deal of capital that ordinarily would be devoted to Grain speculation. During the last of the week there was a little more business transacted in a general way, but there is room for considerable improvement.

Mail and cable advices from Europe this week were generally of one tenor and to the effect that fall seeding and the start of the Winter crops was very satisfactory. Reports from the United Kingdom, France and Germany claimed seeding was progressing very satisfactory, and that supplies of native Wheat were moderate to fair. Weather in Italy and Spain was reported as rather too dry, while in Roumania and Hungary the new crops are starting well as the result of beneficial rains. With the exception of a few sections in the South and Center of Russia, weather conditions were favorable for fall seeding. Crop news from Argentina and India continues satisfactory and normal progress reported.

Weather conditions in the agricultural districts of the United States were generally looked upon as seasonable the past week. Freezing temperatures were reported through Iowa, Nebraska and other sections of the Corn belt, just such conditions as are needed for putting on the finishing touches. Present indications strengthen the belief that a large crop will be secured and that the quality will be much better than that of a year ago. The Winter Wheat crop is generally reported as having a favorable start, though in certain sections of the Southwest Hessian fly has made its appearance, but as yet is causing no unusual alarm or anxiety. The area sown this fall is expected to fully equal if not slightly exceed that of a year ago. Through the Central West the new plant is said to be doing nicely. Weather conditions in the extreme Northwest were not of the best for threshing from the stack, too much rain occurring, and it is feared the quality of the Wheat will be impaired.

The movement of Grain from the farms and interior elevators was fair the past week. Wheat was marketed in a liberal manner in the Northwest and arrivals at terminal points made a good showing. Through the West and Southwest the movement of Wheat showed some falling off and reports from the farms as to the quantity still to be marketed indicated about 50 per cent had been disposed of, and that supplies were smaller than customary at this season of the year. New Corn has started to move in the South and Central West and the quality is generally much better than at this time last year. Arrivals of Corn at Gulf ports were of excellent quality. The movement of Grain Eastward was fair and would be larger but for the firm views of holders. Shippers paid equal to 4@4⅛c over December for cargoes of No. 2 Corn in store, while No. 3 Yellow sold at 7c premium. Moderate quantities of Wheat were forwarded East and several cargoes came down from Duluth. The outward movement of Oats was moderate and stocks are accumulating. Exports of Flour and Wheat were meagre and moderate of Corn. Bookings at the Atlantic seaboard were limited. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was another increase in Wheat, Oats, Rye and Barley and a decrease in Corn. *Bradstreet's* showed a fair addition in the world's supply of Breadstuffs, while a liberal decrease was reported in Corn.

Just a fair speculative business was transacted in the leading Grain and Provision markets on 'Change the past week. Price changes in the various commodities were within comparatively narrow limits and the trade as a whole largely local in character. Sentiment at the start leaned to the "long," or "bull," side of the principal markets, the fear of political complications between Great Britain and Russia owing to the Baltic fleet incident being the principal strengthening influence. Routine statistics, too, were looked upon as favorable to the "long" interest, and under a fair miscellaneous demand and moderate speculative offerings higher prices were established. At the improvement in values, however, liquidation set in and "long" lines were put on the market, resulting in moderate declines in all the leading cereals. The failure of European markets to follow the rise established on this side was disappointing to holders and Wheat "longs" in many instances viewed milling conditions in the Northwest as rather unfavorable. A little more life was manifested in the market for Hog Products and there was a moderate increase in trade. Hogs were in rather good supply and lower, and this feature encouraged a little miscellaneous selling, especially of the deferred deliveries. Demand was only fair. Outside orders were rather light and local trading was fair. Prices declined materially on all the leading articles but the market closed rather steady. Packing of the West for the week was reported 60,000 ahead of last year and for the season 12,830,000, against 12,625,000 last year, an increase of 205,000 Hogs.

The trade in cash Grain was again of moderate proportions this week, due entirely to the fact that offerings were limited. A good demand prevailed for the various descriptions and current receipts sold quite readily. The call for Wheat at the same time was not as brisk as lately noted and competition among millers less keen. Corn, however, was wanted and a good business was transacted in cargo lots, still higher prices compared with December premiums being obtainable. Oats sold fairly well, the offerings being moderate. Rye was quiet and steady. Barley was less active and offerings not as liberal as of late. Buyers were more indifferent to common and medium grades. Only a light business was transacted in Seeds. There was rather a limited demand for Hog Products and the offerings were moderate. Sales of scattering lots to fill small orders, and prices were without material change. The exports for the week, compared with the corresponding week in 1903, exhibited increases of 1,150 brls Pork, 2,311,000 lbs Lard, and 2,342 boxes Meats. Hogs were in fair supply and prices lower. Cattle were marketed with considerable freedom. Choice beeves were steady and common grades lower. Receipts of Sheep were fair and prices steady.

FREIGHTS—Eastbound roads short of cars and are likely to be for some time. Rates are to advance 1½c on export and 2½c on domestic shipments effective December 5. This is the usual winter schedule. The present tariff is as follows:

	From Chicago.		From Miss. River.	
To—	Domestic.	Export.	Domestic.	Export.
Boston	19½	13½	22½	16
New York	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 5c per bu on Wheat and Corn.

Ocean rates on Grain are unchanged with a limited demand for tonnage. Rates on Grain are ¾@1d per bu from New York and 1d from Boston. Through rate on Wheat from Chicago to Liverpool is 6.27c per bu and Corn 6 15c. Flour 19c per 100 lbs and Provisions 35⅛c per 100 lbs.

Lake rates are steady, with a better demand for boats, at 1⅜c on Wheat and 1¼c on Corn to Buffalo. Offerings were smaller.

FLOUR—The Flour market was more quiet the past week, in fact there was a marked let up in the demand from all directions. Buyers evidently provided for their needs on the late advance, and this week were out of the market. In prices there was an easier feeling and concessions were in order where any quantity was involved. Stocks here in second hands are moderate, but most of the large dealers and consumers of Flour have considerable yet to come forward. The outside demand was fully as indifferent as the local call, and sales to Eastern and New England points show a considerable shrinkage. The large millers in the Northwest were more disposed to force sales and there was more disposition on the part of the smaller mills in the interior of the Northwest to consign Flour, indicating that stocks are accumulating. The foreign inquiry was slack and only an occasional lot was booked to go abroad. Local mills are not running to their full capacity, and the output in the Northwest the past week was reported 516,000 brls, as compared with 626,000 brls for the corresponding week in 1903. The week closed easy at the following prices:

MILLSTUFFS—There has been a fair demand during the past week, and the feeling rather steadier. The receipts were small. Bran in 100-lb sacks sold at $17 50, and quotable in bulk about $16 50. Middlings in 100-lb sacks sold at $17 00, and in bulk at $16 75. Shorts in 100-lb sacks sold at $17 50.

WINTER WHEAT—The market has been steady for choice Wheat during the past week, and easy for the poor and ordinary samples. No important changes occurred in prices. Only a fair business was transacted. Local millers have not been anxious to purchase, and have been out of the market most of the week. Some round lots of mixed grades were sold out of elevator, partly for milling and partly for shipment. Speculators bought moderately. The stock of No. 2 Red in store was 297,000 bu, and a year ago was 1,037,000 bu. For the week receipts were 156 cars and 62,200 by lake. There were withdrawn from public elevators 140,050 bu, and from private warehouses 96 cars and 8,000 bu. No. 2 Red in store ranged during the week at $1 15@1 19⅛, and fresh arrivals free on board were quotable at $1 19@1 22, and sold billed through at $1 19. No. 3 Red fresh receipts free on board sold at $1 15@1 19—outside for very choice. No. 4 Red fresh receipts free on board sold at 95c@$1 03 for common to fair, and at $1 13½@1 16 for good to choice. No. 2 Hard fresh receipts free on board sold at $1 12 and ranged up to $1 13@1 16, with choice billed through at $1 17@1 18. No. 3 Hard fresh arrivals free on board ranged at $1 04@1 12, with a fancy car at $1 19, and sales at the river at $1 14. No. 4 Hard fresh receipts free on board sold at 90c@$1 12, a fancy car of soft sold billed through at $1 15½, and at the river at 95c.

SPRING WHEAT—A steady feeling existed for choice Wheat, especially the hard variety, but the poor Wheat has been very dull all the week, and for such prices were not favorable for receivers. There has been a fair business during the week, trading being held in check by the only moderate receipts. A fair demand existed for the choice Wheat, all the offerings being taken, especially the hard variety, which brought a premium. Some very poor, shrunken, light weight Wheat was again received, and that was found to be slow sale, and could only be disposed of at a very large discount. The sales of No. 4 during the week showed a range of 12c between the poor and the best. The receipts for the week, including Colorado Wheat, were 210 cars, against 222 cars the previous week. There were withdrawn from public elevators 45,200 bu and from private warehouses 19 cars. No. 1 Northern fresh arrivals free on board were quotably at $1 17@1 21. No. 2 Northern fresh arrivals free on board sold at $1 15, and was quotable at $1 14@1 17. No. 3 Spring fresh receipts free on board sold at $1 10@1 16, with ordinary quotably as low as $1 05, sales at the river at $1 03@1 12. No. 4 Spring fresh receipts free on board sold at 60@75c for poor, at 85c@$1 00 for common to fair, and $1 10@1 12 for good to choice, with sales at the river at 70c@$1 03. No Grade sold at 61c.

REGULAR WHEAT—The Wheat market attracted a fair amount of attention the past week, though transactions at times were a good deal on the professional order. Feeling, all things considered, was weak and the close shows December off 1¼@1⅜c, while May lost 1⅞@2c. The situation at the start was strong, influenced to a great extent by fears of political complications in Europe owing to the Baltic fleet incident. "Shorts" were greatly disturbed at the unsettled conditions abroad and hastened to provide for outstanding contracts, under which the December sold to $1 16⅜ and the May to $1 15⅛. Routine statistics were looked upon as rather "bullish" and Hessian fly stories were quite numerous from Southern Illinois and parts of Kansas and Missouri. World's shipments were fair at 10,920,000 bu, Russia contributing 4,720,000 bu, against 11,368,000 bu the previous week and 12,832,000 bu one year ago. The quantity on ocean passage decreased 1,408,000 bu and is now 36,056,000 bu, compared with 30,784,000 bu in 1903. The visible supply increased 1,238,000 bu, against 169,000 bu increase last year. Total is now 24,655,000 bu, against 22,481,000 bu in 1903 and 29,918,000 bu in 1902. Local public stocks decreased 83,000 bu and now include 2,282,000 bu, compared with 1,856,000 bu same date in 1903. Stocks here in all positions reported 4,503,000 bu, a decrease last week of 257,000 bu. Stock one year ago 5,582,000 bu. Contract stocks decreased 61,752 bu, and now include 1,474,518 bu, compared with 1,178,815 bu. *Bradstreet's* available supply increased 3,539,000 bu, against 4,471,000 bu increase same week in 1903. The Liverpool *Corn Trade News* on Oct. 11 made a careful annalysis of the distribution of Wheat in Europe the first two months of this crop season, indicating 8,304,000 bu weekly for the eight weeks, against 8,240,000 bu last year and 8,464,000 bu two years ago. Stocks of Wheat in public warehouses in Liverpool were reported at 4,448,000 bu, against 4,240,000 bu one week ago and 2,920,000 bu one year ago. Advices from the Southwest as to farm reserves and the prospective movement were "bullish," Kansas City Grain people estimating that there was only 9,000,000 bu Wheat left in Kansas that can come to market. They estimated the crop at 60,000,000 bu, of which 33,000,000 bu has been marketed. Seed requirements and home consumption are 18,000,000 bu, leaving 9,000,000 bu to be handled the next eight months. Around $1 16¼ for December and $1 15 for May speculative offerings increased, while the demand slackened and values gradually settled back, the former reacting to $1 13 and the latter to $1 11¼. The subsidence of the war talk in Europe, indifferent attitude of the English markets to the bulge on this side and reports of unsatisfactory milling conditions in the Northwest were among the "bearish" influences. Local as well as outside "longs" liquidated their holdings and the situation turned weak. Foreign crop news was in the main favorable. *Broomhall's* weekly foreign crop summary cabled on Tuesday said: "United Kingdom, France and Germany—Fall seeding is progressing favorably. Supplies of native Wheat are moderate to fair. Italy and Spain—The weather has generally been seasonable, although there are some complaints of drouth. Roumania and Hungary—The winter crops are starting well as the result of beneficial rains. Russia—Weather conditions favor fall seeding, except in a few sections in the South and Center. Receipts at the ports are fluctuating. Argentine and India—No fresh news has been received, but it is believed the crops are making normal progress." Buenos Ayres *Handels Zeitung*, of Sept. 12, said: "Outlook for next Wheat crop is becoming more promising every day. The parched districts of Cordoba have, during the last week, had abundant rain, which although late, is still in time to save a large portion of the crop. An official report from Sante Fe predicts a splendid crop. The strong July and August frosts have not damaged the young plants, but have done good in preventing too rapid growth and in checking weeds. The only fears of farmers are on account of a probable invasion of locusts, which, however, have so far not advanced to an extent to cause alarm. In view of the above reports and the increased acreage under Wheat this year, the prospects point to an almost certain exceptionally abundant yield in the said provinces." Primary receipts this week were liberal and from June 27 to Oct. 24, aggregate 91,175,000 bu, against 82,723,000 bu in 1903, and 115,396,000 bu in 1902. Exports this week were 1,480,000 bu and since July 1 foot up 23,166,000 bu, compared with 53,493,000 bu for the same period in 1903. A local Grain man just back from a week's trip over Ohio to ascertain the prospects of there being any Wheat to handle in that State next year says of his discoveries: "I never saw growing Wheat look any better, and there was but one story everywhere—that the growing crop is in perfect condition. I heard no complaint of Hessian fly in any section. There is little Wheat coming forward in that State, but the millers are getting fair supplies from the West, and so far as I could see have fair stocks. They have sold a good deal of Flour ahead, but say they cannot get shipping directions." Argentine shipments this week were 984,000 bu, and since January 1 foot up 86,125,000 bu, against 60,200,000 bu one year ago. The visible there is now reported 2,644,000 bu, against 2,688,000 bu one week ago, and 2,688,000 bu one year ago. Crop advices from there were very satisfactory.

CORN—The Corn market was fairly active the past week and the close shows the December ¼@⅜c higher, while May declined ⅛c, compared with final figures of last Friday. Transactions, as has been the case now for some weeks past, were principally for local account and sentiment was very much mixed, though fluctuations were comparatively narrow. Rather a firm undertone existed most of the week, the small receipts and steadily decreasing supplies, coupled with the strength in Wheat, all combined to create some uneasiness among "shorts" and the buying was of better character than the selling. The strong position of the cash article and scarcity of cargoes also acted as a stimulating influence to the speculative market. Shippers paid 4@4⅛c over December for cargoes of No. 2, while No. 3 Yellow sold at 7c over that delivery in store. Foreign markets were stronger at the time, no doubt due to the Baltic fleet incident, and was an indirect "bull" help. Under a fair miscellaneous demand and moderate speculative offerings December advanced to 50¾c and May to 46¾c. Routine statistics were construed as "bullish" and had a stimulating influence on values, and December "shorts" again displayed considerable uneasiness. The premium of December over the May again widened out to 4⅛c. World's shipments were moderate at 3,690,000 bu, against 4,080,000 bu last week and 3,909,000 bu one year ago. The quantity on ocean passage decreased 316,000 bu, and is now 19,408,000 bu, against 18,512,000 bu one year ago. The visible supply decreased 759,000 bu, against 1,087,000 bu decrease same week in 1903. Total is now 3,440,000 bu, against 7,324,000 bu in 1903 and 2,488,000 bu in 1902. Local public stocks decreased 261,000 bu, and now include 1,490,000 bu, against 1,775,000 bu in 1903. Stocks here in all positions reported at 2,646,000 bu, a decrease last week of 666,000 bu. Stock one year ago 4,655,000 bu. Contract stocks decreased 204,000 bu, and now include 1,486,000 bu, against 1,446,000 bu in 1903. *Bradstreet's* available supply decreased 1,169,000 bu, compared with a decrease of 1,381,000 bu same week in 1903. Stocks of Corn at Liverpool were reported at 788,000 bu, against 856,000 bu one week ago and 412,000 bu last year. Receipts at the principal accumulating centers through the West were small the past week, being much less than the quantity marketed for the same period one year ago. Weather conditions were favorable for maturing the new crop, and husking is progressing rapidly. New Corn commenced to move this week, and the quality of the first arrivals was much better than a year ago at this time. Receipts here this week were only [illegible] cars, against 644 cars last week, and 2,323 cars a year ago. The first cars of new Corn were received on Monday from Southern Illinois [illegible] graded No Grade and sold at 45@46c. The first cars received last year were on Oct. 26, graded No Grade, and sold at 40c. Around 50¾c for December and 46¾c for May realizing and profit-taking set in, which carried the former delivery back to 48¾@48⅞c and the latter to 45¼c. The break in Wheat and brilliant weather, together with the subsidence of the excitement in political circles in Europe, all had a depressing influence. Exports this week were small at 449,000 bu, and since July 1 aggregate 10,599,000 bu, against 18,4[illegible] bu one year ago. Bookings at the seaboard were moderate. Argentine shipments were again liberal this week at 3,188,000 bu, making 76,897,000 bu since January 1, as compared with 63,729,000 bu one year ago. The visible supply there was reported [illegible] bu, against 4,054,000 bu the week previous and 3,944,000 bu one year ago. The call for car lots was brisk all the week, and offerings sold readily at relatively higher prices.

OATS—Were more actively traded in and prices average higher. The strength in Corn, reduced offerings here and in the country, a falling off in receipts sold a decrease in the stocks at Chicago and in the available supply, the first in over two months, created a more friendly feeling toward the buying side. "Shorts" were more disposed to cover and professionals take the buying side on the breaks. May sold between 30⅝@31¾c and closed at 31⅝c, gaining ⅛c. December closed at 29⅛c, and the difference widening [illegible]. October was bid up by cash interests to ⅜c [illegible] December, with hardly a trade. Trading [illegible] started in July at ⅛c under May. Shipping demand has improved. Reports from the interior of Illinois say the bulk of the crop has left farmers' hands. The available supply showed a decrease of 317,000 bu, compared with 292,000 bu last year. The visible supply increased 646,000 bu and is 24,435,000 bu, against 7,622,000 bu last year. Stocks in private elevators in Chicago decreased 1,117,000 bu, and are 10,009,000 bu. Stocks in all positions decreased 998,000 bu, and of contract increased 175,000 bu being 3,698,000 bu. In the sample market offerings were picked up readily and prices advanced ½@¾c, after the early break of ¾c, but the gain was lost. Receipts for the week were [illegible] cars, against 896 cars the previous week and [illegible] cars last year. Export clearances were 58,7[illegible] bu against 62,130 bu the previous week, and 188,00[illegible] bu last year.

RYE—No change of consequence occurred in this market during the past week. Trade was light and the market, generally speaking, has been quiet. For some reason the market for futures has been rather neglected—buyers and sellers at least sufficiently apart in views to prevent trading, and very little business was done in a speculative way. On the other hand, cash, the fresh arrivals, met with a good demand by the various interests and was taken up readily. The best samples were picked up generally by millers and distillers, and the other lots mostly by speculators. The receipts for the week aggregated [illegible] cars, against 54 cars the previous week. There were withdrawn from public elevators 7,[illegible] bu and from private warehouses 8 cars. The visible supply increased 132,000 bu, and was reported at 1,651,000 bu, against 1,021,000 bu a year ago. Local stock in store was 657,000 bu, and a year ago was 231,000 bu. No. 2 in store ranged at 78@79½c and fresh arrivals free on board sold at 81@82c outside for choice. No. 3 sold free on board at 79@81½c, and at the river at 79c. No 4 sold at 75c. For future deliveries of No. 2 there has been very little doing. October was nominally 78½c until at the close, when a sale was made at 79½c. December sold at 79@80c. May nominally 81c.

BARLEY—There was a large falling off in business compared with previous weeks this season. This was due to smaller receipts. Falling off in offerings was very marked, and was generally accepted as the result of the low level of prices at which the main business has been done for some time. Decrease in offerings was mainly in the lower grades, the better qualities having been in small supply all the time. A firmer feeling came over the market; at the same time price changes were not important. Buyers of feed or extra Barley got very little, though looking for it and ready to pay the advanced figure noted at the opening, and there was ½@1c improvement in the grade over a week ago. Trading was at 37½c for mainly for good; a little heavy brought 3[illegible]c, and occasionally a few cars of thin or seedy would go at 35@37c. There was a small trade in Screenings over a range of 28@37c for poor to choice. Sales mainly at 29@32c. Offerings of Screenings only moderate and demand the same. Lower grades of malting improved about 1c. from 38@39c on the inside to 39@40c, and little finally was done on account of scarcity. Fair yet small berry, or else dirty depending on color, improved from 39@40c to 40@41c; good malting, though not heavy or good color, ranged at 42@45c; choice to fancy spot cars sold occasionally at 48@52c, and some fancy Wisconsin to arrive brought up to 54½c. To-arrive lots were quiet. Offerings were small, and where there were offerings holders usually asked about the views of buyers. There is no doubt but what a good deal of Barley, under grade, this season has sold at prices that not only have left no profit but often have made losses for country buyers. It seems to be the impression now that the market is on a safe basis. The fact of the offerings becoming so much smaller did not seem to excite buyers of malting Barley. They had bought a good deal and were easy for supplies. Light receipts continued a little longer, however, might have a good deal of effect. Receipts for the week were [illegible] cars, compared with 367 cars the previous week and 272 cars two weeks ago. No output reported against 29,600 bu the week before. The output of the previous week caused 30,015 bu decrease in local regular stock, putting it at 11,714 bu; a year ago there was about the same quantity, or [illegible] bu. Visible supply increased 486,000 bu, and was reported as 6,052,000 bu, compared with 5,054,000 bu the corresponding time last year. New York reported exports of 37,461 bu; week before, 48,16[illegible] bu.

SEEDS—There were no important changes. The main trading was in Timothy for which an easy feeling prevailed early and later the market became steady, but there was no fluctuations to speak of. In other Grass Seeds there was nothing of consequent done and nothing new noted. Flax prices suffered some decline early which later was recovered, but the market was devoid of any business of note.

Timothy—There was a steady market. Prices changed very little. At the prices at which early in the week there were sellers there were afterward buyers. A fair volume of new business for March delivery was done. There were fair buying orders, and sellers met them. Some Timothy was

changed from January delivery to March at 20c premium for the latter. Such were the conditions presented on the speculative market. A fair business was done in cash Seed, and at prices were very much the same as those quoted at the close of last week. Arrivals were not so heavy as they have been. They were apparently however, more than equal to trade needs when comparing output with receipts. Contract cash or October Timothy was usually $2 60, early it was sellers and later buyers at that. January sold, mainly in exchange at $2 70 and that was bid. March sales were made to a fair quantity in exchange and otherwise at $2 80 closed at $2 80 bid. Cash values kept within about the same range all the time. Country lots in the fresh market were quotable at $1 85@2 55 for poor to fancy; inferior lower; fair to good, $2 30@2 35; high-grade Seed, $2 40@2 45, and rough, dirty or hulled, $2 15@2 25.

Receipts and shipments were as follows:

Receipts the past week, lbs	1,841,080
A week ago	2,411,700
Two weeks ago	2,051,451
Corresponding week last year	1,646,212
Shipments the past week, lbs	331,120
A week ago	385,140
Two weeks ago	1,276,075
Corresponding week last year	279,925

Flax—There was very little to the market. Transactions were very limited, confined to a few cars of cash and an occasional small lot for future delivery. The changes in prices were unimportant, and influenced as much by news from the Northwest as anything else. Movement to and from this market was very small. Some net decrease appeared in stocks. There was no change here, 16,647 bu being reported; this was the same as a week ago; last year there were 126,214 bu here. Duluth decreased 292,931 bu, reporting 4,268,200 bu, and Minneapolis with 180,320 bu increase had 604,-166 bu. No. 1 cash had nominal quotations during the week of $1 09@1 10; closed at $1 10. No. 1 Northwestern declined from $1 16½ to $1 15½, reacting to $1 16½. Rejected was quoted at $1 07@1 13 depending on quality, but none offered and nothing was done. October delivery was called $1 10 early, $1 09 later, and closed at $1 10. December sold sparingly at $1 12, and closed at $1 12½.

Clover—There was a little more Clover on sale. Dealers reported the country offering a little more. There was a somewhat unsettled easy feeling. The market at the same time was without any particular price changes. The few cash lots received sold over a very wide range; some poor Seed sold very low. During the week prices were quoted over a range as follows: Contract grade, spot or October delivery quotable at $12 15. Country lots common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good $10 35@11 50. Movement for the week was as follows:

Receipts—The past week, lbs	145,099
A week ago	265,670
Two weeks ago	79,200
Corresponding week last year	184,900
Shipments—The past week, lbs	175,880
A week ago	225,490
Two weeks ago	226,202
Corresponding week last year	89,480

Other Seeds—There have been very meager offerings, in fact hardly any of late sowing Seeds on the regular market. Trade has been stagnant and values about nominal with no changes. Daily quotations are in table which appears elsewhere. Movement both ways was smaller than for a few weeks past, though comparing favorably with a year ago.

Receipts the past week, lbs	326,000

BUCKWHEAT—There was a car or so received, of good quality and $1 35 per 100-lbs was paid for it. At this figure good Wheat spot was salable, but no bids made for lots to arrive.

HAY—The receipts for the week were 7,298 tons, against 3,815 tons for the previous week. Shipments for the week were 176 tons, against 201 tons for the previous week. A quiet and steady market was experienced for Timothy Hay during the past week. The offerings were liberal and demand very fair, especially for the best grades. Prices show no material change. Choice Prairie Hay was in light supply and the inquiry good. Prices steady. The market was overstocked with medium and poor grades, and the market ruled extremely dull. There was scarcely any demand and receivers experienced great difficulty in disposing of consignments. Prices declined $1 00@1 50 per ton. Quotations at the close ranged as follows: Choice Timothy, $12 00@13 00; No. 1 Timothy, $11 00@11 50; No. 2 Timothy, $9 00@10 00; No. 3 Timothy, $8 00@9 00; Choice Prairie, $11 00@11 50; No. 1 Prairie, $9 50@10 00; No. 2 Prairie, $8 00@9 00; No. 3 Prairie, $6 00@7 00; No. 4 Prairie, $5 00@5 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $7 50@13 00 for poor to choice, and $14 00 for fancy Timothy, $7 50 for Threshed Timothy. $4 50@5 00 for State, and $5 00@11 00 for poor to choice Kansas, Iowa and Nebraska Prairie Hay. Oat Straw sold at $6 25.

COOPERAGE—Trade in Cooperage is still on a limited scale, and prices are nearly nominal. Packers as a rule are not using many Pork Barrels at present, and as they have been removing Lard from tierces or placing it in tanks they have purchased few Lard Tierces, as they have a supply of second-hand packages to draw from. Offerings were fair in a quiet way, and there was no particular demand from any source. As a rule, holders insisted on former prices. Ash Pork Barrels were quiet and prices nominally steady at 97½c@$1 00. Oak Pork Barrels were in very light demand, and quotable at $1 07½@1 10. Lard Tierces were in small demand, and offerings were fair. Prices quotably easy at $1 25@1 27½. Iron bound Lard Tierces were quiet and quotable at $1 17½@1 20 for six hoop and $1 25@1 27½ for eight hoop. Oleo Tierces were quiet and prices were unchanged at $1 25@1 27½.

HOGS—The receipts of Hogs were slightly larger than during the week previous, and the quality was somewhat improved within the past three or four days. The market was rather active throughout the week, and the undertone to the market comparatvely easy. Packers purchased a good proportion of the offerings, while shippers provided for fair orders from the Eastern markets. Early in the week, the feeling was stronger, and prices ruled 10@15c higher, especially for the better qualities. Later, a weaker feeling was manifested, with increased offerings, and prices receded 25@30c and the market closed comparatively steady at the reduction. Sales during the week were made at $4 70@5 45 for light, $4 55@5 10 for rough packing, $4 60@5 60 for mixed, and $4 80@5 60 for heavy packing and shipping lots, with the bulk of the trading within the range of $4 90@5 45 for fair to good averages. At the close about 5,000 Hogs remained in the pens unsold. Pigs were in fair supply, and rather good demand, and sales were made at $4 40@5 15, according to size and condition. Supply at other large Western packing points was fair, and the quality fairly good.

PACKING—A fair business was transacted at the packing houses during the past week. Hogs were in larger supply, and prices were more favorable to buyers, and this feature encouraged packers to slightly enlarge their operations. Manufacture of Products was fair, but adjusted as closely as possible to descriptions most required for general trade. Mess Pork neglected. Other cuts of Pork were made in limited quantities. Lard produced in moderate quantities, and the average yield was only fair. A good share of the production placed in tanks or refined. Domestic cuts of Hams made in fair quantities, and only a small proportion sold from the block. Skinned Hams made moderately and the bulk cured by manufacturers. Foreign cuts of Hams neglected. Shoulders made in limited quantities, and a fair proportion sold from the block to the retail trade. Picnic Hams cut moderately, and the bulk cured by manufacturers. Long Clear Sides attracted very little attention, and Extra Long Clear Sides neglected. Short Clear Sides made sparingly. Extra Short Clear Sides cut in moderate quantities. Short Rib Sides met with a little more favor, and the production was increased. Extra Short Rib Sides made in limited quantities. Rough Sides cut a little more freely, and mainly of medium averages. Backs and Bellies made moderately. Loins cut in fair quantities to meet current wants. Foreign fancy and special cuts of Meats made very sparingly.

PROVISIONS Only a moderate speculative trade was reported in Hog Products during the past week, and the feeling was somewhat unsettled, and prices irregular. Outside orders were moderate, and local speculators and packers traded in only fair quantities. Bulk of the trading was in January and May contracts. Near deliveries were dull and somewhat dragging, owing to the slackness in the shipping demand. Hogs were in fair supply and prices averaged lower, with good prospects reported for the maturing Corn crop, and this encouraged "shorts" to increase their lines around outside figures. Returns of the packing of the West indicated an increase of 60,000 Hogs for the week, compared with the returns for the corresponding week in 1903. Foreign markets were quiet and rather dull, and slight concessions were reported in prices. Domestic markets were inclined to quietness, with merchants disposed to purchase very sparingly until colder weather sets in. The receipts of Products from the interior were fairly liberal, and the shipments were moderately large, and widely distributed. Exports reported for the week were fairly liberal—somewhat in excess of those of the corresponding week last year. Early in the week, the feeling was rather strong, and prices ruled slightly higher on all the speculative articles. At the appreciation, there was some inclination to sell, owing to the weakness in the Hog market, while the demand was moderate. A weak feeling was developed, and prices receded sharply all around. At the reduction, the demand improved, while there was less pressure to sell, and the market exhibited considerable strength. Prices rallied again moderately, but settled back slightly, and the market closed comparatively steady. Deliveries on October contracts were fairly liberal of Lard and Short Rib Sides. In the shipping branch of the trade there was very little business transacted. Exporters were virtually out of the market, owing to the quietness in foreign markets. Demand from the home trade was very light, and orders were generally for small quantities to meet current requirements. Offerings were moderate of all kinds, with sellers willing to grant moderate concessions. Supplies of all kinds are fairly large for the season of the year. Sales were limited. Prices were lower on nearly all descriptions.

Pork—Only a fair business was transacted in the market for Mess Pork during the week just closed. Offerings were fair in a general way, and the demand was moderately active. Near deliveries were quiet and rather dull. Bulk of the trading was in January and May contracts. Stock on hand quite liberal for the season of the year, and the manufacture neglected. Early in the week, the feeling was rather firm, with moderate miscellaneous buying, and prices ruled 7½@10c higher. At the improvement, offerings were enlarged, while demand was moderate, and an easy feeling prevailed. Prices gradually receded 30@35c on the whole range. During the latter part of week, rather more steadiness prevailed, while the offerings were not so free, and prices advanced 12½@15c, and the appreciation was fairly well supported to the close. Demand on shipping account was moderate in the way of filling small orders, and prices inclined in favor of buyers. At the close, cash lots were quotable at $10 90@11 00. Other cuts of Pork were in light request, and prices were unchanged. Stocks on hand are moderate.

Lard—Trade was fair in the market for Lard during the past week, and the feeling was somewhat unsettled. Offerings were moderately free at times, while the demand in a general way was only fair. Near deliveries were rather dull, and the deliveries on October contracts were moderately free. Foreign advices were unfavorable to holders, and the exports for the week were fairly liberal. Manufacture moderate. Stock on hand fair. Moderate trading in October, November and December contracts, and fairly good trading in January and May. Early in the week, the feeling was rather firm, with moderate miscellaneous buying, and prices were advanced 7½@10c on the whole range. At the advance, there was a little more inclination to sell, while buyers were a little backward, and a weak feeling prevailed temporarily. Prices gradually receded 22½@25c. At the reduction, the demand improved, while the offerings were only fair. Prices were advanced 7½@10c, but near the close settled back again 12½@15c, and the market closed comparatively steady at about inside figures. Demand on shipping account was rather light, and offerings were not very large. A few lots were accepted by exporters. Prices generally ranged at October figures. Refined was in light request for export, but prices were not made public. Loose lots were in good request, but the offerings were moderate. Holders firm in their views. Prices quotable at 17½@20c discount on January figures. Leaf Lard was in good demand, and the offerings were fair. Small trades were made at $7 25@7 50, and the market closed rather steady at $7 25. Neutral was called for moderately, and there was pressure to sell. Feeling was rather easy and prices were lower, closing at $8 75@8 77½ for No. 1, and $8 25@8 37½ for No. 2.

Short Rib Sides—Considerable interest was manifested in the market for Short Rib Sides during the past week, and the feeling was a little unsettled. Offerings were not very free, and the demand at times was fairly active. Trading almost exclusively in January and May contracts. A few trades were made for October at 5@10c decline, and the property delivered. Supply on hand fairly large, and manufacture moderate. Early in the week, the feeling was stronger, with fair miscellaneous buying, and prices were advanced 7½@10c. This improvement encouraged a little more selling, and a weaker feeling was developed. Prices irregularly receded 20@22½c on the whole range. At the reduction, there was a little more inclination to purchase, while there was less pressure to sell, and prices rallied 7½@10c, but settled back again toward the close 2½@5c, and the market closed comparatively steady. The demand on shipping account was limited, and offerings were not very free. At the close, cash lots were quotable at $7 12½@7 25, according to weight.

Green Meats—Only a limited business was transacted in Green Meats during the past week, and the feeling was dull. Offerings were moderate, and the demand was comparatively light. Buyers and sellers somewhat apart in their views. Local curers not inclined to purchase to any extent, and outside orders were very small, and for limited quantities. A little demand for future delivery, but packers not inclined to trade, and prices were entirely nominal. Prices inclined in favor of buyers. Hams were called for sparingly, with moderate offerings, and prices ruled about ⅛@¼c lower. Skinned Hams were quiet and dull and prices ruled ⅛@¼c lower. Shoulders were in small request and prices slightly lower. Picnic Hams were called for sparingly, and prices were about ⅛c lower. Bellies were quiet and prices ruled ⅛@¼c lower.

Pickled Meats—Little interest was manifested in the market for Pickled Meats during the past week, and the undertone to the market was easy. Buyers were favored with few orders, and were backward about paying former prices, while the offerings were moderate, with buyers a little slow to grant concessions. Foreign advices were unfavorable to holders, and prices of Hams were reduced 1s. Orders from that quarter were small, and for special descriptions. Merchants in the domestic trade slow to purchase. Supplies of all kinds were fairly large. No trades made public for future delivery. Hams were in small request, with fair offerings, and prices ruled about ⅛c lower. Skinned Hams were in moderate supply, and slow sale at ⅛c decline. Shoulders were in small demand and dull at ⅛@¼c decline. Picnic Hams were called for sparingly, and prices ruled ⅛@¼c lower. Bellies were in rather light demand and prices declined ⅛@¼c.

Dry Salted Meats—Only a limited business was transacted in Dry Salted Meats during the past week, and the feeling was dull. Offerings were moderate, and the demand was quite light. Exporters were virtually out of the market, and the advices from that quarter indicated a quiet feeling. Domestic markets were rather dull, with merchants indifferent about purchasing. Supplies of all kinds are fairly large. Foreign cuts of Hams were neglected and prices favored buyers. Shoulders were light demand and prices ruled ⅛@¼c lower. Long Clear Sides inactive, and prices were nominally ⅛@¼c lower. Extra Long Clear Sides neglected. Short Clear Sides in small demand and offerings somewhat limited. Prices without material change. Extra Short Clear Sides were in light demand with moderate offerings, and prices ruled slightly lower—closing $7 20@7 25. Extra Short Rib Sides were called for moderately, and offerings were not very large. Prices inclined in favor of buyers, and closed at $7 10@7 15. Rough Sides were called for in small quantities, and offerings were moderate. Prices ruled lower, and closed at $7 12½@7 25 according to weight. Plates were in rather light demand, and prices ruled ⅛@¼c lower. Butts rather dull and prices ⅛@¼c lower. Backs were in small demand, with moderate offerings and prices favored buyers. Bellies were in small demand, with no particular pressure to sell, but prices are easier. Foreign fancy and special cuts of Meats were quiet and dull, with prices generally ⅛@¼c lower.

Smoked Meats—Trade was moderate in the market for Smoked Meats during the past week, and the feeling was easier. Offerings were moderately free, and the demand was somewhat limited. Stocks fairly liberal. Hams were in moderate request and slow sale at ⅛@¼c decline. Skinned Hams were in rather light demand and dull at former figures. Shoulders were in small request and prices about ⅛c lower. Picnic Hams were in moderate demand and prices ruled about ⅛c lower. Sides of all kinds sold slowly and prices were reduced ⅛@¼c all around. Breakfast Bacon in moderate demand and prices ruled rather steady.

Beef Products—Trade was only moderate in the market for Beef Products during the past week, and the feeling was rather steady. Offerings were moderate, while the demand was only fair. Cattle were in rather good supply, and prices ruled steady, especially for the better qualities. Foreign markets were comparatively steady. Domestic trade was moderate. Shipments of Dressed Beef were fairly large. Beef Hams were in moderate request, and prices ruled steady. Extra Mess Beef in small demand and prices were unchanged. Plate Beef in small demand and prices rather steady. Extra Plate Beef in light request, and prices favored sellers. Tallow was in moderate demand, with a little pressure to sell, and the feeling easier. Prices declined about ⅛@¼c on all grades. Oleo-Stearine was in moderate request, with fair offerings. Prices ruled ⅛@⅜c lower closing at 7¼@7⅜c.

Greases—Only a limited business was reported in Greases during the past week and the feeling was dull. Offerings were moderate, and the inquiry rather light. Prices inclined in favor of buyers, especially for the lower grades.

New York bankers active in Chicago Terminal have no special reason to give to account for the sudden advance in price of the common and preferred stock It was stated by inside interests that there will be no receivership and no assessment, and that the January interest will be met without trouble.

It is declared at Pittsburg that in order to secure control of most of the Iron and Steel trade of the world the United States Steel Corporation is seeking to corner the Coke market and is buying Coke in the open market in large quantities. Coke is a large factor in the production of pig Iron, and a Coke corner would mean a pig Iron corner

The *Wall Street Journal* says: "We understand that Erie has offered to buy the $13,000,000 bonds of the Cincinnati, Hamilton and Dayton at 125 The offer is on the basis of $16 250,000 collateral trust 4 per cent bonds The stockholders in Cincinnati, Hamilton and Dayton are holding out for a 5 per cent bond, believing that their property is worth more than Erie offers "

Money rates in Chicago are unchanged at 4½ to 5 per cent and demand is dull Some bankers claim their loanable surplus so far as the city loans are concerned is practically no larger than it was a year ago, but country balances and the funds usually distributed throughout the interior at this season have piled up More call for funds is expected after the election

The Louisville correspondent of the *Northwestern Miller* writes as follows under date of Oct 24. "A drouth of over a month's standing has been broken in the large Wheat section east of Louisville Much of the Wheat which was sown early failed to come up, and the farmers almost to a man are now resowing Still more rain is needed to make the prospect at all satisfactory "

Trunk line opposition to the purchase of the New York Ontario and Western Railroad by the New York, New Haven and Hartford Railroad has developed Had it not been for this interference it is probable that the deal would have been consummated, Thursday If the New Haven is finally permitted to take the Ontario it will be upon such terms that the traffic arrangements of the trunk lines will not be seriously disturbed.

The New York *Market News* says: "A letter from the Dunlop Mills of Richmond, Va., says that they have been offered very fine Russian Wheat at $1 05 c i f Newport News, equal to $1 30, duty paid. They assert that this Wheat has fully 5c per bu better grinding quality than domestic Wheat for which $1 20@1 30 has to be paid. They express the belief that as much foreign Wheat may be imported as there is domestic Wheat exported."

A dispatch from Lima, Ohio, says: "The Lima Savings Bank and Trust Company failed to open, Friday, because of inability to meet its clearings and the demand that it take up $3,000 of rediscounted paper The stock, which is $50,000, is largely held in Toledo The president wired from there that he has made arrangements to pay depositors Saturday The last statement showed the resources to be $109,316; liabilities, $109,316 "

The Kansas City correspondent of the *Northwestern Miller* writing under date of Oct 24, says: "Reports of Hessian fly in the Wheat are already at hand, some of them coming from Central Kansas and others from Southwest Missouri. The 'elephant bug,' 'barber worm,' and other pests have not yet reported for duty on the new sowing, but the cinder beetle is said to be eating the iron parts of threshing machines and other harvesting machinery in Western Kansas, and, with the rats climbing up the Corn stalks and eating the Corn in Missouri, there appears small hope of anything being left against the time of another harvest "

The Portland correspondent of the *Northwestern Miller* writes as follows under date of Oct 21: "The weather has been perfect for the farmers this month, and they are making the most of it. High prices have resulted in a larger area of fall Wheat than was ever sown in Oregon, Washington and Idaho, and every day witnesses an immense addition to this area. In the Palouse so eager are the farmers to get in the largest possible acreage, while the weather is favorable that they are plowing far into the moon-lit nights and are up before the dawn The early-sown fall Wheat has secured a splendid stand and a rank growth, in some favored localities being already four inches high."

A comparison of exports of Flour and Wheat from Atlantic and Pacific ports this season to Oct 22 shows striking losses Wheat exports from the Atlantic coast have decreased 23,500,000 bu and from the Pacific coast 1,375,000 bu The exports of Flour are 355,000 brls less from the Pacific and 2,757 000 brls less from the Atlantic coast. The aggregate decrease in Flour from both coasts is 3,115,000 brls and Wheat 24,886,000 bu. Details compare as follows:

	Flour, brls 1904	Flour, brls 1903	Wheat, bu 1904.	Wheat, bu 1903.
Atlantic	2,518,300	5,275,700	4,000,000	27,511,000
Pacific	847,800	1,205,900	1,115,000	2,490,000
Totals	3,366,100	6,481,600	5,115,000	30,001,000

The Cincinnati *Price Current* says: "The averages for the ten years show that a bushel of Wheat in value was equivalent to 1 87 bu of Corn, 2.68 bu of Oats, and 1 44 bu of Potatoes The present position of Wheat represents the equivalent of 2.10 bu of Corn on temporary situation and 2 41 bu on the recognized future basis, 3 93 bu of Oats, 2.71 bu of Potatoes. The total of the annual value of one bushel each of Corn, Oats and Potatoes represents the equivalent of 1 61 bu of Wheat at the annual average The total value now of one bushel each of Corn, Oats and Potatoes represents the equivalent of 1.10 bu of Wheat—and if the price of Corn be modified in the calculation to a position consistent with the prospective price of this Grain, based on May quotations, the three bushels of Corn, Oats and Potatoes would but slightly exceed in value the one bushel of Wheat."

The United States Steel Corporation will benefit greatly this year from the increased earnings of several of its subsidiary companies which heretofore have not done so well. Through its railroad and water transportation lines it will realize more direct benefits this year than for any period since the corporation was organized This is notably the case with the rail lines In the instance of the Duluth and Iron Range and the Duluth, Missabe and Northern the corporation has received in dividends this year over $8,000,000 from the operation of less than 325 miles of road. The other lines, while not paying to this extent, have all made good money, and the net returns from the Pittsburg Steamship Company will doubtless exceed the record of last year and may go as high as the returns of 1902, when the gross was over $10,000,000 and the net in proportion The corporation will also receive from the American Steel and Wire Company larger net returns than in 1903. There has been no let-up in the demand for the products of wire and the company has been busy the entire year, its product selling all season at good prices. Up to Oct. 19 the company's sales of wire for the month exceeded the showing of the month of September, and promised to be the largest of the year. For the calendar year the wire company will return to the corporation net profits much larger than the year's return from the Steel rail mills, which in 1902 and 1903 were heavy profit makers

A dispatch from Sault Ste. Marie, Mich., says: "Francis A. Clergue, who has been styled by magazine writers as the 'Jason of Algoma' and the 'Wizard of the North,' was not removed from the financial horizon by the collapse of the Consolidated Lake Superior Company something over a year ago. He is planning to build one of the biggest paper mills in the country on the Michigan side of the river. In banking circles here it is stated that ground for the plant will be broken this fall and that Eastern capitalists are interested Clergue is also promoting a big Coke plant for the Michigan Soo that will consume about half a million tons of Coal annually and give employment to hundreds of men Gas mains to carry one of the by-products of the industry through the city are already being laid and Clergue has filed with the city clerk a $5,000 fidelity bond as a guarantee that the undertaking will be carried to a finish. Mr. Clergue is also interested in a proposition to establish a wire mill in the Soo, the ore for which will be smelted by electricity from the big power canal. It is also announced that a railroad will be built from the Soo to Detour Attorney M. F McDonald of this city and W. D. Hitchcock, a Detour capitalist, have gone to New York to complete the financial arrangements and construction will be started right away. This will give the upper peninsula an all winter outlet to Lake Huron, which will be important to the big manufacturing interests rapidly centering in this part of the State "

ITEMS OF GENERAL INTEREST.

New York Exchange par.

Documentary Sterling firm at 483.

Chicago Bank Clearings to-day $30,21 ,027.

Gold engagements at New York to-day for shipment to Europe $3,700,000.

Deliveries on October contracts to-day were 750 tcs Lard and 750,000 lbs Short Rib Sides.

Mecker Bros., brokers, Columbus, Ohio, reported failed to-day, assigning to Edward T. Powell.

Reported that 48,000 Wheat, 88,000 bu Corn and 40,000 bu Oats were taken at the seaboard to-day for export.

Ten packers purchased 15,000 Hogs to-day, shippers 5,000, left over 3,500. Market closed steady at the decline.

The packing at Milwaukee since March 1 is estimated at 510,200 Hogs, against 579,620 for the corresponding time in 1903.

Estimated receipts for to-morrow: Wheat, 131 cars; Corn 117 cars; Oats, 186 cars; Rye, 10 cars; Barley, 102 cars; Hogs, 18,000.

Average price of good Beef Cattle at Chicago for the week $5 15, against $5 40 the previous week, $4 85 a year ago, and $5 80 two years ago.

The quantity of Flour and Wheat on passage to Europe during the past week decreased 3,204,000 bu, and the quantity of Corn decreased 988,000 bu.

Exports of Flax Seed from India the past week were 1,288,000 bu, compared with 210,000 bu for the week previous, and 136,000 bu for the corresponding week in 1903.

The stock of Flax Seed at Duluth on Oct. 29 was 4,749,237 bu, compared with 4,268,200 bu the previous week, an increase of 481,037 bu. Stock last year, 3,673,235 bu.

The average weight of the Hogs received at Chicago last week was 226 lbs, against 229 lbs the previous week, 237 lbs the corresponding week in 1903, and 230 lbs in 1902.

Cotton in New York advanced early on buying by spot houses, but sold off on realizing sales. Wall Street operators bought on the decline. Closing sales were 5@7 points lower.

The death of E. F. GAYLORD, Esq., one of the younger members of the Chicago Board of Trade, occurred at his residence in this city to-day.

The death of BERNARD CURTIS, Esq., one of the older members of the Chicago Board of Trade, occurred at Burlington, Wis., Sunday, Oct. 30. For many years he was connected with the Grain trade.

Stocks of Wheat in public warehouses in Liverpool reported at 4,560,000 bu, against 4,448,000 bu one week ago and 2,600,000 bu one year ago. Stocks of Corn reported at 931,000 bu, against 783,000 bu one week ago and 752,000 bu last year.

Census Cotton report shows: Number of counties reported 668; running bales ginned in said counties 5,776,565, against 3,455,082 bales last year. Counting round bales as half bales total ginned in said counties 5,704,750 bales, against 3,345,702 bales last year.

Local Securities were weak and mostly lower for Biscuit preferred, Can and Swifts, the latter being sold on rumors that the recent Government investigation is unfavorable to the packers. The advances were in Carbon preferred and Diamond Match.

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were increases of 1,840,000 bu Wheat, 122,000 bu Rye, 346,000 bu Barley, and decreases of 391,000 bu Corn, and 436,000 bu Oats.

The Ontario elevator, Buffalo, N. Y., a wooden structure with a capacity of 400,000 bu, collapsed, Sunday, and fell into Evans' slip, blocking that channel. At the time of the accident there were in the elevator 375,000 bu of Barley, which was put in two days ago. The elevator is a total wreck, and the loss is placed at $350,000.

Stocks in New York were influenced by Gold exports and selling by London. The West was a good buyer of Erie and Rock Island, blocks of 10,000 shares being bought, and in all Western houses took 150,000 shares of various Stocks. Despite this buying prices declined. Western Railway shares receded ¾ to 2 points, Eastern 1¼ and the Industrials ¾ to 1¾. Money 2¼@2½ per cent.

East bound shipments of the past week are as shown in the following table:

	Flour, brls.	Grain, bu.	Prov. tons.
Past week	85,462	1,428,000	26,227
Previous week	75,997	1,503,000	27,478
Last year	75,430	1,776,000	33,023

The current surplus of assets over liabilities stood on July 31 last at $591,919, as compared with $70,238 on July 31, 1903. Owing to the completion of enlarged reduction facilities the output of the company for the current fiscal year will be largely increased, the net earnings of the company now being in excess of $200,000 per month.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—No improvement in the general situation, the trade continuing exceptionally small, and the feeling weak because of the general selling in Wheat.

WINTER WHEAT—The market was quiet and feeling generally weak. Choice held fairly steady, but ordinary Wheat 1@2c lower. Millers operated sparingly. No. 2 Red in store nominally $1 14@1 16, and fresh arrivals free on board quotably $1 16@1 18. No. 3 Red fresh receipts sold at $1 13@1 14½. No. 4 Red fresh receipts free on board sold at $1 00@1 09. No. 2 Hard fresh receipts free on board sold at $1 11½, and was quotable at $1 10@1 15. No. 3 Hard fresh receipts free on board quotable at $1 03@1 12. No. 4 Hard sold at the river at 90c.

SPRING WHEAT—Was quiet and prices 1@2c lower. Choice Wheat held steadier than the poor Wheat. Millers taking hold rather reservedly. No. 1 Northern fresh receipts free on board quotably $1 17@1 18. No. 2 Northern fresh arrivals free on board quotable at $1 10@1 16. No. 3 Spring sold free on board at $1 13½ for hard variety and ranged down to $1 00 for common, with a sale at the river at $1 07. No. 4 Spring sold free on board at 85@90c and hard variety at $1 10, with a sale at the river at 94c.

REGULAR WHEAT—Lower, December losing 1½c and the more deferred months ⅝c. The sharp dip in the December to a point almost on a level with the May was the feature of the day. They were nearly 1c apart at the close of Saturday. There was some reaction late on small "shorts" covering. Cash sales were 6 loads at the seaboard and 10,000 bu at Chicago. The selling of "long" Wheat and the putting out of "short" lines appeared to be popular in this market to-day. The heaviest selling was indulged in by a big "long" who has been "bullish" of late, and who by the way is said to have been right on the market ever since the first "bull" campaign was inaugurated. The buying was the reverse of the selling. Most of the Wheat to go overboard came from strong hands, while the buying was rather weak. The professional trade was the most important of the day. There was some buying on the soft spots in the way of taking profits. Cables were nearly all lower. Buda Pesth ⅜c, London 1¾d, Paris 1⅛@1¾c and Liverpool ⅝@¾d. Berlin was a single exception that market closing ¼c higher. Liverpool stocks increased 112,000 bu last week—this less than expected—the total there being 4,560,000 bu. World's shipments for the week were 10,856,000 bu, against 10,920,000 bu the week before, and 11,584,000 bu for corresponding week last year. The shipments last week were led by Russia with 6,144,000 bu, followed by America with 1,368,000 bu. These large Russian shipments are accounted for by advices from Liverpool on scare that holders there fear confiscation by Government and are anxious to rid themselves of the Wheat before it is taken out their hands by the authorities. There was a decrease in the amount of Breadstuffs on ocean passage of 3,264,000 bu during last week, leaving the total amount afloat destined for Europe and the Continent 35,392,000 bu, against 30,392,000 bu a year ago. The visible supply increased 1,840,000 bu for the week, the total in the visible now being 26,495,000 bu, against 22,216,000 bu for corresponding time a year ago. Weather indications are for continued clear and milder. Receipts at Duluth 218 cars at Minneapolis 917 cars, total of 1,135 cars, against 817 cars Saturday, 821 cars a week ago, and 1,336 cars last year. Local receipts included 26 cars Winter, 26 cars Spring and 21 cars mixed, a total of 73 cars, against 109 cars last year. Included in above were 1 car contract grade. There were also 13 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 131 cars. The withdrawals were 42,500 bu. Receipts at Western points were 1,528,266 bu, against 1,751,084 bu last year. At Eastern points 35,840 bu, against 194,061 last year. Shipments from Western points 390,198 bu, against 419,051 last year, and from Eastern points no bu, against 293,744 bu last year. Shipments of Flour were 17,086 brls. Exports of Wheat in Flour were equal to 76,887 bu.

Future Deliveries of Regular Wheat—Moderate trade and prices lower.

OCTOBER—Entirely nominal, and closed at about $1 09¾.

DECEMBER—Sold at $1 10@1 10⅛ and at $1 12. Opened with sales at $1 12 to $1 11¾; sold to $1 11¼, to $1 11⅜, to $1 10⅞, to $1 11, to $1 10½, to $1 10⅞, to $1 10¾, to $1 11¼, to $1 10@1 10⅛, to $1 10⅜, to $1 10⅛, to $1 10⅜@1 10½, and closed at $1 10⅛@1 10½.

MAY—Sold at $1 10@1 11—sparingly at the inside figure. Opened at $1 11 to $1 10¾; sold to $1 10⅞, to $1 10⅝, to $1 10⅜, to $1 10, to $1 10¾, to $1 10¼, to $1 10¾, to $1 10, $1 10¼@1 10⅜, and closed at $1 10¼@1 10⅜ asked.

JULY Sold at 95⅛@95⅞c. Opened at 95⅞c to 95¾c; sold to 95½c, to 95¾c, to 95½c, to 95⅞c, to 95¼c, to 95½c, to 95⅛c, to 95¼c, and closed at 95¼c asked.

CORN—Irregular, with the close much stronger than during the early hours of the session. Resting spots were ⅛c higher to ⅛c lower. Cash was slow with only 25,000 bu here and 11 boat loads at the seaboard. Reports from the Southwest say that Corn receipts will be heavy during December and that the Corn is likely to grade contract. There was some "long" Corn to come over during the early part of the session. The buying was led by the "bulls," and there were signs of profit taking by some of the people in the country who put out "short" lines at a higher level than that now prevailing. Primary receipts were 241,200 bu, compared with 703,029 bu a year ago. Clearances from the seaboard 36,612 bu. The present weather, clear and not very cold, is all that could be desired for the making of the crop, and it is a hindrance to the "bull" movement. World's shipments were 3,565,000 bu the past week, compared with 3,640,000 bu the week before and 4,008,000 bu a year ago. The amount of Corn on ocean passage decreased 988,000 bu for the week, and is now 18,120,000 bu, compared with 17,930,000 bu a year ago. Liverpool stocks increased 10,000 bu, and are now 931,000 bu. Local receipts were 90 cars, with 7 cars contract. Out of elevators 306,000 bu and 45 cars. Liverpool closed unchanged to ⅛d lower on futures. The visible supply decreased 381,000 bu for the week, and is now 3,040,000 bu, against 7,332,000 bu in 1903. Car lots were in light request and offerings only fair. Market rather dull and prices show a decline of ½@1½c from Saturday. No. 2 closed at 53¾c. No. 2 Yellow closed at 55¾c. No. 3 closed at 53½c. No. 3 Yellow sold at and closed at 55½c.

Corn by sample—Was in only fair demand and prices declined ½@1½c for old and 2@3c for new. Offerings moderate. Sales on track and free on board: No Grade sold at 43@46½c. No. 4 at 52@55c. No. 3 at 53½@55½c. No. 3 Yellow at 55½@56c. No. 2 at 55c. No. 3 White at 53@53¼c. Billed through: No. 4 at 52@54½c. No. 3 Yellow at 54@55¼c. No. 3 White at 53½c. No. 2 White at 53¾c.

Future Deliveries of No. 2 Corn—Irregular, with a rather strong tone late as compared with that earlier in the day. The close was ⅛c higher to ⅛c lower.

OCTOBER—Sold at 52⅛c and closed at 52⅝c nominal.

DECEMBER—Sold at 48⅛@48⅝c. Opened at 48⅜c to 48¾c, sold to 48½c, to 48¾c, to 48⅜c, to 48¼c, to 48⅝c, to 48¼c, to 48½c, closing at 48⅝c.

MAY—Sold at 44⅞@45⅜c. Opened at 45¼c to 45c, sold to 45⅝@45⅛c, to 45⅜c, to 44⅞c, to 45⅜c, to 45⅛c, closing at 45¼c asked.

JULY—Sold at 44⅝@45c. Opened at 44⅞c, sold to 44¾c, to 45c, and closed at latter.

OATS—Were weaker and prices receded ⅜@½c, and closed at a net loss of ⅛@¼c. Trading was best at the start. Liquidation by "longs" and selling by cash houses was a feature. Another thing that attracted attention was the selling of December and buying of May by cash houses widened the spread. Cash sales were 25,000 bu here and 40,000 at New York. The visible supply decreased 436,000 bu, showing the first reduction this season. Local stocks in public houses increased 50,000 bu and are 5,123,000 bu. Arrivals 131 cars, against 332 cars last year and 180 cars are expected to-morrow. Withdrawals were 19,800 bu and seaboard clearances 15,000 bu. Car lots to go to store were slow and ¼@½c lower. No. 4 White sold at 29¼@29⅜c. No. 3 28½@29½c. No. 3 White 30@30¾c. No. 2 at 29¼. Standard in store closed at 29c.

Oats by sample were in larger supply, slow sale and prices steady to ½c decline. Sales on track and free on board: No. 4 at 28½c. No. 4 White at 29½@30c. No. 3 at 28c. No. 3 White at 30@31½c. Standard at 30½@31¼c. No. 2 at 28¾@29c. No. 2 White at 31@31½c. Billed through: No Grade at 26c. No. 4 White at 29@29¾c. No. 3 White at 30@30½c. Standard at 30@31c. No. 2 at 28½@28¾c. No. 2 White at 30⅝c. At the river: No. 4 at 28c. No. 4 White at 27½@28¾c. No. 3 White at 28½@29¼c. Standard at 29@29¾c. No. 2 at 27¾c. No. 2 White at 29½c.

Future Deliveries of Contract Oats—Were weaker and lower.

OCTOBER—Closed at 29c.

NOVEMBER—Inactive. Closed at 29c.

DECEMBER—Sold at 28¼@28⅝c. Opened at 28⅝c, sold to 28¼c, to 28½c at close.

MAY—Moderately active. Sold at 30⅛@30⅞c. Opened at 30⅝c to 30⅞c, sold to 30⅜c, to 30⅝c, to 30⅞c, to 30¾@30⅞c at close.

JULY—Sold at 30½@30⅞c. Opened at 30½c, sold to 30⅞c, to 30¾c at close.

RYE—Ruled stronger, with fresh arrivals in good demand on local account, and futures also showed firmness. Only one car received and two cars withdrawn. No export clearances. The visible supply increased 122,000 bu. No. 2 in store nominally 79½c and fresh arrivals free on board sold at 81½@83c.

Future Deliveries of No. 2 Rye—Firm. October 79½c asked. December sold at 79¾c and closed at 79½c bid. May nominally 2c over December.

BARLEY—The week started in with the Barley market presenting no new feature. Offerings were moderate for Monday. Supply consisted mainly of low grade to good malting, very little choice, and not much of the grades below malting. Nothing urgent about the demand from any source, and yet there was enough inquiry so that consignments were salable. The trading was at former prices. Seventy two cars were inspected in. Visible supply increased 346,000 bu and shows considerably more than a year ago. Local stock did not change; only a small quantity in regular houses. Screenings quotable at 25@37c for poor to choice, with sales at 31@37c. Low grade Barley, feed, quiet and quotable at 37½c, heavy, nice cars possibly 38c and poor down to 35c. Malting, low grade, small berry, some heavy, but dirty, quotable at 38@41c; clean, fair to good, at 42@43c, and large berry, heavy, quotable at 45@48c, with choice to fancy 50@52c. Fancy in round lots possibly above.

SEEDS—The week opened with an exceedingly quiet market. An easy feeling for Timothy but no change especially, but Flax declined nominally and Clover was quoted a shade lower.

Timothy—Was dull. Market inactive aside from the sale of a car of cash Seed. Futures neglected; offered at former prices. Entire market dull and heavy. October delivery offered at $2 60, January at $2 70, and March at $2 80. Ten cars of contract Seed were submitted for inspection to-day and all passed as such. Cash Seed, country lots, quotable at $1 75@2 55 for low grade to fancy, inferior lower; fair to good, $2 30@2 37½; high-grade Seed, $2 40@2 45, and rough, dirty or hulled $2 15@2 25.

Flax—No business could be learned of for the market was bare of sellers. Prices at the same time declined 1c, bids being reduced on account of decline in the Northwestern markets. Local receipts only 2 cars or 1,800 bu, and none taken out. Receipts in the Northwest increasing. Minneapolis getting 151 cars and Duluth 107 cars. For No. 1 Northwestern $1 11 was bid and for No. 1 $1 07 bid. Rejected nominally $1 05@1 12, depending on quality. October was $1 07 bid and December offered at $1 10. No change in local stock last week.

Clover—A weak market was quoted. At other points prices were said to be on the decline. More Clover coming forward and yet open market offerings were small. The market for contract grade, spot or October delivery remains nominally $12 00@12 15. Country lots, common to choice, $7 00@12 00, very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—The market was without offerings. No trading and unchanged nominal prices as follows: Hungarian at 80c@$1 00 for common to choice. Millet, common, was quotable at 75@90c for common to choice, German at 85c@$1 10. Broom Corn Millet at 90c@$1 00, Siberian at 60@80c, and Early Fortune about 75@90c. Mustard about 75c@$1 00. Buckwheat, good milling spot about $1 35.

HOG PRODUCTS—Trade in Hog Products was on a moderate scale, and the feeling was rather easy. Hogs were in good supply and prices lower, and the Grain markets were easy. Offerings, however, were not very large, and there was no particular demand from any source. Outside orders were light, and local trading was moderate. Market in a general way opened rather easy, and prices ruled lower on all the leading articles. Later, a little more steadiness was manifested, and prices rallied slightly, but outside figures were not supported to the close. Trading mainly in the deferred deliveries. Receipts of Products were fair—of Lard and Meats about 19 cars. Shipments were quite small—of Lard and Meats about 12 cars. Receipts of Hogs at the leading Western packing points were estimated at 59,700 compared with 50,700 one year ago. Foreign markets were quiet and prices unchanged. Domestic markets steady. Demand on shipping account was light and offerings were moderate. Feeling dull and buyers and sellers apart in views. Sales small, and prices inclined in favor of buyers. Exports for the week, compared with the corresponding week in 1903, exhibited decreases of 1,240 brls Pork, 1,697,000 lbs Lard, and 2,672 boxes Meats.

Mess Pork—The market for Mess Pork was not very active, and the bulk of the business was on local account. Offerings were moderate and the demand was only fair, and chiefly for small quantities. Market opened rather easy, and prices ruled 5@7½c lower. Later, a steadier feeling prevailed, and prices rallied again 5@7½c. Toward the close the feeling was rather easy, and prices receded 2½@5c, and the market closed rather steady. Little demand on shipping account and offerings were small. Cash lots quotable at $10 90@11 00.

OCTOBER—Quiet, with small sales at $10 90.

DECEMBER—In light request and offerings were small. A few lots changed hands at $10 97½@11 02½, and closed quiet at $11 00.

JANUARY—Offerings were not very large, and the demand was moderate. Sales were made at $12 35@12 42½. Opened at $12 35, sold to $12 42½, to $12 37½, to $12 40, to $12 37½, to $12 40, and closed steady.

MAY—In light request, and offerings were moderate. Sales were made at $12 37½@12 45. Opened at $12 40, sold to $12 37½, to $12 45, to $12 45, to $12 40, to $12 42½ and closed steady.

Lard—Only a moderate business was transacted in the Lard market. Outside orders were small, and the local trading was light. Foreign advices were unchanged. Offerings were not very large, and the demand was only fair. Market was rather easy at the opening, and prices were about 2½@5c lower. Later, the feeling was steadier, and prices rallied 2½@5c but settled back to inside figures, and market closed quiet. Trading chiefly in small lots. Demand on shipping account was limited, with moderate offerings. Cash lots quotably steady at about October figures, closing at $7 02½@7 05. Loose lots in fair request with moderate offerings. Prices were quotable at 25c discount on January figures. Leaf Lard was in moderate demand, with fair offerings. Prices quotably lower at $7 12½. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 62½@8 75 for No. 1, and $8 12½@8 25 for No. 2.

OCTOBER—Quiet and steady, with small sales at $7 02½@7 10, and closed quiet at $7 02½.

NOVEMBER—Sold sparingly at $7 00.

JANUARY—Called for moderately, and offerings were only fair. Sales were made at $7 02½@7 07½. Opened at $7 05, sold to $7 02½, to $7 07½, to $7 02½@7 05, and closed steady.

MAY—Demand rather light and offerings were moderate. Sales were made at $7 15@7 17½. Opened at $7 15, sold to $7 17½, to $7 15, to $7 17½, and closed steady.

Short Rib Sides—Less interest was manifested in the market for Short Rib Sides and the feeling was not very strong. Offerings were only fair and the demand was somewhat limited. Trading was almost exclusively in the deferred deliveries. Prices ruled 2½c lower and the market closed steady around inside figures. October declined 40@42½c. Shipping demand was light and offerings were moderate. Cash lots quotable at $6 87½@7 00, according to weight.

OCTOBER—Dull and lower. Closed nominally at $6 82½.

JANUARY—In light request and offerings were moderate. Sales were made at $6 42½@6 45. Opened at $6 42½, sold to $6 42½@6 45, and closed steady.

MAY—Called for moderately and offerings were fair. Sales were made at $6 57½@6 60. Opened at $6 57½, sold to $6 57½@6 60, to $6 57½, and closed steady.

Other Meats—A limited trade was reported. Offerings were fair and demand was light. Domestic trade quite limited. Exporters not inclined to trade to any extent. Green Meats offered moderately, with a small inquiry, and prices were easy. Pickled Meats were in moderate request, with fair offerings, and prices favored buyers. Dry Salted Meats were in limited demand with fair offerings, and prices were lower. Smoked Meats called for moderately and prices ruled lower. Closing prices were as follows:

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Oct 18.]

United Kingdom—The rains of the last day or two have been generally welcome, for growers have already made capital progress with fall plowing and sowing, and the present higher temperature with the rains will give the new crop a splendid start. In some parts the Wheat plant is reported to be coming up thick and strong, but these fields are the exceptionally early ones. Speaking generally, we can still say that weather conditions in the United Kingdom continue most favorable for agricultural work, and it is confidently expected that our Wheat acreage will show a fair increase.

Russia—The Southwest, including the Crimea, still complains of drouth, but other districts appear to be well satisfied with present weather conditions. Smaller supplies to the ports continue to be mentioned, this being partly due to the fact that peasants are busy with seeding, and is partly the result of congestion on the railways. This congestion is very likely caused by scarcity of railway wagons, which are being used for the conveyance of war material to Manchuria. Exports keep large.

Roumania and Bulgaria—Seeding is making good progress under favorable weather conditions, and increases of the acreage under Wheat are mentioned for both countries. There was some decrease in the shipments last week, but the quantities are still relatively liberal.

Austria-Hungary—The weather continues favorable and fall seeding is making good progress.

France—Wheat seeding is making good progress with favorable weather and an increase in the area is predicted. Notwithstanding that this is the seeding period when growers are supposed to be much too busy in the field to do any threshing or attend market, larger offerings have been reported and prices have declined 6d to 9d per quarter. Some reports say that growers are fearful of a suspension of the import duty if prices are forced any higher, but our Dieppe correspondent gives the good Flour yield from this year's Wheat as the chief reason for the weakness.

Italy—Rain has been deficient in the North, but fair to good quantities have fallen elsewhere, the same being favorable where Wheat had been seeded.

Germany—Reports continue to mention very favorable weather for autumn seeding, and it is hoped that interior navigation will soon be resumed. The Potato crop is undoubtedly short, but better than was at one time expected. Hamburg continues to report good supplies of native Wheat, which are taken freely by the mills, but other centers say the trade is dull owing to a poor sale for Flour and smaller supplies in consequence of farmers being busy with seeding.

Sweden—The new crops have been seeded under favorable conditions. The latest official bulletin on crops just harvested shows that they were about an average, but in some parts of the country there are continued complaints as to quality.

Australia—Monsoon rains have now fallen generally in the chief agricultural States and crop prospects have improved.

Argentina—Cold weather prevailed during the latter part of last week and some frost was even mentioned. Some reports said this was injurious to the young crops of Wheat and Flax Seed, others that only Flax Seed was affected, and others again that it was splendid weather just what was wanted. Our own cable advice of last Friday reported favorable weather and splendid prospects, the new crops growing well. We think ourselves that Wheat is very unlikely to be hurt by any frost which may occur in Argentina at this time of the year.

India—We continue to hear that all is going well with this grower. Shipments are now running lighter.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 30 to 42; clear. Northwest—Temperature 22 to 46; clear. West—Temperature 31 to 46; clear. Southwest—Temperature 36 to 56; clear. Ohio Valley—Temperature 32 to 44; clear.

Weather forecast for 36 hours. Minnesota, fair, except showers northeast Tuesday. North Dakota, fair; warmer northwest. South Dakota, fair; warmer northeast. Iowa, fair to-night; warmer east. Kansas, fair; warmer north portion. Nebraska and Missouri, fair. Illinois, fair; warmer west. Indiana and Lower Michigan, fair; warmer Tuesday.

WORLD'S EXPORTS OF BREADSTUFFS.

ITEMS OF GENERAL INTEREST.

The American Chicle Company has declared the regular monthly dividend of 1 per cent on the common stock, payable Nov. 1.

The issue of any part of the $7,000,000 bonds by the Crucible Steel Company has been postponed until 1905, when the management believes a much better price than 95 and interest can be obtained.

A mortgage of $15,000,000 to the United States Trust Company, New York, has been filed by the Harlem River and Port Chester and the New York, New Haven and Hartford Railroad companies to raise funds for building the Port Chester Line.

The sensational buying of Lackawanna and Delaware and Hudson Railroad stocks in New York, Friday, was attributed to W. K. Vanderbilt and it was reported that an announcement of some deal between these roads and the New York Central would be made in a few days.

Objection to the purchase of the control of the New York, Ontario and Western Railroad by the New York, New Haven and Hartford has been overridden, and the Ontario is now practically a branch of the New Haven System. It is understood that a majority of the Ontario stock was taken over at $15.00 a share.

There are indications that another effort will be made to capitalize the timber and bark lands of the United States Leather Company. It is said the plan involves the formation of a new timber and bark company, and that its securities will be offered to preferred stockholders in payment of accrued dividends, which now amount to over 40 per cent.

An officer of American Steel Foundries states that the company has received a number of large orders for Steel castings, notably castings for fifty one engines for the San Pedro, Los Angeles and Salt Lake Road, averaging some twelve tons per engine; for 1,200 tons of castings for the Blackwell's Island bridge; for 400 tons of Government work, naval and war material, and for bolsters for upward of 7,000 freight cars.

A Leadville, Colo., dipatch, says: "What is said to be the greatest Silver strike ever known in this camp has been made in the Coronado mine. The ore body is said to extend over thirty acres and to be 145 feet in depth. The ore carries thirty ounces of Silver to the ton, and as it is easy to mine it is regarded as a bonanza."

A dispatch from Boston says: "So remarkable has become the demand for Wool in the Boston Wool market that many traders have been driven to seek the clip in the Argentine Republic. Another development has been the confirmation of the report that contracts are being closed for the clips of 1905 in the United States and in England, Ireland and New Zealand. In the opinion of many Boston merchants these conditions point to a big shortage in Wool."

The Pennsylvania Railroad has decided to increase the dividends of its allied properties next year. The next dividend on Norfolk and Western will probably be the regular 1½ per cent semi-annual, and the next dividend on Baltimore and Ohio will undoubtedly be 2 per cent semi-annual, but in view of the increased business Norfolk and Western will be placed upon a 4 per cent dividend basis next summer and Baltimore and Ohio on a 5 per cent dividend basis next winter.

W. B. Hawkins, president of the Burley Tobacco Growers' Company, in a signed statement says: "The death knell of the company is now ringing." The plans of the company, which was conceived to fight the Tobacco trust, contemplated storing the crops with the company and holding them for high prices, the company being given conditional backing in Louisville warehousing companies to the extent of $3,000,000. Hawkins says the backers have demanded by Nov. 5 a sufficient showing of crops contracted for to warrant financial support, which the apathy of the growers makes impossible.

PIG IRON PRICES ADVANCED.

NEW YORK, Oct. 27.—"Southern pig Iron producers seem to have gauged the market correctly when they advanced their prices to what appeared to be prohibitory figures," says the *Iron Age*. "The rising tide of the demand has been sufficiently strong to carry Northern prices up to a parity with Southern, and all sections have thus enjoyed a share of the heavy buying movement the past week. Sales are reported on the basis of $12, Birmingham, for No. 2 foundry, which two weeks ago would have been considered completely out of the question. Even this price, however, does not tempt the makers to book much business for next year's delivery. While large foundry interests have been heavy buyers of pig Iron, the greatest blocks have been bought by Steelmakers, particularly the manufacturers of plates, whose trade has been so decidedly improved by the numerous orders recently placed for Steel cars and lake vessels. Nevertheless, the foundries have done very well in the market, and now the cast Iron pipe makers are inquiring for a large tonnage. One machinery builder bought 20,000 tons the past week."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand only moderate and prices inclined to favor buyers.

WINTER WHEAT—There was a better demand and choice Wheat sold well. Prices ruled steady to 1c higher. No. 2 Red in store nominally $1 14¾@1 17, and fresh arrivals free on board quotably $1 17@1 19. No. 3 Red fresh receipts sold at $1 12@1 18 free on board and $1 12½@1 14 at the river. No. 4 Red fresh receipts sold at $1 05@1 09 and ranged nominally down to $1 00. No. 2 Hard fresh receipts sold at $1 15½, and ranged nominally $1 11@1 15½. No. 3 Hard sold at $1 05@1 15—outside for a car of soft mixed, and ranged at $1 05@1 12 for the general receipts. No. 4 Hard sold at $1 04½ free on board and 90c at the river.

SPRING WHEAT—The demand was light and the quality of the offerings generally poor. Real choice Wheat was in fair request, but the poor grades were almost unsalable. Prices relatively no higher notwithstanding the advance in the speculative market. No. 1 Northern fresh receipts free on board quotably $1 17@1 19. No. 2 Northern fresh arrivals free on board quotably at $1 12@1 15. No. 3 Spring free on board quotably $1 00@1 14, with a sale at the river at $1 04. No. 4 Spring sold at 71c@$1 05 free on board, and quotably 60c@$1 00 for poor to fancy, with a sale at the river at 90c.

REGULAR WHEAT—A very fair trade was reported and the feeling developed was stronger, the close being 1¾@1⅞c higher for December, while the May gained 1⅝c. Professionals were quite conspicuous on the buying side, while the early offerings were very moderate. Among the "bull" influences were the higher cables in the face of the decline on this side yesterday, smaller receipts and dry weather reports from the Southwest. Primary receipts were 558,000 bu less than a year ago, the arrivals in the Northwest being 376 cars smaller. Liverpool quoted spot ½@1d lower, while futures came ⅝@¾d higher. Receipts there the past three days 816,000 bu and none from America. London came ¼d higher. Antwerp was unchanged. Berlin lost ¼. Private cables reported unfavorable weather conditions in Argentina. London cables stated rumors current that a serious hitch had occurred between Great Britain and Russia in negotiations regarding North Sea affair. Fairmount, Neb., reported Hessian fly in that vicinity, something never known in that locality. Kansas City wired that the crop in portions of Kansas needed moisture badly. Stocks in all positions increased 7,000 bu to 4,510,000, against 5,209,000 bu one year ago. Contract stocks showed little change at 1,474,893 bu, against 1,088,502 bu same date in 1903. *Bradstreet's* available supply increased 3,691,000 bu, against 519,000 bu increase for the same period in 1903. Reports were at hand claiming 70 per cent of the crop had been marketed in Kansas and Texas. Kansas City and St. Louis received 200,000 bu, against 439,000 bu a year ago. Kansas City estimates for to-morrow 113 cars. Continued fair weather was predicted by the signal service. No cargoes were on sale or awaiting orders off the English coast. Foreign crop conditions, according to the weekly cable from *Broomhall*, were quite satisfactory. Duluth wired that the cash demand was very poor and receipts large. Another message read: "There is no change whatever from yesterday. No bids." Receipts at Duluth 310 cars at Minneapolis 431 cars, total of 741 cars, against 1,135 cars yesterday, 867 cars a week ago, and 1,117 cars last year. Local receipts included 66 cars Winter, 32 cars Spring and 12 cars mixed, a total of 110 cars, against 206 cars last year. Included in above were 2 cars contract grade. There were also 3 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 68 cars. The withdrawals were 34,500 bu. Receipts at Western points were 1,041,235 bu, against 1,599,104 bu last year. At Eastern points 20,740 bu, against 153,651 last year. Shipments from Western points 644,855 bu, against 755,428 last year, and from Eastern points no bu, against 216,400 bu last year. Shipments of Flour were 16,478 brls. Exports of Wheat in Flour were equal to 74,150 bu.

Future Deliveries of Regular Wheat—Active and 1⅝@1⅞c higher.

DECEMBER—Sold at $1 10¾ and at $1 13. Opened with sales at $1 10¾ to $1 11; sold to $1 11¼, to $1 11⅛, to $1 11⅜@1 11⅞, to $1 11⅝, to $1 11¾@1 11⅞, to $1 11½, to $1 13, to $1 12⅛, to $1 12¾, to $1 12⅜, to $1 12½, to $1 12⅞, and closed at $1 12¼ asked.

MAY—Sold at $1 10⅝ and $1 12½@1 12⅝. Opened with sales at $1 10⅝ to $1 10⅞, sold to $1 11⅛, to $1 10⅞, to $1 11¾, to $1 11⅜, to $1 11¾, to $1 11⅝, to $1 12¼, to $1 12⅛, to $1 12½@1 12⅝, to $1 11⅞, to $1 12¼, to $1 11⅞, and closed at $1 11⅞@1 12.

JULY—Sold at 95¾@98½c. Opened with sales at 95¾c to 96⅛c, sold to 96¼@96⅜c, to 96⅛c, to 97¼c, to 97⅛, to 98½c, to 97⅝c, to 98c, to 97½c, and closed at 97½c bid.

CORN—Was fairly active, with the feeling rather unsettled, the close being ⅛@¼c higher for December, while May was ¼@⅜c better. Early tone was easy, influenced by the fine weather, with local traders the principal sellers. At the decline the demand improved, and market displayed a better undertone. Receipts were small, and the action of Wheat had a stimulating tendency. A feature on the rise was the changing, selling December and buying May, the spread narrowing to 2⅞@3c. *Bradstreet's* available decreased 913,000 bu compared with 1,381,000 bu decrease the same period in 1903. Local stocks in all positions were reduced 891,000 bu to 1,755,000 bu, against 4,204,000 bu one year ago. Contract stocks decreased 354,536 bu, and now include 1,059,594 bu, against 1,187,803 bu same date in 1903. Local receipts were 129 cars, against 474 cars last year, and but 42 cars are estimated for to-morrow. Southwestern markets were firm and Western receipts only 299,000 bu, against 652,670 bu last year. Shipments 411,000 bu and 207,000 bu respectively. Withdrawals here 146,000 bu and exports small. Local arrivals 118,000 bu and shipments 80,000 bu. Liverpool quoted spot ½d lower and futures off ⅛d. Receipts there the past three days 384,000 bu, of which 64,000 bu came from America. Continued fair weather was predicted by the signal service. Shipping demand fair and sales 18,000 bu. Seaboard reported no boat loads accepted. Car lots were in meagre supply and fair demand, with prices quoted ½c higher. No. 2 closed about 54c. No. 2 Yellow closed at 56¼c. No. 3 closed at 53½c, and No. 3 Yellow at 56c. No. 4 that was yellow sold at 55½c.

Corn by sample—Was quiet. Offerings were light and demand fair. Feeling firm and prices unchanged to ½c higher. Sales on track and free on board: No Grade sold at 49c. No. 4 at 52½@54½c. No. 3 at 53½@55½c. No. 3 Yellow at 56@56½c. No. 3 White at 53½@54½c. Billed through: No Grade new at 42c. No. 4 new at 47c; old at 52@55c. No. 3 Yellow at 55@55¼c. No. 3 White at 53½c.

Future Deliveries of No. 2 Corn—Fairly active and stronger, and closed ⅛@¼c to ⅜@½c higher.

NOVEMBER—Inactive and quotable 3⅝c over December, and closed nominally at 52⅜c.

DECEMBER—Sold at 48¼@48⅝c and 49c. Opened at 48⅝c to 48¾c, and sold at 48⅝c, to 48⅞c, to 48½c, to 48¾c, to 48¾@48⅝c, to 49c, to 18⅝c, to 48⅞@49c, to 48⅝@48¾c, and closed at 48⅝@48¾c.

MAY—Sold at 45@45⅝c and 45¾c. Opened at 45¼c, and sold at 45@45⅛c, to 45¼c, to 45⅛c, to 45½c, to 45⅜c to 45¾c, to 45½c, to 45¾c, to 45¼c, to 45½@45⅝c, and closed at 45½@45⅝c asked.

JULY—Sold at 44⅞@45c and 45½@45⅝c. Opened at 45c and sold at 44⅞@45c, to 45¼c to 45⅛@45¼c, to 45½@45⅝c, to 45⅜c, to 45½c, to 45⅜@45½c, and closed at 45⅜@45½c.

OATS—Were fairly traded in and closed ¼@⅜c higher, at almost the top. The advance was in sympathy with Wheat and Corn and on the war scare. Statistics were rather more "bullish." *Bradstreet's* decreased 769,000 bu. Local stocks decreased 204,000 bu in all positions and are 6,805,000 bu. Contract stocks increased 364,033 bu and are 3,827,295 bu. Arrivals were 111 cars, with 90 cars expected to-morrow. Duluth received 52 cars and Minneapolis 47 cars. Seaboard clearances 2,000 bu. Cash sales were 40,000 bu. Car lots to go to store were ¼@½c higher. Standard in store sold in small lots to feed dealers at ¾@1¼c over December. Round lots closed about 29¼c.

Oats by sample were in better demand with the supply lighter. Sales on track and free on board: No Grade at 25c. No. 4 at 28¼c. No. 4 White at 29@30½c. No. 3 White at 30@31c. Standard at 30½@31½c. Billed through: No. 4 White at 29½@30¼c. No. 3 White at 29½@30¼c. Standard at 30@30¾c. No. 2 at 28½@28¾c. No. 2 White at 30¾@31c. At the river: No. 4 White 28@29c. No. 3 White at 28½@30½c.

Future Deliveries of Contract Oats—Were stronger and closed higher.

NOVEMBER—Closed at 29¼c.

DECEMBER—Sold at 28⅝@28⅞c. Opened at 28⅝c, sold at 28½c, to 28⅝c, to 28¾c at close.

MAY—Fair trading. Sales were at 30¾@31⅛c and at 31⅛@31¼c. Opened at 30¾@30⅞c and at 30⅞c, sold to 31⅛@31¼c, to 31⅛c at close.

JULY—Sold at 30¾@31⅛c. Opened at 30¾c, sold to 31⅛c, and closed there.

RYE—There was an easier market. It came in the way of a reaction from yesterday's improvement. A few more cars received and that had some effect. Prices were about ¼c easier. No. 2 in store old Rye sold at 76¼c. Sales by sample of new made at 83½@85c for No. 2, at 81½c for No. 3 and at 77½c for No. 4 free on board. A bag lot not graded sold at 80c. Posted inspected in to-day 6 cars, and taken out 3 cars.

Future Deliveries of No. 2 Rye—Were inactive, nominally a shade easier. November quoted at 78c nominal. December offered at 80c and 79½c bid. May delivery nominal at 81c.

BARLEY—The feeling was weak and in most instances prices ruled lower. Arrivals were small, yet there was enough Barley on the market to supply the demand. Trade was slow and the volume of business transacted was small. Only a few of the regular buyers were on the market and some of those present were not buying. To-day's postings showed 64 cars inspected in. Screenings quotable at 24@30½c for poor to choice. Low grade Barley, feed, quiet and quotable at 37½@39c, and poor down to 35c. Malting, low grade, small berry, some heavy, but dirty quotable at 37@41c; clean, fair to good, at 41@42c, and large berry, heavy, quotable at 44@46c, with choice to fancy 48@52c. Fancy in round lots possibly above.

SEEDS—Timothy was lower and rather dull. Flax was nominally higher. Clover ruled quiet and steady.

Timothy—Was weak and lower for cash Seed. Offerings were moderate, yet equal to the demand. There was a small business done in futures at lower prices. November sold at $2 60, January was nominally $2 65 sellers and March sold at $2 75. Cash Seed, country lots, quotable at $1 75@2 45 for low grade to fancy, inferior lower; fair to good, $2 00@2 25, high-grade Seed, $2 27½@2 30; choice to fancy $2 35@2 40, and rough, dirty or hulled $2 00@2 20.

Flax—Was nominally 1c higher. There were no offerings of either cash or futures, consequently there was no business transacted. Receipts were 59 cars at Minneapolis, 196 cars at Duluth, and 6 cars or 7,200 bu here. There were no shipments from Chicago. No. 1 Northwestern or No. 1 from the Northwest was nominally $1 15. For No. 1 $1 08 was bid, and Rejected ranged at $1 06@1 13. November closed at $1 08 bid, and December was offered at $1 11.

Clover—Was steady at the late decline. There were a number of samples of cash Seed on the market, but there was very little business transacted. The market for contract grade, spot or November delivery, was nominally $12 00. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—There was no change in prices and feeling was steady. No offerings of any kind on market. Hungarian at 80c@$1 00 for common to choice. Millet, common, was quotable at 75@70c for common to choice, German at 85c@$1 10. Broom Corn Millet at 90c@$1 00. Siberian at 60@80c, and Early Fortune about 75@90c. Mustard about 75c@$1 10. Buckwheat, good milling spot about $1 35.

HOG PRODUCTS—Only a limited business was transacted in Hog Products, and the feeling was easier. Outside orders were light and there was little life in the local trade. Packers and speculators not inclined to do much business. Hogs were in good supply and prices ruled lower and the receipts at the leading Western packing points were estimated at 71,700, compared with 67,500 one year ago. Speculative offerings were moderate, and the demand was somewhat limited. Prices ruled lower on all the leading articles, and the market closed steady around outside figures. Very little doing outside of January and May. Foreign markets were quiet. Liverpool quotations were advanced 6d on Backs, and reduced 6d on Cumberland Sides and 3d on Lard. Domestic markets quiet. Receipts of Products were good—of Lard and Meats about 25 cars. Shipments were quite large—of Lard and Meats about 208 cars. Very little doing in the shipping branch of the trade. Buyers and sellers are widely apart in their views, and the quotations given are nearly nominal. Sales very light, with fair offerings in a quiet way. Prices inclined in favor of buyers.

Mess Pork—Trade was moderate in the market for Mess Pork, and the feeling was rather easy. Offerings were not very large and the demand was rather light. Market opened 5@7½c lower, and further declined 2½c. Later more steadiness was manifested, and prices rallied 5@7½c and the market closed rather steady. January delivery met with most favor. Demand on shipping account was light, and offerings were small. Cash lots quotable at $10 00@11 00.

DECEMBER—Quiet, with a few sales at $10 95@11 00, and closed steady at $11 00.

JANUARY—Offerings were not very large, and the inquiry was moderate. Sales were made at $12 30@12 37½. Opened at $12 32½, sold to $12 30, to $12 35, to $12 32½, to $12 37½, and and closed steady.

MAY—Demand rather light, and offerings were moderate. Sales were made at $12 37½@12 42½, and closed quiet at $12 42½.

Lard—Trade was moderate in the Lard market and the feeling was not very strong. Offerings were moderate, and the demand was comparatively light. Foreign advices were unfavorable to holders. Production gradually increasing. Foreign stocks not very large. Market opened rather easy, and prices were about 2½c lower, which was followed by a further reduction of 2½c. Later rather more steadiness was manifested and prices rallied 2½@5c, and the market closed comparatively steady. Demand on shipping account was limited, with moderate offerings. Cash lots quotably steady at about November figures, closing at $7 02½@7 05. Loose lots in good request, with moderate offerings. Prices were quotable at 30c discount on January figures. Leaf Lard was in moderate demand with fair offerings. Prices quotably steady at $7 12½. Neutral in light demand, with moderate offerings. Prices quotable steady at $8 62½@8 75 for No. 1, and $8 12½@8 25 for No. 2.

NOVEMBER—Quiet and steady, with small sales at $7 02½.

JANUARY—In moderate request, and offerings were not very large. Sales were made at $7 00@7 07½. Opened at $7 02½, sold to $7 00, to $7 05, to $7 02½, to $7 05@7 07½, and closed steady.

MAY—Offerings were moderate, and the inquiry rather light. Sales were made at $7 12½@7 17½. Opened at $7 15, sold to $7 12½, to $7 17½, and closed steady.

Short Rib Sides—Trade was only fair in the market for Short Rib Sides, and the feeling was not very strong. Offerings were not very large and the demand was only moderate. Prices ruled about 2½@5c lower, and the market closed steady at about outside figures. Trading chiefly in January contracts. Shipping demand was light, and offerings were moderate. Cash lots quotable at $6 87½@7 00, according to weight.

NOVEMBER—Quiet, with small sales at $6 82½.

JANUARY—In fair request and offerings were moderate. Sales were made at $6 40@6 42½. Opened at $6 40, sold to $6 42½, to $6 40, to $6 42½ and closed steady.

MAY—Demand rather light and offerings were moderate. A few sales made at $6 55@6 57½, and closed quiet at $6 57½.

Other Meats—A limited trade was reported. Offerings were fair and demand was light. Domestic trade quite limited. Exporters not inclined to trade to any extent. Green Meats offered moderately, with a small inquiry, and prices were lower. Pickled Meats were in moderate request, with fair offerings, and prices declined slightly. Dry Salted Meats were in limited demand, with fair offerings, and prices were lower. Smoked Meats called for moderately and prices ruled lower. Closing prices were as follows:

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Oct. 27.]

Wheat—This market has been quite active once more, and during the past week a great many new orders have been booked for Eastern account for future delivery. In fact, some orders are for March delivery. Unless the foreign markets wake up to the fact that fully one-third of the export crop has already been disposed of to Eastern buyers they will find that they waited too long and will be unable to secure any Wheat later on for foreign account. There is no doubt that if the car shortage could be remedied there would be very little of this season's Wheat left unsold at the present time. Buyers East are willing to purchase our Wheat if they knew that the same would be delivered at a specified time. The railroads are still working on the problem of securing cars, and we have it from the best authentic sources that the same would shortly be remedied. Foreign demand was slow of sale during the week, and prices for cargoes declined fully 6d, in spite of the fact that Eastern markets were quoting higher prices. Exporters are paying very little attention to the foreign cables, as they can secure better prices in disposing of their purchases to other points. They are giving vessels chartered quick dispatch, and have Grain provided for vessels chartered to arrive.

It looks as if the foreign buyers are waiting for navigation to close in Russia, and Australia and Argentina to quit exporting heavily before they come into the market. When they do this they will find most of the purchaseable Wheat out of the hands of local buyers. A large number of important sales have been made during the week, and prices have reached a higher level of values than has been recorded for many years past. Some of the sales were made on the basis of 80c for club at interior points. This would mean 91c coast, and bluestem at 82c. or 95c coast. Millers no doubt will become more active buyers before long, or they will not have sufficient Wheat to carry them through to spring. Holders who are keeping their Wheat for 75c for club qualities are feeling elated over recent sales, and claim that they will secure their price before the holidays. Quotations for export and Eastern account for club range from 85c to 87c per bushel; for bluestem, 89c to 91c per bushel; valley Wheat is also firmer this week, and prices are quoted on the basis of 87c.

Flour—This commodity has been very strong during the past week, and a great many new orders have been received from various sources. The demand from the East has not ceased, and many of the leading mills have booked orders as late as March delivery. The demand from China and Japan at present is good, but prices quoted for Flour do not come up to the extra cost millers are compelled to pay for Wheat. At present quotations for export demand there is no money in the same for millers to accept orders less than $3 75 per barrel, but a great many in the trade are taking $3 55 per barrel. At these prices there is a loss, surely. During the next thirty days considerable Flour will go to the Orient, and steamship companies report all available space for Flour has been taken up; some of the lines are negotiating for extra steamers to carry the surplus away. The demand for California is some better and mills that have established a strong footing in that territory report trade considerably better than for a month past. Central and South America trade is better, and orders are coming in quite freely. There is some demand for the United Kingdom at prices that millers acknowledge are too low. Better prices can be secured at home for Eastern shipment.

Reports are coming in that Patent Flour is sold too low at a great many points in the Northwest, and that there are sales made as low as $4 35 per barrel. The cause of these complaints is just, and millers should advance their quotations all over the country to $4 75. This is low enough, considering the price that nearly every mill owner has to pay for Wheat. The principal trouble here is that nearly every Flour mill owner wants to do all the business, and not give his competitor a chance for any. The Flour market on this North Pacific Coast is the cheapest in the entire United States. This is principally due to the strong competition existing among the owners, as we have heretofore stated. When millers are paying for Wheat on the basis of 90c per bushel, coast points, they can readily figure out their profit and loss. The territory covered by our millers is large, and there is no reason why any one milling concern can think they can control the trade. The old proverb, "Live and let live," should be applied to the milling fraternity in this country. We quote export brands from $3 60 to $3 75 per barrel; local Straights, $3 75 to $4 00, and Patents from $4 50 to $4 75 per barrel.

IS SOMEBODY "SASSING THE BOSS?"

[Ed. Remarks Commercial West, Aug 27, 1904.]

MINNEAPOLIS, Aug. 25.—Northwest Canada has suffered severely from rust in Wheat. It is difficult to estimate damage in bushels. In a sense an estimate is little better than a guess, as fields are in all conditions, from but small damage to total loss. In my judgment the maximum yield in Manitoba and the Northwest Territories will not exceed 42,000,000 bu, as against 53,000,000 bu last year and the damage may prove to be sufficiently serious to drop the yield to 35,000,000 bu; it certainly will with frost, which is possible within a few days. The prospect in the Canadian Northwest was for 70,000,000 bu.

Manitoba is the greatest sufferer. The Canadian press, railroad officials and the man who "has talked with farmers," have treated rust news with contempt and questioned the integrity of myself and others in making them. *These interests will receive an awakening at threshing time that will be a sufficient answer to all such assertions.*

There is nothing in the Canadian Wheat situation that should cause prejudice against Canadian lands. The rust disease has gone where there is Wheat, and because it has done serious damage to Canadian Wheat it is no reflection on the lands of that country. The lands of Western Canada are fertile and heavy producers. The rust has not ravaged the Wheat crop of the United States in 26 years, and this is the first sweeping experience in Canada. It may be years before there is another visitation.

[Winnipeg Cor. Commercial West; Oct. 29.]

WINNIPEG, Oct. 26.—There has been a regular tornado in the real estate affairs of Winnipeg during the past ten days or so. Not a tornado that blew things down, but one that blew them up. It does seem strange that just as building operations are nearing a close for the season, and the demand for central business sites would naturally be dropping into a lull for the next few months, that October should include one of the heaviest weeks of sales of central business property in the history of the province. This startling fact proves first of all that the reckless lying of Grain speculators, by which they tried some weeks ago to minimize the crop yield of the Northwest, has after all done no harm to the country or in any way lessened the outside belief in its rapid rush toward greatness. *Threshing is more than half over and the threshing machine has already given the direct lie to every one of these pessimistic crop estimates*, and even those who two months ago were the most optimistic on our year's crop yield are now satisfied that their calculations were far below what actual results will show. We are only having another illustration of how truth will triumph in the long run.

KANSAS' WHEAT SURPLUS.

[From the Modern Miller.]

Kansas millers are directly interested in protecting the supplies of Wheat from such unusual invasion as was noted this last year, and if free Wheat from Canada will divert millers in the Northwest to seek supplies in Manitoba, it will be of direct interest to Kansas millers. Roughly estimating, the mills of the State grind 30,000,000 bu and leave a surplus of say 30,000,000 bu to be exported or used by mills scattered over all the States, north and east. The value of this available surplus was quickly seen by those millers who are forced to use their wits to accumulate Wheat when the right time comes. This surplus is at the disposal of Northwestern mills when they want it, and the mills of the Northwest and the large elevator companies that supply them, have made themselves masters of the Kansas surplus. The three principal railroad systems of the State are lined with elevators that accumulate for the Northwest.

SHEEP SCAB DISAPPEARING.

[From the Salt Lake News.]

Colonel G. S. Hickox, agent in charge of Western quarantine for the Bureau of Animal Industry, says that the disease conditions in the intermountain country and Pacific slope country are much better than for years past. There is some scab in Wyoming, also in Saupete and to a limited extent north of Logan, but the pest is fast disappearing, thanks to the persistent and thorough methods of eradication, and Colonel Hickox believes the scab will shortly be wiped out. The great difficulty has been in making owners cooperate with the Government officials, or in accordance with the regulations in their own States. But this is being gradually overcome, and Sheep owners are coming to recognize that obstructive acts on their part only react back on themselves.

THE HOP SITUATION.

[New York Producers' Price Current, Oct. 29.]

In New York State considerable buying of Hops has taken place this week owing to London orders. Prices paid, however, have not varied from the values of the previous week. Three lots of Hops have been purchased this week for the account of the largest Western brewer at 40c in Cooperstown. These lots were very fancy, but the price has not been followed by anyone. On the Pacific Coast steady buying continues, with prices ranging from 25c to 31½c, according to quality. On the local market considerable business has been passing, principally in States. Business with brewers continues steady. While the position is certainly a strong one, little change can be made in the range of quotations.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 28 to 38; clear. Northwest—Temperature 32 to 42, clear. West—Temperature 32 to 48; clear. Southwest—Temperature 36 to 51; clear, except light rains in Oklahoma and Texas. Ohio Valley—Temperature 38 to 44; partly cloudy.

Weather forecast for 36 hours: Illinois, Indiana, Missouri, Michigan, Wisconsin, Iowa and Minnesota—Fair to-night and Wednesday, moderate temperatures, southerly winds. North and South Dakota, Nebraska and Kansas—Fair, moderate temperatures, southwest winds. Montana—Fair; warmer in north and west portions to-night.

ITEMS OF GENERAL INTEREST.

St. Louis reported, Monday, that one house there had 750,000 bu Oregon Wheat to sell and no buyers for it.

A number of engagements of Gold for export were announced in New York, Monday. The total to go to Paris on Thursday is now $5,200,000.

In explanation of the advance in Chicago Terminal interests concerned in the company's affairs said that a reorganization plan is being considered.

The fire which has been raging in the Enterprise colliery in Shamokin, Pa., for three weeks, and which has caused $100,000 damage, was extinguished Sunday.

A Chicago man who was at Kansas City last week says Idaho, Wyoming and Utah Wheat is offered freely there. "The Southwestern mills," he says, "have been filled up."

Chicago capitalists have sold the Macon, Dublin and Savannah Railroad to the Atlantic Coast line. The sale was completed in New York last week on a cash basis. Details of the deal have not yet been announced.

The Italian official crop bulletin covering the first ten days of October reports that rain had fallen generally, except in the North, and had done good to those fields where the seed had been already put in.

The Edwards Manufacturing Company's Cotton mills, Augusta, Me., were started, Monday, after a shut-down of four months, due largely to dullness in trade. A 10 per cent reduction in wages went into effect, but about 75 per cent of the 1,300 operatives went into the mills.

The ship building yards of the great lakes now have orders for thirty Steel freight carrying boats, to be delivered between the end of the present year and June 1, 1905. The new tonnage will aggregate 253,000 tons of carrying capacity, and represents an expenditure of about $11,500,000 for vessel property. The American Ship Building Company has orders for twenty of these ships, and practically every berth in the yards of that concern is now taken up to the last of May.

The *Corn Trade News* of Oct. 17 says: "Weather conditions in Germany are favorable for autumn sowings, and the lifting of the Potato crop has not been disturbed to any extent. Reports as to the latter crop are still variable; it is certain that there is a large deficiency, but the crop is not as bad as was at one time feared. The interruption of interior navigation continues to be a great hindrance to business, but the water level is now slowly rising. Hamburg reports a continued good trade in native Wheat, but at other centers business has become rather dull, partly owing to growers being busy with field work and partly in consequence of the poor demand for Flour."

The Chicago *Inter Ocean* says: "A decision on the proposition to lease the majority of the mills of the United Box Board and Paper Company to the 'independents' has not yet been reached. There have been many meetings and conferences, the latest being in Indianapolis, for the purpose of submitting certain matters to the action of manufacturers in the Western section. It is reported that the meeting was characterized by a lavish display of harmony, and that an adjournment was taken to New York this week. If there are many more adjournments, and a settlement of the matter is deferred much longer, people will begin to lose faith in the probability of any practical result being reached."

The New York, New Haven and Hartford Railroad Company directors voted to accept an option offered by Kuhn Loeb & Co on a majority of the Ontario and Western stock. The price paid is $45 a share, ex-dividend, and all the arrangements for the temporary financing, extending over some months, have been made. The question of a lease of the Ontario and Western came up, but it was found that this plan required the assent of the New York Central, and it was dropped. It is probable, however, that the New York, New Haven and Hartford Railroad Company will make provision for the minority holders of the Ontario and Western Company on a basis representing about $10 per share. The most important feature of the deal is the fact that for the first time in New England railroad history it gives a great New England carrying corporation access to the Coal mines on the one hand and to the great lakes on the other.

The Oregon Short Line directors have decided to issue a call for the retirement of outstanding collateral trust participating 4 per cent bonds. Action in connection with the retirement of these bonds was necessary at this time for the reason that the retirement clause in the mortgage provides that ninety days' notice must be given preceding any interest day, and the next interest period will be Feb 1. The Union Pacific, through the Oregon Short Line, stands to benefit very materially by the retirement of the participating bonds and the substitution of another issue without the participating clause. When the Northern Securities Company is wound up the valuable assets will fall to the share of the Oregon Short Line, and it is necessary to get the participating bonds out of the way in order that the Union Pacific interests may derive the full benefit from Northern Securities dividends and assets.

The Chicago *Inter Ocean* says: "Rumors are again in circulation in the financial district that the long talked of consolidation of the packing houses is under consideration afresh and will be put through shortly after election. It is difficult to trace the source of the rumors, but apparently they first became public property through some of the brokerage houses. The story as detailed to persons interested in Swift & Co. stock is to the effect that all the principal parties have agreed to the merger at this time, but for political reasons have thought it best to wait until the election is decided before allowing the news to leak out as the result of active preparations for the consolidation. According to the story, the decision to proceed with the merger was the cause of the recent bulge in the stock of Swift & Co., an advance which has been generally attributed to the running in of a group of Chicago 'shorts' at the time that the local Stock Exchange was closed on account of Chicago Day. It is also stated that the Central Trust Company of Illinois will take a prominent part in the deal, and that the recent strength of the stock of that bank was caused by buying on account of the knowledge of the fact. The story goes on to the effect that the National Packing Company, which was formed some time ago under the laws of New Jersey for the purpose of taking over the packing houses and was afterward used for the combination of the smaller companies purchased by the big packers, in anticipation of the general merger, will again be the means of making the combination, and will issue its securities in exchange for the securities of the various concerns absorbed. The last time the packing combination was under consideration the sudden extreme tightening of money and the political opposition aroused stopped the plans. This time it is certain that money is sufficiently easy to make the carrying out of the plan possible, and, according to the reports, by waiting until after the national election the political opposition will be very small."

New York Exchange par.

Documentary Sterling steady at 483.

Chicago Bank Clearings to-day, $33,614,935.

There was $2,000,000 Gold taken at New York to-day for export to Europe.

Deliveries on November trades to-day, 250 brls Mess Pork and 250 tcs Lard.

Reported that 48,000 bu Corn and 30,000 bu Oats were taken at the seaboard to-day for export.

Ten packers purchased 15,500 Hogs to-day; shippers, 6,000; left over, 4,000. Market closed strong.

Average cost price of Hogs at Chicago, Tuesday, was $4 90, against $5 01 Monday, $5 20 a week ago, and $4 87 a year ago.

Estimated receipts for to-morrow: Wheat, 70 cars; Corn, 55 cars; Oats, 94 cars; Rye, 5 cars; Barley, 36 cars; Hogs, 30,000.

Top Cattle prices at leading markets thus far this week: Chicago, $6 65; Kansas City, $5 80; Omaha, $6 10, and St. Joseph, $5 55.

There is such a wide difference in the reports of the world's supply of Lard, that it is suggested that the compilers form a "trust."

There were samples of Kansas Wheat here this morning from Caldwell, showing Hessian fly in large numbers working in roots and stem.

Traffic of the Northwestern Elevated, Chicago, for October shows a daily average of 73,385 passengers, an increase of 1,738, or 2.47 per cent, compared with the same month last year.

In the New York Cotton market a more "bullish" sentiment prevailed and decided advances were made. "Shorts" were active buyers. Closing prices were at losses of 10@12 points.

Local Securities were more freely traded in, and with the exception of Metropolitan Elevated common, Diamond Match and Biscuit common, advanced. The gains, however, were not extensive.

The President, Tuesday, issued the Thanksgiving Day proclamation, setting aside Thursday, Nov. 24, to be observed as a day of festival and thanksgiving by all the people of the United States at home and abroad.

Barcelona agent of *Broomhall* says: "There is talk of a reduction in the import duty on Wheat early in 1905. Present duty is about 33c per bu, duty payable in Gold, but subject to rebate of 10 to to 30 per cent according to the Gold premium."

Stocks of Wheat in the interior elevators of the Northwest increased 772,000 bu during October, compared with an increase of 1,336,000 bu in October, 1903. Stocks are reported at 5,476,000 bu, compared with 6,001,000 bu on November 1, 1903, and 8,238,000 bu on November 1, 1902.

The Duluth *Commercial Record* states that the bulk of the Flax marketing will not come before the middle of November. This authority does not look for it to come with a rush at any time, but feels that the movement may be strung out through the winter and spring months. It is admitted that it is hard to figure out the effect on prices of such a condition, but with a large quantity of Flax to come out of first hands there is little reason to expect an advance.

Stocks in New York advanced on extensive covering by the largest "shorts" and on more assuring advices from abroad regarding yesterday's war scare. On the bulges liberal selling for profits rather checked the upward tendency, but good gains were made. Western Railway shares closed ¼ to 1⅛ higher, and "Soo" 3½ to 4½ higher. Eastern Railways gained 1 to 2½. Industrials sold up ⅝ to 2⅝. Copper and Smelting leading. Money 2¼ to 2½ per cent.

The Portland *Commercial Review* estimates that on November 1, Wheat remaining unsold in Oregon, Washington and Idaho at 15 per cent, or about 7,500,000 bu. Exports since July 1, foreign and California, about 9,000,000 bu, including Flour. Millers have purchased and have about 5,000,000 bu on hand. Sales for Eastern shipment about 350,000 brls Flour and 15,000,000 bu Wheat. Demand from the Orient for Flour is good, with engagements on all steamers sailing to December 1.

The Buenos Ayres *Handels-Zeitung*, of Sept. 23, reports a very favorable week for the Argentine crops, with sufficient rain in the drouth-stricken districts in Cordoba to warrant the hope of average crops even in those districts. In Santa Fe an extraordinary yield seemed likely, and in Buenos Ayres the outlook, according to both private and official reports, could hardly be better. Almost equally favorable reports were received from Entre Rios. Locusts or late frosts in October could alone render a big crop doubtful.

INDIAN NOTES.

The monthly agricultural report of the United Provinces for August does not furnish much satisfactory information as to the condition and prospects of the crops which will go to make up the approaching autumn harvest. Continuous and excessive rain interfered with the progress of agricultural operations, and sowings were not even completed at the end of the month. Cotton has suffered to some extent, but Sugar cane continues to flourish and Rice is doing very well. No estimate of the harvest is possible at present, and a great deal will depend on the conditions of the present month, which is a critical one for the provinces.—Sept. 29.

BOMBAY, Sept. 30. The usual seasonal change is taking place throughout India and the only rainfall during the past week has been from thunderstorms in different parts of the country. Crop reports continue fairly satisfactory from all quarters, while advices of the Cotton crop are excellent and early arrivals are expected. On account of the scarcity of cargo for ready and early shipment the freight market declined from the high rates quoted last week, closing steady.

The export trade is still slack, with the exception of Wheat and Flax Seed, which are going forward to Europe in fairly large shipments. The stocks and arrivals of other produce are tailing off.—*Bombay Price Current.*

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand rather tame and market entirely a waiting one with prices steady and unchanged.

WINTER WHEAT—Was quiet and trading was limited to a few cars of fresh arrivals and 30,000 bu of mixed lots. Prices quotably unchanged and market steady. No 2 Red in store nominally $1 15½@1 17½, and fresh arrivals free on board quotably $1 17@1 18. No 3 Red fresh receipts free on board sold at $1 13@1 16. No. 4 Red fresh arrivals free on board sold at $1 05@1 08 and No Grade Red at $1 12. No. 2 Hard fresh arrivals free on board nominally $1 12@1 16. No. 3 Hard fresh arrivals free on board quotable at $1 05@1 12. No. 4 White sold at $1 05.

SPRING WHEAT—There was some milling demand and the market was steady for choice Wheat and dull for poor. No. 1 Northern fresh arrivals free on board quotably $1 16@1 18. No. 2 Northern fresh arrivals free on board quotably $1 10@1 15. No. 3 Spring fresh receipts free on board sold at $1 00@1 11—outside for hard variety. No 4 Spring fresh receipts free on board sold at 77@85c for poor and was quotable at 60c@$1 05 for very poor to choice.

REGULAR WHEAT—A large trade and broader market and the feeling, while a little unsettled, was easier on the whole and the close showed losses of ⅛c for December, while May was unchanged and July up ⅝c. Crop reports from the Southwest were favorable to the "long" interest and a feature was the more general demand for July, both from "shorts" and investors. Cables were easy, but the movement was moderate and receipts at primary markets 117,000 bu smaller than a year ago. Liverpool quoted spot steady and futures ⅛@⅜d lower. London came ½d lower, Buda Pesth was 1⅛c higher and Berlin ⅛c higher. Receipts in the Northwest were 104 cars less than a year ago and Northwestern interior elevator stocks were reported increased 772,000 bu last month and are now 5,476,000 bu, against 6,001,000 bu one year ago. Stocks at Minneapolis reported increased 800,000 bu so far this week. Kansas City and St. Louis received 178,000 bu, against 283,000 bu one year ago. A local crop authority claimed to have Hessian fly damage reports from Southern Ohio, Indiana, Southern Illinois, parts of Missouri and parts of Kansas, but the reports are not as serious as they were last year at this time and that only the very early sown Wheat has suffered. The recent heavy Russian shipments were said to be due to the usurious rate of interest exacted by the Russian banks for carrying Grain, while they will advance only 50 per cent of market values. Melbourne, Australia, cabled they would have 16,000,000 bu to ship, against 28,500,000 bu last year. New South Wales 15,000,000 bu, against 27,000,000 bu in 1903. *Broomhall* cabled there was a probability of a reduction in the duty on Wheat into Spain early in 1905. Present duty is 33c per bu. *Broomhall* also cabled that cargo room in Australia was being taken freely for the coming Wheat crop. Duluth wired: "Best bids obtainable yesterday not within 2c of cost, while it was possible to buy Duluth No. 1 and No. 2 Northern in large quantities in the country." May showed no relief in the Winter Wheat sections and generally fair weather indicated. English Coast was still bare of cargo offerings. Cables reported the recent excitement in political circles abroad, owing to the Baltic incident, entirely abated. Clearances were again limited, and no boat loads were accepted at the seaboard. Market was influenced at some extent late in the session by the weakness at St. Louis, December there selling 2⅛c under the May. Receipts at Duluth 390 cars at Minneapolis 198 cars, total of 588 cars, against 741 cars yesterday, 667 cars a week ago, and 792 cars last year. Local receipts included 40 cars Winter, 11 cars Spring and 5 cars mixed, a total of 56 cars, against 164 cars last year. Included in above was 1 car contract grade. There were also 14 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 70 cars. The withdrawals were 41,500 bu. Receipts at Western points were 881,333 bu, against 1,298,098 bu last year. At Eastern points 38,738 bu, against 405,651 last year. Shipments from Western points 399,395 bu, against 730,447 last year, and from Eastern points no bu, against 119,189 bu last year. Shipments of Flour were 8,617 brls. Exports of Wheat in Flour were equal to 38,911 bu.

Future Deliveries of Regular Wheat—Fair trade and steady.

NOVEMBER—Entirely nominal and quotably about ⅛c under December.

DECEMBER—Sold at $1 11½@1 13½. Opened with sales at $1 11⅝ to $1 11½; sold to $1 11¾, to $1 12⅛, to $1 12, to $1 13½, to $1 12⅝, to $1 13⅛, to $1 12¾, to $1 13½, to $1 12⅛, and closed at $1 12⅛.

MAY—Sold at $1 11¼@1 12⅝. Opened with sales at $1 11½ to $1 11¼; sold to $1 11½, to $1 12⅝, to $1 12½, to $1 12⅛, to $1 12½, to $1 12¼, to $1 12⅛, to $1 11⅞, to $1 12¼, to $1 11⅞, to $1 12, to $1 11⅞, and closed at $1 11⅞ bid.

JULY—Sold at 97@99⅜c. Opened at 97c; sold to 97½c, to 97⅜c to 99⅜c, to 99c, to 99⅛c, to 98¾c, to 99c, to 98½c, to 98⅝c, to 98⅛c, and closed at 98⅛c.

CORN—Only a moderate speculative trade, largely local and professional, with the tone comparatively steady, the close showing December off ⅛c and the May unchanged. The start was slow and easy, influenced by the fine weather, but the demand improved as the session advanced and many of the early sellers turned buyers, resulting in a moderate rally, but all the gain failed to be maintained. The receipts were light—only 61 cars—against 288 cars last year, and but 55 cars are estimated for to-morrow. Liverpool quoted spot unchanged and futures steady to ⅛d lower. Continued fine weather was predicted by the signal service. Shipping inquiry was fair, but holders very firm and cargoes scarce. Sales 50,000 bu. Exports were 65,000 bu and seaboard reported 6 boat loads accepted. Withdrawals from store, 113,000 bu. Western receipts were 258,000 bu, compared with 690,000 bu last year, and shipments, 118,000 bu and 565,000 bu, respectively. Local arrivals, 140,000 bu; shipments, 16,000 bu. Southwestern markets were steady to firm. Car lots were in good demand and limited supply. Feeling firm and prices ½@1c higher. No. 2 closed about 54½c and No 2 Yellow at 57½c. No. 3 closed at 54c and No. 3 Yellow at 57c. No. 4 sold at 53¼c.

Corn by sample—Was scarce and prices anywhere from ⅛c to 1½c higher. Demand good. Sales on track and free on board: No Grade new sold at 41¼@46½c. No. 4 new at 52c; old at 53@57c. No 3 at 54@57c. No 3 Yellow at 57@57½c. No 2 at 57½c. No. 2 Yellow at 57½c. No 3 White at 54¼@55c. Ears at 43c for new. Billed through: No Grade at 42@48c. No. 4 at 52½@54¾c. No. 3 new at 51c; old at 52¾@55. No. 2 Yellow at 56@56¼c. No. 2 Yellow at 56¼c. No. 3 White at 53½c.

Future Deliveries of No. 2 Corn—Moderately active and feeling unsettled, and closed unchanged to ⅛c lower.

NOVEMBER—Inactive but quoted about 4c over December and closed nominally at 52⅜c.

DECEMBER—Sold at 48⅛@48⅞c. Opened at 48⅜c to 48⅝c, and sold at 48½@48⅜c, to 48⅞c, to 48⅝c, to 48⅞c, to 48⅝c, to 48¾@48⅞c, to 48⅜c, to 48¼c, to 48⅜@48½c, and closed at 48⅜@48½c asked.

MAY—Sold at 45⅜@45⅞c. Opened at 45⅜c, and sold at 45⅜@45½c, to 45⅜c, to 45⅝c, to 45½c to 45¾@45⅞c, to 45¾c, to 45⅞c, to 45½c, to 45⅝c, to 45½c, and closed at 45½c bid.

JULY—Sold at 45⅜c and 45⅝@45¾c. Opened at 45⅜c, and sold at 45½@45⅝c, to 45½c, to 45⅝@45¾c, to 45½c, and closed at 45½c asked.

OATS—Were strong and advanced ¼@½c, but reacted and closed the same as yesterday. Good buying by local traders who sold early, also covering by some of the big "shorts," gave the market its main strength. The reaction from the top was on selling for profits and in sympathy with other Grains. Arrivals were 81 cars, against 181 cars last year; estimated for to-morrow 94 cars. Cash sales were 165,000 bu here and 30,000 bu at New York. Clearances from the seaboard 10,000 bu. Car lots in store and to go to store were ⅛@½c higher. No 4 White sold at 29¾c. No 3 White at 30½c. Standard in store closed at 29¾c.

Oats by sample were ¼@½c higher. Offerings lighter and demand better. Sales on track and free on board: No. 4 White at 29½@30c. No. 3 at 29c. No. 3 White at 30@31¼c. Standard at 31¼@31¾c. No 2 at 29½c. No 2 White at 31¼@32c. Billed through: No Grade at 25c. No. 4 White at 30@30¼c. No 3 at 29c. No 3 White at 30¼@30¾c. Standard at 30¾@31½c. No 2 White at 31@31½c. At the river: No. 4 White at 28½@29¼c. No. 3 White at 29@29½c. Standard at 29½c.

Future Deliveries of Contract Oats—Were higher early and reacted.

NOVEMBER—Closed at 29¼c.

DECEMBER—Sold at 28½c and at 28⅞@29c. Opened at 28½@28⅝c, sold at 28½c, to 28⅞@29c to 28¾c at close.

MAY—Liberally traded in. Sold at 30⅞c and at 31⅜@31¼c. Opened at 31c, sold to 30⅞c to 31⅜@31½c to 31⅛c at close.

JULY—More trading. Sold at 30⅝@31c and at 31⅜@31½c. Opened at 30⅞@31c, sold to 31⅜@31½c, to 31⅛c at close.

RYE—The market was firmer for futures and steady for cash. A fair demand existed. The receipts were six cars, and there were taken out of public elevators 10,000 bu. No exports from New York. No. 2 in store nominally 79½c and sold from store at 82½c, and fresh receipts on track at 84c. No 4 sold at 73c.

Future Deliveries of No. 2 Rye—Was in fair demand and prices ¼c higher. November 79½c bid. December sold at 79¾@80c, and closed at 80c bid. May nominally 2c over December.

BARLEY—There was a firm market for feed Barley, with buyers paying about ½c more. At the advance they got some goods going heretofore as low grade malting. The market for malting Barley was exceedingly quiet. There was again only a very small supply and the demand may be said to have been of equally limited proportions. The market was quiet—it was quotably dull, but small offerings and firmness of feed Barley tending to give the malting grades steadiness. Twenty-seven cars came in. Screenings quotable at 30@37c for poor to choice. Low grade Barley, feed, quiet and quotable at 37@38c, main sales at 38c, and poor possibly lower. Malting, low grade, small berry, some heavy, but dirty, quotable at 38@41c; clean, fair to good, at 41@44c, and large berry, heavy, quotable at 44@46c, with choice to fancy 48@52c. Fancy in round lots above.

SEEDS—Nothing much was done. Flax was a shade higher, but otherwise there was no essential change. Timothy remains heavy and Clover was nominally steady.

Timothy—Was dull and easy. There was moderate future delivery trading at yesterday's reduced prices. There continued sellers present. Several cars of cash Seed offered. They did not all sell; some were held at limits above the prices bid. Some cash lots sold at $2 27½@2 30. Market for country lots, quotable at $1 75@2 45 for low grade to fancy, inferior lower; fair to good, $2 25@2 30; choice to fancy $2 35@2 45, and rough, dirty or hulled, $2 10@2 20. November delivery sold at $2 60. January was nominally $2 65; offered at $2 67½. March sold at $2 75 and offered at that.

Flax—Only 1 car or 611 bu came in and none offered on sale. The market was quotably firm. Compared with yesterday prices were ½@1c better. The market was stronger in the Northwest. More Flax was taken out—11 cars or 9,000 bu—but it did not represent business done on the regular market. Northwestern receipts were 51 cars at Minneapolis and 169 cars at Duluth. No 1 Northwestern or No 1 from the Northwest quoted at $1 16½ and No 1 at $1 09. Rejected nominal at $1 06@1 13. November was $1 09 bid, and December salable at $1 10½.

Clover—Was quoted as steady. Offerings remain small. Order trade said to be slow, the closeness of the election tending to make it so. No change was quotable. Contract grade, spot or November delivery, quotably $12 00. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—Nominally unchanged; market without offerings. Hungarian at 80c@$1 00 for common to choice. Millet, common, was quotable at 75@80c for common to choice, German at 85c@$1 10. Broom Corn Millet at 90c@$1 00. Siberian at 60@80c, and Early Fortune about 75@90c. Mustard about 75c@$1 00. Buckwheat, good milling spot about $1 35.

HOG PRODUCTS—More interest was manifested in the market for Hog Products, and the undertone to the market was stronger. Hogs were in smaller supply than anticipated and prices higher, and the Grain markets were firmer. Outside orders were larger, and local trading was fair. Local packers sold moderate quantities at the advancing scale of prices. Stocks reported on hand were lighter than generally anticipated, especially of Mess Pork and Short Rib Sides, and this feature tended to strengthen the market. Reduction in the aggregate during October was about 35,000,000 lbs, compared with 32,000,000 lbs during October, 1903. Foreign markets were slow and easy, and Liverpool quotations were reduced 6d on Backs and Cumberland Sides. Domestic markets were steady. Receipts of Hogs at the leading Western packing points were estimated at 71,000, compared with 81,500 one year ago. Receipts of Products were liberal—of Lard and Meats about 40 cars. Shipments were moderate—of Lard and Meats about 100 cars. Speculative market opened stronger and prices higher, and further advances were made—more marked on Mess Pork and Short Rib Sides than Lard—but toward the close receded slightly, and the market closed comparatively steady. Demand on shipping account was moderate, and offerings were not very large. Sales were light, and prices without material change. Holders of Meats a little more independent in their views as supplies were reduced 20,000,000 lbs during October. Export inquiry comparatively small.

Mess Pork—Rather a good business was reported in Mess Pork and the market was stronger. Quite a good demand prevailed for the deferred deliveries. Stock reduced 8,100 brls during October, somewhat greater than expected. Market opened stronger, and prices ruled about 5c higher, and prices further irregularly advanced 22½@25. Toward the close, the feeling was not quite so strong, and prices receded 5@10, and the market closed rather steady. Near deliveries quiet. Shipping demand was light and offerings were small. Cash lots quotable at $11 00@11 10.

NOVEMBER—Quiet and steady with small sales at $11 00.

DECEMBER—Sold sparingly at $11 12½@11 15.

JANUARY—Offerings were fair, and the demand was rather active. Sales were made at $12 42½@12 67½. Opened at $12 42½ to $12 45, sold to $12 55, to $12 52½, to $12 60, to $12 52½, to $12 62½, to $12 60, to $12 65, to $12 60, to $12 67½, to $12 52½, to $12 60, to $12 57½, and closed steady.

MAY—Offerings were fair, and the demand was moderate. Sales were made at $12 52½@12 62½. Opened at $12 55, sold to $12 52½, to $12 57½, to $12 55, to $12 62½, to $12 55, to $12 57½, and closed steady.

Lard—A fair business was transacted in Lard, and the feeling was stronger. Foreign advices were unchanged. Supply on hand somewhat larger than expected, but was reduced 41,500 tcs during October. World's supply of Lard reduced 40,000 to 45,000 tcs during October. Production moderate. Offerings were not very large, and the demand was only fair. Market opened rather firm at about the closing figures of Tuesday, and advanced 2½@5c. Market closed steady around outside figures. Trading chiefly in January and May contracts. Demand on shipping account was limited, with moderate offerings. Cash lots quotably steady at about November figures, closing at $7 05@7 07½. Loose lots in fair request with moderate offerings. Prices were quotable at 10c discount on January figures. Leaf Lard was in moderate demand with fair offerings. Prices quotably steady at $7 12½. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 62½@8 75 for No. 1, and $8 12½@8 25 for No. 2.

NOVEMBER—Quiet and steady, with small sales at $7 05.

JANUARY—In fair request, and offerings were moderate. Sales were made at $7 07½@7 12½. Opened at $7 07½, sold to $7 12½, to $7 10@7 12½, to $7 12½ and closed steady.

MAY—Offerings were fair, and the demand was fairly active. Sales were made at $7 17½@7 25. Opened at $7 17½, sold to $7 25, to $7 22½, to $7 22½@7 25, to $7 22½ and closed steady.

Short Rib Sides—Rather a good business was transacted in Short Rib Sides, and the market was stronger. Offerings were fair, and the demand was quite active. Trading chiefly in the deferred deliveries. Stock on hand reduced 33 per cent, or about 7,000,000 lbs during October and this was somewhat of a factor in the market. At the opening the feeling was rather firm, and prices were about 2½c higher, which was followed by a further improvement of 7½@10c. Toward the close the feeling was not so strong, and prices receded 2½@5c, and the market closed comparatively steady. Shipping demand was light and offerings were moderate. Cash lots quotable at $5 90@7 00 according to weight.

NOVEMBER—Quiet and quotable at $6 85.

JANUARY—Offerings were fair, and the demand was quite active. Sales were made at $6 45@6 55. Opened at $6 45, sold to $6 50@6 52½, to $6 50, to $6 52½@6 55, to $6 52½, and closed steady.

MAY—In fair request, and offerings were not very free. Sales were made at $6 60@6 67½. Opened at $6 60, sold to $6 67½, to $6 62½@6 65, to $6 65, and closed steady.

Other Meats—A limited trade was reported. Offerings were fair and demand was light. Domestic trade quite limited. Exporters not inclined to trade to any extent. Green Meats offered moderately, with a small inquiry, and prices were steady. Pickled Meats were in moderate request, with fair offerings, and prices were unchanged. Dry Salted Meats were in limited demand with fair offerings, and prices were steady. Smoked Meats called for moderately and prices ruled steady. Closing prices were as follows:

Communications addressed to the publishers of the DAILY TRADE BULLETIN will not receive attention unless postage is enclosed for reply.

Important Notice.

In March, 1884, when it was alleged that certain market circulars compiled for the use and benefit of members of the Chicago Board of Trade, were being furnished daily to alleged "bucket shops," the following resolution was passed by the Board of Directors:

Resolved, That the President of this Board notify the above mentioned firms that such action on their part is detrimental to the interests of this Board, and that they are requested to discontinue sale of said circulars to such "bucket shops."

Outlook favors rather a good crop of Cotton.

Good crop of Corn in the Southern States this year.

Hay crop will be good this year, both in yield and quality.

The Potato crop of the United States will be quite large.

Pork Strips will be on the bill of fare during the next sixty days.

Portugal will be required to import 4,000,000 bu Wheat this year.

Railroad freights will probably be advanced at the close of lake navigation.

The weather during the past month has been quite good for maturing the Corn crop.

Seeding of fall Grain in the leading European countries is progressing favorably.

The Hessian fly appears to have started on his annual tour a little earlier than usual.

Rains have interfered somewhat with threshing of Wheat in the Canadian Northwest.

It is generally admitted that the crop of Clover Seed this year is smaller than usual.

Apple crop in New England, New York and Michigan unusually heavy, and quality fairly good.

Bulk of the speculative trading in Hog Products is now confined to January and May contracts.

Quite a good supply of old Mess Pork, Lard and Short Rib Sides to carry over into the new crop year.

Sheep were marketed rather freely during the past month, and prices were fairly well supported.

Supply of Flax Seed fairly good for the season of the year, notwithstanding the shortage of the crop.

The final yields of all the Grain crops will be made public in December by the Department of Agriculture.

Stocks of Wheat in Canada are gradually enlarging, though some shipments have been made from the lake ports.

The recent frost did not do much damage to the maturing crops, but it appears to have destroyed the "crop experts."

Shipments of Dressed Beef are quite liberal for the season of the year, notwithstanding the good prices paid for Cattle.

Supply of Cattle at the leading markets during the past month was fair, and prices were advanced on the better qualities.

Bear in mind—that Hog Products made previous to October 1, are not a regular delivery on January contracts and beyond.

Export demand for Provisions was quite limited during the past month. Markets supplied to a great extent by consignments.

Scattering cars of new Corn are being received at the leading markets, but the grading is not very good, owing to not being dry.

The quality of the Hogs marketed during the past month has not been quite as good as during the previous two or three months.

The grading of Spring Wheat in the larger distributing markets of the Northwest exhibits very little change from that of last year.

There evidently will be a good demand for seed Wheat next spring, as the proportion of the crop suitable for seeding is not very large.

The Flour trade was fairly good during the past month, but almost exclusively for the domestic trade. Exporters virtually out of the market.

Packing of Hogs in the West for the summer season will probably show an increase of about 225,000 compared with the corresponding time last year.

It is claimed that packers are quite independent about selling Meats for delivery during the next ninety days, while the demand is only on a moderate scale.

With Wheat of poor quality and Oats of very good quality, the makers of cereal foods from the latter ought to have a good trade during the current harvest year.

No doubt considerable Grain will be forwarded by the lake route during the current month, to be distributed through the East before the close of water navigation.

The final decision of the United States Supreme Court, sustaining the constitutionality of the Oleomargarine Law, will reduce the production of that article to the minimum.

The Wheat crop in the Canadian Northwest will probably not vary much from that of last year, when it was about 58,000,000 to 59,000,000 bu. In Eastern Canada the crop will be somewhat lighter than last year.

The demand for Lard Tierces has been very light during the past five or six weeks, as refiners have been removing Lard from packages, and they have had a good supply of second-hand packages on hand.

An enormous business was transacted on the New York Stock Exchange during the past month, and prices on Stocks and Securities were materially advanced, though extreme figures were not fully supported to the close. Trading on the Chicago Stock Exchange was larger than usual, with some appreciation in prices.

Some parties are insisting that the Department of Agriculture should make an estimate of the proportion of the Spring Wheat crop suitable for milling. As this would be merely an opinion, it would be wise for the Department to adhere to the old system of giving the weight per bushel, and leave the question of quality to the opinion of the Flour manufacturers and dealers.

LAND SALES IN MANITOBA.

[From the Winnipeg Commercial, Oct. 28.]

During the nine months of this year, from Jan. 1 to Sept. 30, the Canadian Pacific Railway Company disposed of 431,282.82 acres of land in Manitoba and the Northwest Territories, which realized $1,879,841.05. Sales and amounts realized as follows:

	Acres.	Amount.
January	116,840.78	$388,619 88
February	14,729.69	73,428.94
March	12,092.06	59,550 03

Total	431,282.82	$1,879,841.05

THE HOP TRADE.

[From San Francisco Commercial News, Oct. 27.]

It is estimated that of the 32,000-bale crop in the State of Washington, 22,000 bales have been disposed of, of Oregon's 75,000-bale crop 22,000 bales are still in the hands of growers, and of California's 62,000-bale crop but little over 2,000 bales are still held, leaving in all but 34,000 bales of a 169,000-bale coast crop still to be sold by growers. Cable advices from England and the Continent report very firm markets, with prices fully 10s per 100 lbs higher. Prices on this coast are strong; sales of choice to fancy stock have been made at 30c to 31½c. The Oregon *Journal* says the Oregon Hop dealers have formed a combination. Its sole purpose is to buy Hops at a reduction. The orders from England are in and the dealers do not want to pay the present figures. They will all get together and preach lower prices to the growers. The Hops are well worth the present quotations, but the dealers need a little side spending money and are going to begin "bear" operations. Thirty cents is said to be the limit offered by any member of the Hop combine, and they think they can get all the Hops they want at this figure, and possibly under it if they try hard.

The annual report of the American Malting Company shows profits for the year ended Aug 31 of $498,359, a decrease of $388,208. Surplus after charges and betterments is $116,514, against $410,491 last year.

A Kansas City message said: "Clearwater, Kan., reports Wheat in worse condition than it ever was at this time, early sown dying out. Late sown full of Hessian fly. Anson, Kan., wires: 'Early sown Wheat dying from lack of moisture and promise very poor. Late sown Wheat is not up yet.'"

A special meeting of the directors of the National Bank of North America, Chicago, was held Saturday. At this meeting the loans of the bank are said to have been carefully gone over with a view to determining the probable values the assets would bring in the liquidation which will begin shortly. The investigation is said to have been satisfactory.

The Republic Iron and Steel Company has started its Gate City rolling mill full capacity. The mill has been idle since July 2. A better demand for finished iron and steel is the cause of resumption.

The receipts of Flax Seed at Bombay for the week ended Sept. 29 amounted to 2,446 tons, against 4 6 8 tons in the previous week and 1,240 tons in the same week last year. The total receipts at Bombay from Jan. 1 to Sept. 29 amounted to 202,581 tons, against 136,896 tons in the same period last year.

CROPS IN THE WEST.

WASHINGTON, Nov 1—The following reports from Western States show the condition of the crops in that section:

Illinois—Favorable weather for farming operations and maturing Corn; crop well matured before killing frosts; husking and cribbing begun; average yield of good quality indicated, much prostrated by high winds; general condition of Wheat favorable, but needs rain, crop mostly sown late, but has attained good stand; pastures and Rye good; Potatoes heavy yield, Apples fair and crop of good quality in north, elsewhere scarce and inferior

Indiana—Practically all Corn escaped injury by frost, cribbing begun, yield fair; Potato crop fairly good. Wheat in fine condition except in few southern counties where drouth prevails and sowing is not finished; generally crops need rain; Rye, young Clover, and Timothy in good condition Apple crop light pastures in south section poor, elsewhere good

Ohio—Weather favorable for farm work; light frosts first half of month, heavy and killing last half. Wheat looking well except in south, where too dry, Rye starting well; Corn husking progressing, much soft Corn in northeast; Potatoes dug, crop fair; Tobacco curing well; Apples picked, crop good in northeast.

Michigan—October drier and slightly cooler than normal, but mostly favorable to field work and growth of Winter Wheat and Rye, which germinated finely and now looks healthy and promising late Potatoes and Sugar Beets generally giving good yields and fairly well secured, Corn husking well advanced

Wisconsin—Fine weather latter part of month for marketing large Potato crop, rains early in month delayed digging of Potatoes, but crop now out of ground, Winter Wheat and Rye making excellent growth; Apples plentiful and of excellent quality, farm work well in hand.

Minnesota—Much cloudy weather and considerable rain till 27th, with heavy local rains on 9th and 19th, freezing temperatures on 6th killed all but hardy vegetation, which is still green; threshing, plowing and Potato gathering nearly finished; Corn husking going on

Iowa—Month warmer and drier than usual and favorable for harvesting late Potatoes, Apples and garden truck; Corn drying out well and cribbing well begun, with yield somewhat above expectations and mostly sound; pastures excellent; limited acreage of fall Wheat and Rye doing well

North Dakota—Heavy local rains in northern and eastern portions delayed threshing, which is not yet finished in these sections, and also damaged some shocked Grain slightly; fall plowing has been in progress in all sections under favorable conditions.

South Dakota—Weather generally favorable for field work, seeding and germination of winter Rye and maturing Corn; Corn cribbing begun, but as a result of September frosts about one-fifth of the crop is not marketable; threshing and Potato harvest about completed; Potatoes good crop; Winter Rye and range pasture in good condition. plowing rather backward.

Nebraska—All Corn matured fully; first killing frost came late in October; pastures were good throughout month and Stock continues in fine condition, Winter Wheat and Rye, all sown in good season under favorable soil conditions, came up nicely and has grown well

Kansas—Wheat in fine condition, but needs rain in southeast, seeding still in progress in northwest counties; Corn all matured and being cribbed; range good in west; pastures good till frost; large Hay crop, forage generally abundant; Stock in good condition; Apples and Potatoes gathered; good crops.

Oklahoma and Indian Territory—Wheat seeding largely completed and early up to good stand, late sown not germinated and needs rain badly; second Cotton picking progressing and bulk of crop secured in good condition, with fair to good yields of good staples; Corn husking out good yields; forage crops gathered.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 28 to 42; fair to clear. Northwest—Temperature 30 to 42; clear. West—Temperature 31 to 50; clear. Southwest—Temperature 38 to 51; clear Ohio Valley—Temperature 36 to 46; partly cloudy

Indications are for mostly fair weather in this forecast district, but showers probable along Ohio Valley and in Southern Missouri Thursday. No material change indicated in temperature.

ITEMS OF GENERAL INTEREST.

The Bank of Montreal has declared a semi-annual dividend of 5 per cent.

The steamship Sierra has arrived in San Francisco from Australia with $500,000 in sovereigns.

The Pennsylvania Railroad Company has declared the regular semi-annual dividend of 3 per cent payable Nov 30 to stockholders of record Nov 5

Interest payable Nov 1 on Government bonds amounts to $1,184,899 on the 4s of 1925, $578,515 on the 3s of 1908-18 and $70,000 on the Philippine bonds, a total of $1,833,414

The People's Gas Light and Coke Company, Chicago has declared the regular quarterly dividend of 1½ per cent, payable Nov. 25. Books close Nov. 14 and reopen Nov 6

The regular quarterly dividend of 1¾ per cent on the original guaranteed stock of the Cleveland and Pittsburg Railway Company will be paid on Dec. 1 to holders of record Nov. 10.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Oct. 15 have amounted to 624,000 bu, against 1,256,000 bu in the previous year and 1 118 000 bu in 1902

The Coats thread combine of Scotland and America at its annual meeting announced that the profits for the year were $12,500,000. A dividend of 20 per cent was declared

The Chicago Ship Owners' Dry Dock Company has announced that its men will be required to work nine hours a day for the same wages they have been receiving for eight hours.

The men in the rod mill at the Joliet, Ill., plant of the Illinois Steel Company started work, Tuesday, under the new tonnage wage scale, which shows a reduction of from 15 to 20 per cent. It was accepted without friction.

The shipments of Flax Seed from India from April 1 to date amounted to 15,712,000 bu (Calcutta 9,960,000 and Bombay 5,752,000 bu), against 14,584,000 bu last season (Calcutta 9,464,000 bu and Bombay 5,120,000 bu), and 10,624,000 bu in 1902 (Calcutta 7 208,000 bu and Bombay 3,416,000 bu).

The Canada Car Company, with a capital of $3,000,000, has just been incorporated and will build at Montreal a plant capable of turning out twenty-five wooden freight cars, fifteen Steel freight cars, and fifteen passenger coaches a day. The plant will be in operation early next summer.

The Royal Bank of Canada, Monday, engaged an additional $250,000 Gold bars at the New York assay office, bringing its total shipment to Paris, Wednesday, up to $1,50,000. The total amount of Gold which will be shipped to Paris, Wednesday, is $5,250,000 in Gold bars and $200,000 in francs.

John Ruddy and J. M. Ruddy of Chicago and John T. McNamara of Kansas City compose the American Dressed Beef and Provision Company, with $2,000,000 capital, which will this week begin the construction of another Kansas City packing plant. One thousand men will be employed and the plant will be operated as an independent concern.

A railroad president whose lines enter Chicago says: "If Chicago Terminal Transfer should ever go through a receivership and the property should be sold at foreclosure its 4 per cent bonds should go to par before the sale comes off. I could name three bidders for the plant offhand, and each of them would, if necessary, pay more than the bonded debt."

Increased tonnage in high class and general freight more than offsets the decrease in Grain and Meat shipments on the railroads running east from Chicago. These railroads report that all local industries are running at greater capacity, using more raw material and shipping more products All the roads say they could use more cars, but that there is no serious shortage yet

The Austrian Ministry of Agriculture in its crop report for mid-October says although the autumnal rains commenced rather late, the crops were generally seeded in good time, and under favorable conditions; in some districts of Bohemia, however, continued drouth made the work very difficult. Corn gathering was mostly finished by the end of October; the crop is moderate to unsatisfactory

The following companies have ordered locomotives from the American Locomotive Company: Chicago, Burlington and Quincy, fifty simple prairie type locomotives; Chicago and Northwestern, sixteen locomotives; Central Vermont, nine passenger and five freight engines. The New York, New Haven and Hartford is having twenty locomotives built, and the Louisville and Nashville is having five locomotives constructed.

Average weight of Live Stock at Chicago for months undermentioned:

	Oct., 1904.	Sept., 1904.	Oct., 1903.	Oct., 1902.	Oct., 1901.	Oct., 1900.
Hogs	230	244	241	227	236	234
Cattle	266	1,011	1,005	984	1,000	1 061
Sheep	78	78	70	70	80	77

Last month's Cattle receipts were the largest since September, 1892, and the average weight the lightest in over two years

A New York Exchange firm says of the engagements of Gold for export: "These engagements of Gold are in the way of special transactions and, we imagine, have some connection with a new Russian loan. Since, however, our money market is at such ease, we need not be at all concerned at any loss of Gold at the present time, especially as we are receiving a liberal supply from Alaska and imports from Australia to compensate us for any possible exports from New York."

Judge Creighton, in the Sangamon County Circuit Court at Springfield, Ill., Monday, granted a temporary injunction in the case of Harry L Ide against E. W. Clark, Anton W. N. Hodenpyle, H. D. Walbridge, and others, to restrain the consolidation of the Springfield Electric Light and Power Company with the Springfield Heat, Light and Power Company. In a verbal opinion the court held that a combination of utilities in Springfield would be against public policy and a violation of the anti trust laws.

Dornbusch's Buda Pesth correspondent, writing under date of Oct. 15, says: "The tone of the Flour market here, which for the last two months has been one of general depression, seems at last to have taken a turn for the better. Offers from second hands have materially decreased, and although activity has not yet appreciably improved, the outlook is decidedly more cheerful. Millers are beginning to ask better prices, and stocks have not increased. Mill feeding stuffs are scarce, but prices here have also recovered, as second hands are offering less."

The *Corn Trade News* of Oct. 20 says: "Seeding in France continues under favorable conditions. The increase of area under Wheat as compared with last year is considerable, and if the winter be favorable, very little Spring Wheat sowings will be required Trade on country markets has been very quiet, for growers are very unwilling to follow the downward movement of the Paris market, and will only sell at the decline when absolutely in want of money. At yesterday's Paris weekly market, trade was also very dull. Millers were indifferent buyers and influenced by the decline on the speculative market and the increase of the stocks"

The *Mark Lane Express* of Oct. 17 says: "The progress made with Wheat sowing is almost beyond precedent for the date, and if the farmers who grow this cereal are now a small army decimated by the hard encounters of foreign competition, they are also a select and veteran few able to make the most of opportunities. They are not only showing a wise prescience in getting on with their sowings while air and soil alike favor work, but many of them are manufacturing a considerable degree of sagacity and self-sacrifice for the time being in withholding Grain from the markets, which in October are always apt to be overburdened with imported produce."

The London *Agricultural Gazette* of Oct 17 says: "The weather has continued favorable for farming operations, which are in an exceptionally forward position for the time of year. In some places Wheat is already coming up thick and vigorous in plant, but no great quantity was sown before the first week of this month. A little delay in proceeding with sowing is now necessary where Mangels are being carted off the fields. Potato raising is in an advanced state, and the tubers have come off the fields in good condition for keeping, showing very little disease as a rule. The yield appears to be better on the whole than was expected, and a fair crop of sound tubers will help to economize the consumption of Wheat."

North British Agriculturist of Oct. 19 says: "Even in the latest districts the fields are now for the most part cleared of the Grain crops, and the harvesting of the Potato crop is being rapidly proceeded with. The yield of tubers promises to be a very full one, and there is very little disease among them. The present dry, crisp weather is very favorable for the harvesting of the crop, and it is much to be hoped that this seasonably fine weather may continue till this important crop has been safely lifted and stored. The Turnip crop continues to bulb well where the plants were good before As a whole, the root crop has come to be much better than most people would have anticipated a couple months ago. Pastures are fairly good for the time of the year, and are still affording a good bite for store stock."

The London *Times* of Oct 16 says: "Much better weather was experienced last week over the country as a whole than in the first week in October. For the time of the year, indeed, the conditions were bright and exhilarating, and the early morning frosts, of which there were several, were speedily dispersed under the warming influence of the sun's rays. Very good progress was made with tillage work, and it is probable that before the present month has run its course, last year's acreage of Wheat will already have been overtaken. It is difficult to-day to find a farmer who is not abreast of his work, while fortunately many are ahead of it. The main Potato crop is being rapidly cleared off the land, and cautious farmers who wish to avoid any risk of injury from frost, have made big inroads into the mangels, the most nutritious of our root crops and the most costly to cultivate"

During the past week the following railroads have ordered cars from the American Car and Foundry Company: Minneapolis, St. Paul and Sault Ste. Marie, 1,000 box and 200 flat cars; Hocking Valley, 200 additional box cars; Toledo, St. Louis and Western, 30 cabooses for November delivery; miscellaneous parties, 100 cars of various types The New York Central and Hudson River Railroad has increased its order for coal and box cars from 1,500 to 2,000 each; the order will be equally divided between the American Car and Foundry Company and the Western Steel Car and Foundry Company. The Pullman Company has received an order from the Ingoldsby Automatic Car Company for five freight cars. The Pennsylvania Railroad Company is having 200 coke cars built. The Mather Stock Car Company is having 800 stock cars built. The Cherokee Construction Company is having 25 freight cars constructed. The Lehigh Valley Railroad has ordered two cafe coaches for December delivery.

A temporary injunction, restraining Brown Bros. & Co., of New York, from establishing an alleged "blind pool" of St. Louis Transit Company and United Railways Company assets, was granted, Monday, by Judge Fisher in the St Louis Circuit Court, on application of attorney for parties who assert ownership of 11,000 shares of St. Louis Transit Company stock The court was asked to set aside the reorganization of the two companies on the ground that the "whole scheme was fraudulently designed, and that the railroads and their stockholders were induced to go into it through misrepresentation, deception and fraud." The suit affects the recent reorganization of the St. Louis Transit Company and the United Railways Company, by which the latter took back the properties it leased in October, 1890, to the first named company for a period of forty years. The deal was engineered by Brown Bros. & Co, who, it is stated, secured stock amounting to $100,000 for its services. Plaintiffs base their action on the complaint that Brown Bros & Co are to receive 20 per cent from the stockholders of the Transit Company in addition to the $100,000.

The Chicago *Inter Ocean* says: "The final settlement of the plan to lease all the mills of the United Box Board and Paper Company, except five, to a syndicate of independent manufacturers is hanging on a series of conferences being held in New York this week. It is understood that in these conferences President O. C. Barber of the United States Box Board and Paper Company is representing the United Company's interests, and Crawford Fairbanks of Indianapolis is representing the 'Independents.' Mr. Fairbanks has spent the last week in the West, getting the consents of the independent mills to the plan, and it is supposed that he now possesses full power to act in the matter. Mr. Barber was empowered by his directors some time ago to go ahead with the deal. The delay in the consummation of the deal, and the unfortunate history of the United Box Board Company in previous financial negotiations, has caused La Salle Street people during the past week to become very skeptical as to the outcome of the negotiations. However, the best information obtainable here is to the effect that no serious hitch has occurred, and that the matter will be closed up successfully within a few days. The delay was caused by the difficulties experienced in getting all the independent mills to give their consents to the plan."

The Cincinnati *Price Current's* weekly crop summary says: "Favorable week for progress in securing and cribbing Corn Yield indications maintained. Marketing not hurrying. Wheat crop continues promising. Dry weather retardation not necessarily a drawback to future conditions. Some fly reports, mainly in Ohio and Indiana, but not of a serious nature "

By order of the executive officers, a joint committee of freight and passenger officials of Western railroads met in Chicago, Wednesday, to devise measures to stop the "scalping" of passes issued to persons coming here with shipments of Live Stock. The plan most approved was to require the shippers to buy their return tickets at regular rates, with rebate privileges

A New York dispatch says: "An intermarket agreement to govern cash Grain transactions became effective Wednesday, having been signed by a large number of New York and Chicago merchants. The agreement provides for an arbitrating board to settle disputes, many of which have arisen from failure to understand what is meant by 'custom'"

Local Securities were more extensively traded in and averaged higher. Can and Boxboard furnished the greater part of the business. Can was bought freely on Eastern orders and advanced 1⅛ to 1½ points. Boxboard common advanced ⅜, and preferred held steady The only weak spots were the break of 5 points in City Railway, and 2 in West Chicago Railway.

The New York Stock market was a two-sided affair, with heavy realizing and active buying of various shares by leading interests. The profit taking was of a general character, as was also the buying. Among the Railway shares, Rock Island was a feature Prices receded sharply in the morning, but rallied and the market showed a ragged appearance at the last. London bought Steel shares heavily. A settlement of the Copper war was reported. Industrials mostly closed higher. Money 2¼ to 2½ per cent

Car loads of Live Stock received at Chicago last month, 25,173, or 812 more than the corresponding month a year ago. Eight leading Western roads contributed cars as follows:

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate from all quarters Buyers are holding off and market is a little slow. Prices easy

WINTER WHEAT—Was quiet. Demand lacking and market dull with feeling easy, excepting for choice soft Red and choice No. 2 Hard, both of which were steady Millers doing very little. No. 2 Red in store nominally $1 15⅝@1 16½, and fresh arrivals free on board quotably $1 16@1 18, with a sale at $1 16. No. 3 Red fresh arrivals free on board sold at $1 13½@1 14. No. 3 Hard fresh arrivals free on board quotably $1 12@1 16, with a sale at $1 16. No. 3 Hard fresh arrivals free on board sold at $1 12@1 13½, and at the river at $1 04. No. 4 Hard at the river sold at $1 04.

SPRING WHEAT—Was reported dull to-day, and while choice hard variety was quotably steady the medium and poor Wheat was weak. Trading very light. No. 1 Northern fresh receipts free on board quotably $1 16@1 18, and No. 2 Northern at $1 10@1 15. No. 3 Spring fresh receipts free on board quotably $1 03@1 12 for ordinary to good hard variety No 4 Spring sold at 92@95c and was quotable at 80c@$1 05 for very poor to choice.

REGULAR WHEAT—Was only moderately active, the trade not being of very heavy volume. The feeling at the same time was rather unsettled and prices were irregular, the close showing December up ¼c, while May gained ¼@⅜c and July ⅝c The start was firm on the continued dry weather and the tendency of receipts to decrease, but speculative offerings soon increased, considerable "long" property coming out, and prices declined Crop reports were "bearish" and cables easy. The *Orange Judd Farmer* claimed the Winter Wheat area already sown was larger than the area harvested in every State, and final net increase would be heavy. Growth situation excellent and general position of the crop very good. The *Price Current* stated the Wheat crop continued in promising condition and fly reports, mainly in Ohio and Indiana, not of a serious nature. Liverpool quoted spot steady to ⅛d lower and futures ⅛@¼d lower. London came ⅛d higher. Buda Pesth came ⅞d lower and Berlin ⅜@⅝c higher. Primary receipts 395,000 bu smaller than a year ago, arrivals in the Northwest 215 cars less. St Louis and Kansas City received 150,000 bu, against 207,000 bu last year. Minneapolis wired stocks had increased 950,000 bu the past five days Duluth wired, "Foreign inquiry for Manitoba's improved; looks as if foreigners shifting around for some Wheat" Later, sales of 70,000 bu c. i. f. Buffalo and 48,000 bu for direct export were reported Rains were reported in Argentine, heavy in certain sections and acted as a strengthening influence. The English coast was again bare of cargo offerings. Private messages from Kansas reported weather cloudy and rains probable in the near future Signal service predicted generally fair weather Argentine shipments were estimated at 1,200,000 bu Clearances were small and but 13 boat loads accepted at the seaboard. Part of the late strength was due to Kansas City *Star's* estimate that 25@33 per cent of area in Kansas, Oklahoma, Missouri and Nebraska was infested with Hessian fly. St. Louis sold 150,000 bu, part to Toledo. Receipts at Duluth 292 cars at Minneapolis 560 cars, total of 852 cars, against 588 cars yesterday, 483 cars a week ago, and 1,067 cars last year. Local receipts included 43 cars Winter, 28 cars Spring and 9 cars mixed, a total of 80 cars, against 111 cars last year. Included in above was no car contract grade There were also 3 cars and 50,000 bu taken from unlicensed elevators The estimated receipts for to morrow are 41 cars. The withdrawals were 500 bu Receipts at Western points were 1,029,142 bu, against 1,424,076 bu last year. At Eastern points 51,429 bu, against 342 677 last year. Shipments from Western points 562,969 bu, against 637,533 last year, and from Eastern points no bu, against 105,711 bu last year. Shipments of Flour were 10,339 brls. Exports of Wheat in Flour were equal to 46,525 bu.

Future Deliveries of Regular Wheat—Moderate trade and market steady.

NOVEMBER—Entirely nominal and closed at about $1 11⅞

DECEMBER—Sold at $1 11⅝@1 12½. Opened at $1 12⅛ to $1 12¼; sold to $1 12⅜, to $1 11⅝@1 11¾, to $1 12, to $1 11⅝, to $1 12⅛, to $1 12, to $1 12¼, to $1 12½, to $1 12¼, to $1 12⅛, and closed at $1 12⅜ asked.

MAY—Sold at $1 11¼@1 12½. Opened at $1 11⅞ to $1 12⅛; sold to $1 12, to $1 12¼, to $1 11½, to $1 11⅞, to $1 11¼, to $1 12, to $1 11¾, to $1 12½, to $1 12⅛, to $1 12¼, and closed at $1 12¼ asked

JULY—Sold at 98@99c Opened at 98⅝c; sold to 98½c, to 98¾c, to 98⅛c, to 98⅝c, to 98c, to 99c, to 98⅞c, and closed at 98⅞c asked.

CORN—A fair trade, with the close ⅛@¼c lower for December, while May lost ⅛c. Offerings at the start were liberal, with the pressure on the December the premium over May narrowing at one time to 2⅝c. Commission houses had "long" Corn for sale and the demand for a while was of the indifferent sort and widely scattered The weakness was partially attributed to the *Orange Judd Farmer* report covering more than half the producing counties which showed the average yield to be 27 bu which indicated a crop of 2 560,000 000 bu and the quality of the crop high The yield is heaviest in Nebraska and uplands of Iowa and cribbing has already began. The *Price Current* reported the week favorable for progress in securing and cribbing Corn, and yield indications maintained Peoria reported large receipts of new Corn and was also a factor At the decline there was fair buying by "shorts," which caused a moderate recovery, the cash situation being a feature, the sale of 250,000 bu No. 2 being made at 7c over May in store. Liverpool quoted spot steady and futures ⅛d lower Receipts were 64 cars, against 296 cars last year and but 78 cars estimated for to-morrow. Continued fair weather was predicted by the signal service Withdrawals were 99,000 bu and exports 2,560 bu Argentine shipments were estimated at 2,000,000 bu. Western receipts 215,000 bu, last year 446,000 bu. Shipments 220,000 bu and 316,000 bu respectively Local arrivals 65,000 bu and shipments 146,000 bu At the seaboard 5 boat loads were accepted Car lots were in light supply and fair demand. Feeling steady and prices shade higher. No. 2 closed about 54½c and No 2 Yellow at 57½c. No. 3 closed at 54c and No. 3 Yellow at 57c. No 3 White sold at 53¾c

Corn by sample Offerings were small and demand fair Feeling firm, with mixed unchanged and yellow a shade higher. Sales on track and free on board: No Grade sold at 48@49½c. No 4 at 53@57c. No 3 at 46@56c. No 3 Yellow at 57½c No 2 Yellow at 58c. No 3 White at 54¼@54½c. Billed through: No Grade at 48½@54½c No. 4 at 52@53½c No 3 at 53@55c. No. 3 Yellow at 56¼c. No 3 White at 54c

Future Deliveries of No. 2 Corn—Moderately active and prices irregular, closing ⅛c to ⅛@¼c lower.

NOVEMBER—Inactive and quotable 3¾c over December and closed nominally at 52c.

DECEMBER—Sold at 47⅞c and at 48½@48⅝c Opened at 48½@48⅝c and 48½c, and sold at 48c, to 48¼@48⅜c, to 47⅞c to 48¼c, to 48c, to 48¼@48⅜c, to 48⅛c, to 48¼c, and closed at 48¼c asked

MAY Sold at 45¼@45¾c. Opened at 45⅝c to 45½c, and sold at 45¾c to 45⅜c, to 45½@45⅝c, to 45¼c 45½@45⅝c, to 45¼@45⅜c, to 45⅝c, and closed at 45⅝c bid

JULY—Sold at 45¼@45⅝ Opened at 45⅝c, and sold at 45¼c, to 45½c, to 45⅜c, and closed at 45⅜c

OATS Were steady within ¼c range and closed unchanged from yesterday to ⅛c lower, the latter for July. There was a moderate trade A little strength was imparted by the advance in Wheat. *Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city.

Minneapolis Flour output last week decreased 3,300 brls compared with the previous week. Three of the smaller companies have their plants closed down to day, and one of the large concerns has increased its capacity by starting up its largest mill and closing down a smaller one. For the current week the Minneapolis mills will probably not make more than about 280,000 brls.

Taken as a whole, Flour trade as experienced by Minneapolis millers has not been good during the past week. One large concern, however, reported having sold a fair quantity of Flour and said that shipping directions were coming in satisfactorily. It was a conspicuous exception, as all the other millers, both those whose plants are located in the city and outside, experienced dull sales and inadequate shipping directions. The aggregate sales of the city mills did not equal the output, which is not likely to be increased in the near future. The weak Wheat market of last week was the most important factor in keeping sales down to a low level. Buyers were frightened and could not, as a rule, be induced to purchase in any quantity on the declining market. They are almost a unit in being "bearish" as to future prices. Round lots of Flour could not be worked, and the small sales were confined almost exclusively to car lots to needy buyers.

Shipping directions were hard to get, as the trade seems to have all the Flour it cares to carry at the present time. There are rumors, apparently well founded, that some Northwestern millers are shipping Flour East and storing it in good sized quantities at distributing points. This may have the effect of "bearing" the market a little later on, though such Flour is generally held in strong hands. Millers as a rule are pessimistic as to future prospects for an improved domestic business. The course of the Wheat market is so uncertain that it is next to impossible to get buyers to take Flour for future shipment. They prefer to buy from hand-to-mouth and then only when they are compelled to by utter depletion of stock.

The United Kingdom demand for first and second Clear reported last week has practically disappeared. Importers bid prices are 6d or more too high, and it does not seem possible to "jack them up" enough to permit of business. The decline in the price of Wheat on this side of the water has taken away their desire to purchase at present. As for Patent for export, millers did not report a single sale during the past week, and prices are anywhere from 2s to 3s 6d out of line. Importers do not respond to cables in most instances, as they consider it a waste of money so to do.

Millfeed remains dull and the price is inclined to be weak. As millers have a fair quantity on their books, they are not anxious to make the concessions necessary to induce free buying.

Minneapolis and outside millers quote Patent at $5 8 @6 00 per brl in wood, f. o. b. Minneapolis.

Eastern prices to-day (Oct. 29) asked by Minneapolis and outside mills for Patent in wood were: Boston rate points, $6 65; New York rate points, $6 50, Philadelphia rate points, $6 45; Baltimore rate points, $6 40; Albany rate points $6 50; Utica, Syracuse, Hornellsville and Rochester rate points, $6 45, Buffalo and Pittsburg rate points, $6 35; Ohio, Lower Peninsula of Michigan and Indiana, $6 35, Upper Peninsula of Michigan, in sacks, $6 05; Missouri points, $5 95; Wisconsin, Iowa and Illinois, $6 10.

Glasgow cables to-day that the Flour market is firm, but not quotably higher. Prices of Australian and European Flour are lower than they were, as supply exceeds demand. Liverpool reports some business done, but buyers have again withdrawn. English Flour is more inquired for at last week's values. In London a more active demand has been experienced on account of the war scare, but the market is now quiet again. In all the markets of the United Kingdom the sensational stories about a possible war between England and Russia caused a flurry which subsided as soon as the reports were officially pronounced groundless. In Amsterdam Flour meets a slow sale, but is firmly held. Buyers hold off awaiting lower prices. Clear Flour is in good request for future shipment.

MATERIAL FOR A GOVERNMENT BANK

[From the Wall Street Journal, Nov. 1.]

The inquiry has been made whether the concentration of banking in New York did not point directly to the establishment of a great Government bank, such as, indeed, existed in the United States before 1837.

If it be granted that the concentration does point that way it may be said that there are ready in New York the materials for such a central bank of the United States as would rival the greatest banks of Europe.

The deposits of the Bank of England amount in round numbers to $246,000,000.

Two banks in the City of New York are rapidly reaching for that high total. The National City already has $ 93,000 000 deposits and the Bank of Commerce $159,000,000.

Each of these two banks, however, are at the head of banking groups whose resources make a very imposing exhibit even in comparison with the great Bank of England.

The aggregate net deposits of the National City, the Hanover National, the Citizens and Central National, the Second National and the Lincoln National, which are recognized as belonging to the Rockefeller-Stillman group of banks, amount to $303,073,000 or $57,000 000 more than the public and other deposits of the Bank of England.

The net deposits of the Bank of Commerce, the First National Bank, the Chase National Bank and the Liberty National, which are recognized as belonging to the Morgan-Baker Insurance Company group amount to $339,731,700, or $73,000,000 more than the deposits of the Bank of England.

In specie holdings the Bank of England exceeds either of these two New York groups, but the latter, nevertheless, are very powerful in this item.

For instance, the Rockefeller-Stillman group holds $65,211,500 of specie and the Morgan-Baker group $72,472,300, a total of $137,683,800 or more than 27 per cent of all the specie in all of the National Banks in the United States on Sept 6, and 60 per cent of all the specie held by the National and State Banks in the New York Clearing House on Oct. 29.

CHICAGO BANK CLEARINGS.

[From Chicago Inter Ocean Nov. 1]

The race between the clearings of the Chicago banks this year as compared with those of last year is extremely close. For the ten months ended yesterday this year's clearings are a trifle over $40,000,000, or one big day's business, in excess of the clearings for the corresponding ten months of last year. However, owing to the leap year, there has been one more working day this year than up to this time last year. So that, on the merits of the case, the clearings of this year are almost exactly the same as those of last year up to date. As the clearings are supposed to measure the business and financial activity, the significance of the closeness is marked. This is the first year since 1895 that the clearings have not shown a large gain on the previous year.

For the month of October a decrease in clearings amounting to $12,865,584 was shown. This was due to the fact that there was one less business day in October this year than in October of last year. Counting even days the month this year was well ahead of October 1903.

Following are the figures for the month of October and the year to date:

	1904	1903.	Increase	Pct.
Jan	$729,587,789	$759,923,061	*$30,335,272	*3 9

AUSTRALIAN WHEAT CROP PROSPECTS

[Special Correspondent Dornbusch, Oct. 22.]

SYDNEY, Sept 20.—The continuance of somewhat adverse conditions over the various Grain producing areas of the Commonwealth has tended to further discount prospects for the coming harvest. A few scattered showers have fallen in places, but rain is badly needed, and unless a moderate contribution of moisture is forthcoming within the next two or three weeks the Wheat crops will suffer seriously. Current market quotations for Grain have risen from 3s 4d to 3s 5½d per bushel, but holders are refusing to quit at the higher limit, while buyers are not in a position to advance beyond parity of London values. Since the beginning of the season about 32,750,000 bu of Wheat have been exported from the Commonwealth.

[Since above date ample rains have fallen throughout Australia. Ed. *Dornbusch*.]

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller Nov. 2.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 42 "outside mills" with a daily capacity of 32,000 brls, from Jan. 1, 1904, to Oct. 22, 1904, with comparisons:

	1904 Flour, brls.	1904 Wheat, bu.	1903 Flour, brls.	1903 Wheat, bu
Minneapolis	10,778,910	48,505,000	11,929,250	53,682,000
Duluth	657,540	2,950,000	881,095	3,965,000
42 outside mills	5,591,710	25,163,000	5,806,045	26,127,000
Totals	17,028,160	76,627,000	18,616,390	83,774,000

These figures represent the approximate consumption of 7,147,000 bu less Wheat this year than in 1903. This has occurred from the mills of Minneapolis and Duluth as well as the outside mills turning out 1,588,230 brls less Flour than in 1903.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 30 to 42; generally clear. Northwest Temperature 28 to 44; clear. West - Temperature 32 to 50; clear. Southwest—Temperature 38 to 51, partly cloudy. Ohio Valley—Temperature 34 to 52; partly cloudy.

Indications are for continued fair weather and moderate temperatures throughout this forecast district, except showers probable in Ohio Valley.

ITEMS OF GENERAL INTEREST.

The receipts of Coal at Milwaukee for Monday and Tuesday reached 50,635 tons.

The *River Plate Review*, of Sept. 24, says: "All the reports received from camp speak of the splendid rains that have fallen and of the magnificent prospect for the coming Wheat crop, especially as to Cordova Province."

It is announced that the St. Louis Southwestern has recently sold $1,500,000 of the first consolidated mortgage bonds. The road is now in a position to meet all its financial requirements, including the payment of all car trust certificates maturing during the coming year.

The monthly statement of the public debt shows that at the close of business Oct. 31, 1904, the public debt, less cash in the treasury, amounted to $986,787,652, which is an increase for the month of $4,404,715. This increase is principally accounted for by a decrease of $5,061,365 in the amount of cash on hand.

The *Times of Argentina*, Sept. 19, says: "The Plate, with normal crops, can now be reckoned to export about 6,000,000 tons of cereals per annum, independent of Wool, Skins, Meat, etc., reaching several million tons. The coming crops, so far, promise very well indeed, the Wheat fields being in splendid condition."

Increased receipts of Wheat are predicted in the Canadian Northwest, after the roads freeze up, by the Ogilvie Milling Company of Montreal. They say that Goderich and Port Huron elevators are crowded with Wheat shipped from Fort William and Port Arthur, and the Canadian Northwest cannot dispose of its surplus.

A Carbondale, Ill., dispatch says: "The private banking firm of N. J. Powers & Co. of Makanda closed its doors, Tuesday. The firm has always been considered substantial. The assets and liabilities are not fully known yet, but it is claimed by many that the bank will not be able to pay more than 30c on the dollar."

Notice is given by the voting trustees of the Reading Company that they will, on and after Dec 1, cease to issue voting trustee certificates and have arranged for the delivery of stock of the Reading Company in exchange for such certificates which may then be outstanding. No transfer of voting trustees' certificates will be made after Nov. 30.

The details of the consolidation of the Commercial and Mercantile National banks of Cleveland are substantially complete. The plans call for both banks to go into liquidation Dec. 1, on which date the new bank that is to succeed them will be ready for business. It is to be called the National Commercial Bank and will have a capital of $1,500,000. The stock is to be paid in at $150 per share.

Third Vice President Morse, of the Grand Trunk Railway, Monday, denied the truth of published statements that the Grand Trunk intended purchasing the Detroit Southern Railroad. The Grand Trunk Railway Company, he added, intends to increase its mileage in proportion to the development of the country. The extensions, however, to be made from this time on will be within the Canadian boundary, and not on the south of it.

The monthly comparative statement of the Government receipts and expenditures show that for the month of October, 1904, the total receipts were $48,090,608, an increase as compared with October, 1903, of $2,027,395. The expenditures for the last month were $52,943,122, an increase as compared with October, 1903, of $1,032,644. The deficit last month, therefore, was $3,952,514, as against a deficit of $4,947,265 for the corresponding month last year.

Another cut in wages has been announced by the Illinois Steel Company and there is much dissatisfaction among the workmen. It is to become operative at the beginning of the year and it is said it will amount to 50 per cent on the tonnage men. The men say if it amounts to so much they will not accept it. There are about 400 men employed in that department and they are the most highly skilled in the plant. The old scale ran from $8 to $12 a day.

"The 1905 world's Steel trade," said one of the American members of the Iron and Steel Institute, "I venture to predict, will exceed any year of the past, except 1902, and it may closely approximate the high records reached then, unless there should be a decided reversal of the present outlook. The United States will undoubtedly begin the new year with a large volume of business and with resumption of work on many projects laid aside fifteen months ago."

At the regular quarterly meeting of the directors of the American Radiator Company, Wednesday, an initial dividend of 1 per cent was declared on the common stock of the company, payable Dec. 31. Books will be closed from Dec. 22 to Dec. 31, inclusive. The dividend is a quarterly disbursement, and the common stock is now on a regular 4 per cent per annum basis. At the same meeting the directors declared the regular quarterly dividend of 1¾ per cent on the preferred stock, payable Nov. 15. Books will be closed from Nov 10 to Nov. 15, inclusive.

Westinghouse Air Brake officials report a decided tendency toward improvement in the brake business. An increase in the extra dividend is talked of. For the years 1902 and 1903 Westinghouse Air Brake paid 2½ per cent quarterly regular and 3½ per cent extra quarterly, making 24 per cent per annum for those years. Owing to the quietness in railway work this year the dividend was reduced to 2½ per cent regular and 2½ per cent extra quarterly, making 20 per cent for the year. As business is improving, it is considered probable that the old rate of 2½ per cent regular and 3½ per cent extra will be resumed.

The Buenos Ayres *Handels Zeitung* of Sept. 23 says: "The weather during last week can be considered ideal for the crops. Sufficient rain has fallen now to assure against damage from drouth, even if no more makes its appearance for a long time. Those districts that had begun to suffer from drouth have so far recovered as to give promise of a middling crop. Reports from Santa Fe speak of a probable exceptional crop, and both official and private opinion, regarding the crops in the province of Buenos Ayres, state that the young plants could not possibly be in better condition than they are. Only a large increase of locusts or a succession of late frosts are likely to endanger the large yield expected this year."

In the application to list $6,500,000 additional Great Western common stock, the vice president says: "The authorized issue of common stock has been increased by the affirmative vote of more than two thirds of its stockholders from $30,000,000 to $50,000,000. The resolution of its stockholders, together with the evidence of registration in the various counties and with the Secretary of State of the State of Illinois, is filed herewith, which formalities were completed on April 25, 1904. The amount of common stock now outstanding is $20,924,045, and the above $6,500,000, when issued, will make the amount outstanding $30,424,045. The Mason City and Fort Dodge Railroad Company has extended its lines to Omaha, Neb., and arranged to purchase the lines of the Mason City and Fort Dodge Railroad Company, which are now completed, and has increased its capital stock from $5,000,000 to $20,000,000."

Receipts of Wheat at Winnipeg, 325 cars, against 194 a year ago. Inspection shows 1 car No. 1 Hard, 36 cars No. 1 Northern, 88 cars No. 2 Northern, 79 cars No. 3 Northern, and 121 cars low grades.

An estimate by a correspondent of the DAILY TRADE BULLETIN, based on the acreage of the Department of Agriculture, indicates a Corn crop of 171,000,000 bu in Kansas and 278,000,000 bu in Nebraska.

Argentine Wheat visible is 2,392,000 bu, against 2,464,000 bu the previous week, and 1,472,000 bu last year. The Argentine Corn visible is 3,702,000 bu, against 3,858,000 bu the previous week and 2,114,000 bu last year.

Shipments of Wheat from Argentina this week were 1,280,000 bu, against 934,000 bu the previous week, and 128,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 87,405,000 bu, against 60,328,000 bu same time in 1903.

Shipments of Corn from Argentina this week were 2,254,000 bu, against 3,188,000 bu the previous week, and 2,128,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 79,151,000 bu, against 65,857,000 bu for same time last year.

Duluth receipts of Wheat include 33 cars No. 1 Northern, 34 cars No. 2 Northern, 46 cars No. 3 Spring, 37 cars No. 4, 14 cars Rejected, 13 cars No Grade, 24 cars Western White, 15 cars Western Red, 15 cars Macaroni and 1 car Mixed. Total, 232 cars.

Stocks in New York closed with most Stocks showing liberal gains. Western Railway shares were all lower early, but reacted. A feature was the good buying of Steel, Republic Iron, Tennessee Coal, Colorado Southern, and Copper. Money 2 to 2¼ per cent.

The shipments of Flax Seed from Argentina this week were reported at 144,000 bu, compared with 320,000 bu last week and 200,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 36,724,000 bu, compared with 23,195,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 347,000 bu, against 449,000 bu for the previous week and 1,460,000 bu for the corresponding week last year. Exports since July 1 were 10,642,000 bu, compared with 19,890,000 bu for corresponding time last year.

Broomhall's Liverpool cable on Corn says: "Smaller Argentine shipments and a large decrease in the Argentine visible caused a steady market, opening at unchanged to ⅛d higher. A firm undertone developed. Sentiment was also affected by the sale of a large cargo of Argentine Corn to North Russia."

Local Securities were active, with good buying of Can shares on Eastern orders. Prices, however, held within a small range. The leading advances were 2½ in West Chicago Railway, 1⅞ in Swifts, and 2 in Chicago Edison. The losses were in Biscuit, Street's, North Chicago Railway and Oak Park Elevated.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,482,000 bu, against 1,480,000 bu for the previous week, and 4,730,000 bu for the corresponding week last year. Exports since July 1 were 23,935,000 bu, compared with 59,823,000 bu for the corresponding time last year.

C. A. King & Co., of Toledo, wire as follows: "Ohio crop report for November make condition of Wheat 87 compared with 81 one year ago, and 59 at harvest. Area sown, 99 per cent, or 1,859,000 acres. Very little fly damage. Condition of Corn, 71, compared with 73 last month, and 69 one year ago. Not husking out well much soft and mouldy." [BULLETIN correspondents indicate area of Wheat 105.]

The *Modern Miller* says, "Drouth conditions have prevailed quite generally throughout the Winter Wheat belt. In some sections, notably in the Southeast, complaints of retarded growth or inability to seed are becoming more general, otherwise the prospects are good, as the plant is making seasonable progress. Hessian fly is reported in early sown Wheat and some damage is being done, but this as yet has not developed into anything serious. A large acreage of Winter Wheat is assured."

Broomhall cables in reference to Argentine crops as follows: "Our agent has just returned from a week's trip through Entre Rios and Santa Fe, which contain about half the Wheat acreage of the country, and reports that the Wheat crop looks splendid, he considers the present weather favorable for the crops and claims that damage reports are unfounded. The tone of the Argentine Wheat market is firm with good export demand. The arrivals from the interior are fair. The Corn markets are firm, with the foreign demand fair. The arrivals at the ports are small."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market was without any noteworthy change. Demand moderate and prices easy.

WINTER WHEAT—Ruled quiet. Trading being of a rather limited character. Medium grades of milling Wheat were slow and easy, but choice soft ruled steady. Millers doing but little and demand from other sources indifferent. No. 2 Red in store quotable $1 15¼@1 16⅛ and fresh arrivals free on board quotable at $1 10½@1 18. No. 3 Red fresh receipts sold free on board at $1 13@@1 14½. No. 4 Red fresh receipts free on board sold at $1 08@1 10, and billed through at $1 11½. No. 2 Hard fresh arrivals free on board sold at $1 15 and was quotable at $1 11@1 15. No. 3 Hard fresh receipts free on board quotable at $1 05@1 11, with sale of a choice car billed through at $1 14. No. 4 Hard sold at 87c and No 3 White at $1 12.

SPRING WHEAT—The market was quiet. Hard variety of Wheat ruled steady, but poor Wheat dull and neglected. Millers bought sparingly and others not disposed to purchase except ing on a limited scale. No. 1 Northern quotably about $1 16@1 18 for fresh receipts, but none arriving. No. 2 Northern fresh arrivals free on board quotably $1 10@1 15. No. 3 Spring fresh receipts free on board quotably $1 02@1 11½. No 4 Spring sold at 65@70c for poor and at 97c for fair.

REGULAR WHEAT—The trade was more moderate and largely local and professional, with the feeling prevalent weaker. The close showed December off ⅜c, while the May lost ⅞@1c, and the July 1c. The lower cables, favorable Argentine crop news and Ohio State report were among the early weakening influences. "Long" property came out on the decline, there being a good deal of December on sale. Selling December and buying May was a feature. Liverpool quoted spot steady to ½d lower and futures ⅛@⅞d lower. Receipts there the past three days 370,000 bu, and none from America. London came unchanged. Paris was up ¼@1c. Antwerp unchanged. Berlin advanced ⅛c and Buda Pesth ⅜c lower. The map showed rains through the Ohio Valley, and traces West, but generally fair weather was predicted. Crop news was not of the best. Kansas City wired that messages from Exeter reported Wheat in that vicinity full of Hessian fly. Higginsville and Montgomery City, Mo., also reported damage by fly. Girard, Ill., also claimed injury to crop from fly. *Modern Miller* was also construed as "bullish." Ohio State, however, made the condition of Winter Wheat 87 per cent, against 81 per cent one year ago, and area 1,859,000 acres, compared with 2,066,000 acres last year. Argentina shipped 1,280,000 bu, and since Jan. 1, 87,405,000 bu, against 60,328,000 bu one year ago. The visible there is now reported 2,392,000 bu compared with 2,464,000 bu one week ago, and 1,472,000 bu one year ago. Crop advices generally satisfactory, the plant in most sections being reported in splendid condition. Exports this week 1,482,000 bu, and since July 1 aggregate 24,646,000 bu, as against 57,833,000 bu one year ago. Primary receipts were 220,000 bu smaller than a year ago. Kansas City and St. Louis received 213,000 bu, against 226,000 bu one year ago. Northwest cars were 35 larger than in 1903. Winnipeg received 325 cars; last year 194 cars. Duluth stocks are expected to increase 300,000 bu, and Minneapolis increase 1,150,000 bu this week. India shipments (unofficial) 2,488,000 bu. Kansas City estimated for to-morrow 155 cars. It was reported the Southwestern Millers' Association had agreed to close down twenty-six mills for one week, owing to the poor demand for Flour. Local cash demand slow. Receipts at Duluth 232 cars, at Minneapolis 669 cars, total of 901 cars, against 852 cars yesterday, 797 cars a week ago, and 866 cars last year. Local receipts included 25 cars Winter, 0 cars Spring and 4 cars mixed, a total of 49 cars, against 167 cars last year. Included in above was 1 car contract grade. There were also 13 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 56 cars. The withdrawals were 24,000 bu. Receipts at Western points were 1,122,322 bu, against 1,542,592 bu last year. At Eastern points 24,876 bu, against 271,980 last year. Shipments from Western points 406,103 bu, against 790,692 last year, and from Eastern points no bu, against 82,644 bu last year. Shipments of Flour were 8,441 brls. Exports of Wheat in Flour were equal to 37,984 bu.

Future Deliveries of Regular Wheat—Fair trade and feeling easy.

NOVEMBER—Entirely nominal and the closing about $1 11⅛.

DECEMBER—Sold at $1 11¼@1 12⅛. Opened at $1 12⅛ to $1 12; sold at $1 12@1 12⅛, to $1 11¾, to $1 12, to $1 11⅝, to $1 11¾, to $1 11¼, to $1 11¾, to $1 11¼, to 1 11½, to $1 11⅜, to $1 11⅝, and closed at $1 11⅝ asked.

MAY—Sold at $1 11⅜@1 11⅞. Opened with sales at $1 11⅞ to $1 11⅝; sold to $1 11¼, to $1 11¾@1 11⅞, to $1 11½@1 11⅝, to $1 11¾, to $1 11¼, to $1 11¾, to $1 11½, to $1 11⅜, to $1 11⅛, to $1 11⅜, and closed at $1 11¼@1 11⅜ bid.

JULY—Sold at 97¾@98⅜c. Opened with sales at 98⅜c to 98⅛c, sold to 98¼c, to 97⅞c, to 98¼c, to 97⅞c, to 98⅛c, to 97¾c, to 97⅞c, to 97¾c, to 97⅞c, and closed at 97⅞c asked.

CORN—A fair trade, with the undertone steady, the close showing the December unchanged, and May shade better. The small receipts, decreasing stocks, and cash situation the "bull" helps. Demand for December was more general and the premium over May widened a little to about 3⅛c. Selling December and buying May at the above difference was a feature. Acceptances of new Corn were small and receipts were only 94 cars, making 525 cars for the week, against 2,294 cars one year ago, and but 87 cars estimated for to-morrow. Liverpool quoted spot and futures steady to ⅛d higher. Receipts there the past three days 144,000 bu, of which 21,000 bu came from America. The Ohio report stating Corn was not husking out well, and that much was soft and mouldy, helped the price. A sale of 155,000 bu No. 2 was reported here equal to 7c over May in store and New York wired that exporters who have sold large quantities of new Corn for December and January shipment to Liverpool were now trying to re-buy it. Argentine shipments were again liberal at 2,254,000 bu, making 79,151,000 bu since January 1, compared with 65,857,000 bu for same period in 1903. Visible was reported 3,702,000 bu, against 2,114,000 bu last week and 3,868,000 bu one year ago. Exports this week were 347,000 bu, making 10,916,000 bu since July 1, against 19,890,000 bu for the same period in 1903. Weather, present and prospective, very favorable. Western receipts 305,000 bu; last year 418,600 bu. Shipments 83,000 bu and 421,000 bu respectively. Local arrivals 103,000 bu and shipments 14,000 bu. Withdrawals here 70,000 bu. Seaboard reported 11 boat loads accepted. Southwestern markets were firm. No 2 closed about 54½c. No 2 Yellow closed at 58½c. No 3 sold at 51c and closed at 54c. No. 3 Yellow sold at 58¼c and closed at 58c. No Grade new sold at 44@47c. About 38 cars of new Corn were on the market.

Corn by sample—Old scarce and prices ½@1c higher. Offerings of new larger and market unsettled. Opened about 1c higher, and then declined about 3c from the top. Sales on track and free on board: No Grade sold at 41@46c. No. 4 at 53½@57½c. No 3 at 54¾@55½c. No 3 Yellow at 58@59c. No 2 Yellow at 59c. No 3 White at 55@55¼c. Ears at 39@41c. Billed through: No Grade at 44@49½c. No. 4 at 52@56½c. No. 3 at 52¾@56c. No. 3 Yellow at 56½@57½c. No 2 at 54c. No. 2 Yellow at 57c. No 3 White at 54c.

Future Deliveries of No. 2 Corn—Fairly active and stronger early, but weakened and closed unchanged to ⅛c higher.

NOVEMBER Inactive and little trading. Quotable 4c over December, and closed nominally at 52¼c.

DECEMBER—Sold at 48⅛c and at 48¾@48⅞c. Opened at 48¼c to 48⅛c, and sold at 48½c, to 48⅝c, to 48½c, to 48¾@47⅞c, to 48¼c, and closed at 48¼c bid.

MAY Sold at 45⅜@45⅞c. Opened at 45⅝c to 45⅞@45½c and sold at 45⅜c, to 45½@45⅝c, to 45½c, to 45¾@45⅞c, to 45¾c, to 45⅝c to 45⅞c, to 45⅜c, to 45½c, and closed at 45½c asked.

JULY Sold at 45⅝@45¾c. Opened at 45⅝c, and sold at 45¾c, to 45⅝c, and closed at 45⅝c bid.

SEPTEMBER May price was bid.

OATS—Were rather sparingly traded in within ¼c range, and closed ⅛c lower than yesterday. A feature was the covering of "shorts" by a local trader and good commission house buying of May and July at 31c. Cash sales were 100,000 bu here and 60,000 bu at New York. Export clearances 1,000 bu. Arrivals 110 cars, with 125 cars expected to-morrow. Withdrawals were 50,500 bu from private elevator. Car lots to go to store were steady to ⅛c lower. No. 3 White sold at 31¼c. Standard at 30⅜c. Standard in store closed about 29¼c.

Oats by sample were in moderate supply and mostly common. These sold slowly at ¼c decline, while choice were steady. Sales on track and free on board: No 4 White at 29@31¼c. No. 3 White at 30¼@31½c. Standard at 30¾@31¾c. No. 2 at 29½c. No 2 White at 32c. Billed through: No. 4 White at 29¼@29½c. No. 3 at 28¾c. No. 3 White at 30½@30¾c. Standard at 30¼@31c. At the river: No. 4 White at 28@29c. No. 3 White at 28¾@29½c.

Future Deliveries of Contract Oats—Were slow and easier.

NOVEMBER—Inactive. Closed at 29⅛@29¼c.

DECEMBER—Sold at 28⅝@28⅞c. Opened at 28¾c, sold at 28⅞c, to 28⅝c, closed at 28⅝@28¾c.

MAY—Moderate trading. Sold at 31c and at 31⅛@31¼c. Opened at 31c to 31⅛c, sold to 31⅛@31¼c, to 31, closed at 31c.

JULY Sold at 31c and at 31⅛@31¼c. Opened at 31c, sold to 31⅛@31¼c to 31c at close.

RYE—Was quiet and steady. The cash offerings, that is, the fresh arrivals were small and met with fair demand, and the same can be said of futures. There were nine cars received and there were withdrawn from public elevators 9,600 bu. No exports from New York. No. 2 in store nominally 79½c and fresh arrivals sold at 83½@84c, and billed through at 83@84c. No. 3 sold at 82c.

Future Deliveries of No. 2 Rye—Quiet. November nominally 79½c. December 80c bid and May 82c bid.

BARLEY—Ruled quiet. There was no change especially. Offerings and demand both were small. As a trader remarked, it was the same old song. Some cars were held over because the figures set on them could not be realized. Thirty-three cars were inspected in. Sales of Screenings were made at 28@37c for common to choice, poor nominally down to 20@28c. Low grade Barley, feed, was quotable at 37@38c, at 38c for good; poor nominally lower. Malting, low grade, small berry some heavy, but dirty, quotable at 38@41c, clean fair to good, at 41@44c, and large berry, heavy, quotable at 44@46c, with choice to fancy 48@52c. Fancy in round lots nominally above.

SEEDS—Little Seed of any kind offered. The few lots of Timothy were of good quality and some brought above late quotations. Clover very quiet and steady, while Flax was nominally unchanged.

Timothy—Was very quiet, and nothing new developed. Cash offerings were so small that no business of consequence was possible. Futures seemed to have become neglected. Limited cash sales were made at $2 30@2 40, and for country lots there was a quotable range of $1 75@2 50 for low grade to fancy, inferior lower, fair to good, $2 25@2 30; choice to fancy $2 35@2 50, and rough, dirty or hulled, $2 00@2 20. November delivery or contract spot Seed was nominally $2 60, and January $2 65. March offered at $2 75.

Flax—There was no trading whatever, for the market was entirely devoid of offerings. Prices were quoted as nominally unchanged compared with the quotations of yesterday. Local receipts were 5 cars or 4,500 bu and taken out 2 cars or 2,070 bu. Minneapolis receipts 131 cars and Duluth receipts 153 cars. No. 1 Northwestern or No. 1 from the Northwest quoted salable at $1 16, and No. 1 at $1 10. Rejected nominal at $1 07@1 11. November was $1 10 bid, and December salable at $1 11.

Clover—Was quiet and steady. No consignments appeared on sale and the market in consequence was inactive. Nominal prices were as follows: Contract grade spot or November delivery, $12 00. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—Nominally unchanged and quotable as follows: Hungarian at 80c@$1 00 for common to choice. Millet, common, was quotable at 75@90c for common to choice. German at 85c@$1 10. Broom Corn Millet at 90c@$1 00. Siberian at 60@80c, and Early Fortune about 75@90c. Mustard about 75c@$1 00. Buckwheat, good milling spot about $1 35.

HOG PRODUCTS—Trade was moderate in the market for Hog Products, and the undertone to market was comparatively easy. Offerings were fair, "longs" rather inclined to sell—and the demand was light. Market lacked miscellaneous support. Prices ruled lower on all the leading articles, and the market closed steady around inside figures. Near deliveries quiet. Hogs were in fair supply, and prices comparatively steady. Receipts at the leading Western packing points were estimated at 52,000, compared with 46,600 one year ago. Foreign markets were dull and easy. Liverpool quotations were reduced 1s on Cumber and Sides and 6d on Hams. Domestic markets quiet and dull. Receipts of Products were fair of Lard and Meats about 17 cars. Shipments were small—of Lard and Meats about 86 cars. Demand on shipping account was slightly improved, but still limited. Offerings were moderate. Sales not very large, and very little change to note in prices.

Mess Pork—Only a moderate trade was reported in Mess Pork, and the feeling was easier. Offerings were fair of the deferred deliveries, and the demand was comparatively light. Near deliveries quiet and dull. Market was rather steady early at 7½@10c decline, but soon weakened, and prices further receded 5@7½c. Market closed steady around inside figures. Shipping demand was light, and offerings were moderate. Cash lots were quotable at $10 95@11 00.

DECEMBER—Rather quiet, with small sales at $11 05.

JANUARY—Offerings were fair, and the demand was moderate. Sales were made at $12 50@12 57½. Opened at $12 55, sold to $12 57½, to $12 50, to $12 55, to $12 50, to $12 52½, and closed steady.

MAY—In moderate request and offerings were fair. Sales were made at $12 47½@12 55. Opened at $12 55, sold to $12 47½, to $12 52½, to $12 47½, to $12 50, and closed steady.

Lard—Trade in Lard was on a moderate scale. Offerings were not very large, and the demand was rather light. Foreign advices unchanged. Feeling rather easy. Opening sales made at 2½@5c decline, and a further reduction of 5@7½c was submitted to. Market closed steady around inside figures. Trading mainly in January and May contracts. Demand on shipping account was limited, with moderate offerings. Cash lots quotably steady at about November figures, closing at $7 00@7 12½. Loose lots in fair request, with moderate offerings. Prices were quotable at 50c discount on January figures. Leaf Lard was in moderate demand, with fair offerings. Prices quotably steady at $7 12½. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 62½@8 75 for No. 1, and $8 12½@8 25 for No. 2.

NOVEMBER—Quiet, with small sales at $7 02½.

JANUARY—Offerings were not very large, and the demand was fair. Sales were made at $7 05@7 10. Opened at $7 10, sold to $7 05, to $7 07½, to $7 05, and closed steady.

MAY—In light demand and offerings were moderate. Sales were made at $7 17½@7 25. Opened at $7 25, sold to $7 17½, and closed quiet.

Short Rib Sides—Less interest was manifested in the market for Short Rib Sides and trading was moderate. Offerings were not very large and the demand was somewhat limited. Trading almost exclusively in January and May contracts. Prices ruled 5@7½c lower on the whole range, and the market closed quiet and steady around inside figures. Shipping demand was light and offerings were small. Cash lots quotable at $6 87½@7 00, according to weight.

NOVEMBER—Quiet and quotable at $6 85.

JANUARY—In rather light demand, with moderate offerings. Sales were made at $6 47½@6 52½. Opened at $6 52½, sold to $6 47½, to $6 50, to $6 47½, $6 50, and closed steady.

MAY—Offerings were moderate and the demand was limited. Sales were made at $6 60@6 62½. Opened at $6 62½, sold to $6 60, to $6 62½, and closed steady.

Other Meats—A moderate trade was reported. Offerings were fair and demand light. Domestic trade was only moderate. Exporters not inclined to trade to any extent. Green Meats offered moderately, with a small inquiry, and prices were steady. Pickled Meats were in moderate request with fair offerings, and prices favored sellers. Dry Salted Meats were in limited demand with fair offerings and prices were steady. Smoked Meats called for moderately, and prices ruled steady. Closing prices were as follows:

GREEN—Hams, av. 10@12 lbs, 9@9½c; 12@14 lbs, 8⅝@8¾c; 14@16 lbs, 8@8½c; 8¼@8½c November, December and January; 18@20 lbs, 8@8¼c; Skinned Hams, 8⅞@9c; 9¼@9½c November, December and January. PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Nov. 3.]

There is a moderate tendency to enlargement in market supplies of Hogs. Total Western packing 410,000, compared with 370,000 the preceding week, and 385,000 two weeks ago. For corresponding time last year the number was 385,000, and two years ago 470,000. Last week's figures are based on packing operations at various points other than those from which regular returns are received during the progress of the season results to all indication that the current week's figures for those places have not fully reflected the extent of such operations. The custom, heretofore, has been to recognize the eight months ending Oct. 31 as representing the summer season in Hog packing. A revision of the calculations for the season now closed in the light of the fuller evidence pollits to approximate 4,425,000 Hogs for the whole West, which compares with 12 575 000 last year and it 145,000 two years ago. Com arisons for the past ten years are as follows, in round numbers:

1894	12,850,000	1898	13,825,000
1897	12,875,000	1898	13,950 000
1892	12,150,000	1897	11,700,000
1891	15,700,000	1896	9,600 000
1890	18,350,000	1895	8,125,000

Complete returns for the past season will not greatly change the total now submitted. The indicated gain over last year is about 475 000 Hogs. This is in close agreement with the information offered by the *Price Current* a month ago, and adds to the probable resources for the season, when it was said: "The reasonable deduction from the evidences now available is that a moderate gain in numbers may be expected, compared with last year." Prices are lower than a week ago, and at the prominent places average about $4 95 per 100 lbs. compared with $5 10 a week ago, $5 05 two weeks ago, $4 10 a year ago, $5 45 two years ago, $5 70 three years ago.

There has been a decided decrease in stocks of Provisions at the prominent points of Packing since the past month the total supply of Cut Meats on Nov 1 at five centers indicating about 13,000,000 lbs. compared with 17,000,000 lbs a month ago, 14,000,000 lbs a year ago, and 20,000,000 lbs. two years ago. The stocks of Lard now reported for these places is 38,000 tcs. compared with 92,500 tcs a month ago, 58,000 tcs a year ago, and 20,000 tcs two years ago.

The speculative Provision market has been dull and easy all the past week until yesterday, when there was a decided recovery, which brought values to the highest point of the week, and the close shows a gain in prices as compared with the close a week ago at Chicago. The export clearances of Product over rather light since the 1st inst. are small compared with the preceding week and a falling off as compared with the corresponding week last year.

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places compared with last year, as follows:

March 1 to Oct. 31—	1901.	1900.
Chicago	3,180,000	3,787,000

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Nov. 3.]

The past week has been favorable for bringing the new Corn into condition for husking and storing in crib, and the progress being made in this line is developing comparatively little of disappointment as to yield, which is fully balanced by other instances where the outcome exceeds the calculation. There is little inclination manifested as yet to hurry the new Grain into market. In fact it will be some weeks before a considerable portion of the crop in most sections will be sufficiently dry to encourage shelling.

The autumn weather West is generally promising well, although the late deficiency in moisture is to some extent regarded as having been to the disadvantage of the plant. It is well known, however, that retarded growth at this time in the season does not necessarily mean a future drawback to good conditions of ear and grain, and the occasion for speaking of the situation as other than generally satisfactory, and the area enlarged. And it may be said that the advices from foreign countries reflect the influence of the higher prices of Wheat in enlarging the area in this crop.

The evidences of fly in the growing crop of Wheat have been somewhat enlarged recently, coming from a wider range of territory, mainly in Ohio and Indiana, but conditions have not become serious, and should colder weather soon prevail there would probably be a cessation of such development.

The prolongation of dry weather in Ohio and Indiana is unfavorably affecting pasture conditions Further Westward the situation is generally very satisfactory.

As is often indicated incident to early feeding of new crop Corn to Hogs, there are now some reports of maladies in various regions, but there is no general disorder of such nature prevailing. Cattle feeding operations appear to be receiving increasing attention.

SHEEP RANCHERS PROSPER.

[From the Chicago Drovers' Journal, Oct. 31.]

From the statements of the ranchmen themselves and the opinions of some of the best-posted shearmen in the country, who have had a chance in their region, affairs with the sheepmen of the Northwest are exceptionally promising.

Reports from this market that Feeding Lambs from the Western ranges for use in Central and Eastern portions of the Corn belt has reduced the production of Wool on Western ranges greatly as compared with a few years back, when a greater portion of the range Stock was held and marketed as yearling and two-old form. The encouraging outlook for Wool values the coming year is already inclining many ranch owners to resume the plan of holding their Lambs and securing the Wool crop. This is evidenced by the quick and early shut-off in supplies of Lambs this year.

Wyoming men expressed their intention of holding back a good share of the Lambs a month to six weeks ago, and, with the concern that Eastern Wool men are displaying over next year's crop, the number of Sheep on the ranges, according to the estimates of experts, including Colonel L. C Burch, the veteran editor of the *American Sheep Breeder*, enormously decreased, owing to the steady encroachment of settlers and the vast areas that are being taken as forest reserves, and the revisiting of many great sections by irrigation. The outlook for the sale of Sheep for feeding and for packing operations at various points other than those from which regular returns are received during the progress of the season results to all indication that the current week's figures for those places have not fully reflected the extent of such operations. The custom, heretofore, has been to recognize the eight months ending Oct. 31 as representing the summer season in Hog packing. Kansas City Hogs last month were the lightest on record for October.

St. Petersburg advices of Oct. 18 state that in most parts of the Empire the weather is becoming perceptibly colder, the decrease of temperature being particularly felt in the East and Southeast. Snow has also fallen in numerous places in the greater portion of the Northern non-black soil zone atmospheric conditions continue comparatively mild. More or less rain is reported in the North-western and Baltic provinces.

Mail advices from Braila, dated Oct. 20, say: "Fine autumn weather continues with rain at intervals, but it is turning somewhat colder Plowing and sowing have been actively pushed with and are nearing completion. Rape Seed is coming on very well, and where the Grain is above the average prospects are splendid. The peasants are gathering in what exists of the Corn, but it makes a very poor show both as regards quantity and condition."

Mark Lane Express of Oct. 24 says: "The ground continues to work admirably well, and to encourage a good acreage of Wheat, Rye, Winter Oats and Beans. The demand for seed has been better for purchase, and prices are relatively more increased The season has enabled the farmer to get clean and clear the land of weeds, and farm work in general is well forward, as well as having been helped on under favorable circumstances and without excessive expense."

The management of the American Ice Company soon will have to borrow money to harvest its crop during the winter, the company's treasury probably need $750,000. To gather the 1903 crop the company borrowed about $1,000,000. The earnings for the company have been disappointing. It is stated on authority that the surplus after charges will not amount to more than $200,000, which would be equal to about ½ per cent on the outstanding preferred stock.

The *Drovers' Telegram*, of Kansas City, says: "Octoner Hogs weighing under 200 lbs were a surprise generally to the trade, and, with sickness throughout the territory tributary to this market at about as low a point as it ever gets, can be accounted for by the fact that a large part of the feeding community had become discouraged by the unfavorable conditions, the scarcity high cost of feed, and low prices for Product, and cleaned up their holdings. This will appear later in the season, in all probability, in a shortage in supplies which should come directly from the feeding yards."

The Chicago *Inter Ocean* says: "Rumors were in circulation in the East, Thursday, that the plan to lease all of the United Box Board and Paper Company's mills except five to the independent manufacturers had fallen through, and that a substitute was under consideration, which provided for the closing of a number of mills by the United company and the payment of a certain weekly amount to the company by the independent manufacturers According to the best information obtainable in Chicago, the report is unfounded, and the negotiations between the United company and the independents are still going ahead."

The San Francisco correspondent of the *Northwestern Miller*, writing under date of Oct 28, says: "The Merchants' Exchange has been conducting an investigation into the causes of the steadily decreasing Wheat production in California and the results have shown that not only has the quantity per acre steadily diminished, but the actual quality is going down with equal rapidity The Wheat crops in the last few years have been 830,000 tons in 1901, 970,000 tons in 1902, 470,000 tons in 1903 and barely 400,000 tons this year. While these climatic conditions have been partly responsible for this steady decrease, it is more largely due to the fact that the Wheat lands have been improperly farmed, used year after year with no dressing put to renew the soil by adding the ingredients that have been exhausted. Summer fallowing has been in vogue for years, but experts have come to the conclusion that something more is needed. An attempt is now being made to obtain a state appropriation to continue the investigation The agricultural department of the State University is conducting experiments in the breading of specials of Wheat which will retain its glutinous qualities and with the State aid expected, a means of economically restoring the worn-out lands will be found."

Dornbusch's Buda Pesth correspondent, writing under date of Oct 24, says: "There is very little change to report in the situation of the Flour market, sales amounting to about half the week's output, apparently all the business done was on Austrian account. A few offers from the Continent are noted at about 4s under our millers quotations. Feeding stuffs and coarse Bran are held off the market, all fine Bran offered being snapped up."

The recent Inter-State Commerce Law Convention held in St. Louis on October 28 and 29 was very enthusiastic. Thirty-one States were represented and over two hundred Commercial Associations. All were unanimous that the Inter-State Commerce Commission should be given more powers, to the end that its orders should become effective, and recommended legislation at the coming session of Congress in that direction.

In the New York Stock market trading was contracted and sales were 565,500 shares. Good support was given most shares in the belief that there is to be no interruption to the country's prosperity. On the other hand there was moderate speculative selling by those willing to take chances on the possibility of the unexpected happening. The bank statement had no effect. Western Railway shares closed ⅛ to ⅞ lower to ⅛ point higher. Industrials were irregular, with Steel lower, and Corn Products higher.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is in a quiet unsatisfactory condition with prices barely as quoted on the second page.

WINTER WHEAT—Very little disposition on the part of the usual buyers to purchase and the market was dull. But few sales were made. Feeling easy. No. 2 Red fresh receipts free on board quotably $1 16@1 18. No. 3 Red fresh receipts free on board sold at $1 13½@1 15½. No Grade Red sold at $1 01. No. 2 Hard fresh arrival free on board was quoted at $1 11@1 15, and No. 3 Hard at $1 05@1 10.

SPRING WHEAT—Nothing doing to speak of and market quiet and easy. The usual buyers all holding off. No. 1 Northern fresh arrivals free on board quotably $1 16@1 19. No. 2 Northern fresh arrivals free on board quotably $1 12@1 14. No. 3 Spring nominally $1 02@1 13 and No. 4 Spring nominally 90c@$1 05.

REGULAR WHEAT—Just a fair trade, with the feeling somewhat unsettled, the close being ⅜c better for December, May gained ⅛@¼c, July unchanged. Early, the tone was easy, influenced by the lower cables and prospect of a "bearish" set of statistics on Monday. Selling was led by locals, but at the decline the demand improved and the situation became stronger. The reported sale of 250,000 bu cash Wheat at Kansas City, the same to go to Buffalo, was one of the "bull" helps. Liverpool quoted spot ½@¾d lower and futures down ¾@⅞d. The decline was reported due to cheaper Argentine offerings. London was unchanged. Paris was ⅛@½c lower and Buda Pesth off ½c. Argentine cables reported the weather continued favorable. The *Orange Judd Farmer* report claimed that, with the exception of Tennessee, Kentucky and Oklahoma, drought damage to Wheat up to date was not sufficient to justify any apprehension. *Broomhall* estimated world's shipments at 11,200,000 bu, and predicted a moderate change in amount on ocean passage. Imports into the United Kingdom are estimated at 4,400,000 bu, against 7,284,000 bu last week and 6,000,000 bu one year ago. The English visible increased 572,000 bu, against 2,155,000 bu increase a year ago. English farmers' deliveries 344,000 bu at 92¼c, against 384,000 bu one week ago at 92¼c, and 336,000 bu in 1903 at 70¾c. Local weekly receipts 742,000 bu; shipments 561,660 bu. Primary receipts 5,830,000 bu, against 6,791,000 bu last week and 8,642,000 bu one year ago. Receipts in the Northwest 4,961 cars, against 4,557 cars last week and 6,153 cars one year ago. Australian shipments were 488,000 bu, and weather reported favorable. Winnipeg had 394 cars, against 253 cars last year. Signal Service predicted generally fair weather. Indications are for an increase of 1,500,000 bu in the visible supply on Monday, compared with 2,900,000 bu increase corresponding week in 1903. Cash demand slow. Receipts at Duluth 150 cars at Minneapolis 594 cars, total of 744 cars, against 901 cars yesterday, 877 cars a week ago, and 975 cars last year. Local receipts included 26 cars Winter, 8 cars Spring and 8 cars mixed, a total of 42 cars, against 95 cars last year. Included in above was 1 car contract grade. There were also 10 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 78 cars. The withdrawals were 38,700 bu. Receipts at Western points were 1,063,200 bu, against 1,508,337 bu last year. At Eastern points 238,8 bu, against 175,940 last year. Shipments from Western points 370,419 bu, against 606,651 last year, and from Eastern points no bu, against 302,020 bu last year. Shipments of Flour were 23,010 brls. Exports of Wheat in Flour were equal to 107,100 bu.

Future Deliveries of Regular Wheat—Fair trade and market firm.

NOVEMBER—Entirely nominal and reported to be about 1c under December—closing about $1 11.

DECEMBER—Sold at $1 11⅛@1 11¼ and at $1 12¼. Opened at $1 11¼; sold to $1 11⅛@1 11¼, to $1 11¾, to $1 11½, to $1 12⅛, to $1 11⅞, to $1 12¼, to $1 12, and closed at $1 12 bid.

MAY—Sold at $1 10⅞@1 11⅝. Opened with sales at $1 11⅛ to $1 10⅞; sold to $1 11, to $1 10⅞, to $1 11⅛ @1 11⅜, to $1 11⅛, to $1 11½, to $1 11⅜, to $1 11⅝, to $1 11⅜, to $1 11⅝, to $1 11½, and closed at $1 11½ bid.

JULY—Sold at 97⅜@98⅛c. Opened with sales at 97½c to 97⅝c; sold to 97⅜c, to 97½c, to 98c, to 97⅞c, to 98⅛c, to 98c, to 97⅞c, and closed at 97⅞c bid.

CORN—The trade was moderate and feeling developed somewhat firmer, the close being ¼@⅜c higher for December, while May gained ¼c. There was not much feature to the trade outside of the buying of December and selling of May by elevator interests, the spread being 2¾@2⅞c to 3c. The stronger cables, small receipts and cash situation were again the principal influences. Liverpool quoted spot ¼d higher and futures steady to ⅛d higher. Cargoes on passage were quoted firm, with a good Continental inquiry and Russia was reported a buyer of La Plata cargoes afloat. Receipts were 97 cars, against 337 cars last year, and 93 cars estimated for Monday. Weather conditions were favorable, and predictions are for a continuance of the same. Husking returns from Indiana showed disappointing yields. Local weekly receipts 624,000 bu and shipments 726,000 bu. Primary receipts 1,588,000 bu, against 1,787,000 bu last week and 3,413,000 bu one year ago. Withdrawals from store were 119,000 bu, and exports 8,000 bu, but shipping inquiry fair and sales 75,000 bu. Seaboard reported 5 boat loads accepted. Southwestern markets were firm. Car lots were in fair demand. Prices ½c higher. No. 2 closed at 54½c, and No. 2 Yellow at 58½c. No. 3 closed at 51c and No. 3 Yellow closed at 58c. No. 4 sold at 54c. No Grade new sold at 45c.

Corn by sample—Offerings a little larger and demand fairly good for both old and new. Old was about ½c higher and new steady and without special change. Sales on track and free on board: No Grade new sold at 41@48c. No. 4 new at 45@52c, old at 53½@56½c. No. 3 at 55@58½c. No. 3 Yellow at 58½@59c. No. 2 at 58c. No. 2 Yellow at 58½@59½c. No. 3 White at 55c. Ears at 41c. Billed through: No Grade at 43@48c for new. No. 4 at 52@57½c. No. 3 at 54@57½c. No. 3 Yellow at 56½@57½c. No. 3 White at 64c.

Future Deliveries of No. 2 Corn—Moderately active and stronger, closing ¼c to ⅜c higher.

NOVEMBER—Inactive and quotable about 4c over December, closed nominally at 52½c.

DECEMBER—Sold at 48⅜@48¾c. Opened at 48⅜c to 48½c, and sold at 48⅝c, to 48⅝c, to 48½c, to 48¾c, to 48½c, to 48⅝c, to 48½c, to 48½@48⅝c and closed at 48½@48⅝c bid.

MAY—Sold at 45½c and 45¾@45⅞c. Opened at 45½c to 45⅝c, and sold at 45½@45⅝c, to 45⅝@45¾c, to 45½@45⅝c, to 45¾@45⅞c, to 45¾c, and closed at 45¾c bid.

JULY—Sold at 45½@45¾c. Opened at 45½c, and sold at 45¾c, and closed at 45¾c.

OATS—Were moderately traded in within ¼c range, and closed ⅛c better than Friday. The only news of importance was the rescinding of the prohibition of exports by Roumania. There was only a local business. Cash sales 150,000 bu, and charters 100,000 bu. Arrivals 128 cars, with 141 cars expected Monday. Seaboard clearances 200 bu. Car lots to go to store were easy. No. 3 White sold at 30@30¼c. No. 2 White at 31¼c. Standard in store closed at 29⅜c.

Oats by sample were in fair supply, fully equal to requirement, and the market had an easy tone, owing to the limited demand. Sales on track and free on board: No Grade at 27c. No. 4 White at 29@30¾c, No. 3 at 29¾c. No. 3 White at 30@31¼c. Standard at 30@31¼c. No. 2 at 29½@29¾c. No. 2 White at 31½c. Billed through: No. 4 White at 30@30¼c. No. 3 White at 30½c. Standard at 30½c. No. 2 at 29@29¼c. No. 2 White at 31c. At the river: No. 4 White at 28@28¼c. No. 3 White at 28@29¼c. No. 2 White at 30c.

Future Deliveries of Contract Oats—Were steadier, with light trading.

NOVEMBER—Closed at 29⅜c.

DECEMBER—Sold at 28¾@28⅞c. Opened at 28¾c, to 28⅞c; closed at 28⅞c.

MAY—Sold at 31@31⅛c and at 31⅛@31¼c. Opened at 31c to 31⅛c, sold to 31⅛@31¼c, to 31⅛c at close.

JULY—Sold at 31@31⅛c. Opened at 31c, sold to 31⅛c and closed there.

RYE—The market was firm. Demand fair and offerings light. Only four cars received and 1,400 bu withdrawn from public elevators. Freight room was engaged here for 125,000 bu. No exports from New York. No. 2 in store nominally 80c and fresh arrivals free on board wanted and taken up readily by manufacturers; quotably 83@84c. Choice No. 3 fresh receipts sold at 83c free on board and a car billed through sold at 82c.

Future Deliveries of No. 2 Rye—Firm. November nominally 80c. December sold at 80c and closed at 8'c bid. May 82c bid and 82½c asked.

BARLEY—A little more Barley was offered; it was mostly of the malting grades, not much feed or mixed. For the latter some buyers reduced their bids; some demand, however, remained at former prices. Malting grades were viewed as heavy like other markets, and they also were quoted as steady. There was no essential change at the same time buyers easily got what they wanted. Only a part of the usual buyers were operating. Forty-seven cars in Market for Screenings was quotable at 28@37c for common to choice. Low grade Barley, feed, was quotable at 37@38c; poor nominally lower. Malting, low grade small berry, some heavy, but dirty, quotable at 38@40c; clean, fair to good, at 41@44c and large berry, heavy, quotable at 44@46c, with choice to fancy 48@52c. Fancy in round lots nominally above.

SEEDS—There was hardly any business done, just a small trade in Clover. In no case were prices changed. The general market was neglected and dull.

Timothy—Only a small quantity of cash Seed offered. The market was inactive; it was almost without business and while quotably dull it remained without evidence of price changes. Quotable for country lots at $1 75@2 50 for low grade to fancy, inferior lower; fair to good, $2 25 @2 30; choice to fancy $2 35@2 50, and rough, dirty or hulled, $2 00@2 20. Futures entirely neglected. November delivery or contract spot Seed nominally $2 60, and January $2 65. March about $2 75.

Flax—There was no change quoted in values. The market was in a neglected state, being practically bare of offerings. Six cars or 5,400 bu were received and 2 cars or 1,800 bu taken out. Minneapolis receipts to-day 82 cars and Duluth got 123 cars. No. 1 Northwestern or No. 1 from the Northwest sold sparingly at $1 10, and No. 1 salable at $1 10. Rejected nominal at $1 07@1 14. November was $1 10 bid and December salable at $1 11.

Clover—A few lots of good quality came on the market and were taken at $10 60@11 25. Clover was quotably steady and fair sale at former prices. Contract grade, spot or November delivery, $12 00. Country lots, common to choice, $7 00 @12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—No change in late Grass Seeds and no offerings. Hungarian 80c@$1 00 for common to choice. Millet, common, was quotable at 75@80c for common to choice, German at 85c@$1 10, Broom Corn Millet at 90c@$1 00, Siberian at 80@90c, and Early Fortune about 75@90c. Mustard about 75c@$1 10. Buckwheat was easier. Mild, unseasonable weather is causing restricted consumption and bids in consequence reduced. Closing market quoted at $1 20@1 25 for good milling.

HOG PRODUCTS—Only a moderate trade was reported in Hog Products, and the feeling was steadier. Offerings were not very large, and the demand was moderate. Outside orders were light, and local trading was rather small. Operators not inclined to do much trading until after the holiday. Prices ruled slightly lower at the opening, but rallied again, and the appreciation was fairly well supported to the close. Trading almost exclusively in January and May contracts. Hogs were in fair supply, and prices ruled lower. Larger receipts are anticipated next week. The receipts at the larger Western packing points estimated at 43,200, compared with 31,200 one year ago. Foreign markets were quiet and easy. Liverpool quotations were reduced 6d on Cumberland Sides and 3d on Lard. Domestic markets quiet. Receipts of Products were good—of Lard and Meats about 25 cars. Shipments were rather liberal—of Lard and Meats about 204 cars. Demand on shipping account was moderate and offerings were not very large. Sales rather light and prices unchanged.

Mess Pork—Trade was rather light in Mess Pork. Offerings were moderate, and the demand was somewhat limited. Trading mainly local. Market opened rather easy, and prices ruled 2½@5c lower, but rallied 7½@10c. Toward the close, receded 2½@5c, and the market closed comparatively steady. Near deliveries were quiet. Shipping demand was small, and offerings rather light. Cash lots quotable at $11 00@11 05.

NOVEMBER—Quiet and quotable at $11 00.

DECEMBER—Quiet and steady at $11 05.

JANUARY—In fair request and offerings were moderate. Sales were made at $12 47½@12 57½. Opened at $12 47½, sold to $12 52½, to $12 50, to $12 55@12 57½, to $12 52½, to $12 52½@12 55, and closed steady.

MAY—Offerings were moderate and inquiry was rather light. Sales were made at $12 50@12 55. Opened at $12 50, sold to $12 55, to $12 52½, and closed quiet.

Lard—Only a moderate trade was reported in the Lard market, and the feeling was stronger in a general way. Offerings were moderate, and the demand was only fair. Market opened 2½@5c lower, but a stronger feeling was developed later, and prices rallied 5@7½c, and the market closed comparatively steady. Near deliveries quiet and prices unchanged. Foreign advices unfavorable to holders. Demand on shipping account was limited, with moderate offerings. Cash lots quotably steady at about November figures, closing at $7 00@7 02½. Loose lots in fair request, with moderate offerings. Prices were quotable at 20c discount on January figures. Leaf Lard was in moderate demand with fair offerings. Prices quotably steady at $7 12½. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 62½@8 75 for No. 1, and $8 12½@8 25 for No. 2.

NOVEMBER—Quiet and quotable at $7 00.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING November 4, 1904.

The money market is not working in accordance with views of bankers early in the season. It remains comparatively easy with a fair demand for loans. Rates are 4 to 5 per cent, with most of the business at 4½ to 5 per cent. A year ago rates averaged 1 per cent higher than at present. The banks are feeling the effects of the lower interest rates, the newer ones suffering more than the older institutions the latter having more diversified means for loaning their surplus Currency is moving to the country in lighter volume and is not expected to increase until the Corn crop commences to be marketed, which will not be until December The New York interest rates were 2 to 2¼ per cent on the Stock Exchange and time loans were at 2¾ to 4 per cent Gold shipments of over $8,000,000 were made to Europe and they are likely to continue

New York exchange was firmer at 5c discount to 5c premium per $1,000 and closed at 5c premium

Foreign exchange was firm Cotton bills are about the only offerings, there being an absence of Grain exports of any volume and very little Flour. Shippers' sixty-day documentary sterling bills on London were 4.82½@4.83.

The mercantile trade was good although politics interfered with business to a moderate extent in a few sections The buying of heavy dry goods was slightly increased, but cold weather is needed to make the movement general. Prices on Cottons and Woolens were steady The buying of shoes, clothing and leather was of moderate volume and up to the average for the season. Pig Iron was sold more freely and prices show a good advance, with furnace men asking higher prices for delivery beyond the first of the year. Production of furnaces is increasing and consumption is also heavy Finished materials were bought more liberally, especially billets, structural material and Iron and Steel bars Shop supplies generally were called for and sales of wire nails were enlarged. Building materials and lumber were bought in large volume, and prices of lumber are showing more strength all round, particularly on white pine at Northern points Consumption in all lines is increasing, and the scarcity of cars is delaying the movement from producing and distributing points. The only serious feature in the Western situation is the strike of the hoisting engineers in the bituminous Coal districts. Should it last any length of time there will be a scarcity of soft Coal, which will restrict operations by the large manufacturers. Stocks of bituminous Coal on track here are liberal, and if the strike is continued there will be a cleaning up for the first time in over a year. Hocking Coal advanced, and the general market was stronger, with an upward tendency. Sugars advanced 10 to 15 points on granulated and the grocery trade showed more animation. Collections were good.

Local Securities were active and lower in part of the early trading, but recovered most of the decline Prices were influenced largely by the action of the market in New York. On the advances realizing sales were large enough to give the market a good setback. Elevated shares averaged slightly lower. Traffic returns for the month of October showed a smaller business in Metropolitan and South Side Elevated than expected and it fell below last year's, while Northwestern Elevated increased 2.47 per cent over last year. There has been a new Can company incorporated in the East which was used as a pretext for selling American Can shares, but toward the last they were bought freely on Eastern orders and were the most active of the list American Radiator declared its regular dividend of 1¾ per cent quarterly on preferred and 1 per cent on common, putting the latter on a 4 per cent basis. The dividend on the latter is due to improved business conditions, which have enabled the company to increase its earnings There is renewed talk of a packing merger later in the season on which fair buying of Swift stock was based. Bonds were in active request and firm, with offerings light.

The New York Stock market was active, with the same influences that have been the governing factors in control. The trend of values was upward, but advances were accompanied by liberal setbacks that made the market more of a puzzle for the various operators, and the position of the leaders was not as clear as heretofore. Trading, while not as heavy as during the two previous weeks, was far above the average, and price changes as erratic At times a great part of the business was concentrated in a few stocks, in which enormous dealings were noted. At others there was more diversification, stocks that have heretofore been slow being made active. This was especially the case with some of the low-priced rails and industrials The leaders in the market in point of activity were Erie, Union Pacific, Steel, and Copper. In fluctuations Lackawanna and Delaware and Hudson and "Soo" shares showed the wildest range, although they were not heavily handled Dealings in Erie were enormous, and the highest prices of the season were made. It was reported that it had secured the Pere Marquette system, with the latter's recent acquisition, the Cincinnati, Hamilton and Dayton, at 125, and will issue $75,000,000 in bonds for it. This will make the Erie the second largest system in the East, and next to the Pennsylvania. Buying of Steel and all industrial shares was on the reports of improved business conditions. In Steel orders have been coming in rapidly of late, and its officials have been surprised, as business that was not expected until January and February has come in. The buying of Copper was based on reports of increased exports and large earnings. The latter are said to be 6 per cent annually. Also on persistent reports from Montana that a settlement of the trade war is about assured. Gold exports and war news had but little effect on the market. The leading "bears" covered and added to the rise in values. At the close most of the prices were higher than the previous week. Bonds were active and higher. Total sales on the New York Stock Exchange for the week were 7,678,000 shares, against 9,630,000 shares for the previous week, and 1,815,000 shares for the same time last year.

Cotton in New York averaged higher, with good speculative trading. Foreign news was more "bullish" and the Continent and the South bought freely, the "bear" interest covering and was largely responsible for making the highest prices. The private crop reports estimated the yield at 7 per cent more than last year, or about 10,750,000 bales. Interior holders were less disposed to sell. The mills are buying fairly. Closing prices were at gains of 10 to 11 points for the week.

COMMERCIAL.

A fair business was reported in commercial circles on the Chicago Board of Trade during the week just closed. Speculative operations, however, were confined chiefly to local traders; in fact the business was largely professional. Outside orders, that is those from interior points, were of moderate size. Receivers and shippers experienced a moderate business. Receipts of Grain were moderate and the Eastern and export demand showed no material improvement. The Stock market still continues to detract interest from Grain and Provisions, and considering the fact the presidential election takes place next week it is not surprising that speculative operations should be curtailed to some extent. With the election over business should improve in all branches and trading in farm products will no doubt broaden.

There is practically no change to note in the tone of foreign crop advices this week. Reports as received indicated that the crops were generally doing well, but more rain would be welcomed in Great Britain. Satisfactory advancement was reported in Austria Hungary and Bulgaria and favorable weather has prevailed in Roumania. In Russia the crop outlook as a whole is satisfactory and stocks are gradually enlarging. Advices from India were of a favorable tenor, and those received from Argentina as a rule indicated continued favorable progress in development, with prospects of a liberal exportable surplus.

While weather conditions in the United States the past week were ideal for finishing the Corn crop and husking operations, temperatures were too high and moisture was lacking in important sections of the Winter Wheat belt. Complaints were more numerous regarding the condition of the newly-planted plant, a majority of which came from Missouri, Southern Kansas and sections in Nebraska. The general position of the crop is as yet favorable and reports indicate the area is somewhat larger than last year. Corn husking is now well under way, and should present weather conditions continue, will become still more general in the near future Returns in most instances indicate liberal yields, and with colder weather the quality will be greatly improved.

The movement of Grain from the farms and interior elevators was more moderate the past week Receipts in the Northwest showed some shortage compared with last year, but stocks of Wheat at interior points were reported increased 772,000 bu last month to 5,476,000 bu, compared with 6,001,000 bu one year ago. Weather conditions favored the movement of Grain through the West, but farmers in many sections were busy husking Corn, and with this work out of the way the movement may be expected to enlarge. Through the Southwest it is estimated that 70 per cent of the Wheat crop has been marketed. New Corn is coming forward in larger quantities and the quality was very good. The movement toward the seaboard was moderate, holders of Grain still entertaining very strong views as to values, and this fact tended to restrict business. Exports of Flour and Wheat were small, European importers still obtaining supplies in Russia. Corn clearances were light and bookings of all descriptions of Grain were limited According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was another increase in Wheat, Rye and Barley and a decrease in Corn and Oats. *Bradstreet's* showed a large addition in the world's supply of Breadstuffs, while a fair decrease was reported in Corn.

A fair speculative trade was transacted in the principal markets on 'Change this week, but was in the main professional and local. The leading markets were somewhat unsettled, the situation in Grain being quite weak at the start. "Longs" became disheartened in many instances and liquidation became general. Wheat statistics were construed as "bearish" and the fine weather was the principal factor in Corn. Lower prices ruled, but at the decline the demand improved, "shorts" accepting liberal quantities and situation became stronger. The foreign political situation, decreased movement and damage claims from the Southwest were among the supporting influences in Wheat and coarse Grains advanced in sympathy. Realizing followed the rise and a moderate recession in values followed, the close being quite steady. Trade in Hog Products was on a moderate scale, and the feeling a little unsettled. Hogs were in good supply and prices lower, and the Grain markets were easy. Offerings, however, were not very large, and there was no particular demand from any source. Outside orders were light, and local trading was moderate. Very little doing outside of January and May. Stocks reported on hand were lighter than generally anticipated, especially of Mess Pork and Short Rib Sides, and this feature tended to strengthen the market. Reduction in the aggregate during October was about 36,000,000 lbs, compared with $2,000,000 lbs during October, 1903. Packing of the West for the week was reported 25,000 ahead of last year.

The trade in cash Grain was only moderate the past week, and this fact was due entirely to the smaller offerings. A fair demand prevailed for the various descriptions of Grain, and the current receipts were readily sold. Choice Wheat sold well, but millers as a rule operated cautiously. Corn was wanted, and relatively higher premiums were obtainable, more particularly for yellow. Cargoes were scarce and firmly held. Oats were in fair request and the supplies lighter. Rye was firm and Barley more quiet, though feed was somewhat firmer. The trade in Seeds was a little slow. Flax was slightly higher, but otherwise there was no material change. Hay was firm for choice, while poor stock was dull and easy. The demand for Hog Products was moderate, and the offerings not very large. Sales were light, and prices without material change. Holders of Meats a little more independent in their views, as supplies were reduced 20,000,000 lbs during October. Hogs were easier, and Cattle stronger. Receipts of Sheep were liberal, and prices steady.

FREIGHTS—Eastern roads are short of cars and are having a steadily increasing business in Iron, Steel, Coke and Merchandise, which is using all their available cars. The present tariff is as follows:

	From Chicago.		From Miss. River.	
To—	Domestic.	Export.	Domestic.	Export.
Boston	19½	13½	22½	16
New York	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 4½c per bu on Wheat, 3½c on Corn and 3c on Oats. November 16 rates advance ½c on Wheat and Corn, but Oats remain unchanged.

Ocean rates on Grain are unchanged with a limited demand for tonnage. Rates on Grain are ¾@1d per bu from New York and 1d from Boston. Through rate on Wheat from Chicago to Liverpool is 6.27c per bu and Corn 6.15c. Flour 19c per 100 lbs and Provisions 35⅝c per 100 lbs.

Lake rates are higher, with a better demand for boats, at 1¾c on Wheat and 1⅝c on Corn to Buffalo. Offerings were smaller.

FLOUR—The uncertainties accompanying the Wheat market has worked against the trade in Flour during the period under review. When it is said that New York Baltimore and Boston have taken moderate quantities of Flour here and at a few Southwestern points the Eastern seaboard situation is fully covered. Exporters are doing but very little and they are not likely to take any great amount of American Flour as long as the Russian Wheat shipments keep up around the present large figures. Nearly all the breadstuffs now clearing from the Atlantic seaboard is in the shape of Flour, and while the outward movement is small it is said that considerable of the Flour now afloat for Europe and the continent is consigned. Local buyers of Flour are taking hold only in a consumptive manner and they are not likely to become enthusiastic unless Wheat should advance sharply. At the moment the supplies in local jobbers and manufactures hands are ample for about 40 days, after which more inquiry is expected to develope. Consignments of Flour at Chicago are somewhat freer, with the Northwestern interior millers inclined to force sales. On the other hand the Southwestern miller, while offering more freely, is inclined to hold his Flour firmly at a stated level. City mills are mainly running on old orders. Quotations are entirely nominal. They follow in full:

MILLSTUFFS—Inactivity characterized the trading in this market during the past week. Very little arriving and very little apparently wanted. Bran in bulk nominally about $16 50 per ton, and sold in 100-lb sacks, sacks included, at $17 50. Middlings in 100-lb sacks sold at $18 50 and Shorts at $17 50.

WINTER WHEAT—A rather steady feeling prevailed during the past week and no important changes occurred. Fancy soft Wheat held up strongly and choice Hard Winter also maintained a steady feeling, but the ordinary Wheat was dull. Only a moderate business was transacted, and there were days when the market was extremely dull. Local millers have not been anxious to purchase; they were altogether indifferent and only at times showed inclination to buy. A few round lots of mixed grades were sold out of elevator partly for shipment and partly on milling account. Speculators made some purchases. The stock of No. 2 Red in store was 297,000 bu, and a year ago was 793,000 bu. For the week receipts were 234 cars, against 156 cars the previous week. There were withdrawn from public elevators 121,100 bu, and from private warehouses 94 cars and 56,000 bu. No. 2 Red in store ranged at $1 14@1 17½, and fresh arrivals free on board ranged at $1 16@1 19, with sale of a car at $1 16. No. 3 Red fresh receipts free on board ranged at $1 12@1 16, and sold at the river at $1 12½@1 14. No. 4 Red fresh receipts free on board ranged $1 00@1 09. No Grade sold at $1 12. No. 2 Hard fresh arrivals free on board were quotable at $1 10@1 16½. No. 3 Hard fresh receipts free on board ranged at $1 03@1 13, with a sale of choice at $1 15. No. 4 Hard fresh receipts free on board sold at 87c@$1 04½, and at the river at 90c. No. 4 White sold at $1 05 and No. 3 White at $1 12.

SPRING WHEAT—During the past week the market for Spring Wheat has held steady for the best, especially the hard variety, and easier for the poor and ordinary lots. Prices did not reach or maintain as high a range as last week. Trading has been rather light and confined almost entirely to the car lots of fresh arrivals. Choice Wheat, especially the hard variety, always found sale, but there was no urgency to the demand, as millers were out of the market part of the time. Poor, shrunken and shrivelled Wheat has ruled dull and has been hard to sell, receivers finding it difficult to close out their consignments each day. No round lots to speak of were sold. The receipts for the week, including Colorado Wheat, were 207 cars, against 210 cars the previous week. There were withdrawn from public elevators 50,500 bu and from private warehouses 5 cars. No. 1 Northern fresh arrivals free on board ranged nominally $1 16@1 19. No. 2 Northern fresh arrivals free on board quotable at $1 10@1 16. No. 3 Spring fresh receipts free on board ranged at $1 00@1 14 for poor to choice hard variety, with sales at the river at $1 04@1 13. No. 4 Spring fresh receipts free on board ranged at 60@$1 11 for very poor to choice hard variety, with sales at 60c@$1 11 and sales at the river at 65@95c.

REGULAR WHEAT—A very good speculative trade was witnessed in this market the past week and prices were quite irregular within the limits established. The close shows the December off 2c, while May lost 1⅛c July gained ⅛c. The situation the opening days was weak and liquidation of "long" property general under which December sold off to $1 10@1 10⅛, May to $1 10 and July to 95⅛c December was relatively weaker than the more forward deliveries. "Bear" interests put out "short" lines and market for a while had indifferent support from the principal holders. The weakness abroad and generally "bearish" statistics were among the principal depressing influences. The fine weather and let up in the cash demand were also indirect "bear" factors. World's shipments for the week were 10,856,000 bu, against 10,920,000 bu the week before, and 11,560,000 bu for corresponding week last year. The shipments were led by Russia with 6,144,000 bu, followed by America with 1,368,000 bu. These large Russian shipments were accounted for by advices from Liverpool that holders there fear confiscation by Government and are anxious to rid themselves of the Wheat before it is taken out their hands by the authorities. Danubian, Indian and Argentine shipments showed a marked falling off There was a decrease in the amount of Breadstuffs on ocean passage of 3,261,000 bu during last week, leaving the total amount afloat destined for Europe and the Continent 35,392,000 bu, against 30,992,000 bu a year ago. The visible supply increased 1,840,000 bu for the week, the total in the visible now being 26,405,000 bu, against 22,216,000 bu for corresponding time a year ago. Stocks here in all positions increased 7,000 bu to 4,510,000, against 5,209,000 bu one year ago. Contract stocks showed little change at 1,474,593 bu, against 1,088,502 bu same date in 1903. *Bradstreet's* available supply increased 3,691,000 bu, against 519,000 bu increase for the same period in 1903. Stocks of Wheat in the interior elevators of the Northwest increased 772,000 bu during October, compared with an increase of 1,336,000 bu in October, 1903. Stocks are reported at 5,476,000 bu, compared with 6,001,000 bu on November 1, 1904, and 8,238,000 bu on November 1, 1902. At the decline and around $1 10⅛@1 10¼ for both December and May the demand became more general and market assumed a stronger undertone The failure of the English markets to follow the decline established on this side, coupled with dry weather reports from the Southwest, renewal of war possibilities between Great Britain and Russia, and falling off in the movement, all combined to bring about the change in sentiment, and before the demand was satisfied December touched $1 13½. May $1 12½@1 12⅝, and July 99⅜c. Unusually clear weather of October through the Central West, so favorable for maturing and curing Corn and for husking, has not provided the best conditions for growth of Winter Wheat. More moisture is needed, and, while it is possible nothing more serious than retarded growth, which can be made up later, has resulted so far, if the drouth continues much longer speculators began to take notice of a new issue. A St. Louis message said: "General complaints of dry weather, but no damage reported yet." Indianapolis messages reported complaints coming in of Wheat looking sickly from lack of moisture. There were several dry weather reports from Kansas, some of which mentioning Hessian fly, as follows: "Wichita—Hessian fly and dry weather hurting Wheat." "Clearwater—Wheat in worse condition than it ever was at this time; early sown dying out; late some full of Hessian fly." "Anson—Early sown Wheat dying from lack of moisture and promise poor; late sown Wheat not up yet." Around $1 13½ for December and $1 12⅝ for May, realizing and profit taking again set in and the former reacted to $1 11¼ and the latter to $1 11⅛. Primary receipts this week showed some falling off and between June 27 and Oct. 31 aggregate 97,983,000 bu, compared with 89,059,000 bu in 1903 and 125,253,000 bu in 1902. The Portland *Commercial Review* estimates that on November 1, Wheat remaining unsold in Oregon, Washington and Idaho at 15 per cent, or about 7,500,000 bu. Exports since July 1, foreign and California, about 9,000,000 bu, including Flour. Millers have purchased and have about 5,100,000 bu on hand. Sales for Eastern shipment about 350,000 brls Flour and 15,000,000 bu Wheat. Exports again meagre at 1,481,000 bu, and since July 1 foot up 24,648,000 bu, against 57,823,000 bu for the corresponding period in 1903. Bookings on the coast were light and local sales were chiefly to outside millers. Foreign crop news was in the main favorable and *Broomhall* summed up the situation in the following cable: "United Kingdom, France, Italy and Spain Conditions continue generally favorable for fall growth, but more rain is needed, some districts being very dry. Austria, Hungary and Bulgaria Crops are growing very well. Roumania—The weather continues favorable. Supplies of Wheat are liberal, but firmly held. Russia—The crop outlook is generally favorable. Stocks at the ports show moderate increase India—Crop conditions continue favorable. Shippers predict continued liberal shipments" Argentine shipments were larger at 1,280,000 bu, which makes 67,405,000 bu since Jan. 1, compared with 60,328,000 bu one year ago. The visible supply there is now 2,302,000 bu, against 2,481,000 bu last week and 1,472,000 bu one year ago. Crop news from there very favorable, and Ohio State report made condition 87 per cent, against 81 per cent last year, and area 1,859,000 acres, against 2,066,000 acres last year.

CORN—A fair trade was reported under this head and the feeling developed was unsettled, the market being choppy and nervous most of the week. Resting prices show the December ⅞c lower, while May closed ¼c below the final figures of last Friday. The trade continues in the main for local account and was professional in character. Early in the week the feeling was weak and under general selling a lower level of prices was established, December touching 48⅛c and May 41⅞c. The fine weather and "bearish" advices from the Southwest as to the future movement and grading were among the weakening influences, the break in Wheat at the time also having a depressing effect on values. "Long" Corn came out in large quantities a feature being the pressure on the December, the premium over May narrowing to 2⅝c. The excellent weather, clear and not very cold, was all that could be desired for the making of the crop, and proved to be hinderance to the "bull" movement. Reports from the Southwest said that Corn receipts would be heavy during December and that the Corn was likely to grade contract. At the decline and around 48⅛c for December and 45c for May the demand improved and offerings became smaller. "Shorts" accepted considerable amounts, and Wheat rallying, the Corn market advanced in sympathy. The liberal reduction in local supplies last week, small receipts and strong position of the cash article were among the sustaining factors World's shipments were 3,564,000 bu the past week, compared with 3,690,000 bu the week before and 4,008,000 bu a year ago. The amount of Corn on ocean passage decreased 988,000 bu for the week, and is now 18,420,000 bu, compared with 17,930,000 bu a year ago Liverpool stocks increased 146,000 bu, and are now 934,000 bu. The visible supply decreased 881,000 bu for the week, and is now 8,049,000 bu, against 7,332,000 bu in 1903. Local stocks in all positions were reduced 891,000 bu to 1,755,000 bu, against 4,204,000 bu one year ago. Contract stocks decreased 361,358 bu, and now include 1,059,594 bu, against 1,187,843 bu same date in 1903. Receipts this week were limited to 526 cars, against 687 cars last week and 2,294 cars one year ago. The outward movement was fair and indications are for another decrease in supplies this week. The failure of foreign markets to follow the decline on this side and renewal of war possibilities between Great Britain and Russia acted as an indirect "bull" influence December rallied to 49c and the May touched 45⅝c, around which figures there was realizing and profit taking by "longs" and the upward tendency was checked. December sold to 47⅞c while May touched 45¼c. Shipping operations were curtailed to some extent by the firm views of holders. Mixed Corn sold to go East this week equal to ⅝c over May in store, while yellow sold at 1@2½c over the price of that delivery. The movement through the West was much smaller than a year ago. Exports the past week were small at 447,000 bu making 10,916,000 bu since July 1, against 19,80?,000 bu for the same period in 1903. Bookings at Atlantic and Gulf ports were meager and local shipping sales were smaller, due as much as anything to scarcity. The *Orange Judd Farmer* claimed that current returns covering more than half of the producing counties, based upon husking reports and local examination of fields, showed an average rate of Corn yield above 27 bu, or 2½ bu more than the condition reports indicated. This brings the total crop above 2,600,000,000 bu With the exception of some damage in Ohio, Michigan and Wisconsin from September frost, the fall conditions were ideal, and the general quality of the crop is high. In Nebraska and the uplands of Iowa quality is especially good and the yield heavy October was generally favorable for drying and some cribbing has already begun. Argentine shipments were again quite liberal at 2,254,000 bu, making 79,151,000 bu since Jan. 1, against [illegible],000 bu one year ago. The visible supply is now 3,702,000 bu, against 2,114,000 bu last week and 3,868,000 bu one year ago.

OATS—Were moderately traded in within a fair range, the average being slightly higher than the previous week. The movement from the interior is fair, but more than last year, both in Chicago and in the Northwest. Stocks are decreasing for the first time this season. There is a more friendly feeling to the buying side and on the breaks below 31c for May and July, Oats were well absorbed, but on advances of ½c to ⅝c traders were disposed to take profits. This selling made sharp reactions after every bulge and closing trades were at net gains of ⅛@¼c May and July sold at about the same prices, and finished at 31c for May and at 31c for July. December closed at 28⅝@28¾c, a net loss for the week of ⅝c. A fair amount of changing from December to May and from May to July was noticeable. Shippers did a larger business and although sample lots started lower they advanced and closed at about the best prices. Arrivals for the week were 725 cars, against 698 cars the previous week and 1,422 cars last year. Export clearances aggregated 2,800 bu, against 56,725 bu the previous week and 167,000 bu last year. The "bears" are looking for increased receipts in the near future when the new Corn commences to move freely as they expect that Oats will be moved out of country elevators to make room for Corn. The available supply decreased 769,000 bu. The visible supply decreased 436,000 bu and was 23,999,000 bu, compared with 8,979,000 bu last year. Stocks in all positions in Chicago decreased 201,000 bu, and are 9,505,000 bu Contract stocks increased 304,563 bu and are 3,827,000 bu, compared with 937,000 bu last year.

RYE—There has been a steady feeling in the market during the past week. A fair demand has existed for futures and a good demand for cash The offerings have been very moderate, and this has created a rather strong market No round lots of cash were sold, trading being confined to the few cars of fresh receipts from day to day and there has been scarcely enough of these to supply the requirements. Millers and distillers were the principal buyers, but occasional cars were secured by speculators. The receipts for the week aggregated 33 cars, against 36 cars the previous week There were withdrawn from public elevators 30,900 bu and from private warehouses 5 cars The visible supply increased 122,000 bu, and was reported at 1,773,000 bu, against 1,026,000 bu a year ago Local stock in store was 649,000 bu, and a year ago was 113,000 bu. No. 2 in store sold at 79¼c and from store at 82½c, with sales fresh receipts at 83@85c. No. 3 fresh receipts sold free on board at 78@83c, and No 4 at 73@77½c For future deliveries of the demand was moderate. October was nominally 79@79½c. November sold at 79¾c. December sold at 79¾@80c. May was quotably about 2c over December and sold at 82c

BARLEY—Only a small business was done the past week. Arrivals were very moderate and actual offerings were light. There was a firm market for feed Barley, at the same time a dull market for all other grades Feed was in small supply and finally scored ½c advance. At the outside, buyers sometimes got a Barley which some time ago was occasionally sold for malting. Demand on malting account was very tame. The fact that offerings were small did not disturb buyers Most of them were well supplied from the free purchases made some time ago. That arrivals were small was attributed to two reasons One low prices which have prevailed for some time, the other that farmers were busy with fall field work, and were not hauling in much Barley. In the market for malting grades there were no changes in prices to speak of. Posted receipts for the week 253 cars, compared with 230 cars the week before and 367 cars two weeks ago. No output from regular houses; the previous week there was none and two weeks ago there were 29,800 bu taken out New York gave exports of 39,462 bu compared with 37,461 bu a week ago and 48,168 bu two weeks ago. Visible supply increased 346,000 bu, and was 6,398,000 bu; a year ago it was 4,938,000 bu Local stock did not change; it was 11,714 bu, which was just a little smaller than the same time last year Screenings were a little slow, with a range of 26@37c for poor to very choice, sales mainly at 30@34c Feed sold at 37@38c—some poor cars lower; malt sales at 37½c early and 38c later. Malting, low grade, small berry, some heavy, but dirty, quotable at 38@41c; clean, fair to good, at 41@43c, and large berry, heavy, sold at 44@45c, with choice to fancy 48@52c Fancy in round lots above. To arrive lots were slow and quiet. A few lots were sold and prices were in some cases withheld from publication. Sales reported were at 45@52c.

SEEDS—There was no life especially in the market. It is the quiet season The close proximity of the election also was cited as a probable reason for quietness of trade. Arrivals and offerings generally were rather small to moderate In the case of Timothy there was an easy feeling with some decline Other Grass Seeds were steady as a rule; in many intances, however, they were nominal. Flax wavered from easy to firm and scored finally a small gain.

Timothy—An easy feeling prevailed and tendency of prices was downward. There was 5@10c decline during the week. Cash offerings were

moderate, all that the trade needed. Orders were said to be coming in light. A good part of the Seed bought was probably taken for cleaning as much as anything else. More or less cars were tendered as contract, about two-thirds, and half of them passed, some did not owing to Seed being hulled a little too much. There were future delivery offerings to the amount of 1,000 bushels. Short Rib Sides handle moderately and Short Rib Sides trade in fair quantities. Rough Sides made in only moderate quantities. Backs and Bellies made moderate quantities. Fair inquiry for Dressed Meats trade and local retail wants. Foreign fancy and special cuts of Meats made in limited quantities.

PROVISIONS—Less interest was manifested in the market for Hog Products during the past week, and the volume of business to a speculative way was on a moderate scale. Outsiderders were somewhat limited, and local speculators and packers were not inclined to trade very freely. The receipts of Hogs at the leading Western packing points were slightly larger, out there is some compensating regarding the quality. Returns of the packing of the West exhibited an increase of 50,000 Hogs compared with the corresponding week in January. Prices of Hogs averaged slightly lower, though closed rather steady at the decline. The reports of the supplies of local stocks was a little surprising to the trade—the reduction in Mess Pork and Short Rib Sides being smaller than generally anticipated, the aggregate decrease in October reaching 25,500,000 lbs. compared with 32,000,000 lbs last year. Total supplies are about 75,000 000 lbs more than one year ago. Demand for the Corn trade is very good, and the crop is now secure from serious damage of any kind. The yield and quality will be good, especially in the principal Hog raising sections of the West. It is claimed that the Hog supply will not be quite as large as last year, especially during the early part of the winter packing season. The bulk of the speculative trading is in January Pork contracts, and prices of the former are based on about $4 50@4 62½ for Live Hogs in Mess Pork and Short Rib Sides trading, and at $5 00 in Lard, a general basis not varying much from the present quotations. The movement to the shipping trade, and the fact that foreign markets are quiet and dull, with little business, and the leading distributing markets are overstocked with Products forwarded by packers anxious to close out their supplies, rather discourages the "long" side of the market, though the fairly good prices for Corn and Hogs inclines to check any liberal trading on the "short" side. Most of the business may be credited to parties who were willing to accept moderate profits or losses on limited quantities. Near delivery are very quiet—October contracts were all closed up, and there has been little trading in November and December. Manufacture of Products since the opening of the winter season has been liberally. Advices from abroad were unfavorable to holders and prices ruled lower on all the leading articles. Domestic markets slow and easy, with merchants backward about purchasing, unless to meet immediate requirements. Receipts of Products were from the interior were fairly large, as packers were inclined to sell, and shipments of all kinds were quite liberal. Exports are not quite as large as last year at this time, and the supposition from the general condition of trade is, that a fair proportion may be credited to consignments from first hands. The speculative markets opened rather firm, with a moderate miscellaneous buying, and prices were advanced slightly on all the leading articles. With increased receipts of Hogs and lower prices, there was a little pressure to sell, and a weaker feeling was developed. Prices settled back moderately all around. During the latter part of the week, there appeared to be little property for sale for future delivery, while the demand was not very active. Prices rallied moderately, with limited trading, and a very decided feeling was well supported to the close. "Shorts" bought moderately. In the shipping branch of the trade there was a very quiet interest. Offerings were fair, with sellers willing to make moderate concessions, but orders from all quarters were for limited quantities, and buyers were backward about purchasing. Advices and quotations, and the undertone to the market at the close was comparatively easy.

Pork—Trade in New York was only fair during the past week, and the market was a little unsettled. Offerings were moderate, and the demand was fair. Near deliveries were rather quiet. January delivery considerably declined, though old new Mess Pork has been made, and there was moderate trading in May. Stock on hand reduced about 8,400 bris during October, but is still 26,000 bris larger than one year ago. A fair portion of the business was credited to packers. Market opened rather steady, with moderate miscellaneous buying, and prices were advanced 5@7½c. At the inside—present, there was a little pressure to sell, and prices receded 12½@20c. This reduction in prices encouraged a little buying by "shorts," and after the stocks were made public there was rather a good feeling developed. Prices were advanced $5@7 50c. Toward the close, the feeling was not quite so strong, and prices receded 12½@15c, and the market closed comparatively steady. Mess was quoted in Lard during the past week, and the feeling was somewhat unsettled. Offerings were not very large, and the demand was fair. Foreign advices were rather unfavorable to holders. Trading was moderate. Stock on hand was reduced 11,500 tcs during October and the supply is now 16,000 tcs less than reported one year ago. The market opened rather steady, with moderate demand, and prices advanced about 40,000 to 45 000 tcs during October, but is about 50,000 tcs larger than a year ago. Bulk of the speculative trading was in January and prices were made at $5 00 according to weight. Trade was moderate. Short Ribs were quiet and dull, with prices rather weak. Offerings were fair, with a little pressure to sell, and the demand was limited and for very small quantities to meet current wants. Foreign advices were unfavorable to holders, and Hams were quoted lower. Orders from the interior were light, and limited to figures below the views of sellers. Domestic markets quiet, with merchants slow to purchase. Supplies of all kinds were reduced about 7,500,000 lbs during October. The aggregate stocks reported on November 1 were about 34 330,000 lbs, compared with 41,~60,000 lbs on October 1, and 29,710,000 lbs on November 1, 1883. Trade was made principally for future delivery. Hams were in small request, with fair offerings, and prices ruled about ½@¾c lower. Shinned Hams were in moderate supply, and slow sale at ¼@¾c decline. Shoulders were in small demand and dull at ¼@¾c decline. Picnic Hams were called for sparingly, and prices ruled ¼@¾c lower. Bellies were quiet and prices ruled ¼@¾c lower.

Pickled Meats—Trade was comparatively light in the market for Pickled Meats during the past week. Offerings were fair, with a little pressure to sell, and the demand was limited and for very small quantities to meet current wants. Foreign advices were unfavorable to holders, and Hams were quoted lower. Orders from the interior were light, and limited to figures below the views of sellers. Domestic markets quiet, with merchants slow to purchase. Supplies of all kinds were reduced about 7,500,000 lbs during October. The aggregate stocks reported on November 1 were about 34 330,000 lbs, compared with 41,~60,000 lbs on October 1, and 29,710,000 lbs on November 1, 1883. Trade was made principally for future delivery. Hams were in small request, with fair offerings, and prices ruled about ½@¾c lower. Bellies were quiet and prices ruled ¼@¾c lower.

Smoked Meats—Trade was limited in the market for Smoked Meats during the past week, and the feeling was easier. Offerings were moderately free, and the demand was light. Stocks fairly liberal. Hams were in moderate request and slow sale at ¼@¾c decline. Shinned Hams were rather light demand and dull at ¼@¾c decline. Shoulders were in small request and prices about ¼@¾c lower. Picnic Hams were in moderate demand and prices ruled about ¼@¾c lower. Bellies of all kinds sold slowly, and prices were reduced ¼@¾c all round. Breakfast Bacon in moderate demand and prices ruled in favor of buyers.

Beef—Trade in Pickled Meats was rather light in the market for Beef Products during the past week, and the feeling was rather steady. Offerings were moderate, while the demand was only fair. Cattle were in rather good supply, and prices ruled steady especially for the better qualities. Foreign markets were comparatively steady. Domestic trade was moderate. Stocks of Dressed Beef were fairly large. Beef Hams were in moderate request, and prices ruled steady. Extra Mess Beef in small demand and prices were unchanged. Extra Plate Beef in small demand and rather steady. Extra Plate Beef in light request and prices favored buyers. Tallow was in moderate demand, with a little pressure to sell, and prices were easier. Prices declined about ½@¾c all round. Oleo-Stearine was in moderate request, with fair offerings. Feeding dull and prices ruled ¼@¾c lower, closing at ¼@¾c.

Greases—Trade in Greases was moderate, and the feeling was dull. Buyers rather backward. Offerings were fair, and the inquiry rather light. Prices ruled at a decline lower on the common grades.

The City of Toledo has awarded $100,000 4 per cent ten-year natural gas refunding bonds to the Union Savings Bank and Trust Company of Cincinnati at par, accrued interest, and $1,761 premium.

Close associates of the controlling interests in Rock Island say the plan to refund the bonded and floating debt of the company is now in such shape that an official announcement may be made at any time.

Traffic on the Chicago and Oak Park Elevated during October compared favorably with that on the South Side Elevated and Metropolitan Elevated. A decrease of only 3.14 per cent in the total traffic was shown.

President Ripley said the Harriman and Standard Oil interests would not be able to secure control of the Atchison even should they desire to do so. "We have that matter fixed," said he, "and will be able to retain control."

The contract for another steamer of the largest class, to be built by the American Ship Building Company for the Niagara Transit Company, was announced, Tuesday. The new boat will be of 10,000 tons capacity and will cost $410,000.

Justice McCall, in the Supreme Court in New York, has signed an order for the sale of the property of the Compressed Air Company in a foreclosure suit by the Morton Trust Company. The total mortgage, including interest and costs, is $378,883.

The Federal Sugar Refining Company has issued a notice to the stockholders that in order to increase the working capital of the company stockholders are given the privilege of subscribing pro rata on or before Nov. 10 for preferred and common stock on the basis of $1,000 for every ten shares of preferred and five shares of common stock outstanding.

Estimates by Geo. J. S. Broomhall of Liverpool indicate the Wheat requirements of importing countries for the current year in comparison with actual imports for two years previously as follows, in bushels:

	1904-5.	1903-4.	1902-3.
Europe	440,000,000	458,000,000	458,000,000
Other	56,000,000	61,000,000	72,000,000
Total	496,000,000	519,000,000	530,000,000

Eugene H Angert, attorney for August E. Brooker, cashier of the Manchester Bank, Monday, filed papers in a suit in the Circuit Court at St. Louis, against nineteen directors and promoters of the Title Guaranty Trust Company, seeking to compel the payment into the company's treasury of $485,600. The company is named as co-defendant. The Title Guaranty Trust Company, capitalized at $2,250,000, practically controls the title investigating business of the city. The object of the suit is to compel the defendants to turn into the treasury of the Title Guaranty Trust Company the amount the plaintiff declares was acquired by the defendants at the time of the organization of the company in Febuary, 1901.

The Winnipeg correspondent of the *Northwestern Miller* under date of Oct. 31 says: "The weather in Manitoba and Assiniboia has improved very much. While we had some rain in the Red River Valley last week, the rest of the country had a fine week, and great progress was made with threshing. Travelers say that they have never seen the country roads in better shape than they are in at present, and they pronounce last week's weather the finest we have had this year. The effect of this good weather upon the Grain movement will begin to appear at once. There should be a large increase in farmers' deliveries this week."

The New York *Commercial*, Thursday, printed the following as an "official" statement direct from a member of the Standard Oil family: "If nothing unforeseen happens, the tendency of stocks will continue upward. Of course, many securities have been pushed up beyond their intrinsic value, but this is quite natural in a 'bull' market, such as has been experienced in the last few weeks. There are many gilt edged stocks that are netting the investor a very large income, and it would be quite natural if these securities were taken in hand and forced to higher prices. As to Gold exports, they will not reach alarming proportions. Indications are that money rates will continue easy for several months to come."

Agricultural Gazette of Oct. 24 says: "Dull, misty, and mild weather prevailed last week, although not unrelieved by sunshine on some days, and rain fell on two or three occasions, sufficient in quantity to soften the land for the plows. Wheat-sowing has made good progress, although delay has been caused by the carting of mangels. There has been no trouble to cover the seed well with a minimum of horse labor, and the newly sown fields present a very neat and satisfactory appearance, while pieces drilled early have come up well. Threshing reports continue to be generally unsatisfactory, the yields of Wheat, Barley, and Oats alike being commonly described as disappointing. The worst accounts come from some of the greatest Grain-growing counties."

Official announcement was made, Wednesday, of the issue of bonds for $75,000,000 by the Erie Railroad to purchase the Cincinnati, Hamilton and Dayton, Pere Marquette and Chicago, Cincinnati and Louisville Railroads. J. P. Morgan & Co. took them all. It is stated that the recently merged Cincinnati, Hamilton and Dayton-Pere Marquette lines were acquired on a basis of $125 a share for the new preferred stock of the Cincinnati, Hamilton and Dayton. In addition, this will cover the purchase of the Clover Leaf line. The acquirement of these systems will put the Erie, so far as traffic advantages are concerned, on a parity with the Pennsylvania and New York Central lines. It is said the Morgan interests acted in opposition to the Harriman interests. Two years ago Harriman was a heavy holder of Erie securities, but he quietly disposed of the bulk of them to protect his other investments. It now appears that all were quietly picked up by the Morgan interest.

The Chicago *Inter Ocean* says: "Some of the private wires, Thursday, brought a message from New York to the effect that efforts were being made there to form a protective committee in the underlying stocks of the Corn Products Company, with the object of securing more facts regarding the earnings and operations of the subsidiary companies. No verification could be obtained locally of the story. Apparently the only possibility of creating a stockholders' committee exists in the Glucose Sugar Refining Company, since the stocks of the other subsidiary companies are practically all held by the Corn Products Company, with the exception of the New York Glucose Company, only 49 per cent of the stock of which is owned by the Corn Products Company. Some talk has been heard before of a legal attack by hungry stockholders of the Glucose company, but the matter, if there was any truth in the story, has been very slow to develop."

Broomhall's Liverpool cable says: "Unexpected enormous world's shipments, 13,040 000 bu, caused heavy liquidation in Wheat at opening and December lost ⅛ and distant months ⅜d. Healthier feeling developed later, and under the influence of outside buying there were recoveries of ½ and ⅜d. Part of this lost toward noon, the 1:30 P. M. prices being ⅛ to ⅜d below Saturday's close. Corn opened unchanged for December and ¼d higher for January: later, January gained ⅛d further. The factor was the strong undertone induced by Continent taking Argentine cargoes shipped for orders."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand very moderate and market quiet and easy as recently quoted.

WINTER WHEAT Was very dull to-day, and while prices were quotably lower, it is difficult to make a basis to guage the market as there was scarcely anything doing, all buyers holding off and many samples were carried over. No. 2 Red in store nominally $1 15¾@1 16⅝ and car-lot fresh arrivals free on board sold at $1 16. No 3 Red fresh receipts free on board, good Wheat sold at $1 13 and No. 4 Red at $1 06 No Grade Red, heating, sold at $1 02¾ No 2 Hard fresh arrivals free on board quotable at $1 11@1 15, with a sale billed through at $1 13½. No. 3 Hard fresh receipts free on board sold at $1 06 and ranged at $1 03@1 10, and sold at the river at $1 08½.

SPRING WHEAT Was dull and weak Buyers all holding off. No. 1 Northern fresh arrivals free on board quotable at $1 16@1 18 No 2 Northern fresh arrivals free on board quotable at $1 08@1 14. No. 3 Spring fresh receipts free on board quotable at $1 00@1 12, with a sale at $1 11, and at the river at $1 05 No. 4 Spring sold at 95c for fair and at $1 02@1 11 for hard variety and quotably as low as 65c for poor

REGULAR WHEAT—Only a moderate trade, market ruling rather quiet the close being ⅛@⅜c higher for December, while May gained ⅛@⅜c and July ⅛c. The early tone was easy, influenced by the large world's shipments and depression at Liverpool. Locals and commission houses sold, but the market ran into resting orders, which checked the decline and later developed a stronger tone Excessive rains in the Argentine and dry weather reports from the Winter Wheat belt, more particularly Oklahoma and Kansas, helped bring about the change in sentiment and many of the early sellers covered. Liverpool quoted spot ½@¾d lower and futures only ⅛@¼d higher. Stocks there, 4,648,000 bu, increased 88,000 bu last week. London came ¼d lower Paris was down ⅛@⅛c Buda Pesth and Antwerp unchanged. Berlin was ⅛@¼d lower. World's shipments were larger than expected at 13,040,000 bu, Russia contributing 5,392,000 bu against 10,856 000 bu the previous week and 11,464,120 bu one year ago. The quantity on ocean passage increased 736,000 bu and is now 36,128,000 bu, against 20 872 000 bu a year ago The visible supply increased 1,867,000 bu, against 2,939,000 bu increase one year ago. Total is now 28,362,000 bu, against 25,165,000 bu in 1903 and 36,093,016 bu in 1902 Local public stocks decreased 94,000 bu and are now 1,991,000 bu, compared with 1,596 000 bu same date in 1903 Primary receipts were 90,000 bu larger than a year ago Northwest cars were 193 cars smaller. Kansas City and St. Louis received 436,000 bu, against 393 000 bu one year ago Winnipeg had 407 cars, compared with 305 cars same date in 1903. Duluth claimed about one quarter of the receipts were for the Pacific Coast Kansas City estimates for to morrow were large at 363 cars. Map showed no precipitation in the Winter Wheat belt and fair weather was predicted Clearances were again meager and but no boat loads accepted at the seaboard. Duluth reported no shipping demand for cash Wheat. Receipts at Duluth 173 cars at Minneapolis 990 cars, total of 1,163 cars, against 744 cars Saturday, 1,135 cars a week ago, and 1 353 cars last year Local receipts included 14 cars Winter, 16 cars Spring and 6 cars mixed, a total of 36 cars, against 1 7 cars last year. Included in above were no cars contract grade. There were also 14 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 92 cars. The withdrawals were 3,000 bu. Receipts at Western points were 1,786,245 bu, against 1,696,326 bu last year. At Eastern points 33 329 bu, against 259,961 last year. Shipments from Western points 488,985 bu, against 777,035 last year, and from Eastern points 2,000 bu, against 175,631 bu last year. Shipments of Flour were 15,193 brls. Exports of Wheat in Flour were equal to 70,364 bu.

Future Deliveries of Regular Wheat—Rather quiet and feeling firm.

NOVEMBER—Entirely nominal

DECEMBER—Sold at $1 11¾@1 12⅝. Opened at $1 11¾; sold to $1 12½, to $1 12⅜, to $1 12⅝, to $1 12¼, to $1 12⅝, to $1 11¾, to $1 12⅜@1 12½, to $1 11⅞, to $1 12⅛@1 12¼ to $1 11¾@1 11⅞, to $1 12⅜, and closed at $1 12¼@1 12⅜.

JULY—Sold at 97⅞@98½c Opened at 98c to 98¼c; sold to 98½c, to 98⅛c, to 98¼c, to 97⅞c, to 98¼c, to 98c, and closed at 98c bid.

CORN—Just a fair trade, with the undertone somewhat firm, the close showing the December ⅛@¼c higher and May ⅛c better. The small world's shipments, higher cables and reports of the Continent buying Argentine cargoes, together with the strong position of the cash article, all combined to curtail speculative offerings, while the demand from commission houses was more general. Liverpool quoted futures ⅜@¾d higher, and spot unchanged to ¼d higher. Stocks there 1,051,000 bu, increased 120,000 bu last week. World's shipments were small at 2,682,000 bu, previous week 3,564,000 bu, and 5,608,000 bu one year ago The quantity on ocean passage decreased 188,000 bu, and is now 18,232,000 bu, against 17,772,000 bu one year ago. The visible supply decreased 661,000 bu, compared with 444,000 bu increase same week in 1903 Total is now reported 2,382,000 bu, against 7,776 000 bu in 1903 and 2,790,000 bu in 1902 Local public stocks decreased 290,000 bu, and are now 817,000 bu, against 1,390,000 bu same date in 1903. Receipts were 138 cars, against 189 cars last year and 143 cars estimated for to-morrow. About 70 cars of new Corn were on the market. Shipping demand was fair and a sale of 95,000 bu No. 2 reported equal to 7c over May in store Withdrawals here 177,000 bu, and exports 442 bu. Western receipts 349 000 bu; last year 126,000 bu. Shipments 270 000 bu, and 596,000 bu respectively. Seaboard reported 15 boat loads accepted. Map showed favorable conditions and continued fair weather was predicted. Southwestern markets were firm. Car lots were in fair demand and offerings a little larger. Prices were steady No 2 closed about 55c. No 2 Yellow closed at 58½c. No 3 closed at 54½c No 3 Yellow sold at 58½c and closed at 58c. No. 4 sold at 47@53c. No Grade at 20@48½c. Charters 165,000 bu

Corn by sample—Offerings were only moderate, though a little larger than of late, and the demand fair. Market steady to easy and without special change in prices. Sales on track and free on board: No Grade new sold at 43@49c. No. 4 new at 46½@51c old at 56@58c. No 3 at 55½@57¼c. No 3 Yellow at 58½@59c No. 2 at 57¼c No. 3 White at 53@55c. Ears at 40@41c for new. Billed through: No Grade new at 44@47½c. No. 4 new at 46@52c. old at 56@57c. No 3 new at 53c; old at 54@57c No. 3 Yellow at 57@57½c. No. 2 at 56½c. No. 2 Yellow at 58c. No. 3 White at 53½@54c.

Future Deliveries of No. 2 Corn—Moderately active and feeling firm, closing ⅛c to ⅛@¼c higher.

NOVEMBER—Inactive and entirely nominal, closing about 4c over December at 52¾c.

DECEMBER—Sold at 48½@48⅞c Opened at 48¾c and sold at 48⅞c, to 48½@48⅝c, to 48¾c, to 48½c, to 48¾c, to 48⅝c, to 48¾c, and closed at 48¾c asked

MAY—Sold at 45¾@46c. Opened at 45⅞c to 45¾c and sold at 46c, to 45⅞c, to 45⅞@46c, to 45¾@45⅞c, to 45⅞@46c, to 45⅞c, to 46c, to 45⅞c, and closed at 45⅞c bid

JULY—Sold at 45¾@45⅞c Opened at 45⅞c, sold at 45¾c, to 45¾@45⅞c, and closed at 45¾@45⅞c bid.

OATS—Were moderately traded in and closed steady to ⅛c higher, the latter on May. The range was narrow and the market had a steady under tone. Visible supply increased 564,000 bu and local stocks in public houses increased 101 000 bu. Arrivals were 188 cars, with 160 cars expected to-morrow. Withdrawals were 43,600 bu, mostly from private elevators. Cash sales here were 50,000 bu and charters for 100,000 bu. At New York sales were 40,000 bu. Seaboard clearances none. Car lots to go to store steady. No. 4 White sold at 29½c. No. 3 White at 30c. Standard in store closed about 29⅜c.

Oats by sample sold rather slowly, with an easy tone, although prices were called steady Sales on track and free on board No Grade at 28c. No 4 White at 29¼@30½c. No. 3 at 29c No. 3 White at 30@31½c Standard at 31@32c No 2 at 29½c. No 2 White at 31½c Billed through No 4 White at 29@29¼c. No. 3 White at 30@30½c Standard at 30½@30¾c. No. 2 White at 31½c. At the river: No. 4 at 28c. No. 4 White at 28@28¾c. No 3 White at 28½@29¼c. Standard at 29¼c

Future Deliveries of Contract Oats—Were steady with small trading

NOVEMBER—Closed at 29⅜c

DECEMBER—Sold at 28⅞@29c. Opened at 28⅞c, sold at 29c, to 28⅞c at close

MAY—Sold at 31⅛c and at 31¼@31⅜c. Opened at 31⅛c, sold to 31¼@31⅜c, to 31¼c at close

JULY—Sold at 31@31⅛c. Opened at 31c, sold to 31⅛c, and closed there.

RYE The market was firm and prices about 1c higher Demand good and offerings light. The visible supply decreased 215,000 bu The receipts were five cars and there were withdrawn from public elevators 6,200 bu No 2 in store nominally 81c and fresh arrivals free on board sold at 83@85c No 3 sold at 84c

Future Deliveries of No. 2 Rye Ruled firm. December sold at 81c and closed at 81c asked. May 82½c asked

BARLEY—There was a fair business done in malting goods. Very little in a lower grade or feed, for there was little of this on sale, though demand was present. For malting Barley there was demand sufficient to take the offerings Quantity on sale was not so large as would be expected from the postings, there being 95 cars posted inspected in It was a steady market all around, with no news particularly. A good reduction in the visible supply was shown though this still appears as considerably larger than a year ago. Sales of Screenings were at 27@37c for common dirty to choice Low grade Barley, feed, was quotable at 37@38c; poor nominally lower. Malting, low grade, small berry, some heavy, but dirty, quotable at 39@40c; clean, fair to good, at 41@45c, and large berry, heavy, quotable at 44@46c, with choice to fancy 48@52c Very choice to arrive sold at 53c

SEEDS—There was a dull, easy Timothy market, but other Grass Seeds were steady, with Hungarian and some kinds of Millet a shade higher. The Flax market, though quiet was strong and a shade higher.

Timothy—An easy feeling prevailed in the cash market There were fair offerings. Some was good, but most of it was ordinary to poor. Demand tame Futures were neglected One sale for September delivery was all that was done. Contract grade was nominally $2 60 for November delivery, at $2 62½ for December, and at $2 65 for January delivery March sold sparingly at $2 75, and offered at that. Cash sales were at $1 85@2 30 for poor to good, inferior tailings down to 50c Country lots were quotable at $1 75@2 45 for low grade to fancy, inferior lower; fair to good, $2 25@2 30; choice to fancy $2 35@2 45, and rough, dirty or hulled, $2 00@2 20

Flax—A stronger feeling marked the opening of the week. There was ½c advance in the quotations which for the most part were nominal owing to meagre offerings Thirteen cars or 11,700 bu were received; none taken out Local regular stock unchanged being 16,647 bu, against 101,716 bu a year ago Arrivals quite liberal in the Northwest—137 cars at Minneapolis and 29 cars at Duluth No. 1 Northwestern or No. 1 from the Northwest sold sparingly at $1 16½, and No. 1 salable at $1 10½. Rejected nominal at $1 07@1 14. November was $1 10½ bid, and December salable at $1 11½ May nominally $1 13

Clover—Was quotably steady with a number of lots on sale, which sold over a range of $6 00@11 50 for poor to high grade country Seed. The market was quotable: Contract grade, spot or November delivery at $12 00. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—There were nominally higher quotations for Hungarian and some kinds of Millet. No consignments on sale. Order trade reported as small. Improvement, it was suggested, might be due to indications of the yield of the several lines not being up to former calculation They were quoted as follows: Hungarian quotable at 85c@$1 05 for common to choice Millet, common, was quotable at 85c@$1 10 for common to choice. German at 85c@$1 15. Broom Corn Millet at 95c@$1 10, Siberian at 60@80c, and Early Fortune about 75@90c. Mustard about 75c@$1 00. Buckwheat was unchanged; quoted at $1 20@1 25 for good milling

HOG PRODUCTS—Trade was moderate in a speculative way in Hog Products, and the undertone to the market was a little stronger. Offerings were not very large, and the demand was only fair. Hogs were in good supply, and prices favored buyers. Receipts at the leading Western packing points were estimated at 61,300, compared with 56,500 one year ago Foreign markets were quiet and easy, and prices were reduced 6d on Backs Domestic markets were quiet. Receipts of Products were liberal—of Lard and Meats about 31 cars Shipments were fair—of Lard and Meats about 134 cars. Outside speculative orders were light, and local trading was moderate Prices were advanced slightly on the leading articles, and the appreciation was fairly well supported to the close Trading chiefly in January and May contracts Inquiry on shipping account was moderate, and offerings were only fair A few trades were made, and prices were without material change. Exports for the week, compared with the corresponding week in 1903, exhibited an increase of 21 boxes Meats, and decreases of 350 brls Pork, and 1,868 000 lbs Lard.

Mess Pork—A fair speculative business was transacted in Mess Pork, and the feeling in a general way was stronger. Offerings were not very large, and the demand was fair. Market opened rather easy, and prices were about 2½@5c lower Later, the feeling was stronger, with fair miscellaneous buying, and prices were advanced 15@17½c. Toward the close, the feeling was not quite so strong, and prices receded 2½@5c, but rallied again, and the market closed rather steady. Shipping demand was light, and offering were moderate. CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Oct 25.]

United Kingdom—The recent rains have been well received by our agriculturists. The land is working well for Wheat sowing, although in many parts it is still hard a short distance below the surface, and a substantial increase in the area under the premier cereal in the United Kingdom is still looked for. Some fields which have been ruled rather easier for native Wheat, but on the whole prices have been well maintained; the demand for seed Wheat continues to be a feature on the various markets, and farmers are willing to pay high prices for suitable lots, as much as 38s per quarter having been mentioned, while choice lots of milling Wheat still command 34s to 35s. Complaints continue to be made of poor yields from the threshers.

Russia—The country generally has had good rains, and some districts in the South and Center; these drouthy districts include the Crimea, the Odessa district and parts of the Southeast. Seeding and crop reports are mostly satisfactory. It is confirmed that recently arrivals at the ports have been on a smaller scale, but latest advices do not make much mention of this matter. Exports are on a smaller scale, but the quantities are still liberal and, of course, are likely to continue so till the Azoff ports finish for the season.

Roumania—Brailla reports fine autumn weather with rain at intervals, but it is getting some-what colder. Plowing and sowing are nearing completion, and where the Wheat is above ground the fields look splendid. Corn is being gathered, but it is a very poor crop. Arrivals at the ports are quite moderate, but not so small as might be expected—Brailla had 560,000 bu last week.

Austria-Hungary—The weather is seasonable and crop reports continue favorable.

Australia—Further beneficial rains have been reported and the weather is favorable for crops. Estimates of likely yields continue to increase in low figures, one cable giving the surplus at 25,000,000 bu of just about one-half of the surplus from the last crop.

Argentina—General rains have been reported, and crop reports continue favorable Shipments are well maintained.

India—The seeding of the new crop continues under favorable conditions. Shipments last week were large, but indications point to smaller quantities in the near future

France—Fall seeding generally continues to make satisfactory progress, but there is some mention of drouth in Central departments. Trade on French inland markets is quiet, and although farmers offer but little, prices have further receded about 6d per quarter It is expected that offerings will increase with the approach of St. Martin's Day, when many payments have to be made.

Spain The weather is favorable for seeding, but more rain is wanted.

Belgium and Holland—Seasonable weather is reported.

Germany—The official mid-October crop report for Prussia put the condition of the new seedings at a high figure, and private advices continue of favorable tenor. It is considered that in some parts the Potato crop has turned out better than expected, but this notwithstanding, there is a big deficiency in the total yield of tubers. Low water in the rivers continues to hinder interior navigation and makes business dull

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 2? to 30; clear. Northwest—Temperature 26 to 38; clear. West—Temperature 28 to 40; clear. Southwest—Temperature 36 to 46; clear. Ohio Valley—Temperature 32 to 38; partly cloudy.

Weather forecast for 36 hours: Fair and slightly cooler for all States, except Upper Michigan partly cloudy, possibly snow flurries, and Lower Michigan partly cloudy, possibly showers

ITEMS OF GENERAL INTEREST.

George C. Munger of Syracuse was, Thursday, appointed receiver for the Royal Templars of Temperance Supreme Council. The liabilities of the order are placed at $265,000 and the assets at $52,000.

The Grand Council at Constantinople reports that the harvest of Turkey in 1904 can be recorded as a good average, but there are wide variations between the crops of different parts of the empire.

The directors of the National Transit Company will meet next Thursday to act on dividends. The usual quarterly payments of 1¾ per cent on the preferred stock and of 1 per cent on the common stock will doubtless be declared.

A Chicago marine insurance agent says the number of total losses this year has been comparatively small, but that damages to vessels have been quite as numerous and the aggregate proportions than during any season of recent years.

At the annual meeting in Parsons, Kan., Wednesday, of the board of directors and stockholders of the Missouri, Kansas and Texas Railway a supplement to the first refunding mortgage of $40,000,000 of bonds recently authorized was ratified and confirmed.

According to official returns, Germany imported for home consumption in the period Aug. 1 to Oct. 15 12,250,000 bu Wheat and rye, and 14,000 bu, the net import being thus 11,016,000 bu, compared with 13,104,000 bu in the corresponding period of last season.

A telegram from Portland, Oregon, says: "It is asserted in railroad circles in this city that E. H. Harriman has purchased the Columbia Southern Railroad, running from The Dalles to Shaniko, a distance of seventy miles. The price paid is said to be $1,400,000."

The plan for the amalgamation of the Pere Marquette with the Cincinnati, Hamilton and Dayton provides for the retirement of the $5,514,000 present preferred stock and exchange of the $14,125,500 of the common stock into Cincinnati, Hamilton and Dayton securities.

The *Corn Trade News* of Oct. 24 says "Seeding has made good progress in Germany during the past week, and the appearance of the new crops, where above ground, is satisfactory. It is expected the plant will start the winter in good condition, provided hard frost does not set in too early."

Dornbusch's Odessa corresp-ndent, writing under date of Oct. 22, says: "We understand enormous stocks of Grain have accumulated at Nikolieff, so much so that it is impossible to find warehouse accommodation for all of it. At the same time it is difficult for shippers to combine business with abroad, as the Azoff continues to undersell our shippers."

The strength shown in the market for Tennessee Coal and Iron, Colorado Fuel, and Republic Iron and Steel stocks, Friday, was accompanied by a report that the plan for reconsidering the United Steel properties would be taken up after the election. It is suggested that the United States Steel Corporation may take over the combination after it is formed.

The *Corn Trade News* of Oct. 26 says: "Paris advices confirm that, although the agricultural situation in France is generally favorable, some districts are suffering grossly from prolonged drouth. These districts are fairly important ones in the Southwest and Centre and the ground is so dry that even where it has been possible to prepare the land, growers are afraid to put in the seed."

The *Corn Trade News* of Oct. 26 says: "Our correspondent at Budapesth writes that with very favorable weather the new Wheat crop is developing splendidly. The recent rainfall has done much good to pastures and greatly improved the situation as regards feeding stuff. Corn has ruled very firm, but Wheat early and declining on a dull Flour trade, large supplies and growing stocks."

A Pittsburg dispatch says: "An announcement of a reduction in the prices of rails for next year's delivery is expected shortly. The price will positively be fixed at $28. Until within a few days there has been no sign of concession on the part of the Steel interests, but it is now conceded in influential quarters that a reduction in price is necessary. The railroads for months have withheld orders and the American makers are face to face with foreign competition under the present trade conditions."

The average price of good Beef Cattle at Chicago a year ago the past week, said the *Drovers' Journal*, Saturday, was $4.40 to $4.60, while at the close of the previous week, being the lowest weekly average—during 1903—from the second week of February, a period of nine months. The average price the third week of last December was $4.30, the lowest of the year. Conditions this year, however, are reversed, many dealers being of the opinion that the highest weekly average for 1901 will be reached before the close of next month.

Stockholders of the Western Telephone Company who are acquainted with the improving condition of that company anticipate the placing of the preferred stock upon a 6 per cent basis. It is claimed that up to Sept. 1 this year the earnings of the Western Telephone Company in the State of Texas alone amounted to 5 per cent on the preferred stock. The high price received for Cotton by the farmers is somewhat responsible for this condition of affairs. It is noted that banking interests identified with the American Telephone and Telegraph Company have been steadily acquiring the common stock of the Western company.

LIVE STOCK MARKETS.

HOGS—Estimated receipts for the day, 13,000. Quality not so good. Left over, 2,766. Market rather active and feeling firmer. Prices about 5c higher. Sales ranged at $4 60@5 00. Pigs, $4 75@5 10 for light, $4 60@4 85 for rough packing, $4 80@5 20 for mixed, and $4 90@5 15 for heavy packing and shipping. Bulk of sales at the trading at $4 90@5 10 for fair to good averages.

ELECTION DAY.

To-day being Election Day, there was no session of the Butter and Egg Board.

STREET PRODUCE MARKETS.

BUTTER—The receipts at Chicago (not including through shipments) for the days mentioned, were as follows:

	This week.	Last week.	Last year.
	Tubs.	Tubs.	Tubs.
Monday.....	4,124	5,207	5,005
Tuesday.....	*	4,702	4,835
Totals.....	4,124	9,909	9,840

*Election Day.

The market is ruling very firm and higher prices were generally asked than quoted. Everything in the line of fresh Butter is being taken up, and to supply the consumptive requirements storage goods are being drawn upon liberally. The demand is also active for home consumption, but outside orders are being received and taking a fair portion of the offerings. The make is falling off and the receipts show a further decrease.

Extras in Creameries in good demand and scarce. Many are firm and quoted at 26c.

June Extras in fair demand and salable at 24c. Some lots held a shade above.

Firsts in Creameries quotably 20@24½c. Offerings moderate and there is a fair demand.

Seconds in Creameries are quiet and quotable at 18@19c.

Thirds in Creameries quotable at 12½@18c.

Imitation Creameries in ample supply and in light demand. Quotably about 15c.

Process Butter (renovated) is quotable at 15@16c per lb.

Ladles are quiet. Offerings moderate. Demand light. No. 1 quotably about 18c.

Dairies are in only fair supply and selling well. They are holding firm. Extra makes are quotable at 20c. Firsts are quotable at 18c. Seconds or such goods as run over and not of uniform color are quotably 17c.

Packing stock in fair supply and in good demand. Quality varies considerably. For choice, sweet, solid stock buyers are paying 13½@18½c, but cheesy stock and that nearly rancid with moldiness. Butter in paper-lined barrels brings a premium.

BEANS—There was a firmer market for Pea Beans and prices were 5c higher. Offerings were small. Receipts were very moderate due to the late shutting down of the mills. Red Kidneys were reported as nominal. California Limas were firm and higher. Quotable:

Pea Beans.

Hand-picked, new, good to choice..$1 82 @1 84
Of color.....1 74 @1 80
Mediums—none offered; are nominally about to be under Pea Beans.
Red Kidneys, per bu, as to quality..2 25 @2 80
Limas, California, per 100 lbs.....5 00 @5 12½

CHEESE—There is a little better tone to the market. Trade for American makes has revived somewhat. The market East also shows a tendency to react from late heaviness, and this has a strengthening influence. It is said that recently some fair lines have been purchased East to come this way.

Special lines are in a fairly healthful state. Demand for Swiss Cheese, both block and drum is fair, and they are firmly held with supply in each case ample—Limburger are selling fairly well with a good stock and a steady market. Demand is good for Brick Cheese and supply is only moderate. A firm market quotable.

*Election Day.

There is a firm feeling and the market is in a satisfactory condition. Fresh lots are showing decided strength and storage Eggs are sympathizing some. For fresh-laid Eggs the demand is good and receivers are speaking with encouragement, notwithstanding prices appear high. Local buyers want fine graded stock, and the offerings which are received are also primarily for fine Eggs, so that receivers find sales easy to be made. The under grades, or the miscellaneous lots coming, are containing a good many stales and shrunken Eggs, and as some lots are good and some are poor, the price varies and depends on the quality. Storage Eggs are coming out a little more freely.

Fresh Eggs at mark, as received, cases returned, cover a wide range and are quotable at 16@19c per dozen, depending on quality. The price depends on how many bad Eggs are in a case.

Fresh Eggs at "mark," general receipts, new cases returned, candled, guaranteed, and shipping cases included at 16@16c, depending on quality.

"Firsts" are quotably about 21c. This classification is for fresh Eggs candled and packed in new white wood cases, unless otherwise specified, shall be reasonably clean, of good average size, and shall contain 90 per cent fresh, reasonably full, strong, sweet Eggs, from May 15 to Feb. 15, and 85 per cent thereafter, the rest to be reflective in strength and fullness, but must be sweet. There may be a total average loss of two dozen per case, but if the loss exceeds this amount by not over 50 per cent the Eggs shall be good delivery upon allowance of the excess.

"Extra Firsts" are quotably 23½c per dozen. To meet this classification the Eggs must be fresh candled, packed in new white wood 30-dozen cases, unless otherwise specified, shall be reasonably clean, of good average size, and between May 15 to June 15 and Oct. 15 to Feb. 15 per cent of fresh, reasonably full, strong, sweet Eggs; the balance, other than the loss, may be decective in strength and fullness, but must be sweet. There may be a total average loss of two dozen per case, but if the loss exceeds this amount by not over 50 per cent the Eggs shall be good delivery upon allowance of the excess.

"Extra Firsts" are quotably 23½c. This is a very high grade of Eggs, put up by some of the city merchants to meet the requirements of a particular high class of trade, and which, even through a good many cases to get one case up to this stand ard, as nothing but large, full, strictly fresh-laid Eggs are taken.

Dirties in good supply and demand light. Quotably 14@15c—some shall contain 16c per doz.

Seconds, including small, shrunken and dirty and cracked, not leakers, quotable at 11@13c per dozen, depending on quality.

Refrigerator Eggs offered quite freely, and 18c was bid.

FRESH FISH—Receipts of inland lake and river Fish small. All kinds are salable, but Bass and Pickerel are in choice demand. Sucker, known as a common Fish, and they not only row but always rule dull.

The best case of Bass those of medium size are preferred; large do not sell so well, the reason being that the very large ones are not as desirable as those of medium size, being easier to serve a whole Fish, and the large ones are too large to serve—they don't care to serve half a Fish. For this reason the large ones, no matter its weight, are hard to sell.

Pike, Bass and Pickeral will sell at all times. Carp, Buffalo and Suckers are always dull. Perch of good size will sell. Sun Fish are slow sale.

Black Bass under 1½ inches in depth at girth should not be sent to market; the State laws prohibit the marketing of Bass smaller than this. They are liable to confiscation.

The quotations given are for small lots received to be sold from commission houses. Quotations do not represent the prices obtained by the regular Fish houses.

GAME—Wanted.

GAME—SNIPE AND PLOVER—The season for selling Snipe and Plover killed in this State or any other State which has no prohibit exportations is September 1 to May 1.

WOODCOCK—The season for selling Woodcock killed in this State is from August 1 to December 1.

DUCKS—Can not be killed in this State for market purposes. Ducks killed in Illinois and other States which allow exportation can be sold until February 1.

Game coming from Mississippi can be sold here from October 1 to February 1, there being no prohibitive export law in that State.

Receipts light, with moderate supply and meeting with moderate demand.

POULTRY—Live—Was quotably unchanged. The offerings were not large, but there was a good supply on sale. There were only three cars and part car received by freight, and express runs fair.

Live Turkeys, both old and young, continue to sell well. Receipts were fair and offerings not so large as yesterday.

Live old Chickens were in fair demand, and spectators again likely to clean up the stock not taken by the home trade.

Live Spring Chickens in good demand and in good supply.

Live Ducks in good demand and in fair supply. Live Geese in moderate demand, and the receipts were larger.

POTATOES—Arrivals by car loads compare as follows:

	This week.	Last week.	Last year.
Monday	109	190	56
Tuesday	16	45	29
Total, 2 days	125	235	75

Only a moderate interest was taken in this market. About the usual number of buyers were out but they were rather indifferent about taking hold. Arrivals were small, but supplies on track are ample. The few sales made at previous prices.

Quality of cars was not pushed as hard as usual, yet a good many were cleaned up. That prices have held so remarkably well under the heavy arrivals of late is due to there being down to a point where the trade is willing to load up, knowing there are no prices as yesterday, most of the Rurals selling at $1@35c.

SWEET POTATOES—Supply fair of Jerseys. They were not selling with satisfactory readiness. An easy tone being proved, but prices not shaded any. Not so many Virginias offered, but enough of them, and they were not selling very well. Illinois sweets was the same way, slow trade, and supply good. Some Illinois show low.

TAME PIGEONS—The receipts of old Birds are fair and the demand moderate. Prices unchanged.

Squabs sell well and the receipts are fair. Those just coming are poor. The best fetch fancy prices, the most desirable. They are fatter before they commence to fly. However they should not be taken from the cote, they must be feathered to make a good appearance.

VEAL—The market was steady and unchanged. During the morning a little inquiry sprung up, but later there was hardly any trade. The receipts were moderate.

Common receipts were some coarse, rough carcasses, and these were difficult to sell and ranged down to—

200@300 lbs weights	@ 5½

Bouquets, per bunch	50@2 75

PINEAPPLES—The market was quoted steady for choice to fine stock, and rather weak for anything "off."

Trading fair in a jobbing way and in a small way from store, at the same time car lots are a little firmer at this time of the year.

Bulk Apples when choice and varieties kept separate meet with a fair demand, but common lots and culls are easy. Latter are a year ago. Quantity of stock in sight in the East is said to be large.

Common, scabby stock in barrels is hard to sell. Such Apples are usually faced with the best and run poor through the barrel. Dealers do not care for them, preferring bulk stock, and the best trade will not have them. It really does not pay to pack and ship such stock.

Some varieties have had their run and are now practically out of the market. Among these are Jonathan, McIntosh, White Wealthy and St. Lawrence.

The market is very well supplied with Western box Apples. They are usually of good quality, but meeting with a moderate demand.

Values were quotable as follows:

CRAB APPLES—Rule very dull. An occasional inquiry for really choice appears. Offerings are small, but the bulk of the fruit is of exceptional buyer cares for. For overripe, meaty stock holders are ready to take a bid when they could not. It is better to do this than to permit stock to remain and spoil.

Dornbusch's Odessa correspondent, writing under date of Oct. 22, says: "We understand enormous stocks of Grain have accumulated at Nikolaeff, so much so that it is impossible to find warehouse accommodation for all of it. At the same time it it difficult for shippers to combine business with abroad, as the Azoff continues to undersell our shippers."

TO SHIPPERS OF LIVE POULTRY.

Commission merchants would like to call attention of shippers to a few points. Shippers should see that the coops are in good condition before using, so that they are not liable to come apart while in transit, as they are roughly handled sometimes. The coops should also be high enough to allow whatever kind of Poultry is shipped room enough to stand up. Low coops should not be used, it not alone being cruel, but a great deal of Poultry is lost every year by suffocation. For Turkeys higher coops than for Chickens should be used.

Filling of Coops—Coops may be loaded heavier in cold than in hot weather. Do not overcrowd the coops. Putting too much stock in a coop at any time is wrong, but in hot weather especially do not crowd too much stock into a coop. This should be carefully attended to in order to prevent any more shrinkage than possible. Coops often arrive with a good deal of dead stock. Do not blame the commission merchant for heavy shrinkage or Poultry smothered in transit through carelessness in overcrowding coops.

In hot weather do not put more than 100 lbs of live old Hens in a regular coop; in cold weather about 120 lbs in regular size coops. Of Spring Chickens, when small about 50 to 60 lbs and large 70 to 90 lbs.

Keep different stock seperate as much as possible. If a shipper has sufficient stock to fill coops, it is best to ship the Hens, Spring Chickens, Roosters, Turkeys, Ducks and Geese seperately. Of course, if a party has not enough stock of each kind to fill a coop seperately, mixed coops can be sent.

Spring Chickens weighing less than one pound should not be shipped as they become a drug on the market. Pound and one-half to two pound Chickens sell best, and later in the season over two pound weights are preferred. In the early Spring, when Chickens first come in, some small Chickens will sell, but as soon as Chickens begin to be plentiful, then the small ones are not wanted. Later in the summer, when Chickens are bought to place in freezer, one and a half pound to two pounds are preferred, so take it the year round, two-pound stock, or as near to two pounds as possible, sells best.

Attention is also called to the fact that dark-feathered Ducks are not as desirable as the white-feathered, chiefly for the reason that they do not dress out as white and clean as the white-feathered stock.

Poultry should be shipped so as to arrive on the market from Tuesday to Friday. Receipts generally increase toward the end of the week, and there is enough carried over stock on hand Saturday to supply the demand. Merchants, rather than carry stock over Sunday, would sell at a sacrifice, as the stock, when in coops, loses considerable in weight by shrinkage, and does not appear fresh and bright. Besides Monday is usually a poor day to sell Poultry.

Tags with the name of the commission merchant and the shipper should be tacked on the end of the coops. Tack two tags, one on each end, so that if one gets destroyed the other is likely to remain all right.

Never tack the tag on the tops of the coops.

Be sure and write your name and address on the tag. Your name alone, or the town alone, will not be sufficient, as the commission merchant receiving your shipment could not tell to whom or where to send the pay for the stock.

WEEKLY MOVEMENT OF FLOUR AND GRAIN.

The following table, compiled by the DAILY TRADE BULLETIN, shows the movement of Flour and Grain for the week at the points mentioned. Some allowance should be made for duplications:

ITEMS OF GENERAL INTEREST.

During October the Iron mines of Minnesota shipped 2,534,292 tons of ore, against 1,824,255 tons the same month last year.

The business section of Duenweg, Mo., a mining town, was almost totally destroyed by fire, Tuesday, entailing a loss of $85,000.

Secretary Hester's amount of Cotton brought into sight for the week is 590,459 bales, against 583,795 bales last year, and 482,173 bales in 1902.

For the purpose of adjusting the rentals, etc., of the company the books of the West Chicago Street Railway Company will close Nov. 5 and reopen Nov. 16.

The selling of Pennsylvania, Tuesday, after the declaration of the regular dividend was accompanied by a revival of reports of a coming issue of $50,000,000 of new stock.

The Niles-Bement-Pond Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable Nov. 15. Books close Nov. 8 and reopen Nov. 16.

Application has been made to the New York Stock Exchange by the Colorado Southern Railway Company to list $300,000 additional first mortgage 4 per cent bonds of 1929.

The city comptroller of Rochester, N. Y., has awarded the $100,000 eight-month local improvement fund notes to the Security Trust Company of Rochester at 4.35 per cent discount.

The St. Louis and San Francisco Railroad Company has declared the regular quarterly dividend of 1 per cent on its second preferred stock, payable Dec. 1. Books close Nov. 18 and reopen Dec. 2.

The City of Toledo has awarded $100,000 4 per cent ten-year natural gas refunding bonds to the Union Savings Bank and Trust Company of Cincinnati at par, accrued interest, and $1,761 premium.

Close associates of the controlling interests in Rock Island say the plan to refund the bonded and floating debt of the company is now in such shape that an official announcement may be made at any time.

Traffic on the Chicago and Oak Park Elevated during October compared favorably with that on the South Side Elevated and Metropolitan Elevated. A decrease of only 3.14 per cent in the total traffic was shown.

President Ripley said the Harriman and Standard Oil interests would not be able to secure control of the Atchison even should they desire to do so. "We have that matter fixed," said he, "and will be able to retain control."

The contract for another steamer of the largest class, to be built by the American Ship Building Company for the Niagara Transit Company, was announced, Tuesday. The new boat will be of 10,000 tons capacity and will cost $410,000.

Justice McCall, in the Supreme Court in New York, has signed an order for the sale of the property of the Compressed Air Company in a foreclosure suit by the Morton Trust Company. The total mortgage, including interest and costs, is $373,683.

The Federal Sugar Refining Company has issued a notice to the stockholders that in order to increase the working capital of the company stockholders are given the privilege of subscribing pro rata on or before Nov. 10 for preferred and common stock on the basis of $1,000 for every ten shares of preferred and five shares of common stock outstanding.

Eugene H. Angert, attorney for August E. Brooker, cashier of the Manchester Bank, Monday, filed papers in a suit in the Circuit Court at St. Louis, against nineteen directors and promoters of the Title Guaranty Trust Company, seeking to compel the payment into the company's treasury of $485,600. The company is named as co-defendant. The Title Guaranty Trust Company, capitalized at $2,250,000, practically controls the title investigating business of the city. The object of the suit is to compel the defendants to turn into the treasury of the Title Guaranty Trust Company the amount the plaintiff declares was acquired by the defendants at the time of the organization of the company in Febuary, 1901.

The Winnipeg correspondent of the *Northwestern Miller* under date of Oct. 31 says: "The weather in Manitoba and Assiniboia has improved very much. While we had some rain in the Red River Valley last week, the rest of the country had a fine week, and great progress was made with threshing. Travelers say that they have never seen the country roads in better shape than they are in at present, and they pronounce last week's weather the finest we have had this year. The effect of this good weather upon the Grain movement will begin to appear at once. There should be a large increase in farmers' deliveries this week."

The New York *Commercial*, Thursday, printed the following as an "official" statement direct from a member of the Standard Oil family: "If nothing unforeseen happens, the tendency of stocks will continue upward. Of course, many securities have been pushed up beyond their intrinsic value, but this is quite natural in a 'bull' market, such as has been experienced in the last few weeks. There are many gilt edged stocks that are netting the investor a very large income, and it would be quite natural if these securities were taken in hand and forced to higher prices. As to Gold exports, they will not reach alarming proportions. Indications are that money rates will continue easy for several months to come."

Agricultural Gazette of Oct. 24 says: "Dull, misty, and mild weather prevailed last week, although not unrelieved by sunshine on some days, and rain fell on two or three occasions, sufficient in quantity to soften the land for the plows. Wheat-sowing has made good progress, although delay has been caused by the carting of mangels. There has been no trouble to cover the seed well with a minimum of horse labor, and the newly sown fields present a very neat and satisfactory appearance, while pieces drilled early have come up well. Threshing reports continue to be generally unsatisfactory, the yields of Wheat, Barley, and Oats alike being commonly described as disappointing. The worst accounts come from some of the greatest Grain-growing counties."

Official announcement was made, Wednesday, of the issue of bonds for $75,000,000 by the Erie Railroad to purchase the Cincinnati, Hamilton and Dayton, Pere Marquette and Chicago, Cincinnati and Louisville Railroads. J. P. Morgan & Co. took them all. It is stated that the recently merged Cincinnati, Hamilton and Dayton-Pere Marquette lines were acquired on a basis of $125 a share for the new preferred stock of the Cincinnati, Hamilton and Dayton. In addition, this will cover the purchase of the Clover Leaf line. The requirement of these systems will put the Erie, so far as traffic advantages are concerned, on a parity with the Pennsylvania and New York Central lines. It is said the Morgan interests acted in opposition to the Harriman interests. Two years ago Harriman was a heavy holder of Erie securities, but he quietly disposed of the bulk of them to protect his other investments. It now appears that all were quietly picked up by the Morgan interest.

The Chicago *Inter Ocean* says: "Some of the private wires, Thursday, brought a message from New York to the effect that efforts were being made there to form a protective committee in the underlying stocks of the Corn Products Company, with the object of securing more facts regarding the earnings and operations of the subsidiary companies. No verification could be obtained locally of the story. Apparently the only possibility of creating a stockholders' committee exists in the Glucose Sugar Refining Company, since the stocks of the other subsidiary companies are practically all held by the Corn Products Company, with the exception of the New York Glucose Company, only 49 per cent of the stock of which is owned by the Corn Products Company. Some talk has been heard before of a legal attack by hungry stockholders of the Glucose company, but the matter, if there was any truth in the story has been very slow to develop."

ITEMS OF GENERAL INTEREST.

New York Exchange par.

Documentary Sterling steady at 482½.

Chicago Bank Clearings to-day, $44,310,687.

Ten packers purchased 15,900 Hogs to-day; shippers, 4 000; left over, 6,000. Market closed weak.

Reported that 24,000 bu Wheat, 80,000 bu Corn and 50,000 bu Oats were taken at the seaboard to-day for export.

Average cost price of Hogs at Chicago, Tuesday, was $4 97, against $4 91 Monday, $4 90 a week ago, and $4 66 a year ago.

Estimated receipts for to-morrow: Wheat, 72 cars; Corn, 151 cars; Oats, 161 cars; Rye, 4 cars; Barley, 68 cars; Hogs, 27,000.

The visible supply of Wheat in South Australia and Victoria on Nov. 1 amounted to 3,160,000 bu, compared with 4,720,000 bu a month ago, and 920,000 bu at this time in 1903.

The receipts of Wheat at Liverpool during the past three days were 864,000 bu, of which none were American. Receipts of Corn, 176 000 bu, of which none were American.

Cotton in New York advanced at the start, but sold off. Liverpool closed barely steady. Port receipts were 52,000 bales, against 65,000 bales last year. Closing prices were 12@13 points lower.

Changes in *Bradstreet's* Wheat stocks last week were: Increases—Manitoba, 554,000 bu; Port Huron, 155,000 bu; Northwest elevators, 100,000 bu; Omaha, 70,000 bu; Rochester, 65,000 bu; Milwaukee, 56,000 bu. Decreases—Louisville, 183,000 bu; Chicago private elevators, 74,000 bu.

The Government report will be issued Thursday afternoon at 4 P. M., Washington time. Agricultural Department announces that it will give the average yield per acre of Corn shelled, also Buckwheat, Potatoes, Sweet Potatoes, Hay, Tobacco, Flax Seed, Rice, quantity of Corn, Buckwheat, Irish and Sweet Potatoes, Hay, Tobacco and Flax Seed, and percentage of old Corn on hand.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.		1903 bu.
Wheat east of Rockies	Inc 2,537,000	Inc.	5,806,000
Europe and afloat	Inc. 4,000,000	Inc.	1,600,000
Total	Inc. 6,537,000	Inc.	7,405,000
Corn	Inc. 1,178,000	Inc.	607,000
Oats	Inc. 780,000	Inc.	307,000

Local Securities were actively traded in, with Can the leader. It was bought on Eastern orders, presumably by the same interests that are bulling Steel shares in Wall Street. Over 15,000 shares were handled. Common advanced 2 and preferred 4⅝, but both reacted fairly from the top. The market in general advanced fairly and held the greater part. Exceptions were Biscuit preferred, Swifts and Metropolitan Elevated preferred, all losing ½.

Stocks in New York were excited, with heavy trading. The election settled, the "bulls" fresh courage, and created a general wish to buy. Advances were extensive and were taken advantage of by a few of the leading "longs" to get profits. Steel was bought by Rock Island interests and advanced 1½ but lost part. Western Railway shares advanced 1 to 5⅜, the latter on Northwestern. Erie gained ¾ to 1¾. Reading 2½, Copper 1¼, Sugar 1½, Tennessee Coal 2¼. Money 2¼ per cent.

Broomhall's weekly report of foreign crops was as follows: "United Kingdom—Beneficial rains have fallen. A good increase in the acreage is confirmed. France and Spain—Rain wanted. Germany—The winter crops are developing satisfactorily. Austria, Hungary and Roumania—The crops have started well. Prospects are excellent. Russia—In the Southwest good rains have fallen, but temperatures much lower. The Southwest has been visited by sharp frost. India and Australia—News is favorable. Argentine—Rainy, unsettled weather prevails."

The Winnipeg *Commercial* of Nov. 5 says: "A favorable feature of the situation is the rapidity with which the crop is being handled. Despite the fact that the harvest was about two weeks later than last year, the railway reports show that not much over half a million bushels of Wheat less than last year's amount was handled up to the end of last month, or to be exact, 652,000 bu. This is hustling at the time when hustling is needed, and considered in connection with the measures taken by the Government to prolong the season of navigation, will mean a big saving to the West in freights, as well as getting the crop out of harm's way sooner. The grading of the Wheat as shown by these reports compares favorably with last year, especially considering that wet weather during the first part of threshing was the cause of considerable quantities being damaged."

WORLD'S SUPPLY OF BREADSTUFFS.

The following table shows the supplies of Breadstuffs afloat for Europe and in store in Europe and Argentina on the dates named:

	Bu. Nov. 1, '04	Bu. Oct. 1, '04.	Bu. Nov. 1, '03.
Afloat for Europe	35,370,000	38,140,000	30,990,000
In store in Europe	67,630,000	54,930,000	61,820,000
In store-Argentina	2,464,000	3,325,000	1,584,000
In store-America	79,697,000	60,474,000	69,998,000
Total	185,161,000	156,864,000	164,392,000

The increase during October equalled 28,292,000 bu, compared with an increase of 31,592,000 bu during September, and an increase of 23,458,000 bu during October, 1903.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Buyers are still holding off awaiting millers action in shading prices. Trade dull and wholly domestic.

WINTER WHEAT—The market for cash Wheat was dull. There were only small offerings and likewise little demand. Trade very slow. No 2 Red in store quotably $1 15¾@1 17 and fresh arrivals free on board sold at $1 17. No. 3 Red fresh receipts free on board sold at $1 08@1 14. No 4 Red fresh arrivals sold at $1 06@1 10. No Grade Red sold at $1 02. No 2 Hard fresh arrivals free on board quotable at $1 11@1 14 and No. 3 Hard at $1 03@1 12. No 4 Hard sold at the river at $1 03.

SPRING WHEAT. Very little doing and the market was dull. No special change in prices. Choice Wheat was held steadily, but poor Wheat was dull. No 1 Northern fresh arrivals free on board quotable at $1 16@1 19. No 2 Northern fresh arrivals free on board quotable at $1 10@1 15. No. 3 Spring fresh receipts free on board quotable at $1 00@1 12 for poor to choice, with sales at $1 03@1 05. No. 4 Spring sold at 60c for poor up to $1 00 for hard variety.

REGULAR WHEAT. This market was helped by Corn and closed ⅝@1c higher for the day. The cash demand was not good by any means, the seaboard reporting only 3 loads for export. St. Louis reported Indiana and Ohio millers buying Wheat there in a small way. Kansas City advices indicated strength in the cash market there. Wheat was irregular and unsettled, and while the changes were continuous, they were at no time violent. The news from the Southern hemisphere cut quite a swath in the price-making, and had more influence in the demand and offerings than anything else that found its way into the big trade mart. The first cable from Rosario spoke of the unfavorable weather down there. There was some Wheat bought on this. Another cable from Rosario said that the weather was improving. Wheat was sold on this. One of the causes for an exceptionally nervous feeling was that the trade believed that a large elevator concern was a buyer on the soft spots. Dry weather and Hessian fly reports were numerous from the Southwest and caused some Wheat to be purchased. A message from a prominent Kansas handler said: "Just returned from a ten days' trip through Oklahoma and Southern Kansas. Wheat needing rain, but still in fair condition. Fly damage small. Eastern Oklahoma in fair condition. Western Oklahoma and Kansas dry, and damage probably one-fourth and will increase until rain. Fly damage not determinable until spring." The world's available supply of Wheat showed an increase of 6,537 000 bu for the past week, compared with an increase of 3 691,000 bu the week before and an increase of 7,406 000 bu a year ago. Cables were unsettled and irregular. Liverpool closed ⅛d lower to ⅛d higher. London ⅛d higher. Paris unchanged to ⅛c better. Spot Wheat at Liverpool ½@1½d higher. Buda Pest 2½c higher, while Berlin was ¼@¾c lower. Antwerp was unchanged. There was an increase in local contract stocks of 5 989 bu for the past week. The total is now 1,408,-412 bu, compared with 1,174,193 bu a week ago and 1,127,000 bu a year ago. While the *Broomhall* crop review as received by cable was not all rosy, the majority of the countries showed improved conditions. The DAILY TRADE BULLETIN monthly report shows an increase in the world's available supply of Breadstuffs during October of 28,292,000 bu, compared with an increase of 31,892,000 bu during September, and an increase of 23,458,000 bu during October, 1903, rather larger than expected. Receipts at Duluth 608 cars at Minneapolis 1,124 cars, total of 1,732 cars, against 1,163 cars Monday, 588 cars a week ago, and 721 cars last year. Local receipts included 51 cars Winter, 20 cars Spring and 12 cars mixed, a total of 83 cars, against 149 cars last year. Included in above were no cars contract grade. There were also 14 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 72 cars. The withdrawals were 4,000 bu. Receipts at Western points were 2,115,-144 bu, against 3,838,959 bu last year. At Eastern points 75,191 bu, against 400,741 last year. Shipments from Western points 898,123 bu, against 1,523,207 last year, and from Eastern points no bu, against 426,935 bu last year. Shipments of Flour were 22,675 brls. Exports of Wheat in Flour were equal to 102,037 bu.

Future Deliveries of Regular Wheat—Good trade and closing higher.

NOVEMBER Entirely nominal.

DECEMBER Sold at $1 12¾@1 13½. Opened at $1 12¾ to $1 13; sold to $1 12¾, to $1 12⅞, to $1 12⅝, to $1 12¾, to $1 12¼, to $1 12⅝@1 12¾, to $1 12⅜, to $1 12⅞, to $1 12½, to $1 13½, to $1 13⅜, and closed at $1 13⅜.

MAY—Sold at $1 11¾ and at $1 12⅞@1 13. Opened at $1 12¼ to $1 12½; sold to $1 12⅜, to $1 12⅛, to $1 12¼, to $1 11¾, to $1 12⅛, to $1 12⅝, to $1 12, to $1 12⅞@1 13, to $1 12⅞, and closed at $1 12⅞ asked.

JULY—Sold at 97⅝@98⅝c. Opened at 98⅝c to 98⅝c; sold to 98½c, to 97¾c, to 98⅛c, to 97⅝c, to 98⅛@98¼c, to 97⅞c, to 98⅝c, and closed at 98⅝c asked.

CORN—This cereal was the strongest one on the list, made so by "shorts" covering and "longs" "bulling" prices. There were advances of ⅝@3c, December leading the advance. The December-May spread was widened materially because of the demand from "shorts" for the December. The seaboard reported 10 loads for export, and the sales here in the aggregate amounted to 225,000 bu. There was a good general trade in Corn and the market showed more or less stubbornness even in the face of a drop in Wheat prices early in the day. Unfavorable weather was reported in some sections of the Corn belt early, but this was changed to a prospective cold snap later. Room traders fought the advance, but their efforts were overcome by a good demand from "shorts." One of the features as well as factors of the day was the buying of Corn by the country and its refusal to sell any great amount of the new crop at present prices. The buying was of better character than the selling. Spot Corn at Liverpool was ⅛d lower to 1¾d higher. Liverpool futures were ⅛@¼d higher. There are now in Chicago elevators 311,-820 bu contract Corn, compared with 1,091,600 bu a week ago, and 1,144,000 bu a year ago, showing a decrease of 280,000 bu for the week before. The New York houses were aggressive on the "short" side and helped to frighten the "shorts." The world's available supply as reported by *Bradstreets* showed a decrease of 1,178,000 bu for the week, compared with an increase of 607,000 bu a year ago. Primary receipts, two days, were 518,000 bu, against 445,000 bu for one day last year. Clearances from the seaboard 180 bu. Local receipts 161 cars with 7 cars contract; 151 cars expected to-morrow. Car lots were in light request and prices about 1c higher. No. 2 sold at 54@56½c in store and closed at 56½c to go in store. No. 2 Yellow closed at 59½c. No. 3 closed at 56c. No 3 Yellow closed at 59c. No 4 sold at 52c for new Yellow. No Grade sold at 48@48½c for new Yellow.

Corn by sample—Was in large supply and the demand was good. The offerings of new are gradually increasing, there being about 125 cars on the market to-day. Prices about 1c higher and closed firm. Sales on track and free on board. No Grade sold at 43@12c. No. 4 at 48@59c. No 3 at 55¾@59¾c. No 3 Yellow at 59½@60¼c. No. 3 White at 52@56c. Ears at 41c. Billed through: No Grade at 45@48½c. No. 4 at 47@57½c. No. 3 at 54¼@57½c. No. 3 Yellow at 58@58½c.

Future Deliveries of No. 2 Corn—Higher and stronger, resting spots showing advances of ⅞@3c for the day. December was the strongest spot of the day on "shorts" covering.

NOVEMBER—Closed at 55½c nominal, with no sales.

DECEMBER—Sold at 49@51¾c. Opened at 49c to 49¼c; sold to 49⅝c, to 49c, to 49⅝c, to 50½c, to 50c, to 50⅜c, to 50¼c, to 50⅝c, to 50½c, to 50⅞c, to 50¾c, to 51¾c, to 51½c, closing with sales at 51⅜@51½c asked.

MAY—Sold at 46⅛@47c. Opened at 46⅛c to 46⅜c; sold to 46¼c, to 46⅝c, to 46⅜c, to 46¾c, to 46½c, to 47c, closing at 46⅞@47c bid.

JULY—Sold at 46⅛@46¾c. Opened at 46½c, sold at 46¾c, and closed with latter bid.

OATS—Were fairly traded in, the best business being in the last hour. Prices advanced ⅛@¼c, with Wheat and Corn and closed at the top. "Shorts" were the best buyers at the last. Stocks of contract increased 117,894 bu and are 3,945,189 bu. Stocks of all grades in all positions increased 34-000 bu and are 9,814 000 bu. *Bradstreet's* available increased 730,000 bu. Withdrawals were 146,600 bu from private and 60,000 bu from public elevators. Arrivals 123 cars and 161 cars are expected to-morrow. Seaboard clearances 8,000 bu. Cash sales here 125 000 bu and at New York 50,000 bu. Car lots to go to store steady to ¼c higher. No 4 White at 29½c. No. 3 White at 30½@31¼c. Standard at 31½c and in store closed about 29¾@30c.

Oats by sample were steady to ¼c higher, with moderate offerings and a fair demand. Sales on track and free on board. No 4 White at 29½@30¾c. No. 3 White at 30¾@31¾c. Standard 31½@32c. BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Nov. 8.]

Wheat—Local conditions have undergone a radical change since our last review, and prices have declined accordingly. The feeling for higher prices at present has once more been shattered, as cargoes abroad have declined, and buying for Eastern account that recently took an upward turn has ceased once more. The main trouble with our Eastern business is the fact that the markets cannot meet the emergency in obtaining cars for. Wheat already purchased and buyers are anxious to obtain what they have contracted for, although new arrangements. Hardly one-fourth of Wheat purchased has been shipped, and the demand for the same is becoming quite urgent. If cars could be secured there would hardly be any Wheat in the interior by March 1. The European buyer is practically eliminated from the market, owing to prices offered and the high prevailing freight rates asked for ships by the shipping combination. Very little can be accomplished in foreign markets. We doubt seriously if the European buyer realizes that over one-third of the crop for export is disposed of, and what remains in the country unsold does not come up to 15 per cent of the entire crop. Farmers have been very liberal sellers at the prevailing prices, notwithstanding a very few are holding for 75c in the country for Club Wheat. Of course, the large farmers are well able to hold on until spring if necessary. Exporters are confining their operations principally to the Eastern trade and some to California; the latter has not been buying freely of late, but there is no doubt that buyers will shortly enter the market again when they find that low prices will not prevail. During the week some sales were made at lower figures than quoted one week ago, and exporters' bids are reduced accordingly. There are free buyers of all suitable parcels and some of them are paying a premium of 4c export figures to secure the same. What the immediate condition of the market will be is a hard proposition, but as long as millers are selling Flour and are paying more for Wheat than exporters, there does not appear reasonable ground for any great decline in values. There are some in the trade who predict that Wheat will sell at $1 00 per bu here before March 1. Bluestem Wheat is getting quite scarce and prices for the same are very firm. Eastern buyers at first called for Club or Red Wheat; now the demand is for Bluestem. We quote for export 86c to 87c for Club, with a premium of 1c for Eastern shipment; Bluestem 89c to 91c per bu; Valley firm on Portland quotation of 87c.

Flour—The combined demand for our Flour from all sources shows no change since our previous issue, and millers are enjoying an era of prosperity. The demand from the Orient is picking up and very few mills can claim that they are without orders. In fact, more Flour has been sold recently for future delivery than for a corresponding past. The interior mills are enjoying a good lucrative trade with Eastern and Southern millers, and report that orders are coming in quite freely, that there is no sign of a let-up. There is some inquiry from the United Kingdom, but prices are not up to a parity of the value of Wheat, hence very little business will be done in that direction. Local millers advance their figures. Better prices can be secured elsewhere. Large shipments of Flour are being made from Puget Sound to New York by the steamship line there, and it is said that Coast millers are figuring on chartering a steamer, if one can be secured, to completely load the same for that market. It is quite evident that the demand has met with favor in the Eastern and Middle West States from the constant demand from buyers who purchased early in the season and are duplicating their orders. The only trouble they are encountering almost as much trouble as the Wheat buyers, in not being able to secure cars for prompt loading. Some very large orders have been secured from Virginia and Tennessee, material lots are going into other States in the South. It is quite evident that our millers will be kept busy until spring and many of them until summer. Fully 300,000 brls of Flour have been purchased for Eastern account and there will be more booked before the end of the year. The demand from California is fair. It would have been better if the mills down there had not purchased heavily of Northern Wheat. But there is no cause for complaint. Central and South America are buying quite freely, and the Oriental circulation that some Flour will shortly go to South Africa. The months of November and December will be quite active for exporting Flour to the Orient, and during the past week over 150,000 brls were reported to China and Japan. We quote export brands $3 60 to $3 75 per barrel; local Straights $3 75 to $4 00, and Patents from $4 50 to $4 75 per barrel.

ITEMS OF GENERAL INTEREST.

A fire, Sunday, at Battle Creek, Mich., caused a loss of $75,000; partly insured.

The Kansas City Stock Yards Company on Nov. 1 resumed dividend payments, paying a quarterly dividend of 1½ per cent.

The Chicago Steel manufacturing plant, Newcastle, Ind., was destroyed by fire, Tuesday. Loss, $110,000; insurance, $34,000.

The October statement of the London Board of Trade shows an increase of $6,790,000 in imports and a decrease of $2,087,500 in exports.

The Brooklyn Union Gas Company has declared the regular quarterly dividend of 2½ per cent, payable Dec. 1. Books close Nov. 12 and reopen Dec. 1.

San Francisco shipments of merchandise and produce to the Orient during October were valued at $1,837,202, as compared with $1,262,395 in the same month last year.

The New York and Queens Electric Light and Power Company has declared a semi-annual dividend of 2 per cent on preferred stock, payable Dec. 1 to stockholders of record Nov. 15.

The Republic Iron and Steel Company, which owns the Indiana Iron Works, with its adjoining tin and steel plate and Muncie Iron and Steel Works, has filed a mortgage at Muncie, Ind., of $10,000,000 in favor of the First Trust and Savings Bank of Chicago.

The superintendent of St. Mary's Falls Canal, Friday, completed the figures showing the traffic through the American and Canadian canals for October. The figures for 1904 are 5,573,309 tons. This breaks the record for freight tons passing through the canals in a single month.

Reports from about thirty-five stations in Oklahoma and Kansas say dry weather in Oklahoma is becoming a serious source of fly in Oklahoma. Southwest Kansas is complaining of dry weather; also a number of fly complaints. Northern Kansas reports say crop is looking fine; rain not badly needed.

A Peoria, Ill., dispatch says: "The Whisky market is demoralized as a result of the war between the Independents and the trust. Despite the action of the Peoria Independents Monday, in putting $1 24 as a bedrock basing price for finished goods, the trust is offering and selling thousands of barrels at $1 23."

The *Grain Trade News* of Oct. 27 says: "There are still some complaints of drouth in France, but the barometer is failing and hopes are entertained that rains will come soon; generally speaking, fall seeding has been done. Many good prospects. Country markets are quiet and easier in spite of small supplies."

For the first time in the history of the Copper industry of the United States Copper is being exported to Japan. The United Metals Selling Company has recently taken contracts for the delivery of 10,000,000 pounds of Copper in Japan and has already begun shipments. The Russo-Japanese war has cut down the output of the Japanese mines and American Copper is filling the void.

The railroads of Chicago and of the country will be compelled to obey the penalty of the new service associations in the federal courts. United States District Attorney Bethea, of Chicago, has sent to the Attorney General the matter of the complaints of the Chicago Shippers' Association against the Chicago Car Service Association with a recommendation that a bill be filed attacking the charter of the organization.

The New York *Journal of Commerce* has decided to replace wooden with Steel ties on its entire system. This is the outcome of a recent conference of officials of the road held in New York City. There was no opposition to the plan. An order for 7,000 tons of the new ties has been placed with the Carnegie Steel Company. Within the next few weeks the New York Central will place a much larger order.

An official of the Standard Steel Car Company, which has completed an all metal car designed for use in the mail service, declares the company will enlarge the scope of Steel cars and will replace Pullmans, baggage, mail, express, and day coaches on many roads. In this new use of Steel, interests identified with the Standard car company hope to create an industry of magnitude. They believe the outcome is certain to be successful.

The Supreme Court of the United States, Monday, upheld the validity of the Wisconsin antitrust law in a test case appealed by the plaintiffs in the alleged Milwaukee newspaper boycott case from the Milwaukee courts. The court's decision was affirmed, it being held that an illegal combination existed with intent to defraud the defendant. The action arose from an alleged business agreement between the *Milwaukee News* and the *Evening Wisconsin*, all published in Milwaukee, whereby advertisers in the *Journal* of that city were refused space.

The National City Bank of New York, in its November circular on United States securities and government finances, says: "The Treasury Department, it is expected, will soon have to replenish its working cash. The balance now held in treasury vaults is roundly $28,000,000. In the presence of an easy money market, with the interior still in funds, and with crop movements, trade and the passing of election day, depository banks may reasonably expect a call for some portion of the public moneys they hold. The logic of the situation clearly favors such a call. The best information obtainable an issue of Panama bonds is still remote."

The *Grain Trade News* of Oct. 25 says: "As an evidence of the remarkable growth of the trade in Wheat with India and the Southern Hemisphere, our attention has been drawn to the fact that the aggregate shipments to these countries already amount to 160,000,000 bu in the 12 weeks of the present calendar year, indicating a total for the 12 months of fully 192,000,000 bu. This is no doubt a remarkable instance of rapid development, but shipment is fully double that of any former year, the nearest approach being 96,000,000 bu in the calendar year 1898. Even as many perhaps be permitted to point out that last January's shipments to the respective aggregate exports of India and the Southern Hemisphere at 12,000,000 bu."

Estimates regarding the French Oats crop fell this year in very varied considerably. Some say that the total average yearly consumption to about 4,368,000 tons.

Earnings of the North Chicago Street Railroad Company for September were $7,000 more than the same month last year, and those of the West Chicago Street Railway Company were $11,000 less, according to the auditor's report, issued Friday. The cost of operating the West Chicago lines was $15,000 more than last year, but a decrease is shown by the North Chicago lines. A deficit of $25,000 appears for the Chicago Consolidated Traction Company, $10,000 of the amount being chargeable to the North Chicago and $15,000 to the West Chicago companies. These deductions cut down the net earnings of the North Chicago Company to about $40,000, and of the West Chicago Company to about $35,000.

Arthur P. Heinze says: "If anybody claims to hold any such option upon the properties of the United Copper Company or my associates, as is claimed from Butte, I can pronounce it an absolute forgery. No such option as is specified was ever given to anybody, and there is to-day no option in existence upon our properties. There are absolutely no negotiations between the Heinze Copper interests and the Amalgamated Copper Company or its representatives in any way, shape or manner at the present time. All talk as going on at Butte and in the newspapers in Wall Street to sell Amalgamated to the lambs. The election of Mr. Clark to succeed Mr. Rogers as president of the Amalgamated Copper Company is an matter of pacification to the Heinze interests is simply ridiculous."

Monthly reports of the railroads continue to show gains in gross and net earnings. Even more gratifying to railroad people in many ways, however, than the increase in gross is the decrease in operating cost. While the gross earnings last year showed almost constant increases over the gross of 1902, the increase in the operating cost was so large as to bring reductions in the net returns from traffic. The aggregate figures of seventy-roads for September show an increase of 2.8 per cent in gross earnings, a decrease of 1 per cent in operating expenses and an increase of practically 10 per cent in net earnings. The reports of the same seventy-four roads for the nine months from July 1 show a loss of 1 per cent in gross, a decrease of 3.5 per cent in operating expenses, and an increase of 1.7 per cent in net earnings.

The Winnipeg *Commercial* of Nov. 5 says: "The trade and commerce department has received from the chief inspector of the Manitoba Grain inspecting district a report showing the total number of licensed elevators and warehouses, with the capacity of each, in his district, for the year 1904 and 1903. In the former years there were 822 elevators and warehouses, with a total capacity of 30,358,440 bu. In the latter years there were 981 elevators and warehouses, with a capacity of 41,160,000 bu. The elevators increased by 158, and the warehouses decreased by 18. There was a gain in capacity of 10,820,560 bu. In Manitoba the Canadian Northern last year had 37 more elevators than it has the present year, and seven less warehouses. The Canadian Pacific Railway had 55 more elevators and six less warehouses. In the Northwest territories, the Canadian Pacific Railway has increased its number by 10, and has five less warehouses. The elevators of both the railways in question at Ontario terminals remain the same. The five Canadian Pacific Railway, one Canadian Northern."

Dornbusch of Oct. 28 says: "A month ago the *Times of Argentina* gave a forecast that, providing all went well with the plant, the coming Flax Seed crop would probably be so big that an export close upon one million tons could be expected. This authority early last season predicted that the Argentine crop would probably not probably exceed the world's normal consumption for a period of twelve months. This opinion has since been fully verified, but it is difficult to reconcile the foregoing quantity with the acreage sown this season, especially as the yield per acre last year was abnormally heavy, and can scarcely be expected to repeat itself this season. A year ago Flax Seed cutting began at the end of October, but this year it is known to be late. The *River Plate Review* regards as absurd the colossal totals calculated on the harvest in question, and thinks the subject had better be left alone for some time at least. Certainly the million tons as a Flax Seed exportable surplus looks to be excessive, and until there is further information available the trade should be skeptical of such a quantity."

The Chicago *Inter Ocean* says: "The era of an entire change in commerce of the great lakes is at hand, and the time has arrived when it will be operated, yet a far greater quantity of freight carried, is rapidly approaching. Already contracts calling for thirty-two monster ships, aggregating the enormous capacity of approximately 600,000 gross tons and a total cost of nearly $12,000,000, have been placed with the various ship yards of the lakes. Practically every berth in which the keel of a new vessel would be laid has been finished between this and next June has been taken, and some of the orders call for delivery of the boat as late as next October. Some of the vessels, says two or three, will register less than 8,000 gross tons, and more will measure 9,000 and 10,000 gross tons. The interpretation placed by marine men on the action of leading owners of the enterprises on the lakes in ordering new craft to the number and size for which the contracts have been placed is that the days of the small Steel and wooden craft are numbered."

Michigan report on Wheat makes the condition 90, compared with 84 one year ago. and acreage 86.

Stocks of Hog Products at Chicago estimated at 31,000 brls Mess Pork, 19,250 tcs Lard, and 6,250,000 lbs Short Rib Sides.

Broomhall cable says: "Bad weather in Argentina has delayed harvest two weeks. Reporting frost in Southwest."

Average cost price of Hogs at Chicago, Wednesday, was $5 02, against $4 97 Tuesday, $4 92 a week ago and $4 69 a year ago

Estimated receipts for to-morrow: Wheat, 31 cars; Corn, 106 cars; Oats, 81 cars; Rye, 7 cars; Barley, 42 cars; Hogs, 20,000.

The Cincinnati *Price Current* reports the packing of the West for the week at 440,000 Hogs, compared with 410,000 for the week previous and 385,000 for the corresponding week in 1903.

Reserve in the Bank of England decreased $1,705,000 and Bullion decreased $3,276,670 the past week. The proportion of reserve to liability is now 52.36 per cent, against 52.12 per cent last week.

There will be $5,000,000 in Gold shipped from New York to Cuba, Saturday. This is part of the Cuban loan. There is to be $10,000,000 in all sent there, part of which has already been shipped.

Strictly choice Steers are becoming scarce again, which leads traders to believe that country feeders are holding many of them for the fat car load show at the International Live Stock Exposition, which opens Nov. 26.

Cotton in New York was stronger, prices advancing moderately on "shorts" covering and commission house buying. Cables reflected an easier tone abroad, but there was no selling pressure on it. Closing sales were steady to 1 off.

The Cincinnati *Price Current*, in its weekly crop summary, says: "Dry weather has retarded, and to some extent injured, growing Wheat, but not sufficiently to disturb the generally favorable position. The Corn situation is unchanged. Movement now and in the near future light under indifference about selling at current prices, regarded low relative to prices of Wheat."

The board of directors of the National Biscuit Company, Wednesday, declared the regular quarterly dividend of 1¾ per cent upon the preferred capital stock of the company, payable Nov. 30, to shareholders of record at the close of business on Nov. 14 They also declared the regular quarterly dividend of 1 per cent on the common stock of the company, payable Jan 14, 1905, to shareholders of record at the close of business Dec. 28, 1904

Stocks in New York weakened under heavy realizing sales and failed to hold the best prices. Western Railways sold off fairly, and closed ⅛ to 1 point lower, except Missouri, Kansas and Texas preferred, which advanced 4 points. Lackawanna advanced 9 points, and Delaware and Hudson 2½. Industrials were irregular. Steel weakened slightly, and Peoples' Gas broke ¾, but Realty advanced 3¾. Sales to noon were 1,000,000 shares. Money 2¼ per cent.

Local Securities were active and prices irregular—about as many showing advances as losses. Buying of Can, while good, fell below yesterday's high mark. The buying of late has been on rumors that it is to be taken over by the Steel trust Common weakened slightly and preferred held steady. There were declines in Box Board preferred, Swifts, Carbon preferred, Title and Trust, and advances in Biscuit common, Diamond Match, Carbon common, Shipbuilding, City Railway and Metropolitan Elevated common.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is quiet Demand continues very moderate Prices lower.

WINTER WHEAT There was a little more outside milling demand and sales of 84,000 bu of mixed lots besides the car lots of fresh receipts were sold, but there was no special inquiry and generally the market was quiet. Market steadier. No. 2 Red in store quotable at $1 16¾@1 18, but nothing doing, and fresh arrivals free on board quotable at $1 17@1 18. No. 3 Red fresh receipts free on board sold at $1 13 and ranged at $1 10@1 14. No. 4 Red sold at 95c@$1 05¾ for common to choice. No. 2 Hard fresh arrivals free on board quotable at $1 12@1 15. No 3 Hard quotable at $1 05@1 12, with sales free on board at $1 09, and at the river at $1 08@1 10. No. 4 Hard fresh receipts at the river sold at $1 03@1 06. No. 4 White sold at 95c.

SPRING WHEAT—Choice Wheat was steady to firm, and met with a little better sale, but the poor Wheat remains very dull, and some sales at lower prices. No. 1 Northern fresh arrivals free on board quotable at $1 18@1 20. No. 2 Northern fresh arrivals free on board nominally $1 10@1 15. No. 3 Spring fresh receipts free on board sold at $1 10 for hard variety and ranged at $1 04@1 12. No. 4 Spring fresh receipts free on board sold at 58c for very poor, at 88@98c for fair to good and at 99c@$1 08 for fair to choice hard variety

REGULAR WHEAT—A good trade early, with less doing later, the market ruling somewhat unsettled, and closed with the December up ⅜@½c, while May gained ¼c. July lost ¼c. Situation at the start was firm, influenced to some extent by the higher cables, moderate movement and bulge in Corn Commission houses made fair purchases, while the offerings were moderate and prices advanced Outside markets were strong, but at the advance local professionals were more disposed to sell and tone became easy, but rallied again on reports of frost in Argentina, and that the harvest there had been delayed two weeks by rains The *Price Current* stated that dry weather had retarded and to some extent injured growing Wheat, but not sufficiently to disturb the generally favorable position. Receipts in the Northwest were 26? cars smaller than a year ago, and primary movement was 480,000 bu less. Kansas City and St Louis received 196,000 bu, against 171,000 bu last year. Flour news from the Northwest was "bearish" and output for week 441,000 brls, against 618,000 brls in 1903. Liverpool quoted spot steady to ½d lower and futures ½@¾d higher London came unchanged. Paris and Berlin were up ¼@½c higher. Antwerp steady also Buda Pesth. Minneapolis wired stocks so far this week had increased 900,000 bu. The map showed the drouth broken in the Wheat belt, rains occurring in the Missouri and Ohio Valleys. Cloudy, cooler conditions, were predicted by the signal service Kansas City estimates for to-morrow 97 cars. Clearances were small and 5 boat loads reported at the seaboard Michigan State report made condition 90 per cent, against 84 per cent one year ago, and the area 86 per cent. Cash sales here 84,000 bu, mostly Hard Winter. Receipts at Duluth 174 cars at Minneapolis 373 cars, total of 547 cars, against 1,732 cars yesterday, 901 cars a week ago, and 809 cars last year. Local receipts included 31 cars Winter, 24 cars Spring and 11 cars mixed, a total of 66 cars, against 13? cars last year. Included in above were no cars contract grade. There were also 16 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 31 cars. The withdrawals were 39,500 bu. Receipts at Western points were 812,308 bu, against 1,293,057 bu last year. At Eastern points 12,090 bu, against 183 838 last year. Shipments from Western points 774,425 bu, against 748,510 last year, and from Eastern points no bu, against 296,958 bu last year. Shipments of Flour were 9 364 brls. Exports of Wheat in Flour were equal to 42,138 bu

Future Deliveries of Regular Wheat — Good trade and market firmer.

NOVEMBER—Entirely nominal.

DECEMBER—Sold at $1 13¼@1 14½ Opened with sales at $1 13⅜ to $1 13½; sold to $1 13¾, to $1 13⅝, to $1 14½, to $1 13¾, to $1 14¼, to $1 13¾@1 13⅞, and closed at $1 13¾@1 13⅞.

MAY—Sold at $1 12¾@1 13¾. Opened with sales at $1 12⅞ to $1 12¾; sold to $1 13¼, to $1 12¾, to $1 13¾, to $1 13⅝, to $1 13⅛, to $1 13¼, to $1 13½@1 13⅝, to $1 13, to $1 13¼, to $1 13⅛, and closed at $1 13⅛ bid.

JULY—Sold at 98¼@98¾c. Opened at 98¾c to 98½c; sold to 98¼c, to 98¾c, to 98½c, to 98⅝c, to 98⅜c, to 98¾c, to 98½c, to 98⅝c, to 98⅝c, and closed at 98⅜c.

CORN—A large trade and nervous, unsettled market, the close being ⅛@⅝c lower for December, while May lost ½@⅝c and July ½c. There was a rush on the part of December "shorts" to cover at the opening and initial trades varied 1c at the same time in different parts of the pit. The stronger cables and cash situation were the "bull" factors, the decreasing stocks creating a feeling of unrest among "shorts." At the advance, however, selling by "longs" caused a quick recession in values and the price sold off from 52⅝c to 50⅝c. Liverpool quoted spot ¼@1d higher and futures ½@⅝d higher. Country acceptances were reported more liberal, one house getting 200 000 bu, and receipts were 224 cars, against 303 cars last year, with 106 cars estimated for to-morrow. The weather map showed much colder conditions West and still lower temperatures likely in this vicinity. The *Price Current* stated the Corn situation was unchanged, and movement now and in the near future light under indifference about selling at current prices, which are regarded low relative to Wheat. The Government report due this afternoon is expected to show 2,400,000,000 bu Yield a year ago reported 25.8 bu. Condition Oct. 1, 1904, was 83 9 per cent. Some local selling pressure on May on expectation of "bearish" showing in Government report. London reported 1½d more bid for cargoes on ocean passage. A larger amount of new Corn was reported on the market. Western receipts were 250,000 bu, against 289,000 bu last year; shipments 179,000 bu and 419,000 bu respectively. Local arrivals 144,000 bu and shipments 50,000 bu. Withdrawals here 141,000 bu and exports 32,000 bu. Local shipping demand fair and cargoes very scarce. Sales were 20,000 bu. Seaboard reported 7 boat loads accepted. Car lots were in little smaller supply and fair demand. New Corn was reported 1c higher and old firm. No. 2 sold at 57c and closed at 56½c No 2 Yellow closed at 60c. No. 3 closed at 56c. No. 3 Yellow closed at 59½c. No Grade new sold at 47@49½c, outside for yellow

Corn by sample—Offerings were smaller and the demand good. Feeling firmer and prices unchanged to 1c higher. Sales on track and free on board: No Grade sold at 45@51c. No. 4 at 49@60c. No 3 at 56¾@59¾c. No 3 Yellow at 60½c. No. 2 at 59½c. No. 3 White at 53@56½c. Billed through: No Grade at 45@49c. No. 4 at 49@56¼c. No. 3 Yellow at 55c. No 3 White at 55c.

Future Deliveries of No. 2 Corn Active and stronger early, but weakened later and closed ⅛c to ⅛@⅝c lower

NOVEMBER—Inactive and entirely nominal at 4c over December, closing at 51⅞c.

DECEMBER—Sold at 50⅝@52⅝c. Opened at 51½c to 52½c, and sold at 52⅝c, to 52⅝c, to 51⅞c, to 52c, to 52½c, to 51⅞c, to 51⅞c, to 51¼c, to 51⅝c, to 50⅝c, to 51c, to 50⅞c, and closed at 50⅞c bid.

JANUARY Sold at 46½@47⅝c Opened at 47⅝c, sold off to 46½c, and closed at 46½c asked

MAY -Sold at 46¼@46⅞c and 47¼c Opened at 47¼c to 47c and sold at 47⅛c, to 46⅞c, to 47⅛c, to 46½c, to 46⅝c, to 46¼@46⅜c, to 46⅜c, and closed at 46⅜c bid.

JULY—Sold at 46¼@47¼c. Opened at 46⅞c to 47⅛c, and sold at 46¾c, to 47c, to 46¼c, and closed at 46¼c.

OATS—Were stronger and ⅛c higher early, but reacted and closed at the bottom at ⅜c lower. Early strength was in sympathy with other Grains and the late weakness was in sympathy with the break in Corn and on liberal selling by a few "longs" and several large traders who are "bearish." December was liquidated through commission houses and the discount under May widened to 2½c. Cash lots were in fair request with sales of 100,000 bu. Arrivals 168 cars, with 81 cars expected to-morrow. Withdrawals from store 45,100 bu from private and 1 350 bu from public elevators. Export clearances 5,225 bu. Car lots to go to store were steady to ¼c higher Standard sold at 31¼c and in store closed about 29¾@29½c.

Oats by sample were steady to ¼c higher Offerings were smaller. Demand fair. Sales on track and free on board: No Grade at 30½c No. 4 White at 29½@31c. No 3 White at 30½@31¾c. Standard at 31@32c. No 2 at 29¾@30c Billed through: No. 4 White at 27@30¾c No. 3 at 30¾c. No. 3 White at 31c Standard at 31@31¼c No. 2 White at 31½c. At the river: No Grade at 25c. No. 4 White at 28½@29c No. 3 White at 29¼@29¾c. Standard at 29¾c

Future Deliveries of Contract Oats — Were higher early and lower at the close.

NOVEMBER—Closed at 29¼c.

DECEMBER—Offered more freely Sold at 28¾@28⅞c and 29¼@29⅜c Opened at 29¼c to 29⅜c, sold to 28¾@28⅞c at close.

MAY—Fair trading. Sold at 31¼@31⅝c. Opened at 31⅜c to 31¾c, sold at 31¾c, to 31¼c, to 31⅜c, to 31¼@31⅜c at close.

JULY—Sold at 31¼@31¾c Opened at 31⅝c to 31¾c, sold to 31¼c, to 31¼@31⅜c at close.

RYE Was quiet and steady Demand light and offerings also light. Choice fresh arrivals wanted by millers and distillers The receipts were three cars and six cars were withdrawn from private elevators. No exports from New York No 2 in store nominally 80½c, and fresh arrivals free on board sold at 84@85c, also a sale billed through at 85c.

Future Deliveries of No. 2 Rye—Was quiet. November nominally 80½c. December nominally 81c. May, round lots, sold at 82½c and small lots at 83c.

BARLEY—There was a firm market, especially for feed. Offerings of all grades were small Demand was fair for malting grades and good for low grades Posted receipts were 70 cars. Sales were mainly from 39c to 47c. There were sales to arrive at 47@49c. Screenings were quotable at 24@37c for poor, dirty to choice. Low grade Barley, feed, was quotable at 38@38½c local; poor nominally lower. Malting, low grade, small berry, some heavy, but dirty, quotable at 39@40c; clean fair to good, at 41@44c, and large berry, heavy, quotable at 44@46c, with choice to fancy 48@52c.

SEEDS—Were quiet and offerings were generally small Flax and Timothy were firm to a shade higher. Clover ruled steady

Timothy—The volume of business done in the cash market was larger. Futures remained inactive. There was a little better feeling for cash Seed and fancy was quoted a shade higher. Futures were nominally 5c higher all around There were larger offerings of cash Seed, but the quality was generally rather common. Contract or November delivery was nominally $2 65; December, $2 67½; January, $2 72½; March was offered at $2 80, and $2 70 was the best bid Cash sales were made at $1 25@2 50 Country lots were quotable at $1 75@2 50 for low grade to fancy, inferior lower; fair to good, $2 25@2 30; choice to fancy $2 35@2 50, and rough, dirty or hulled, $2 10@2 25

Flax—No. 1 Northwestern was ½c higher and other grades ruled firm. Futures were inactive and steady Offerings small and demand not at all urgent. At Minneapolis 75 cars were received, Duluth got 224 cars and Chicago 7 cars or 6,300 bu There were no shipments from Chicago. Other Seeds—The sale of a small lot of Millet and a small lot of Mustard constituted the business of the day. There was a steady to firm feeling and prices remained unchanged Quoted as follows: Hungarian quotable at 85c@$1 05 for common to choice Millet, common was quotable at 85c@$1 10 for common to choice. German at 85c@$1 15. Broom Corn Millet at 95c@$1 10, Siberian at 60@80c, and Early Fortune about 75@90c Mustard about 75c@$1 10 Buckwheat was unchanged; quoted at $1 20@1 25 for good milling.

HOG PRODUCTS—A fair trade was reported in Hog Products and a comparatively easy feeling prevailed Offerings were not very large, and the demand was fair. Outside orders were moderate, and local trading was fair. Near deliveries quiet. Deferred deliveries were moderately active Supplies on hand are gradually decreasing, and production is on a moderate scale Prices ruled somewhat lower, and the market closed steady at inside figures. Hogs were in fair supply, and prices favored sellers Receipts at the leading Western packing points estimated at 63,830, compared with 53 200 one year ago. Returns of the packing of the West for the week exhibited an increase of 55,000 Hogs, compared with the corresponding week in 1903. Foreign markets were quiet and dull for Meats, and Liverpool quotations were reduced 6d on Backs and Hams, while Lard was steadier and 6d higher. Domestic markets were quiet and steady. Receipts of Products were quite liberal of Lard and Meats about 53 cars Shipments were fair—of Lard and Meats about 126 cars Demand on shipping account was moderate, and offerings were fair, with apparently less pressure to sell Sales were only fair, and there was no particular change to note in prices

SUPPLY OF BREADSTUFFS

Stocks in Europe and America.

According to the special cablegram from Broomhall's *Corn Trade News*, Liverpool, to the DAILY TRADE BULLETIN, the supplies of Breadstuffs—Flour and Wheat in second hands in store in the principal countries of Europe, in Argentina, and afloat for Europe on November 1, 1904, exhibited an increase equal to 9,069,000 bu during October, compared with an increase of 14,029,000 bu during September, and an increase of 2,912,000 bu during October, 1903. The aggregate quantity of Breadstuffs afloat for Europe on November 1, 1904, exhibited a decrease of 1,770,000 bu during October, compared with a decrease of 760,000 bu during September, and a decrease of 1,176,000 bu during October, 1903. Supplies en route to the United Kingdom were reduced 1,020,000 bu; those for the Continent increased 360,000 bu, and those "for orders" decreased 1,110,000 bu. The aggregate supplies afloat for Europe on November 1, 1904, were 1,770,000 bu more than reported one year previous, and 1,710,000 bu more than reported two years previous. During October, 1904, the aggregate supplies in store in the principal countries of Europe were increased 12,700,000 bu, compared with an increase of 14,480,000 bu during September, and an increase of 11,040,000 bu during October, 1903. Stocks in the United Kingdom were enlarged 3,360,000 bu; those in France increased 440,000 bu, those in Germany, Belgium and Holland increased 2,800,000 bu, those in Russia increased 4,350,000 bu, and those in other portions of Europe increased 3,320,000 bu. Stocks in Russia were increased 10,800,000 bu during September, and were increased 4,140,000 bu during October, 1903. Supplies in store in Europe are about 590,000 bu more than reported one year ago, and 6,350,000 bu more than reported two years ago. The aggregate stocks in store in Europe on November 1, 1904, were 5,810,000 bu more than reported one year previous, and 21,320,000 bu more than two years previous. Compared with the returns of one year ago, the supplies of Breadstuffs in store and afloat for the United Kingdom on November 1, 1904, were 3,620,000 bu more, those for the Continent 120,000 bu less, and those "for orders" 6,590,000 bu more. The aggregate supplies of Breadstuffs credited to Europe in all positions on November 1, 1904, were 10,190,000 bu more than reported on November 1, 1903, and 23,030,000 bu more than on November 1, 1902. Advices from Europe indicate little change in the general crop situation in that quarter. The area of Wheat in the United Kingdom will be slightly increased, and recent rains have been beneficial. In Russia, good rains have fallen and the prospects are fair. Outlook in Germany rather satisfactory, and the outlook in Austria, Hungary and Roumania is rather improved. In France, Spain, Portugal and Italy, the weather is rather dry, and rains would be beneficial. In Argentine, the weather has been rainy and somewhat unsettled, and may do a little damage to the crop at harvest time. Advices from India and Australia continue favorable for fair average crops.

DOMESTIC SUPPLIES OF BREADSTUFFS.

The aggregate supplies of Breadstuffs—Flour and Wheat—in the United States and Canada on November 1, 1904, as compiled by the DAILY TRADE BULLETIN and the Minneapolis *Market Record*, exhibited an increase during October equal to 19,225,000 bu, compared with an increase of 17,883,000 bu during September, and an increase of 8,445,000 bu during October, 1903. The increase was mainly in the Northwest, on the Pacific Coast and in Canada, while stocks in the Winter Wheat sections exhibited little change. Production of Flour was liberal, while distribution was only fair, and the aggregate supplies exhibit an increase of 237,000 brls during October, compared with an increase of 149,000 brls during September, and a reduction of 33,000 brls in October, 1903, when liberal shipments were made. The increase is quite general throughout the country, though rather more marked in the Northwest where supplies have accumulated at the lake ports for shipment to the Eastern markets. The following table exhibits the stocks of Flour in the principal cities of the United States on the dates named:

Cities.	Nov. 1, 1904. Brls.	Oct. 1, 1904. Brls.	Nov. 1, 1903. Brls.
Philadelphia	130,000	117,000	90,000
New York	80,000	80,400	95,300
Chicago	30,500	30,000	52,500
St. Louis	47,370	48,686	61,360
Toledo	12,000	7,500	5,500
Baltimore	37,000	38,000	43,000
Detroit	12,000	12,000	11,000
Boston	71,000	55,004	68,104
Milwaukee	58,850	39,100	107,545
Duluth	332,000	230,000	229,000
Total	853,850	670,670	724,179

Stocks of Flour at these points were increased 177,896 brls during October, compared with an increase of 71,330 brls during September, and an increase of 55,479 brls during October, 1903. The aggregate supplies of Flour on November 1, 1904, November 1 were 129,387 brls more than reported one year previous. Stocks of Flour at the Atlantic seaboard markets on November 1, 1904, were 334,899 brls, compared with 296,401 brls on October 1, and 281,431 brls on November 1, 1903. The aggregate supplies of Flour in the United States and Canada on November 1, 1904, were 237,000 bbls more than reported on November 1, 1903, and 178,460 brls more than reported on November 1, 1902.

During the month of October the supplies of Wheat in the United States and Canada were enlarged 17,706,000 bu, compared with an increase of 17,229,000 bu during September, and an increase of 8,589,000 bu during October, 1903. Supplies were slightly reduced through the East, were decreased slightly through the Central West, and increased considerably in the Northwest, on the Pacific Coast and in Canada. Supplies in the United States were enlarged 7,874,000 bu, compared with an increase of 5,500,000 bu during September, and an increase of 3,633,000 bu during October, 1903. Supplies in the interior elevators of the Northwest were enlarged 1,052,000 bu during October, compared with an increase of 3,599,000 bu during September, and an increase of 1,836,000 bu during October, 1903. Aggregate stocks are reported as 5,776,000 bu, compared with 4,701,000 bu on October 1, and 5,040,000 bu on November 1, 1903. The aggregate supplies of Wheat in second hands in the United States and Canada on November 1, 1904, were 19,000,000 bu more than one year ago, and 14,284,000 bu less than two years ago.

SUPPLIES AT HOME AND ABROAD.

The aggregate supplies of Breadstuffs afloat for Europe, in store in Europe and Argentina, and in store in the United States and Canada on November 1, 1904—including the largest number of points than in any other compilation were equal to 185,161,000 bu, against 166,869,000 bu on October 1, and 164,392,000 bu on November 1, 1903. The increase during October was equal to 18,292,000 bu, compared with an increase of 23,456,000 bu in October, 1903. The aggregate supplies in all positions in America, Europe and Argentina on November 1, 1904, were 20,769,000 bu more than reported one year previous, and 11,176,000 bu more than reported two years ago.

STATISTICAL POSITION OF WHEAT.

The movement of Wheat to the primary markets of the United States from July 1 to November 1 was 85,000,000 bu, compared with 90,400,000 bu for the corresponding period in 1903. The exports of Flour and Wheat during the same period were about 16,000,000 bu, compared with 52,000,000 bu for the same time last year—a decrease of 36,000,000 bu, or 70 per cent. The official visible supply of Wheat on November 1 was about 4,000,000 bu more than one year previous. Estimating the Wheat crop of the United States at 630,000,000 bu, and allowing 72,000,000 bu for supplies in all positions on July 1, 1904, the aggregate supplies for twelve months amount to approximately 652,000,000 bu. Allowing 415,000,000 bu for consumption and 75,000,000 bu for seeding purposes, and 16,000,000 bu for export to date—thus accounting for 106,000,000 bu—there would remain for export during the next eight months and for supplies on hand July 1, 1905, about 116,000,000 bu. The exports from November 1, 1903, to July 1, 1904, were about 60,000,000 bu, or an average of about 8,000,000 bu per month.

FLOUR TRADE DURING OCTOBER.

In most sections of the United States and Canada, according to reports to the DAILY TRADE BULLETIN, there was a fairly good trade in Flour during October, but not equal that of one year previous, when an unusually active business was transacted. The advance in prices of Wheat and Flour, with small reduction in wages by some leading industrial corporations, has led to a little conservatism in the demand and consumption of Flour. While there continues quite a good general demand, the orders are mainly for moderate quantities, indicating that purchasers are a little distrustful that prices being maintained. Possibly 90 per cent of the sales of Flour are for domestic wants. Merchants in foreign countries have other sections to draw from, and the fact that the quality of the Winter Wheat harvested was so poor, and the export demand for it virtually ceased, makes them a little cautious in their operations. Bids continue full, however, are generally too low to attract the attention of millers. The production during the month was quite liberal, and the increase in supplies in the aggregate was rather large. Some of the mills in the South and Northwest reported running on partial time. As a rule, trade was not as satisfactory as desired, though not a losing one by any means. Millers have fairly good supplies of both Flour and Wheat on hand. In New England there was quite a good home demand, especially in the manufacturing districts, while the export inquiry was small. In New York, trade was fairly active for domestic requirements, and sales to exporters were meager. In Pennsylvania, there was a fairly good demand for comparatively small quantities for home wants, and an occasional export order was accepted. Millers in Maryland enjoyed a fairly good domestic trade, but otherwise the same condition of affairs prevailed in Virginia and West Virginia. In Kentucky and Tennessee, sales of Flour were on a moderate scale, and there was a fair increase in supplies. In Ohio, the demand for Flour was fairly active—nearly sufficient to absorb the production—and almost exclusively for domestic wants. Millers in Michigan sold moderate quantities for current requirements. The movement was on a fair scale, but the production was fairly large, and there was some accumulation in supplies. Trade in Illinois also was not very liberal, with very little on export account, and supplies were enlarged. Advices from Missouri indicated a fair trade; greater proportion for home wants. In Kansas, trade was only fair, with considerable increase in supplies. In Oklahoma and Texas, trade was rather good—slightly improved. In Iowa and Nebraska, there was a fairly good trade for home wants. In Wisconsin, the demand was fair, and mainly for domestic requirements. In Minnesota, the movement of Flour was fair, while the demand was on a moderate scale. Sales mainly for home requirements, with occasional export orders accepted on rather close margins. Supplies enlarged, owing to the accumulation at lake ports for shipment by water route eastward. In the Rocky Mountains district, trade was fairly satisfactory for local wants. On the Pacific Coast, there was quite a good demand for Flour, and sales were fairly large. It is claimed that about 350,000 brls were sold to the Eastern trade, and that a good export order was accepted for shipment to China and Japan up to the close of the year. Millers in Canada reported a fairly good general business, with a slight increase in stocks. Crop prospects are fair, and the movement to export orders were provided for at satisfactory figures.

WHEAT MOVEMENT DURING OCTOBER.

The movement of Wheat from the farms of the United States during October was rather liberal—about 52,000,000 bu, compared with 50,000,000 bu one year previous, and 72,000,000 bu two years previous. Considering that the crop is several days lighter than last year, it is quite evident that farmers in many sections are willing to accept current prices, especially below of the very light export demand. The aggregate movement during the past four months was approximately 200,000,000 bu, compared with 225,000,000 bu for the corresponding time in 1903, of which about 90,000,000 bu is in second hands. The quantity remaining in farmers' hands for commercial purposes—exclusive of the quantities required for spring seeding—is approximately 315,000,000 bu, of which 252,000,000 bu will be required for consumption for eight months. Farm work, especially in the Corn districts, checked the movement to some extent. There has been considerable Wheat moved from the Pacific Coast to the Central West and South, and this has been a factor in enlarging supplies. In New England and Canada supplies are unusually small, and receipts meager. In New York, there were rather good receipts during the latter part of the month, and supplies were increased. Interior movement was rather small. In Pennsylvania, offerings were comparatively light, with farmers inclined to hold. In Maryland, Virginia and West Virginia, receipts of Wheat were light. In Kentucky and Tennessee, the offerings were not very free, but sufficient to meet general requirements. In Ohio, farmers sold moderately and supplies were well maintained. Offerings of Wheat in Michigan were light, and farmers have little for sale, owing to the small crop. The movement of Wheat in Indiana was fair, especially in the Central and Southern portions of the State, and supplies were slightly enlarged. In Illinois, the movement was moderate, and shipments from Chicago tended to reduce supplies. In Missouri and Kansas, the movement was fairly good, and supplies were somewhat enlarged. In Oklahoma, the offerings were moderate, while in Texas, farmers were inclined to sell to some extent. In Iowa and Nebraska, the movement of Wheat was only fair, but supplies were slightly enlarged. In Wisconsin, farmers were disposed to sell rather freely. In the Northwest, the movement of Wheat was on a large, especially in view of the low estimates of the crop, and supplies were materially enlarged. In the Rocky Mountains district, the movement was only fair. On the Pacific Coast, receipts of Wheat were rather large. Sales were largely to millers and for shipment eastward—the latter estimated as high as 15,000,000 bu. In Canada, the advices were liberal, especially in the Northwest, and supplies were materially enlarged.

OUTLOOK FOR CORN.

The advices received by the DAILY TRADE BULLETIN indicate that the Corn crop in the Eastern and Middle States will be rather large—up to the average—while in the Central West, West and Southwest, the yield will be quite good. With good drying weather the quality will be improved. As to the estimate of the area planted, it would be about 360,000 bu per acre, and an aggregate crop around 2,400,000,000 bu.

THE WEATHER CONDITIONS.

Indications are that threatening weather in this section will pass away to-night or Friday morning. Strong winds will continue and cooler weather will overspread Central Valleys and Western lake regions. Temperatures Northwest will moderate.

Quantity of Corn in farmers' hands on November 1 about 81,000,000 bu.

ITEMS OF GENERAL INTEREST.

New York Exchange par.

Documentary Sterling firm at 482¾.

Chicago Bank Clearings to-day $36,681,601.

Reported that no Wheat and 200,000 bu Corn were taken at the seaboard to-day for export.

Ten packers purchased 18,000 Hogs to-day; shippers, 4 600; left over, 5,000 Market closed weak.

The leading three Sugar refineries have agreed to advance prices 5 points on granulated in bags.

Average cost price of Hogs at Chicago, Thursday, was $5 04, against $5 02 Wednesday, $5 01 a week ago, and $4 68 a year ago.

Estimated receipts for to-morrow: Wheat, 22 cars; Corn, 152 cars; Oats, 81 cars; Rye, 3 cars; Barley, 55 cars; Hogs, 15,000

The receipts of Hogs at Chicago for the week will be about 137,000, compared with 149,623 for the corresponding week last year.

A London cable says: "There are less favorable Argentine advices. Frost has caused damage in portions of Western Buenos Ayres."

The Federal Stock and Grain Company, with offices in Boston and throughout New England, the Middle States and Canada, has closed its offices.

The receipts of Wheat at Liverpool during the past three days were 312,000 bu, of which none were American. Receipts of Corn, 72,000 bu, of which none were American

Cotton in New York advanced in sympathy with higher cables and a more "bullish" feeling among spot interests. Offerings of actual Cotton were small. Closing sales were at gains of 7@8 points.

Last year the navigation on Erie Canal closed Nov. 28, and while no notice has yet been issued for the close this year, shipments are being rushed to take advantage of the time up to last year's date.

Argentine Wheat visible is 9,136,000 bu, against 2,392,000 bu the previous week, and 1,320,000 bu last year. The Argentine Corn visible is 3,943,000 bu, against 3,702,000 bu the previous week and 3,488,000 bu last year.

Shipments of Wheat from Argentina this week were 752,000 bu, against 1,280,000 bu the previous week, and 216,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 88,157,000 bu, against 60,514,000 bu same time in 1903

Local Securities were active, stronger and materially higher. The features were the advances in Can, Biscuit, Box Board and Carbon, with largely increased trading. Swifts and Pneumatic Tool were weak and lower on small selling.

Shipments of Corn from Argentina this week were 4,003,000 bu, against 2,254,000 bu the previous week, and 1,500,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 83,154,000 bu, against 67,357,000 bu for same time last year.

A Chicago commission firm's Portland, Ore., correspondent wired, Thursday: "Far Southern States anxious inquirers to-day for cheaper grade Flour, while Boston and New England are making offers for the best patents. A few sales. No export demand at present."

The shipments of Flax Seed from Argentina this week were reported at 104,000 bu, compared with 144,000 bu last week and 640,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 36,836,000 bu, compared with 23,835,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 148,000 bu, against 347,000 bu for the previous week and 1,688,000 bu for the corresponding week last year. Exports since July 1 were 11,094,000 bu, compared with 21,578,000 bu for corresponding time last year

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,454,000 bu, against 1,482,000 bu for the previous week, and 3,659,000 bu for the corresponding week last year. Exports since July 1 were 26,102,000 bu, compared with 53,482,000 bu for the corresponding time last year.

Money rates at the Chicago banks are steady at 4½@5 per cent, with demand slightly improved. Brokers' loans are 4 to 4½ per cent on Stock market collaterals, and commercial paper is being discounted at 4@4½ per cent The supply of the latter, while better, is still far from ample to supply the demand, and the best names on short maturities still carry the lowest figures of discount.

The *Modern Miller's* weekly summary says: "Although precipitation has not been heavy, rains have been general in the Winter Wheat territory, and the drouth conditions relieved. Where seeding was prevented by too dry soil, work has been begun and will be pushed vigorously to enable farmers to finish before winter sets in Hessian fly complaints are still heard, but not to such an extent as before the rains."

Stocks in New York developed pronounced strength and the list moved up with surprising gains. The sensational features were Illinois Central with its advance of 5¼, Missouri Pacific 3⅜, Northwestern 4, and other Western Railways up ½ to 1¼. Jersey Central advanced 7¼ on reports that its dividend rate is to be increased. Realty advanced 5¼, and Pacific Mail 9 points. Steel was easy, losing ¼ Money, 2¼ per cent

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and market rather quiet and easy

WINTER WHEAT—Light receipts and there was a little better sale for the Wheat offered. The market is pretty well cleaned up of the samples which were on sale the past few days. Prices quotably a shade better. Sales of 15,000 bu mixed lots were reported No 2 Red in store nominally $1 16⅞@1 84½ and fresh arrivals free on board quotably $1 18@1 19. No. 3 Red fresh receipts free on board sold at $1 14@1 16 No. 2 Hard fresh arrivals free on board quotable at $1 13@1 15 and No. 3 Hard fresh arrivals free on board quotably $1 07@1 12.

SPRING WHEAT—Was quiet for lack of offerings. There was some little demand and samples which were on the market the past day or two were cleaned up. Feeling firmer No. 1 Northern fresh receipts free on board quotable at $1 17@1 20. No. 2 Northern fresh arrivals free on board quotable at $1 12@1 15. No. 3 Spring fresh receipts free on board quotable at $1 05@1 15, with a sale at the river at 99c. No 4 Spring sold at 65@70c for poor, at $1 00 for good and at $1 07½@1 09 for choice hard variety

REGULAR WHEAT—A good trade and stronger market, the close being ⅝@¾c higher for December, while May gained 1⅛c and the July 1@1⅛c. Argentine shipments were more moderate and crop advices less favorable, which, with the reported improvement in the cash situation in the Northwest and Southwest had a tendency to strengthen values. Commission houses were good buyers around the opening and part of the same credited to prominent Eastern operators. On the advance selling led by local warehouse people caused a moderate reaction Argentine shipped 752,000 bu, making a total of 88,157,000 bu since January 1, compared with 60,544,000 bu one year ago. The visible there is now 9 136,000 bu, against 2 392,000 bu last week, and 1,320,000 bu one year ago. Crop outlook reported less satisfactory; some damage due to frosts. Duluth reported the sale of 300,000 bu cash late yesterday and to-day, and Kansas City claimed Minneapolis mills were in that market looking for Wheat. One mill at Minneapolis reported the sale of 13,000 brls of Flour yesterday, and St Louis mills reported an improved domestic call the past two days Liverpool quoted spot steady to ⅛d higher and futures unchanged to ⅛d higher Receipts there the past three days 312 000 bu. Paris was quoted ¼c lower. Berlin declined ⅜c and Buda Pesth ⅞c lower. Antwerp unchanged. Primary receipts were 585,000 bu smaller than a year ago, though arrivals in the Northwest were about same. Exports were 1,454,000 bu, and since July 1 aggregate 26,102,000 bu, against 63,482,000 bu one year ago. Minneapolis estimated that stocks would increase 1,100,000 bu this week. Duluth stocks are figured to decrease 40,000 bu to 100,000 bu Winnipeg had 274 cars, against 283 cars last year. Kansas City expects 93 cars to-morrow. Stocks there reported 2,083,000 bu, an increase so far this week of 146,000 bu. *Modern Miller* was generally construed as moderately "bearish." Fair and warmer weather was predicted by the signal service. Seaboard reported no boat load accepted. Receipts at Duluth 205 cars at Minneapolis 567 cars, total of 772 cars, against 547 cars yesterday, 901 cars a week ago, and 766 cars last year. Local receipts included 6 cars Winter, 16 cars Spring and 5 cars mixed, a total of 29 cars, against 12 cars last year. Included in above were no cars contract grade. There were also 7 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 22 cars. The withdrawals were 63,800 bu. Receipts at Western points were 1,029,793 bu, against 1,414,666 bu last year. At Eastern points 50,829 bu, against 209,397 last year. Shipments from Western points 559,687 bu, against 665,990 last year, and from Eastern points no bu, against 69,023 bu last year. Shipments of Flour were 23,483 brls. Exports of Wheat in Flour were equal to 101 673 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

CORN—A good trade reported. Feeling stronger and closing prices ½@⅝c higher for December, while May gained ½@⅝c and July ½c. Commission houses were good buyers at the start, notwithstanding the showing of the Government report, and the situation was strong, the small receipts, cash situation and advance in Wheat being the "bull" factors. The Government report made yield 26.7 and crop 2,449,372,000 bu, against 2,244,176,000 bu last year Surplus stocks, 1,412 000,000 bu; last year, 1,271,000,000 bu. Argentine shipments were heavy at 4 003,000 bu, making 83,154,000 bu since Jan. 1, compared with 67,357,000 bu one year ago. Visible supply there is now reportd at 3,943,000 bu, against 3,702,000 bu last week and 3,488,000 bu a year ago. Receipts were 122 cars, against 247 cars last year, and 152 cars are estimated for to-morrow. Liverpool quoted spot steady to ¼d lower and futures unchanged to ½d lower. Receipts there the past three days, 72,000 bu Map showed colder conditions all over, but fair and warm weather was predicted. Western receipts, 275 000 bu, compared with 417,000 bu one year ago. Shipments 160,000 bu and 200,000 bu respectively. Withdrawals 1 4,000 bu and exports 48,000 bu. Exports this week 148,000 bu, and since July 1 foot up 11,094,000 bu, compared with 21,578,000 bu one year ago Southwestern markets were firm. *Broomhall* estimated that Europe would likely require 180,000,000 bu Corn from America this season. Shipping inquiry fair and sales 40,000 bu. Seaboard reported 25 boat loads accepted. Local arrivals 157,000 bu, and shipments 66,000 bu. Kansas City expects only 9 cars to-morrow Car lots were in good demand, and new Corn was strong and about 1@1½c higher. No. 2 sold at 58⅛c in store and closed to go in at 56½c. No. 2 Yellow closed at 60½c. No. 3 closed at 56c. No. 3 Yellow closed at 60c. No. 4 new sold at 49@52c—outside yellow. No Grade new sold at 50c.

Corn by sample—Was in good demand and firm. Offerings moderate and nearly all new Corn Prices steady to 1½c higher. Sales on track and free on board: No Grade new sold at 47@51c. No. 4 at 48½@60c. No. 3 at 56¾c. No. 3 White at 53¼c Ears at 41½@46½c Billed through: No Grade at 46½@54c. No. 4 at 48@51½c. No. 3 Yellow at 59c No 2 Yellow at 60c.

Future Deliveries of No. 2 Corn—Active and stronger, closing ½c to ½@⅝c higher.

NOVEMBER—Inactive and entirely nominal, closing about 55½c.

DECEMBER—Sold at 50⅝@51½c Opened at 50¾c to 51¼c and sold at 51⅛@51¼c, to 51c, to 51⅛c, to 50⅝c, to 51¼@51⅜c, to 51⅛c, to 51½c to 51¼c, to 51½c, to 51@51⅛c, to 51½c, to 51⅜@51½c, and closed at 51⅜@51½c

MAY Sold at 46⅛@47c Opened at 46⅛c to 46½c, and sold at 46½@46⅝c, to 46¾c, up to 47c, to 46⅞c, to 46⅞@47c, and closed at 46⅞@47c asked.

No. 2 White at 31¾c At the river No 4 White at 28½@29c No 3 White at 29@29¾c. Standard at 29¾c. No 2 at 28½c.

Future Deliveries of Contract Oats Were stronger with moderate trading.

NOVEMBER—Closed at 29½c

DECEMBER—Sold at 28¾@28⅞c and at 29c Opened at 28¾@28⅞c and closed at 29c.

MAY—Fairly handled at 31¼@31½c. Opened at 31¼c to 31¼@31⅜c, sold to 31½c, and finally closed there.

JULY—Sold at 31¼@31½c. Opened at 31¼c, sold to 31½c; closed at 31½c.

RYE—The feeling was firm, with a light trade. Fresh receipts scarce and wanted. Some little trading in futures Market throughout showed strength The receipts were only five cars. There were withdrawn from public elevators 84,300 bu. No exports from New York. No. 2 in store nominally 81c, and fresh arrivals free on board sold at 81@84½c, and at the river at 84½c. No. 3 fresh receipts free on board sold at 83@83½c, and billed through at 82c.

Future Deliveries of No. 2 Rye—Firm, with little more doing. November entirely nominal at about 81c. December sold at 81½c to 81¼c and closed at 81c bid and 81½c asked. May nominally 83c.

BARLEY—The market was firm for all grades and in some instances prices ruled higher. Low grades were scarce and in very fair demand. For malting Barley prices ruled higher Offerings were small and demand fair. Receipts as posted showed 46 cars inspected in. There were sales of Screenings at 32@38c, and feed sold from 36@38½c for very poor to choice. Screenings were quotable at 34@38c for poor, dirty to choice Low grade Barley, feed, was quotable at 38@39½c. local; poor nominally lower. Malting, low grade small berry, some heavy, but dirty, quotable at 40@42c, clean fair to good, at 44@45c, and large berry, heavy, quotable at 46@48c, with choice to fancy 49@52c.

SEEDS Flax, Clover and other Seeds ruled steady. Cash offerings were small and there was nothing done in futures. Timothy was more active and easy for futures, but unchanged for cash Seed.

Timothy—Both cash and future deliveries were a little more active. Offerings of cash Seed were a little larger, but the quality showed little or no improvement There was a better demand for futures and there were sales of both January and March. Cash Seed ruled steady, but futures were a shade lower. Contract or November delivery was nominally $2 62½; December, $2 65; January sold at $2 67½; March sold and closed at $2 77½. Cash sales were made at $2 10@2 45. Country lots were quotable at $1 75@2 50 for low grade to fancy, inferior lower; fair to good, $2 25@2 30; choice to fancy $2 35@2 60, and rough, dirty or hulled, $2 00@2 25.

Flax—The market was inactive and steady. Offerings of cash Seed have been very small and futures were neglected. The crop as shown by the Government report was about 3,000,000 bu short of last year, but this had no effect on the market Receipts were 57 cars at Minneapolis; 269 cars at Duluth and 3 cars or 2,700 bu here There were no shipments from Chicago. No 1 Northwestern was nominally $1 17, No. 1 was nominally $1 10½ and Rejected ranged at $1 07@1 11 November was nominally $1 10½ December $1 11 seller, and May was offered at $1 18.

Clover Market was quiet and steady Offerings were very moderate of cash Seed Nothing doing in future deliveries. Market quotable as follows: Contract grade, spot or November delivery at $12 00. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00

Other Seeds—Mustard is about all that is coming at present. There was a steady to firm feeling and values were nominally unchanged. Quoted as follows: Hungarian quotable at 85c@$1 05 for common to choice. Millet, common was quotable at 85c@$1 10 for common to choice. German at 85c@$1 15 Broom Corn Millet at 95c@$1 10, Siberian at 60@80c, and Early Fortune about 75@90c. Mustard about 75c@$1 00 Buckwheat was unchanged; quoted at $1 20@1 25 for good milling

HOG PRODUCTS A fair speculative business was transacted in Hog Products, mainly on local account. Outside orders were moderate Hogs were in rather good supply, and sold at lower prices, and this feature encouraged selling of Products at the opening at slightly reduced figures Later, the market was stronger in sympathy with the firmness in Grain, and fair miscellaneous buying of the deferred futures, and prices advanced moderately all around. Toward the close, the feeling was not quite so strong, but changes in prices were slight Market closed rather steady Receipts of Hogs at the leading Western packing points were estimated at 71,500, compared with 59,800 one year ago. Foreign markets were quiet, and Cumberland Sides were quoted 6d lower Domestic markets rather steady, with very little improvement in trade Receipts of Products were good—of Lard and Meats about 21 cars Shipments were quite small—of Lard and Meats about 60 cars. A little more interest manifested in the shipping branch of the trade. Demand was moderate, and offerings were not very large. Sales were fair, and prices were without material change Some inquiry for next spring and summer delivery

Mess Pork—Only a fair business was transacted in Mess Pork. Offerings were not very large, and the demand was fair Market was rather easy at the opening, and prices ruled 7½c lower. Later, a stronger feeling was developed, and prices rallied 7½@10c, and the market closed rather steady Trading chiefly in January and May contracts. Shipping demand was light, and offerings were moderate. Cash lots quotable at $11 10@11 15

NOVEMBER Quiet, with small sales at $11 10.

DECEMBER—Demand light and offerings were small. Sales were made at $11 10@11 17½, and closed quiet at $11 17½

JANUARY—In fair demand and offerings were not very large. Sales were made at $12 55@12 65. Opened at $12 55, sold to $12 65, to $12 62½, to $12 62½@12 65, to $12 62½, to $12 62½@12 65, and closed steady.

MAY—Offerings were not very large and the demand was fair. Sales were made at $12 55@12 65. Opened at $12 55, sold to $12 65, to $12 62½, to $12 65, to $12 62½, and closed steady

Lard—Only a moderate trade was reported in Lard, and chiefly on local account. Offerings were not very free, and the demand was only fair. Foreign advices were unchanged Market in a general way opened rather easy and prices ruled 2½@5c lower. Later, a stronger feeling was developed, and prices rallied 2½c, and the market closed rather steady. Sales almost exclusively of January and May contracts Demand on shipping account was moderate, with only fair offerings. Cash lots steady at about November figures, closing at $7 05@7 07½. Loose lots in fair request, with moderate offerings Prices were quotable at 30c discount on January figures. Leaf Lard was in moderate demand, with light offerings. Prices quotably steady at $7 12½. Neutral in light demand, with moderate offerings Prices quotably steady at $8 62½@8 75 for No 1, and $8 12½@8 25 for No. 2.

NOVEMBER Quiet, with small sales at $7 05.

DECEMBER Quiet and quotable at $7 05.

JANUARY - Inquiry moderate and offerings were only fair. Sales were made at $7 07½@7 10 Opened at $7 10, sold to $7 07½@7 10, to $7 10, and closed steady.

MAY—Offerings were fair, and the demand was somewhat limited. Sales were made at $7 20@7 22½ Opened at $7 20, sold to $7 22½, to $7 20@7 22½, and closed steady

Short Rib Sides—Trade was moderate in Short Rib Sides, and the feeling was rather steady Offerings were not very large and the demand was only fair Trading mainly local Market opened rather tame, and prices were about 2½c lower. Later, more steadiness was manifested, and prices rallied 2½c, and the market closed rather steady A fair inquiry prevailed on shipping account and offerings were moderate. Cash lots were quotable at $6 87½@7 12½ according to weight.

NOVEMBER Quiet and quotable at $6 90

JANUARY—Offerings were not very large, and the demand was moderate Sales were made at $6 52½@6 55 Opened at $6 52½, sold to $6 55, to $6 52½, and closed steady

MAY—In moderate demand and offerings were only fair. Sales were made at $6 62½@6 65. Opened at $6 62½, sold to $6 65 to $6 62½@6 65, to $6 65, and closed steady

Other Meats—Trade was moderate and the feeling was steadier. Domestic demand was fair, and small orders were received from abroad. PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Nov. 10.]

There is a moderate gain in the market offerings of Hogs. Total Western packing 440,000, compared with 410,000 previous week and 370,000 two weeks ago. For corresponding time last year the total was 385,000 and two years ago 540,000. From Nov 1 the total is about 815,000, compared with 440,000 a year ago. The quality appears to be somewhat improved in general average. Prices at the close show the average for prominent markets as about $5 00 per 100 lbs, compared with $4 95 a week ago, $5 10 two weeks ago, $4 75 a year ago, $6 05 two years ago, and $5 45 three years ago.

The speculative Provision market was quiet and easy most of the week, but at the close there was an advance in prices at Chicago of the leading articles in sympathy with the advance in the Corn market and under the influence of speculative sentiment. Domestic markets were quiet and foreign markets easy. Offerings of Hogs fairly liberal. The export clearances of Product were fair and show an increase over the preceding week, but there is a decrease as compared with the corresponding week last year.

The stocks of Cut Meats at centers making monthly returns show the comparisons as to totals, in pounds, according to Cincinnati *Price Current* compilations, as follows:

	Nov 1, 1904.	Oct 1, 1904	Nov. 1, 1903.
Chicago	65,420,000	84,712,000	83,919,000
Kansas City	24,746,000	33,426,000	20,065,000
Omaha	17,209,000	23,633,000	17,005,000

Total, lbs	134,024,000	175,933,000	142,964,000

This indicates a decrease of 42,000,000 lbs in the total, compared with a month ago, while the stocks were decreased 31,000,000 lbs last year for the corresponding period. The total at these points is now 9,000,000 lbs less than a year ago and 37,000,000 lbs more than two years ago. The total stocks of Lard at the five centers named in the foregoing table on Nov. 1 were 38,000 tcs, compared with 94,000 tcs a month ago and 58,000 a year ago.

The total stocks of Cut Meats, of Short Rib Sides, of Sweet Pickled Hams, in pounds, and of Lard in tierces, at Chicago, Kansas City, Omaha, Milwaukee and St. Joseph, compare as follows, for dates indicated.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Nov. 10.]

There has been a continuance of dry weather in the Central and Western regions, which has been favorable in influence on the ungathered Corn, but has served to retard the development of the Wheat plant, and in various localities there appears to be a feeling that the crop is suffering from such cause. This may be so to some extent, but in the light of past evidences as to the detrimental influence on the Wheat crop of dry weather at this period in the year there does not appear to be occasion for serious concern. Where the seed has remained dormant without germination until after the cold period of the winter it has in many places and instances come out favorably and brought good results in past years. But where the crop has made considerable start in growth, and the dry weather at this time proves to have actually injured the vitality of the plant, it must be expected that such injury is prejudicial to the crop prospect. This condition appears to have overtaken the crop to some extent, here and there, but not to a degree of seriousness to appreciably disturb the generally favorable position of the crop. There continue to be scattering references to the presence of fly in the Wheat fields, but in this respect the effect as yet does not appear to be important in its unfavorable influence. All things considered, the Wheat crop condition may be regarded as now suffering in some degree from the prevailing drouth, which would be largely removed by early rains. There have been some freezings within the week, and this condition has done something in destruction of the fly.

So far as the general features surrounding the Corn crop are concerned there is little or nothing of new nature. The weather has been favorable, but the Grain has been tardy to a large extent in becoming dry enough for cribbing or shelling operations, and there being little of old Grain remaining for shipping channels the movement of Corn continues comparatively small for the time of year. There is evidently so much confidence in the future of prices of this Grain, supported by its relative cheapness as compared with Wheat at the current values, that the producers appear to be indifferent about effecting sales, and thus what may be termed a liberal movement may be deferred for several weeks yet. The later returns as to yield taken as a whole do not lower the indications as to general results of this crop.

GOVERNMENT CROP REPORT.

WASHINGTON, Nov. 10.—Preliminary returns to the chief of the bureau of statistics of the Department of Agriculture on crops for 1904 are made public.

Estimates on the production of Corn in 1904 indicate a total yield of about 2,453,000,000 bu, or an average of 26.7 bu per acre, as compared with an average yield of 25.5 bu per acre as finally estimated in 1903, 26.8 bu in 1902, and a ten-year average of 24 2 bu. The general average as to quality is 86.2 per cent, as compared with 83 1 last year, 80.7 in 1902 and 73.7 in 1901.

It is estimated that about 4.6 per cent of the Corn crop of 1903 was still in the hands of farmers on Nov. 1, 1904, as compared with 5 2 per cent of the crop of 1902 in farmers' hands on Nov. 1, 1903, 1.9 per cent of the crop of 1901 in farmers' hands on Nov. 1, 1902, and 4 6 per cent of the crop in farmers' hands on Nov. 1, 1901.

Buckwheat - The preliminary estimate of the average yield per acre is 18.9 bu, against an average yield of 17.7 bu in 1903, 18.1 bu in 1902, and a ten-year average of 17 9 bu. The average for quality is 91.5 per cent, against 91.4 last year, 88.1 in 1902, and 93.8 in 1901.

Flax Seed - Preliminary estimate of the average yield per acre is 10.2 bu, as compared with a final estimate of 8 4 bu per acre in 1903 and 7.8 bu in 1902. Average as to quality is 92 per cent, as compared with 84.9 one year ago.

Potatoes—Preliminary estimate of the average yield per acre is 110.4 bu, against an average yield of 84.7 bu in 1903, 96 bu in 1902, and a ten-year average of 81 bu. Average as to quality, 94.4 per cent, as compared with 84.4 per cent one year ago, 90.1 in 1902 and 78.4 in 1901.

Hay - Preliminary estimate of average yield per acre, 1.52 tons, against an average yield of 1.54 tons in 1903, 1.50 tons in 1902 and a ten-year average of 1.35 tons. Average as to quality, 92.7 per cent, against 91.3 one year ago, 85.7 in 1902 and 91 3 in 1901.

Tobacco—Preliminary estimate of average yield per acre of Tobacco is 819 lbs, as compared with the final estimate of 786 3 lbs in 1903, 797.3 lbs in 1902, and a six-year average of 731.7 lbs. Average as to quality, 89 5 per cent, as compared with 85.9 per cent one year ago.

ACREAGE AND PRODUCTION OF CORN.

The following table exhibits the estimated acreage and production of Corn in the United States for 1904, according to the November report of the Department of Agriculture of acreage and yield, compared with reported production in 1903:

ITEMS OF GENERAL INTEREST.

The Diamond Match Company has declared the regular quarterly dividend of 2½ per cent, payable Dec. 12.

The movement of Coal by lake into Chicago thus far this month has been light. Few boats care to come here with the prospect of not getting a Grain cargo back.

The Lehigh Valley Line steamer Mauch Chunk has gone into commission again. The increase in the package freight movement brought out the huge craft, which will remain in service until the close.

It is stated that arrangements have been completed for the retirement of the Detroit Citizens' Railway 5s, and the directors of the Detroit United Railway will early next spring increase the dividend on this stock.

The manager of one of the largest lines of elevators in the Northwest, who was in Chicago, Wednesday, said: "The farmers in our territory have marketed 65 per cent of their Wheat and we are now buying practically none."

A representative of a prominent Steel manufacturing concern said that if the Standard Oil carries out its plan to pipe Oil from the Western Oil territory to Chicago, more than 200,000 tons of pipe, costing $7,000,000, will be used.

Stocks of Wheat in store at Fort William, Port Arthur, Keewatin, Winnipeg and interior country points are approximately 6 658,000 bu, against 6,210,000 bu a week ago, 5 346,000 bu one year ago, 10,985,000 bu two years ago, 7,158,000 bu three years ago, 2,850,000 bu four years ago, and 7,250,000 bu five years ago.

A Des Moines party, an authority on Corn, says: "The husking returns prove fully the large crop of Corn raised, but owing to the lateness with which Corn ripened and the mild weather we have had, with little or no frost, Corn is very damp, and indications are that a very small per cent of Iowa Corn will grade even No. 3 before Jan 1."

The Rock Island has inaugurated a plan to enable Live Stock shippers to take advantage of the best markets. For example, Cattle shipped to Omaha at local rates may be sent on to Chicago. If the market at Chicago is better, at the same rate as if Chicago was made the destination at the time of loading the Stock. In other words, the shipper is given the advantage of through rates to Chicago on Cattle originally shipped to Omaha. The saving to the shipper is from 2 to 2½c per 100 lbs. The Burlington and other roads will do as the Rock Island.

There is a report in marine circles that the Pittsburg Steamship Company has entered into a plan whereby it may dispose of a number of its smaller boats to parties interested in a new Isthmian canal line, which will carry supplies between the United States and Panama. In the fleet of 112 ships there are 26 vessels between 3,000 and 4,000 tons, most of which would be too large to be taken through the canals to the coast, and there are 22 under 3,000 tons, including 13 whalebacks. Some of the latter group are too small for the Panama trade, but it is thought that selection of a suitable lot can be made from the groups under 3,500 tons. It will take a number of these comparatively small boats to make the equivalent in carrying capacity of the four 10,000-ton craft recently ordered by the Pittsburg company. It is figured that between twelve and fifteen of them can be disposed of, and the Steel trust fleet will still maintain its present carrying capacity. It is said that the United States Steel Corporation is not planning to carry its entire outfit of ore with its own boats, but that the idea is to bring the facilities up to the very highest modern standard, thus insuring the greatest results on a basis of the lower cost of operation. Under present circumstances the average cargoes carried by the entire fleet of the Pittsburg company are about 4,600 tons. The company has fifty-four boats with a capacity of between 5,000 and 7,000 gross tons and four which carry between 4,000 and 5,000 gross tons.

In the New York Stock market the sensational features were the rise of 3 points in Illinois Central, 2 to 3⅝ points in Iowa Central, 3⅝ points in Alton common, and the weakness in other Western Railways, with the close ⅛ to ½ point lower. Industrials were all strong and higher except Sugar, which reacted and closed ⅞ point lower. Sales were 839,100 shares

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 78,000 brls of Flour and 40,000 bu Wheat, against 85,000 brls of Flour and no Wheat the preceding week, a decrease of 7,000 brls of Flour and an increase of 40,000 bu Wheat. For the corresponding week last year the exports were 267,000 brls of Flour and 1,258,000 bu of Wheat.

A capitalist who holds a number of mortgages in Dakota and the Northwest says "I don't care to read the reports of the prosperity now ruling in the Northwest to judge of the conditions existing there. I hold a number of mortgages on farms in Dakota which come due next July and a year later, and in every case but one the farmers are seeking to anticipate the payment of these mortgages and are offering to pay 1 per cent for the privilege of so doing. This is the best sign of Northwestern prosperity that can be noted."

It is reported that the United Box Board and Paper Company is back of the United Paper Box Company of New York, which is a new concern organized to make paper boxes. The Manhattan Straw Board Company, which is one of five supply store enterprises operated by the American Straw Board Company, is said to be the owner of the new paper box concern. This plan of the Manhattan company means, it is said, that the Philadelphia Straw Board Company, the Boston Straw Board Company, the Queen City Straw Board Company, Cincinnati, Ohio, and the Manufacturers' Straw Board Company, Chicago, will each have a paper box plant under control to fight paper box makers in their territory who are interested in board mills, and also paper box makers who do not patronize the United company.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is quiet and steady as quoted on the second page.

WINTER WHEAT—The market was very quiet and steady. Receipts small and a moderate demand existed, with choice Wheat firm No. 2 Red in store quotable at $1 17½@1 18¼ and fresh arrivals free on board ranged nominally at $1 18½@1 19½ No 2 Red fresh arrivals free on board quotable at $1 12@1 15. No 3 Hard fresh arrivals free on board were quotable at $1 13@1 16 and No. 3 Hard at $1 05@1 12. No. 4 Hard at the river sold at $1 03.

SPRING WHEAT—Trade light and market very quiet, due partly to small receipts There was some little demand for choice Wheat. No. 1 Northern fresh arrivals free on board quotable at $1 17@1 20 No 2 Northern fresh arrivals free on board quotable at $1 10@1 14. No. 3 Spring fresh arrivals free on board quotable at $1 04@1 14, with a sale of hard variety at $1 14. No 4 Spring quotable at 60@65c for very poor and sold to $1 00 for good and $1 04 for hard variety.

REGULAR WHEAT—Only a moderate trade, mainly local and professional, with fluctuations confined within rather narrow limits Feeling was a little unsettled, but the close showed December up 1-16c, while May gained ⅛c, and July lost 1-16c. The prospect of a "bearish" set of statistics on Monday, reports of better weather in Argentina and Australia, and indifferent English cables induced yesterday's buyers in many instances to liquidate their holdings at the start, and the decline was helped by selling credited to local elevator interests. "Shorts" covered on the break and a moderate recovery followed the higher Continental cables, and reports of an improved foreign demand for Manitobas being among the sustaining influences. Berlin was quoted ⅝c higher and Buda Pesth gained 1⅜c. Liverpool quoted spot steady and futures unchanged to ¼d higher. Paris ¼@½c lower. Antwerp unchanged. *Broomhall* estimated the world's shipments at 11,200,000 bu, and predicted a moderate change on ocean passage Arrivals into the United Kingdom this week 4,400,000 bu, against 4,692,000 bu last week and 4,440,000 bu one year ago. English farmers' deliveries were 314,000 bu at 91½c, against 344,000 bu last week at 92¼c, and 344,000 bu one year ago at 80½c. The English visible increased 1,117,000 bu, against 615,000 bu increase for the same week in 1903. Primary receipts this week were 6,780,000 bu, against 5,840,000 bu last week and 9,147,000 bu one year ago. Local weekly receipts 647,000 bu, and shipments 583,000 bu. Receipts in the Northwest 4,797 cars, last week 4,961 cars, and 5,792 cars one year ago. Australia shipped 296,000 bu, against 488,000 bu last week. Kansas City reported the sale of 50,000 bu Pacific Coast Wheat to a Southwestern miller equal to $1 13½ per bu at the river. The Northwest was credited with buying May Wheat at Kansas City. Exports were again small and 8 boat loads accepted. Minneapolis reported low grade Wheat up equal to 4c and the better grades also in good demand. The increase at Minneapolis this week was reported 1,165,000 bu, and 229,000 bu of the same said to be No. 1 Northern. Indications are for an increase of 1,500,000 bu to 2,000 000 bu in the visible on Monday, there being 2,791 000 bu increase for the same week in 1903. Duluth reported the sale of 30 loads of Manitoba for export and 100,000 bu to Eastern millers. Receipts at Duluth 107 cars at Minneapolis 476 cars, total of 583 cars, against 772 cars yesterday, 744 cars a week ago, and 784 cars last year. Local receipts included 5 cars Winter, 8 cars Spring and 6 cars mixed, a total of 19 cars, against 140 cars last year. Included in above were no cars contract grade. There were also 10 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 64 cars. The withdrawals were 37,500 bu. Receipts at Western points were 839,171 bu, against 1,259,812 bu last year. At Eastern points 18,537 bu, against 323,190 last year. Shipments from Western points 461,419 bu, against 836,575 last year, and from Eastern points 37,863, against 285,615 bu last year. Shipments of Flour were 7 825 brls. Exports of Wheat in Flour were equal to 73,075 bu.

Future Deliveries of Regular Wheat—Fair trade and closing shade easier.

NOVEMBER—Entirely nominal—quotably about $1 14

CORN—A moderate speculative trade was reported, with the undertone somewhat unsettled, the close showing the December off ¼@⅜c, while May lost ⅛@¼c. The small receipts, decreasing stocks and the generally strong position of old Corn were again the "bull" helps. Commission houses were on both sides of the market with early buying rather better than the selling. Receipts were 149 cars, against 205 cars last year, and 253 cars looked for Monday Liverpool quoted spot steady to ¼d higher and futures ⅜@½d higher. Local weekly receipts 850,000 bu and shipments 871,000 bu Primary receipts this week 1,737,000 bu, against 1,587,000 bu last week and 2,514 000 bu one year ago The map was a favorable one, much lower temperatures being recorded in Kansas and the West and continued fair weather predicted. Southwestern markets were steady Withdrawals from store 165,000 and exports 8,000 bu Shipping demand quiet, but cargoes scarce and sales restricted. Corn by sample -Opened steady and later on declined 1c and closed weak. Offerings larger and demand only moderate. Sales on track and free on board: No Grade sold at 47@51½c No. 4 at 49@60c. No. 3 at 50@58c No 3 Yellow at 53@61c. No 2 Yellow at 60@62c. No. 3 White at 53@57½c. Ears at 45c. Billed through: No Grade at 46½@50½c. No. 4 at 48@57¼c. No 3 at 50@57c. No. 3 Yellow at 52½c. No 3 White at 56c.

Future Deliveries of No. 2 Corn—Moderately active and stronger early, but broke badly later and closed ⅛c to ¼@⅜c lower

NOVEMBER - Inactive and nominal close 53⅝c

DECEMBER—Sold at 51⅛@52¼c. Opened at 51¼c to 51⅜c, and sold at 51¼c, to 51⅜c, to 51¼c, to 52¼c, off to 51⅛c, and closed at 51⅛c.

JANUARY—Sold at 46⅞@47c and 47c, and closed at 47c

MAY—Sold at 46¾c and 47⅛@47¼c Opened at 47c to 46⅞c and sold at 46⅞@47c, to 47c, to 46¾c, to 47⅛@47¼c, to 46¾c, and closed at 46¾c bid.

JULY—Sold at 46⅝@46⅞c. Opened at 46¾c, and sold at 46¾c, to 46⅞c, to 46⅝c, and closed at 46⅝c asked.

OATS—Were active at times and advanced ⅜@½c, but yielded at the last and closed ⅛c higher. A good part of the business was in changing cash houses buying December and selling May at 2½c difference. Arrivals were 91 cars with 115 cars expected Monday. Withdrawals were 2,600 bu. Cash sales were 100,000 bu. Seaboard clearances were 1,150 bu. Car lots to go to store were steady. No. 3 White at 30@30½c. Standard in store closed about 29¾c.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, November 11, 1904.

There is a stronger undertone to the money market. There has been an increased demand from nearly all classes of borrowers, and as trade is expand ng there is more inquiry made on the National banks, which is taking their funds to a greater extent and drawing the trust companies to get their bus ness from the brokers. There is some money being secured on warehouse receipts and stock collateral at 4 per cent on demand, but the bulk of the money is going out at 4½ to 5 per cent. Commercial Paper is in active demand, except the sugar, and it sells at 4 to 4½ per cent, the best names up to short time commanding the lower rate. In New York there was a steady tone with rates the same as heretofore—2 to 2½ per cent on the Stock Exchange and 3 to 4 per cent on time. In London there was a steady undertone, with no change in rates

New York exchange was stronger, rates ranging at 10c per $1,000 premium to par; closed at par. Foreign exchange was in light supply, with demand for bills good Shippers' sixty-day documentary sterling bills on London ranged at 483@ 483¼, and closed firmer.

Cotton in New York was lower early in the week, but became stronger and closed with gains of 7 to 10 points. Colder weather South, a better spot demand and higher cables on the week are what gave holders confidence and made "shorts" nervous and cover.

Local Securities were active and a majority of the shares averaged higher The attractive feature was the buying of Can shares on Eastern orders, said to come from those interested in "building" the shares, and Rock Island was also largely absorbed the offerings and moved prices up rapidly On Wednesday sales on common alone were in excess of 10,000 shares There was a revival of the rumors that the control of the Chicago Great Western had changed hands, also that it is likely to be taken over by the Steel Trust, and put on a 7 per cent basis for preferred. Other Industrials averaged higher, with moderate trading and fair selling for profits on the advance. The showing made by a few of the companies was good, and the outlook is believed to favor a general improvement in business. Railroad bonds fluctuated and Switches declined, while the general market advanced, but losses were small. Bonds were actively traded in and averaged higher.

The New York Stock market was the most active seen so far, the scenes following election on the Exchange and the volume of business exceeded the previous big days this season Sales on Wednesday aggregated 1,500,000 shares, or 500,000 previous records. The election showed so much confidence in the present conditions on the part of the people that those in charge of the closing off came to be buyers. The "short" interest also became active in covering and despite enormous realizing prices were lifted to a higher level Steel shares were actively traded in, and those under them being the same as controls the Rock Island road. They have been a power in the market for over a week The recent unfavorable statement is not considered, the buying being in prospects of an improved business for the next year, also on rumors that there is a possibility of all the outside Steel interests being taken in. All the leading industrial shares were more or less handled, Tennessee Coal being a feature and recorded unusual advances. In the railway lists Union Pacific, Southern Pacific and Rock Island were the most active. Pennsylvania, St Paul, Illinois Central and Missouri Pacific were also given more attention and the highest level of the season was established. At the close there was a reaction from the top, but recorded substantial gains for the week. Bonds were heavily traded in at higher prices. Total sales on the New York Stock Exchange for the week were 7,543,000 shares, as compared with 7,67 -100 shares the previous week and 3,502,000 shares last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

In the mercantile trade there was a stronger feeling in nearly all lines. Confidence has been fully restored, and there is more disposition on the part of manufacturers and large distributors to go ahead. The activity in Iron and Steel and advancing prices has done much toward increasing a better feeling. Pig Iron has advanced $3 per ton from the recent low point in about thirty days, and is selling fairly. Of late over 100,000 tons have been sold in the Chicago district, and prices on No. 2 Northern foundry are now $15 50 per ton; some asking $16 00 Finished materials are bringing full prices and the largest orders on record being placed Scrap is selling at the highest prices of the season. Light and heavy hardware is selling actively, and there are rumors that prices on wire and nails are to be advanced in the near future, as all the mills are filled with orders. Coke is getting scarce in the West, owing to a scarcity of cars East, and prices are being advanced. Coal is being shipped to the West extensively and there is a steadier undertone to the market, as supplies of soft Coals have been slightly restricted. Miners in parts of the bituminous districts are returning to work, and the output of the mines is increasing, but there is supply enough for all requirements Lumber and building materials are having a fair movement both to the local and interior trade, and prices are unchanged from a year ago. For years, returns for the ten months showing a good gain over all previous years since 1893. Prices on lumber are stiffening and the mills in the Pacific Coast States are making more money for future delivery. Some of the largest distributors are buying supplies for next year's delivery and paying an advance in prices. Hides and Leather lines were ordered liberally, and there was a stronger tone to the Sugar market, with an advance in prices on refined The good feature about the business situation is the readiness with which the demand to meet their bills and the large number of cash customers who take advantage of the discounts offered in making purchases.

COMMERCIAL

Business in commercial circles on the Chicago Board of Trade was of moderate volume the past week The holiday and Presidential election the cause. Interest was largely confined to the latter, from the principal speculative commodities, but rather more interest was noted the closing days. The leading Grain and Provision markets should recover from now on as the election is out of the way. Values will undoubtedly be governed to a great extent from now on by the probable supplies at home and abroad, and the crop movement will be watched more closely than usual The Government report formed a basis for future operations in Corn. The yield reported was somewhat larger than the trade expected.

Weather conditions abroad this week were generally favorable for the growing crops. Beneficial rains occurred in Great Britain and a large area in Germany and Austria-Hungary. Winter crops are developing satisfactorily and have started well in Austria-Hungary and Roumania. Rain is wanted in France and Spain. Good rains fell in Southern Russia and a large area in Italy reported. India and Australian crop reports were favorable. Rainy, unsettled weather was reported in Argentina, and reports were at hand that the harvest would be delayed in consequence.

The drouth was broken this week in the Winter Wheat belt rains occurring through the Ohio and Mississippi valleys and extensive sections of Canada has retarded the development of the plant to some extent, but the injury is not considered sufficient to lower the generally favorable position of the crop. Rain fell in the Spring Wheat sections, in scattered sections of the West and Southwest, also in Ohio, but no serious damage was reported. The Government report made the yield of Corn 2,467 bu to the acre, and the total crop of 2,449,372,000 bu, against 2,244,176,000 bu in 1903 and 2,523,648,000 bu in 1902. The lower temperatures the past week were favorable for curing the crop, and the quality is much better than that of last year.

The movement of Grain from the farms and interior markets continues liberal, receipts this week. Weather conditions were generally favorable for marketing Grain, but the Presidential election probably tended to interfere with the same. In the Winter Wheat belt receipts at the principal points were smaller than a year ago, and advices received this week indicated the rush was over for this season. Through the West and Southwest the Wheat movement was liberal, and the receipts of Grains. In the Central West new Corn came forward with more freedom and the quality as yet is extraordinary. Receipts were liberal at the Pacific coast was moderate. The movement toward the seaboard was only fair and exports of Flour and Wheat were light, also of coarse Grains. Bookings for coarse Grains were fair for this season. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was an increase in Wheat and Oats and a decrease in Corn for the week. The increase in Wheat showed a large addition in the world's supply of Breadstuffs, while a fair increase was reported in Corn. The Bureau of Trade Bulletin monthly report showed an increase in the world's available supply of Breadstuffs during October of 26,892,000 bu, compared with an increase of 31,691,000 bu during October, 1903, and an increase of 23,418,000 bu during October, 1902.

Just a fair speculative trade was reported in the principal markets on Change the past week. The holiday and Presidential election possibly tended to curtail speculative operations to some extent and transactions were in the main professional in character. Fluctuations in the leading cereals as well as Hog Products were within narrow limits, though the feeling prevalent was at times somewhat unsettled. Wheat ruled comparatively firm, considering the unfavorable weather conditions. December Corn was rather congested and ugly, but general covering by "shorts," ruled decidedly firm, the decreasing stocks and cash situation being the principal factors. The Government report was construed as "bearish" and there was little pressure on the May the closing days. Oats were inclined to sympathize with other Grain and "shorts" were the best buyers. Contracts supplied are large and steadily increasing. Rye was quiet and without important change. A little more inquiry developed in Barley, which for cash and futures sold firmly. Trading was fair. Trading was mainly in January Pork, which ruled strong and sold higher on all the leading articles, and extreme figures were fairly well supported to the close. Packing for the West for the week was 65,000 Hogs ahead of last year.

There was a little more activity in the markets for cash Grain the past week. Wheat at the same time was quiet and trading of rather a limited character. Medium grades were slow and easy, but choice steady. Millers bought more sparingly. Corn was in good demand for both new and old and the current receipts were quickly taken care of and some accumulated relatively higher premiums. Oats were in fair request and firm. Offerings were small. Rye was quiet and steady. Barley was firm, especially for feed. Seeds were quiet but firm. Hay was also quiet and steady. Hog Products were in moderate demand and the offerings fair, with apparently less pressure to sell. Sales were fair and prices well maintained. Hogs were comparatively steady and Cattle firm. Sheep were strong.

FREIGHTS—Traffic with Eastern roads is heavy and cars scarce. Western railways are having a fair business. The present tariff is as follows:

To—	From Chicago. Domestic.	Export.	From Miss. River. Domestic.	Export.
Boston	19½	23½	16	
New York	17½	19½	15½	
Philadelphia	18½	18½	17½	15
Baltimore	18½	18½	17½	14½
Newport News	14½	17	15½	14½

Flour rates are 17½c domestic and 18c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 4½c per bu on Wheat, 3½c on Corn and 3c on Oats. November 15 rates advance 1c on Wheat and Corn, but Oat rates remain unchanged.

Ocean rates on Grain are 6¾d per bu from New York and from Chicago to Liverpool is 6⅞c per bu and Corn 5.15c. Flour 19c per 100 lbs and Provisions 35c per 100 lbs.

Local rates are firm, with a fair demand for boats, at 1½c on Wheat and 1¾c on Corn to Buffalo.

FLOUR—Trade was again dull, and the market dull and uninteresting. Here and there a little Flour was sold on spot to New York, Boston and for export, but generally speaking the trade was confined to buyers much closer to Chicago. The average miller has lived in the hope that the market would change to his advantage by the 5th of November, but it is still in the same old rut, with few signs of a marked improvement in the near future. The large pile and bleach manufacturers have the cash buyers ample stocks of Flour for at least a month, and possibly longer, and these interests are not disposed to make any bids close to present market values for any Flour to be delivered in the next six or six weeks ago. The following are the prices of Flour as changed:

MILLSTUFFS—A fair demand existed during the week, and the markets ruled steady under moderate receipts. Bran in bulk quotably about $16 50 per ton, and sold at $16 00@16 50. Sacked Bran in dingles in bulk sold at $15 00, and in 100-lb sacks at $17 00.

WINTER WHEAT—The market has been quite dull during the past week and the feeling weak, but the closing was a little steadier again. The market for cash did not respond to the various rallies in the speculative market. Buyers have but little interest in the cash and the country millers, shippers and speculators alike keeping off the market as much as possible and merely supplied their actual necessities. Occasionally a round lot sold, but the trading was confined to the few cars of fresh arrivals. The stock of No. 2 Red in store was 697,000 bu, and a year ago was 1,504,000. For the week receipts were 1,161,000 against 234 cars the previous week. There were withdrawn from public elevators 97,300 bu, and from private warehouses 82 cars and 43,700 bu. The visible in store was 11,162,000 bu, with 1,000 fresh arrivals free on board ranged at $1 06@1 06 for good to very choice. No. 3 Red receipts for the week were 21,000 bu. No. 4 and Rejected Grade Red sold at $1 02@1 04. No. 2 Hard fresh arrivals free on board ranged at $1 10@1 15 and billed through sold at $1 12½. No. 3 Hard fresh receipts for the week were 40,000 bu. No. 4 Hard at the river at $1 08½. No. 4 Hard at the river sold at $1 03.

SPRING WHEAT—Was very quiet during the week. The receipts were again light and there has been only a limited demand Local millers have been very indifferent, and outside buyers like conditions, making no inquiries to speak of, or purchase judging from the few orders which were received. Trading has been rather light and confined almost entirely to the car lots of fresh arrivals. Choice to fancy No. 1 Northern, although very scarce, was sale, but there was no urgency to the demand, as millers were out of the market part of the time. Poor, shrunken and shriveled Wheat has ruled dull and has been hard to sell at any price. It is difficult to close out their consignments each day. No round lots to speak of were sold The receipts for the week, including Winter Wheat, were 118 cars, against 207 cars the previous week. There were withdrawn from public elevators 8,000 bu and from private warehouses 16 cars No. 1 Northern on track and arriving sold at $1 09@1 10 and 1 19 No. 2 Northern fresh arrivals free on board quotable at $1 12@1 14. No. 3 Spring fresh arrivals free on board quotable at $1 06@1 15. No. 4 Spring fresh receipts free on board quotable at $1 06@1 09 for very poor, to $1 06@1 09 for good to choice hard variety.

CASH WHEAT—December closed 3⅛c higher and May gained 2⅞@3c. While the volume of trade in Wheat was not large as a whole, there were times during the period under review when the business was quite active, and the undertone seems most intense. The weather in Argentina cut quite a large factor as a price maker, the rains during the week causing many of the local "shorts" to under cover. Reports of bad weather in the Southern hemisphere bringing out both "long" and "short" Wheat. More or less stubborness was displayed by the market from day to day, the "bears" being unable to drive prices below a certain level, while on the other hand the "bulls" were unable to send it above a stated price. There was some business transacted on outside account, including the seaboard, the Northwest, the South and Southwest and the far West, but the trading was largely of a professional character. The "hedges" of the exporter and of the outside elevator man were the exception rather than the rule. Trade was largely of a professional nature, with no bold stands during the week. One of the principal causes for the character of the trading was the almost entire absence of foreign business either in cash or future Wheat or Flour. The market was a domestic affair, with only a few foreign orders sprinkled here and there. The heavy world's shipments were accounted for by the bears, and the export clearances claimed that the markets of Russia are rushing their Wheat to Europe and the Continent owing to the fears of confiscation by the Government, while the "bear" element in the country is hypnotized in another light altogether, saying that with large stocks there and an excellent crop outlook the present prices at Liverpool and other important markets were to the liking of Russian warehouseman and shipper as well as to the peasant. Crop news from abroad showed improvement as a whole. In the United Kingdom ben dicitaius have fallen in all districts, and the weather has been confirmed. Rain is wanted in France and Spain while in Germany the Wheat crop is developing satisfactorily and in Austria-Hungary and Roumania the crops have started well and prospects are excellent. In Russia good rains have fallen in the Southwest, but temperatures are much lower, the Southwest reporting the coldest weather of the season. Australia crop news is favorable. There was a great deal less talk of Hessian fly in the Winter Wheat belt, but this and of moisture attracted a great deal of attention at intervals, or rather the lack of it as a fresh "bull" news. There were all kinds of opinions as to the possible movement of Wheat in the Northwest and Southwest and the effect it would have relative to the future business in Flour, which by the way was rather small. Minneapolis stocks continued to increase, The weekly countries were said to be better kinds, generally speaking, and demand fair to good. Offerings of these grades were very moderate. Offerings of spring ruled firm The visible supply of Barley showed a decrease of 250,000 bu, and was reported at 6 bu ins, against a decrease for the same time in 1903 Local stock did not change; it was 41,000 bu, and was just a little smaller than a year ago Posted receipts for the week were 316 cars, compared with 252 cars the previous week and 200 cars two weeks ago. There was no output from regular houses. Shipments were none taken out last week or the week before New York reported exports of 288,771 bu, compared with 33,333 bu the previous week and 214,286 bu a year ago. Screenings ranged during the week at 33@ 36c for poor to very choice. Feed sold at 36@37c for poor to choice, very choice closed nominally higher. Malting sold at 39@42c, and choice to fancy small berry, quotable at 39@42c; clean, fairly good sold at 41@43c, and choice to fancy ranged at 44@ 46c. Barley in store was nominally the same. There was very little done in the way of trade, there being little demand and what sales were reported were on p. t.

RYE—All lines was quiet, which is usual at this time of the year. Receipts were small and consequently cash markets were not very active. There was but very little interest in the markets and futures, and prices ruled nominal to firm. Clover and Other Seeds were just about steady during the entire week.

Timothy—A quiet, uninteresting market was experienced in the greater part of the week. The business transacted was small, and futures were at most times nominal. There were moderate arrivals of cash Seed, which was mostly ordinary in quality, and the dirty, badly handled and mixed with other seeds. There was a rather unurgent demand for cash Seed of low quality, but what good Seed arrived on the market met with very fair sale. At times the market showed signs of weakness and then there was also signs of firmness noticed but values ruled about steady through out the week. Contract grade of November delivery was nominally quotable at $2 8 @2 82½ per bu; December quotable at $2 62½@2 67½. January ranged at $2 65@2 72½ and March at $2 72½@2 80. Country was more quotable at $2 50@2 60 for poor to fair, $2 62½@2 75 choice to fancy and $2 75@2 80 and rough, dirty or bulky down to $2 00@2 25.

Receipts and shipments were as follows:

Receipts the past week, lbs	1,31[illegible]
A week ago	1,31[illegible]
Two weeks ago	1,31[illegible]
Corresponding week last year	1,03[illegible]

Flax—The market opened steady to firm and there was some advance in prices, which was due to moderate offerings. Trade during the week was of a small character, and the market was dull. There was but little interest shown in the market owing to the small offerings, and the market for futures was also neglected. The crop Year Book for 1904, as shown by the report of the Department of Agriculture was 24,354,000 bu, compared with 27,201,810 bu last year. Receipts for the week were 43 cars and the output was 136,000 bu. Local stocks on hand did not change, and were reported against 101,746 bu last year. Duluth showed an increase of 625,215 bu and reported 3,372,452 bu Minneapolis reported an increase of 147,894 bu, and local stocks in that market were 767,507 bu. Northwestern ranged at $1 10@1 17 and closed at $1 17; No. 1 quoted at $1 10@1 16½ and Rejected was more quotable at 1@2c below the grade above. Cash quotable during the week at $1 10@1 16, and closed at $1 10@. December ranged at $1 12@1 20 and closed at $1 19 sellers. Stocks here and in the Northwest the first of the month were as follows:

	1904.	1903.
Chicago, bu	16,547	3,[illegible]
Duluth, bu	3,372,452	2,[illegible]
Minneapolis, bu	767,507	1,[illegible]

Clover—A little more Clover Seed appeared for sale. There has continued weather very favorable for bringing it along. Some lots were of fine grade, quality and others not so good. Dust seemed ready to take the Seed at former prices. There was no essential change. Business was unusually quiet and inactive. Nothing was said about or done in futures. The main neglected Contract grade, spot or November delivery remains at $12 00. Country lots were quotable at $9 50@11 00, according to grade and fancy above Fair to good, $9 50@11 00.

Other Seeds—For Hungarian and some Hungarian Millet a slight improvement in prices was noted, but the market was generally without change and was said to be slow. As a reason for the market improving it was suggested that crop returns, perhaps, did not show so large a yield as had been expected. The quotations for Hungarian day to day are shown in the table which appears elsewhere.

BUCKWHEAT was lower. A little more came for sale. It was not this which caused the decline, but much as the mild, unseasonable weather experienced. Mild weather was said to have caused small consumption of Buckwheat Flour. There was a decline to $1 20@1 25 for good milling. A decline of 1c per 100 lbs.

HAY—The receipts for the week were 6[illegible] against 5,782 tons for the previous week, [illegible] tons for the week were 615 cars, against 5[illegible] tons for the previous week. The arrivals of both Timothy and Prairie Hay were liberal during the early part of the week and the demand was only

COOPERAGE—Nothing of consequence done in the Cooperage market the past week. Local and outside packers were not inclined to purchase, as they have fair supplies on hand. Offerings were moderate. Ash Pork Barrels were quiet and prices nominally steady at $1 00@1 02½. Oak Pork Barrels were in very light demand, and quotable at $1 10@1 15. Lard Tierces were in small demand, and offerings were fair. Prices quotably steady at $1 25@1 27½. Iron bound Lard Tierces were quiet and quotable at $1 17½@1 20 for six hoop and $1 25@1 27½ for eight hoop. Oleo Tierces were quiet and prices were unchanged at $1 25@ 1 27½.

HOGS—The supply of Hogs during the past week was fairly good, and there was very little change in the quality. Market was fairly active and the undertone was rather firm in a general way. Packers purchased rather freely and shippers provided for fair orders on Eastern account Prices were advanced 5@10c on the whole range, and the market closed comparatively steady. Sales during the week were made at $4 65@5 15 for light, $4 60@4 85 for rough packing, $4 75@5 20 for mixed, and $4 80@5 22½ for heavy packing and shipping lots, with the bulk of the trading within the range of $4 85@5 10 for fair to good averages. At the close about 5,000 Hogs remained in the pens unsold Pigs were in fair supply, and rather good demand, and sales were made at $4 50@5 25, according to size and condition. Supply of Hogs at other large Western packing points was good, and the quality only fair

PACKING—A fairly good business was reported in packing circles during the past week. Hogs were in fair supply and prices higher, but packers were disposed to purchase Hogs and manufacture Products with a little more freedom. Mess Pork was cut sparingly. Other cuts of Pork were made moderately. Lard produced in fair quantities and the average yield was not very good. A very small proportion placed in tierces. Domestic cuts of Hams made in fair quantities, and the bulk cured by manufacturers. Skinned Hams made in fair quantities, and only a small proportion sold from the block. Foreign cuts of Hams neglected. Shoulders made in small quantities, and a fair proportion sold from the block to the retail trade. Picnic Hams made in fair quantities, and the bulk cured by manufacturers. Long Clear Sides made very sparingly and Extra Long Clear Sides neglected. Short Clear Sides made in moderate quantities. Extra Short Clear Sides made in fair quantities. Short Rib Sides made moderately. Extra Short Rib Sides made in fair quantities. Rough Sides made a little more freely, and chiefly of medium averages. Backs and Bellies made moderately. Loins cut in fair quantities for the Dressed Meat trade and local retail wants. Foreign fancy and special cuts of Meats made in limited quantities.

PROVISIONS—Rather a quiet feeling prevailed in Hog Products during the early part of the week, but a little more interest was manifested toward the close. Outside orders were moderate, and local operators and packers were not particularly interested in the market. Hogs were in fair supply, with prices slightly higher, and this factor had some influence in checking the upward tendency of prices. The supply of Hogs at the leading packing points was fairly liberal, the returns of the packing of the West for the week exhibiting an increase of 55,000 Hogs, compared with the returns for the corresponding week in 1903. The rather steady feeling in Corn, notwithstanding the good prospects for the crop, also had a little effect in encouraging speculative buying. Near deliveries were quiet, though held with considerable steadiness. The deferred deliveries attracted fair attention, with a little more interest manifested in May. Early in the week, the market was not very strong, with fair offerings, and prices ruled slightly lower. Later, there was fair miscellaneous buying, while the offerings were moderate, and a firmer feeling was manifested. Prices were advanced materially on all the leading articles. Toward the close, there was a little general realizing, while buyers were backward, and an easier feeling prevailed Prices settled back moderately, and the market in a general way closed comparatively steady. Supplies of the speculative articles are gradually decreasing, and production is light, the quantity suitable for delivery after the close of the year being small. In the shipping branch of the trade there was only a moderate business transacted, though there was a little more interest manifested toward the close Foreign markets were quiet and dull, with Meats generally quoted lower, while Lard was steadier at a slight advance. Orders from abroad were small and most bids below the views of sellers. The domestic markets were quiet and inclined to dullness. Merchants are fairly well supplied for the present, especially at the larger distributing points. Orders for home wants were rather small and for conservative quantities. Receipts of Product from the interior were fairly large, as packers were disposed to sell. Shipments were rather liberal and widely distributed. Exports for the week were fair. As a rule, prices of articles required for immediate shipment were steadier toward the close.

Pork—A fair speculative business was transacted in Mess Pork during the week just closed. Offerings were fair, especially of the deferred deliveries, while the demand was moderately active, but not for very large quantities. Trading largely local. Only occasional trades made for November and December deliveries. Deferred deliveries were fairly active. During the early part of the week the feeling was rather firm, with fair miscellaneous buying, partially credited to "shorts." Prices irregularly advanced 30@35c on the whole range. At the improvement there was a little pressure to sell, while the demand was moderate, and an easy feeling was developed Prices gradually settled back 27½@30c, but rallied again 7½@10c toward the close, and the market closed comparatively steady. Little change in the supply on hand Inquiry on shipping account was moderate, with not very large offerings. Cash lots at the close were quotable at $11 10@11 15. Other cuts of Pork were called for moderately, and a few trades made at about former figures.

Lard—Trade in Lard was on a moderate scale during the past week. Offerings were not very large, and the demand was only fair, and for moderate quantities. Foreign advices were a little more favorable to holders. Supply on hand being gradually reduced, and production on a moderate scale. Near deliveries rather quiet. Deferred deliveries fairly active. Early in the week, the feeling was rather firm, with fair miscellaneous buying, and prices were advanced 17½@20c. Toward the close, there was a little inclination to realize, and buyers were a little backward. Prices gradually settled back again 7½@10c, and the market closed comparatively steady. Demand on shipping account was only moderate, and offerings were not very large. A few lots were accepted by exporters. Prices generally ranged at November figures. Refined was in light request for export, but prices were not made public. Loose lots were in fair request, but the offerings were moderate. Holders firm in their views. Prices were quotable at 30@32½c discount on January figures. Leaf Lard was in good demand, and the offerings were fair. Moderate trades were made at $7 12½. Neutral was called for sparingly, and there was a little pressure to sell. Feeling was rather steady and prices were unchanged, closing at $8 62½@8 75 for No. 1, and $8 12½@8 25 for No. 2.

Short Rib Sides—A fair business in a speculative way was transacted in Short Rib Sides during the week just closed. Rather a good demand prevailed at times, and offerings in a general way were moderately free. Trading almost exclusively in January and May contracts. Near deliveries were quiet. Supply on hand gradually decreasing, and the production is moderate. Trading mainly local. Early in the week, there was quite a good general demand, with moderate offerings, and prices were advanced 12½@15c. At the appreciation there was a little desire to realize, while buyers were backward, and an easy feeling was developed. Prices receded again 7½@10c, and the market closed comparatively steady. The demand on shipping account was only fair, while the offerings were moderate. Holders rather firm in their views, especially for desirable averages. At the close, cash lots were quotable at $6 87½@ 7 12½, according to weight.

Green Meats Very little business was transacted in Green Meats during the past week, and the feeling was rather easy. Sellers were not pressing much property for sale, and the demand from all sources was limited. Local curers were not inclined to purchase, and outside orders were light. Sales were limited to filling a few small orders. Prices ruled slightly lower on all the leading articles. Hams were called for sparingly, and prices favored buyers. Skinned Hams were quiet and dull, and prices ruled about ⅛c lower. Shoulders were in light request and prices inclined in favor of buyers. Picnic Hams were rather slow sale, and prices were easy. Bellies were in small request and prices were without material change.

Pickled Meats—A comparatively small trade was transacted in Pickled Meats during the past week, and the feeling was rather easy. Offerings were fair in a quiet way, and the demand from all sources was limited. Stocks of all kinds are rather large. Orders from abroad were small, and prices ruled lower on Hams. Domestic markets were quiet and rather dull Merchants not disposed to purchase to any extent for future delivery. Hams were in small request and rather slow sale at former figures. Skinned Hams were dull and dragging, with a little pressure to sell, and prices were about ⅛c lower. Some demand for delivery from January to September. Shoulders in limited request; prices inclined in favor of buyers. Picnic Hams were in moderate demand, with a little pressure to sell, and prices slightly lower. Bellies were in small request and prices without material change.

Dry Salted Meats—In a general way there was a little more interest manifested in the market for Dry Salted Meats during the past week, and a little more steadiness prevailed. Supplies of all kinds are fair, and holders a little anxious to sell, but not quite so ready to grant concessions. Export descriptions in small supply, with little demand from abroad, as the feeling in that quarter is rather dull, and lower prices quoted on most descriptions. Orders from the domestic trade were only fair, and the bulk of the orders received were for small quantities. Production fair. Foreign cuts of Hams inactive, and prices nominal. Shoulders in small request, and prices inclined in favor of buyers. Long Clear Sides were quiet and prices without material change. Extra Long Clear Sides inactive. Short Clear Sides in moderate request and prices ruled steady. Extra Short Clear Sides were called for moderately and prices slightly higher quotable at the close at $7 05@ 7 10. Extra Short Rib Sides were in fair request to fill small orders and prices ruled comparatively steady closing at $6 95@7 00. Rough Sides met with a little more favor, but trading was moderate Prices ruled steadier, closing at $6 87½@7 12½, according to weight. Plates were in limited demand and prices were unchanged. Butts were quiet and prices ruled steady. Backs were in light demand and prices without material change. Bellies were called for moderately, and prices ruled rather steady. Foreign fancy and special cuts of Meats were quiet and prices nominal.

Smoked Meats—Only a moderate trade was reported in Smoked Meats during the past week, and the feeling in a general way was steadier. Offerings were not very large, and orders were mainly for moderate quantities. Stocks of all kinds were fair. Hams in fair request and prices ruled steady. Skinned Hams were in small request and prices favored buyers. Shoulders were in light demand and prices ruled steady. Picnic Hams were in small request and prices ruled slightly lower. Sides of all kinds were called for moderately, and prices were about ⅛c higher all around. Breakfast Bacon in fair request and prices well maintained.

Beef Products—A quiet and rather easy feeling prevailed in Beef Products during the past week, and prices for some descriptions inclined in favor of buyers. Offerings were fair, and the demand was on a moderate scale. Cattle in fair supply and prices well supported, especially for the better qualities. Foreign markets rather steady. Domestic markets quiet. Shipments of Dressed Beef rather large. Manufacture of Products was moderate, and supplies on hand are fair. Beef Hams were called for moderately, and prices ruled 25@50c lower. Extra Mess Beef quiet and steady at former figures. Plate Beef in rather light demand and easy at 25c decline. Extra Plate Beef in moderate demand and prices ruled about 25c lower. Tallow was inclined to quietness and prices without material change. Oleo-Stearine rather quiet and steady at 6⅞@7c.

Greases—A moderate trade was reported in Greases during the past week. Offerings were not very large, and the demand was only fair. Undertone to the market was comparatively steady, and there was no material change to note in prices.

ITEMS OF GENERAL INTEREST.

Clearings of the Chicago banks were $44,310,867 Wednesday. This figure is the largest in the history of the Chicago Clearing House Association coming after a single holiday, and reflects the improving volume of business. The amount was exceeded by about $2,000,000 last year, when Decoration Day came on a Saturday, and the following Monday was a legal holiday on account of the election of judges. The triple holiday allowed enough checks to accumulate to cause the clearings of the following Tuesday, June 2, to set the record in the history of the clearing house. The figure, Wednesday, was second to it.

Freight officials of Western railroads met in Chicago, Wednesday, and discussed the request of the Transportation Committee of the Board of Trade that the privilege of storing, cleaning and grading Grain at Chicago be granted on the same basis of rates as is made on all shipments from Minneapolis to the Atlantic seaboard by other gateways. As now applied the Grain rates from Minneapolis discriminate against Chicago and the Grain dealers here No decision as to changing the rules and rates on Grain shipments from Minneapolis was reached by the freight officials. The executive officers probably will decide the question at a meeting to be held at an early date.

The Otis Elevator Company will, by the close of this year, have anticipated all of its $400,000 4 per cent Gold notes maturing Jan. 1, 1906. On Jan. 1, 1907, $100,000 additional 4 per cent Gold notes mature, and with their payment the company will have no obligations except its $5,599,500 preferred and $6,350,300 common stock. The policy of the company is to anticipate the payment of its notes from surplus earnings as fast as expedient, and, with the notes out of the way, an increase in dividend rate on the common stock may be expected. The company now pays 2 per cent on its common stock, but for the calendar year 1903 it earned 9 per cent thereon. Instead of increasing its dividend, as had been expected, the money has been used to retire notes in advance of their maturity: $200,000 was cancelled in August and $150,000 in June last.

In the case of Crawford & Valentine, Stock brokers of Chicago, versus John E. Burke, Judge Brown of the United States Supreme Court, Monday, delivered the opinion of the court, which reverses the decision of the Supreme Court of Illinois. The case involved an action to recover damages for the alleged willful and fraudulent conversion of 550 shares of Metropolitan Traction. In the complaint it was averred that the brokers had sold the stock and converted the proceeds, amounting to the sum of $10,000, to their own use. The firm of brokers entered a plea of discharge in bankruptcy, but the Illinois court refused to consider it and entered judgment for the damages claimed. In his opinion Judge Brown said that the only federal question involved was whether the Supreme Court of Illinois gave the proper effect to the discharge in bankruptcy He held that it did not, and therefore reversed the judgment.

The United States Supreme Court in a decision read by Chief Justice Fuller, Monday, refuses a writ of certiorari in the case of the Pacific Mail Steamship Company vs. Sarah Guyon. The case involved the question of damages on account of the wreck of the City of Rio de Janeiro, which sank off the Golden Gate at San Francisco in 1901, carrying down 120 persons, including Consul General Wildman. The case was a test one, and it was charged that, although twenty minutes' time elapsed after the signal to lower boats before the catastrophe occurred, only one boat was floated. This, the steamship company claimed, was due to the fact that, as many members of the crew were Chinese, they could not understand the orders given them, but the court refused to limit liability on this account. The denial has the effect of making final the decision of the Circuit Court of Appeals, which was favorable to the passengers

A prominent Chicago banker is quoted as saying that the plan for unifying the Chicago elevated railroad companies has advanced no further than it did a couple of years ago, when virtually the same interests had the matter under consideration. The difficulty of bringing the properties together has always been the wide difference in relative values held upon the various companies. The South Side company is said to be valued by those who control it at figures far in excess of what it will really be worth for a number of years to come. The good will of its extensions are now put at a price which lifts the figures at which control of the road could have been bought two years ago very materially. A similar state of affairs is said to exist in the instance of Metropolitan West Side Elevated, the control of which is said to be held in Chicago. The big interests in that property are said to be holding out for nearly twice as much as the present market value of the stock. It is said that the Northwestern, Oak Park Elevated and the Loop, all owned by the same interests, would go into the scheme on a more reasonable basis.

THE WEATHER CONDITIONS.

Indications are for fair weather throughout the district, except possible threatening in Western lake region. Temperatures will rise somewhat in this section.

ITEMS OF GENERAL INTEREST.

The plant of the Watson Stillman Manufacturing Company at Aldene, N. J., was burned, Thursday, causing a loss of $65,000.

The Butterick Company has declared the regular quarterly dividend of 1 per cent, payable Dec. 1. Books close Nov. 19 and reopen Dec. 2.

The American Graphophone Company has declared a dividend of 16c on its common stock, payable Dec. 15 to stockholders of record Dec. 1.

The American Railways Company has declared a dividend of 1½ per cent, payable Dec. 15 as registered Nov. 30. Books close at the latter date.

The fire loss of the United States and Canada for the month of October aggregated $12 866,000, against $10,050,000 for the same month in 1903.

At a meeting of cast iron pipe manufacturers, held Nov. 10, an agreement was reached to maintain prices at the recent advance of $2 00 a ton.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Oct. 22 have amounted to 648,000 bu, against 1,314,000 bu in the previous year, and 1 656,000 bu in 1902.

For the purpose of paying the regular quarterly dividend of 2½ per cent on Dec. 12, the Diamond Match Company will close its transfer books on Nov. 28 and reopen them Dec. 13.

The Norfolk and Western Railroad directors have declared the regular semi-annual dividend of 1½ per cent on the common stock, payable Dec. 16 to stockholders of record Nov. 30.

The American Express Company has declared the regular semi annual dividend of $3 00 a share, and an extra dividend of $1 00 per share, payable Jan. 3 to stockholders of record Nov. 30.

The Detroit *Tribune* says: "It transpires that the Pere Marquette and Cincinnati, Hamilton and Dayton Railroads are practically in the hands of E. B. Hollins & Co. and J. P. Morgan & Co. to be sold."

The United Cigar Stores Company has declared a cumulative dividend of 7 per cent on the preferred stock, the company having been in business three years. This would mean a payment of 21 per cent.

A letter from a Chattanooga miller gives a summary of the milling situation in Tennessee. Millers are said to be well supplied with Wheat, and have shut down owing to their inability to sell their Flour at a profit.

Reports from Kansas points say the quality of the Corn crop is fine. A lot of Corn was recently received at Chicago. One of the oldest of the Chicago inspectors examined it and declared it dry enough to pass No. 2 in Chicago.

For the purpose of paying on Dec. 1 the last quarterly installment of 1¼ per cent of the dividend of 5 per cent for the year, the North American Company will close its transfer books on Nov. 19 and reopen them on Dec. 2.

It is said that the Reading policy is to begin the payment of dividends at the rate of 3 or 4 per cent per annum next year, and that after Baltimore and Ohio receives an increased income from its ownership in Philadelphia and Reading shares that its dividend will be increased to 5 per cent.

The receipts of Flax Seed at Bombay for the week ended Oct. 6 amounted to 1,550 tons, against 2,446 tons in the previous week and 788 tons in the same week last year. The total receipts at Bombay from Jan. 1 to Oct. 6 amounted to 204,130 tons, against 137,810 tons in the same period last year.

A dispatch from Montreal states that it has been announced there that Pressed Steel Car and American Iron and Foundry interests would retain just enough of the $3,000,000 capital of the Canadian Car Company to give control, and that the rest of stock has been sold to Canadian Pacific and Grand Trunk Pacific interests.

Dornbusch's Buda Pesth correspondent, writing under date Oct. 29, says: "No improvement can be reported in the Flour market. The tendency is, if anything, more in a downward direction, while business is very difficult. The political situation in the week failed to in any way affect trade. Mill feedingstuffs continue well maintained; there are no supplies of coarse Bran."

"Hides are more closely sold up on the part of tanners than ever before known," said a Hide man of one of the large packing establishments. "The take-off is a little behind last year's, and we are able to sell our Hides in advance of securing them. Prices are high the world over, and there is a phenomenal situation for Hides and Leather, not only in this country, but everywhere."

A Syracuse, N. Y., dispatch says: "T. G. Cranwell and A. W. Norton, formerly connected with the American Can Company, have been in this city several days seeking a site here for a plant to be erected by the Continental Can Company, which was recently incorporated in New Jersey with $500,000 capital. It is said that plants will also be erected in Brooklyn, Philadelphia and Baltimore."

It is reported that stockholders in the Michigan Central Railroad Company have taken the preliminary steps to bring suit for an accounting against the directors of New York Central. There is a report to the effect that the real owner behind the suit is F. Augustus Heinze. William Rockefeller and James Stillman are directors of the New York Central as well as of the Amalgamated Copper Company.

The governing committee of the New York Stock Exchange has ordered the listing of the common and preferred stocks of the Federal Mining and Smelting Company, which has a contract with the American Smelting and Refining Company to buy its entire output from its present mines for a period of six years from Sept. 1, 1903. In the year ending Aug. 31, 1904, the company reported a surplus of $756,416 over all expenses and dividends.

The Michigan Central Railroad has brought suit against the State of Michigan for damages alleged to have been wrought by the act of Legislature canceling its charter of 1846 and substituting therefor the general railroad law. The suit is brought under an act of the Legislature at that time permitting the railroads to set up claims for such damages as they suffered by the readjustment of charter rights. The amount of the claim on the Michigan Central is about $1,000,000.

Officials of the Rock Island Company say that the rumors and reports which have been so persistent of late to the effect that a new funding scheme or bond plan was being considered, or was to be made by the company, is without foundation. No new scheme or bond issue, they say, is even being thought of. The bond plan which was perfected a year or more ago was a carefully considered matter, and is now being carried out in a thoroughly satisfactory and businesslike manner, and there is no thought of any change or modification whatever.

The *Mark Lane Express* of Oct. 31 says: "The splendid weather of the past week has kept farmers in good heart, and the agricultural situation to-day is more hopeful than it has been for a long time. In the cereal year now in progress—the year ending Aug. 31 next—prices will probably remunerate the grower. The farmer started Wheat sowing so early this autumn that fields may already be seen which wear the green tinge that indicates a new crop in being. There is little doubt that the Grain has germinated very favorably; the color, the main guide in this earliest stage, is very satisfactory and healthy."

The New York Produce Exchange has adopted a new agreement regarding the handling of Grain by the trunk lines. The contract now in effect has been in force during twenty years, and is said to be antiquated and no longer serves present requirements. The new one has been submitted to the trunk line committee for adoption. It provides in effect that the railroads may put together in elevators, warehouses, boats or barges, provided by themselves for the purpose, Grain of the same kind and grade without regard to its ownership, after it has been inspected and weighed in accordance with the agreement. Receivers of Grain or the railroads may preserve the identity of the shipments if they choose. It is also provided that all questions of difference between the New York Produce Exchange, or any member, and the railroad companies parties to the agreement growing out of the inspection and delivery of Grain arriving by rail at New York shall be settled by a private arbitration committee consisting of three persons.

Rumors of a dividend on National Lead common stock accompanied the advance in the stock, but in well informed quarters these rumors were discredited. In view of the fact that the company is facing additional competition as a result of the more extended operations of the United Lead Company, it is thought that it would be an ill advised move if the directors should use its surplus earnings at this time in paying dividends on the common stock. There is reason to believe that the company will husband its resources to meet the conditions as they may exist after the new plants of the United Lead Company, the National's principal competitor, now in process of construction, are in full operation. In 1903 the National earned 3½ per cent on the $15,000,000 common stock, while in 1902 only 1 per cent was earned on this issue. The business of the company has been good so far this fiscal year, and, considering that general business was poor during the early part, the financial results for the year are expected to be on a satisfactory scale. The so-called Lead merger which was recently abandoned gives no promise of being revived in the near future, but there are those who still believe that a merger of the National and the United Lead Company will ultimately take place.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand continues small and the feeling easier. Export bids are too far out of line to consider and the domestic trade is awaiting for present prices to be lowered

WINTER WHEAT The market was quiet and feeling weaker, with prices quotably at the close about 1c lower. Receipts small and not much demand. No 2 Red in store quotably $1 16⅞@1 18, and fresh arrivals free on board quotably $1 17@1 18. No. 3 Red fresh receipts quotable at $1 12@1 15, with sale of choice at $1 15 No Grade Red sold at 91c. No. 2 Hard fresh arrivals free on board quotable at $1 12@1 15. No. 3 Hard fresh receipts free on board quotable at $1 05@1 13, with a sale to go to store at $1 13, and at the river at $1 05. No. 4 Hard at the river sold at $1 00.

SPRING WHEAT The market was very quiet and the feeling easy, with the closing about 1c lower. Receipts small and demand light. No. 1 Northern fresh arrivals free on board quotable at $1 17@1 20 and No 2 Northern at $1 10@1 15. No. 3 Spring quotable at $1 03@1 12. No. 4 Spring sold at 70c@$1 00 for poor to good.

REGULAR WHEAT—Lower prices ruled, resting spots showing losses of ⅝@⅞c. The market was fairly active late, notwithstanding the fact that the East was entirely cut off by the storms. There were slight reactions from the lowest prices reached. The only sale of cash was 15,000 bu here. There was a wonderful falling off in outside trade in the Wheat market this morning, the drawback being the lack of wire service between Chicago and the seaboard. The usual weekly routine statistics, including the world's shipments, the amount on ocean passage and the visible supply, were not to be had, and the daily markets from the Continent and the United Kingdom were also missing. The "bulls" who loaded up at a time when prices were below the present level were the leading sellers, not caring to hold on to a big line of "long" Wheat with the demand in the pit quite slow. There was doubtless a profit in some of the Wheat that went overboard, while there were losses in some of it. There was some "short" selling noticeable. The elevator interest that has been selling Wheat in such liberal quantities of late was neither a buyer nor a seller in a liberal way to-day, allowing the market to take care of itself. Kansas City expects only 40 cars of Wheat in to-morrow's receipts. Northwestern receipts were considerably smaller than a week ago and a year ago A message from Minneapolis said that country deliveries of Wheat in the Northwest were on the increase. Receipts at St. Louis and Kansas City were 223,000 bu, against 436,000 bu a week ago and 228,000 bu a year ago. Shipments from both points were 127,000 bu, compared with 114,000 bu a week ago, and 176,000 bu a year ago. Generally fair weather is expected in both Wheat belts, with milder. Winnipeg received 276 cars, compared with 207 cars a year ago. St Louis and Kansas City continued to pour in bad crop reports from the Southwest, and a *Broomhall* private cable reported freezing weather in Argentina. Richmond, Ind., wired: "Government Wheat report from Ohio, Indiana, and Michigan announce that Wheat is badly affected by Hessian fly." Primary receipts were 391,000 bu smaller than a year ago. Cash business was slow. Receipts at Duluth 246 cars at Minneapolis 763 cars, total of 1,009 cars, against 583 cars Saturday, 1,163 cars a week ago, and 1,141 cars last year. Local receipts included 16 cars Winter, 30 cars Spring and 5 cars mixed, a total of 51 cars, against 146 cars last year. Included in above were no cars contract grade. There were also 5 cars and no bu taken from unlicensed elevators The estimated receipts for to-morrow are 91 cars. The withdrawals were 19,000 bu. Receipts at Western points were 1,295,097 bu, against 1 685,803 bu last year. At Eastern points no wire, against 341 750 last year. Shipments from Western points 711,525 bu, against 741,311 last year, and from Eastern points no wire against 428,786 bu last year. Shipments of Flour no wire. Exports of Wheat in Flour were none.

Future Deliveries of Regular Wheat—Light trade and market weaker.

NOVEMBER—Entirely nominal and closed about $1 13⅛

DECEMBER—Sold at $1 13⅜@1 14⅝. Opened at $1 14¼; sold to $1 14⅛, to $1 14⅝, to $1 14¼, to $1 11⅜, to $1 11⅛, to $1 14⅜, to $1 13⅝, to $1 14, to $1 13⅜, to $1 14, to $1 13⅝, to $1 13¾, to $1 13⅝, and closed at $1 13⅝ bid

MAY—Sold at $1 13⅛@1 14¼. Opened with sales at $1 13⅞ to $1 14@1 14⅛; sold to $1 14, to $1 13¾@1 13⅞, to $1 14¼, to $1 13⅞, to $1 14, to $1 13⅛@1 13¼, to $1 13⅜@1 13½, to $1 13⅛, to $1 13¾@1 13⅞, to $1 13⅜, to $1 13¾, to $1 13⅜, and closed at $1 13⅜ bid

CORN—There were losses of ⅛@¼c, and market was tame. The only cash sales were 10,000 bu here. The Corn market averaged lower during the morning, the principal "bearish" factor being the receipt of 250 cars, with an estimate for 395 cars to-morrow. There was considerable talk on the cash side of the house of an increased movement of the new crop, which with the present excellent weather was against the price as well as the "long" holders. The temper was firm early, but it soon gave way to weakness. There was the absence of the usual cables from abroad, as well as the routine weekly statistics, owing to wire troubles between Chicago and the Atlantic seaboard. Primary receipts were 406,000 bu, compared with 426,000 bu a year ago. There were 151,000 bu and 63 cars out of elevators Receipts, 147,400 bu; shipments, 255,774 bu. JANUARY—Sold lightly at 46¾c and closed there.

MAY—Sold at 46⅜@46¾c. Opened at 46⅝c to 46½c, sold to 46⅝@46¾c, to 46½@46⅝c, to 46¾c, to 46⅜c, to 46⅝c, to 46½c, and closed at latter price asked.

JULY—Sold at 46⅜c to 46½@46⅝c. Opened at 46⅝c, sold at 46½@46⅝c, to 46⅜c, to 46½c, and closed at 46⅜@46½c asked.

OATS—Were traded in sparingly and prices held within a narrow range, the close being at a net loss of ⅛@¼c. The usual statistics of the visible supply was not given out. Local stocks decreased 14,000 bu, and are 5,240,000 bu Arrivals were 225 cars, with 153 cars estimated to-morrow Withdrawals were 105,000 bu. Seaboard clearances not reported. Duluth received 40 cars and Minneapolis 74 cars. Cash lots were slow with prices steady to ½c lower. No 4 White sold at 30½c Standard at 30½c. The latter in store closed at 29½c.

Oats by sample were steady to ½c lower. Supply fair and demand slow, owing to the inability to communicate with the East. Sales on track and free on board: No. 4 White at 26@30½c. No. 3 at 27½@29c. No 3 White at 31@31½c Standard at 31½@31¾c. No. 2 at 29¼@29½c Billed through No. 4 White at 30¼@31c No 3 White at 31@31½c Standard at 31@31¾c. No. 2 at 29c. No 2 White at 31¾c. At the river: No 4 White at 27@29¼c. No. 3 at 27¾c. No. 3 White at 29@29¾c. Standard at 29¾@30½c.

Future Deliveries of Contract Oats—Were slow and lower.

NOVEMBER—Closed at 29⅝c

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Nov. 1.]

United Kingdom—Reports as to the new seedings in the United Kingdom continue very satisfactory. There is still some mention of the want of a little rain, but the advantages of a generally dry autumn are so manifest that growers can well afford to wait a little longer for a good soaking rain. The dry period has been of immense value for ploughing and cleaning the land, as well as for lifting Potatoes and Roots. Where the new Wheats are above ground the plant has a good healthy color, and there is every chance that the sowings to be made in November will be on as large an area as in October. As a consequence of the political excitement values last week were generally well maintained, but on only a few cases was it possible to obtain an advance; the official average was 30s 6d, against 30s 4d the week previous and 26s last year. Supplies at most markets are moderate or small.

Russia—There are still complaints concerning the new crops in some districts of the South and Centre, but generally the condition of the seeding gives satisfaction. Stock returns from Southern ports show good shipments, but there has not been much increase on the month; at Northern ports liberal quantities of Wheat are held and shipments show that quarter recently have been relatively large.

Roumania Bills reports sowing of Winter Wheat still going on under favorable conditions, and the larger the weather remains favorable the greater the area under Wheat will be. Farmers are quite satisfied with the progress made and everything looks very promising. Slight frosts are reported. Supplies at the ports are moderate, but there are still fairly large stocks and the Grain is firmly held.

Bulgaria—The weather keeps favorable for the new crops, which are getting a good start. Port stocks are of good size.

Austria-Hungary—The new seedings are now nearly all above ground, and look remarkably healthy and strong. Good rains fell last week. Stocks at Buda Pesth remain large.

Australia—We have no fresh crop news, except by mail, but as there is rather more activity in the freight and cargo markets, it may be presumed that the recent improvement is being maintained. Harvesting should make a start by the middle of this month, and be general during the last part of November and beginning of December.

Argentina—Cabled reports to-day announce damp, cold weather, which is not favorable for the Wheat crop, of which a large portion has now reached the flowering stage. Our records show that in 1897, when the crop was a partial failure, much damage was done by frost and cold during the early days of November. The bad weather in November was not solely responsible for the poor harvest results, for drought was also severe in all their share, but it certainly caused serious damage. Shipments last week showed some decrease, but quantities were very fair for the time of year.

India—No fresh news about the new crop has come to hand since last Tuesday. It is predicted on good authority that shipments will continue on a liberal scale for some time longer.

France—The drouth in some of the districts of the Center and South, to which we referred last week, is still unrelieved, and in the worst parts sowing is quite impossible. Although some of the affected districts are fairly important as Wheat growers, yet the matter is generally regarded as of only local interest, and, generally speaking, the agricultural situation is considered favorable. Farmers continue to offer sparingly on provincial markets, but trade is very dull and prices have further receded about 6d per quarter.

Italy and Spain—We have no further crop news from these growers. Both countries are taking fair quantities of foreign Wheat, but their purchases are not noticeably large.

Germany—Autumn field work continues to progress satisfactorily, and the new crops look well. Lack of sufficient water still hinders interior navigation and the same is now reported of advanced rates it is doubtful if there will be any real improvement before the spring. It is stated by a semi-official newspaper that the new import duties on Grain will not be put in force until 1904.

North Africa—Reports from Algeria and Tunis say that a larger area is being put under Wheat and the weather is quite favorable.

FLAX SEED INSPECTION RULES.

Adopted by the Board of Trade of the City of Chicago, February 14, 1899, and to go into effect July 1 1899.

SECTION 1. The weight per measured bushel designated for each grade shall be that of commercially pure Seed.

No. 1 Northwestern Flax Seed—Flax Seed to grade No. 1 Northwestern shall be sound, pure, dry and sweet. It shall be Northern grown, or have the usual characteristics thereof. The maximum quantity of dockage, storage or other damaged Seed intermixed shall not exceed twelve and one-half per cent. The minimum weight shall be fifty-one (51) pounds to the measured bushel.

No. 1 Flax Seed—No. 1 Flax Seed shall be sound, dry and free from objectionable odors, and intermixed not more than twenty-five per cent of immature or field, stack, storage or other damaged Flax Seed, and weighing not less than fifty (50) pounds to the measured bushel.

Rejected Flax Seed—All damp and musty Flax Seed and that which is intermixed with immature or field, stack, storage or other damaged Flax Seed in excess of twenty-five per cent, and weighing not less than forty six and one-half (46½) pounds shall be graded "Rejected."

No Grade Flax Seed—Flax Seed that is wet, mouldy, warm or in a heating condition or is in any wise unfit for temporary storage, or which is more than forty-five per cent damaged, shall be graded "No Grade."

Flax Seed containing stones, burnt, or intermixed with burnt Seed, shall not be known by any grade, but shall be inspected in usual way to determine percentage of impurities, and shall be posted as "Burnt or Smoky Flax."

SEC. 2. In sampling and inspecting Flax Seed received in bulk, the Flax Seed shall pass through a screw sampler shall be passed down through the Seed, at not less than seven points equally distributed. At each point an equal quantity of Seed shall be taken, aggregating three pounds, which shall be drawn from a tube attached to sampler. When car is inspected, cards in duplicate shall be written stating the result—the one tacked to Grain door of car, and the other attached to sample provided, always, should the car be so unevenly loaded, either as to quality or impurity, as to leave a doubt in the mind of the inspector as to correctness of sample, he will not card the car, but note the fact and report accordingly.

SEC. 3. When inspector receives notice to inspect Flax Seed to or from bags, he shall proceed as follows: As the bags are filled or emptied, he shall take from each bag the same quantity. The sample so taken shall be intermixed, and three pounds taken therefrom, which shall be a fair average sample of lot

SEC. 4. The inspection of Flax Seed from elevator or warehouse, to take transportation, shall be made by passing a Grain trier of suitable length through each draught after the Seed has been elevated to shipping scale hopper to be weighed, and drawing therefrom at each filling of hopper an equal quantity. From every ten samples so drawn, an average sample of three pounds shall be taken. On completion of inspection, the elevator or warehouse, an equal quantity of Flax Seed shall from the accumulated three pound samples, aggregating six pounds, constituting a composite average sample of shipment from that elevator or warehouse.

SEC. 5. The inspection of Flax Seed from elevator or warehouse to railroad transportation shall be made by drawing with Grain trier, samples from eight points equally distributed in car, and taking from each an equal amount, aggregating three pounds, which shall be considered a legal sample.

SEC. 6. To test Flax Seed one pound of average impurity and quality shall be taken from the sample to be tested, and the impurity or foreign matter therein shall be removed as near as practicable, by hand sieving, one or more times, over three by sixteen, the other with meshes sixteen by sixteen to the inch. The percentage by weight per measured bushel of the commercially pure Seed shall be determined by the use of proper testing scales. The impurities and foreign matter in Flax Seed, which shall be enveloped and tagged with the result of test, and numbered to correspond with records, and kept on file not less than sixty days.

SEC. 7. The inspector, at the date of inspection, shall issue a certificate of inspection setting forth grade (if Rejected or No Grade) the percentage per cent of impurity, weight per measured bushel, and fees. Also the number of bushels of Flax Seed, which either received or shipped, the number and initials of cars, and the number of gross bushels shipped from named elevator or warehouse.

SEC. 8. The inspector shall put on Change at the first session of each week and month, a tabulated statement showing in detail and total by as follows: The daily—All inspections of Flax Seed since last report. The weekly—The amount of Flax Seed in store. The monthly—The inspected receipts and shipments during the month last past.

SEC. 9. On notice from any elevator firm that they are about to receive Flax Seed for storage, Flax Seed for storage, the inspector shall daily, in person or by deputy, call at Flax Seed inspected on said road. The inspection of all Flax Seed shipped from elevator shall also be reported in like manner.

SEC. 10. The inspector shall lay before the Board of Directors not later than the second Monday after the second day of January each year, a tabular statement of the entire inspected receipts and shipments of Flax Seed the year preceding year ending Dec 31, with such information as may be of interest to the Board. Also, a financial report showing the receipts and disbursements of the office.

SEC. 11. Any member of the Board of Trade interested shall have the right of appeal from the decision of the Inspector to the Committee on Flax Seed Inspection, by giving notice in writing and paying to the Secretary of the Board five dollars for each and every case appealed. If the inspection is sustained the five dollars shall be paid to the committee, but if not sustained, to be returned. If practicable the committee shall examine the Seed upon which appeal has been taken, but if not practicable, the inspection of Seed complete taken by him.

SEC. 12. The Board of Trade in establishing the regulations for the inspection of Flax Seed, and appointing an inspector thereof, assumes no liability or responsibility for errors in judgment or otherwise on the part of the inspector.

SEC. 13. The fees for inspecting and certifying Flax Seed shall be as follows: Three cents per part of car 75c: for each lot in car divided by bulkhead, 50c: for each 1,000 bushels from elevator or warehouse to lake transportation, 5c: for each two-bushel bag, 9c: for each four-bushel bag, 1c: for each wagon load, 50c. Provided, however, that in no case shall the charge for the inspection of Flax Seed be less than 50c.

RULES REGULATING SALES.

All sales of Flax Seed, unless otherwise agreed, are made upon the basis of pure Seed, that is: Seed tendered or delivered on contracts may carry impurity or foreign matter to the extent of two per cent sale quantity of pure Seed, and for such pure Seed only shall payment be required.

In the delivery of Flax Seed from elevator or warehouse, the quantity of gross Seed covered by the warehouse receipt shall be delivered, and any excess or deficiency between the quantity of net or pure Seed so delivered, and the quantity of net and pure Seed covered by such warehouse receipt shall be paid for to or by (as the case may be) the Elevator or Warehouse proprietor or manager, at the average market price of the day of delivery.

J. P. Morgan & Co. announces that they have closed out the last of the $20,000,000 New York Central and Hudson River Railroad 4 per cent debenture bonds which they, as syndicate managers, several months ago undertook to put on the market. The syndicate members were not called upon to put up any cash, or in other words to buy any of the bonds, as the entire issue was disposed of in the public market. Distribution of the profits will be made this week.

It is according to advices from Milwaukee, the new $600,000 Beet Sugar factory of the Wisconsin Sugar Company at Chippewa Falls has been placed in operation. The plant is the largest of its kind in the State and will have a capacity of 72 tons of Sugar daily, using 800 tons of Beets to produce that quantity of Sugar. A full force of 300 employes has gone to work, and it is the intention of the officers of the company to operate the factory to its full capacity during the winter months.

An order for 7,000 tons of Steel ties has been given by the New York Central Railroad to the United States Steel Corporation. The order was made at the Carnegie plant and will be used on the New York Central and Lake Shore Roads. The Vanderbilt lines have been estimating for several years with Steel ties and the result is the order just given. If they prove a satisfactory substitute for wood all railroads will soon adopt them, on account of the growing scarcity of wooden ties and consequent increase in price.

Advance sheets of *Poor's Manual* show the total steam railway mileage of the United States at the end of 1903 was 207,601 miles, an increase of 5,196 miles during the year. In the Southwestern States 1,501 miles were built, 683 miles in the Northwestern States, 2,000 miles in the Pacific and Mississippi Valley States, 561 miles in the Pacific States, 486 miles in the Central Northern States, 348 miles in the Middle States and only twelve miles in New England States. The total assets of railroads are given as $14,562,111,544 and the liabilities $14,229,352,-989. The total earnings were $1,893,857,836 in 1903, and $1,743,240,456 in 1902. The number of tons of freight transported in 1903 was 1,305,623,853, and in 1902 was 1,192,138,510. In 1903 the railroads carried 691,916,925 passengers, and in 1902 the number was 655,130,236.

The Chicago *Inter Ocean* says: "Before taking up the matter of alleged 'rebating' on freight rates said to be practiced by almost every railroad in the United States, the Inter-State Commerce Commission will open its session at Chicago, Monday, with the hearing of the suit of the Texas Cattle Rangers' Association against several transportation companies for alleged exorbitant rates levied on the farmers for the shipment of Live Stock. While awaiting the Attorney General's action upon its charges of violations of the law by the Beef trust the commission will hear accusations that millions of dollars are annually reaped annually by railroads south of the Ohio and east of the Missouri River, and that Chicago alone is taxed an excess of 8c to 20c per car load of Live Stock from the Southwest. The hearing promises to fill wide exceed the 'rangers' with similar charges. The Texas Cattle rangers began their suit about a year ago, and the railroads impaneled for any legal representatives of both sides, several well-known Southern judges, and the country's foremost railroad attorneys will meet in one of the most sensational contests ever waged before the commission."

The Inter-State Commerce Commission, Friday, handed down a decision holding that the payment of excessive amounts for services rendered by so-called industrial railroads is the equivalent to the granting of rebates within the meaning of the Elkins law. The commission held directly that the railroads centering in Chicago are maintaining industrial railroads for the purpose of securing Investor Company and the United States Steel Corporation. The railroads have been forced by these trusts to allow them as high as 25 per cent of the total freight rates for delivering loaded cars, in some cases the amount allowed was $25 00 a car on shipments between Chicago and the Missouri River, the basis by the industrial roads ranging only a few hundred dollars. In the majority of cases where industrial roads have been organized it has been to perform a service which the regular railroads have refused to perform or secure the traffic. The Commission declares that it is not unlawful for one common carrier to make and receive divisions of rates with other carriers, but that it is unlawful for a common carrier to create or acquire an interest in or the purpose of securing the traffic of that shipper."

ITEMS OF GENERAL INTEREST.

New York Exchange 15c premium.

Documentary Sterling steady at 482⅞.

Chicago Bank Clearings to-day $34,241,933.

Kentucky November report made Wheat acreage 85 per cent, compared with average crop.

Ten packers purchased 29,100 Hogs to-day; shippers, 8,000; left over, 6,000. Market closed weak.

Minneapolis reports, Monday, said the Flour trade was slow, while at this season it should be heavy.

The output of the St. Louis Flour mills for the past week was 75,000 brls, against 75,200 brls for the previous week

There need be no fear of Russia prohibiting exports of Grain. This is the reply received from inquiries made there.

Estimated receipts for to-morrow: Wheat, 57 cars; Corn, 173 cars; Oats, 50 cars; Rye, 1 car; Barley, 12 cars; Hogs, [illegible],000

Average cost price of Hogs at Chicago, Monday, was $4 83, against $4 90 Saturday, $4 91 a week ago, $5 37 a month ago, and $4 75 a year ago.

Just 100 cars of Oregon and Macaroni Wheat in Duluth's 255 cars to-day, which would leave 155 cars, against 487 cars last year on equal basis.

A telegram from Des Moines, Iowa, Monday, said: "Practically all the Corn around here is put away in good shape. Yields are above the average."

The New York Cotton market ruled steady and closed without a great deal of change in prices compared with the opening. Crippled wire service restricted the volume of trading.

The Bessemer Pig Iron Association has sold to independent concerns, including Jones & Laughlin, the Lackawanna Steel Company, and the Youngstown Iron Sheet and Tube Company, 50,000 tons of Bessemer Iron. The price was $13 50 at the furnace. Small lots have been sold at $14 00.

Interests in Detroit United claim to have received official information to the effect that beginning with 1905 the dividend rate will be increased to 4½ per cent per annum. It is also said that the company will soon retire its floating debt, which amounts to about $800,000.

New York Stocks closed strong. Trading was broad and of large proportions. The buying of the Harriman rails and other standard Western and Eastern shares remained a feature to the end. The strength in the Industrials was confined to Sugar, Copper, Corn Products common and the Steel issues The Traction Stocks were steady at small net advances.

The Local Security market was led by a sharp rise in the common Stock of National Biscuit. Pool manipulation between Chicago and the Eastern markets was responsible for the advance. Other issues were relatively strong, with the possible exception of Box Board, which fell away under profit taking sales. Among the features of Stocks handled in small volume, Chicago Edison was prominent, with a gain of 5 points.

Notices were posted at the mills of the five big mines of the Telluride district, Monday, that in future the eight-hour day would prevail in the mills. The plants concerned are those of the Smuggler-Union, Liberty Bell, Tomboy, Nellie and Alta. It was the demand for this concession in the mills of the State that precipitated the big strike in Colorado, and caused the bitter strife between unionists and mine owners in the Telluride and Cripple Creek districts.

Freight officials of Eastern and Western railroads will have a conference, Tuesday, at Chicago, over the proposed increase in rates on export Flour on Dec. 5. The railroads agreed ten days ago to advance both Grain and Flour rates. The millers in Minneapolis have strenuously protested against higher rates, saying they cannot do business in foreign markets if freight rates are any higher. The railroads between Minneapolis and Chicago are all in favor of advancing rates, but the Eastern lines have changed their attitude and now are opposed to any increase in Flour rates.

The Buenos Ayres *Handels Zeitung* of Oct. 1 reports that according to official information the area under Flax Seed in the Province of Entre Rios is this year estimated to be only about 120,000 hectares in extent, against about 142,000 in 1903 It also seems that Santa Fe will have about 70,000 hectares less under cultivation than last year. As regards the Provinces of Cordoba and Buenos Ayres no reliable information is yet to hand regarding the area under Flax Seed, but it can be assumed at present that the total area in the Republic will this year be about 15 per cent under last year's, perhaps a little more.

INDIAN NOTES.

BOMBAY, Oct. 15—The great heat of last week has been succeeded during the current week by a succession of thunderstorms over a very large portion of the country. The accompanying rain has proved of great benefit to the Rabi crops and has improved the prospects of the Cotton crops. Rain is still required in Guzerat and Kathiawar, and as the weather is becoming cloudy in those districts there is a promise of a fall in the near future. Reports received from up-country are of a satisfactory nature regarding the growing crops, especially Cotton, and large estimates are being formed of the outturn for the coming season.—*Bombay Price Current.*

The prospects of the Cotton crop in the Central provinces are officially reported to be good so far. The present crop occupies an exceptionally large area, and if present conditions continue favorable there ought to be another record outturn for the provinces this year. As to other parts of the country in Bombay sowings of the late Cotton crop are in progress and have been nearly completed in some districts. In the United Provinces and the Punjab picking has already begun and an average yield is reported from the Shahpur district of the latter province. Cotton picking has also begun in parts of Burmah where a larger area than usual is under the crop this year. In Assam the Cotton crop is also promising well, and the same is said to be the case in Madras, where the staple is now engaging much more attention from the ryots than used to be the case a few years back. Cotton growing experiments with selected seed at selected centres are also now in progress in most parts of the country under the direction of the Provincial Agricultural Departments. There is no doubt now that in consequence of the "Cotton boom" at home and abroad, cultivation is also going splendidly ahead in India too, and everything promises a great future for the India staple.—Oct. 13.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Dull and lower, with Kansas pressing on the market

WINTER WHEAT—Trade limited and prices 1@2c lower, with inside prices reached near the close. No 2 Red in store quotable at $1 14½@1 17, and fresh arrivals free on board ranged at $1 16½@1 18. No. 3 Red fresh receipts free on board sold at $1 11@1 14½. No Grade Red fresh receipts free on board sold at 92½c@$1 05½. No. 2 Hard fresh receipts free on board quotable at $1 11@1 14, and No. 3 Hard at $1 05@1 12.

SPRING WHEAT—Was quiet and weaker, the closing being irregularly lower. Demand light owing to break in futures. Millers holding off. No 1 Northern fresh receipts free on board quotably $1 17@1 20. No. 2 Northern fresh arrivals free on board quotable at $1 10@1 14. No. 3 Spring fresh receipts free on board sold at $1 10@1 12 and quotably down to $1 03 for ordinary. No 4 Spring fresh receipts quotable at 60@70c for poor, at 85@90c for common up to $1 00@1 03 for good, with a sale at 98c No Grade sold at 57c

REGULAR WHEAT—Lower, final figures of the day showing losses of 1¾@2¾c There was no cessation in the continued liquidation and the market failing to absorb the Wheat there was but one course for the market and that was downward. The Kentucky November report makes Wheat acreage 85, compared with an average crop. Liquidation of "long" December holdings was the feature of the rather dull market. The price of that month not only declined sharply, but it sold down below the May in a manner that was a surprise to both the "bulls" and the "bears." There was talk of dry weather in the Southwest and a few messages speaking of Hessian fly and of smaller receipts in both the Northwest and Southwest. The Flour situation in Kansas attracted a great deal of attention. A miller from that State was here endeavoring to sell some Flour in order to relieve his warehouses. He reported sales here 60c below those of a few weeks ago. The President of the Kansas Grain Dealers' Association said condition of Wheat in that State is 60 per cent and that not over 25 per cent of old crop is in farmers' hands. According to a Minneapolis message one of the oldest and about the largest receiving houses there sent inquiries into Western North Dakota as to percentage of Wheat left in farmers' hands. Replies received indicate that 70 to 80 per cent of the crop has already been marketed. Northwestern and primary receipts were considerably below those of a year ago. Contract stocks increased 6,638 bu, and are now 1,480,482 bu, compared with 1,487,170 bu a week ago, and 1,231,349 bu a year ago. Wheat stocks in all positions at Chicago are now 4,221,000 bu, compared with 4,843,000 bu a year ago Trade was restricted by the lack of telegraphic service to the Atlantic Seaboard. Liverpool was ⅜@½d higher; London was unchanged; Paris was ¼@½c higher. Southwestern receipts 135,000 bu, compared with 382,000 bu same day a year ago. Receipts at Duluth 255 cars at Minneapolis 419 cars, total of 674 cars, against 1,009 cars yesterday, holiday a week ago, and 763 cars last year. Local receipts included 60 cars Winter, 18 cars Spring and no cars mixed, a total of 78 cars, against 227 cars last year. Included in above were no cars contract grade. There were also 20 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 57 cars. The withdrawals were 17,500 bu. Receipts at Western points were 903,518 bu, against 1,400,197 bu last year. At Eastern points 15,170 bu, against 246,733 last year Shipments from Western points 379,211 bu, against 855,281 last year, and from Eastern points no bu, against 51,911 bu last year. Shipments of Flour were 931 brls. Exports of Wheat in Flour were equal to 4,190 bu.

Future Deliveries of Regular Wheat—Good trade and prices lower.

NOVEMBER—Entirely nominal and closed about $1 10¾

DECEMBER—Sold at $1 11@1 13⅝. Opened at $1 13⅝ to $1 13½; sold to $1 13⅛, to $1 13⅜, to $1 13¼, to $1 13⅝, to $1 12⅞, to $1 13⅛, to $1 12¼, to $1 12½, to $1 11⅞, to $1 12, to $1 11⅝, to $1 11¾, to $1 11½, to $1 12, to $1 11, at $1 11⅛, to $1 11, and closed at $1 11 bid

MAY—Sold at $1 11⅛ and at $1 13¼@1 13⅝. Opened with sales at $1 13¼ to $1 13⅛; sold to $1 13¼@1 13⅜, to $1 12⅞, to $1 13¼, to $1 12⅞, to $1 13⅛, to $1 12½, to $1 12¾, to $1 12, to $1 12⅜, to $1 12⅛, to $1 12½, to $1 11⅞, to $1 12, to $1 11⅛, to $1 11½, and closed at $1 11½ asked.

JULY—Sold at 97@98⅞c. Opened at 98¾c; sold to 98⅛c, to 98⅞c, to 98½c, to 98⅜c, to 97⅞c, to 98⅛c to 97c, and closed at 97c bid.

CORN—The close was tame, with prices ⅛@¾c lower. At no time during the session the trade above normal. There was a wonderful dearth of outside orders especially on the buying side. The cash market was almost at a standstill, only a few loads being reported at seaboard and a few small lots here, possibly due to poor wire service. There was a light trade in Corn, receipts of 405 cars causing some uneasiness in certain circles, but there was some relief when the estimate for to-morrow was for only 173 cars. The decrease of 570,181 bu in the contract stocks at Chicago the past week, leaving only 241,639 bu in elevators, was a help in the matter of steadying prices. A week ago the stock was 811,820 bu, and a year ago they were 931,903 bu Liverpool was ¼d lower Total public and private stocks in all positions at Chicago 576,000 bu, showing a decrease of 647,000 bu for the past week. A year ago there was 4,243,000 bu Corn in Chicago in all positions. Primary receipts of Corn to-day 488,000 bu, against 471,000 bu a year ago. No. 2 closed about 5[illegible]c, and No. 2 Yellow closed at 58c. No. 3 new sold at 50c and old closed at 51½c. No. 3 Yellow closed at 57½c. No Grade new sold at 45@48c.

Corn by sample—Demand only fair and offerings quite liberal. Feeling weaker and prices were unchanged to 1½c lower. Sales on track and free on board: No Grade sold at 45@50c. No. 4 at 47½@56½c. No. 3 at 49@58c. No. 3 Yellow at 58c. No 2 Yellow at 58½c. Billed through: No Grade at 44@48c. No. 4 at 46½@53c. No. 3 at 49c. No. 3 Yellow at 51@56c No 3 White at 49c.

Future Deliveries of No. 2 Corn—Trade dull and prices ⅛@¾c lower.

NOVEMBER—Sold at 51c.

DECEMBER—Sold at 50@50⅞c. Opened at 50⅞c to 50⅝c, sold to 50½c, to 50¾c, to 50⅝c, to 50¼c, to 50½c, to 50c, closing at 50@50⅛c.

JANUARY—Sold lightly at 45¾c

MAY—Sold at 46@46½c Opened at 46⅜c to 46½c, sold to 45⅞@46¼c, to 46¼c, to 46⅜c, to 46c, closing with buyers at latter.

JULY—Sold at 45⅞@46⅜c. Opened at 46⅛c, sold to 46⅛c, to 45⅞c, closing at latter.

OATS—Prices were again stagnant, with the range all downward and the close practically at bottom, with losses of a shade to ¼@⅜c, the December weakest. The decline was due to local selling on lower cash prices and the weakness in Wheat. At 31¼c for May there was enough scattered commission house buying to hold the price there. Visible supply figures were not given out. The local contract stock decreased 2,601 bu to 3,942,588 bu Arrivals were 169 cars, and only 56 cars are estimated for to-morrow. There were no withdrawals. Seaboard clearances not reported. Duluth got 73 cars and Minneapolis 23 cars, against 26 cars last year. Cash lots were steady to ½c lower.

Oats by sample were steady to ¼c lower for good and ½c lower for poor. Offerings were smaller, but demand was limited by wire trouble Sales on track and free on board: No 4 sold at 29c. No. 4 White at 28@30¾c No. 3 White at 29@31¾c. Standard at 31¼@31¼c. No 2 at 29@29½c. No 2 White at 32¼c. Billed through. No Grade at 28½c No 4 White at 30@30½c No. 3 White at 30¼c. Standard at 31@31¼c. No. 2 at 29¾c. No. 2 White at 31½c. At the river: No. 4 White at 27@29c. No. 3 White at 29¼@29½c.

Future Deliveries of Contract Oats—Were quiet and easier.

NOVEMBER—Closed at 29¾c nominally.

DECEMBER—Sold at 28¾@28⅞c and 29c. Opened at 28⅞c, sold to 28¾@28⅞c, to 28⅞@29c, to 28¾c, and closed at 28¾c

MAY—Sold at 31¼@31⅜c. Opened at 31⅜c, sold to 31¼@31⅜c, to 31⅜c, to 31¼c, to 31⅜c, to 31¼@31⅜c, and closed at 31¼@31⅜c asked.

JULY—Sold at 31⅛@31½c Opened with sales at 31⅛c and 31½c, sold to 31⅛@31½c, to 31⅛c, and closed at the latter.

RYE—Was weaker in sympathy with Wheat. Demand limited and offerings moderate. Only four cars received, and there were no withdrawals from store. No exports from New York No. 2 in store nominally 80c, and fresh receipts free on board sold at 84½c

Future Deliveries of No. 2 Rye—Quiet. December sold at 80c and closed at 80c asked; May 81½c asked. A change of December was made to May at 1½c difference.

BARLEY—The market was uninteresting It was very quiet. Offerings remain small and restricted to ordinary to low grade malting. Only an occasional high grade or choice car offered and very little feed Barley. Demand tame Maltsters seem to be still supplied and they report the malt trade slow. There was not enough low grade to attract attention from shippers. Market in a general way quotably quiet, yet firm. Bad wire service perhaps also had some influence on business. Receipts remain small; 58 cars posted to-day. Market for Screenings quiet and quotable at 27@35c for poor, dirty to choice. Low grade Barley, feed, was quotable at 38@38½c local and 37c river. Malting, low grade, small berry, some heavy, but dirty, quotable at 39@40c; clean, fair to good, at 42@45c, and large berry, heavy, quotable at 46@48c, with choice to fancy 49@52c

SEEDS—What interest there was shown in the market was centered in Timothy This was fairly active and a firmer feeling prevailed. Some of the late sowing Seeds were quoted a shade higher and Buckwheat improved. Flax and Clover nominally unchanged.

Timothy—This market was more animated and a firmer feeling prevailed. Speculative orders for March delivery were present to a larger degree. Cars were readily taken when offered at the asking price of Saturday and finally 2½c advance was paid. Futures this side inactive and nominal, but quoted at 2½c advance. Cash Seed also was favored with a better demand and sale prices were said to suggest 2½@5c improvement November delivery was nominally $2 65, and January $2 70. March sold freely at $2 80, a little at $2 82½, and closed at $2 82½. Country lots were quotable at $1 75@2 50 for low grade to choice, with fancy nominally a shade over, inferior lower; fair to good, $2 30@2 40; choice $2 40@2 50, with fancy above, and rough, dirty or hulled, $2 00@2 25.

Flax—Was nominally unchanged from yesterday's quotations. There was no trading, the market being without offerings. Local movement unimportant. Receipts 1 car or 900 bu and output 3 cars or 2,165 bu At Minneapolis 48 cars were received, at Duluth 307 cars. No 1 Northwestern was nominally $1 17½. No. 1 was nominally $1 10½, and Rejected ranged at $1 07½@1 14½. November was nominally $1 10½. December $1 10½, and May nominally $1 18½ sellers

Clover—Was called steady. No open market offerings appeared. Order trade reported as about fair. No change in prices Contract grade, spot or November delivery at $12 25. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—Being without offerings, no business on the open market transpired. There was quotably a firm market, with common and German Millets both a shade higher. Hungarian quotable at $1 05@1 15 for common to choice. Millet, common was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Broom Corn Millet at 95c@$1 10, Siberian at 60@80c, and Early Fortune about 75@90c. Mustard about 75c@$1 10 Buckwheat was a shade higher; late cool weather has caused more demand. Quotable at $1 25@1 30 for good milling.

HOG PRODUCTS—The market for Hog Products was moderately active and the feeling prevalent was a continuation of that manifested yesterday and further slight declines were recorded. The Hog situation and weakness in Grain were again the depressing influences. Transactions were confined mainly to local operators, outside orders being for small quantities. Receipts of Hogs exceeded the estimate by some 7,000, and prices were 5@10c lower. Speculative offerings were liberal at the opening, the selling apparently being led by the "short" interest and small packers. At the decline packers supported the market, Lard and Ribs principally Receipts of Hogs at the leading Western packing points were estimated at 96,800, compared with 72,900 one year ago. Domestic markets were again quiet and easy. Wire service with the East was again poor and no foreign quotations were posted. Receipts of Product were fair—of Lard and Meats about 28 cars. Shipments were quite liberal—of Lard and Meats about 174 cars Exports compared with the corresponding week in 1903 showed a decrease of 1,220 brls Pork, 6,640,000 lbs Lard, and 4,300 boxes Meats. Initial trades were generally at 2½@7½c decline and market displayed but little recuperative power, closing rather easy. Trading was confined almost exclusively to January and May contracts. Inquiry on shipping account was moderate and for small quantities, and offerings were only fair. Sales were limited, and prices without important change. Poor wire service possibly restricted transactions

Mess Pork—A moderate trade was reported in the market for Mess Pork, and the tone was somewhat easier. Offerings were liberal at the start and demand only moderate, under which prices declined 10c. Later the market had better support and a slight recovery occurred, but reacted again selling off 7½c, the close being easy. Trading was again chiefly local and limited to the deferred deliveries. Shipping demand was light and offerings were moderate. Cash lots quotable at $11 10@11 15

NOVEMBER—Quiet and easy and closed at $11 10.

DECEMBER Quiet, with light sales at $11 15@11 25, and closed at $11 17½.

JANUARY Offerings again moderately free and demand only fair. Sales were made at $12 55@12 57½ and $12 60@12 62½. Opened at $12 60 and sold at $12 60@12 62½, to $12 55@12 57½, and closed steady.

MAY—Demand moderate and offerings quite liberal. Sales were made at $12 57½@12 60 and $12 65@12 67½. Opened with sales at $12 62½ to $12 65, and sold to $12 62½, to $12 65@12 67½, to $12 57½@12 60, and closed steady

Lard—A moderate speculative trade was witnessed in the market for Lard, transactions being in the main local and professional. Rather an easy tone was displayed and the early offerings were quite liberal, resulting in a decline of 5c. At the decline packing interests gave the market better support and situation became steadier. Demand on shipping account was moderate, with fair offerings Cash lots steady at about November figures, closing at $6 97½@7 00 Loose lots in fair request, with fair offerings Prices were quotable at 35c discount on January figures Leaf Lard was in moderate demand, with light offerings. Prices were quotably easy at $7 00. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 62½@8 75 for No 1, and $8 12½@8 25 for No. 2.

NOVEMBER—Quiet and inactive; closing nominally at $6 97½ bid.

DECEMBER—Neglected; closed about $6 97½.

JANUARY—Offerings were fair, and demand moderate. Sales were made at $7 02½@7 05 Opened at $7 05, and sold at $7 02½, to $7 05, to $7 02½, to $7 02½@7 05, and closed steady

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Nov. 10.]

Wheat—The North Coast Wheat markets have ruled dull during the past week and very little has transpired to make any change in the situation. Foreign and Eastern market prices have declined, but our own quotations remained stationary, not because buyers would not like to purchase at a lower figure, but that Wheat remaining in the country is in very strong hands and that holders have more money on hand than they really know what to do with, and see no necessity of selling at present prices, feeling quite confident that Wheat prices will go higher. The future of the market here hangs, to our mind, on how the crop will be moved, whether European buyers will advance their quotations on cargoes, or the railroads endeavor to secure more cars to carry what is already bought East with more rapidity than has been done so far this season. If cars could be secured there is no doubt that what remains in the hands of exporters unsold and in farmers' hands to sell will all be shipped eastward this season, and that the export of Wheat foreign will be very light. Europe is buying cheaper Wheat from Russia at present than she can in this country, but this will soon cease, as close of navigation toward the end of this month will cut off large supplies which now come through the Azoff. India is also furnishing the old country large stocks, and those recently had from Argentina and Australia are becoming insignificant. It looks as if the European buyer ought to shortly enter the market for Wheat, and if he does there is no doubt that there will be sharp competition for our Wheat between the Eastern and foreign buyer. Stocks abroad are not any too large, and no doubt below requirements for the winter. Millers are all pretty well stocked up with Wheat, and the very large concerns have plenty of Wheat to carry them through the spring. If any extraordinary demand for Flour should exist there is no doubt that many of them will be short for grinding purposes. Exporters have enough Wheat on hand unsold to load fifty cargoes abroad if necessary, and are not caring whether Europe buys any Wheat or not, knowing full well that if the railroads get a hustle on for cars they can sell all they have at good prices East. Buyers are in the market at present quotations, but are securing very little. We quote club for export and Eastern accounts, 84@85c per bushel; bluestem 89@91c, and valley, for local use, at 87c per bushel, Portland quotation.

Flour—The demand for Flour continues good and there seems to be no lull for prompt delivery or for shipment before the first of the year. After that there is very little ahead for most of the mills. Oriental demand is also fair for prompt loading, and very few orders coming in for shipment after the turn of this year. Eastern demand is becoming better and more orders are coming in at present than were had several weeks ago. California is calling for more Flour than usual, and some of the mills have all they can do in filling orders for that State. From South and Central America orders are coming in some better, and the demand from that quarter will be good until the holidays. Europe is not bidding high enough to attract millers in sending any more Flour abroad. Better prices are secured at home for other points of the globe. We have information that there has been some inquiry from South Africa, and the possibility of loading a cargo or two to that country seems possible. Rumors have been very thick that the Japanese Government is in the market again for Flour, and this has caused quite a commotion with the leading mills, who are all endeavoring to land the order. Whether any truth is in the same we can not confirm it. Possibly stocks are becoming low over there, notwithstanding the heavy shipments made recently, that has caused more inquiry from buyers and started the rumor. It looks as if some very large orders will shortly be placed for Flour to go to Japan, but no one in the trade will confirm the report that Japan is seeking Flour for her soldiers or for the Government. Jobbers have stocked up quite heavily before the recent advance and are not purchasing freely, and are only buying to keep up stock of brands in demand. We quote export brands from $3 60 to $3 75 per brl; local straights, $3 75 to $4 00, and Patents from $4 50 to $4 75 per brl.

AUSTRALIAN WHEAT CROP PROSPECTS.

[Special Correspondent Dornbusch.]

SYDNEY, Sept. 27.—After some weeks of considerable anxiety owing to the unfavorable conditions prevailing for the maturing of the growing Wheat crops, during the past twenty-four hours moderate rainfall has been experienced over the southwestern, central western, and northwestern portions of New South Wales, as well as along the eastern littoral of this and the adjoining States. Scattered showers have fallen in the far West, and as the mail closes it is still raining in the principal producing areas of New South Wales. The absence of sufficient moisture throughout the Wheat producing areas of the Commonwealth has had a marked effect on the Australian markets. Prices for Wheat in Sydney have risen to 3s 7d per bu, although shippers have refused to operate beyond 3s 5½d, or in some cases at 3s 6d for prime Grain. Flour has also hardened to an extent sufficient to curtail export. During the past few weeks it has been generally thought that export would cease, as farmers and speculators evinced a disposition to carry over their surplus Wheat stocks. There are at present twenty-eight vessels due, in port, and loading Wheat in the Commonwealth.

ARGENTINE CROPS.

[From the Corn Trade News.]

The news from the Grain fields of Buenos Ayres about the locusts is far from reassuring, swarms are said to be appearing in all parts of the country, and one report has it that they have put in an appearance as far south as Chubut. They are already in the western camps of the Province of Buenos Ayres. As regards their destruction, there is not much said on this point, there seems to be a considerable amount of slackness on the part of the authorities, who appear to be waiting for the new Government to assume office before setting to work. This is slackness with a vengeance in view of the great danger that is threatening the crops in some parts of the country.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature, 22 to 44; partly cloudy. Northwest—Temperature, 20 to 36; clear. West—Temperature, 24 to 36; clear. Southwest—Temperature, 26 to 40; clear. Ohio Valley—Temperature, 30 to 52; fair.

Indications are for continuation of fair weather in this district, except possibly in Montana, where precipitation is probable. Temperatures will slowly rise.

ITEMS OF GENERAL INTEREST.

Reports from Houghton, Mich., say that Copper to the value of nearly $4,000,000 was shipped from that district in October.

The Decatur, Ill., Malleable Iron Works was totally destroyed by fire, Monday. The loss is between $20,000 and $30,000.

Fire, Friday, completely gutted the dry goods establishment of W. A. Green & Co., Dallas, Texas. Loss, $65,000; insurance, $40,000.

A two-story brick building in Boston, Mass., called "Harcourt Studios," was destroyed by fire, Friday, causing a loss of $200,000.

St. Louis messages, Monday, reported a dull Flour situation, with mills running only half time. Millers were said to be out of the market there.

An attempt, Monday, by manufacturers to open the Cotton mills at Fall River, Mass, which had been closed for four months by the strike of the operatives against a 12½ per cent reduction in wages, resulted in failure.

A cable from Pekin, China, says: "The Chinese Government has undertaken, in return for certain concessions as to remission and calculation of interest, to pay the whole of the national indemnity of 1901 on a Gold basis. The powers are certain to accept the proposals, which are unexpectedly favorable."

At the meeting of the directors of the New York, Ontario and Western Railway Company, Friday, a resolution was passed authorizing an application to the Board of Railroad Commissioners for the issuance of $12,000,000 4½ per cent bonds. No action was taken on the dividend, but that matter will be attended to probably at the meeting next week.

The $16,550,000 6 per cent profit-sharing notes of the Underground Electric Railways Company of London, limited, have been ordered listed on the New York Stock Exchange by the governing committee. This is the company which is constructing a system of underground railways in London under the financial management of Speyer & Co., of New York.

According to the statement issued, Saturday, by the *Railway News Bureau*, the compensation of railway employes in the United States during the year ending June 30, 1904, approximated $830,000,000, as against $465,601,581 in the fiscal year 1896-7, an increase of $364,398,419, or more than 78 per cent. In the meantime their number increased from 823,476 to about 1,320,000, or only 60 per cent.

For the first time in five years Minneapolis and St. Louis has applied to list an allowance of its first and refunding bonds. The proceeds of the $1,200,000 of bonds will be used to pay for the control of Des Moines and Fort Dodge, the reconstruction of the main line from Hopkins to Chaska and for the general improvements. The reserve under the mortgage available for such purposes is $5,341,000, which can only be used under careful restrictions.

Stockholders of the West Jersey and Seashore Railroad, Friday, authorized the directors to float any subsequent first mortgage bonds at a lower rate of interest than 4 per cent, the rate prescribed in the mortgage. This action is believed to be the first step toward securing additional funds by the Pennsylvania Railroad for extensive improvements on the Seashore line. The authorized issue of bonds is $7,000,000, of which about $4,000,000 are outstanding at 4 per cent.

Directors of the Pennsylvania Railroad have approved a plan for the reorganization of the Vandalia. A company is to be organized with a capital stock of $25,000,000. Five shares of this stock will be given for each four of the present stock of the Terre Haute and Indianapolis. One and fourtenth shares will be given for each share of St. Louis, Vandalia and Terre Haute preferred, two shares for each of common, and seven-eighths of a share for each share of Terre Haute and Logansport. The lease of the Peoria and Terre Haute is to be assumed by the new Vandalia. This lease is for 30 per cent of gross earnings, interest on the bonds being guaranteed.

The *Agricultural Gazette* of Oct. 31 says: "October is ending after a deficiency of rainfall for the month, and all farm work is in an advanced position for the time of year. In some parts of the country a little more rain would have been welcome for plowing and sowing, but, on the whole, the dryness of the weather has been beneficial, as it has given such a prolonged period for cleansing the land of weeds as is rarely enjoyed. The great majority of reports are highly appreciative of the weather of the autumn for all purposes. Threshing results continue to vary greatly in different districts, but are generally disappointing throughout the principal Grain-growing counties."

Further details of the deal between the United Box Board and Paper Company and the independent manufacturers confirm the statements made by the people interested regarding the advantages of the scheme to the United Company. A careful estimate by some of the most prominent of the local stockholders of the United company reached the conclusion that, under the plan, with the box board market about as at present, the United company will make about $550,000 over fixed charges for a year. It is the intention to devote this money to reducing the bonded and floating debts first. Preferred stock dividends will not begin until after the company has been put on a very substantial financial footing.

A Washington dispatch says: "Regarding reports that Secretary of the Treasury Shaw would make a call on Government depositories for a loan of $20,000,000, it can be positively stated that no such call in the immediate future is contemplated. There is at the present time, it was said, no pressing need for such a call. Should it be made at all, the probabilities are that it will be some time during the month of January. Secretary Shaw said he had heard from several quarters that he proposed issuing the call, but it may be stated on authority that the call will not be issued until January, and may be not then unless some reason develops for its issuance sooner, which at the present time is not felt to be the case."

Clearings for October in the principal cities throughout the country, as compiled by the *Financial Chronicle*, aggregated $11,509,896,705. This compares with $9 176,520,544 in October of last year, or a gain of 25.4 per cent. The increase speaks volumes for the improved business and speculative condition in the country as compared with a year ago. The gain in New York City was 42 9 per cent. In the country outside of New York City the gain was 2.3 per cent. For the ten months ended Oct. 31, clearings of the entire country were $87,139,584,821. This compares with $91.8 2,296,895 for the ten months ended Oct. 31, 1903. The loss is 5.1 per cent. In New York City the loss was 7.3 per cent, and outside of New York City the loss was 1.7 per cent.

The governing committee of the New York Stock Exchange, Friday, approved applications for the listing of the following securities: Colorado Southern Railway Company, $300,000 additional first mortgage 4 per cent coupon bonds of 1929, making the total amount listed to date $19,103 000. Of the Minneapolis and St. Louis Railroad Company, $1,250,000 additional first and refunding mortgage 4 per cent fifty-year coupon bonds of 1949, making the total amount listed to date $8,850,000. Of the Chesapeake and Ohio Railway Company, $500,000 additional general mortgage 4½ per cent bonds, making the total amount listed to date $38,523,000. Of the St. Louis and Southwestern Railway, $611,000 additional consolidated 4 per cent mortgage coupon bonds of 1932, making the total amount listed to date $12,566,000. Of the Norfolk and Western Railway Company, $5,000,000 4 per cent divisional first lien and general mortgage coupon bonds of 1934. Federal Mining and Smelting Company, $10,000,000 7 per cent cumulative preferred stock and $5,000,000 common stock.

A taxpayer of the City of Tipton, Ind., has filed a suit in the Tipton Circuit Court for the purpose of repudiating the city bonds issued to install the present electric light plant. The complainant avers that at the time the plant was built and the $35,000 of bonds issued the city was in debt beyond the constitutional limit of 2 per cent of the appraised value of property listed for taxation; that a dummy company was organized with three trustees at the time the plant was built; that neither of the trustees put any money into the concern, but simply allowed the use of their names in the organization that the law might be evaded. City Treasurer M. Bath, the Tipton Electric Light Company and two Chicago concerns that hold bonds are made defendants to the action. The plaintiff asks that the bonds be repudiated and that a perpetual injunction be issued restraining the city treasurer from paying any of the bonds.

The monthly report of the Comptroller of the Currency on the organization of new national banks shows that during the month of October a total of forty-three new banks, with capital aggregating $2,775,000, were organized in the United States. The proportion of large banks organized during the month was greater than usual, nineteen of the total, with capital aggregating $2,110,000, being banks with individual capital of $50,000 or over, and the remaining twenty-four banks with individual capital of less than $50,000. The Southern States, which have almost uniformly led all other sections in the number of new banks organized and in the amount of new capital added to the system for the past year, fell behind during October, and the first place in the aggregate of new capital was taken by the States of the Eastern section with eight new banks, all of the larger class, with capital aggregating $1,150,000. Four of these new banks, with $350,000, were in Pennsylvania, and two, with $400,000 capital, were in New York. One, the largest bank organized during the month, with $300,000 capital, was in the District of Columbia. The other, with a capital of $100,000, was in New Jersey. The Middle Western States ranked first in the number of new banks and second in the amount of capital, with eight banks of the smaller class and four of the larger, with capital aggregating $560,000. The Southern States were third in the number of new banks and third in the amount of capital, with seven banks of the smaller class and two of the larger, with capital aggregating $390,000. In the Pacific States there was organized one bank of each class, with capital aggregating $125,000. The only bank organized in the New England States was one in Massachusetts with $100,000 capital. The new organizations for the month increased the total since the passage of the act of March 14, 1900, to 2,196, with capital aggregating $125,512,300.

DAILY MOVEMENT OF GRAIN AND PRODUCE

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 24 hours, as compared with the same time last year:

Rosario cable said: "Weather very fine."

Chicago Bank Clearings to-day, $36,672,902.

Consols 1-16 higher for both money and account compared with Tuesday's close.

Ten packers purchased 25,800 Hogs to-day; shippers, 6 000; left over, 7,000. Market closed steady.

Average cost price of Hogs at Chicago, Tuesday, was $4 76, against $4 97 a week ago, and $4 68 a year ago.

Estimated receipts for to-morrow: Wheat, 74 cars; Corn, 291 cars; Oats, 67 cars; Rye, 3 cars; Barley, 28 cars; Hogs, 28,000.

The quantity of Flour and Wheat on passage to Europe during the past week increased 2,072,000 bu, and the quantity of Corn increased 436,000 bu.

J. T. Canvin was appointed Flour Inspector by the Chicago Board of Trade Directors, Tuesday, to take the place of R. W. Rathborne, resigned.

The Schwarzchild & Sulzberger warehouses at the Union Stock Yards, Chicago, W and X have been made regular for the storage of Provisions.

Exports of Flax Seed from India the past week were 312,000 bu, compared with 160,000 bu for the week previous, and 384,000 bu for the corresponding week in 1903.

The steel billet pool met at Jersey City, N. J., Tuesday, and advanced the price of billets from $20 a ton to $21. This increase applies to purchases made prior to April 1, 1905.

The receipts of Wheat at Liverpool during the past three days were 912,000 bu, of which 8,000 bu were American. Receipts of Corn, 128,000 bu, of which 56,000 bu were American.

Stocks of Wheat in public warehouses in Liverpool reported at 4,784,000 bu, against 4,648,000 bu one week ago and 2,786,000 bu one year ago. Stocks of Corn reported at 1,020,000 bu, against 1,051,000 bu one week ago and 868,000 bu last year.

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were increases of 2,941,000 bu Wheat and 217,000 bu Rye, and decreases of 112,000 bu Corn, 85,000 bu Oats and 572,000 bu Barley.

After a break in the market early in the session, Local Stocks firmed up, and there were many substantial advances at the close. The shares of American Can and Box Board were about the only weak ones among the active issues. Heavy selling of both kept down prices.

The New York Stock market closed strong. The features after the early break in prices were sharp gains in Canada Southern, Pacific Mail and Amalgamated Copper. Eastern Rail stocks as a group were firm, while the Western issues were more or less irregular. The Steel stocks were steady.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.	1903, bu.
Wheat east of Rockies	Inc. 4,218,000	Inc. 3,613,000
Europe and afloat	Inc. 2,300,000	Dec. 500,000
Total	Inc. 6,518,000	Inc. 3,113,000
Corn	Dec. 54,000	Dec. 444,000
Oats	Dec. 458,000	Inc. 634,000

The Chicago *Inter Ocean* says: "On account of the opposition of competing lines, which threatened a rate war, the Rock Island has withdrawn its tariff of 20c per 100 lbs on Live Stock from Omaha to Chicago, and the proportional rate of 8½c between Omaha and Chicago on through shipments to the Atlantic seaboard. The Rock Island's object in making the new rates from Omaha was to place that city on a par with Kansas City. As the other roads had agreed to equalize Grain rates, the Rock Island did not anticipate any objection to putting Live Stock on the same general basis."

Grain and Flour shippers appeared before freight officials of Eastern and Western railroads at Chicago, Tuesday, and protested vigorously against the agreement made by the railroads two weeks ago to advance the rates on Grain and Flour eastbound on Dec 5. The Minneapolis millers declared that an advance in rates would make it impossible for them to export Flour via United States ports, which was equivalent to saying they would ship over the Canadian Pacific System to Canadian ports for export. Several of the Eastern lines were anxious to keep rates on the present basis, but most of the lines to the East and all the Western roads insisted on standing by the agreements to advance rates on Grain and Grain products on Dec. 5. Finally all lines agreed to raise the rates.

The Iowa monthly weather and crop bureau said: "October was warmer and drier than usual, the daily mean temperature being about 1 degree above normal, and the average rainfall for the State 0.73 of an inch below normal. The northern section received the largest amount, the average being about 0.29 of an inch above the October normal. The first frost of the month occurred on the morning of the 6th, and was heavy enough to kill vines and most of the cornstalks remaining green in the northern half of the State. In the southern half that frost was light, causing no damage. The first general killing frost covering the State occurred on the morning of the 23d, all crops being safe at that time. The bulk of the rainfall came in the first and second decades—mainly between the 5th and 20th, the balance of the month being dry and favorable for farm work, for drying out the Corn and harvesting the minor crops. No better weather could be desired for preparing Corn for cribbing than was prevalent from the 20th to 31st. Good progress was made in harvesting the Corn during the last week, though the heavier ears contained considerable moisture. But the weather was cool by night, though moderate and clear by day. The heavy Potato crop was harvested in good condition, the quality of the product being unusually good. Pastures were very good throughout the month. Good progress has been made in fall plowing. The small acreage in fall Wheat and Rye showed an excellent growth and good stand. On the whole October was a very mild and favorable month, crowning a fairly productive crop season."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—No demand to speak of, the local and domestic trade holding off and the bids from abroad too far out of line to consider.

WINTER WHEAT Ruled steady. Demand moderate and receipts small. Choice milling Wheat met with better sale. No. 2 Red in store quotable at $1 13⅞@1 16, and fresh arrivals free on board quotable at $1 16@1 17. No. 3 Red fresh receipts free on board sold at $1 11, and was quotable at $1 10@1 11. No 4 Red fresh receipts sold at 90c. No 2 Hard fresh arrivals free on board sold at $1 15 and ranged at $1 11@1 15. No. 3 Hard quotable at $1 05@1 10 with a sale at the river at $1 05. No. 4 Hard sold free on board at $1 05. No. 4 White sold at 96c.

SPRING WHEAT—Was quiet and steady. Receipts very small, and no trading to-day to speak of. Choice Wheat in little better request. No 1 Northern fresh arrivals free on board quotable at $1 17@1 20. No. 2 Northern fresh arrivals free on board quotable at $1 08@1 13. No 3 Spring fresh arrivals free on board quotable at $1 03@1 13. No. 4 Spring quotable at 60@65c for poor to $1 00@1 04 for good to very choice.

REGULAR WHEAT—The sentiment at the close was rather "bullish," with the local trade in the lead on the buying side. Outside trade was almost nil. The close was 1⅛@1⅜c higher for the day. The sale of 85,000 bu cash Wheat here was a help to the "bulls," as it caused many of the early sellers to turn buyers. Kansas City, Duluth and St. Louis reported cash sales 50 000 bu to 75,000 bu. Changes were at times quite sharp and the market was full of exciting moments. The feature of the day was the heavy profit taking of "shorts," who led the early buying on the first decline of the day. The old "bull" crowd became enthusiastic when the market started upward and considerable Wheat was taken on by this interest. In order to make their position doubly secure they circulated the old-time rumor of a big Wall Street man as taking on a big line of Wheat. The market showed great strength during the morning, the influences being the talk of a little cash demand at Minneapolis and Duluth, as well as at Kansas City and St. Louis, with reported moderate sales at all four markets. Cables were all lower—Liverpool ½@⅝d, London ⅜d, Paris ¼@⅜c and Antwerp ⅜c. The weekly routine statistics that have been delayed since Monday owing to wire trouble between Chicago and the Atlantic seaboard were received to-day. The world's shipments were placed at 12,208,000 bu, compared with 13,040,000 bu a week ago and 11,785 000 bu a year ago. Of the above Russia shipped 7,032,000 bu and the Danubian ports 704,000 bu; India 2,008,000 bu. The American shipments were only 1 200,000 bu. The visible supply increased 2,940,000 bu for the week, making the total 31,302,000 bu, as compared with 28,362,000 bu the previous week and 27,916,000 bu a year ago. The amount of Wheat (including Flour as Wheat) on ocean passage destined to Europe and the Continent showed an increase of 2 072,000 bu, making the aggregate amount 38,200,000 bu, compared with 36,128,000 bu the week before and 29 536,000 bu a year ago. Local stocks decreased 88,000 bu for last week, the total in public houses being only 1,905,000 bu, compared with 1,991,000 bu the week before and 1,613,000 bu a year ago. The world's available supply of Wheat as compiled by *Bradstreet's* increased 6,500,000 bu for the week, compared with an increase of 8,537 000 bu the week before and an increase of 3,113,000 bu a year ago. Weather in Argentine reported as excellent for crops. Clear weather is promised in this country for all sections save promised rains in the Upper Mississippi Valley. Minneapolis stocks increased 750,000 bu in four days. Primary receipts were considerably smaller than year ago. Receipts at Duluth 110 cars at Minneapolis 414 cars, total of 524 cars, against 671 cars yesterday, 1,732 cars a week ago, and 519 cars last year. Local receipts included 32 cars Winter, 9 cars Spring and no cars mixed, a total of 41 cars, against 119 cars last year. Included in above were no cars contract grade. There were also 23 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 74 cars. The withdrawals were 26,500 bu. Receipts at Western points were 818,870 bu, against 1,262,336 bu last year. At Eastern points 35,631 bu, against 230 841 last year. Shipments from Western points 463,449 bu, against 842,939 last year, and from Eastern points no bu, against 67,795 bu last year. Shipments of Flour were 13,121 brls. Exports of Wheat in Flour were equal to 59,005 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

NOVEMBER Entirely nominal and closed about $1 12⅛.

DECEMBER—Sold at $1 10⅝@1 12½. Opened with sales at $1 11¼ to $1 10⅞; sold to $1 10⅝, to $1 10¾, to $1 10⅝, to $1 11⅞, to $1 11½, to $1 12⅛, to $1 11⅝, $1 12⅜, to $1 12¼, to $1 12½, and closed at $1 12⅜@1 12½ bid.

CORN Strong and ⅝@1⅜c higher, with "shorts" and investors buyers during the day. The market was irregular and unsettled. Cash sales of Corn at New York were reported at 5 boat loads. There was quite a battle in the Corn market between the "bulls" and the "bears," with the price changes sharp. The fact that the houses closely identified with the country were on the selling side early in the session, and that the news from Des Moines, Iowa, was for a big movement of the new crop, with farmers liberal sellers in that section caused both "long" and "short" Corn to go over. One or two of the large elevator concerns were on the selling side in a liberal manner. Local receipts were 155 cars, with none of it contract. From unlicensed houses 20 cars and 51,000 bu; from store, 7,400 bu; clearances, 2,000 bu. Primary receipts were 462 550 bu, compared with 314,700 bu a year ago. Local stocks of Corn decreased 562,000 bu, leaving the total 255,000 bu, compared with 817,000 bu a week ago and 1,231,000 bu a year ago. World's shipments of Corn were 4 2 4,000 bu, compared with 2,682,000 bu the previous week and 3,627,000 bu a year ago. The amount on ocean passage increased 436,000 bu, making the total 18,668 000 bu, against 18,232,000 bu the week before and 15,660,000 bu a year ago. The visible supply decreased 112,000 bu and is now 2,276,000 bu, compared with 2,388,000 bu the week before and 7,280,000 bu a year ago. The world's available supply, as compiled by *Bradstreet's*, showed a decrease for the past week of 54,000 bu, compared with a decrease of 444,000 bu a year ago. Liverpool was quoted as ⅛@⅜d lower. No. 2 closed about 55c and No. 2 Yellow at 58c. No. 3 closed at 51½c and No. 3 Yellow at 57½c. No. 4 new sold at 45@50c—outside price for yellow. No Grade new sold at 45@47c.

Corn by sample—Offerings were fair and demand moderate. Feeling was easier and prices any where from ½c to 1½c lower. Sales on track and free on board: No Grade sold at 43@48½c. No. 4 at 40@57c. No. 3 at 49@57½c. No. 3 Yellow at 50@52c. No. 2 at 57½c. No. 2 Yellow at 59c. No. 3 White at 53c. Billed through: No Grade at 43½@49c. No. 4 at 45½@54½c. No. 3 at 54½@55½c. No. 3 Yellow at 50@57c. No. 3 White at 55¼c.

Future Deliveries of No. 2 Corn—The market closed ⅝@1⅜c higher, with the volume of trade greatly improved over the two previous days of the week.

NOVEMBER—Closed at 52⅝c nominal.

DECEMBER—Sold at 49¾@51⅜c. Opened at 50c to 49⅞c, sold to 49¾c, to 51@51⅛c, to 50½c, to 50⅝c, to 51⅜c, to 51¼c, to 51⅜c, closing at 51¼@51⅜c.

MAY—Sold at 45⅞@46⅝c. Opened at 46c to 46⅛c, sold to 45⅞c, to 46⅛c, to 46c, to 46⅜c, to 46¼c, to 46⅝c, closing at 46½@46⅝c.

JULY—Sold at 45⅞c to 46⅜@46½c. Opened at 45⅞c, sold to 46⅜@46½c, and closed at latter.

OATS—A better demand was stimulated by the strength in other markets and net gains of ⅛@¼c were made. July was strongest and there was a good deal of changing over into that delivery, and also a fair general demand for all deliveries, mainly by local "shorts." There was the first decrease for some time in the visible supply, the total being 85,000 bu smaller at 24,478,000 bu. Arrivals were 59 cars, and the estimate for to-morrow 67 cars. Withdrawals from store were 1,000 bu. Seaboard clearances were 11,000 bu. Cash lots were steady, with shipping demand moderate.

Oats by sample were steady for all grades. Offerings were slightly larger, but demand improved correspondingly. Sales on track and free on board: No. 4 White sold at 29@29¼c. No. 3 at 29¾@31c. No. 3 White at 31@31¾c. Standard at 31½@32½c. No. 2 at 29½c. Billed through. No. 4 White at 30@30½c. No. 3 White at 30@31c. Standard at 30¾@31½c. No. 2 at 29c. No. 2 White at 31½c. At the river. No. 4 White at 27½@29c. No. 3 at 28c.

Future Deliveries of Contract Oats—Quiet and firm.

NOVEMBER—Closed at 29⅞c nominal.

DECEMBER—Sold at 28⅝@28¾c and 29c. Opened at 28¾c, sold to 28⅝@28¾c, to 28⅞@29c, to 28¾@28⅞c, to 29c, and closed at 28⅞c.

MAY—Sold at 31⅛@31½c. Opened at 31¼@31⅜c, sold to 31⅝c, to 31½c, and closed at 31⅜@31½c.

JULY—Sold at 31¼@31⅝c and 31¾c. Opened at 31¼@31⅜c, sold to 31⅝@31¾c, to 31⅝c, to 31¾c, and closed at 31⅝c.

RYE The market for cash was firmer. May delivery also stronger and December easier. Fresh receipts in good demand and offerings small. Futures quiet. Two cars were received and there were seven cars withdrawn from private warehouse. No exports from New York. No. 2 in store nominally 79½c. Fresh arrivals free on board sold at 84½c.

Future Deliveries of No. 2 Rye—Quiet. November nominally 79½c. December 79¾c asked and 79½c bid. May sold at 81½c and closed at 81½c bid and 81¾c asked.

BARLEY—There really was more business done in Screenings than there was in Barley. For Screenings of good color and clean there was a very fair demand. Such goods were about steady. When dirty, seedy, they were weak and slow, though some cars of such were sold. Trading was over a range of 27@58c. Of Barley the supply was about the smallest on the crop. Only 17 cars were inspected in. Reports from the country say that of late offerings by farmers have been very small. Although Barley was scarce, it did not influence the market especially, for demand was very light also. There was no anxiety expressed by buyers. Maltsters are supplied for the present; they report their trade slow. Low grade Barley, feed, was quiet, sparingly offered and remained quotable at 38@38½c local and 37c river. Malting, low grade, small berry, some heavy, but dirty, quotable at 39@40c; clean, fair to good, at 42@45c, and large berry, heavy, quotable at 46@48c, with choice to fancy 49@52c.

SEEDS—The market lapsed back into a very quiet state; even Timothy became almost lifeless, though nominally a shade better. The rest were entirely unchanged.

Timothy—Was quotably firm, at the same time about inactive. Prices the same as yesterday to 2½c better were bid for futures and the little cash Seed sold was said to have brought a little more than recently the same kind has been selling for. Country lots were quotable at $1 75@2 50 for low grade to choice; fancy nominally a shade over, inferior lower; fair to good, $2 35@2 45; choice $2 50, with fancy above, and rough, dirty or hulled, $2 20@2 30. For contract spot or November delivery $2 65 was bid. January salable at $2 72½ and $2 82½ bid for March.

Flax—Was entirely nominal and unchanged. Late quoted prices could be obtained, but there was no Flax either for spot or future delivery offered. No receipts posted to-day and only one car or 860 bu taken out. There were 53 cars received at Minneapolis and 87 cars at Duluth. No. 1 Northwestern was nominally $1 17½. No 1 was nominally $1 10½, and Rejected ranged at $1 07½@1 14½. Futures salable as follows: November at $1 10½. December at $1 10½ and May nominally $1 18½.

Clover—Was quoted as steady to firm. Advices from outside denoted some little gain. There was no change here. Offerings absent. Salable as follows: Contract grade, spot or November delivery at $12 25. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—Were quotably steady, with late improvement in prices maintained. Hungarian quotable at $1 05@1 15 for common to choice. Millet, common was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25. Siberian at 60@80c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 75c@$1 10. Buckwheat scarce and salable at $1 25@1 30 good milling.

HOG PRODUCTS—There was only a fair speculative trade in the market for Hog Products, fluctuations confined within comparatively moderate limits, with transactions almost exclusively for local account. The feeling prevalent was somewhat stronger, due as much as anything to the more moderate offerings, there being very little pressure from packing interests. Many of the sellers of the past few days covered, resulting in slight advances in the leading articles. The better tone of the Grain markets and talk of a smaller run of Hogs next week were among the indirect strengthening influences. Receipts of Hogs, however, again exceeded the estimate, and prices were unchanged to a shade lower. Receipts of Hogs at the leading Western packing points were estimated at 99,100, compared with 84,100 one year ago. Domestic markets were quiet and steady, and cable advices indicated no special change in values abroad. Receipts of Products were fair—of Lard and Meats about 30 cars. Shipments were moderate—of Lard and Meats about 105 cars. Market started out steady, and after a fractional decline, advanced 7½@17½c, ruled steady, closing at outside figures. Trading continued almost exclusively to January and May contracts. Inquiry on shipping account was moderate and for small quantities and offerings were only fair. Sales were limited and prices without special change. Wire service with the East was again poor, being only partially restored, and this fact tended to interfere with the shipping branch of the trade.

Mess Pork—The trade was moderate and market rather dull and uninteresting early in the session, but more interest manifested the closing hour. Offerings were more moderate and demand fair from miscellaneous sources, chiefly "shorts." The start was steady a 2½c decline following when a recovery of 10c took place. Later the price receded 5c, but rallied again 10c toward the close, and the close was comparatively firm. Trade was about all local and confined to the deferred deliveries. Shipping demand light and offerings continue moderate. Cash lots quotable at $11 10@11 15.

NOVEMBER—Quiet and inactive, closing at $11 10.

DECEMBER—Quiet, with light sales at $11 15@11 20, and closed at $11 20.

JANUARY—Offerings less pressing and demand better. Sales were made at $12 55@12 70. Opened at $12 57½, and sold at $12 55, to $12 65, to $12 60, to $12 70, and closed steady.

MAY Demand fair and offerings less liberal. Sales were made at $12 57½@12 75. Opened at $12 57½, and sold to $12 75, and closed steady.

Lard Just a moderate speculative trade was witnessed in the market for Lard, transactions being chiefly local and limited to the more deferred deliveries. Rather a better undertone was manifested, due mainly to the more moderate offerings and better general demand from "shorts." Packers in some instances displayed a "bearish" attitude, but the selling was in no way conspicuous. Initial trades were at about yesterday's final figures and after selling off a fraction advanced 5c, changed slightly and closed comparatively firm. Demand on shipping account was moderate, with fair offerings. Cash lots steady at about November figures, closing at $7 02½@7 05. Loose lots in fair request with fair offerings. Prices were quotable at 37½c discount on January figures. Leaf Lard was in moderate demand, with light offerings. Prices were quotably easy at $7 00. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 62½@8 75 for No. 1, and $8 12½@8 25 for No. 2.

NOVEMBER—Quiet and inactive; closing nominally at $7 02½.

DECEMBER Very little doing, closed about $7 00.

JANUARY—Offerings moderate and demand fair. Sales were made at $7 02½@7 07½. Opened at $7 02½@7 05, and sold at $7 02½, to $7 07½, to $7 05@$7 07½ to $7 07½, and closed steady.

MAY Selling less general and called for moderately. Sales were made at $7 17½@7 22½. Opened at $7 17½, sold to $7 22½, to $7 20, to $7 22½, and closed steady.

Short Rib Sides—The trade was slow and sluggish most of the session, being about all local and price changes narrow. Feeling prevalent was somewhat stronger. Opening trades were at about Tuesday's resting prices, a slight decline following. Later on, the demand was somewhat better and prices recovered 7½c, changed slightly, and closed comparatively firm. Shipping demand was light and offerings moderate. Cash lots quotable at $6 87½@7 12½ according to weight.

NOVEMBER—Quiet and quotable at the close at $6 95.

JANUARY Offerings moderate and demand fair. Sales were made at $6 47½@6 50 and $6 55@6 57½. Opened at $6 50, and sold to $6 47½@6 50, to $6 52½@6 55, to $6 50, to $6 55@6 57½, and closed steady.

MAY Demand fair and offerings smaller. Sales were made at $6 60@6 62½ and $6 67½@6 70. Opened at $6 60@6 62½ and sold at $6 62½, to $6 65, to $6 62½@6 65, to $6 67½@6 70, and closed steady.

Other Meats—Trade very moderate and the feeling was steady. Domestic demand was quiet, and small orders were received from abroad. Offerings of all kinds not very large. Green Meats rather quiet and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices unchanged. Dry Salted Meats in fair request, with moderate offerings, and prices ruled steady. Smoked Meats called for moderately, and prices unchanged. Closing prices were as follows:

AGRICULTURE IN UNITED KINGDOM--1904.

The total area returned as under crops and grass (excluding mountain and heath land used for grazing) amounts to 32,317,610 acres, as compared with 32,343,579 acres in 1903. This decline of 25,969 acres is largely attributable to the demand for land for railway or building purposes.

The decline in the arable land of Great Britain thus amounts to 109,830 acres. The cereal crops account for a decline of 107,509 acres, other crops of 27,254 acres, and Clover and rotation grasses of 138,331 acres, while the surface left under bare fal low shows an increase of 81,584 acres. The following table of 57,993 acres in the previous year, brings the uncropped arable area back to practically the same figure as in 1895.

The decrease in the Wheat area, amounting to 13 per cent, reduces the acreage under this cereal to 1,378,284 acres, which is the smallest area even recorded. The lowest point to which the cultivation of Wheat had been previously reduced was in 1896, when 1,417,483 acres were returned, but a recovery took place in the three succeeding years until in 1899 the area reached 1,602,208 acres. Since then, except for a slight check in 1902, the Wheat acreage has year after year declined, and the tendency in that direction was accelerated in 1904, as in 1903, by the unfavorable conditions prevalent in the preceding autumn for preparing the land and planting the crop. Whatever the causes, it must be considered noteworthy that one-third of the acreage returned as under Wheat in 1870 is now as in 1898 is now devoted to other crops.

Barley shows a decrease of 17,830 acres, making the area under this crop also the smallest on record. The decline occurs mostly in Ireland, and it is also heavier in Wales than in England, where it amounted to only 1,75 acres, or 0.1 per cent. In some counties the decline in Barley is attributed to an unfavorable seeding time, while in others this cereal largely took the place of Wheat. In Lincoln there is an increase of 11,329 acres, and considerably larger areas were also placed under the crop in Yorkshire. On the other hand the largest decrease, 7,467 acres, occurred in Norfolk. In Welsh and very few Scotch counties show an increase.

Oats, on the other hand, exhibit an increase of 112,730 acres, or 3.6 per cent, thus raising the figures for this crop higher than in any previous year, with the exceptions of 1894 and 1895. It may be noticed that this, which has long been the most widely cultivated cereal crop in this country, now occupies for the first time in Great Britain an area larger than that under Wheat and Barley combined. Oats this year have to a considerable extent taken the place of Wheat. In Scotland the increase is relatively slight, but the chief cultivating in Aberdeenshire, while in Wales there is an actual decline.

A full of 32 acres brings the total area under Rye down to 55,714 acres. Beans are most largely grown in the eastern counties of England, and the more important of these (Suffolk, Lincoln, Essex, Cambridge and Norfolk) together show a gain of 14,454 acres. Peas, on an area rather less than three-fourths that of Beans, show a decrease generally, amounting to 5,903 acres, or 3 per cent.

Potatoes occupy an area of 542,000 acres, 1,000 acres more than in 1903. This increase has taken place almost entirely in Scotland, where there are 6,371 acres more than last year, while in Wales there is a decline of 483 acres. In England and English counties show a decrease in area (amounting to as much as 1,488 acres in Cambridgeshire), balanced by gains of 4,671 acres in Yorkshire, the most considerable Potato-growing county, 4,122 acres in Stafford, 887 acres in Lancaster, and smaller increases in a few other counties. The substantial increase in Lincolnshire is largely attributed by the collectors to the encouragement afforded by the success of certain new varieties.

The whole area intended for Hay, whether under rotation or in permanent grass, amounts to 6,503 acres, as compared with 7,167,415 acres in 1903, or a decline in the total Hay area of 79,117 acres.

The total number of Horses used in the returns, viz: Horses used for agricultural purposes, Mares kept for breeding, and unbroken Horses--is the largest hitherto recorded, surpassing by nearly 6,000 the number returned in 1903. The increase as compared with 1903, amounts to 23,082, or 1.5 per cent. Practically all counties shared in the increase.

Except for the year 1892, when 6,941,783 were returned, the number of Cattle in 1904 is the highest total ever shown in Great Britain, the increase over 1903 amounting to 153,774, or 2.3 per cent. In England and Wales there is a large increase, on the other hand, only six Scotch counties show any augmentation, a net decline of 34,561 being noted north of the border.

Sheep have continued the decline that has been a marked feature in Live Stock statistics for many years past. On this occasion the diminution amounts to 432,619 head, or 2.3 per cent, as against in 1903. The most important decreases occur in the North of England, e. g., the three ridings of York and Cumberland, and also in Lincoln. In Scotland the chief decreases are in Argyll, Perth and Dumfries.

Lambs, especially in Scotland, have decreased, the lambing season having been unfavorable in many districts, while in some cases the reduction in numbers is ascribed to a greater proportion of early sales. Sheep of one year and above, other than breeding ewes, have also fallen off, especially in Yorkshire, Lincoln and Cumberland.

Pigs, of which the number fluctuates considerably from year to year, exhibit an increase of 175,983, or 6.5 per cent, which is generally distributed throughout the country. This is attributed in several counties to the reduction of swine fever. The largest increases occur in Yorkshire, Lincoln and Norfolk, and the chief exception to the rule is Somerset.

ARGENTINE NOTES.

BUENOS AYRES, Oct. 1.--The new crop prospects continue very satisfactory and the young Wheat is developing well, while the official and private forecasts speak of a probable big yield. According to official figures the area under Wheat in Entre Rios this year amounts to 926,040 hectares, or about 84,000 hectares more than last year. The locusts in the North of Santa Fe have, it is true, made some little progress without, however, causing any damage, and the work of destroying them is being pushed on energetically. We understand also that there is a plentiful supply of labor for the harvesting; the first batch of laborers from Europe has already arrived, while steamers on the way and about to leave from Italy, South of France and Barcelona, are all said to be bringing as many as they can.--*Hamlet-Zeitung.*

When Argentina comes into discussion as a factor in Wheat it is as an exporter, and her surplus is large enough now to be taken seriously into account, because she exports nearly her whole crop. As to our estimate of the crop, we do not have none, and are not prepared at this stage to venture one. All that we can say is that the area is very probably bigger by 25 per cent, and that conditions so far are excellent.

Reports of locust invasions come from Cordoba and Santa Fe. In other respects agricultural prospects are most brilliant.--Buenos Ayres *Standard*, Oct 2

From all parts of Rosario we are daily receiving encouraging reports as to coming crops, which no doubt at the present moment are splendid, even from the most unfavored districts, but when we read of an anticipated increase of 50 per cent in area, it makes one somewhat dubious of what is going to happen.

At the moment everything looks splendid both for camp and agriculture, but we must wait for some three months yet to see how things pan out. --*Review of the River Plate*, Oct. 8.

CROPS IN ROUMANIA.

[From Dornbusch, Nov. 8.]

BUCHAREST, Oct. 29.--According to official figures just published, the yield of Wheat this year is given as about 18,940,000 hectolitres, against 25,975,000 hectolitres last year. Barley 4,075,000 hectolitres, against 10,475,000 hectolitres. Oats 4,449,940 hectolitres, against 11,697,000 hectolitres. Rye 715,000 hectolitres, against 2,540,000 hectolitres. Rape Seed 84,600 hectolitres, and Flax Seed 59,500 hectolitres. The area under Wheat cultivation in 1,752,000 hectares this year, against 1,600,000 hectares last year. The deficit in the yield of Wheat is to some extent counterbalanced by the superior quality of the Grain and the favorable prices at present ruling. The Corn crop has been an almost total failure, amounting this year to not more than 1,000,000 hectolitres, against about 25,000,000 hectolitres last year and 9,700,000 hectolitres in the last bad year of 1899. Official reports regarding the state of the autumn crops are favorable. Repeated was largely sown and is progressing well. Wheat is being well sown, and operations have, to a great extent, been completed. The Grain trade is rather dull. Dealers have large stocks of Wheat and Barley in their hands for which they bought at high prices in hopes of a further rise, and which they are therefore now holding at a loss; export business is at a standstill. Farmers at the same time are insisting on high prices

THE WEATHER CONDITIONS.

Extremo Northwest--Temperature, 26 to 44; partly cloudy. Northwest--Temperature, 30 to 50; generally cloudy. West--Temperature, 30 to 44; clear. Southwest--Temperature, 28 to 50; generally clear. Ohio Valley--Temperature, 50 to 58; clear.

Indications are Western storm will continue East, with some precipitation in Upper Mississippi Valley and in lake region. Temperatures will fall Northwest, but rise here.

ITEMS OF GENERAL INTEREST.

The directors of the Chicago Board of Trade, Tuesday, made the Chicago Savings Bank a depository of margins.

A Boston dispatch says: "The Wool market is quieter this week, but holds very strong, with prices still tending upward."

Barney & Smith directors have declared the regular quarterly 2 per cent preferred dividend, payable Dec. 1. Books close Nov. 18 and reopen Dec. 2.

The Canadian Pacific Railroad has decided to close the season of navigation for its lake route with the sailing of the steamer Alberta from Owen Sound Nov. 29.

The record price for Oregon Hops was reached last week, when 150 bales were sold to Eastern brewers at 35c. The lowest grade sold at 20c, the bringing 30c. It is estimated that not over 11,000 bales are left in the hands of growers, and they are held firmly, offers of even 30c being refused.

The Comptroller of the Currency issues a call, Tuesday, for statements of condition of the National Banks at the close of business Nov. 10. His call was followed by the Auditor of Public Accounts of Illinois, who issued a call for statements of condition of the State Banks as at the opening of business Nov. 11.

The Sugar Planters' Union of Mexico, at a meeting in the City of Mexico, has considered the disposition of the surplus stock from last year's crop. It was decided to export 10 per cent as soon as the planters begin grinding early next January. Another 10 per cent will be exported during the month of March. Conservatively estimated, the Sugar crop of 1905 will reach 250,000,000 lbs., of which the planters will export 25,000,000 lbs.

New incorporations in October reached a total of $215,500,000 for companies capitalized at $1,000,000 or more. Of this sum the new Tobacco consolidation contributed $75,000,000, while the total would have been only $35,500,000. This is for the August figures of $32,000,000, the low water mark for a number of years. However, not since May, 1901, when the total reached $257,000,000, have last month's returns been exceeded.

The *North British Agriculturist* of Nov. 2 says: "The Potato harvest is now nearing completion, and those who have not finished lifting the crop with a Wheat crop are getting splendid weather for that work. The Potato crop has been stored in the best of order, and very little disease has been seen on the tubers on this side the borders. The fine weather has enabled farmers to get on rapidly with the manuring and plowing of stubble land, and generally the work is in a very forward state for the time of year. Threshing operations are only being carried out to meet immediate requirements, as the prices for Grain are not at all tempting. Many fields are being left over for the month of November, and generally speaking the prospects in regard to winter keep are very good."

"The elevators in Kansas and Oklahoma are full of Wheat," said a Chicago Grain inspector, who is back from a tour of the Southwest. "The mills are also full of Wheat and Flour, and the millers looking for more. Every station point in Kensington, Anthony, Harper, Kiowa, Alva and Winfield, to the deniers are all looking for storage and paying demurrage for holding cars on track, with Wheat selling at the top of the market. In Oklahoma. In Southern Kansas there was twice as much Wheat seeded this year as last. A month ago the farmers had all the moisty. Teams waited to plow for Wheat.' Every horse and mule in the county was plowing for the next crop. The Wheat looks well in the ground. I saw no signs of the Hessian fly. It is all a question of the crop in Kansas is of fine quality It is dry and sun cured. It would grade in the Chicago market mostly, and good enough to be shipped on Rye terms to Europe."

A meeting of the directors of the American Ice Company was held in New York, Friday, for the purpose of discussing plans to reorganize the company. It is understood that there was no quorum, although it has been practically decided to readjust the company's affairs. It is pointed out by one in authority that such a step is necessary to place the so-called Ice trust on a stronger basis. The company has an authorized capital stock of $10,000,000 common and $15,000,000 preferred, of which $18,671,100 and $14,692,000 respectively is outstanding. The preferred stock is 6 per cent cumulative. Of the 6 per cent collateral trust bonds, $2,858,000 were used to reduce the floating debt, of which $320,000 have been redeemed and cancelled and $128,000 were purchased and held by the company April 1, 1904, and $1,783,000 were issuable to retire $1,958,000 underlying bonds and real estate mortgages, of which $291,950 were owned by the company.

ITEMS OF GENERAL INTEREST.

New York Exchange 10c premium.

Documentary Sterling steady at 483⅞.

Chicago Bank Clearings to-day, $37,066,182.

The Atlantic Coast Line Railroad Company has declared a 20 per cent stock scrip dividend.

Ten packers purchased 19,600 Hogs to-day; shippers, 3,000; left over, 7,000. Market closed weak.

Average cost of Hogs at Chicago, Wednesday, was $4 75, against $4 76 Tuesday, $5 02 a week ago, and $4 53 a year ago.

The New York Central system reports for the September quarter a surplus after charges of $3,080,998, increase $62,142.

Estimated receipts for to-morrow: Wheat, 55 cars; Corn, 429 cars; Oats, 91 cars; Rye, 6 cars; Barley, 59 cars; Hogs, 20,000.

The directors of the Railway Equipment Corporation have declared the regular monthly dividend of 1½ per cent, payable Nov. 15.

The Atlantic Coast Line for the year ended June 30 shows a surplus after charges, etc., of $4,283,482, equaling 5 per cent on the preferred and 11.77 per cent on the common stock.

Moderate dealings in the New York Cotton market proved at the expense of prices. July was steady, but other options were uniformly easier. The market closed 12@15 points lower.

The United Cigar Stores Company has declared a cumulative dividend of 7 per cent on its preferred stock. The trade estimates that the company's gross sales amount to about $3,000,000 a year.

The Standard Oil Company has advanced the price of crude Oil 4c. The quotations follow: Pennsylvania, $1 60; Tiona, $1 75; Corning, $1 37; Newcastle, $1 47; North Lima, $1 07; South Lima, $1 02; Indiana, $1 02.

The Standard Oil Company, Tuesday, declared a dividend of $7 00 a share, payable Dec. 15. Last year a dividend of $12 00 was declared for payment on the same date. To-day's dividend declaration makes a total dividend for this year of 36 per cent, compared with 41 per cent in 1903.

The Cincinnati *Price Current* reports the packing of the West for the week at 515,000 Hogs, compared with 440,000 for the week previous and 440,000 for the corresponding week in 1903. Total packing in the West since Nov. 1 about 1,030,000 Hogs, compared with 880,000 Hogs to date last season.

A New York dispatch says that officials of the National Biscuit Company do not believe the reports of an increase in the dividend on the common stock, saying that the present dividend rate of 4 per cent is fair. They report business in gross is at present the largest in the company's history.

The Cincinnati *Price Current*, in its weekly summary, says: "Only little relief from dry weather influence on growing Wheat, but no notable injury to the crop yet apparent. Conditions continue favorable for Corn, with tendency to increase in marketing. Moderate current offerings of Wheat and Oats."

After a decline at the opening, Local Stocks firmed up and followed the strength in Eastern markets. The principal trading was centered in American Can shares and National Biscuit. All closed higher. National Carbon gained 2 points on strength of the inauguration of dividends. The traction issues were lower.

The New York Stock market closed strong. Steady advance followed the break in prices after the opening and the momentum of purchases increased gradually throughout the list of prominent Stocks, carrying values up with a rush after the noon hour. The advance of about 4 points in the price of Tennessee Coal, Sugar and Copper were the leading features. Western Railway shares ended 1 to 2 points higher and the Eastern group 1 to 1½ points higher.

GIGANTIC RAILROAD COMBINATION.

[From the Chicago Inter Ocean, Nov. 14.]

The latest gigantic stroke of moneyed interests, representing at least $10,000,000,000, the formation of a huge combine of the railroad systems of the United States, may be nipped in the bud by the anti-trust laws enforced by the Departments of Commerce and Labor and Justice. A thorough investigation, it is said, will be made within the near future of the alleged combine whereby the Standard Oil Company and a few Eastern magnates have already planned the grouping of the entire country's railroads into large divisions to be controlled and intermanaged by the same capital. The Harriman, Gould, Moore, Rockefeller, Hill, and Santa Fe Systems, comprising 96,104 miles of railroads, and representing $4,495,000,000, are the Western roads in the combine. The Eastern interests said to be joining are the Vanderbilts, Pennsylvania, and Erie Lines, with 45,583 miles of road and $3,563,500,000 capital. The Southern railroads, the property of J. P. Morgan, consisting of 18,879 miles of road, representing $297,500,000, and the New Haven and Hartford, the New York, Ontario and Western, with 2,510 miles and $194,800,000 capitalization, are also in the combine. The grand total represented is 162,985 miles of road and $8,0 0,800,000 in money. Although railroad presidents residing in Chicago did not desire, yesterday, to affirm or deny the reports of the coming combine, they unanimously stated that there was some truth in the rumor, and that the near future will show that out of the total $14,862,000,000 invested in railroads in this country, over $8,000,000,000 will be centralized and controlled by the world's shrewdest financiers. The remaining interests, representing a capital of $6,000,000,000, will seek a compromise or be absorbed, it is believed.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Business here almost completely at a standstill and reported as unsatisfactory in the Spring Wheat country. Bids from abroad are still out of line.

WINTER WHEAT—Was dull and the feeling weak, with the closing about 1c lower. Millers indifferent and the demand was slack all around. No. 2 Red in store quotable at $1 14¼@1 16. No. 3 Red fresh receipts free on board sold at $1 14, and was quotable at $1 09@1 11. No. 4 Red sold at $1 07. No. 2 Hard fresh receipts free on board quotable at $1 06@1 14. No. 3 Hard fresh receipts free on board sold at $1 08 and ranged at $1 05@1 10. No. 4 Hard sold at $1 02½.

SPRING WHEAT—Was dull and weak in sympathy with futures. Demand light and receipts also small. No. 1 Northern fresh receipts quotable at $1 17@1 20, but entirely nominal. No. 2 Northern fresh arrivals free on board quotable at $1 10@1 13. No. 3 Spring sold at $1 02@1 11—outside for hard variety. No. 4 sold at 85c@$1 02 for common to good hard variety.

REGULAR WHEAT—Off sharply, closing rates showing losses of 1⅛@1⅝c. Around the bottom prices there was good buying by some of those who sold early. This movement was made in order to secure profits within easy reach. The seaboard reported 8 loads taken for export, and there were sales here of 100,000 bu and rumors of an additional 100,000 bu—all taken by millers. As compared with yesterday there was a complete reversal of sentiment, with the "bears" largely in the majority during the forenoon. One or two of the largest buyers of yesterday were on the selling side this morning. The principal "bear" help during the morning was the increase of 900,000 bu at Minneapolis in five days, and the Northwestern receipts were 233 cars in excess of a week ago. The local crowd was "bearish" and they played for a reaction from the highest points of yesterday and were successful in their movements. The selling was led by several of the private wire concerns and elevator people. Commission houses were the buyers on scale orders. Both Minneapolis and Kansas City followed up their advices of yesterday with reports of the "best cash demand on the crop." A rumor was current on the floor that a cargo of Manitoba Wheat is to come here. This was accepted by the trade as a "bearish" help. The weather in the Winter and Spring Wheat belts was most excellent for movement, and continued fair weather is indicated. The Flour output at Minneapolis was 217,315 brls for the past week, compared with 417,515 brls in 1903. Most of the millers in the Northwest report Flour sales slow, and say shipping directions are not coming along as freely as they should on old sales, particularly in view of the approaching close of lake navigation. While this is the general report, there are exceptional cases in which millers report satisfactory sales and shipping directions coming along freely enough to give them all they can do. Cables were unsettled and irregular. Liverpool was unchanged to ⅛d higher. Antwerp was unchanged. Paris showed declines of ¼@½c. Spot Wheat at Liverpool unchanged to ⅛d higher. The *Price Current* says that the Winter Wheat belt has had little relief from dry weather, but that there is as yet no apparent injury to growing Wheat. Receipts at Duluth 197 cars at Minneapolis 583 cars, total of 780 cars, against 621 cars yesterday, 547 cars a week ago, and 960 cars last year. Local receipts included 45 cars Winter, 9 cars Spring and no cars mixed, a total of 54 cars, against 109 cars last year. Included in above was 1 car contract grade. There were also 14 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 55 cars. The withdrawals were 20,500 bu. Receipts at Western points were 935,749 bu, against 1,335,830 bu last year. At Eastern points 40,803 bu, against 328 932 last year. Shipments from Western points 683,342 bu, against 657,958 last year, and from Eastern points no bu, against 134,880 bu last year. Shipments of Flour were 18,046 brls. Exports of Wheat in Flour were equal to 85,257 bu.

Future Deliveries of Regular Wheat—Fair trade and market lower.

NOVEMBER—Entirely nominal and closed about $1 10⅜.

DECEMBER—Sold at $1 10¾@1 12⅝. Opened with sales at $1 12⅝ to $1 12½; sold to $1 12⅝, to $1 11¾, to $1 12⅛, to $1 11½, to $1 11¾, to $1 11½, to $1 11⅞, to $1 11⅜, to $1 11½, to $1 10⅞, to $1 11, to $1 10¾, to closed at $1 10¾@1 10⅞.

MAY—Sold at $1 10⅞@1 11 and at $1 12⅞. Opened with sales at $1 12½ to $1 12⅞; sold to $1 12¾, to $1 1⅛, to $1 12½, to $1 11⅞, to $1 12, to $1 11¼, to $1 11⅝, to $1 10⅞@1 11, to $1 11¼, to $1 10⅞@1 11, to $1 11¼, to $1 11, and closed at $1 11 bid.

JULY—Sold at 97⅜@99c. Opened at 98½c to 99c; sold to 98¾c, to 98⅛c, to 98½@98⅝c, to 97¾c, to 97⅞c, to 97⅝c, to 97½c, to 97⅝, closed at 97⅜c bid.

CORN—More or less strength was shown in the face of the break in Wheat and the buying was concentrated, and was led by the "bull" houses who are "long" big lines of both December and May Corn. The close was ⅝@¾c lower for the day. Cash sales 8 loads and 50,000 bu at Chicago. The Corn market was influenced more or less by the early weakness in Wheat, yet the coarse Grain displayed a more or less stubbornness when it was attacked by the believers in lower prices. The "bull" party was a buyer of both the December and May, but refused to absorb all the offerings. The selling was not particularly strong in character, as it was led by room traders. The estimate for 429 cars for to-morrow, coupled with the talk that the farmers were selling more freely and that consignments were on the increase, was too much for the average trader who has felt friendly to Corn and many liquidated their holdings. There were 301 cars on the inspection sheet, but only 3 of these were of the contract grade. There were 93 cars and 25 000 bu switched from unlicensed houses. Liverpool was ¼@½d higher for futures and ⅛d better for spot. Primary receipts were 381,000 bu, against 303,000 bu a year ago. Clearances from the seaboard were 8,303 bu, against 106,000 bu a year ago. No. 2 closed at 51c and No. 2 Yellow at 58c. No. 3 closed at 53½c and No. 3 Yellow at 57½c. No. 4 new sold at 46@47c. No Grade at 44½@47c.

Corn by sample—Offerings were considerably larger and the demand only moderate. Feeling weaker and prices 1@4c lower, with the general market average about 2c lower. Sales on track and free on board: No Grade sold at 43@47c. No. 4 at 44½@54½c. No. 3 at 46@57c. No. 3 Yellow at 48½@58½c. No. 2 at 56½c. No. 3 White at 48@55½c. Billed through: No Grade at 42@47c. No. 4 at 41@54½c. No. 3 at 47@54c. No. 3 Yellow at 50c. No. 3 White at 46½c.

Future Deliveries of No. 2 Corn—Rather a firm undertone when the sharp break in Wheat is considered. The close was ⅝@¾c lower for the day.

NOVEMBER—Was nominal at 51½c at close.

DECEMBER—Sold at 50⅝@51½c. Opened at 51½c to 51⅜c, sold to 51⅛c, to 51⅜c, to 50⅞c, to 51⅛c, to 50⅝c, to 50⅞c, to 50⅜c, to 50¾c, to 50½@50⅝c, closing at latter.

MAY—Sold at 45¾@46⅝c. Opened at 46⅜c to 46½c, sold to 46⅝c to 46½c, to 45⅞@46c, to 46⅛c, to 45¾c, to 46c, and closed at 45⅞@46c.

JULY—Sold at 45¾@45⅞c to 46¼@46⅜c. Opened at 46¼c, sold to 46¼@46⅜c, to 45⅞c, to 46c, to 45¾@45⅞c, and closed at 45⅞c.

OATS—Did not decline so fast as other Grains, a good scattered demand developing at 31⅜c for May on the light receipts and the steady cash market. Pressure on the market was light until the last hour when several local lines came out, and were absorbed by "shorts." Cash houses sold a little early. Arrivals were 60 cars, and 91 cars estimated for to-morrow. Withdrawals from store were 800 bu and the seaboard cleared 8,000 bu. Car lots to go to store were steady.

Oats by sample were in small supply and the market was well cleaned up at steady prices. Sales on track and free on board: No. 4 White sold at 28@31c. No. 3 White at 31@32c. Standard at 31¾@32½c. No. 2 at 30c. No. 2 White at 32c. Billed through: No. 4 White at 28@30½c. No. 3 White at 29½@31c. Standard at 31@31½c. No. 2 at 31c. No. 2 White at 31¾c. At the river: No Grade at 25c. No. 4 White at 28@28¾c. No. 3 at 28@28½c. No. 3 White at 28½@29½c.

Future Deliveries of Contract Oats—Was steady early but easy later.

NOVEMBER—Closed at 29¾c.

DECEMBER—Opened at 29c, sold to 29@29⅛c, off to 28¾@28⅞c, and closed at the latter.

MAY—Opened from 31½c to 31½@31⅝c, the latter price the top, sold off to 31¼c, and closed at 31¼@31⅜c.

JULY—Opened at 31¾c, sold to 31¾@31⅞c, to 31½c, and closed at 31½c.

RYE—The market was easy. Offerings fair and very little demand existed for futures. A few cars of fresh arrivals were wanted. General market dull and weak. Only three cars received. No withdrawals here and no exports from New York. No. 2 in store nominally 79½c and fresh arrivals free on board sold at 83@85c for common to choice, with a sale of No. 1 at 85½c, and No. 2 at the river at 80c.

Future Deliveries of No. 2 Rye—Quiet. November nominally 79¾c. December 79¾c asked, and May 81½c asked.

BARLEY—There was a little more malting Barley on sale; even at that the supply was small. There were some good cars among the offerings—average quality a little better than it has been. A little more interest on the part of buyers was shown. More maltsters put in an appearance. Cash lots were taken, some lots to arrive were sold and bids were put out on others. Low grade or feed Barley salable, but not enough coming on sale for buyers to bother with. Tone of the market firm for all grades of Barley, especially the better grades. Screenings remain in fair supply. When clean and good color they were salable and steady; common and dirty rule dull. Nineteen cars inspected in to-day. Sales of Screenings were over a range of 25@38½c for poor dirty, to very choice. Barley—low grade feed, quiet, sparingly offered and quotable at 38@38½c local and 37c river. Malting, low grade, small berry, some heavy, but dirty remains at 39@40c; clean, fair to good, at 42@45c, and large berry, heavy, quotable at 46@48c, with choice to fancy 49@52c.

SEEDS—There was considerable done in cash Timothy, with the market strong. Other lines quiet and the only material change was a small advance in Flax prices.

Timothy—More cash Seed was offered. It was largely hulled or dirty; some also was good. Demand fair, at the same time no competition existed. Market quotably firm for the better grades, about steady for Seed not so desirable. Contract grade for nearby delivery was 2½@5c better, and yesterday's bid price for March delivery was repeated. No trading in the speculative market. Cash sales reported were over a range of $2 15@2 42½ for poor to good, down to $1 50 for tailings. Country lots were quotable at $1 75@2 50 for low grade to choice; fancy nominally a shade over, inferior lower; fair to good, $2 35@2 45; choice $2 50, with fancy above, and rough dirty or hulled, $2 20@2 30. Contract spot or November delivery nominally $2 70. January quoted at $2 75 and $2 82½ bid for March, with $2 85 asked.

Flax—There was ½c advance quoted for everything up to May delivery, and that was unchanged. Market generally bare of offerings. Nothing was done aside from a car of No. 1 Northwestern, which sold at $1 18. No. 1 was nominally $1 11. Rejected, depending on quality, quotable at $1 08@1 15. November and December were both nominally $1 11, and May quoted at $1 18½. Local receipts 2 cars or 1,800 bu, and 1 car or 1,059 bu taken out. Minneapolis receipts were 67 cars and Duluth receipts 193 cars.

Clover—The market was without consignment offerings, and it was in consequence inactive and nominal. Contract grade, spot or November delivery quotable at $12 25. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—Lifeless and nominally steady as follows: Hungarian quotable at $1 05@1 15 for common to choice. Millet, common was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 7ac@$1 00. Buckwheat scarce and salable at $1 25@1 30 good milling.

HOG PRODUCTS—There was only a moderate speculative trade in the market for Hog Products and the feeling developed was a little unsettled. Trading was local in character and the early tone was firmer following the trend of the Hog market. There was scattered commission house buying, chiefly Lard and Ribs, but at the advances established there was a little more selling pressure, and prices receded, influenced mainly by the action in Grain. Receipts of Hogs were moderate and market 5@10c higher at the start, but later the advance was lost. Receipts at the principal Western packing points were estimated at 69,500, compared with the 64,600 one year ago. Packing of the West for the week was 515,000, compared with 440,000 for the corresponding period in 1903. Domestic markets were quiet and steady. Liverpool quoted Hams and Bacon 6d lower, while Lard was 3d higher. Receipts of Product were fair of Lard and Meats about 24 cars. Shipments were moderate—of Lard and Meats about 87 cars. Local stocks are now estimated at 29,750 brls Pork, 14 000 tcs Lard, and 4,000 000 lbs Short Rib Sides. Market started 2½@5c higher, and gradually settled back 5@12½c, and closed comparatively easy. Trading still confined almost exclusively to January and May contracts. Inquiry on shipping account was better, but for small quantities and offerings were only fair. Sales were larger, there being more doing than appears on the surface, and prices without material change.

Mess Pork—The trade in the market for Mess Pork was only moderate and the feeling prevalent a little unsettled. Higher prices ruled early on buying by "shorts" and market advanced 2½@5c. Later, however, offerings increased and prices reacted 10@12½c, changed but little and closed comparatively easy. Trading is still limited to contracts for January and May. Shipping inquiry was again light and offerings moderate. Cash lots quotable at $11 10@11 15.

NOVEMBER—Quiet and inactive, closing at $11 17½.

DECEMBER—Very little doing. Few trades at $11 25 and closed at $11 25 bid.

JANUARY—Demand fair with rather more pressure to sell. Sales were made at $12 62½@12 65 and $12 77½. Opened at $12 77½, and sold at $12 65, to $12 67½, to $12 62½@1 65, and closed there.

MAY—Demand moderate and offerings fair. Sales were made at $12 70@12 82½. Opened at $12 77½ to $12 82½, and sold to $12 70@12 72½, to $12 75, to $12 70, to $12 70@12 72½, to $12 70, and closed at $12 70 sellers.

Lard—There was only a moderate trade reported in the market for Lard, and was largely local and limited to the deferred deliveries. Rather a firm tone was prevalent at the start and on miscellaneous buying, credited chiefly to "shorts," prices were advanced 2½c. Later there was more pressure to sell, floor traders being against the price, and values receded 5c, changed slightly and closed comparatively easy. The demand on shipping account was moderate, with fair offerings. Cash lots were easy at about November figures, closing at $6 97½@7 00. Loose lots in fair request, with fair offerings. Prices were quotable at 37½c discount on January figures. Leaf Lard was in moderate demand, with light offerings. Prices were quotably steady at $7 00. Neutral in light demand, with moderate offerings. Prices quotably easier at $8 37½@8 50 for No. 1, and $7 75@7 87½ for No. 2.

NOVEMBER—Quiet and inactive; closing nominally at $7 10.

DECEMBER—Very little inquiry; sold at $6 97½; closed about $6 97½.

JANUARY—In moderate demand with fair offerings. Sales were made at $7 05@7 10. Opened at $7 10, and sold to $7 05, and closed at $7 05 sellers.

MAY—Demand nothing urgent and offerings fair. Sales were made at $7 20@7 25. Opened at $7 25, and sold to $7 20, and closed $7 20 asked.

Short Rib Sides—Only a moderate trade was witnessed in the market for Short Rib Sides, and the tone was somewhat unsettled. Initial trades were at fractional advances on scattered buying, after which offerings increased and prices receded 5c, changed slightly, and closed comparatively easy. Part of the late selling was credited to packing interests. Shipping demand was light and offerings moderate. Cash lots quotable at $6 87½@7 12½ according to weight.

NOVEMBER—Quiet and quotable at the close at $6 95.

JANUARY—Offerings moderately free and demand only fair. Sales were made at $6 52½@6 57½. Opened at $6 57½, and sold to $6 52½ to $6 55 to $6 52½, and closed $6 52½ sellers.

MAY—Demand was moderate and offerings fair. Sales were made at $6 65@6 70. Opened at $6 70, and sold to $6 65, to $6 65@6 67½, to $6 65, and closed $6 65 sellers.

Other Meats—Trade very moderate and the feeling was steady. Domestic demand little better, and small orders received from abroad. Offerings of all kinds not very large. Green Meats rather quiet and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices unchanged. Dry Salted Meats in fair request, with moderate offerings, and prices ruled steady. Smoked Meats called for moderately, and prices unchanged. Closing prices were as follows: GREEN—Hams, av. 10@12 lbs, 9@9¼c; 12@14 lbs, 8⅝@8¾c, 14@16 lbs, 8⅞@8¾c, 8⅛@8¼c November, December and January; 18@20 lbs, 8@8⅛c; Skinned Hams, 8⅞@9c; 9⅛@9¼c November, December and January; Shoulders 6¼@6½c; Picnic Hams 5⅞@6⅛c; Bellies, 8½@10½c. PICKLED—*loose*—Hams, 10@12 lbs, 9⅛@9¼c; 12@14 lbs, 8⅞@8½c; 14@16 lbs, 8@8⅛c; 18@20 lbs, 8⅛@8¼c; Skinned Hams, 8⅝@8¾c; Shoulders, 6½@6¾c; Picnic Hams, 6¼@6⅜c; Bellies 8½@10½c. DRY SALTED—*loose*—Shoulders, 6¾@6⅞c; Short Fat Backs, 6@7c; Short Clear Backs, 7½@8c, Clear Bellies, 7@8c; Rib Bellies, 6¾@7¼c; Extra Short Rib Sides, $6 95@7 00; Extra Short Clear Sides, $7 05@7 10; Rough Sides, 6⅞@7⅛c; Plates, 5¾@6c; Jowl Butts, 4¾@5c. EXPORT CUTS—*boxed*—Long Cut Hams, 9½@9¾c; Cumberland Sides, 8½@8¾c; Long Clear Sides, 8¼@8½c; Extra Long Clear Sides, 7@7¼c; Short Clear Sides, 6⅞@7c. SMOKED—*loose*—Hams 9⅞@10½c; Skinned Hams, 10¼@10½c; Shoulders, 7⅞@8c; Picnic Hams, 7@7¼c, Short Rib Sides, 7⅜@7¾c; Extra Short Rib Sides, 7½@7¾c; Rough Sides, 7⅝@7¾c; Short Clear Sides, 7¾@7⅞c; Extra Short Clear Sides, 7½@7⅝c; Breakfast Bacon, 10½@11½c.

BEEF PRODUCTS—Quiet and steady. Prices quotable as follows: Beef Hams, $19 25@19 50; Extra Mess Beef, $8 50@9 00; Plate Beef, $8 50@8 75; Extra Plate Beef $9 25@9 50. Tallow steady at 5@5⅛c for edible; 4¾@4⅞c for prime packers; 4⅛@4⅜c for No. 1 do, and 3½@3⅝c for No. 2 do; 4¼@4⅜c for city renderers; 4¼@4⅜c for prime country, 3⅝@3¾c for No. 2 do. Oleo-Stearine in moderate demand and quotably easier at $6 70@6 75.

GREASE—Quiet and rather steady at 3⅛@3¾c for brown, 3⅜@3½c for yellow, 3¼@3½c for house, 4@4¼c for B white, and 4½@4¾c for A white.

THE ARGENTINE CROPS.

[From the London Financial Times.]

BUENOS AYRES, Sept. 30.—By the courtesy of Senor Emilio Lahitte, chief of the Statistical Division of the Ministry of Agriculture, I am enabled to furnish some interesting information concerning the crops of the country. The total area under cultivation of Wheat and Flax Seed during last year was 3,807,790 hectares, or 16 90 per cent in excess of the previous year. Taking into account the increase of private colonies and of the Central, Western and Rosario lines of railway, in the direction of the fifth meridian, it is clear that the extension of the cultivable area for the coming harvest will at least be equal to the preceding one. The same may be said with regard to Corn, the cultivation of which is on a larger scale than was the case last year. The prospects of the new crops inspires the belief that Wheat and Flax Seed will show better results during the coming harvest, provided that climatic or other difficulties do not arise in the last stages of the ripening of the Grain.

Under normal conditions, Senor Lahitte estimates that the forthcoming crop will yield 4,000,000 tons of Wheat and about 1,500,000 tons of Flax Seed Deducting from the production of Wheat the quantity necessary for internal consumption and the seed needed for sowing, 2,500,000 tons will be available for exportation something like 2,500,000 tons The internal consumption of Flax Seed has been largely reduced, so that, allowing for the same requirements, 850,000 tons will be left for the export These estimates have been based upon the most careful calculations; and, always assuming normal conditions, may be accepted as authoritative, and as nearly as possible correct. There is some fear of a spread of the invasion of locusts; but this appears to be confined at present to comparatively unimportant areas, and the creation of a new Minister of Agriculture may lead to the adoption of the necessary measures to arrest the progress of the insect plague.

PIG IRON PRODUCTION.

[From the Boston News Bureau.]

The October production of pig iron of 1,683,193 tons of anthracite and coke pig iron compares with 1,463,193 tons in October, 1903, and 1,352,677 tons in the month of September last

The increase of 90,000 tons in the production compared with the September production was followed by a decrease of 26,414 tons in the surplus stock of pig iron, showing the increase in consumption during the month of October, approximately 122,740 tons, independent of charcoal pig iron and imported iron.

The total production of coke and anthracite for the ten months ending with Oct. 31 was 13,903,639 tons, compared with 15,562,366 tons in the first ten months of 1903

Up to Nov. 1, therefore, the pig iron production is 2,525,727 tons below that of last year.

The appended table shows anthracite and Coke production by months, 1904 and 1903, and the changes each month (in tons):

	1904	1903.	Decrease.
October	1,848,973	1,462,193	13,220
September	1,535,559	1,533,177	101,618
August	1,169,200	1,571,156	401,956
July	1,216,287	1,540,184	423,897
June	1,257,290	1,671,25	381,196
May	1,533,390	1,713,844	180,254
April	1,551,761	1,668,431	91,184
March	1,447,065	1,597,479	143,105
February	1,205,449	1,349,615	183,166
January	1,471,781	1,472,788	581,807
Total	13,634,539	15,563,956	2,529,417

The year's production of anthracite and coke will hardly equal 16,000,000 tons, because the production in December is likely to fall somewhat below October or November.

LAKE ORE SHIPMENTS.

[From the Boston News Bureau.]

Steel men have been compelled to revise their figures on lake Ore shipments several times this season because of the constantly increasing shipments over calculations.

The estimate of shipments from the Lake Superior country for the season now range from 43,000,000 tons to 24,500,000 tons, with the former accepted by well posted Steel men as a conservative minimum.

Up to Nov. 1 the lake Ore shipments aggregated 17,600,000 tons, but with November shipments equal to and at some ports, breaking all previous records, November shipments are expected to reach 3,000,000 tons, and December's final run not less than 2,500,000 tons before the close of navigation. The production of Lake Superior and the total of the United States for five years, with this year estimated, are as follows:

Lake Superior United States tons.	tons.
Season 1904	43,000,000
Season 1903	28,573 371
Season 1902	27,571,121
Season 1901	20,593,587
Season 1900	19,050 393

	35,000,000

ITEMS OF GENERAL INTEREST.

A fire in the United Stock Yards, Jersey City, N. J., Tuesday, caused a loss of $150,000.

Warren H Needham, general merchant, Greentown, Ind. assigned. Monday. His assets are $12,000; liabilities, $13,000.

The Consolidated Gas Company has declared a dividend of 2½ per cent for the quarter, an increase of one-half of 1 per cent over the previous payment The dividend is payable Dec. 15. Books close Nov. 21 and reopen Dec. 1.

According to an official of the Allis-Chalmers Company, the company's business is improving at a splendid rate. New orders doubled during October, as compared with September. It is expected that November will make a relatively large showing compared with October.

It is stated from an authoritative source that since Nov. 1 there has been a settlement in the cement business and better prices are soon obtained, the management of the American Cement Company will not feel warranted in continuing the present dividend rate.

In his annual report the president of the Pittsburg Brewing Company says that a decrease of 3,36.61 bris in the quantity of Beer sold during the year is largely the result of hot weather during the summer, the failure of mills to run full time, and depressed conditions in general.

The Grand Trunk Pacific Railway Company has secured an option on the Pacific Great Eastern and Okanagan Railway, which runs from Kitimat to Hazelton, in British Columbia. The line is 128 miles in length and covers over a quarter of the distance from the Pacific Coast to Rocky Mountains.

All arrangements have been completed by members of the New York Produce Exchange to inaugurate trading in pig iron warrants. The business began Nov 14 and it is announced that certificates may be bought and sold through any member of the Exchange. The unit of trading will be 100 tons.

The Chicago, Rock Island and Pacific Railway Company has sold to Speyer & Co., according to a statement given out at the New York offices, Tuesday, $2,500,000 of its first and refunding mort. gage 4 per cent bonds, due April 1, 1944. The sale will provide for the requirements of the company until the summer of 1905

The directors of the Quaker Oats Company have declared the regular quarterly dividend of 1½ per cent on the preferred stock. The directors of the American Cereal Company have declared the usual dividend of 3 per cent on the American Cereal Company preferred. Both dividends are payable Nov. 30. Books close Nov. 21 and reopen Dec. 1.

An official of United States Steel denies that the company has any intention of absorbing Republic Iron and Steel, Tennessee Coal and Iron and the Sheffield, as rumored. He further says that the company has no idea of bringing out any new financial plans, nor has it any intention of selling the $30,000,000 5 per cent bonds which are in the treasury.

The seven-inch finishing mill of what is known as the lower plant of the American Steel Hoop Company at Warren, Ohio, resumed operations Monday. All the tonnage mills of this plant will be running double turn. The Girard plant of the American Steel Hoop Company has been closed permanently and dismantled as a result of the long strike.

The Illinois Central Railroad now has at Memphis, Tenn., the largest railway shops in the South. Additions and improvements to them have been made at a cost of over $250,000. The extension gives employment to hundreds of new men, mostly skilled mechanics. The Louisville and Nashville's shops at Louisville have been for many years the largest south of the Ohio River, but now the honor of having the biggest plant belongs to Memphis.

A special rate of 1c a mile has been granted by the railroads for excursion parties within a radius of 200 miles of Chicago to the International Live Stock Exposition, which will be held at the Union Stock Yards on Nov. 25 to Dec. 3. The rate will become operative on Nov. 20. Visitors who desire to remain during the entire week of the International have been granted a rate of one fare plus $1.00.

An officer of the American Steel Foundries Company says that the company closed a contract last week to furnish the cars and locomotives required for the New York Central as well as for the Rock Island system. The only plant of the company which has been closed, owing to last year's depression, will be opened within ten days. This plant is located in East St. Louis and was formerly known as the Leighton & Howard works.

The Lake Shore Railroad Company gives notice that it will redeem and pay on May 1, 1905, at the banking house of Drexel & Co., all its bonds outstanding under the mortgage and collateral trust deed dated May 1, 1893, between the railroad and the Girard Trust Company, Trustee, interest on said bonds will be paid to May 1, 19 5, and will cease on that date. In accordance with the provisions of said mortgage and collateral trust deed of 1893 a premium of 2½ per cent will be paid on their redemption.

The auditor's agent of Mason County, Kentucky, Tuesday, filed suit in the Mason County court against the Pennsylvania Railroad Company, the New York Central and Hudson River Railroad Company and other subsidiary stockholders, to compel them to list for franchise taxation for 1903 the property of the Chesapeake and Ohio Railroad, valued at over $60,000,000 The defendants being assessed only for the nominal wealth attached the bonds of the Chesapeake and Ohio Railway, pending the litigation.

Another important source of supply for lake Coal shipments has been developed. The Pittsburg Coal Company has leased from the Wabash Railroad a tract of high class lands near Pittsburg which have recently reached the point of heavy production. The term is for a number of years and the output of the new mines will aggregate a total of more than 2,000,000 tons of the product during the season of navigation. The Pittsburg Coal output is already in the neighborhood of 16,000,000 tons of Coal a year, the greater portion of which is shipped by the lake regions.

It is said in Boston that Phelps, Dodge & Co. now have a stock ownership in the Greene Consolidated Copper Company of 150,000 shares out of a total issue of 864,000 shares, and a man who is closely identified with Phelps, Dodge & Co. will have control of the property. The Phelps-Dodge interests now have a large investment in the Cananea camp having recently purchased for about $600,000 control of the Indiana and Sonora property, which is in the heart of the Cananea range and entirely surrounded by the Cananea Consolidated Copper Company (Greene) properties.

Encouraging reports are given of the market for Box Board, particularly in the West. The business done by the American Straw Board Company during the month of October was considerably larger than that done during September, and was, in fact, the best month's business of the year thus far. Orders are being received by the mills are improving. Under the lease of the United Box Board and Paper Company's mills to the independent manufacturers the United company will profit by the improvement in business, since it will get more mills in operation as the demand grows.

President Ramsey of the Wabash Railroad has asked for bids for the building of connecting links with the Union Railway of the Burnside Coal Company and the Jones & Laughlin works. When the proposed link is built the Wabash will complete its entry into the heart of the business of Pittsburg and the Monongahela Valley, and will be in a position to carry out its traffic contract with the Carnegie company for at least 25 per cent of its traffic annually. Wabash officials estimate their earnings from Steel and Coal traffic alone on the Pittsburg branch will amount to $6,000,000 a year.

There are signs of a gradual strengthening of money in New York. Since Aug. 20 the total cash in New York City clearing-house banks fell from $361,000,000 to $306,000,000 Despite this loss of over $54,000,000 of cash, the credits of the banks have expanded from $1,0 9,000,000 to $1,139,000,000 or about $30,000,000. During this period there has been a remarkable movement in securities, the transactions breaking all records, the prices improving rapidly throughout the country. The diminishing reserves in the East and the better monetary demand appear to point to a further rise in higher rates in New York before the middle of next month

Wall Street has a report that Charles M. Schwab who in the controlling interest in the reorganized United States Ship Building Company, is planning the disposal of several important plants at present included in the receivership. The report said that it is proposed to sell at least those controlled by five of the ship building concerns when the reorganization of the company is completed. According to the story, present plans provide for the resale of the Bath Iron Works, Bath, Me.; the Crescent Ship Yard Company, Elizabethport, N J.; the Hyde Windlass Company, Bath, Me.; the Canda Manufacturing Company and S. L Moore & Sons Company, Bayonne, N. J.

An official of the American Telephone and Telegraph Company says the proposed change in the certificate of incorporation of the Commercial Cable to permit that company to sell its property to any telegraph or telephone company is not significant in its relation to the American Telephone and Telegraph Company. The American Telephone and Telegraph Company has no thought of acquiring the Commercial Cable Company's property or combining with the Postal Telegraph Company or any other telegraph company. The action of the Commercial Cable Company in directing the change in its certificate of incorporation was unknown to American Telephone and Telegraph officials until after the issue of the circular published.

An official of the Western Telephone Company says: "There have been no recent developments in connection with the Western Telephone Company to account for the sudden activity and rising prices for the common and preferred stocks. The situation from a telephone standpoint is the same as it has been for months, and improving one. This does not mean, however, that we are not confronted with a great many perplexing problems which must still be solved. While I am convinced that we are working backward, there is nothing in the situation to call forth the recent superlative statements which I have seen in print. The present decision reached with regard to placing the preferred stock on a 6 per cent basis, as has been stated."

It was said in New York, Monday, unofficially, that the deal was consummated good authority, that J P. Morgan & Co. and H. B. Hollins & Co. have an option on a majority of the stock of the Cincinnati, Hamilton and Dayton Railroad. The syndicate also includes the Cincinnati, Hamilton and Dayton, and responsible for the Pere Marquette merger. is composed chiefly of Eugene Zimmerman of Cincinnati, F. H. Prince of Boston and the United States Steel Corporation Subsidiary Under the option held by Morgan and Hollins this syndicate has given up its rights to negotiate a sale, and until the option has expired H. B Hollins & Co. will be consulted before the option which control can be passed. A merger of the Erie, Cincinnati, Hamilton and Dayton and Pere Marquette such as is proposed, would form a new trunk line system of about 3,000 miles between New York, Chicago, Cincinnati and St. Louis.

The Chicago *Inter Ocean* says: "All previous records in the financial history of Chicago were broken by the figures of the deposits of the Chicago banks reported to the Comptroller of the Currency and the Illinois Auditor of Public Accounts, as exhibited at the close of business on Nov. 10 and the opening of business on Nov. 11. The reports of the State banks showed a new high record for them. Combined with the figures of the national institutions the publication of the condition of the banking power is revealed. Twenty-four out of the thirty-two State banks in Chicago, comprising all the banks in the downtown district and the principal institutions in the residence sections, report deposits on Nov. 11 of $200,326,694. This is an increase of $19,61,891, or 7.1 per cent over the $186,716,306 reported by the banks on June 30. Combined with the $62,8,846 169 reported by the national banks of the same date, the total deposits of the Chicago national and State banks aggregate $898,-174,202. This is an increase of $32,1 6,782 over the previous high record reported on Sept 6-7. The gain over the figures of last year at this time is $73,831,487. The official figures, including the small suburban banks omitted, may raise this total by nearly $3,0 0,000."

A New York dispatch to the Chicago *Record-Herald* says: "It is reported and said to have an ambition to control all transcontinental railroad lines with the exception of the Canadian Pacific, and his efforts in that direction may lead to some radical railway changes. The negotiations between Mr. Harriman are outlined as follows: The purchase of the Oregon Short Line and Oregon Railway and Navigation Company, giving the Union Pacific a grip on the Oregon coast. The purchase of the Southern Pacific, carrying with it control of the Central Pacific. The purchase of control of the New Orleans Railroad, effected early in May, 1901. The purchase of a big block of Atchison, giving Mr. Harriman an important place in the administration of this system. The purchase of a half interest in the Union Pacific, Southern and Pacific, giving Mr. Harriman a voice in six out of the seven coast routes in American territory. Mr. Harriman is still fighting in the courts for his tenure of Northern Pacific. One American railroad, the Great Northern, and one Canadian, the Canadian Pacific, balk the ambition of Mr. Harriman. Both are beyond the power of his control, but J. J. Hill is on record as saying that Mr. Harriman in control of the Northern Pacific could give the Great Northern a fight for its life."

This ambition is being bitterly fought by all the great railway powers of the West—Hill, Gould and the Rock Island party—and also is one of the reasons for the half-dozen lines already projected west from Denver."

The *Wall Street Journal* makes a complimentary comparison of the Illinois Trust and Savings Bank with the largest trust company in New York in the following: "No one can make a statistical analysis of the trust company without being impressed with the differences of policy disclosed in the management of trust companies. For instance, a trust company which receives only three per cent trust deposits confines itself strictly to the old time trust functions, does not need to carry the reserves necessary to the use of a commercial bank engaged in regular banking. A most interesting illustration of this difference is given by the two trust companies which stand at the head of our list of the twenty-nine companies in the United States which are the largest reservoirs of capital—the Illinois Trust of Chicago and the United States Trust of New York, both of which are among the most powerful and soundest financial institutions in the world. The difference is shown in the following summary:

	Illinois Trust.	U. S. Trust.

ITEMS OF GENERAL INTEREST.

New York Exchange 5c premium.

Documentary Sterling steady at 481¾.

Chicago Bank Clearings to-day, $33,861,413.

The seaboard reported sales of 120,000 bu Corn for export.

Ten packers purchased 21,700 Hogs to-day; shippers, 3 000; left over, 6,000. Market closed dull.

A number of Chicago capitalists are organizing the Kenwood National Bank, with a capital of $200,000.

Estimated receipts for to-morrow: Wheat, 54 cars; Corn, 517 cars; Oats, 73 cars; Rye, 17 cars; Barley, 11 cars; Hogs, 15,000.

The receipts of Hogs at Chicago for the week will be about 184 000, compared with 189,544 for the corresponding week last year.

The London pier and shed of the Warren line, in Charlestown, Mass., was completely consumed by fire, Thursday. The estimated loss was $600,000.

The Boston and Maine Railroad has declared the regular quarterly dividend of 1¾ per cent on the common stock, payable Jan. 2 to stockholders of record Dec. 1.

The receipts of Wheat at Liverpool during the past three days were 440,000 bu, of which 8,000 bu were American. Receipts of Corn, 176,000 bu, of which none were American.

The directors of the National Carbon Company have declared a dividend of 1½ per cent on the common stock, payable in January. This is the first dividend that the common stock has ever received.

Argentine Wheat visible is 2 248,000 bu, against 2,136,000 bu the previous week, and 1,104,000 bu last year. The Argentine Corn visible is 3,704,000 bu, against 3,913,000 bu the previous week and 3,112,000 bu last year.

Shipments of Wheat from Argentina this week were 984,000 bu, against 752,000 bu the previous week, and 320,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 89,141,000 bu, against 60,864,000 bu same time in 1903.

Shipments of Corn from Argentina this week were 2,854,000 bu, against 4,003,000 bu the previous week, and 1,937,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 86,008,000 bu, against 69,204,000 bu for same time last year.

Dealings in Local Securities were fairly large and the active issues were the elevated railroad shares. Various issues advanced from 1 to 3 points. West Chicago moved up 5 points and Union Traction 1 point. Biscuit, Match and Box Board were steady. Carbon and Edison were lower.

The shipments of Flax Seed from Argentina this week were reported at 35,000 bu, compared with 104,000 bu last week and 672,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 26,871,000 bu, compared with 24,507,000 bu for the corresponding time last year.

Spot Cotton was dull and lower in New York. Sales, 6,700 bales. "Shorts" covering and some outside support held the market steady. Recent break appeared to have shaken out the weak "longs." Near options were steady at the close. August ruled higher. The market closed steady to 3 points higher.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,209,000 bu, against 1,454,000 bu for the previous week, and 2,974,000 bu for the corresponding week last year. Exports since July 1 were 27,311,000 bu, compared with 66,458,000 bu for the corresponding time last year.

The *Modern Miller's* weekly crop summary says: "There has been no relief from the drouth conditions except in widely scattered localities. Although complaints that the Wheat is suffering from lack of moisture are coming from some sections, as also reports of the prevalence of Hessian fly in the fields, yet no serious damage is apparent as yet."

New York Stocks closed steady after the break in prices, which came during the late afternoon. There was active liquidation, but the selling was wonderfully well absorbed. The Harriman rails were about a point lower, while other Western rail shares ended about where they opened. Eastern railroad issues averaged steady, and low-priced Stocks were for the most part higher. United States Steel ruled steady, Republic Iron preferred advanced about 2 points, and others of the group were lower. Sugar lost about two-thirds of the early advance. Copper was a point lower.

An application to the Treasury Department has been made by the Pillsbury-Washburn Company of Minneapolis for a new ruling on the milling of imported Wheat. They have bonded one of their mills, but desire to arrange with the Treasury Department for the exportation of the Flour made from Manitoba Wheat and the disposition of the offal in this country. They ask that a rebate be made on the difference between the Wheat imported and the Flour exported. The offal is selling in this country higher than in Europe, and Bran and other feed is being imported from Canada by the East at lower prices than it can be secured from the Northwest. Millers say the application for a modification of their ruling will do away with supervision by Government officials and at the same time the Government gets the duty and the mills are not hampered.

All action against Henry T. Scott, the Hyde Windlass Company of Bath, Me., and the Union Iron works of San Francisco, in the now famous litigation instituted by John A. Morris and five other minority stockholders against Charles M. Schwab and others, was discontinued through an order signed by Judge Lacombe in the United States Circuit Court at New York, Thursday. The order releasing the defendants from all connection with the so-called ship building litigation was issued with the consent of the complainants. In the suit the complainants asked that the defendants be compelled to repay all the profits, moneys, and bonuses they had derived through their connection with the formation of the now defunct ship building corporation. Complaint was also made against Schwab individually for the method in which he acquired the stock of the Bethlehem Steel Company for about $7,000,000 and sold it to the ship building company for $30,000,000 in the securities of the latter.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand is reported somewhat better at the Northwest, but in the Chicago market no improvement is noticeable.

WINTER WHEAT—Was steady for choice and easy for poor Wheat. Just a limited milling demand and market rather quiet. Sales of 25,000 bu of mixed lots were reported besides the car lots. No. 2 Red in store quotable at $1 13½@1 14¾, and fresh arrivals free on board ranged at $1 15@1 16. No. 3 Red fresh receipts free on board sold at $1 08½@1 11 and was quotable at $1 07@1 13. No. 4 Red sold at $1 06. No. 2 Hard fresh arrivals free on board quotable at $1 09@1 14. No. 3 Hard fresh receipts free on board quotable at $1 03@1 10 and sold at the river at $1 05.

SPRING WHEAT—Choice Wheat steady and poor Wheat neglected and dull. Demand limited. Millers not anxious and merely taking small quantities. No. 1 Northern fresh arrivals free on board quotable at $1 15@1 20. No. 2 Northern fresh arrivals free on board nominally $1 10@1 15. No. 3 Spring fresh receipts quotable at $1 03@1 13. No. 4 Spring sold at 80c@$1 00 for common to good.

REGULAR WHEAT—The close was ¼@1¼c higher for the day. The reactions and advances from the bottom prices late were caused by some of the early sellers turning buyers on reported unfavorable cash demand from the Southwest. The market was caught in an oversold condition, and when the "shorts" attempted to cover the Wheat was not to be had unless they bid up for it. There was some investment buying late also. Cash sales were 25,000 bu (mixed lots) at Chicago. Clearances from the seaboard for the week 1,209,000 bu, compared with 1,454 000 bu the previous week and 2,974,000 bu same week one year ago. Another day of nervousness in the Wheat market, and while price changes were at no time sharp they were large enough to keep up an interest that was marked. Trade was again largely local in character, but there was more of a sprinkling of outside orders than for some days past. It was popular to sell Wheat, not only the May but the December came out in quite large quantities at times. There was less July on sale, the influence being the unbroken drouth in the Winter Wheat belt. In referring to the lack of moisture in the Southwest the *Modern Miller* says there has been no relief, save in widely scattered sections. No serious damage is noted, however, either from drouth or Hessian fly. The reported sale of 60,000 brls of Flour at Minneapolis attracted a great deal of attention, as it was confirmed after being denied two or three times early in the day. Cables were mainly lower. Liverpool spot Wheat 1d lower; futures off ¾@⅞d. London off ½d. Paris ¼@½c lower. Antwerp unchanged. Argentine shipments were 984,000 bu, compared with 752,000 bu the week before and 320,000 bu a year ago. Argentine visible supply 2,248,000 bu, against 2,136,000 bu the previous week and 1,104 000 bu a year ago. Winnipeg receipts were 292 cars, against 68 cars a year ago. The buying here of a cargo of Manitoba Wheat has attracted general attention in the trade, as it is the first large lot ever brought into the Chicago market. While Northwestern and primary receipts were larger than either a week ago or a year ago the "bulls" were circulating reports of decreased movement from hands of farmers and country elevator people. Considerable business in the way of selling December and buying May and of selling May and buying December. Receipts at Duluth 190 cars at Minneapolis 658 cars, total of 848 cars, against 780 cars yesterday, 772 cars a week ago, and 681 cars last year. Local receipts included 30 cars Winter, 11 cars Spring and no cars mixed, a total of 41 cars, against 102 cars last year. Included in above was none of contract grade. There were also 9 cars and 2,000 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 54 cars. The withdrawals were 104,470 bu. Receipts at Western points were 1,048,961 bu, against 1,045,326 bu last year. At Eastern points 38,723 bu, against 177,000 last year. Shipments from Western points 565,194 bu, against 1,069,516 last year, and from Eastern points no bu, against 71,499 bu last year. Shipments of Flour were 21,654 brls. Exports of Wheat in Flour were equal to 97,443 bu.

Future Deliveries of Regular Wheat—Good trade and market steady.

NOVEMBER—Entirely nominal and closed about $1 10¾.

DECEMBER—Sold at $1 10@1 11¼. Opened with sales at $1 10½ to $1 10⅝; sold to $1 10⅜, to $1 10, to $1 10¾, to $1 10⅜, to $1 10¾, to $1 10½, to $1 11¼, to $1 11⅛, to $1 11¼, to $1 11, and closed at $1 11@1 11⅛.

MAY—Sold at $1 10¼@1 11½. Opened with sales at $1 10¾ to $1 10⅝@1 10½; sold to $1 10⅝, to $1 10⅝@1 10¾, to $1 10¼@1 10⅜, to $1 10⅜, to $1 10¾, to $1 10⅞, to $1 10½, to $1 11⅛, to $1 10½, to $1 11½, to $1 11¼, and closed at $1 11¼ bid.

JULY—Sold at 97¼@98⅜c. Opened at 97¼c to 97⅜c; sold to 97½c, to 97¼c, to 98c, to 97¾c, to 98¼c, to 98c, to 98⅞c, to 98⅝c, and closed at 98⅜c bid.

CORN—Resting spots showed the market ⅛@⅞c lower for the day. This cereal was inclined to tail on to Wheat early, weakening with it and firming up with it. Late it showed weakness. The "bulls" gave the market more or less support early, but they were not in evidence late. Clearances for the week small, compared with 148,000 bu a week ago and 1,392 000 bu a year ago. Cash sales were 150,000 bu here, 15 boat loads at seaboard. Considerable "bear" pressure was shown in the Corn market during the morning, the leading influence being the reports of free movement in the Southwest and the low price at which the Corn is selling. A message from Kansas City said that a large elevator concern there has commenced to buy Corn at its many stations and that they are getting it at 30c. Primary receipts of Corn were large at 616,640 bu, compared with 278,000 bu a week ago and 320,000 bu a year ago. Local receipts were 433 cars, with only 1 car contract. Clearances were 5,497 bu. Liverpool was off ½d for futures and ¼@½d for spot. Argentine shipments were 2,854,000 bu, against 4,003,000 bu a week ago and 1,937 000 bu a year ago. Argentine visible supply 3,704,000 bu, against 3 943,000 bu the previous week, and 3,112,000 bu a year ago. Five hundred and seventeen cars Corn are expected at Chicago to-morrow. No. 2 sold in store at 52c, and car lots to go in closed about 54c. No 2 Yellow closed at 57½c. No 3 new sold at 46½c and old closed at 53½c. No. 3 Yellow new sold at 47½c and old closed at 57c. No. 4 new sold at 44@45½c. No Grade new sold at 42½@45c.

Corn by sample—Was weak and anywhere from ½@2½c lower. Offerings were much larger and the demand fair. Some Corn got on the market late and receivers were obliged to accept inside prices. Sales on track and free on board: No Grade sold at 42@45¼c. No. 4 at 44@53c. No 3 at 57c. No. 3 Yellow at 47½@59c. No. 2 Yellow at 59c. No. 3 White at 45½c. Ears at 40c. Billed through: No Grade at 41@44½c. No. 4 at 42½@46c. No. 3 at 45½@56c. No. 3 Yellow at 57½c. No. 3 White at 45½c.

Future Deliveries of No. 2 Corn—Considerable stubbornness was shown, this market being influenced more or less by the Wheat changes. The close was ⅛@⅞c lower.

NOVEMBER—Closed at 50⅝c nominal.

DECEMBER—Sold at 49⅛@50¼c. Opened at 50c to 50¼c, sold to 50⅛c, to 50c, to 50¼c, to 49¾c, to 50⅛c, to 49⅝c, to 49⅞c, to 49⅛c, to 49⅝c, closing at 49⅝c bid.

JANUARY—Sold at 45¼@45½c. Opened at 45½c, and closed at 45¼c.

MAY—Sold at 45⅛@45⅞c. Opened at 45¾c to 45⅞c; sold to 45⅝, to 45¾c, to 45⅞c, and closed at latter price asked.

JULY—Sold at 45½@45⅝c to 45¾c. Opened at 45⅝c, sold to 45¾c, to 45½@45⅝c, to 45¾c, and closed at 45¾c asked.

OATS—Changing between December and May and between May and July was the feature in Oats. There also was some unspreading between Oats and Corn, buying in "short" Corn and selling "long" Oats. Outside of this there was a small trade, and the close was about steady; nearby deliveries a shade higher and May a shade lower. Arrivals 85 cars and the estimate for to-morrow 73 cars. Seaboard clearances were 17,000 bu. Car lots to go to store were steady.

Oats by sample were in fair demand at steady prices, and offerings were small. Sales on track and free on board: No 4 White sold at 29@31¼c. No. 3 White at 31@32¾c. Standard at 32@32¼c. No 2 at 29½c. No. 2 White at 32¼@32½c. Billed through: No. 4 White at 30½c. No 3 White at 30¾@31½c. Standard at 30¾@31½c. No. 2 White at 31½c. At the river. No. 4 White at 28½@29c. No. 3 White at 29@29¾c. No. 2 White at 31c.

Future Deliveries of Contract Oats—Closed steady after covering a narrow range.

NOVEMBER—Closed at 29⅞c.

DECEMBER—Opened at 28¾c, sold to 28⅝ 28¾c to 28⅞c, and closed at 28⅞c.

MAY—Opened at 31¼@31⅜c, to 31¼c, sold to 31⅜c, to 31⅛c, and closed at 31¼c.

JULY Opened at 31½c, sold off to 31⅜@31½c, and closed at 31½c.

RYE—Was dull and neglected. Feeling weak and prices for cash about 1c lower. There were eight cars received and 4,950 bu withdrawn from public elevators. No exports from New York. No. 2 in store nominally 79½c, and fresh arrivals sold at 82@84c.

Future Deliveries of No. 2 Rye—Quiet—nothing doing. November nominally 79½c, December 79¾c asked and May 81½c asked.

BARLEY—There was a reduction in the quantity offered. The market ruled quiet and firm; it was without special feature. Less interest by maltsters was manifested. As a matter of fact a large part of the Barley sold was taken for pearling. Not enough feed offered to attract special attention. Screenings salable and strong if clean and nice, poor seedy rule dull. Thirty eight cars posted, but they were mostly cars in yesterday. No changes in prices quoted. For Screenings there was a quotable range of 25@38½c for poor dirty, to very choice. Barley—low grade feed, quiet, remains scarce and quotable at 38@38½c local and 37c river. Malting, low grade, small berry, some heavy, but dirty remains at 39@40c; clean, fair to good, at 42@45c, and large berry, heavy, quotable at 46@48c, with choice to fancy 49@52c.

SEEDS—There was a little heavier tone to the Timothy market, but all other lines were steady to firm. The business done was confined mainly to Timothy.

Timothy—There was quoted a heavier tone to the market. Nothing, however, developed making conspicuous any marked change. Near futures were nominally 2½c easier, with November quoted at $2 65 bid, and January $2 72½ bid. There was fair trading in March at the last sale price—$2 82½. Cash sales were over a range of $2 30@2 60 for ordinary to fancy Seed, and country lots were quotable at $1 75@2 50 for low grade to choice; fancy above, inferior lower; fair to good, $2 35@2 45; and rough, dirty or hulled, $2 20@2 30.

Flax—There was ½c advance for No. 1 Northwestern cash and that was the only change. Nothing was done, for there was no Flax on sale. Northwestern markets were firmer. Local movement still very small. Receipts 2 cars or 1,800 bu, and output 1 car or 1,050 bu. At Minneapolis 89 cars were received and at Duluth 180 cars. No 1 Northwestern was $1 18½ bid. No. 1 was nominally $1 11. Rejected, depending on quality, quotable at $1 08@1 15. November and December both nominally $1 11, and May quoted at $1 18½.

Clover—Only small lots were offered. They were of no importance. The market ruled very quiet and was quoted as steady at former prices. Contract grade, spot or November delivery quotable at $12 25. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—Nothing on the market but some Mustard Seed, which sold at $18 50 per ton. Market for all lines quotably steady and no change quoted. Salable as follows: Hungarian quotable at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 7 c@$1 00. Buckwheat scarce and salable at $1 25@1 30 good milling.

HOG PRODUCTS—Only a moderate trade was reported in the market for Hog Products. Transactions continue, in the main, local and professional and confined to the deferred deliveries. The feeling manifested was somewhat easier, but sentiment, at the same time, appeared to be more divided. Some improvement was noted in the attitude of packers to the whole list, and buying on the weak spots was of a better character. The early tone was easy, influenced mainly by the further decline in Hogs, but the offerings were quite readily absorbed and situation for a time was steadier. Later, however, the market again weakened, the break in Grain, Corn more particularly, having a depressing tendency. Receipts of Hogs exceeded the estimate by some 5,000 and prices were 5@10c lower. Receipts at the principal Western packing points were estimated at 69,800, compared with 57,100 one year ago. Domestic markets were quiet and easy and Liverpool was unchanged with the exception of Lard, which was 3d lower. Receipts of Product were moderate of Lard and Meats about 17 cars. Shipments were smaller than of late—of Lard and Meats about 63 cars. Inquiry on shipping account was moderate and offerings fair. Sales reported not very large, but evidently considerable business being kept under cover. Prices were without important change.

Mess Pork—The trade was moderate in the market for Mess Pork and the feeling developed was somewhat easier, due to decline in Hogs and break in Grain. Initial trades showed 2½@5c decline, when a moderate commission house demand developed and the price rallied 7½c. At the improvement in values, there was more pressure to sell and prices settled back 5c and closed comparatively steady. Trading still confined to January and May contracts. Shipping inquiry was rather light and offerings moderate. Cash lots quotable at $11 10@11 15.

NOVEMBER—Quiet, closing at $11 10.

DECEMBER—Dull and inactive. Sold at $11 17½@11 20. Opened at $11 20, and sold at $11 17½, and closed steady.

JANUARY—Offerings moderately free and demand fair. Sales were made at $12 57½@12 65. Opened at $12 60 and sold at $12 57½, to $12 65, to $12 60, and closed steady.

MAY—Offerings were rather liberal and demand very fair. Sales were made at $12 62½@12 70. Opened at $12 65 and sold at $12 62½, to $12 70, to $12 6 @12 67½, to $12 67½@12 70, to $12 65, to $12 65@12 67½ and closed steady.

Lard—Just a moderate trade was witnessed in the speculative market for Lard, fluctuations being narrow. The undertone prevalent was easy, but there was no pronounced selling, while the demand was only fair. The start was 2½c lower, and after selling off 2½c more, recovered 2½c and the close was comparatively steady. The demand on shipping account was moderate, with fair offerings. Cash lots were easy at about November figures, closing at $6 95@6 97½. Loose lots in fair request, with fair offerings. Prices were quotable at 37½c discount on January figures. Leaf Lard was in moderate demand with light offerings. Prices quotably easier at $6 87½. Neutral in light demand, with moderate offerings. Prices quotably easier at $8 25@8 37½ for No. 1, and $7 62½@7 75 for No. 2.

NOVEMBER—Quiet and inactive; and closed at $6 97½.

DECEMBER—Practically nothing doing; closed $6 97½ asked.

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city

Minneapolis mills ground 6,475 brls more Flour last week than the week before. With two more mills in operation than a week ago the output for the current week should show an increase and is likely to approximate 280,000 brls

Most of the millers report Flour slow of sale and say that shipping directions are not coming along as freely as they should on old sales, particularly in view of the approaching close of lake navigation. The bulk of the business has been in small lots. Flour prices show some decline on the week, representing a further narrowing of margins for the millers

While the above is the general report there are exceptional cases in which millers report satisfactory sales and shipping directions coming along freely enough to give them all they can do. This crop seems to be one of contradictions and contrasts all through. In the same field good Wheat was found alongside of poor Wheat, and likewise in the same town or district may now be found millers who report business good and others who characterize it as unmitigatedly bad It suggests the saying in Scripture, "Two women shall be grinding at the mill The one shall be taken and the other left."

As to export trade, while the usual report is that prices are too far apart to admit of business, yet a certain amount of business has been put through by millers and exporters. This has been chiefly in Clears, though it is understood that one firm has made sales of the higher grades based on grinding Canadian Wheat in bond.

Feed has been rather firmer and in good demand, and this has helped millers somewhat. Present price of bulk Bran on track Minneapolis is $14 75@15 00.

Minneapolis and outside millers quote Patent at $5 75@6 00 per brl in wood, f. o. b., Minneapolis.

Eastern prices to-day (Nov 15) asked by Minneapolis and outside mills for Patent in wood were: Boston rate points, $6 55; New York rate points, $6 50, Philadelphia rate points, $6 45; Baltimore rate points, $6 40; Albany rate points, $6 50; Utica, Syracuse, Hornellsville and Rochester rate points, $6 45; Ohio. Lower Peninsula of Michigan and Indiana, $6 35, Upper Peninsula of Michigan, in sacks, $6 05; Missouri points, $5 95; Wisconsin, Iowa and Illinois, $6 10.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Nov. 17.]

There is a continued tendency to enlargement in current offerings of Hogs, with the numbers gaining in the comparison with last year. Total Western packing 515,000 Hogs, compared with 440,000 the preceding week and 410,000 two weeks ago. For the corresponding time last year the number was 440,000 and two years ago 545,000. From Nov. 1 the total is 1,030,000, against 895 000 a year ago, an increase of 135,000. The quality of Hogs being marketed is generally fair. Prices are lower, the average for prominent markets at the close being about $4 65 per 100 lbs. compared with $5 00 a week ago, $4 85 two weeks ago, $4 55 a year ago, $6 20 two years ago, and $5 60 three years ago.

For the four winter months last year. Nov. 1 to March 1, the Western packing was 9,500,000 Hogs, gaining 1,010,000 over the preceding year, but falling 840,000 short of the season 1901-2 It is difficult to reach a satisfactory basis at this time for estimating the extent of supplies of Hogs for the current season, but the indications favor some increase over last year, probably carrying the winter total packing for the West to 10,000,000 or more, and possibly establishing a record above the high point reached three years ago.

The speculative Provision market was quiet and easy the past week, with closing prices at Chicago for leading articles slightly lower than at the close a week ago. The liberal receipts of Hogs and the lowering of prices for them, together with the declines in the Grain markets, were the influences under which values were reduced. Trading was to some extent restricted, owing to the serious interference in the wire service at the close of the week, and the consequent lack of information as to the course of foreign markets. The export clearances of Product were smaller than for the preceding week and show a decrease as compared with the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	246,000	494,000
Bacon, pounds	8,828,000	10,672,000

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Nov. 17.]

The week now ended has had but little of precipitation in the agricultural regions of the Central and Western States. Local showers of moderate extent have prevailed here and there, and have been favorably influential on the Wheat fields. Much of the Wheat area, however, is apparently in need of more moisture, although there does not seem to be much evidence of actual injury to the crop as yet. The prompt effect of the recent showers where they have prevailed in improving the appearance of the Wheat fields gives support to the view that an early general relief by rains would have a pronounced effect in changing the general appearance of the crop. It is interesting to observe the frequency of observation by correspondents in regard to the favorable situation of pastures, notwithstanding the prolongation of dry weather. This seems to imply a subsoil reserve of moisture which is being drawn upon, and this would encourage the view that the Wheat plant is being cared for reasonably well. The general situation is not less assuring for the Wheat crop sown this autumn than it was a week ago.

Weather conditions have continued favorable for Corn, promoting progress in getting into cribbing or shipping condition, and in facilitating husking operations, which are now generally fairly active. There is some tendency to increased movement of the Grain to market, but the indications are that shipments will not reach liberal proportions before some time next month. Husking operations do not appear to furnish occasion for notable change in general results as to yield. There are disappointments reported, against which there are also more favorable results than had been calculated on.

The Government preliminary estimate of approximately 2,450,000,000 bu of Corn is entitled to acceptance as a worthy indication as to the comparative extent of the crop. The quality, reported as 86.2 per cent, compared with 83.1 a year ago, may be questioned—it being quite likely that the percentage indication a year ago was somewhat too high. The estimates of quantity of Corn remaining in the hands of farmers suggest about 80,000,000 bu, compared with about 130,000,000 bu a year ago—the present position being one of low reserves. The favorableness of the autumn in pasture conditions has been important in delaying active consumption of this Grain.

The aggregate marketing of Wheat, as reflected by receipts at primary markets, is not being notably changed. To a large extent millers find difficulty in securing such supplies as they need or desire. The current marketing of Oats is of comparatively moderate proportions, making it appear that the interior holders maintain much confidence in future value of this Grain

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Nov. 16]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 42 "outside mills" with a daily capacity of 32,000 brls, from Jan. 1, 1904, to Nov. 5, 1904, with comparisons:

	1904 Flour, brls.	1904 Wheat, bu.	1903 Flour, brls.	1903 Wheat, bu.
Minneapolis	11,332,345	50,996,000	12,677,190	57,047,000
Duluth	681,910	3,082,000	939,005	4,226,000
42 outside mills	5,875,300	25,439,000	6,161,965	27,729,000
Totals	17,892,555	80,517,000	19,778,160	89,002,000

These figures represent the approximate consumption of 8,485,000 bu less Wheat this year than in 1903. This has occurred from the mills of Minneapolis and Duluth as well as the outside mills turning out 1,885,605 brls less Flour than in 1903.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 28 to 38; fair to clear. Northwest—Temperatures, 28 to 38; clear West—Temperatures, 28 to 40; clear. Southwest Temperatures, 34 to 56; generally clear. Ohio Valley—Temperatures, 44 to 50; partly cloudy

Indications are for generally fair weather throughout this forecast district, except probably rain or snow in Montana. No marked change in temperatures expected.

ITEMS OF GENERAL INTEREST.

The tar plant of the Denver, Colo., Gas and Electric Company was destroyed by fire, Thursday. Loss, $25,000.

It is reported that a bill will be introduced in the next Texas Legislature providing for the merger of the Cane Belt road with the Atchison, Topeka and Santa Fe.

Three hundred cottages on the Urbana Chautauqua camp grounds, Springfield, Ohio, were destroyed by fire, Thursday. The loss is over $100,000, with no insurance.

Application has been made to the New York Stock Exchange to list St. Joseph Railway, Light, Heat and Power Company's $263,000 additional first mortgage 5 per cent bonds of 1937.

Application has been made to the New York Stock Exchange to list $67,000 Cleveland and Pittsburg Railroad Company additional general mortgage series "D" 3½ per cent Gold bonds of 1950.

A New York dispatch says: "Although lacking official confirmation, it is reported that Wire products have been advanced $2 00 a ton by the larger manufacturers. Sheet Steel has advanced $2 00 a ton and Tin Plate $3 00."

Organization of the Calumet Insurance Company of Illinois at Chicago was completed, Wednesday, and it is expected that the new company will enter the fire insurance field early next year with several hundred agents. The company will have a capital of $200,000, with a surplus of $300,000, the large surplus being designed to provide the reinsurance reserve required by law without impairing the capital.

Secretary Shaw, Wednesday, sent out notices to the nineteen national banks having State and municipal bonds in the treasury to secure public deposits that the same must be withdrawn within thirty days, and that United States bonds, Philippine certificates, and Philippine land purchase bonds will be accepted in substitution The amount of State and municipal bonds now on deposit in the treasury is about $1,000,000.

The gross earnings from traffic of the Baltimore and Ohio, exclusive of the controlled or affiliated lines, for the month of October were $6,181,073, an increase of $156,647 The expenses were $3,681,858, a decrease of $145,800. The net earnings were $2,499,205, an increase of $202,453. For the four months of the fiscal year the gross earnings from traffic were $23,374,728, a decrease of $531,681. The expenses were $14,123,936, and decrease of $320,945. The net earnings were $9,250,792, a decrease of $210,736 over the four corresponding months of 1903.

Since last week, when the agreement on the terms of the lease between the United Box Board and Paper Company and the independent manufacturers was reached, the prices of Box Boards have stiffened, especially with the United Box Board and Paper Company With the independents quotations are firmer, but are, generally speaking, not so high as with the United. Contracts, however, are not being taken at present prices by any of the mills. Business in Boards is said to be steadily improving. A general advance in Boards is looked for as soon as the lease is signed.

The decision of the United States Court of Appeals for the Fifth circuit, in the case of the State of Georgia against the Louisville and Nashville Railroad and the Atlantic Coast Line Company, was reversed, Monday, by the Supreme Court of the United States. The case originated in the State's effort to collect taxes on stock of the Western Railway of Alabama held in Georgia, notwithstanding the railroad is an Alabama corporation. The Court of Appeals held against this right. Justice Holmes said, in his opinion, that the Comptroller General of the State was bound to collect the tax. The defendant companies appear in the case because the Alabama road is controlled by them under lease.

At a meeting of the directors of the Chicago Edison Company, Tuesday, it was voted to increase the capital stock by 20 per cent, the new stock to be offered on Feb. 1 to the stockholders at par. Payment is to be made in four quarterly installments, in the same manner at the last previous issue. The first installment will be paid on Feb. 1 next, and the remaining installments on May 1, Aug 1 and Nov. 1. Receipts will be issued as the payments are made, and the receipts will bear their shares of the dividends. When the last installment is paid on Nov. 1, 1905, the certificates will be issued The present issued capital stock of the Chicago Edison Company is $9,865 880 Twenty per cent of this is $1,973,176 The total issued capital stock of the company when the new stock is out will be $11,839,056 The company has an authorized capital of $15,000,000.

*Decrease.

American Ship Building common is again attracting considerable attention. The holders of common stock believe that dividends will be resumed in the near future. This looks improbable for at least another year. The company earned almost nothing for common stock during the year past, and it will not likely resume dividends until another year has passed by. There is a feeling, however, that when American Ship again resumes its common dividends they will be permanent. During periods of great activity the common stock has shown enormous earnings, and very large amounts have been charged to surplus after very large sums had been charged off for depreciation, etc. American Ship is one of the most conservatively handled industrial propositions in the country, and it is said that the common stock now has a book value of considerably over 69. It was originally paid in at $20 00 a share. The fact that the tendency on the lakes is to do away with the smaller tonnage by replacing it with larger tonnage and the further fact that the smaller tonnage is wearing out tends to the general belief that the American Ship Building Company will have about all it can do for many years to come. The company is now filled with orders, and it would not be surprising to see even a larger business next year.

The *Wall Street Journal* says: "Last winter when Corn products common stock sold at about $10 00 per share the *Wall Street Journal* stated that dividends had been begun on the stock of New York Glucose, 51 per cent of which is owned by Standard Oil interests, the remaining 49 per cent being owned by the Corn Products Company. Our information at that time was that 1 per cent would be paid monthly on the stock of the New York Company but while it has been stated officially that dividends have been begun it has never been officially admitted that the rate is as high as 12 per cent per annum. We have recently sought information on this matter in quarters where there is accurate knowledge on the point. To our query we have received the following answer: 'The *Wall Street Journal* stated months ago that the rate is 12 per cent. The fact that this statement has never been contradicted should be sufficient confirmation.' It was an interesting development that at the time we announced the commencement of dividends on New York Glucose stock, proving conclusively that the fight between this company and Corn Products, which is a minority holder of its stock, had been settled, certain Western interests in Corn Products seemed to be much perturbed, and intimated that opposition plants were being built at several points On investigation it proved that these plants were not designed as Glucose factories, and could not be in any sense competitors of Corn Products. The inference was, then, that some interests were anxious to accumulate a line of Glucose stock, and that the favorable news made this operation more difficult. There appears to have been quite a large sized 'short' interest in Corn Products, and rumors have been circulated to the effect that on account of poor business the company might be unable to continue its preferred dividends next year. Such rumors do not appear to have any foundation. It is stated on good authority that business is satisfactory and shows an improving tendency. The preferred stock dividends heretofore paid have been fully earned, and present outlook favors the continuance of earnings sufficient to warrant payment of the full rate. The preferred dividend is cumulative and will be paid so long as it is earned. Just now it is a question of how much surplus earnings will remain to accrue to the ultimate benefit of the common stockholders."

The New York Stock market closed steady, and prices averaged higher. Trading was moderate in its volume, but there was a strong disposition on the part of traders not to be "short" of Stocks over Sunday. St. Paul, and the Gould and Harriman groups of Stocks were strong. Sugar, Copper and the Steels were salient issues, while the Eastern Railways remained somewhat in the background. A feature among dealings in low-priced shares was the active buying, and advance in prices of Chicago Terminal. Sales 587,000 shares.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Dull and dragging, feeling weak.

WINTER WHEAT—The market was dull and the feeling weak, with prices 2c lower. Very little business was transacted. No. 2 Red in store quotable at $1 12¼@1 14 and fresh arrivals free on board quotable at $1 13@1 14. No. 3 Red fresh arrivals free on board sold at $1 04@1 10 and No. 4 Red at $1 00. No 2 Hard fresh arrivals free on board quotable at $1 09@1 12, with a sale at the river at $1 08½. No. 3 Hard fresh arrivals free on board quotable at $1 00@1 09. No. 4 Hard sold at $1 00.

SPRING WHEAT—Was quiet—really nothing doing and prices 1@2c lower. No. 1 Northern fresh arrivals free on board quotable at $1 15@1 18. No. 2 Northern fresh arrivals free on board quotable at $1 07@1 12. No. 3 Spring nominally $1 00@1 10. No. 4 Spring sold at 72c@$1 00 for poor to good.

REGULAR WHEAT—The market closed 1⅝@2½c lower and failed to show any power of reaction from the bottom prices reached. Buyers were indifferent to the market even on the decline. Sentiment was "bearish" at the close. Cash trade about at a standstill in all the markets of America. Wheat was for sale in lots to suit, coming out through nearly every commission house and broker on the Board of Trade. The orders were of the stop-loss character. In the news from abroad, as well as that received from this country, nearly all of it favored the "bear" side. It commenced to pour into the big trade mart before the opening, and included reports of excellent conditions in Argentina, with crop prospects fine. Cables were all lower as a matter of course—Paris ½c, Liverpool ⅛@¼d and Buda Pesth ⅞c. London was an exception to the general rule, showing an upturn of ¼d for the day. The world's shipments are expected to be around 12,000,000 bu for the week, with a good sized increase on ocean passage. Navigation at St. Petersburg is closed. There was a further increase in the stocks of Wheat at Minneapolis, and Northwestern receipts for the week were 4,640 cars, compared with 4,797 cars the previous week and 4,8 9 cars corresponding week last year. English farmers' deliveries for the week, 328,000 bu at 91½c; week before, 344,000 bu at 91½c; year ago, 408,000 bu at 81c. English visible supply showed an increase of 820,000 bu for the week, compared with 1,117,000 bu the week before and 2,646,000 bu a year ago. Advices from Duluth were of continued large receipts of Wheat. Australian shipments for the week, 304,000 bu, compared with 296,000 bu the week before and none last year. Receipts at Duluth 220 cars at Minneapolis 585 cars, total of 805 cars, against 848 cars yesterday, 583 cars a week ago, and 795 cars last year. Local receipts included 27 cars Winter, 17 cars Spring and no cars mixed, a total of 44 cars, against 115 cars last year. Included in above was none of contract grade. There were also 4 cars and 25,0.0 bu taken from unlicensed elevators. The estimated receipts for Monday are 74 cars. The withdrawals were 38,600 bu. Receipts at Western points were 1,178,097 bu, against 1,359,685 bu last year. At Eastern points 53,450 bu, against 206 127 last year. Shipments from Western points 623,306 bu, against 1,005,402 last year, and from Eastern points no bu, against 305,850 bu last year. Shipments of Flour were 8,694 brls. Exports of Wheat in Flour were equal to 39,123 bu.

Future Deliveries of Regular Wheat—Good trade and prices decidedly lower.

NOVEMBER—Entirely nominal and closed $1 08⅝.

DECEMBER—Sold at $1 08½@1 10¾. Opened at $1 10¾; sold to $1 10⅝, to $1 10¾, to $1 09¾, to $1 09⅞, to $1 09, to $1 09½, to $1 08⅝, to $1 09, to $1 08⅝, to $1 08¾, to $1 08½, to $1 08⅝, and closed at $1 08⅝.

MAY—Sold at $1 09@1 11⅛—only sparingly at $1 09, and many buying orders at $1 09 could not be executed. Opened with sales at $1 11⅛ to $1 10⅞; sold to $1 10½@1 10⅝, to $1 10¾, to $1 10⅛, to $1 10⅜, to $1 09½, to $1 09⅞, to $1 09⅛, to $1 09⅜, to $1 09½, to $1 09⅛, to $1 09, to $1 09¼, and closed at $1 09⅛ asked.

JULY—Sold at 97¼@98⅛c. Opened at 98⅛c to 98c; sold to 97⅞c, to 98c, to 97⅝c, to 97⅞c, to 97½c, to 97¾c, to 97½c, to 97⅞c, to 97¼c and closed at 97¼c.

CORN—Closing prices showed the market ½@1⅝c lower for the day. There was a sale of 200,000 bu No. 3 for November and December shipment. The pressure in the pit mainly on the December. While the price of Corn sympathized more or less with the break in Wheat, the "bulls" in that cereal were not willing to allow it to sell off as sharply in sympathy therewith. They picked up considerable Corn on the soft spots, and caused some change in sentiment. The prediction of a well-known Kansas farmer that Kansas has raised 200,0 0,000 bu of Corn, and that the quality is of the finest attracted some attention. The harvesting of Corn is late in Kansas, owing to the fact that farmers have been putting in an increased Wheat acreage. Local receipts of Corn were 513 cars, but only 2 cars were contract; 759 cars are expected here on Monday. Primary receipts were 717,000 bu, compared with 461,000 bu a year ago. Clearances for the day were 5,000 bu. Liverpool was ¼@⅜d lower for futures and unchanged for spot. No. 2 old closed at 53½c. No. 2 Yellow at 57½c. No. 3 old closed at 53c and No. 3 Yellow about 57c. No. 4 new sold at 43@44½c. No Grade new sold at 42@43½c.

Corn by sample—Offerings were considerably larger and demand only fair. Feeling was again weak and prices anywhere from 1c to 3c lower. Sales on track and free on board: No Grade sold at 41@43½c. No. 4 at 42½@45½c. No 3 at 45½@55c. No. 3 Yellow at 46½@48½c. No. 3 White at 45@4¾c. Billed through. No Grade at 40@43c. No. 4 at 40½@45½c. No. 3 at 44¼@44½c. No 3 Yellow at 46@46½c. No. 3 White at 44@45c.

Future Deliveries of No. 2 Corn—Outside of the reactions from the bottom prices reached, this market was without marked feature. "Longs" gave the situation some support on the declines. The close was ½@1⅝c lower, December losing the most.

NOVEMBER—Was nominal at 49c at the close.

DECEMBER—Sold at 48@49½c. Opened at 49½c to 49⅛c, sold to 49¼c, to 48⅝c, to 48¾c, to 48½c, to 48¼c, to 48c, closing at 48c bid.

JANUARY—Sold at 44¼@44⅞c. Opened at 44¾c, sold to 44⅞c, to 44¼c, closing at 44¼c asked.

MAY—Sold at 45⅛@45¼c to 45⅝c. Opened at 45⅝c to 45½@45⅝c, sold to 45½c, to 45⅝c, to 45⅜c, to 45¼c, to 45¼c, to 45⅜c, to 45⅛@45¼c, and closed at latter bid.

JULY—Sold at 45¼@45⅝c. Opened at 45½c, sold to 45⅝c, to 45¼c, and closed at 45¼c asked.

OATS—Prices held within narrow limits and closed with losses of ¼c, except for July, which lost ⅛@¼c. Small receipts and steady cash prices make traders afraid to sell "short" around 31c, which has been debatable ground several times. Weakness in other markets, however, caused scattered selling by local traders, and an easy tone developed, after early steadiness. Arrivals were 82 cars and 138 are estimated for Monday. Withdrawals from store were 600 bu. Seaboard clearances nothing. Cash prices in store steady.

Oats by sample were in fair demand for local and shipping account, and offerings were small. Prices steady to ¼c lower. Sales on track and free on board: No. 4 White sold at 28@30½c. No. 3 White at 30¾@31½c. Standard at 31½@3.½c. No. 2 at 31c. No. 2 White at 31½@32¼c. Billed through: No. 4 at 28¾c. No. 3 White at 30¾c. Standard at 31@31¼c. No. 2 at 29@29¼c. No. 2 White at 31½c. At the river: No. 4 at 28¼c. No. 4 White at 27@29½c. No. 3 White at 28¾@29¾c. Standard at 29½c. No. 2 White at 30¾c.

Future Deliveries of Contract Oats—Closed easy and ⅛@¼c lower.

NOVEMBER—Closed at 29¾c.

DECEMBER—Sold at 28⅝c to 28⅞c. Opened at 28⅞c, sold off to 28⅝c, and closed at 28⅝c.

MAY—Sold at 31c to 31¼@31⅜c. Opened with sales at 31¼c and 31¼@31⅜c, sold off to 31c, and closed there.

JULY—Sold at 31¼c to 31¼@31⅜c. Opened at 31¼c, sold to 31¼@31⅜c, to 31¼c, and closed at 31¼@31⅜c.

RYE—Was dull to-day and weaker. Prices about 1c lower. No disposition to buy, even cash was neglected and most samples carried over. The receipts were five cars. There were withdrawn from private warehouse four cars and from public elevators 2,250 bu. No exports from New York. No. 2 in store nominally 79½c, and a couple of cars of fresh arrivals free on board sold at 82@85c, and billed through at 81½c. Some No. 3 offered but not sold, and some of No. 2 also carried over.

Future Deliveries of No. 2 Rye—Neglected and lower. December 78½c best bid. May 80½c asked, with sale of 1,000 bu at 81c.

BARLEY—The reported receipts did not indicate it, still it was a fact the offerings were a little larger; they at the same time were very moderate after all. Steadiness prevailed. Only a passing interest was shown by buyers of any class. All offerings at the same time were salable. Steadiness quoted for about everything except poor seedy Screenings. Twenty-one cars inspected in. Screenings were quotable over a range of 25@38c for poor dirty to very choice. Sales were at 28½@38c. Barley—low grade feed, quiet, still scarce and quotable at 38@38½c local and 37c river. Malting, low grade, small berry, some heavy, but dirty remains at 39@41c; clean, fair to good, at 42@45c, and large berry heavy, quotable at 46@48c, with choice to fancy 49@52c.

SEEDS—Little business was done and there were no price changes to note in any line. In all cases both demand and offerings were limited.

Timothy—Was quiet and dull. Cash offerings moderate and little interest manifested by buyers. Futures were inactive. Only March delivery was mentioned and for that buyers and sellers were apart. Market dull, with no price changes to note. November nominally about $2 65 and January quotable at $2 72½. March delivery was offered at $2 82½ and $2 80 was bid. Country lots were quotable at $1 75@2 50 for low grade to choice; fancy above, inferior lower; fair to good, $2 35@2 45; and rough, dirty or hulled, $2 20@2 30.

Flax—Was entirely lifeless and nominal. Market devoid of offerings of all kinds. Values were nominally as last quoted. Local receipts 1 car or 900 bu, and output 2 cars or 1,841 bu. Receipts fair in the Northwest, being 63 cars at Minneapolis and 175 cars at Duluth. No. 1 Northwestern was quotably $1 18½, and No. 1 was nominally $1 11. Rejected, depending on quality, quotable at $1 08@1 15. November and December both remain at $1 11, and May quoted at $1 18½.

Clover—Small lots of very uneven quality came on sale. The market was quoted as steady at former prices. Sales were over a wide range, from $10 75 for nice quality to $1 50 for tailings. Contract grade, spot or November delivery remains nominal at $12 25. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—Inactive, due to lack of offerings. All were steady. Hungarian quotable at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice. German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 75c@$1 10. Buckwheat quotably firm for good quality at about $1 30.

HOG PRODUCTS—Rather a better trade, but moderate in the aggregate, with the feeling developed weaker. Offerings were more liberal, packers being credited with moderate selling while support was rather indifferent, the buying being confined chiefly to "shorts." Receipts of Hogs were 4,000 above the estimate and prices 5c lower, which with the further decline in Grain, had a weakening tendency. Receipts at the principal Western packing points were estimated at 55,000, compared with 58,800 one year ago. Domestic markets were quiet and easy, while foreign advices indicated no particular change in that quarter. Receipts of Product were fair—of Lard and Meats about 30 cars. Shipments were quite liberal—of Lard and Meats about 231 cars—and was an indirect sustaining influence. Inquiry on shipping account continues moderate and offerings only fair. Sales reported not very large. Prices were inclined to favor buyers.

Mess Pork—A little better trade was reported in the market for Mess Pork and the feeling manifested was easier. Offerings were somewhat larger and opening trades were at slight declines, the prices gradually weakening 15c. At the decline, "shorts" accepted moderate quantities and a recovery of 2½@5c occurred, but again eased off and closed comparatively easy. Trade confined to January and May contracts. Shipping inquiry was rather light and offerings moderate. Cash lots quotable at $11 05@11 10.

NOVEMBER—Inactive and closing about $11 05.

DECEMBER—Light trading. Sold at $11 15, and closed about $11 10.

JANUARY—Offerings larger and demand only fair. Sales were made at $12 45@12 60. Opened at $12 60 and sold at $12 45, to $12 47½@12 50, to $12 47½, and closed at $12 47½ asked.

MAY—Demand fair and offerings more liberal. Sales were made at $12 55@12 70. Opened at $12 70 and sold at $12 55, to $12 57½@12 60, to $12 55, to $12 57½, to $12 55, and closed steady.

JULY—Light trading at $12 75.

Lard—A moderate trade was witnessed in the market for Lard, and the feeling developed was easier. Hogs and Grain were lower and offerings were larger from miscellaneous sources, while the demand was confined almost exclusively to "shorts." The start was 2½c lower, and declined 2½@5c more. Later the tone was steadier and prices rallied 2½c, and closed steady. The demand on shipping account was moderate, with fair offerings. Cash lots were easy at about November figures, closing at $6 95@6 97½. Loose lots in fair request, with fair offerings. Prices were quotable at 42½c discount on January figures. Leaf Lard was in moderate demand, with light offerings. Prices quotably steady at $7 00. Neutral in light demand, with moderate offerings. Prices quotably easier at $8 25@8 37½ for No. 1 and $7 62½@7 75 for No. 2.

NOVEMBER—Little more doing. Sales were made at $6 95@7 00. Opened at $6 97½, sold to $7 00, to $6 95, to $6 97½, and closed steady.

DECEMBER—Dull and inactive, with nominal close $6 95.

JANUARY—Offerings fair and demand moderate. Sales were made at $6 97½@7 00. Opened at $7 00, and sold to $6 97½, to $7 00, and closed steady.

MAY—Moderate demand and offerings somewhat larger. Sales were made at $7 12½@7 17½. Opened at $7 15 to $7 17½, and sold to $7 12½, to $7 15, to $7 12½@7 15, to $7 15, and closed steady.

Short Rib Sides—A moderate trade, chiefly local and professional, with the undertone easy. Packers were moderate sellers and demand limited chiefly to "shorts." Market started steady, but sold off 2½@5c, rallied 2½c, and closed rather steady. Trade confined to January and May contracts. Shipping demand was light and offerings moderate. Cash lots quotable at $6 62½@6 87½ according to weight.

NOVEMBER—Quiet and entirely nominal.

JANUARY—Demand moderate, with some increase in the offerings. Sales were made at $6 45@6 47½ and $6 50. Opened at $6 50, and sold at $6 45@6 47½, to $6 47½, and closed steady.

MAY—Offerings more general and demand only fair. Sales were made at $6 60@6 65. Opened at $6 65, and sold at $6 60, to $6 60@6 62½, to $6 60, to $6 60@6 62½, and closed steady.

Other Meats—Trade only moderate and the feeling was steady. Domestic demand a little slow, and limited orders received from abroad. Offerings of all kinds not very large. Green Meats in fair demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices favored buyers. Dry Salted Meats in fair request, with moderate offerings, and prices ruled easier. Smoked Meats called for moderately, and prices unchanged. Closing prices were as follows:

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, November 18, 1904.

There is a stronger tone to the money market, yet rates are showing no change. The demand has improved and there are indications of a better business from now on. More money is being used in stock speculation and there is a larger general demand. Rates are mainly 4½ to 5 per cent, with call loans at the inside. For stock collateral some funds are put out as low as 4 per cent. There is to be $10,000,000 in Gold sent to Cuba, but this is expected to return in the way of purchases of food supplies. There is also $27,000,000, representing the cost of American bankers' share in the Japanese loan which will be distributed in this country. These influences will have some effect on the money market. The Government withdrawals of $20,000,000 of deposits will operate in the way of making a firmer market, but it will be distributed in the various disbursements and eventually return to circulation. In New York rates were steady at 2 to 2½ per cent on the Stock Exchange and 3½ to 4½ per cent on time loans.

New York Exchange was steady at par to 15c premium per $1,000, and closed at 5c premium.

Foreign Exchange was steadier with the supply of bills small. Shippers' 60-days' documentary sterling bills on London ranged at 482¾@483.

In the mercantile trade there is the best feeling in years. This is due to the recent favorable developments of the election and to the increased disposition on the part of those who have held back projects to go ahead with them. Buying of Iron and Steel products of late have been the largest in years, not even the heavy buying at this time in the year 1902 equaled that of the past two weeks. In the Chicago district alone the placing of orders for over 200,000 tons was noted, some being in large lots. Consumers have suddenly began to place orders, for large lots have been let for structural material, Steel bars and plates. The stimulus was the fear that prices might be advanced and they rushed to get their requirements covered before they had to pay higher prices. Purchases of pig Iron were not so large, but the market showed increased strength and sales of No. 2 Northern foundry were at $16 00 and over in a few instances. This is an advance of $3 50 per ton in less than two months. Production has increased, but stocks at furnaces have decreased. All grades of pig Iron are 50c per ton higher than a week ago and demand is strong at the advance. Wire and nails have been advanced $2 00 per ton. The Eastern Bar Iron Association has ordered an advance of $2 00 per ton in the price of its products. There were meetings during the week of the Steel bar, Steel plate, Steel beam and structural plate pools, but, according to the best information, no price changes have yet been determined by these interests. Representatives of the Steel rail pool were in conference here, but it is understood that a majority of the members favor deferring action until next month. Purchases of light and heavy hardware were heavy and prices fully maintained. There was a large business in building materials for the season, and a firm feeling in the lumber market on all kinds. Prices in the North and South have braced up and for the first time in the history of the yellow pine trade there is a demand up to the consumption. This has made prices firmer and there is a demand for all that can be had for prompt shipment. In other lines of trade there was a good business.

On the local Exchange prices followed the advance and activity in the Eastern markets and a number of Stocks made new high records in prices. Pool operations in the shares of National Biscuit were an important feature in the week's trading. The common stock was rushed up to 58, from which a reaction occurred later, but the preferred attained a new record of 116, and remained firm. Rumors of an increase in the rate of dividends on the common stock were denied. American Can shares reacted from the high prices reached early in the week, but recovered part of the loss. Another feature was that of further delay in completing the Box Board deal and shares of the company lost about half of their former gains. National Carbon's advance was due to declaration of the initial dividend on the common stock, and Chicago Edison shares rose to 175 when the new stock issue was announced. Diamond Match, Swift & Company's shares, and a number of other prominent but less active stocks were strong and averaged higher after the week's operations. The elevated railroad shares developed activity late in the week and rumors of consolidation of those properties caused a sharp rise in prices for all issues. The surface line stocks exhibited tendency toward decline. The City Railway deal is said to have been balked and Judge Grosscup's endeavor to force the action apparently did not affect the market favorably.

Phenomenal strength dominated the New York Stock market during the past week, and, while many influences entered into the situation, which, ordinarily, would have caused a serious break in prices, had the affect of depressing values only slightly at times. The rush to buy Stocks would then set in again and lift the shares to new high records for the year. Trading very much resembled the old-time boom of two years ago. Pools were at work everywhere and nothing appeared to daunt them in what seemed determination to send prices through the roof of the Exchange.

The severe storm which cut off all telegraph communications between Chicago and New York during Monday and Tuesday curtailed the volume of trading, but did not check "bullish" enthusiasm. Gold engagements caused only slight apprehension and money rates, while slightly higher on call, had no great affect upon the market. London's selling was a noticeable factor in the market about mid-week, but the foreigners bought back their stocks at higher prices later. The "shorts" who followed the selling from across the Atlantic, Wednesday, covered the following day, and this influence, coupled with immense purchases by the pools, lifted the market sharply.

Railroad stocks generally, and particularly the so-called low-priced issues, sustained substantial advances. The Southwestern rail shares were in brisk request, and Stocks of the Gould, Harriman, Vanderbilt and Rockefeller groups were taken in great volume, the brokers of these respective interests being conspicuous buyers at all times. The Eastern Coalers ruled strong and purchases were of a good character. The metal shares were active and higher, chiefly those of companies outside of the Steel trust. Amalgamated Copper scored a sensational rise. Other industrial features were Sugar, Smelters, Leather and the railroad equipment concerns. Traction Stocks attained higher levels, although it was noted that the hard spots brought out considerable stock.

Total sales on the New York Stock Exchange for the week were 8,839,000 shares, compared with 7,543,000 shares the previous week and 2,781,000 shares last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade was a little slow the first of the week, the poor wire service with the East and complete shut-off from communication with Europe tending to curtail speculative operations to some extent. Later, however, there was more general activity all along the line. Rather more interest was manifested by the smaller operator in the interior, but the trade as a whole was local and professional in character. Values were governed to a great extent by the movement and probable supplies rather than crop conditions. The foreign situation received considerable consideration, as also the crop outlook in the southern hemisphere. The receiving branch of the trade was broadened to some extent owing to the larger arrivals of Corn, and a still larger movement is anticipated with the advent of freezing conditions.

There is little change to note in the foreign crop situation the past week. Advices as received indicated that the fall crops are doing as well as could be expected, though rain would be welcome in Western Europe. Reports from India and Australia were favorable, while those from Argentina were somewhat conflicting. The weather in the latter country was reported as unseasonable, with frost in important growing sections. The cold weather, however, probably came too late to work any serious injury to the crop, as the harvest will soon be under way.

There is no particular change in the crop situation in this country the past week. Weather conditions were not of the best for growing Wheat, more particularly in the Western and Central districts, but the crop as a whole is in fairly satisfactory condition. There was less complaint of fly in the Wheat fields, and the damage so far sustained is not supposed to be of much importance. The snows through the East the first of the week no doubt were of some benefit to the growing crop. Conditions were favorable for curing Corn and the movement is on the increase.

The movement of Grain from the farms and interior elevators was fair the past week. Coarse Grains were marketed with more freedom, while Wheat came forward in fair quantities. In the Northwest the receipts of Wheat kept up well, but were smaller than for the corresponding period one year ago. Through the West and Southwest the movement was moderate. Through the West and Central West the movement of Corn was more liberal and the quality steadily improving. Oats were marketed in moderate quantities. Movement of Grain toward the seaboard was fair. Exports continue limited and bookings ahead also meagre. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was an increase in Wheat and Rye and a decrease in Corn, Oats and Barley. *Bradstreet's* showed a large addition in the world's supply of Breadstuffs, while a slight decrease was reported in Corn.

A little better speculative trade was reported in the leading Grain and Provision markets the past week. The poor wire service owing to the severe storms East tended to curtail speculative business from that quarter the first half of the week. The trade was, however, in the main professional and the feeling manifested was somewhat unsettled. "Bear" interests were more aggressive in their operations in Grain and lower prices were recorded, Wheat easily being the leader. The dull Flour trade and "bearish" situation abroad were against the Wheat price, while the favorable weather and larger receipts affected Corn adversely. Oats were inclined to sympathize with other Grains. Hog Products were weak and lower the opening days, following the trend of the Hog market. At the decline "shorts" accepted fair quantities and situation for a time was firmer, but advance was not maintained. Trading was confined to January and May contracts. Packing of the West for the week was 615,000 Hogs, as against 440,000 for the corresponding week in 1903.

Just a moderate trade was reported in the markets for cash Grain the past week. Receipts of Wheat were smaller and the demand more moderate. Choice milling Wheat met with fair sale. Corn was weak and lower under the influence of larger offerings. Oats held comparatively steady, offerings being more moderate. Rye was quiet and easy. Barley was in fair demand, with more doing in Screenings. The trade in Seeds was limited. Timothy was about lifeless, as also other descriptions. Hay was steady under a fair demand and smaller offerings. Hog Products were in moderate demand and supplies only fair. Prices were inclined to favor buyers. Hogs were in larger supply and prices lower. Cattle were marketed in larger quantities and prices were also easier. Receipts of Sheep were liberal and prices comparatively steady.

FLOUR—Prices have been marked down 10@20c per barrel during the past week in sympathy with the losses in the Wheat market. Instead of attracting buyers the lowering of values has driven them out of the market. Reports received from Chicago traveling Wheat salesmen in the southeastern portion of the Winter Wheat belt shows the mills in that section well filled up with Flour and no demand for it at the moment. The millers of the Southeast are not in need of Wheat at the present and there is no telling just when they will want additional supplies. Several Kansas millers are forcing Flour upon the market here and are accepting lower prices in order to make room in their warehouses for Flour that is now being made. One of the features of the Chicago market this week was the sale of a round lot of Kansas Patent at a price 60c per barrel below that obtained here a fortnight ago. This Flour is for January shipment. Consignments of Flour at Chicago are more liberal than at any time in several months and the demand for it is next to nothing, unless buyers are allowed to name the price. Millers of the Northwest are anxious to sell Flour here and are offering concessions on round lots. City mills are running only on part time and mainly on old orders. Revised prices follow:

MILLSTUFFS—The receipts were light during the past week and the demand limited. The feeling was easy. Bran in bulk sold at $17 50 and in 100-lb sacks at $18 00@18 50, sacks included. Shorts in 100-lb sacks sold at $17 50 and Middlings in sacks sold at $15 75@19 00.

WINTER WHEAT—There has been nothing particularly encouraging in the market during the past week and the feeling, while rather steady at the start, became rather easy and prices declined 1@2c. Buyers have been indifferent and did not care to purchase, millers, shippers and speculators alike keeping off the market as much as possible and merely supplied their actual necessities. Occasionally a round lot sold, but the trading was confined mostly to the few cars of fresh arrivals. The stock of No. 2 Red in store was 292,000 bu, and a year ago was 564,000 bu. For the week receipts were 163 cars, against 123 cars the previous week. There were withdrawn from public elevators 204,020 bu, and from private warehouses 80 cars and 2,000 bu. No. 2 Red in store was quotable early in the week at $1 17½@1 18¼ and eased off to $1 13½@1 14¾. Fresh receipts free on board ranged from $1 18½@1 19½ down to $1 16@1 17. No. 3 Red fresh receipts free on board ranged at $1 12@1 15 down to $1 08½@1 14. No Grade Red sold at 91c@1 05½. No. 2 Hard fresh arrivals free on board were quotable at $1 13@1 16 to $1 10@1 14. No. 3 Hard fresh receipts free on board ranged at $1 05@1 13, and sold at the river at $1 05. No. 4 Hard at the river sold at $1 00@1 03.

SPRING WHEAT—There has been only a light business in this market during the past week and an easy feeling was developed, but there was a steadier tone later. The receipts have been very small; so small, in fact, as to preclude trading, and scarcely enough doing to establish a market. Millers have not apparently cared to purchase beyond a limited extent, and outside millers likewise indifferent. Choice hard variety always met with some demand in a quiet way, while the poor Wheat was very dull and difficult to find buyers for such. No round lots were reported sold, trading for the week being confined to a few car lots received from day to day. The receipts for the week, including Colorado Wheat, were 126 cars, against 118 cars the previous week. There were withdrawn from public elevators 6,500 bu and from private warehouses 11 cars. No. 1 Northern fresh arrivals free on board were quotable at $1 17@1 20. No. 2 Northern fresh arrivals free on board were quotable at $1 10@1 14. No. 3 Spring ranged at $1 03@1 14 for common to choice hard variety. No. 4 Spring was quotable at 60@65c for very poor, to $1 00@1 04 for good to choice hard variety.

REGULAR WHEAT—There were net losses for the week of 3⅜@3½c in the December and 3c in May. The period under review will be long remembered in Chicago and the big Eastern markets owing to the fact that the Atlantic seaboard was entirely cut off from Chicago for 24 hours and partially cut off for 48 hours by terrible storms in the East. The cables from the old world were 24 to 48 hours late and the routine weekly statistics were delayed a like period in consequence. Under these conditions the market displayed considerable activity and the daily price changes were wide and at times violent in character. The whole situation was in the hands of the room trading element and with the absence of cables and New York advices the "bears" experienced no great amount of trouble in lowering prices. There were reactions and advances, however, from the breaks suffered and while the upturns were pronounced, the declines were more so. During the dull periods, or at opportune times, both the "bulls" and the "bears" made the most of the news and circumstances favoring their respective sides. In fact the changes were brought about largely by the literary efforts of the two factions in the market. There was less talk of Hessian fly devouring the young plant in sections of the Winter Wheat belt, and the cry of drouth was less pronounced, although it was heard on certain occasions. The *Modern Miller* in its outlook said: "There has been no relief from the drouth conditions except in widely scattered localities. Although complaints that the Wheat is suffering from lack of moisture are coming from some sections as also reports of the prevalence of Hessian fly in the fields, yet no serious damage is apparent as yet." The "bulls" made the most of the cash demand, which was reported as much better in nearly all markets, while the "bears" pointed to the dull and lower Flour markets as an overbalancing factor. One of the most noticeable features of the week was the reports sent in from Kansas and other sections of the Winter Wheat belt of the warehouses being full of Flour and the elevators full of Wheat. In direct opposition to these dispatches were claims from the above localities but from entirely different sources of conditions that were "bullish." It was plainly visible that the two sides of the market were working diligently to gain control of the situation. One of the large local elevator concerns with traveling agents in the Southwest and Southeast endeavoring to place cash Wheat among the millers, led the heavy selling that was indulged in. Reports from the traveling men were of one tenor—lack of demand for Flour, of which the stocks were reported as large, and many of the mills closed down because of unsatisfactory conditions. The heavy selling of December Wheat by local as well as Eastern, Southwestern and Northwestern "longs" was a feature of the week. This selling was of such a pronounced character at times that the entire market looked as if it could hardly be steadied again. The buying was brisk at times and was generally by the "longs" in an endeavor to check the declines, or by the "shorts" who had put out Wheat at a higher level and who had a profit in covering their short contracts. Routine weekly statistics such as the world's shipments, the changes in the amount on ocean passage as well as the changes in the world's available and the American visible supply were nearly all late putting in an appearance and with the exception of the increase in the American visible and the *Bradstreet's* available, cut only a small swath as price makers. Relative to the receipts in both the the Northwest and Southwest the best authorities in both sections predicted a falling off. There were reports that movement was likely to keep up. The Kentucky November report makes the Wheat acreage 85 compared with an average crop. The President of the Kansas Grain Dealers' Association said condition of Wheat in that State is 60 per cent and that not over 25 per cent of old crop is in farmers' hands. According to a Minneapolis message one of the oldest and about the largest receiving houses there sent inquires into Western North Dakota as to percentage of Wheat left in farmers hands. Replies received indicate that 70 to 80 per cent of the crop has been marketed. World's shipments were placed at 13,208,000 bu, compared with 13,010,000 bu a week ago and 11,785,000 bu a year ago. Of the above Russia shipped 7,032,000 bu and the Danubian ports 704,000 bu; India 2,008 000 bu. The American shipments were only 1,200,000 bu. The visible supply increased 2,940,000 bu for the week, making the total 31,302,000 bu as compared with 28,362,000 bu the previous week and 27,916,000 bu a year ago. The amount of Wheat (including Flour as Wheat) on ocean passage distined to Europe and the Continent showed an increase of 2,072,000 bu, making the aggregate amount 38,200 000 bu, compared with 36,128,000 bu the week before and 29 536,000 bu a year ago. Local stocks decreased 88,000 bu for last week the total in public houses being only 1,950,000 bu, compared with 1,991,000 bu the week before, and 1,613,000 bu a year ago. The bringing to Chicago of a cargo of 80,000 bu Manitoba Wheat created general interest in the Grain trade at Chicago. It pays a duty of 25c a bushel and will arrive here from Fort William by boat the latter part of next week. The Wheat is a particularly high grade of No 1 Northern and is wanted for special milling purposes requiring a little higher grade of Northern Spring Wheat than has been raised in the United States this year. The Grain costs probably not far from $1 30 a bushel laid down in Chicago. The importation is unique in that it is the first Manitoba Wheat of commercial quantity ever brought to Chicago. It is expected that additional Manitoba Wheat will be brought to Chicago. The Flour output at Minneapolis last week was 217,316 brls, compared 417,515 brls a year ago. The *Price Current* says that the Winter Wheat belt has had little relief from dry weather, but that there is as yet no apparent injury to growing Wheat. Argentine shipments for the past week 981,000 bu, compared with 752,000 bu week before and 320,000 bu a year ago. Argentine visible, 2,248,000 bu; week ago, 2,136,000 bu; year ago, 1,104 000 bu. Clearances from both coasts for the week, 1,309,000 bu, compared with 1,454,000 bu previous week and 2,974,000 bu year ago.

CORN—Declines anywhere from 1c to 1¾c were established during the past week. Sentiment was as changeable as the winds off Lake Michigan and was at times as pronounced. The excellent weather for the harvesting and drying out of the new crop and the increased movement in all positions were "bearish" factors in themselves, and the report that local and country drying plants were either running on full time in making contract Corn for delivery on December contracts or were soon to start up attracted considerable attention and doubtless prevented some of the more rampant "bulls" from taking hold on the buying side in a big way. These conditions, however, were about fully offset by the exceptionally small stocks of Corn in all positions in Chicago, coupled with the fact that the stocks are growing beautifully less week by week. Not only are the Chicago stocks of Corn very small, but the same conditions exist in all the leading markets of the United States. The delay in the transmission of messages between Chicago and the Atlantic seaboard on account of the terrible storms in the East cut off the domestic and export demand for cash momentarily. While the trade in Corn is counting on a big movement of the new crop as soon as it is in prime condition, or as soon as it can be handled expeditiously by the city drying houses, a great deal of it will find its way into empty bins. The Continent has been taking goodly amounts of Corn from Argentina of late and there are good reasons for an export demand to develop in the near future. While both the "bulls" and the "bears" are battling over the situation in Corn, it would be well to remember that the United States has raised a crop of 2,500,000,000 bu, and that the present price of that cereal is not to be despised. According to the very latest advices from some sections of Iowa, Illinois, Nebraska, and other sections of the Corn belt, the country is accepting the bids sent out. From other sections of the same States reports have been received that growers are cribbing their Corn, refusing to part with it at the present level of prices. The bulk of the trade in Corn during the week was on local professional and country account, with a sprinkling of orders from the East and the Northwest. The believers in a crop of 1,900,000,000 bu have liquidated a considerable portion of their "long" Corn, according to pit habitues. Local stocks of Corn decreased 562,000 bu, leaving the total 255,000 bu, compared with 817,000 bu a week ago and 1,231,000 bu a year ago. World's shipments of Corn were 4,214,000 bu, compared with 2,682,000 bu the previous week and 3,627,000 bu a year ago. The amount on ocean passage increased 436,000 bu, making the total 18,663,000 bu, against 18,232,000 bu the week before and 15,660,000 bu a year ago. The visible supply decreased 112,000 bu and is now 2,276,000 bu, compared with 2,388,000 bu the week before and 7,280,000 bu a year ago. The world's available supply, as compiled by *Bradstreet's*, showed a decrease for the past week of 54,000 bu, compared with a decrease of 444,000 bu a year ago. Contract stocks at Chicago decreased 570,180 bu last week and are now 217,600 bu, against 932,000 bu a year ago. The *Price Current* says that conditions continue favorable for Corn, with the tendency to increase the marketing. Argentine shipments for the week, 2,854,000 bu, compared with 4,003,000 bu the week before and 1,937,000 bu a year ago. Argentine visible supply 3,704,000 bu, against 3,913,000 bu the previous week and 3,112,000 bu a year ago.

OATS—Declines of 1@1⅞c were made during the week. The same general conditions have ruled in this market as have been previously noted. Fluctuations were small, selling being curbed by small country offerings and steady cash prices and buying power limited by the large stocks everywhere. In addition there is a lack of any general outside interest in the market, transactions being largely by local professionals, with a moderate amount of hedging by cash houses each day. The moves of Wheat and Corn have been reflected within narrow confines all week. Stocks while large, have shown small decrease, the visible decreasing 85,000 bu for the week to a total of 24,37-,000 bu, and the local stocks were 14,000 bu smaller at 5,240,000 bu. Contract stocks decreased slightly and now are 3,942,528 bu. Receipts the last three days have been considerably under 100 cars a day and the total for the week 570 cars, against 1[illegible] cars the week before. The grading of the receipts has been about the same as the week before, and not as good as early in the season. Receipts from the Northwest also have fallen off, but stocks are heavy, and Oats will be largely used this winter to earn storage. Shipping demand was cut down the first of the week by wire trouble, due to the Eastern storm, but showed some improvement later. Sales, however, are still moderate.

RYE—There has been about the usual volume of business in this market during the past week and an easier feeling developed, influenced by the weaker feeling which existed at one time in Wheat and realizing sales. Prices declined 1@1½c for the deferred futures, and cash was also a trifle lower, but the fresh arrivals held comparatively steadier than the futures. The receipts have been small, and there has been sufficient demand from manufacturing industries to take up the offerings. For Rye in store there was apparently no demand on the open market, but some round lots were withdrawn from elevators. Receipts for the week aggregated 27 cars, against 22 cars previous week. There were withdrawn from public elevators 180 bu and from private warehouses 10 cars. The visible supply increased 217,000 bu, and was reported at 1,775,000 bu, against 1,136,000 bu a year ago. Local stock in store was 416,000 bu, a decrease of 198,000 bu compared with the previous week, and a year ago was 160,000 bu. No. 2 in store was quotable at 81c down to 79½c, and fresh arrivals free on board sold at 82@85¾c. No. 2 at the river sold at 80c, and No. 3 billed through sold at 80c. For future deliveries of No. 2 Rye the market was easy. November was nominally 81c down to 79½c. December sold at 81½c, and declined to 79¾c. May sold at 82½c down to 81½c.

BARLEY—There was an exceedingly quiet market. Arrivals fell off. Regular market offerings became about the smallest on the crop. From what could be learned farmers have been marketing their Barley sparingly of late, just why could not be explained. Small supply had no marked effect. The feeling was firm, but prices not materially changed. Buyers showed no especial interest. Exporters were present but there was little of their kind offered. There was no demand for mixing unless it was for nice, bright, clean Screenings; common seedy Screenings were dull. Malting demand was very slack. Maltsters seemed to be supplied, some of them said they were crowded with deliveries made on to-arrive purchases. The trade in malt was reported as slow. The impression is that a large percentage of the crop remains in the country. It also is figured that not nearly so much Barley will be used for mixing as last year. Oats being cheaper than the, for one reason, and the Barley will not blend so well in color as last year is another reason. Crop this year also larger than last. Receipts were 2[illegible] cars, compared with 316 cars the week before and 253 cars two weeks ago. No output from regular houses reported, and none for two weeks. New York gave exports of 233,590 bu, compared with 286,771 bu the previous week, and 39,45[illegible] bu two weeks ago. The visible supply showed 572,000 bu decrease and was given as 5,576,000 bu; a year ago it was 5,231,000 bu. Local stock did not change, remaining at 11,714 bu, and last year it was 11,91[illegible] bu. Sales of Screenings were over a range of 27@38½c for poor seedy to very choice. Low Grade Barley, feed, was quiet, sparingly offered and ranged at 38@38½c local and 37c river. Malting, low grade, small berry, some heavy, but dirty, was 39@40c; clean, fair to good, at 42@45c, and large berry, quotable at 46@48c, with choice to fancy 49@52c.

SEEDS—The undertone of the market generally was steady to firm. A fair degree of interest was shown in Timothy with some periods of fair trading, and prices covered a somewhat higher range. Flax declined slightly early and then recovered, little done under meagre offerings. Clover steady and unchanged, while Hungarian, and some kinds of Millet were a shade better.

Timothy—There was a strong tone to the market. A fair degree of interest was shown. On Tuesday the speculative trade was somewhat animated, with trading in March delivery; at other times though business was very quiet, though at the close there were fair sales made. There was at all times some cash Seed offered; at times a very fair quantity. It sold very well. No competition in demand was apparent, and yet cash lots were firm and brought some advance. The order demand was tame, and shipments did not make a favorable showing. There was at the same time said to be less Seed offering by the country and arrivals showed decrease compared with the last few weeks. The tone of the market was stronger, and prices advanced moderately, cash Seed about 5@10c and futures 5@7½c. Contract, spot or November quoted at $2 62½ early to $2 70 and closed at $2 65 bid. January improved from $2 67½ to $2 75. March opened with sales at $2 71½, sold freely later at $2 80, a fair quantity at $2 82½ and closed at $2 82½. Country lots were quoted over a range of $1 75@2 50 for poor to choice, fancy up to $2 60, with some tailings sold down to $1 50. Fair to good improved from $2 25@2 30 to $2 35@2 45, and hulled rough lots ranged at $2 15@2 25.

Receipts and shipments were as follows:

Flax—The market for Flax Seed was unrelieved from the dullness and stagnation of trade recently commented upon. As a rule there was an absence of sellers. Arrivals very small, falling to 35 cars from 43 cars the week before. The small total of 5,134 bu was taken out, but this was better than a week ago when only 1 803 bu were withdrawn. There was a slight weakening in prices, still it amounted to only ½c decline. Local regular stock did not change, remaining at 16,647 bu, against 97,460 bu a year ago. Northwestern stocks however, increased 1,203,000 bu. There was 260,442 bu gain in Minneapolis, where 1,165,843 bu were reported, and Duluth increased 917,838 bu, where 6,320,290 bu were reported. No. 1 Northwestern spot Seed was quoted at $1 18 to $1 17, back to $1 17½; No. 1 at $1 11 to $1 10½, closing at $1 11, and Rejected was nominally 2@4c below the grade above it. November and December deliveries declined from $1 11 to $1 10½, reacted to $1 11, and May from starting at $1 19 sellers was offered later at $1 16½.

Clover—There has continued a steady to firm feeling in the Clover market. Of late the weather has been well suited for threshing and moving Seed. It is presumed that threshing is well over. It seemed to be expected that arrivals would de-

ness and this tended to impart a stronger tone. The order demand has been in a moderate way, not large at all. Values were not subject to any material change from opening to close. On the regular market consignment offerings have been exceedingly limited, so there was no business to speak of done. Values during the week covered a range as follows: Contract grade, spot or November delivery, quoted usually at $12 25. Country lots, common to choice, $7 00@12 00; very poor lower and fancy above, Fair to good, $9 50@11 00.

Receipts—The past week, lbs	143,100
A week ago	261,980
Two weeks ago	295,640
Corresponding week last year	135,800
Shipments—The past week, lbs	31,500
A week ago	97,295
Two weeks ago	97,600
Corresponding week last year	181,155

Other Seeds—There were some changes during the week. Hungarian Millet and German Millet improved somewhat. Nothing in particular was done. So far there has been little movement of the new crop, and this possibly aided in establishing strength. In other lines of the late ... ng Seeds there was no essential change. The quotations are in the table appearing elsewhere, and movement was as follows:

Receipts the past week, lbs	40,000
A week ago	379,085
Two weeks ago	194,500
Same time last year	535,220
Shipments the past week, lbs	205,965
A week ago	183,513
Two weeks ago	305,581
Same time last year	1,335,898

Buckwheat—On account of cooler weather the consumptive demand for Buckwheat Flour, which had been languishing, improved. In turn the demand for Wheat was better and an advance of about 5c occurred, the quotation being raised to $1 30@1 40.

HAY—The receipts for the week were 5,518 tons, against 6,620 tons for the previous week. Shipments for the week were 380 tons, against 252 tons for the previous week. The market for Timothy Hay ruled firm during the past week. The receipts were only moderate and a good local demand existed. All consignments sold readily and prices advanced 50c@$1 00 per ton for the best grades. The offerings of low and medium grades of Prairie Hay were rather small and some inquiry existed. The better grades were in liberal supply and the demand was only fair. Prices ruled steady and about unchanged. Quotations at the close ranged as follows: Choice Timothy, $12 00@13 00; No. 1 Timothy, $11 00@11 50; No. 2 Timothy, $9 00@10 00; No. 3 Timothy, $8 00@9 00; Choice Prairie, $11 00@11 50; No. 1 Prairie, $9 50@10 00; No. 2 Prairie, $8 00@9 00; No. 3 Prairie, $6 00@7 00; No. 4 Prairie, $5 00@5 50. Inside prices for Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $7 00@11 50 for poor to fancy Timothy, $6 25@6 50 for State and $7 75@11 00 for Iowa, Minnesota, Nebraska and Kansas Prairie Hay. Rye Straw sold at $8 50@9 00. Wheat Straw at $7 00 and Oat Straw at $6 50@7 00.

COOPERAGE—There was rather a better business in Cooperage market during the week just closed. Local and outside packers were more inclined to purchase, as they have small supplies on hand. Offerings were moderate. Ash Pork Barrels were quiet and prices nominally steady at $1 05@1 10. Oak Pork Barrels were in moderate demand and quotable at $1 15@1 20. Lard Tierces were in small demand, and offerings were fair. Prices quotably steady at $1 30@1 35. Iron bound Lard Tierces were quiet and quotable at $1 20@1 25 for six hoop and $1 30@1 32½ for eight hoop. Oleo Tierces were quiet and prices were unchanged at $1 27½@1 30.

HOGS—The supply of Hogs during the past week were liberal and the quality was very fair. Market was moderatly active most of the week and the undertone in a general was rather weak. Packers purchased with moderate freedom at the reduction in prices and shippers provided for fair orders on Eastern account. Prices declined on the whole 20@25c, and the close was comparatively steady. Sales during the week were made at $4 65@5 00 for light, $4 45@4 75 for rough packing, $4 55@5 10 for mixed, and $4 65@5 05 for heavy packing and shipping lots, with the bulk of the trading within the range of $4 70@5 00 for fair to good averages. At the close about 6,000 Hogs remained in the pens unsold. Pigs were in fair supply and rather good demand, and sales were made at $4 10@5 10, according to size and condition. Supply of Hogs at other large Western packing points was large, and the quality only fair.

PACKING—A very fair business was reported in packing circles during the week just closed. Hogs were in much larger supply and prices lower and packers were more disposed to take hold at the reduction in values and manufacture Products with more freedom. Mess Pork was cut sparingly. Other cuts of Pork were made moderately. Lard was produced in larger quantities and the average yield was quite fair. A moderate proportion was placed in tierces. Domestic cuts of Hams continue to be made in fair quantities, and the bulk cured by manufacturers. Skinned Hams made also in fair quantities, and only a small proportion sold from the block. Foreign cuts of Hams are still neglected. Shoulders made in small quantities, and a fair proportion sold from the block to the retail trade. Picnic Hams made in fair quantities, and the bulk cured by manufactures. Long Clear Sides made rather sparingly and Extra Long Clear Sides neglected. Short Clear Sides made in moderate quantities. Extra Short Clear Sides made in fair quantities. Short Rib Sides made moderately. Extra Short Rib Sides made in fair quantities. Rough Sides made a little more freely, and chiefly of medium averages. Backs and Bellies made moderately. Loins cut in fair quantities for the Dressed Meat trade and local retail wants. Foreign fancy and special cuts of Meats made in limited quantities.

PROVISIONS—Rather more activity was witnessed in the market for Hog Products during the past week. Outside orders were moderate, the poor wire service the first of the week possibly restricted business to some extent. Local operators and packers traded with greater freedom. Hogs were in larger supply and prices considerably lower, and this fact had some influence in increasing speculative offerings. The supply of Hogs at the leading packing points was quite liberal, the returns of the packing of the West for the week exhibiting an increase of 75,000 Hogs compared with the returns for the corresponding week in 1903. The rather easier feeling in Corn also had a depressing effect and encouraged operators with "bear" views, who were more aggressive in their operations. Near deliveries were quiet, though held with considerable steadiness. The deferred deliveries attracted fair attention, with a little more interest manifested in May. Early in the week the market ruled weak under liberal offerings and prices ruled lower for all descriptions of Product. Later, there was fair miscellaneous buying, part of which was credited to the smaller packers and "shorts" and a steadier feeling was manifested. Prices were advanced slightly all around on the leading articles. Toward the close, there was more general realizing, while buyers were backward, and an easier feeling prevailed. Prices settled back moderately, and the market in a general way closed comparatively easy. Supplies of the speculative articles are moderate, but the production the past week was larger. In the shipping branch of the trade there was only a moderate business transacted, though there was a little more interest manifested toward the close. The poor wire service the first of the week no doubt tended to interfere with business from the East. Foreign markets were quiet and generally lower. Orders from abroad continue small and most bids below the views of sellers. The domestic markets were quiet and inclined to weakness. Merchants are fairly well supplied for the present, especially at the larger distribuuting points. Orders for home wants were rather small and for conservative quantities. Receipts of Product from the interior were fairly large, as packers were disposed to sell. Shipments were rather liberal and widely distributed. Exports for the week were moderate. As a rule, prices of articles required for immediate shipment were easier toward the close.

Pork—A better speculative trade was reported in the market for Mess Pork during the past week. Offerings were more liberal, especially for the deferred futures, while the demand was only fair and not for very large quantities. The trade was again largely local and on the professional order. Only scattering trades in November and December, while the more distant deliveries attracted greater attention. During the early part of the week the feeling developed was weak, and under miscellaneous selling, generally credited to the "short" interest, prices declined 20@22½c. At the decline established there was more disposition to purchase, part for investment account, and prices gradually rallied 10@12½c, but the advance failed to be fully maintained, and the market closed comparatively easy. There were but moderate changes in the supplies on hand. Inquiry on shipping account was moderate, with not very large offerings. Cash lots at the close were quotable at $11 10@11 15. Other cuts of Pork were called for moderately, and a few trades made at about former prices.

Lard—The trade in Lard was on a fair scale during the week just closed. Offerings in a general way were more liberal and the demand only fair. Foreign advices were rather more favorable to "bear" interests. Supplies on hand, however, are only moderate, but the production the past week was fair. The near deliveries were again quiet, while the more deliveries were more active. Early in the week the feeling was rather weak and under liberal miscellaneous selling prices were reduced 15c. Toward the close of the week there was a little more disposition to purchase, chiefly on the part of "shorts," and prices advanced 7½c, but the market again developed a weak tone, and the close was comparatively easy. The demand on shipping account continues only moderate and offerings were fair. A few lots were accepted by exporters. Prices generally ranged at November figures to 2½c discount. Refined was in light request for export, but prices were not made public. Loose lots were in moderate request, but the offerings were fair. Holders not so firm in their views. Prices were quotable at 32½@37½c discount on January figures. Leaf Lard in fair demand, and offerings were larger. Moderate trades were made at $6 87½@7 12½. Neutral was called for sparingly, and there was a little pressure to sell. Feeling was rather steady and prices were unchanged, closing at $8 25@8 37½ for No. 1, and $7 62½@7 75 for No. 2.

Short Rib Sides—Just a fair business in a speculative way was transacted in the market for Short Rib Sides during the past week. Offerings were rather liberal at times and the demand in a general way only fair. Trading, as has been the case of late, was almost exclusively in January and May contracts. Near deliveries were quiet and neglected. Supplies on hand are supposed to be decreasing, but the production this week was fair. The trade was chiefly local, outside interest not being in anyway marked. Early in the week offerings were moderately free, while the demand was rather indifferent and prices declined irregularly 10@12½c. At the depreciation established in prices, buyers came forward and accepted fair quantities, part of the demand being credited to packing interests. Prices rallied 7½@10c and the market closed comparatively steady. The demand on shipping account was only moderate, while the offerings fair. Holders not as firm in their views. At the close, cash lots were quotable at $6 77½@7 02½, according to weight.

Green Meats—Only a moderate business was transacted in the market for Green Meats during the week just closed and the feeling was again rather easy. Sellers were not, however, inclined to force sales and the demand was moderate from all quarters. Local curers did manifest much disposition to purchase and outside orders were as a rule for small quantities. Sales were on the whole rather limited. Prices were inclined to favor buyers most of the week. Hams were called for sparingly, and prices favored buyers. Skinned Hams were quiet and dull, and prices ruled slightly lower. Shoulders were in light request and prices inclined in favor of buyers. Picnic Hams were rather slow sale, and prices were easy. Bellies were in small request and prices were without material change.

Pickled Meats—Rather a light trade was reported in the market for Pickled Meats during the week just closed and the feeling prevalent was again easy. Offerings were fair and the demand very moderate from all directions. Stocks of all kinds are said to be liberal. Orders from abroad were small and prices on Hams were easy. Domestic markets were quiet and rather dull, the poor wire service most of the week tending in a measure to restrict transactions. Merchants not inclined to purchase to any extent for future delivery. Hams were in light request and rather slow sale at former figures. Skinned Hams were dull and dragging, with a little pressure to sell, and prices were a shade lower. Some demand for delivery from January to September. Shoulders in limited request and prices inclined in favor of buyers. Picnic Hams were in moderate demand, with a little pressure to sell, and prices slightly lower. Bellies were in small request and prices without material change.

Dry Salted Meats—A moderate amount of interest was manifested in the market for Dry Salted Meats the past week, and rather an easy feeling was prevalent. Supplies continue fair, and holders in some instances were inclined to sell, but were a little slow in shading prices. Export descriptions were in small supply, and there was but a limited inquiry from the other side. Orders from the domestic trade were fair, the poor wire service the first of the week interfering with business to some extent. The production was somewhat larger. Foreign cuts of Hams were quiet, and prices nominal. Shoulders in small request, and prices inclined in favor of buyers. Long Clear Sides were quiet, and prices without important change. Extra Long Clear Sides inactive. Short Clear Sides in moderate request, and prices ruled easier. Extra Short Clear Sides were called for moderately, and prices held steady—quotable at the close at $6 95@7 05. Extra Short Rib Sides were in fair request to fill small orders and prices ruled comparatively steady—closing at $6 85@6 90. Rough Sides met with rather more favor, but trading was moderate. Prices ruled steady, closing at $6 75@7 00 according to weight. Plates were in limited demand and prices unchanged. Butts were quiet and prices ruled easy. Backs were in light demand and prices without material change. Bellies were called for moderately, and prices ruled rather steady. Foreign fancy and special cuts of Meats were quiet and prices nominal.

Smoked Meats—The trade in Smoked Meats the past week was moderate and the feeling generally speaking was easy. Offerings at no time were excessive, while orders were as a rule for moderate quantities. Stocks were reported as fair. Hams in fair request and prices ruled easy. Skinned Hams were in moderate request and prices favored buyers. Shoulders were in light demand and prices held steady. Picnic Hams were in small request and prices ruled slightly lower. Sides of all kinds were called for moderately, and prices were well maintained. Breakfast Bacon in fair request and prices well maintained.

Beef Products—The past week was quiet in the market for Hog Products, and the feeling prevalent was rather easy for most descriptions. Offerings were fair, and the demand only moderate. Cattle were in liberal supply, and prices lower, though the better grades held up fairly well. The foreign markets were easy, and domestic markets were likewise weak. Shipments of Dressed Beef rather liberal. Manufacture of Products was moderate, and supplies on hand are fair. Beef Hams were called for moderately, and prices favored buyers. Extra Mess Beef quiet and steady at former figures. Plate Beef in rather light demand and easy. Extra Plate Beef in moderate demand and prices ruled easier. Tallow was inclined to quietness and prices without material change. Oleo-Stearine rather quiet and steady at 6½@6¾c.

Greases—Only a moderate trade was reported in Greases this week. Offerings were not very large and the demand only fair. Undertone was easy and slight declines were recorded.

RAILROAD EARNINGS AND EXPORTS.

[From the Chicago Inter Ocean.]

The most remarkable fact in connection with the increase in earnings of the railroads this year is that Wheat exports have been lighter so far in 1904 than in the corresponding period of many years. Wheat and Flour are two of the principal items of traffic of both Western and Eastern roads. With a decrease in these items the railroads have made their steady growth in earnings, mainly from manufactures, merchandise, Coal, Lumber, and other commodities. The increased demand for raw materials and larger output of all manufacturing plants have more than offset the losses to railroads in export Wheat and Flour traffic, and demonstrate the general prosperity of the country.

Figures prepared by the Department of Commerce and Labor show exports during the nine months ending with September of less than 10,000,000 bu, as against 55,000,000 bu in the corresponding months of 1903, 96,000,000 bu in the corresponding months of 1902, and 139,000,000 bu in the corresponding months of 1901. Thus the exportation of Wheat in the nine months ending with September is but one-fifth that of the corresponding months of 1903, about one-tenth that of the corresponding months of 1902, and about one fourteenth as much as that of the corresponding months of 1901.

Even the Flour exports are beginning to show the effect of the great shortage in the Wheat supply available for exportation, and for the nine months ending with September, 1904, they amounted to only 9,000 000 brls speaking in round terms, against 13,500,000 brls in the corresponding months of 1903, and over 11,000,000 brls in the corresponding months of 1901. Flour exports are less readily affected by a shortage of Wheat than are those of Wheat itself. During the past decade Flour exports for the nine months' period have but twice fallen below 10,000,000 brls, but in the nine months of the present year have amounted to but 9,000,000 brls. Wheat exported during the decade had never fallen below about 50,000,000 bu for the nine months' period, and ranged from that amount to about 140,000,000 bu for the period under consideration, but amounted in the nine months ending with September, 1904, to only 9,762,723 bu.

A fire at Indianapolis, Ind., Thursday, caused a loss of $75,000.

The steamer Uncle Sam was destroyed by fire, Thursday, at Quincy, Ill. Insured for $10,000.

Eight of the principal business houses, De Witt, Mo., were burned, Thursday, with the contents, causing a loss aggregating $50,000.

The Malt-house of the Frank Jones Brewing Company, Portsmouth, N. H., was ruined by fire, Thursday, entailing a loss of over $150,000.

EXPORTATION OF WHEAT.

The Liverpool *Daily Post* says: "Already the supply of Wheat from America is being cut off by natural causes. In a few years no protection duty will be needed to keep out American Wheat."

To this the New York *Sun* adds: "The American Wheat crop for this year is only a little more than 70 per cent of the crop for the calendar year 1902, and is much below the crops of 1902 and 1903. But this will not materially injure the Wheat growers, because of the higher basical price for the crop. The high price will practically check the domestic consumption, but it remains evident that our surplus for export will be smaller than it has been for many years. Were the domestic demand for this year to equal that of the year 1902, our surplus would be only about 40,000,000 bu, and it is necessary to go back to 1872 to find exports so small a quantity. If domestic consumption equals that of 1903 our exports will still be less than 100,000,000 bu, and there have been only two years since 1876 when our exports have not exceeded that quantity."

THE WEATHER CONDITIONS.

Extreme Northwest-Temperatures, 10 to 36; clear. Northwest-Temperatures, 20 to 46; generally cloudy. West-Temperatures, 38 to 54; fair. Southwest-Temperatures, 50 to 68; clear. Ohio Valley-Temperatures, 38 to 60; clear.

Indications are that the storm will continue its movement Eastward accompanied by high winds and precipitation in Upper Mississippi Valley and Western lake region. There will be a decided change in temperature as colder weather will overspread the entire district to-night and Sunday.

ITEMS OF GENERAL INTEREST.

The 15,000 shares of Philadelphia and Erie Railroad stock owned by the City of Philadelphia were sold, Thursday, to Drexel & Co. for $58 63 a share, or $2,683,350 for the lot.

The New York Central system has closed a contract whereby all the lines will be equipped with the New York air brake during the next ten years, instead of the Westinghouse brake.

Bank Clearings of the leading financial centers of the United States for the week ended with December 26 aggregated $3,242,440,173, an increase of 53.5 per cent, compared with the corresponding week last year.

It is announced that the $25,000,000 block of 4 per cent refunding bonds of the Chicago, Rock Island and Pacific Railway Company, handled by Speyer & Co., have all been sold. It is stated that the issue was oversubscribed.

The appointment of the Currency, Thursday, received a dispatch from the cashier of the Berlin National Bank of Berlin, Wis., announcing that because of a run on the bank its doors were closed. Bank Examiner Parker was appointed receiver.

The Buffalo and Susquehanna Railroad Company has declared the regular quarterly dividends of 1 per cent on its preferred stock and 1½ per cent on its common stock. The preferred dividend is payable Dec. 1 to stockholders of record Nov. 17, and the common is payable Jan. 1.

The Anchor Line has issued notice to shippers that all freight for Glasgow and Scottish and interior points to be forwarded by the company will not be received later than Wednesday, Nov. 23, for Sault Ste. Marie, Marquette, Manistique and intermediate intermediate points; Duluth, West Superior, and Northwestern points.

This week's Cattle receipts will be light, run not above 90,000, the largest run of the year. The week ending Oct. 3, 1903, arrivals were 92,185. The week ending Sept. 19, 1891, Chicago received 93,524, being the record for one week. With such large receipts this week the market has been in a demoralized condition.

The Mexican Government has determined upon the adoption of the Gold standard, and the President will send to congress a special message favoring the change as in the interest of the progress of the nation. The coinage of a 50c dollar similar to the American dollar coined for use in the Philippines will be recommended.

The Secretary of the Kansas City Board of Trade has compiled figures showing that in July, August, September and October that market received 71,043,360 bu Wheat, against 10,000,000 bu last year. Last year, however, the Gulf took a good deal of Wheat from Oklahoma and Kansas, as against practically nothing this year.

The Colorado Fuel and Iron Company has made application to the New York Stock Exchange to list $6,200,000 additional capital stock. The stock which the company asks to be listed is the new common stock authorized by the reorganization protective committee in its financial plan. The plan provided for $45,000,000 bonds and $6,200,000 stock.

The International Harvester Company has paid a second dividend on its $120,000,000 stock to stockholders of record Nov. 10. The payment is $1,800,000, hence is at the rate of 1½ per cent. A year ago the first dividend was at 2 per cent. Officials of the company say the dividend is for no set time, but the date of payment suggests that it is for the whole year.

Action was brought by the prosecuting attorney of Whatcom County, Washington, Thursday, asking that all the fish trap locations controlled by the Pacific American Fisheries Company be found declared forfeited because of alleged violations of law in the organization of subsidiary companies holding them. The locations originally cost about half a million dollars.

The Chicago *Inter Ocean* says: "The dividend of 1½ per cent declared on the common stock of the National Carbon Company bears out the utmore current for some time as to the cause of the recent advance in the price of the common stock. While it is not stated that the dividend was for any particular period, the price of the stock and the statements of some of the principal local stockholders lead to the belief that the dividend is a semi-annual one, and that the stock is in reality on a 3 per cent basis. It is understood that what is the intention of the management to continue the common dividends steadily."

The shares of the American Hide and Leather Company, which have for some time been advancing, are strong, apparently, owing to reports that dividends will shortly be commenced on the preferred shares. Although the company was organized in 1896, it has never paid dividends, the earnings have been disappointing from the start, but for the fiscal year ended June 30 there was a surplus of nearly $300,000, which was in the previous year a deficit of $79,500 had been reported. It is said that the directors are in favor of commencing dividends on the preferred stock, of which about $13,000,000 is outstanding.

The $25,000,000 bonds sold by the Rock Island Railway Company to Speyer & Co. are part of the issue of $125,000,000 4 per cent thirty-year first and refunding bonds authorized by the company in April. The issue includes $10,274,000 of these bonds which were held in the company's treasury June 30, 1903, and which were issued for the following purposes: For construction and acquisition of lines prior to 1904, $15,000,000; for additions and improvements 1901, $2,500,000; for Choctaw series C, $1,464,000; for Choctaw equipment trusts, $250,000; total, $19,214,000. The remaining part of the issue, nearly $5,000,000, includes $2,500,000 of these bonds issuable for improvements in 1906 and prior to the summer of 1906.

The Colorado smelter has been closed down permanently, and will be abandoned by the Amalgamated Company. It was built twenty-seven years ago, and is old and antiquated, costing 25 per cent more for treatment than at Washoe. For three months since the shutting down of the Dagnon mine the Colorado smelter ran on custom ore, and only when the Dagnon ores were exhausted has smelter was kept running till after election. The Dagnon mine will not resume for several months, but will probably be worked by the Anaconda people. It is rumored that in time the Amalgamated intends to close the Butte and Boston smelter at Butte and the Boston and Montana at Great Falls, but the company denies that, and says the report is baseless and malicious.

The *Wall Street Journal* says: "In the financial district the 'Rock Island crowd' is fast outgrowing the suspicion that the street was to give it since its arrival here. The capture of Rock Island, the alleged raid on Northwestern, the purchase of Burlington, Cedar Rapids and Northern, Choctaw, and Frisco all joined in enemies and enmities. No one knew from what coffers the funds were drawn, or by what means. The Alton episode showed very clearly that through skillful finance these people not only kept their heads, but also kept their money. Other evidences are not lacking to the same effect. The financial showing of Rock Island and 'Frisco, with its wealth of investment assets, has helped to vindicate their financial methods, once only denounced in the street."

The Chicago *Drovers' Journal* says: "The Cattle trade is being badly upset and crippled this week by admit of a gain in prices over the low range current late last week. The general demand is considerably below the normal for this time of year, Eastern buyers complaining of a demoralized Beef trade, while the buyers for local concerns state that coolers have been well filled with Beef during the past two weeks and that consumptive outlet has decreased. Despite these adverse conditions, offerings of Cattle show a big increase over arrivals in the same period a week ago, and indications do not appear favorable for a good clearance of receipts this week, even with a further loss in values. The market has become badly choked, and relief is needed in the shape of greatly smaller offerings before a very pronounced rally in prices can again be established."

The total deposits in all the savings banks of the world, according to latest official information received by the Department of Commerce and Labor through its bureau of statistics, amounted to over $10,500,000,000, contributed by 82,640,000 depositors. Of this total the United States shows aggregate deposits of $4,500,000,000, the greatest of depositors. As the figures used in arriving at the grand totals cover about one-half of the population of the world, viz, over 770,000,000, it appears that the United States, with less than 5 per cent of the total population considered, contributes over 29 per cent of the total savings deposits recorded. Of the total number of depositors, or, rather, deposit accounts, in the United States at the somewhat less than 9 per cent, while the average deposit per account is more than four times and a half average per capita inhabitant more than three and one-half times the corresponding averages for the rest of the world.

The Chicago *Inter Ocean* says: "There has been considerable speculation in the common stock of the Corn Products Company recently, which has led to a marked advance in its price. There is official authority for saying that there has been much improvement in the business of late, and that the demand has increased sufficiently to justify advancing the selling price of glucose products. The company issues no statement of earnings other than the annual report, and this has failed to include the financial condition of the subsidiary companies, which carry the manufacturing operations. The fiscal year closes Feb 28, 1905. From present indications the report for the current year will show up better than the one for the preceding year, when the profits of the company were insufficient to pay the dividend on the preferred stock, the dividend requiring $1,916,651 per year, while the profits were given as $428,634 less than this amount. This fiscal year the company has earned $1,916,651, against 1,487,917 to the end of October last year. Last year, however, the Gulf took a good deal of Wheat from Oklahoma and Kansas, as against practically nothing this year.

The Colorado Fuel and Iron Company has made application to the New York Stock Exchange to list $6,200,000 additional capital stock. The stock which the company asks to be listed is the new common stock authorized by the reorganization protective committee in its financial plan. The plan provided for $45,000,000 bonds and $6,200,000 stock.

The International Harvester Company has paid a second dividend on its $120,000,000 stock to stockholders of record Nov. 10. The payment is $1,800,000, hence is at the rate of 1½ per cent. A year ago the first dividend was at 2 per cent. Officials of the company say the dividend is for no set time, but the date of payment suggests that it is for the whole year.

Action was brought by the prosecuting attorney of Whatcom County, Washington, Thursday, asking that all the fish trap locations controlled by the Pacific American Fisheries Company be found declared forfeited because of alleged violations of law in the organization of subsidiary companies holding them. The locations originally cost about half a million dollars.

The Chicago *Inter Ocean* says: "The dividend of 1½ per cent declared on the common stock of the National Carbon Company bears out the utmore current for some time as to the cause of the recent advance in the price of the common stock. While it is not stated that the dividend was for any particular period, the price of the stock and the statements of some of the principal local stockholders lead to the belief that the dividend is a semi-annual one, and that the stock is in reality on a 3 per cent basis. It is understood that what is the intention of the management to continue the common dividends steadily."

The shares of the American Hide and Leather Company, which have for some time been advancing, are strong, apparently, owing to reports that dividends will shortly be commenced on the preferred shares. Although the company was organized in 1896, it has never paid dividends, the earnings have been disappointing from the start, but for the fiscal year ended June 30 there was a surplus of nearly $300,000, whereas in the previous year a deficit of $79,500 had been reported. It is said that the directors are in favor of commencing dividends on the preferred stock, of which about $13,000,000 is outstanding.

The $25,000,000 bonds sold by the Rock Island Railway Company to Speyer & Co. are part of the issue of $125,000,000 4 per cent thirty-year first and refunding bonds authorized by the company in April. The issue includes $10,274,000 of these bonds which were held in the company's treasury June 30, 1903, and which were issued for the following purposes: For construction and acquisition of lines prior to 1904, $15,000,000; for additions and improvements 1901, $2,500,000; for Choctaw series C, $1,464,000; for Choctaw equipment trusts, $250,000; total, $19,214,000. The remaining part of the issue, nearly $5,000,000, includes $2,500,000 of these bonds issuable for improvements in 1906 and prior to the summer of 1906.

The Colorado smelter has been closed down permanently, and will be abandoned by the Amalgamated Company. It was built twenty-seven years ago, and is old and antiquated, costing 25 per cent more for treatment than at Washoe. For three months since the shutting down of the Dagnon mine the Colorado smelter ran on custom ore, and only when the Dagnon ores were exhausted has smelter was kept running till after election. The Dagnon mine will not resume for several months, but will probably be worked by the Anaconda people. It is rumored that in time the Amalgamated intends to close the Butte and Boston smelter at Butte and the Boston and Montana at Great Falls, but the company denies that, and says the report is baseless and malicious.

The *Wall Street Journal* says: "In the financial district the 'Rock Island crowd' is fast outgrowing the suspicion that the street was to give it since its arrival here. The capture of Rock Island, the alleged raid on Northwestern, the purchase of Burlington, Cedar Rapids and Northern, Choctaw, and Frisco all joined in enemies and enmities. No one knew from what coffers the funds were drawn, or by what means. The Alton episode showed very clearly that through skillful finance these people not only kept their heads, but also kept their money. Other evidences are not lacking to the same effect. The financial showing of Rock Island and 'Frisco, with its wealth of investment assets, has helped to vindicate their financial methods, once only denounced in the street."

THE AGGREGATE YIELD OF CORN.

On the reverse page will be found the aggregate yield of Corn by States. Some errors occurred in telegraphing the yields—notably in South Carolina and Mississippi—and the aggregate given nearly conforms with the report of the Department of Agriculture

ITEMS OF GENERAL INTEREST.

New York Exchange 20c premium.

Documentary Sterling steady at 482⅞

Chicago Bank Clearings to day $34,196,178.

Reported that no Wheat and 400,000 bu Corn were taken at the seaboard to-day for export.

The output of the St. Louis Flour mills for the past week was 78,700 brls, against 75,000 brls for the previous week.

Estimated receipts for to-morrow: Wheat, 79 cars; Corn. 748 cars: Oats, 171 cars; Rye, 6 cars; Barley, 75 cars; Hogs, 26.000

The quantity of Flour and Wheat on passage to Europe during the past week increased 1,024,000 bu, and the quantity of Corn increased 335,000 bu.

The stock of Flax Seed at Duluth on Nov. 19 was 7,006,792 bu, compared with 6,320,290 bu the previous week—an increase of 686,502 bu. Stock last year, 5 239,930 bu.

Exports of Flax Seed from India the past week were 248,000 bu, compared with 312,000 bu for the week previous, and 381,000 bu for the corresponding week in 1903.

The average weight of the Hogs received at Chicago last week was 229 lbs, against 220 lbs the previous week, 243 lbs the corresponding week in 1903, and 222 lbs in 1902.

Stocks of Wheat in public warehouses in Liverpool reported at 4.816 000 bu, against 4,784,000 bu one week ago and 3,016,000 bu one year ago. Stocks of Corn reported at 934,000 bu, against 1,020,000 bu one week ago and 951,000 bu last year.

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were increases of 2,097,000 bu Wheat and 154,000 bu Rye, and decreases of 783,000 bu Corn, 154,000 bu Oats and 65,000 bu Barley.

Average price of good Beef Cattle at Chicago the past week was $4 90, against $5 10 the previous week, $4 60 a year ago, and $5 00 two years ago. The average was the lowest since May, and 80c lower than the high week of the year, which was last June

The death of GEORGE A. SEAVERNS, ESQ., one of the pioneer Grain merchants of Chicago, occurred yesterday He was a member of the Chicago Board of Trade for about 45 years, and identified with the elevator interest. He retired from business about three years ago.

The New York Cotton market displayed a stubborn tone Prices were higher on covering by "shorts" rather than purchases for the "long" account. January and July futures were steady, while the other months were higher. Closing prices were 3@5 points higher.

Average cost price of Hogs at Chicago. Saturday, was $4 71, against $4 73 Friday, $4 80 Thursday, $4 90 a week ago, $5 10 a month ago, and $4 50 a year ago. Average price for the past week, $4 76, the lowest since the week ending June 4. Average price the previous week, $4 97; a year ago, $4 81, and two years ago, $6 65.

On the Chicago Stock Exchange there was a broad trade, but the volume of trading was not so large as usual. Prices ruled firm and nearly all higher. Elevated railroad issues were wanted and higher prices were paid for odd lots of the various surface line Traction shares. Biscuit and American Can ruled steady.

The *Orange Judd Farmer* makes the Corn crop of 1904 2,573,863,000 bu, against 2,346,312,000 bu in 1903, and 2,556,311,000 bu in 1902. The quality of the crop is unusually good, and the pleasant Indian summer weather experienced since Oct. 1, has dried it out faster than usual, so that the crop will be ready to move earlier than normal.

The New York Stock market closed steady and for the most part at small advances There was fair trade in the standard Railroad issues, but it was noticed that the so-called low-priced Stocks were in great favor. The Steel shares were strong, Sugar and Copper steady, Leather and the car equipment issues were steady, and the Traction Stocks firm.

FOREIGN EXPORTS.

The following were the foreign exports of the articles named from the Atlantic seaboard ports for the week ending on the dates named

REVIEW OF TO-DAY'S MARKETS.

FLOUR—No improvement in the demand, and feeling weak and tendency downward.

WINTER WHEAT—Not much doing and the market was quiet and slow Millers bought sparingly and demand from other sources indifferent. Prices were quotably about the same as Saturday early, but the closing was about 1c lower. No 2 Red in store quotable at $1 10¼@1 13¼ and fresh arrivals free on board nominally $1 14@1 15 No. 3 Red fresh arrivals free on board quotably $1 05@1 10, with a sale at $1 08. No 4 Red sold at $1 04. No 2 Hard fresh arrivals free on board ranged at $1 09@1 12 No. 3 Hard nominally $1 03@1 08, with sales at the river at $1 01¾@1 03 No 4 Hard at the river sold at $1 01¾ No 4 White sold at $1 02

SPRING WHEAT—Was quiet with trading limited to a few cars of fresh arrivals Feeling easy, and prices 1c lower No 1 Northern fresh receipts free on board quotable at $1 15@1 17 No. 2 Northern fresh arrivals quotable at $1 08@1 12. No 3 Spring quotable at $1 00@1 08, with a sale at $1 07 No 4 Spring sold at 96c@$1 03, and quotable down to 80@85c for very poor

REGULAR WHEAT—Sharply lower, final figures showing net losses of ⅝@1⅛c for the day. Besides the liquidation by "longs" there was increased selling of "short" lines in which the Northwest seemed to lead, followed by the East and the Southwest. The lack of cash demand in all positions, coupled with the piling up of Wheat in many of the markets were the leading "bear" helps of the day. There was an enormous business, with every big concern in the trade on one side or the other The buying was pronounced Some of it was put down to Wall Street, some of it to Minneapolis and Duluth, and some of it to the Southwest. One thing was certain and that was the fact that one of the large elevator concerns bought freely, and there was a profit in every bushel purchased It was a grand rush of "shorts" to get in early—"shorts" with profits On the early advance there was the sharpest kind of selling, and as this was indulged in by many of the big people it can readily be seen that there was considerable excitement and that the trade was pretty well divided The selling on the hard spots was large—sufficient to drive the buyers out of their position and to send prices down from the early level. The continued drouth in the Southwest has caused the Kansas State Agricultural Association to send out a report which says that the dry weather is damaging Wheat and that a large acreage will have to be plowed up The report failed to give details The cables received from Argentina were somewhat conflicting, one reported frost, while another reported rains and no damage expected. Cables were mainly lower—Buda Pesth ⅛c Paris as much as ½c, Berlin and Antwerp unchanged London ¼d lower and Liverpool ⅛@½d lower. Liverpool stocks are 4,816,000 bu, compared with 4 784,000 bu the week before and 3,016 000 bu a year ago, the increase during the week being 32,000 bu. Minneapolis stocks increased 250,000 bu for two days Wheat on passage increased 1,024,000 bu, making the total 39,024,000 bu, compared with 38 000 000 bu a week and 26 888,000 bu a year ago. There was a decrease of 2 660 000 bu in the amount on passage a year ago. The visible supply increased 2,097,000 bu the past week, and is now 33,399,000 bu, compared with 31 302,000 bu the week before and 29,472,000 bu a year ago. World's shipments were 11,508 000 bu, against 12,208,000 bu a week ago and 10,512,000 bu a year ago. Primary and Northwestern receipts were somewhat smaller than a year ago Minneapolis reported a better demand there for cash Wheat of the lower grades, while all else was slow Local stocks of Wheat decreased 232 000 bu during the week, and are now 1,673,000 bu, compared with 2,045,000 bu a year ago. Receipts at Duluth 211 cars at Minneapolis 998 cars, total of 1,207 cars, against 805 cars Saturday, 1,009 cars week ago, and 1,294 cars last year. Local receipts included 63 cars Winter, 25 cars Spring and 1 car mixed, a total of 79 cars, against 108 cars last year. Included in above were 2 cars contract grade. There were also 11 cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 189 cars. The withdrawals were 38,500 bu Receipts at Western points were 1,534,957 bu, against 1,603,258 bu last year. At Eastern points 41,400 bu, against 299 597 last year. Shipments from Western points 683,310 bu, against 608,363 last year and from Eastern points 23,941 bu, against 233,708 bu last year. Shipments of Flour were 18.059 brls. Exports of Wheat in Flour were equal to 105,206 bu.

CORN—There was a strong undertone in the face of the sharp losses in Wheat. The close was ⅛@⅜c higher for the day. The sales of cash at Chicago to go to the United Kingdom and Continent were around 200,000 bu. The seaboard reported cash business as active, at 50 boat loads. Those operators favoring the bull side of this market were more or less encouraged this morning by the improved demand for cash Corn and the taking of a couple of fair sized lots by the United Kingdom and Continent Local receipts were 748 cars, with 614 cars looked for to-morrow Primary receipts were 933,000 bu, compared with 304,000 bu a year ago. There were 160 cars and 50,000 bu Corn switched out of private and into public houses, showing that the "dryers" are at work turning out Corn. The local stock of Corn increased 10 000 bu during the week, the total in public houses being 265 000 bu, compared with 255,000 bu the previous week and 911,000 bu a year ago The world's shipments were 3,031,000 bu compared with 4,204,000 the previous week, and 4,545,000 bu a year ago The visible supply showed a decrease of 783 000 bu for the week Total now in the visible is 1,493 000 bu, against 2,276,000 bu the week before, and 6 116,000 bu a year ago. RYE Was dull and ½c lower Demand limited both for cash and futures There were seven cars received. No withdrawals from store here and no exports from New York. The visible supply increased 154,000 bu and local stock increased 3,000 bu. No. 2 in store nominally 78c, and a car fresh receipts free on board sold early at 83c, and later offered at 82c without buyers.

Future Deliveries of No. 2 Rye—Quiet November nominally 78c. December 78c asked and May 80c asked

BARLEY—There was some increase in the offerings of malting grades. The market was able to easily accommodate all coming on sale. A steady to firm feeling prevailed. In some instances it was said a slight improvement had been gained, but generally speaking no change was quoted Very little feed Barley was offered; it was salable at former prices. Screenings could be disposed of satisfactorily if choice and good color, but dark dirty, seedy were weak and hard to sell There were posted 49 cars in to-day. Visible supply decreased 65,000 bu For some time in the past the visible has been larger than a year ago, but it has changed around and to-day's report gave it as smaller than last year. Small sales of Screenings made at 25@37½c, and market quotable over a range of 25@38c for poor, dirty to very choice. Barley low grade feed, quiet, scarce and salable at 38@38½c local. Malting, low grade small berry, or heavy but dirty quotable at 39@41c; clean, fair to good, at 42@45c, and large berry, heavy, quotable at 46@48c with choice to fancy 49@51c

SEEDS—There was a fair trade in Timothy, but market without business in other lines The Timothy market seemed strong Buckwheat was a shade firmer

Timothy—There were evidences of a strong market March delivery brought the recent sale price $2 82½ That remained bid and sales of 10 cars exhausted the offerings at that figure. Other deliveries were nominal with November $2 67½ and January nominally $2 72½ The cash sales were around previous outside prices, which reflected both a firm market and the presence of a good quality in the cash supply. Main sales were at $2 30@2 60; small lots of poor at $2 00@2 20. Country lots were quotable at $1 75@2 60 for low grade to fancy Inferior lower; fair to good, $2 35@2 45; and rough dirty or hulled, $2 20@2 30.

Flax—No transactions were reported The market was without offerings Nominal prices were the same as quoted at the close of last week There being no Flax on sale there was nothing of interest in the market. No local movement to speak of, only 2 cars or 1,800 bu received, and none taken out. Minneapolis got 129 cars and Duluth 217 cars; good receipts in the Northwest No 1 Northwestern was quotably $1 18½, and No. 1 was nominally $1 11 Rejected, depending on quality, quotable at $1 08@1 15. November and December both remain at $1 11, and May quoted at $1 18

Clover—No Clover appeared on sale aside from one or two lots to arrive The market was called nominally steady and unchanged Contract grade, spot or November delivery, remains nominal at $12 25. Country lots, common to choice, $7 00@11 00; very poor lower, and fancy above. Fair to good, $9 50@11 00

Other Seeds—Some Millet offered, but no sales reported Both Hungarian and Millets quotably steady and firm as follows Hungarian at $1 05@1 15 for common to choice Millet, common, was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 75c@$1 00 Buckwheat firmer; good quality at about $1 30@1 35

HOG PRODUCTS—A fair speculative trade was transacted in Hog Products, and the feeling was comparatively easy. Outside orders were fair, and local trading was moderately active Offerings were not very large, and the demand was fair in a general way. Hogs were in good supply and prices were lower, but this feature had little effect Grain markets were steadier early, and this was a factor in checking the decline in prices Trading chiefly in January and May deliveries, and prices averaged slightly lower, but closed rather steady. Receipts of Hogs at the leading Western packing points were estimated at 85,000, compared with 87,000 one year ago. Foreign markets were rather steady, and Backs were quoted 6d higher Domestic markets were quiet Receipts of Products were quite liberal—of Lard and Meats about 32 cars Shipments were small—of Lard and Meats about 79 cars. Trade on shipping account was moderate Demand was on a limited scale and offerings were only fair Prices were without material change Exports for the week, compared with the corresponding week in 1903, exhibited decreases of 573,000 lbs Lard and 5,123 boxes Meats, and an increase of 522 brls Pork

Mess Pork—Trade was fair in Mess Pork, and the undertone to the market was not very strong Offerings were not very large, and the demand was only fair Prices on the whole range ruled 7½@10c lower, and the market closed rather steady Trade limited mainly to January and May contracts Shipping demand was limited, and offerings were moderate Cash lots were quotable at $11 05@11 10

NOVEMBER—Inactive and nominal

DECEMBER—Quiet, with small sales at $11 10

JANUARY—In moderate request and offerings were only fair. Sales were made at $12 37½@12 45. Opened at $12 45, sold to $12 42½, to $12 45, to $12 37½, to $12 40, to $12 37½, to $12 40 and closed steady

MAY—Offerings were not very large, and the demand was fair. Sales were made at $12 50@12 55. Opened at $12 52½, sold to $12 55, to $12 50, to $12 55, to $12 52½, to $12 55, to $12 50, to $12 52½, and closed steady

Lard—Not much interest was manifested in the Lard market, and the feeling was rather easy. Offerings were not very large, while the demand was moderate Foreign advices were unchanged Prices ruled 2½@5c lower, and the market closed steady around inside figures The demand on shipping account was limited, with light offerings Cash lots were quiet at about November figures, closing at $6 92½@6 95 Loose lots in light request, with fair offerings Prices were quotable at 12½c discount on January figures Leaf Lard was in moderate demand, with light offerings Prices quotably steady at $6 87½. Neutral in light demand, with moderate offerings Prices quotably steady at $8 25@8 37½ for No 1, and $7 62½@7 75 for No. 2

NOVEMBER Quiet with small sales at $6 92½

DECEMBER Sold sparingly at $6 90.

JANUARY Called for moderately, and offerings were not very large. Sales were made at $6 95@6 97½ Opened at $6 97½, sold to $6 95, and closed steady

MAY—Offerings were moderate and the demand was light. Sales were made at $7 10@7 12½ Opened at $7 12½, sold to $7 10@7 12½, to $7 12½, and closed steady

Short Rib Sides—Market for Short Rib Sides was fairly active, and the feeling was rather steady Offerings were fair, and the demand was moderately active, partially credited to "shorts" Prices averaged about 2½@5c lower, and the market closed rather steady around inside figures Trading almost exclusively in January and May contracts Shipping demand was moderate and offerings were not very large Cash lots were quotable at $6 62½@6 67½, according to weight

NOVEMBER—Inactive and prices nominal

JANUARY—In rather good demand and offerings were fair Sales were made at $6 42½@6 47½ Opened at $6 47½, and sold at $6 45, to $6 47½, to $6 42½, to $6 42½@6 45, and closed steady

MAY—Offerings were moderate, and the demand was somewhat limited Sales were made at $6 57½@6 62½. Opened at $6 60, and sold at $6 62½, to $6 57½, to $6 57½@6 60, and closed steady.

Other Meats—Trade only moderate and the feeling was steady Domestic demand was only fair, and orders from abroad were limited Offerings of all kinds not very large Green Meats in fair demand and prices comparatively steady Pickled Meats in limited demand with fair offerings Prices favored buyers Dry Salted Meats in fair request, with moderate offerings, and prices ruled steady. Smoked Meats called for moderately, and prices unchanged Closing prices were as follows

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Nov 8.]

France—The drouth has been relieved to a slight extent only, and in the drouthy districts the young crops have shrivelled up for want of moisture; local damage from vermin is also reported. In most parts of the country the germination of the early sown fields was satisfactory, but later seedings have been slow to make a start, owing to the recent dry weather. Provincial markets have been dull owing to the holidays; prices unchanged.

Spain—Some further rain is reported, but more is wanted for the new crops. There are rumors that the import duty on Wheat will be reduced early next year.

Belgium and Holland—Dry weather is reported, but there are no complaints.

Germany—The weather is mild and the new crops are developing satisfactorily. Supplies of native Wheat are less plentiful, growers having been lately too busy with field work to do much threshing.

Russia—Latest reports again mention beneficial rains in the South and West, but the temperature has been much lower, and fears are even expressed that the sharp frost in the Southeast may have caused some damage to the new winter seedings. Exports continue on a large scale, and will doubtless so continue during the next two or three weeks, while the Azoff remains open, after which we expect to see a fair decline in the quantities.

Roumania—Our to-day's report from Braila says that fine autumn weather continues and the area under Wheat is consequently increasing. Prospects so far are excellent, and some fields are so forward that they will have to be mown or fed off by Cattle. Frosts have already commenced, but it is hoped there will be no severe weather until the crops are protected by snow cover. Arrivals at the ports are moderate, but naturally there are only a few barges loading up-river at this time of year.

Austria-Hungary—Seeding is now about finished and the new crops have started well. In Buda Pesth stocks are heavy and the trade dull. Owing at the poor sale for Flour, millers have had to reduce output.

Australia—Our cable of last Saturday reported that weather conditions continued favorable, and chartering continues at a fair rate. Australia is now on the eve of harvest and a spell of favorable weather will be of immense benefit.

Argentina—Our Buenos Ayres agent reported last Friday that he had just made a trip through Entre Rios and Santa Fe, the two earliest provinces, and found the crops looking splendid; he considered the present weather favorable for the growing crops. A Reuter's despatch, dated Monday, also reports very favorably of the crops, and says that the yield will be 35 per cent better than last, which no doubt is a calculation based on the increased acreage, and the word "yield" we think is employed for "total out-turn." Private cables received in Liverpool yesterday reported that further heavy rains have fallen, and although to-day's advices are better, yet, on the whole, the country is experiencing a period of unsettled weather. Shipments of Wheat are well maintained, but Corn is decreasing.

India—We learn that the new seedings are still progressing favorably. Shipments are very liberal.

ACREAGE AND PRODUCTION OF CORN.

The following table exhibits the estimated acreage and production of Corn in the United States for 1904, according to the November report of the Department of Agriculture of acreage and yield, compared with reported production in 1903:

1896	2,283,875,165	1888	1,987,790,000

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 22 to 38; cloudy. Northwest—Temperatures, 34 to 50; cloudy. West—Temperatures, 28 to 40; generally fair. Southwest—Temperatures, 32 to 56; generally fair. Ohio Valley—Temperatures, 36 to 60; partly cloudy.

Indications are for partly cloudy to cloudy weather over Eastern portion of district and showers northern lake region. Also possible showers in Ohio Valley. Weather west of Mississippi River generally fair. Moderate temperatures indicated.

ITEMS OF GENERAL INTEREST.

The warehouse of Burdett-Rowntree Manufacturing Company, Chicago, was damaged by fire, Friday, to the extent of $40,000.

Secretary Shaw has announced a call upon national banks holding Government deposits to the amount of 25 per cent of their holdings, 10 per cent to be paid on or before Jan. 15 next and 15 per cent on or before March 15 next. This, the Secretary estimates, will bring into the treasury about $25,000,000. This will make a working balance of approximately $50,000,000.

Articles of incorporation of the Colorado, Wyoming and Idaho Railroad were filed at the office of the Secretary of State at Denver, Colo., Friday. The company is incorporated for $10,000,000, and proposes to build a railroad from Denver to Boise, Idaho, a distance of about 500 miles. The enterprise is backed by Chicago and New England capitalists, and is said to have a large per cent of its capital stock already subscribed. Much preliminary work has already been done, and the promoters say that the road is on a sound financial basis and will be rushed to completion.

Dornbusch's Buda Pesth correspondent, under date of Nov. 5, says: "The situation in the Flour market has not improved. Business becomes more and more difficult, and the turn-over this week amounted to barely a quarter of the output. Buda Pesth millers recently agreed to reduce the working time of their mills 36 to 48 hours per week according to their capacity. This to continue until Aug. 1, 1905, or so long as the stocks of Flour in Buda Pesth remained above 25,000 tons; as soon as they fall to below 25,000 tons, then the short time per week will be reduced to 24 hours. The 48-hour short time will start to-day: this will, of course, raise the cost of production, but will effect its object in preventing abnormal increase in stocks and eventually raising the value of fine Flour. Millers find no difficulty in disposing of their fine Bran; coarse Bran is still very scarce."

The *Mark Lane Express* of Nov. 7 says: "The abnormal features of last year included an October twice as wet as September, a warm and close October after a cold and bleak August, a peculiarly sunless April colder than the March which preceded it, and, as we all remember, a terribly wet summer. As contrasted with these evils 1904 has been a beneficent year so far as it has gone, and with all farm work well forward the farmer can contemplate the remaining eight weeks with equanimity. The early sown Wheat is already up and looking well, and meanwhile sowings are proceeding. With 1905 threatening to be a year of political incertitude, the increase in the home acreage is not to be regarded as otherwise than as a good thing. America, however, is likely to have an increased Wheat acreage also, and high prices at this time next year are by no means to be guaranteed."

The editor of the Duluth *Commercial Record* says: "I estimated the Wheat crop of the Northwest at 156,000,000 bu, which were the highest made at that time. I didn't dare to go any higher then, but I think now they were too low and that the *Northwestern Miller's* estimate of 172,000,000 bu will prove nearer right. There will be no let-up of the movement of Wheat into Duluth all winter. All the elevators on the Great Northern from Larimore west, on the Northern Pacific from Casselton west, and on the Soo line from Valley City north in North Dakota, not only on the main lines, but on all their branches, are full of Wheat. There are five farmers' elevators in that country where there was one last year, and none of those houses has done any hedging. The Wheat has been all for sale, the day it arrived, at terminal markets. I have investigated the question carefully, and am sure of these facts. The movement simply cannot let up."

Detailed official figures of the reports of the State banks in Chicago made to the auditor as of Nov. 11 show that the great expansion in deposits was largely in individual deposits. They increased over the figures of Sept. 7 by $16,526,476, or 13¼ per cent. The National banks in the same period gained about 10½ per cent in individual deposits. Savings deposits did not quite hold their usual rate of gain. Bank deposits with the State banks gained $143,767, or less than 1 per cent, while the National banks lost over 6½ per cent in the same item. Following are the most important items in the reports of the State banks, with comparisons:

ITEMS OF GENERAL INTEREST.

New York Exchange 20c premium.

Documentary Sterling steady at 482⅞.

Chicago Bank Clearings to-day, $31,219,422.

Continental Wheat stocks on the reverse page.

Ten packers purchased 30,500 Hogs to-day; shippers, 1,000; left over, 6,000. Market closed weak.

Average cost price of Hogs at Chicago, Monday, was $4 63, against $4 71 Saturday, $4 82 a week ago, and $4 32 a year ago.

Estimated receipts for to-morrow: Wheat, 46 cars; Corn, 238 cars; Oats, 37 cars; Rye, 4 cars; Barley, 21 cars; Hogs, 43,000.

The South Side Elevated Railroad Company, Chicago, has declared the usual quarterly dividend of 1 per cent, payable Dec. 31 to stockholders of record Dec. 21.

The receipts of Wheat at Liverpool during the past three days were 264,000 bu, of which 16,000 bu were American. Receipts of Corn, 51,000 bu, of which 17,000 bu were American.

The New York Cotton market was weak to-day and the feature was a mixture of selling by "longs" and for the "short" account. December, January and May were the futures under the most pressure. Others ruled comparatively steady. Closing prices showed losses of 24@29 points.

The Local Security market was inclined to follow the lead of Eastern markets and prices were uneven. National Biscuit common and Pneumatic Tool experienced the most reaction among the active issues, and others, including the Elevated Railroads and surface line Traction company shares, were firm.

The New York Stock market closed with firmer tone after a break of 1 to 2 points following the noon hour. Room traders and commission houses were free sellers of Stocks, but strong interests appeared to be good buyers during the last hour. A feature of the day's dealings was the strength manifested in the market for so-called low-priced Rail and Industrial shares.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.	1903 bu.
Wheat east of Rockies	Inc. 2,653,000	Inc. 3,231,000
Europe and afloat	Inc. 800,000	Inc. 2,400,000
Total	Inc. 3,453,000	Inc. 5,631,000
Corn	Dec. 723,000	Dec. 1,955,000
Oats	Dec. 871,000	Dec. 717,000

Broomhall's weekly summary of foreign crops: "Austria-Hungary — Prevailing conditions are most favorable. France—Recent rains have given partial relief, but complaints of drouth come from several districts. Supplies of native Wheat are somewhat larger. Italy and Spain—More rain is wanted, otherwise outlook is satisfactory. Russia and Roumania—Winter crops are starting, with general condition favorable. Smaller shipments are expected, but stocks at Black Sea ports are fair."

The California Weather Bureau report says: "In the central and northern sections plowing and seeding are progressing rapidly and a large acreage of Grain is being planted, but in the south the soil is too dry and very little work is being done. Early sown Grain in the central and northern sections looks remarkably well and is making rapid growth, with indications of a large crop. Corn picking and Potato digging are nearly completed. Pasturage is plentiful and of excellent quality, except in the south, and stock are in good condition. The long period of dry weather in Southern California is seriously affecting all vegetation and necessitates unusually liberal irrigation."

A local commission house had the following mail advices this morning: "Ruskin, Neb.—Corn averages 25 bu of good quality. For first time on record, Hessian fly is reported in Wheat. Kirkwood, Neb.—Corn is being cribbed. Good quality and 30 bu per acre. Ypsilanti, Mich.—Wheat looks well. Corn all gathered, with better yield than expected. Carthage, Ill.—Corn dried out in good shape. Yields very uneven, some as high as 100 bu. Effingham, Ill.—Corn husking well under way, with good yield. Covelo, Cal.—Rains came early and Wheat seeding progressing nicely. Milford, Ia.—Corn not husking out as well as expected and too soft to crib. Beatrice, Neb.—The ground moist and Wheat in good shape. Some reports of Hessian fly, but not believed to amount to much. Chillicothe, Mo.—No rain for six weeks, wells and ponds dry. Corn about 25 bu and is cribbed. Arcola, Ill.—Good season for Corn husking. Crop averaged 40 bu of good quality. Warrensburg, Mo.—Ground too dry to plow. Wheat looks well, but needs rain. Acreage less than last year. Connersville, Ind.—Corn all in crib; considerable soft. Wheat looks well, but acreage small."

AUSTRALIAN WHEAT CROP PROSPECTS.

[Special Correspondent of Dornbusch.]

SYDNEY, Oct. 4.—Although climatic conditions throughout the Commonwealth have been more satisfactory during the past week, further rainfall is greatly needed in some portions of this State. In the southern and western districts and throughout Riverina the rainfall has been very light, but otherwise the Wheat crops have been strengthened and refreshed and in many places saved. In Victoria and South Australia good rains have fallen, prospects in the last named State being most encouraging. The Wheat market remains firm, and, contrary to expectations, full price levels have been maintained notwithstanding the improved prospect. Wheat is steady at 3s 7d per bu. Shippers are offering a little less without getting supplies for export. The Commonwealth Wheat fleet now totals twenty-five vessels.

Later—The local Wheat market closes very strong. Shippers have advanced their limits to 3s 8d, while millers are paying up to 3s 9d to 3s 9½d for prime milling Grain. Monday being a public holiday the improved condition of the London market was not known till this afternoon. Farmers are sitting on their balances, so that very little Wheat is offering, hence the advance.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market is ruling quiet, buyers holding off awaiting more settled conditions in Wheat.

WINTER WHEAT—Was steady with a light demand from millers, and sales of 30,000 bu of No. 2 Hard and mixed lots were reported. No. 2 Red in store was quotable at $1 11⅞@1 13 and fresh arrivals free on board at $1 13½@1 14½. No. 3 Red fresh receipts free on board sold at $1 08@1 12 and No. 4 Red at 96c. No. 2 Hard fresh arrivals free on board sold in store 2c under December, and fresh arrivals free on board quotable at $1 09@1 12. No. 3 Hard fresh arrivals free on board quotable at $1 02@1 08.

SPRING WHEAT—Was steady, with trading limited to a few cars of fresh arrivals. No. 1 Northern fresh receipts free on board quotable at $1 15@1 18. No. 2 Northern fresh arrivals quotable at $1 08@1 13. No. 3 Spring sold at $1 00@1 08. No. 4 Spring sold at 95c@$1 00, and quotable down to 60@65c for very poor.

REGULAR WHEAT—A good trade and quite active market early in the day, with less doing later. The feeling developed was stronger and higher prices ruled, the close showing December up 1⅝c, while May gained 1@1⅛c. The chief "bull" incentive was the cables, which came higher in face of the severe decline on this side yesterday. Reports of heavy rains in Argentina and dry weather talk through Winter Wheat belt in the Southwest were also strengthening factors. There was active covering by "shorts" and fair investment buying. Liverpool quoted spot steady to ½d higher and futured ⅛@½d higher. London came ¼d lower. Paris was unchanged to ¼c lower. Antwerp was steady. Berlin was up ½c and Buda Pesth ⅝c lower. Rosario cabled there was too much rain in Northern and Central parts of Santa Fe and Cordova and causing some amount of damage, and that there was reason to fear a crop of middling quality. Dry weather now much wanted. Harvest will commence at the end of this week. *Broomhall's* India agent reported a full acreage of Wheat sown and the present conditions most favorable. Cold weather was reported in New South Wales. Receipts in the Northwest 125 cars more than last year, and primary movement 183,000 bu less than in 1903. Winnipeg had 611 cars, against 297 cars last year. Kansas City and St. Louis received 174,000 bu, against 199,000 bu last year. Minneapolis wired stocks had increased 335,000 bu so far this week. Stocks here in all positions were reported at 3,903,000 bu, a decrease of 318,000 bu. Stocks one year ago 5,817,000 bu. Contract stocks decreased 81,472 bu, and now include 1,402,698 bu, against 1,619,605 bu one year ago. *Bradstreet's* available supply increased 3,453,000 bu, against 5,631,000 bu increase one year ago, and this showing tended to impart a little more strength to the situation. Duluth wired there were orders there for Manitoba Springs from English millers who have not been in the market for months. Milwaukee reported all Spring Wheat Flours advanced 10c. There was practically no precipitation on the map and continued clear conditions were generally predicted. Low grade Wheat at Kansas City was reported much stronger. Kansas City estimates for to-morrow 57 cars. Exports were quite small and three boat loads accepted at the seaboard. Receipts at Duluth 420 cars, at Minneapolis 689 cars, total of 1,109 cars, against 1,207 cars yesterday, 674 cars week ago, and 951 cars last year. Local receipts included 107 cars Winter, 11 cars Spring and no car mixed, a total of 118 cars, against 134 cars last year. Included in above were no cars contract grade. There were also 17 cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 46 cars. The withdrawals were 8,350 bu. Receipts at Western points were 1,332,193 bu, against 1,515,298 bu last year. At Eastern points 52,376 bu, against 256,508 last year. Shipments from Western points 780,061 bu, against 1,109,366 last year and from Eastern points no bu, against 257,682 bu last year. Shipments of Flour were 2,805 brls. Exports of Wheat in Flour were equal to 12,624 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

NOVEMBER—Entirely nominal and closed about $1 08⅞.

DECEMBER—Sold at $1 08⅜@1 09½. Opened with sales at $1 08½ to $1 09, sold to $1 09⅛, to $1 08¾, to $1 09, to $1 08⅝, to $1 09½, to $1 08⅞, to $1 09⅛, and closed at $1 09⅛ asked.

MAY—Sold at $1 09⅛@1 10. Opened with sales at $1 09¼ to $1 09¾; sold to $1 09¼@1 09⅜, to $1 09½, to $1 09⅛, to $1 09⅞, to $1 09½, to $1 10, to $1 09¼, to $1 09⅝, to $1 09½, and closed at $1 09½@1 09⅝ bid.

JULY—Sold at 97⅞@98¾c. Opened at 98¼c to 98¾c; sold at 98½c, to 98⅝c, to 97⅞c, to 98½c, to 98¼c, to 98⅝c, to 98¼c, to 98⅝c, to 98½c, and closed at 98½c bid.

CORN—Just a fair trade with the tone prevalent stronger, the close showing December up ⅝c, and the May also gained ⅝c. The commission house demand was more general, while offerings were more moderate. "Shorts" covered freely on the upturn. The better cables, smaller estimates for to-morrow, and better tone to the cash market were indirect "bull" helps, as also the stronger tone of Wheat. Liverpool quoted spot unchanged and futures ¼d higher. Receipts were 687 cars, and 238 cars estimated for to-morrow. Southwestern markets were all stronger. *Bradstreet's* available supply decreased 723,000 bu, compared with 1,955,000 bu decrease the corresponding week in 1903. Stocks here in all positions were reported at 750,000 bu, an increase for the week of 174,000 bu. Stocks one year ago were reported at 3,255,000 bu. Contract stocks are now 239,341 bu, compared with 241,639 bu last week and 757,554 bu one year ago. Western receipts were 953,000 bu, against 574,000 bu one year ago. Shipments were 258,000 bu and 227,000 bu respectively. Local arrivals were 680,000 bu and shipments 127,000 bu. Withdrawals from store were only 25,000 bu, and exports limited to 437 bu. Local shipping demand moderate. Seaboard reported 62 boat loads accepted. Car lots were in smaller supply and better demand. Feeling firmer and prices 1@1½c higher. No. 2 sold in store at 1½c over December and closed to go to in at 53c. No. 2 Yellow closed about 57½c. No. 3 new sold at 46c, and closed at 52½c for old. No. 3 Yellow new sold at 47c and old closed at 57c. No. 3 White sold at 46c. No. 4 sold at 40@44½c, inside for poor. No Grade sold at 38@40¼c.

Corn by sample—Offerings were more moderate and demand better. Feeling firmer and prices unchanged to 2c higher. Sales on track and free on board: No Grade sold at 38@43c. No 4 at 41@57c. No 3 at 46@51½c. No. 3 Yellow at 47½@57½c. No. 3 White at 46@46½c. No. 2 White at 55c. Billed through: No Grade at 38½@42c. No. 4 at 41@55½c. No. 3 at 45@53¼c. No. 3 Yellow at 46½@47c. No. 3 White at 45@46c.

Future Deliveries of No. 2 Corn—Fairly active and stronger and closed ⅝c higher.

NOVEMBER—Inactive; nominal close 50c.

DECEMBER—Sold at 48⅝@48¾c and 49¼c. Opened at 48¾c to 49¼c, and sold at 49⅛c, to 48⅝@48¾c, to 49c, to 48¾c, to 49⅛c, to 48¾c, to 49c, and closed at 49c asked.

JANUARY—Sold at 44½@44⅞c. Opened at 44¾c and sold at 44⅞c, to 44½c, and closed at 44½c.

MAY—Sold at 45½@46c. Opened at 45½c to 45⅝@45¾c and sold at 45½@45⅝c, to 45⅝c, to 45½@45⅝c, to 46c, to 45¾c, to 46c, to 45⅞@46c and closed at 45⅞@46c asked.

JULY—Sold at 45½@46⅛c. Opened at 45½c, sold at 45⅝c, to 45½c, to 46⅛c, to 45¾c, to 45⅞c, and closed at 45⅞ bid.

OATS—There was the same lack of general interest in Oats, but scattered buying and light offerings, based on the sharp falling off in receipts as indicated by the estimate of 37 cars for to-morrow, resulted in an advance of ¼c. There was an increase of 9,685 bu in the local contract stock and all grades in public and private elevators decreased 471,000 bu. Local receipts were 101 cars, and Duluth received 76 cars and Minneapolis 20 cars. Withdrawals from store were 300 bu and seaboard clearances 200 bu.

Oats by sample were in small supply and met a fair demand at steady prices. Sales on track and free on board: No. 4 White sold at 28@31c. No 3 White at 30½@32c. Standard at 31½@32c. No 2 White at 32½c. Billed through. No Grade at 28½c. No. 4 at 29¼c. No 3 White at 30¾@31c. Standard at 31¼c. No. 2 White at 31½c. At the river: No. 4 White at 28@29c. No. 3 White at 28½@30c.

Future Deliveries of Contract Oats—Were not very active, but rather firm, and prices ⅛@¼c higher.

NOVEMBER—Closed at 29⅞@30c.

DECEMBER—Opened at 28¾c, sold to 29c, and closed at 28⅞@29c.

MAY—Sold at 31⅛@31¼c to 31⅜@31½c. Opened at 31¼c, sold to 31⅜@31½c, to 31⅛@31¼c, to 31⅜c, and closed steady.

JULY—Sold at 31⅜c to 31½c. Opened at 31⅜@31½c, sold to 31½c, to 31⅜c, to 31½c, and closed steady.

RYE—Was quiet. Cash fresh arrivals in only light demand and offerings larger and prices 1@2c lower, while futures were steady. Receipts seven cars, and there were withdrawn 8,600 bu. No exports from New York. No. 2 in store nominally 78c and fresh arrivals sold at 80@81c. No. 3 sold at 77@79c.

Future Deliveries of No. 2 Rye—Quiet. December sold at 78c and closed at 78c. May sold at 80c and closed at 80c sellers.

BARLEY—Ruled just about steady. Offerings were small and the quality ranged from ordinary to choice. All grades were salable, but buyers appeared to be a little indifferent unless they could buy at their views of value. The receipts as posted were 59 cars. Screenings were quotable over a range of 25@38c for poor, dirty to very choice. Barley—low-grade feed, quiet, scarce and remained at 38@38½c local. Malting, low grade small berry, or heavy but dirty, quotable at 39@41c; clean, fair to good, at 42@45c, and large berry, heavy, quotable at 46@48c, with choice to fancy 49@52c.

SEEDS—Markets quiet and steady. Flax was nominally higher, but there was nothing done. Small cash business reported in both Timothy and Clover.

Timothy—The market for cash Seed was quiet and unchanged. Only a very few cars came on the market. Futures were nominally unchanged. November was nominally $2 67½, January $2 72½; for March $2 82½ was the best bid and there were sellers at $2 85. Main sales were at $2 30@2 45. Country lots were quotable at $1 75@2 60 for low grade to fancy; inferior lower; fair to good, $2 35 @2 45; and rough, dirty or hulled, $2 20@2 30.

Flax—The market was ½c higher for cash and ½c to 1c higher for future deliveries. No sales of either cash or futures, which was due to lack of offerings. Receipts were 61 cars at Minneapolis, 376 cars at Duluth and 1 car or 900 bu here. The local output was 3 cars or 3,191 bu. No. 1 Northwestern was quotably $1 19, and No. 1 was nominally $1 11½. Rejected, depending on quality, quotable at $1 08½@1 15½. November and December both were nominally $1 11½, and May was offered at $1 19.

Clover—Only a very moderate business was done in cash Seed and nothing in futures. There was no change in values and the feeling was steady. Contract grade, spot or November delivery, remains nominal at $12 25. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—Were inactive and nominally unchanged. Some Millet was offered, but up to the close it had not sold. Hungarian at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 75c@$1 10. Buckwheat firmer; good quality at about $1 30@1 35.

HOG PRODUCTS—More interest was manifested in the market for Hog Products, and the feeling was stronger, mainly in sympathy with the firmer feeling in Grain. Outside buying orders were fair, and local trading was rather active. Offerings were moderate, and the general demand was quite good, with a fair proportion credited to packers and "shorts." Hogs were in good supply, and prices lower, but this feature had little effect on the speculative market. Prices ruled higher on all the leading articles, but extreme figures were not fully supported to the close. Near deliveries were quiet. Trading almost exclusively in January and May contracts. Receipts of Hogs at the leading Western packing points were estimated at 97,700, compared with 90,000 one year ago. Foreign markets indicated a steady feeling for Meats, and prices were unchanged, while Lard was quiet and 3d lower. Domestic markets were quiet. Receipts of Products were liberal—of Lard and Meats about 37 cars. Shipments were fairly large—of Lard and Meats about 187 cars. Shipping demand was moderate, and offerings were fair. Inquiry chiefly domestic. Sales were somewhat limited, and prices without material change.

Mess Pork—Rather a good business was reported in Mess Pork, and the feeling was stronger. Offerings were not very large, and the demand was fairly active. Trading was mainly in the deferred deliveries. Market opened rather steady, with fair miscellaneous buying. Later, a stronger feeling was developed, and prices were advanced 20@25c. Toward the close, the feeling was not so strong, and prices receded 2½@5c and the market closed comparatively steady. Demand on shipping account was light, and offerings were moderate. Cash lots quotable at $11 15@11 20.

NOVEMBER—Quiet and quotable at $11 15.

DECEMBER—Quiet and steady, with small sales at $11 12½. Closed at $11 20.

JANUARY—In rather good demand, with moderate offerings. Sales were made at $12 45@12 60. Opened at $12 45, sold to $12 60, to $12 55, to $12 60, to $12 57½, to $12 57½@12 60 and closed steady.

MAY—Offerings were fair, and the demand was moderately active. Sales were made at $12 50@12 75. Opened at $12 50, sold to $12 67½, to $12 65, to $12 70, to $12 67½, to $12 75, to $12 67½, to $12 70@12 72½, and closed steady.

Lard—Trade in Lard was on a moderate scale, and the feeling was stronger. Offerings were not very large, and the demand was moderately active. Foreign advices unfavorable to holders. A few trades were made at the opening at 2½c decline, but a firmer feeling was soon developed, and prices rallied 7½@10c, and market closed rather steady. Trading mainly in the deferred deliveries. Demand on shipping account was limited, with light offerings. Cash lots were quiet at about November figures, closing at $6 92½@6 95. Loose lots in moderate request, with fair offerings. Prices were quotable at 42½c discount on January figures. Leaf Lard was in moderate demand, with fair offerings. Prices quotably lower at $6 75. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 00@8 12½ for No 1, and $7 50@7 62½ for No. 2.

NOVEMBER—Quiet and quotable at $6 95.

DECEMBER—Quiet and quotable at $6 92½.

JANUARY—In fair request with moderate offerings. Sales were made at $6 92½@7 02½. Opened at $6 92½, sold to $7 02½, to $6 97½@7 00 to $7 00, and closed steady.

MAY—Offerings were not very large, and the demand was only fair. Sales were made at $7 10@7 17½. Opened at $7 10@$7 12½, sold to $7 17½, to $7 15@7 17½, and closed steady.

Short Rib Sides—A fairly good trade was reported in Short Rib Sides and the feeling was stronger. Offerings were not very large and the demand was fairly active. Market opened rather steady, but a firmer feeling was developed and prices were advanced 5@7½c, but the appreciation was not fully supported to the close. Trading almost exclusively in January and May contracts. Shipping demand was moderate and offerings were fair. Cash lots were quotable at $6 62½@6 67½ according to weight.

NOVEMBER—Inactive and prices entirely nominal.

JANUARY—Demand was fairly active and offerings were moderate. Sales were made at $6 42½@6 52½. Opened at $6 42½, sold to $6 45, to $6 42½, to to $6 52½, to $6 47½@6 50, to $6 50, and closed steady.

MAY—Offerings were not very large, and the demand was fairly active. Sales were made at $6 57½@6 67½. Opened at $6 60, sold to $6 57½@6 60, to to $6 67½, to $6 65, to $6 65@6 67½, and closed steady.

Other Meats—Trade only moderate and the feeling was steady. Domestic demand was only fair, and orders from abroad were limited. Offerings of all kinds not very large. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices favored buyers. Dry Salted Meats in fair request, with moderate offerings, and prices ruled steady. Smoked Meats called for moderately, and prices unchanged. Closing prices were as follows:

ARGENTINE NOTES.

The Department of Statistics and Rural Economy publishes the following estimates of the Wheat and Flax Seed areas sown for 1904-5. The estimates are based on the returns received from 60 per cent of the honorary correspondents of the Department. The reports from the remaining 40 per cent are expected to be completed by the end of the current month, and these may cause modifications in the totals:

WHEAT. Provinces—	1904-5. Hectares.
Buenos Ayres	2,131,787
Santa Fe	1,530,673
Cordoba	1,093,948
Entre Rios	285,074
Other Provinces and Territories	103,917
Total	5,145,399

These figures give an increase on last year's area sown of 24 per cent in Buenos Ayres Province, 14 per cent in Santa Fe, Cordoba 18 per cent, Entre Rios 25 per cent

FLAX SEED. Provinces—	1904-5. Hectares.
Buenos Ayres	318,045
Santa Fe	552,699
Cordoba	167,988
Entre Rios	120,969
Other Provinces and Territories	7,569
Total	1,167,270

These areas are a decrease of those of last year, of 19 per cent in Buenos Ayres province, 21 per cent in Santa Fe, 19 per cent Cordoba, 33 per cent Entre Rios. At the end of this month it will be possible to make comparisons with previous years. The total of the Wheat and Flax Seed areas given in the above official returns are on the aggregate almost the exact estimate advanced by *The Review* on July 15 last, i. e., a 10 per cent increase in the total area to be sown.

The present condition of the young plants could not be better. Latest advices from all parts of the Republic are more or less in the same optimistic tone. The locust invasions do not appear to be causing any very serious alarm in the official circles, where it is confidently anticipated that they will be satisfactorily dealt with under the provisions made by the Agricultural Department for their destruction.

The question of laborers for the harvest is not quite so satisfactory, but the immigration officials are looking forward to a large and continued stream of immigrants during the next two or three months. Cables from Europe this week announce the departure during October of 12,000 of them from France, Italy and Spain, with more unable to obtain passages.

From nearly all districts I hear crops are looking splendid, late rains having been most beneficial to both Flax Seed, which is in bloom and looking splendid, and also to Wheats, which were greatly in need of rain some weeks ago. Of course things look rosy now, but there is a long time to go before harvest commences, and lots of dangers such as hail, locusts and late frosts. Flax Seed has been greatly damaged by hail, but I think the loss has been somewhat exaggerated. Evidently importers expect and are preparing for a bumper harvest, and it is hardly credible the amount of machinery coming in and out through the Central Station alone. All the talleres are busy making repairs and working overtime, and a lot of work is being done on threshing engines, changing them to traction.

The recent rains in the Province of Santa Fe have been most beneficial to the growing crops. These have been followed by a spell of cold weather, which has been even more beneficial on account of the fact that for the past week or so the weather had been rather forcing. The crops can now do without rain until November, and with one or two showers in that month the prospects for the crop will be the best the country has ever experienced. Taking all things into consideration, the outlook for the next harvest could not be more roseate.—*River Plate Review*, Oct. 15.

The Wheat shown as samples in the market is of a good class. The Grain is well grown and has little mixture in it. Agriculturists take good care now not to send their Grain in mixed lots, and they do well. None of the European buyers will purchase inferior Grain. Corn is still very plentiful, as this year's crop has been the largest ever produced in this country. Prices are rather low, and those who cultivate Corn for market purposes will not make a fortune. The season for Flax Seed is now practically over.—*Buenos Ayres Standard*, Oct. 16.

SHRINKAGE OF CORN.

[From the Prairie Farmer, Nov. 17.]

Much interest is being manifested by farmers in the possible shrinkage of Corn. We suppose it is with a view to determining the advisability of holding, for future sale, such portion of the crop as is to be marketed in the form of Grain or for determining the number of pounds that should be allowed per bushel under present conditions.

These are difficult matters to estimate accurately because no two years are exactly alike and because there is liable to be a very wide range in the condition of Corn from different fields, especially in such seasons as the present. We believe the amount of shrinkage is usually underestimated. Even when Corn is thoroughly dried before cribbing there is still considerable shrinkage after it goes into storage. Some have estimated that Corn, ordinarily well dried out in the field, will shrink 10 per cent during the first six months after being cribbed. This year there is considerable moisture in both cob and grain of very much of the Corn. A number of Corn shrinkage tests have been made by the different experiment stations and the results demonstrate the wide variation of this factor that exists. The lowest shrinkage of which we have authentic record was reported by the Department of Agriculture for a 16,000 bu lot cribbed in Central Illinois. This lot was cribbed the last of October and lost 7¾ per cent by the first of the following July. This test was made in a very dry year, however, and was made with a crib twenty-six feet wide. While a wide crib would not be practical for any but quite dry Corn because of the danger of spoiling, where the Corn is sufficiently dry to keep, it will undoubtedly shrink less in such a crib.

The Iowa Experiment Station made a test in which the shrinkage amounted to 9 per cent during the first three months, 14½ per cent during the first six months, and 20 per cent for the year. A similar test made the following year, when the Corn was much drier when cribbed, showed a loss of but 9 per cent by the following August. Corn cribbed at the Michigan station during a wet fall lost 30 per cent of its original weight from October to February. This is a very heavy shrinkage, but it shows the possibilities that confront the handler of Corn at this time of year.

The possibility of a high shrinkage is, of course, greater in the northern part of the Corn belt than it is farther south by reason of the shorter season and the consequent greater liability that the Corn will not get well dried out before cribbing must begin. For the present season considerable allowance must be made for moisture, especially in the northern part of the Corn belt. With Corn that will shrink 20 per cent by the middle of next summer, it will be necessary for every 70 lbs taken out at that time to put away 87.05 lbs now, and with Corn that will shrink 15 per cent to put away 82.35 lbs for every 70 lbs that are to come out next summer. To put it in another way, for Corn that will shrink 20 per cent, 40c for 80 lbs now is as good a price as 43.75c for 70 lbs next summer; and for Corn that will shrink 15 per cent, 40c for 75 lbs now is as good as 43.92c for 70 lbs next summer. This is allowing nothing for storage room or interest on capital represented.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 22 to 46; generally cloudy. Northwest—Temperatures, 24 to 34; partly cloudy. West—Temperatures, 30 to 40; clear. Southwest—Temperatures, 32 to 46; fair. Ohio Valley—Temperatures, 30 to 38; cloudy.

Indications are for fair weather through the greater portion of the district, although scattered showers probable Northwest. Moderate temperatures will continue.

ITEMS OF GENERAL INTEREST.

A fire, Sunday, at Cincinnati, Ohio, caused a loss of $700,000.

Fire in Asheville, N. C., Sunday, wrought damage estimated at $100,000.

The loss by the burning of the Missouri State building at the St. Louis World's Fair is estimated at $20,000.

The packing at Milwaukee since November 1 is estimated at 58,425 Hogs, against 75,835 for the corresponding time in 1903.

The bakers of Baltimore have reduced the size of their 5 cent loaves of bread from 17 to 16 ounces. They say the high price of Flour has made this reduction necessary.

The Fish canning plants of L. D. Clark & Sons and the Seacoast Canning Company at Eastport, Me., were burned, Sunday, causing a loss of $50,000, equally divided between the two companies.

The Gold exports from New York last week brings the total to all countries since Jan. 1 up to $89,000,000. From present indications the amount for the whole year will be brought close up to the great outgo of 1891 and 1895, which was respectively $99,000,000 and $101,000,000.

The New York State Board of Railroad Commissioners, Friday, announced its approval of the proposed increase of capital stock of the New York, Westchester and Boston Railway Company from $1,000,000 to $20,000,000, and of the proposed first mortgage upon the company's property for $20,000,000.

Corn Trade News of Nov. 9 says: "According to official returns Germany imported 2,560,000 bu Wheat for home consumption during the last fortnight of October, against which there were outgoings of 1,040,000 bu. The net importation from Aug. 1 to Oct. 30 was 13,112,000 bu. compared with 16,624,000 bu in the same three months of last season."

Corn Trade News of Nov. 9 says: "Recent reports contain rather frequent mention of the poorness of the quality of Roumanian Corn as well as the smallness of the yield. Doubts are expressed as to whether it will suffice to supply home requirements even with the addition of old stocks, and it is pointed out that only recently a cargo of Russian Corn has been discharged at Braila and forwarded by rail to Eastern Hungary."

The San Francisco *Commercial News* of Nov. 17 says: "Advices from Tacoma state that the largest sale of Hops made in this country this season was consummated Friday, when the crop of the Moxee ranch in the Yakima Valley, embracing 11,000 bales, was bought by Tacoma dealers at a price understood to be not less than 30c, although the stock was not of the highest grade. Reports from Oregon indicate an active market, with prices very firm. In this State growers are about cleaned out. A prominent grower of Sacramento has sold by contract 1,100 bales of next season's crop at 17c, a merchant of Santa Rosa being the purchaser."

The *Agricultural Gazette* of Nov. 7 says: "Another week of fine weather has favored farm work, which is now in exceptionally forward condition for the time of year. In many districts nearly all the Wheat and other winter crops are sown, and most of them are showing above ground. It appears to be the general opinion that the acreage sown with Wheat will prove much greater than it has been in any recent year. That there is an increase already is almost certain, and it may be assumed that the longer the fine weather lasts the greater the expansion will be, because when the crop goes in well there is an inducement to sow with Wheat some of the land which, in other circumstances, would be left for spring Grain. Besides, the price of Wheat is more satisfactory than that of either Barley or Oats on the average, though an exception must be made in the case of good malting Barley."

The Liverpool *Corn Trade News* of Nov. 8 says of conditions in the United Kingdom: "The period of fine dry weather, which lasted through October, has now been broken by a good fall of rain, which has been well distributed throughout our country. This rainfall will certainly have been well received, for field work is well forward and a good breadth of land has already been sown with winter crops; indeed it is stated that in many districts nearly all the Winter Wheat has been put in. Almost all reports speak of a good increase in the acreage under Winter Wheat, and we quite expect to find that the increase is a substantial one, for the farmer has had every inducement this autumn to devote more land to the premier cereal—for the weather could hardly have been better and prices have been relatively fair. Supplies of native Wheat remain moderate and prices are well maintained, the official average last week being 30s 6d per 480 lbs, against 26s 4d last year. For seed purposes fine samples continue to make high figures, 38s having been again mentioned."

It is reported that the condition of Wheat in Kansas is 88, compared with 90 one year ago. The increase in area should more than offset the reduction in condition.

The Calumet and Hecla Mining Company has declared a dividend of $10 00 a share, payable Dec. 20 to stockholders of record Nov. 23. This is the same as the last previous quarterly declaration.

The executive officials of Western lines practically have agreed to cancel their existing arrangements with the industrial railroads and allow the latter the maximum of $3 50 per car for delivering their products.

The Associated Merchants' Company has declared the regular quarterly dividend of 1¾ per cent, also an extra dividend of one-fourth of 1 per cent, on its common stock, payable Dec. 1. Books close Nov. 25 and reopen Dec. 2.

The seventy-eighth annual report of the Baltimore and Ohio Railroad, covering the fiscal year ending June 30 last, shows that the earnings of the entire system, embracing 4,442.35 miles, were $69,-390,274; the expenses, $47,118,322, and the net earnings, $ 2,271,952.

There was a slightly firmer tone in the New York Cotton market, but pool selling and easier Southern spot markets kept the market in an unsettled state. Only a slight part of yesterday's losses was recovered. December and July futures experienced a further slump. Closing prices were 1@3 points lower.

The price of light Steel rails has been advanced to $20 00 or $21 00 a ton, as against $19 00 to $20 00 recently. The opinion was expressed in Wall Street, Tuesday, that this will not have any effect on the coming meeting of the Steel rail pool, the majority of the members of which favor the maintenance of the present rate of $28 00 per ton.

The New York Stock market closed stronger. Advices during the afternoon offset the morning break and the market ended from ½ to 1 point higher. Features of the trading were demand and advance for Steel 5s and the purchases of standard Western Railway Stocks. The low-priced issues were strong, and the big Eastern Railways firm.

The Chicago Stock market was active, but the trading proved somewhat at the expense of prices. The selling of Box Board was the most conspicuous movement in the market, and prices closed lower. Other Industrials were comparatively steadier. The Elevated Railroad shares ruled firm and surface line Traction shares were lower.

"No negotiations for the purchase of the Clover Leaf are now in progress," said President Shonts, Tuesday. "I do not know that the persons recently negotiating for control represented the Erie system or whether negotiations will be resumed by those persons. The traffic of the road is increasing, and we are pursuing the policy of improving it and developing its resources."

The Winnipeg *Commercial* of Nov. 18 says: "According to private reports plowing and breaking had pretty well ceased throughout Manitoba and the Territories about the middle of the past week. Since then, however, the weather has been milder and such operations have probably been renewed to a certain extent. What this fine open fall means to the West in the way of increased acreage may be realized from the statement of one particularly well versed in such matters that he expected the area in Wheat next year would be 4,000,000 acres, an increase of over 500,000 acres. And not only has it been useful for farmers already established, but it is of particular importance to this season's settlers, of whom the number is very large. It means that they will get a good start on the road to prosperity, and that the country will not have to carry many thousands of comparatively non-producers. Prospects for increased immigration are also improved and rapid settling of the West's vast extent of arable lands is a matter of vital importance."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand only moderate and market quiet and without any special change.

WINTER WHEAT—A little better milling demand was reported and besides the car lots, sales of 100,000 bu of No. 2 Hard were made at 2¼c under December price. The market was steady. No. 2 Red in store quotably $1 12¼@1 13 and fresh arrivals free on board nominally $1 14@1 15. No. 3 Red fresh arrivals free on board quotably $1 05@1 11. No. 2 Hard in store sold 2¼c under December, and fresh arrivals free on board quotably at $1 09@1 11. No. 3 Hard fresh arrivals free on board sold at $1 03@1 10, and No. 4 Hard at $1 00. No. 3 White sold at $1 07.

SPRING WHEAT—The market was steady. Offerings light and trade light, but there was little more milling demand for choice Wheat. No. 1 Northern fresh arrivals free on board quotable at $1 16@1 20. No. 2 Northern fresh arrivals free on board quotable at $1 08@1 14. No. 3 Spring sold at $1 00@1 07. No 4 Spring sold at 82c@$1 00 for common to good and quotably 60@65c for very poor.

REGULAR WHEAT—A moderate trade with the feeling rather unsettled, the close being ¼@⅜c lower for December, while May lost ⅛@¼c, and July unchanged. Transactions were mainly local with a fair share of the same in the way of evening up trades over the holiday. The dry weather was one of the chief supporting factors, and buying of July was a little more in evidence, the same being led by warehouse interests. Map showed the Wheat belt without moisture and continued fair but cooler conditions were indicated. The Kansas State report made the condition of the crop 88, against 90 per cent one year ago, and claimed the condition in some counties was as low as 66 per cent. Minneapolis reported one mill as selling 45,000 brls of Flour yesterday and another message claimed there was a sharp falling off in farmers' deliveries all over the Northwest, drafts from private shippers being exceedingly light. Argentine advices were somewhat conflicting, Liverpool reporting unsettled conditions, while a direct Rosario cable claimed weather fine. Liverpool spot quoted ¼@½d higher, futures unchanged to ⅛d lower. London came ¼d higher. Paris was up ¾c, and Antwerp unchanged. Minneapolis reported a good cash demand, and Duluth claimed the situation was healthy. A sale of 100,-000 bu was reported here. Northwest cars were 250 larger than a year ago, and primary receipts 417,000 bu less than one year ago. Kansas City and St. Louis received 138,000 bu, against 261 000 bu same date in 1903. Kansas City expects 106 cars Friday. Minneapolis stocks reported increased 500,000 bu so far this week. *Broomhall* cabled the Argentine surplus at the present time was estimated at 13,000,000 bu. Exports were small, and but 5 boat loads were accepted at the seaboard. A considerable part of the late selling here and elsewhere was credited to local warehouse interests. Receipts at Duluth 326 cars at Minneapolis 602 cars, total of 928 cars against 1,109 cars yesterday, 524 cars week ago, and 674 cars last year. Local receipts included 36 cars Winter, 5 cars Spring and no car mixed, a total of 41 cars, against 118 cars last year. Included in above were no cars contract grade. There were also 15 cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 30 cars. The withdrawals were 2,000 bu. Receipts at Western points were 1,043,-271 bu, against 1,486,438 bu last year. At Eastern points 88,710 bu, against 394,825 last year. Shipments from Western points 489,876 bu, against 518,904 last year and from Eastern points no bu, against 216,267 bu last year. Shipments of Flour were 16,701 brls. Exports of Wheat in Flour were equal to 75,154 bu.

Future Deliveries of Regular Wheat—Fair trade with closing a trifle lower.

NOVEMBER—Entirely nominal; closing at about $1 08½.

DECEMBER—Sold at $1 08¾@1 09½. Opened with sales at $1 09 to $1 09⅛; sold to $1 08¾@1 08⅞, to $1 09⅜, to $1 09⅛, to $1 09½, to $1 08¾, and closed at $1 08¾ bid.

MAY—Sold at $1 09⅛@1 09¼ and at $1 10⅛. Opened at $1 09¼ to $1 09½; sold to $1 09⅜, to $1 09⅛@1 09⅝, to $1 09⅛@1 09¼, to $1 09⅞, to $1 09½, to $1 10⅛, to $1 09⅜, to $1 10, to $1 09¼, to $1 09⅜, and closed at $1 09⅜ bid.

JULY—Sold at 98⅛@99⅛c. Opened with sales at 98⅜c to 98¼c; sold to 98⅛c, to 99⅛c, to 98⅝c, to 99c, to 98⅜c, to 98½@98⅝c, and closed at 98½c.

CORN—Only a moderate trade, chiefly local, with the feeling prevalent comparatively steady, the close showing the December up ⅜c, while May lost 1-16c and July was unchanged. Receipts were small at 259 cars and the grading rather poor, 208 cars being No 4 and No Grade, and 536 cars are estimated for Friday. December "shorts" appeared more anxious regarding outstanding contracts and the premium over May widened out a little to 3⅜c. Elevator interests bought May. The Kansas State report was looked upon as moderately "bullish," showing the yield 132,000,000 bu, as against 143,000,000 bu as reported by the Government. Liverpool quoted spot ½d higher and futures unchanged to ⅛d lower. Weather, present and prospective, favorable for the grading and movement. Southwestern markets were firm. Western receipts 834,000 bu, against 383,000 bu one year ago. Shipments 3,4?,000 bu and 541,000 bu respectively. Local arrivals were 638,000 bu and shipments 198,000 bu. Withdrawals from store here 30,000 bu and clearances at the seaboard 400 bu. Shipping demand was called fair, and New York at the close claimed 20 boat loads accepted for export. Car lots were in fair demand and moderate supply. Feeling firm and prices in some instances 1c higher. No. 2 closed at 53c and No. 2 Yellow closed at 57½c. No. 3 closed at 52½c. No. 3 Yellow new sold at 47½c and closed at 57c for old. No. 4 sold at 43@45¾c. No Grade sold at 38@41½c.

Corn by sample—Offerings moderate and demand fair. Feeling firmer and prices unchanged to 1c higher. Sales on track and free on board: No Grade sold at 38@41½c. No. 4 at 43½@45¾c. No. 3 at 46@53½c. No. 3 Yellow at 48@57c. No. 2 at 55c. No. 3 White at 46¾c. Billed through: No Grade at 39@43c. No. 4 at 43@45½c. No. 3 at 45@47c. No. 3 Yellow at 46½@49c. No. 3 White at 45½@46c.

Future Deliveries of No. 2 Corn—Fairly active and stronger and closed 1-16c lower to ⅜c higher.

NOVEMBER—Inactive and nominal; closed 50⅜c.

DECEMBER—Sold at 48⅝@49¾c. Opened at 49c, and sold at 48⅝c, to 49¼c, to 49¼c, to 49⅛c, to 49⅜c, and closed at 49⅜c asked.

JANUARY—Sold at 44¼c and 45⅛@45¼c. Opened at 44½c and sold at 44¼c, to 45⅛@45¼c, to 45c, and closed at 45c asked.

MAY—Sold at 45⅛@46½c. Opened at 45¾c to 45⅞c and sold at 45¾@45⅞c, to 45⅝c, to 46@46⅛c, to 46c, to 46⅛c, to 45⅞c, and closed at 45⅞c bid.

JULY—Sold at 45⅝@46⅛c. Opened at 45⅞c, sold at 45⅝c, to 46⅛c, to 45⅞c, and closed at 45⅞c.

OATS—Were extremely dull, but prices were firm and there was some narrowing of the spread between December and May. The May premium was cut to 2¼@2⅜c from 2⅜@2½c on buying of December and selling of May by elevator interests. General trade was light and the deferred deliveries closed only a shade higher. Arrivals were 55 cars and 125 are estimated for Friday. Withdrawals from store were 800 bu. Seaboard clearances nothing, and 50,000 bu reported sold at the seaboard. Cash prices were steady to ½c higher.

Oats by sample were in better demand and offerings were small. Sales were made at ½c higher prices on better grades and steady prices for poor. Sales on track and free on board: No. 4 White sold at 31c. No. 3 White at 30¾@32¼c. Standard at 31¾@32½c. No 2 at 29¾c. No. 2 White at 32½c. Billed through: No Grade at 29c. No 4 White at 30@31c. No 3 White at 30½@31¼c. Standard at 31½c. At the river. No. 4 White at 27½@29½c. No. 3 White at 29@30c.

Future Deliveries of Contract Oats—Were firmer.

NOVEMBER. Closed at 30⅛c.

DECEMBER—Sold at 28⅞c to 29⅛c. Opened at 28⅞c, sold to 29⅛c, and closed at 29⅛c.

MAY—Sold at 31¼@31⅜c to 31½c. Opened with sales from 31⅜c to 31⅜@31½c, sold to 31¼@31⅜c, to 31½c, and closed at 31⅜@31½c.

JULY—Sold at 31½@31⅝c to 31⅝c. Opened at 31⅝c, sold to 31½@31⅝c, and closed at 31½@31⅝c.

RYE—Was quiet and steady for futures and weaker for the fresh receipts of cash. Demand light. Only four cars received and four cars withdrawn from private warehouse. No exports from New York. No 2 in store nominally 78c, and fresh receipts free on board sold at 79c, and billed through at 79c. No. 3 sold at 78c.

Future Deliveries of No. 2 Rye—Quiet. November nominally 78c. December nominally 78c. May sold at 80c and closed at 80c sellers.

BARLEY—Was quotably steady. No change developed in prices. Offerings were rather smaller than previous days this week. They were mainly of fair to good malting. Of the extremes, very choice and very common or poor, there were few cars on sale. Screenings quiet; not so many offered as of late and not much cared for unless nice clean and of good color. Twenty-one cars were inspected in. A few cars of Screenings were sold at 30@38c, and for a whole range they were quotable at 25@38c for poor, dirty to very choice. Barley—low-grade feed, salable at 38@38½c local. Malting, low grade, small berry, or heavy but dirty, quotable at 39@41c; clean, fair to good, at 42@45c, and large berry, heavy, quotable at 46@48c, with choice to fancy 49@52c. It was reported that 100,000 bu of Barley to arrive changed hands yesterday, but no particulars as to prices could be ascertained.

SEEDS—Were very quiet. Of all kinds the offerings were small. Aside from a nominal advance in the case of Flax Seed there were no changes.

Timothy—Nothing was done. The market was bare of cash offerings. Nothing developed to indicate any change from former prices. There was some inquiry for March delivery and last quotation was bid; no desire to sell was shown. Contract grade, spot or November delivery, was nominally $2 67½. January quotable at $2 72½ and for March $2 82½ was bid. Country lots were quotable at $1 75@2 80 for low grade to fancy; inferior lower; fair to good, $2 35@2 45; and rough, dirty or hulled, $2 20@2 30.

Flax—An advance of ½c in prices was quoted. It was a nominal advance. No business was done; there could not very well be for there were no offerings. Only 1 car or 900 bu came in; output very little better, being 4 cars or 4,208 bu. Northwestern receipts were 61 cars at Minneapolis, and 259 cars at Duluth. No. 1 Northwestern quoted at $1 19½, and No. 1 was $1 12. Rejected, depending on quality, quotable at $1 09@1 16. November and December both were nominally $1 12, and May held at $1 20, but no bids were heard.

Clover—Was called steady, but lack of offerings prevented any business to speak of being done. A little of very nice quality sold at $11 25. Market for contract grade, spot or November delivery, remains nominal at $12 25. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—A car of Early Fortune Millet on the market yesterday sold at 95c. Aside from this no business was heard of. All lines were quoted as steady and salable at about former prices. Quotable as follows. Hungarian at $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 75c@$1 00. Buckwheat quoted as heavy; good quality at about $1 30@1 35.

HOG PRODUCTS—Only a moderate trade was reported in the market for Hog Products, and the undertone was stronger in sympathy with Hogs and Grain. Outside orders were moderate, and mainly on the buying side, and local trading was only fair. Trading almost exclusively in the deferred deliveries, with May meeting with a little more favor than January. Prices ruled slightly higher on all the leading articles, but the advance was not fully supported to the close. Hogs were in good supply and higher. Receipts at the leading Western packing points were estimated at 100,400, compared with 70,500 one year ago. Foreign markets were quiet, and Cumberland Sides quotable 6d lower. Domestic markets were quiet and rather easy. Receipts of Products were liberal—of Lard and Meats about 36 cars. Shipments were moderate—of Lard and Meats about 105 cars. Trade on shipping account was moderate, though there is more business in a general way than made public. Offerings were fair, and some concessions in prices were made. Demand chiefly for domestic wants. Some inquiry for delivery from January to August. Export inquiry limited.

Mess Pork—Trade was comparatively light in the market for Mess Pork, and the feeling was steadier. Offerings were moderate and the demand was only fair. Trading chiefly in May. Prices ruled 5@10c higher, but settled back about 2½@5c, and the market closed comparatively steady. Shipping demand was light, and offerings were moderate. Cash lots were quotable at $11 20@11 25.

NOVEMBER—Quiet and quotable at $11 20.

DECEMBER—Quiet and quotable at $11 25.

JANUARY—Demand was light and offerings were moderate. Sales were made at $12 65@12 70. Opened at $12 65, sold to $12 70, to $12 65, and closed steady.

MAY—Offerings were not very large, and the demand was fair. Sales were made at $12 75@12 82½. Opened at $12 75, sold to $12 82½, to $12 77½, to $12 80, to $12 75, to $12 77½, to $12 75, and closed steady.

Lard—Trade in the Lard market was only fair, with May delivery commanding the preference. Offerings were not very large, and the demand was fair. Prices ruled 2½@5c higher early, but receded again 2½c, and the market closed comparatively steady. Foreign advices unchanged. Demand on shipping account was limited, with light offerings. Cash lots were quiet at about November figures, closing at $6 95@6 97½. Loose lots in moderate request, with fair offerings. Prices were quotable at 45c discount on January figures. Leaf Lard was in moderate demand, with fair offerings. Prices quotably steady at $6 75. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 00@8 12½ for No. 1, and $7 50@7 62½ for No. 2.

NOVEMBER—Quiet and quotable at $6 97½.

DECEMBER—Quiet and steady, with small sales at $6 97½.

JANUARY—In moderate request and offerings were somewhat limited. Sales were made at $7 00@7 02½. Opened at $7 00, sold to $7 10@7 02½, to $7 00 and closed steady.

MAY—In fair request, with moderate offerings. Sales were made at $7 17½@7 20. Opened at $7 17½, sold to $7 20, to $7 17½, and closed steady.

Short Rib Sides—Trade was fair in the market for Short Rib Sides, and the market ruled stronger in a general way. Offerings were not very free, and the demand was fairly active. More doing in July. Prices ruled 2½@5c higher, and the market closed steady at medium figures. A good share of the trading on local account. Demand on shipping account was moderate, and offerings were rather light. Cash lots quotable at $6 62½@6 75 according to weight.

NOVEMBER—Inactive and prices nominal.

JANUARY—In fair request and offerings were moderate. Sales were made at $6 50@6 55. Opened at $6 50, sold to $6 55, to $6 50@6 52½, and closed steady.

MAY—Offerings were not very large, and the demand was fair. Sales were made at $6 67½@6 70. Opened at $6 67½@6 70, sold to $6 70, to $6 67½, and closed steady.

JULY—In a little better demand and offerings were moderate. Sales were made at $6 77½@6 85. Opened at $6 77½, sold to $6 85, to $6 82½, and closed quiet.

Other Meats—Trade only moderate and the feeling was steady. Domestic demand was only fair, and orders from abroad were limited. Offerings of all kinds not very large. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices were unchanged. Dry Salted Meats in fair request, with moderate offerings, and prices ruled easier. Smoked Meats called for moderately, and prices unchanged. Closing prices were as follows:

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Nov. 17.]

Wheat—Local markets since our last have ruled dull and inactive, and scarcely a single transaction in foreign cargoes has been reported. Business is almost at a standstill. There is some demand for Wheat to go east, but exporters are not overanxious to sell at prices quoted. In the present condition of the market it is practically impossible to purchase Wheat at prices quoted The cause is very plain. The high prices prevailing since the beginning of the season have caused large holders to act very independent, being well aware that prices will have to advance owing to the shortage of good Wheat in the Eastern States Exporters loaded up early, and all the engagements of Wheat to go East have been provided for, and with the unsold amount in their possession that fully reaches 6 000,000 bu, there is no urgency to buy on their part to increase their holdings, unless some new developments unseen at present would stimulate the demand and encourage fresh business. The railroads have at last realized that Eastern sales were legitimate, and would not be sold back to our local exporters for foreign shipments, and have secured plenty of available cars to take the same eastward; there is no great complaint at present and Wheat is going east daily in heavy train loads. The North Pacific Wheat will not go to Europe this season from the Coast, and as soon as the Wheat now held in the interior shows a marked disappearance, fresh supplies will be called for Sales have been made as far as April shipments European traders are paying more attention in ascertaining the results in Argentina Australia and India. It looks as if they will get what they need from Argentina, considering that offers and sales have already been made from the first named country for January and February loading. Our prices are too high to give our exporters an opportunity to do business with European buyers. Exporters are in the market for Wheat on the basis of 83c to 85c for Club, Bluestem, 88c to 89c. and Valley, 87c per bushel.

Flour Business was only fair during the week and Oriental orders are slow in coming to hand on account of the high prices claimed that are asked by our millers. This is strange considering recent advices from Hong Kong that stocks on hand are getting smaller and less than 600,000 sacks on hand On the whole millers state that trade is good and many new Eastern orders came in. The demand from California shows but very little change From Central and South America fair orders are received and the outlook for large orders in the near future very promising. There is no call from the United Kingdom owing to prices quoted being unsatisfactory, and millers decline to make any concession, better prices being obtained in this country. South Africa buyers are nibbling away on quotations, though nothing as yet being consummated, evidently buyers waiting to see the result of the Australian Wheat crop before cabling in orders. Millers say that they have plenty to do until after the turn of the year, and by that time the Orient demand may possibly show some improvement. Large stocks are arriving at Japan from the early October shipments and these will be quickly absorbed, and possibly some very large orders will be had in the near future. Local buyers manifest no desire to purchase freely and are only after brands that are in constant use. We quote export brands $3 60 to $3 75, Straights $3 75 to $4 00, and Patents from $4 50 to $4 75 per barrel Evidently prices will shortly advance on account of the firmness in the Wheat market and difficulty in purchasing Wheat, except at a premium over list quotations.

INDIAN NOTES.

BOMBAY, Oct. 21.—Since our last mail report a cyclonic storm passed over the Central Provinces and parts of the United Provinces, giving moderately heavy rain. The disturbance also affected the weather in the Berar and portions of Khandesh, where some moderate showers were experienced. This rain is excellent for the Rabi crops and has also improved the growing Cotton, though the first arrivals may show some deterioration in quality on account of it It is, however, too early to do much harm in this respect, as the bolls are not yet opened to any extent, and it will probably increase the outturn. In Gujerat and Kathiawar more rain is required, particularly in the latter, for Rabi crops. Reports of the growing Cotton continue satisfactory, but it is probable that a very early season will be experienced in the Broach district, and though the heavy dews now falling will improve the staple, it is generally believed that in consequence of the very short rainfall the quality of this crop will not be up to that of last season, which was a particularly good one.—*Bombay Price Current.*

Weather and Crops—The Dussera holiday, which was celebrated last Tuesday, is generally recognized as marking the end of the Southwest monsoon In reviewing the Government meteorological report, and leaving out the stations in Madras, the Malabar Coast, Mysore, Ceylon, and the Persian area which are not of so much interest to us on this side—out of forty-one reporting stations, compared with their average rainfall, thirty-four show a minus quantity, fourteen of which have received more than 10 inches below the average. Bombay shows the largest deficit, viz., minus 40 05, next comes Surat, minus 29.20, and then Ahmedabed, minus 23 46. Six stations are credited with a surplus above their average, viz., Cawnpore plus 22.63, and the remaining five with barely 20 inches between them.

However, in spite of the general shortness of the rainfall, crop prospects taken on the whole can hardly be said to be unsatisfactory The excellence of the Cotton crop both in quality and in quantity will go far to mitigate the pressure felt owing to the poorness of some of the Kharif crops; but it is to be feared that considerable scarcity may be felt in parts of Gujarat and Kathiawar, more especially on account of the shortness of the water supply. Rabi crop prospects are generally good, and in the Punjab and United Provinces sowings are progressing favorably.

Although as yet too early to form any reliable estimate, in many well-informed quarters a 23 lakh Cotton crop into Bombay is hinted at. New crop arrivals of Bengals are now moving slowly into the market, the quality of which is well within, if not above, the average. Generally speaking, the crop shows signs of being an early one.—*Times of India*, Oct 22.

THE HOP SITUATION.

[New York Producers' Price Current, Nov. 19.]

The Hop market is very quiet. There is no demand in New York State for export whatever. The brewers are showing no interest in the situation at present, seeming to believe that prices will ease up somewhat. Dealers, however, are very firm in their views, owing to the small amount of remaining stocks, and feel that the situation warrants the prices which are at present current The foreign markets, with the exception of Germany, are quiet. In Germany considerable business is passing, and, strange as it may appear, the poorer qualities are in great demand and prices for same have been advanced considerably. On the Pacific Coast prices remain at about 31c for choice, and growers, who are still holders, are very firm in their views.

SEEKING FULL INFORMATION.

[From the Crop Reporter, issued by the Department of Agriculture.]

There have been sent to representative farmers throughout the entire country schedules asking for information relative to the acreage and production of Corn, Wheat, Oats, Flax Seed, Hay and Potatoes The data thus obtained will be used by the statistician in determining the area harvested and the total production of these crops. The inquiries on the schedules relate to each farm, and those receiving them will confer a favor by returning the same as soon as the information asked for can be given An official envelope, requiring no postage, has been inclosed for that purpose.

The principal report on farm animals during the year is made for Jan. 1 In the schedule for this report correspondents estimate the number of Horses, Mules, Milch Cows, other Cattle, Hogs and Sheep, and also give the local prices received by farmers for these animals. To simplify the correspondent's endeavor to estimate average prices, the Horses, Mules, Cattle and Sheep are divided into various classes according to ages and an average price is to be estimated for each age. The age classes for Horses, Mules and Cattle other than Milch Cows, are under one year old, one year and under two years old, and two years old and over. For Sheep the classes are, under one year old, ewes one year old and over, rams and wethers one year old and over.

THE PRICE OF WHEAT.

[From the Prairie Farmer.]

A number of our readers are wanting to know about the future prospects for the price of Wheat, and whether or not it is advisable to hold for a still higher price We cannot tell what manipulators may be able to do with war rumors and crop scares during the next few months, but our opinion, based upon the world's production, is that Wheat is now bringing a very liberal price. While there are shortages in some countries, as compared with last year, other parts of the world have a larger surplus, so that the total Wheat crop of the world, according to latest advices, will be about the same as last year.

So long as we have a surplus to export, the price of our Wheat will finally be determined largely by the price we can get for our exportable surplus. Local conditions may control the market for a time, but not permanently, and if they have forced the price higher than it can remain it is a good time for the farmer to sell. With the world's crop practically up to normal, and the price on our home markets 40 per cent greater than a year ago, it looks to us like a good time to let go, and let the other fellow take the chance of finding a buyer later on at an advanced price.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 10 to 38; generally cloudy. Northwest—Temperatures, 32 to 44; clear. West—Temperatures, 28 to 50; generally clear. Southwest—Temperatures, 40 to 50; partly cloudy. Ohio Valley—Temperatures, 32 to 42; generally fair.

Indications are for generally fair weather in this district. Temperatures will be lower in this section by Thursday morning.

ITEMS OF GENERAL INTEREST.

Gross earnings of the Canadian Pacific in the second week of November were $1,085,000, an increase of $109,000.

The American Sugar Refining Company will close down its refineries from Wednesday night until next Monday morning.

John Fiddick, dealer in Dry Goods, Galena, Ill., filed a petition in bankruptcy, Monday. Liabilities, $206,000; assets, $128,000.

Fire destroyed the Texas Midland Railway shops at Terrill, Texas, Monday. Two engines and several cars were burned. Loss, $50,000.

Alfred M. Lamar, a broker on the New York Consolidated Exchange, suspended with liabilities of between $125,000 and $700,000, Monday.

A Boston banking firm announced, Monday, that they have purchased $10,800,000 of 3½ per cent equipment bonds of the Pennsylvania Railroad.

The Illinois Auditor of Public Accounts has issued a permit to organize the International Trust Company of Chicago, with a capital of $200,000.

Fire in Montreal, Sunday, destroyed the warehouse of John A. Berry & Co., manufacturers of corsets and millinery. Loss, $75,000, well insured.

The Panhandle reports for October $656,400 net earnings, an increase of $10,000. For ten months net earnings were $5,146,400, a decrease of $168,863.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Nov. 5 have amounted to 776,000 bu, against 1,028,000 bu in the previous year, and 2,136,000 bu in 1902.

The directors of the General Chemical Company have declared the regular quarterly dividend of 1½ per cent on the preferred stock, payable Jan. 3. Books close Dec. 23 and reopen Jan. 4.

The Government deposits in the national banks now amount to $115,303,900 The call of 25 per cent would withdraw $28,825,000, of which $11,530 300 will be due before Jan 15 and $17,295,400 before March 15.

National Carbon Company directors say that the common dividend recently declared is on a semi-annual basis of 1½ per cent, or 3 per cent per annum. Transfer books close Jan. 4 and reopen Jan. 16. The dividend is payable Jan. 14.

The American Steel and Wire Company of the United States Steel Corporation is declining to book orders into 1905. Consumers, evidently looking for higher prices, are trying to provide for their needs for the next quarter at ruling quotations.

The subscription list to the American half of the £12,000,000 Japanese 6 per cent loan, issued in New York by Kuhn, Loeb & Co., the National City Bank and the National Bank of Commerce, has been closed, the loan having been considerably oversubscribed

The Allis-Chalmers Company has secured a contract for blowing engines from the Lackawanna Steel Company. It is the largest order placed in eighteen months. November business thus far will exceed October, which was by far the best month of the year.

The shipments of Flax Seed from India from April 1 to date amounted to 17,368,000 bu (Calcutta 11,240 000 and Bombay 6,128,000 bu), against 15,416,000 bu last season (Calcutta 10,112,000 bu and Bombay 5,304,000 bu), and 10,840,000 bu in 1902 (Calcutta 7,376,000 bu and Bombay 3,464,000 bu).

The receipts of Flax Seed at Bombay for the week ended Oct. 20 amounted to 1,035 tons, against 1,021 tons in the previous week and 886 tons in the same week last year. The total receipts at Bombay from Jan. 1 to Oct. 20 amounted to 206,188 tons, against 139,214 tons in the same period last year.

The Illinois Steel Company will make large expenditures on its South Chicago works during the coming year. Plans for a beam mill have been completed, which will have a capacity of from 12,000 to 15,000 tons per month and will employ about 500 men. The total outlay to be made will reach $1,250,000

Stocks of Wheat in store at Fort William, Port Arthur, Keewatin, Winnipeg and interior country points are approximately 9,492,000 bu, against 8,658,000 bu a week ago, 12,105,000 bu a year ago, 7,513,000 bu two years ago, 3,075,000 bu three years ago, 7,250,000 bu four years ago, and 3,500,000 bu five years ago.

Improvements representing an expenditure of nearly $20,000,000 are approaching completion or about to be begun on the New York division of the New York, New Haven and Hartford Railroad. This is in addition to the extensive bridge work and track improvement in progress at numerous points on the lines of the system.

Rumors that extra dividends would be declared on Sugar common next month have not so far received authoritative confirmation or denial. There is reason to believe, however, that while such developments may not come in December, they can be counted on as altogether likely to materialize within the next year or so.

A large Steel manufacturer declared recently that all mills and furnaces throughout the country will be running full by March 1, 1905. He added: "Preparations to start up mills that have been idle are being made all along the line. Producers of certain classes of material will not take orders calling for deliveries beyond April 1 next."

A New York banking firm has purchased $6,000,000 of Pere Marquette refunding mortgage fifty-year 4 per cent bonds held by the Cincinnati, Hamilton and Dayton Railway Company, which controls the Pere Marquette Road. These bonds are part of an authorized issue of $60,000,000, and are guaranteed by the Cincinnati, Hamilton and Dayton Road.

The preferred and common stocks of the Kansas City Railways and Light Company are to be placed on the unlisted list of the Chicago Stock Exchange next week and made active. The preferred stock issued is $9,350,000 5 per cent noncumulative. The common issued is $9,500,000. The company controls practically the street railway and lighting business of Kansas City

So pronounced is the improvement in the Iron and Steel trade that the Crucible Steel Company has decided to postpone its bond issue indefinitely. It may not now need to increase its fixed charges at all. Since the annual meeting in October the trade improvement has been rapid. The Crucible company has had such a material share in this improvement that it can avoid an issue of bonds.

A Washington dispatch says: "The call on national bank depositories for 25 per cent of Government deposits has created no flurry, and according to Secretary of the Treasury Shaw, indicates an excellent financial condition generally. The circular call issued several days ago has brought only one request for exception thus far, and that from a bank which has a small Government deposit."

In Trenton, N. J., the Chicago Subway Company was incorporated, Monday, with a capital of $50,000,000 to take over the tunnel properties. All of the stock of the Illinois Telephone Construction Company, capitalized at $80,000,000, and two-thirds of the Illinois Tunnel Company's stock, have been taken over by the new corporation which, it is said, stands ready to take all the stock of both corporations.

A Boston dispatch says: "The Wool market has been more quiet the past week, but it has lost none of it strength Lack of supplies has been the cause of curtailment of business. An average estimate is that there will not be over 20,000,000 lbs of Wool left in dealers' stocks by Jan. 1, a notable decrease from last year. Territory Wools continue active. Pulled Wools are firmer. Foreign grades are quiet."

Kuhn, Loeb & Co. have purchased $15,000,000 Pennsylvania Company forty-year 3½ per cent trust certificates, which are secured by deposits of guaranteed special stocks of the Pittsburg, Fort Wayne and Chicago Railway Company, and guaranteed as to both principal and interest by the Pennsylvania Railroad Company. The Pennsylvania Company represents the Pennsylvania Railroad System west of Pittsburg.

The stockholders of the Edison Company of Boston have voted to increase the capital stock of the corporation from $10,449,100 to $11,494,100, increasing the number of shares by 10,450. These new shares will be offered to stockholders at $200 a share. From this new stock issue the company will receive $2,100,000, which will be used to wipe out the floating debt incurred through the purchase of suburban electric properties and for extensions and improvements to the Boston plant.

North British Agriculturist of Nov. 9 says: "In Scotland the harvesting of the Potato crop is now completed, and has been a very satisfactory one so far as weather is concerned. The crop, generally, is a heavy one, and appears to be all but entirely free of disease in Scotland; but persistent reports are in circulation to the effect that the Lincolnshire crop is not keeping well in the pits, although they had been stored in what seemed to be the best of order."

The New Jersey Court of Errors and Appeals declared the voting trust in the Fisheries Company illegal, Tuesday, ordered the stock held by the Pim committee returned to the shareholders said to be its real owners, and decreed that no election of directors can be held until thirty days after the reassignment. The case was that of Warren against the Fisheries Company which includes many large fishing concerns with their principal branches on the Pacific Coast.

The Tin Plate demand is so great that the United States Steel Corporation will start up eighty idle Tin Plate mills within the next ten days. It is expected by representatives of the American Tin Plate Company that all its mills will be in operation before the end of December. The recent advance of 15c per 100 lbs in Tin Plate has greatly stimulated demand. The Pittsburg Star Tin Plate mills of the American Sheet and Tin Plate Company of the Steel Corporation will start full force at once

Present indications are that the net earnings of the United States Steel Corporation for the quarter ending Dec. 31 will approximate $17,000,000. This figure is exclusive of adjustments that may be made in the valuation of inventories, but will be after charging the ordinary maintenance and repairs and the interest on bonds of subsidiary companies. Presumably the company will follow the custom of a year ago in stating its special appropriations for improvements and its adjustment of inventories, after stating net earnings.

The *Corn Trade News* of Nov. 10 says: "Stormy weather has prevailed in France, but it is expected that it will soon clear again; however, it is hoped that the rain showers will have given the land the moisture of which it has been in want. Country markets rule dull, growers offer but little, but millers have no difficulty in filling their modest requirements; prices have been unchanged, tone firm. At yesterday's Paris weekly market offers were somewhat larger, but holders would make no abatement, while millers were reluctant buyers at recent quotations which were maintained."

It was announced, Tuesday, that the reduction in the Standard Oil Company's recent dividend, which made a total of $36 00 per share declared by that company in 1904, compared with $44 00 in 1903, does not imply a diminished business, but is due entirely to the employment of a large amount of money in the Kansas and Indian Territory Oil fields. The sums set apart for developing the storage and transportation systems of the trans-Mississippi territory will run into millions of dollars. While most of this is idle capital at present it is expected to prove an additional source of large profits in the future.

The shareholders of the Illinois Terminal Railroad have authorized an issue of $500,000 5 per cent twenty-year mortgage bonds, which will be issuable as follows: Two hundred thousand dollars to retire Jan. 1 the present outstanding bonds issued Jan. 1, 1900, which have been called for redemption at par (trustee, Illinois Trust and Savings Bank, Chicago); $150 000 to construct a line from Hartford to Edwardsville in lieu of track leased from the Wabash Railroad, and $150,000 for future extensions of the property. The company was formed in September, 1899, by consolidation of the Illinois Terminal Company and the Mississippi Valley Terminal Company; capital stock, $200,000, in shares of $100 each. It operates several miles of terminal railway at and near Alton, Ill.

In his annual report President Murray says: "The increase in earnings of the Baltimore and Ohio lines proper, as compared with the previous fiscal year, has been more than overcome by the greater operating expenses, resulting in a decrease in net earnings of $2,437,462 The steady increase in earnings which obtained during the early months of the current fiscal year was checked by the marked decline in business activity which succeeded and prevailed to the close of the year, culminating in a partial suspension of operations on the part of Iron, Steel, and other manufacturing industries. The freight earnings of the latter portion of the fiscal year were also seriously affected by the delay in the resumption of lake traffic caused by differences between the lake carriers and their employes."

ITEMS OF GENERAL INTEREST.

New York Exchange 20c premium.

Documentary Sterling steady at 482⅞

Chicago Bank Clearings to-day, $37,230,288.

Duluth stocks of Flax Seed are expected to decrease 125,000 bu this week.

The Kansas State report made the Wheat yield for 1904 Winter and Spring - 65,142,000 bu.

Ten packers purchased 24,700 Hogs to-day; shippers, 4,500, left over, 9,000. Market closed weak.

It is anticipated that the receipts of Hogs at Chicago next week will be liberal, owing to the Live Stock Show.

Stocks of Hog Products at Chicago estimated at 29,000 brls Mess Pork, 12,500 tcs Lard, and 2,700,000 lbs Short Rib Sides.

The receipts of Hogs at Chicago for the week will be about 180 000, compared with 175,589 for the corresponding week last year

Estimated receipts for to-morrow: Wheat, 78 cars; Corn, 456 cars; Oats, 138 cars; Rye, 8 cars; Barley, 90 cars; Hogs, 17,000

Average cost price of Hogs at Chicago, Wednesday, was $4 64, against $4 58 Tuesday, $4 75 a week ago, $5 20 a month ago, and $4 25 a year ago.

The receipts of Wheat at Liverpool during the past three days were 632,000 bu, of which 24,000 bu were American. Receipts of Corn, 205,000 bu, of which 94 000 bu were American

The Census Bureau, Wednesday, issued a preliminary statement of the quantity of Cotton ginned to Nov. 14, 1904, in 475 counties, showing 5,803,830 running bales for 1904, against 4,160,145 in 1903.

Argentine Wheat visible is 2,025,000 bu, against 2,248,000 bu the previous week, and 1,024,000 bu last year. The Argentine Corn visible is 3,821,000 bu, against 3,704,000 bu the previous week and 3,086,000 bu last year.

The New York Cotton market ruled weak, but firmed up a little after an 8 to 14 point decline at the opening. The pressure of professional selling and lack of outside support caused the break. The market closed 8@9 points lower.

Shipments of Wheat from Argentina this week were 848,000 bu, against 984,000 bu the previous week, and 272,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 89,989,000 bu, against 61,136,000 bu same time in 1903.

Shipments of Corn from Argentina this week were 2 655,000 bu, against 2,854,000 bu the previous week, and 1,904,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 88,663,000 bu, against 71,094,000 bu for same time last year.

The *Northwestern Miller* says: "Cables indicate a slow demand for Flour with the exception of Spring Wheat Clear. Owing to lower c. i. f. offers of this grade London reports it in good demand. Spring Wheat Patent is also being offered at prices more nearly in line with the foreign markets."

The shipments of Flax Seed from Argentina this week were reported at 336,000 bu, compared with 35,000 bu last week and 421,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 37,207,000 bu, compared with 24,921,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 30,000 bu, against 140,000 bu for the previous week and 1,521,000 bu for the corresponding week last year. Exports since July 1 were 11,264,000 bu, compared with 24,491,000 bu for corresponding time last year

Dealings on the Local Stock Exchange were restricted to a few lines to-day, and the tone of the market for active Stocks was strong. National Biscuit and both issues of American Can were in fair demand and steady at a small rise. The dealings in Box Board were at a balance and the market was firm.

The Cincinnati *Price Current* reports the packing of the West for the week at 615,000 Hogs, compared with 515,000 for the week previous and 560,000 for the corresponding week in 1903. Total packing in the West since Nov. 1 about 1,645,000 Hogs, compared with 1,455,000 Hogs to date last season, an increase of 190,000.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,332 000 bu, against 1,209,000 bu for the previous week, and 3,854,000 bu for the corresponding week last year Exports since July 1 were 28,643,000 bu, compared with 70,310,000 bu for the corresponding time last year.

The *Modern Miller* in its weekly crop summary says: "There is continuation of drouth conditions in the territory where the largest part of the Winter Wheat crop is raised. There are numerous reports of Wheat fields being infested with Hessian fly, but the damage is not serious, as it is confined largely to early-sown Wheat."

The New York Stock market closed strong again to-day after shares having been liberally sold early in the session. United States Steel issues and Stocks of the outside properties were strong at substantial advances. Standard Railroad shares were steady, led by an advance in Illinois Central Great Western and Clover Leaf were the features of the so-called low-priced group

The *Northwestern Miller* says: "Much complaint is heard in various parts of the Northwest about congested railroads and difficulty in getting cars, but the troubles here are as nothing compared with those now being experienced by the Grain trade in Russia. According to a report from Russian sources via London, some 37,000,000 bu of Wheat are now accumulated on box cars and flat cars, in Russia, with no prospect of clearing it all away till navigation opens next year "

One of the principal witnesses before the Inter-State Commerce Commission at Philadelphia, Wednesday, in the investigation of the freight differential was Edward Francis, general agent of the Allen Line of steamships, who is located in Chicago He testified that the differential or lower rates to Philadelphia and Baltimore secured Grain traffic for export for those ports in competition with New York. At equal rates New York would get practically all the export Grain traffic

The *Northwestern Miller* says. "Wheat stocks in Minneapolis continue on the increase, being now over 2,500,000 bu in excess of last year The present stock of contract grades, however, is 625,616 bu less than a year ago The total stock of contract grades at present is 2,015,728 bu A feature of stocks in public store is that they do not embrace any Wheat classed as Rejected or No Grade. But the quantity of 'special bin' Wheat is large, forming nearly three-fourths of the total, and this may cover any grade "

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand continues very moderate and market rather quiet but steady.

WINTER WHEAT—Was quiet to-day and firmer. A little milling demand existed and besides the few cars sold there were 15,000 bu of mixed lots taken. Offerings small. No. 2 Red in store quotable at $1 12⅝@1 13¼ and fresh arrivals free on board quotable at $1 14½@1 15½. No. 3 Red fresh receipts free on board sold at $1 12 and quotable at $1 08@1 12. No 4 Red sold at 92c. No. 2 Hard in store quotably 2¼c under December and fresh arrivals free on board at $1 10@1 12. No. 3 Hard fresh arrivals free on board quotable at $1 02@1 08. No. 4 Hard sold at $1 02.

SPRING WHEAT—Was in light demand and quiet A very limited milling demand existed. In sympathy with the speculative market the feeling was firm. No. 1 Northern fresh arrivals free on board quotable at $1 16@1 20. No. 2 Northern nominally $1 09@1 13. No. 3 Spring quotable at $1 02@1 10, with a sale at $1 07@1 08. No. 4 Spring sold at 60c for very poor and quotably up to $1 00 for good.

REGULAR WHEAT—A fair trade and stronger undertone most of the session, the close showing December up ⅞@1c, while May gained 1⅛c, and the July ⅝c. Cables, both English and Continental, were stronger; the map was a dry one, with no indication of any betterment, and movement was moderate and 342,000 bu short of last year The news from Argentina also helped the price, damaging rains being reported, with a strike threatened, possibly referring to dock hands. Another Rosario cable read: "Owing to excessive rainfall, damage very serious. Weather now warm and genial " The Ontario Department of Agriculture estimated a total yield of fall and spring Wheat of 13 000 000 bu, against 22,000,000 bu in 1903. The *Price Current* claimed the Wheat crop situation was not essentially changed and not discouraging. Argentine shipped 848,000 bu, making 89,989,000 bu since January 1, against 61,136 000 bu last year The visible there is now 2,025,000 bu, against 2,248,000 bu last week and 1,024,000 bu one year ago. Northwest cars were 73 ahead of last year. Winnipeg had 287 cars, compared with 128 cars one year ago. Duluth stocks are expected to decrease 500,000 bu this week and Minneapolis increase 765,000 bu. Liverpool quoted spot steady to ½d higher and futures 1@1⅛d higher. Receipts there the past three days 632,000 bu. London came ⅜d higher Paris was up ½@¾c. Berlin advanced ⅞c and Buda Pesth was up 1⅝c *Modern Miller* was construed as "bullish." Exports for the week 1,332 000 bu and since July 1, 28,643,000 bu, against 70,310,000 bu for same period in 1903 Kansas City reported the sale of 100,000 bu No. 3 Hard to go to Minneapolis Late selling credited to local elevator interests and many of Wednesday's buyers. Receipts at Duluth 255 cars at Minneapolis 863 cars, total of 1,118 cars against 928 cars Wednesday, 848 cars week ago, and 1,065 cars last year. Local receipts included 16 cars Winter, 8 cars Spring and no cars mixed, a total of 24 cars, against 95 cars last year. Included in above were no cars contract grade. There were also 10 cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 78 cars. The withdrawals were 8 350 bu. Receipts at Western points were 1,358,480 bu, against 1,609,850 bu last year. At Eastern points 118,748 bu, against 304,825 last year. Shipments from Western points 547,623 bu, against 841,076 last year and from Eastern points no bu, against 320,837 bu last year. Shipments of Flour were 7,614 brls. Exports of Wheat in Flour were equal to 33,813 bu.

Future Deliveries of Regular Wheat—Fair trade and closing higher

NOVEMBER—Entirely nominal and closed about $1 09½

DECEMBER—Sold at $1 09⅛@1 10¼. Opened with sales at $1 09½ to $1 09⅝; sold to $1 09⅜, to $1 09½, to $1 09½, to $1 09½, to $1 09⅛@1 09¼, to $1 10, to $1 09¾, to $1 10¼, to $1 09¾, and closed at $1 09¾ bid.

MAY—Sold at $1 09⅞@1 10 and at $1 11 Opened with sales at $1 10@1 10⅛ and at $1 10⅛; sold to $1 10¼, to $1 10⅛, to $1 10¼, to $1 09⅞@1 10, to $1 10⅜, to $1 10⅛, to $1 11, to $1 10¾, to $1 11, to $1 10⅜, to $1 10¾, to $1 10½, and closed at $1 10½ sellers.

JULY—Sold at 99@99⅝c Opened at 99⅝c to 99¼c, sold to 99⅜c, to 99c, to 99⅜c, to 99⅛c to 99½c, to 99⅛c, to 99⅜c, to 99¼c and closed at 99¼c bid

CORN—Just a fair trade and rather unsettled market, the close showing December ⅜c higher, while May gained 1-16c and July ⅛c. Higher prices ruled at the start, December "shorts" covering freely, the distant futures selling up in sympathy. Cables were up, Wheat was higher, and cash situation reported strong, all of which tended to strengthen the situation. At the advance offerings were larger and December settled back ⅜@1c and closed at 49¾c asked. Receipts were fair, 509 cars, making 2,716 cars for the week, against 1,150 cars last year, and 456 cars estimated for to-morrow. Liverpool quoted spot steady and futures ⅜@½d higher. Argentina shipped 2,655,000 bu, making 88,663,000 bu since Jan. 1, against 71,094,000 bu for same period in 1903 The visible there is now reported 3,821,000 bu, against 3,704,000 bu last week and 3,086,000 bu one year ago. The *Price Current* claimed the continuance of dry and mild weather not favoring rapid curing of Corn, but husking and cribbing making good progress Somewhat more talk of yield disappointments. Western receipts were 833,000 bu, against 393,000 bu in 1903. Shipments 328,000 bu and 135 000 bu respectively. Exports for the week 30,000 bu, and since July 1, 11,264,000 bu, against 24,491,000 bu last year. Local arrivals 357,000 bu and shipments 153,000 bu Withdrawals here 25,000 bu. Shipping demand good and holders firm Sales 60,000 bu Car lots were in good demand with offerings fair. Feeling firm and prices ½c higher at the start, but later lost the advance No. 2 old closed about 52c and No. 2 Yellow closed at 57½c. No. 3 closed at 51½c. No. 3 Yellow now sold at 48c and old closed at 57c No. 3 White new 47¼c. No. 4 sold at 44½@46½c No Grade at 38½@44½c.

Corn by sample—Was in good demand and offerings liberal. Market for white and mixed opened ½c higher and later declined to Wednesday's price, while yellow was little changed. Sales on track and free on board: No Grade sold at 38@44½c. No. 4 at 44@53c. No 3 at 47@57c. No. 3 Yellow at 47¾@48½c. No. 3 White at 47@47½c. Billed through: No Grade at 40@43½c. No. 4 at 43½@46c. No. 3 at 46@51c No. 3 Yellow at 46½@48c. No 3 White at 46@46¼c

Future Deliveries of No. 2 Corn—Fairly active and stronger and closed 1-16c to ⅜c higher

NOVEMBER—Inactive; nominal close 50¾c.

DECEMBER—Sold at 49¼@49⅝c and 50¼c. Opened excited at 49⅞c to 50¼c and sold at 49¾c, to 50c, to 49¾c to 49⅞c to 49¼@49⅜c, to 49½c, to 49⅜c, to 49⅝c, to 49½c, to 49¾c, and closed at 49¾c asked

JANUARY—Sold at 44⅞@45½c Opened at 45½c and sold at 44⅞c and closed at 44⅞c.

MAY Sold at 45⅞@46¼c. Opened at 46c to 46¼c and sold at 46⅛c, to 46@46⅛c, to 46¼c, to 46⅛c, to 46¼c, to 45⅞c, to 46c, to 45⅞c, to 46c, to 45⅞@46c, and closed at 45⅞@46c bid

JULY—Sold at 46@46⅛c. Opened at 46⅛c, and sold at 46@46⅛c, to 46⅛c, to 46c, to 46⅛c, to 46c, and closed at 46c bid.

OATS—Prices held within limits of ⅛c, except for December, which ranged over ⅛@¼c, closing that amount higher, with May a shade higher and July a shade lower. The relative December strength was due to selling of May and buying of the near-by delivery by cash interests Trade outside of this was unimportant. Arrivals were 107 cars, and 138 are estimated for to-morrow. Country acceptances were reported slightly better. Withdrawals from store 6,300 bu and seaboard clearances nothing. Cash prices were steady to ¼c higher.

Oats by sample were steady for poor and ¼c higher for choice, with offerings light. Sales on track and free on board: No. 4 White sold at 31c. No. 3 White at 30½@32½c. Standard at 31½@32½c. No 2 at 30@30½c. No. 2 White at 32@32¼c Billed through. No. 4 at 28c. No. 4 White at 27@31c No 3 White at 31¼@31¾c. Standard at 31½@31¾c. At the river: No. 4 White at 29@30c. No. 3 White at 29¾@30¼c

Future Deliveries of Contract Oats—Steady.

NOVEMBER—Closed at 30¼@30⅜c.

DECEMBER—Sold at 29⅛c to 29¼@29⅜c. Opened at 29⅛c, sold to 29¼@29⅜c, and closed at the latter.

MAY—Sold at 31½c to 31⅜c Opened at 31½c, sold to 31⅜c, and closed at 31½c.

JULY—Sold at 31½c only and closed there.

RYE—Was quiet and steady. A little better demand existed for the fresh receipts, but futures very quiet. Only five cars received. There were withdrawn from store 5,100 bu and one car No exports from New York. No 2 in store nominally 78c, and fresh arrivals free on board sold at 78@80½c—outside for choice. No. 3 sold at 77½@78c.

Future Deliveries of No. 2 Rye—Quiet. December nominally 78c. May sold at 80c.

BARLEY—There was a very nice trade in malting grades An accumulation of cars over yesterday's adjournment gave the market a somewhat increased supply. The market also was favored with a better demand. Several maltsters who lately have given little attention to the market were to-day buying. The feeling was firm. It could not be said, however, that any gain in prices was made. Feed Barley also in demand for export account; very little of this offered. Screenings quiet with fair offerings, and best cars fair sale, but dirty, seedy lots slow. There were only 29 cars posted but receipts were larger than that and the showing will probably come to-morrow. There were sales of Screenings at 28@38c and market for same quotable at 26@38c for poor dirty to very choice Barley—low-grade feed, salable at 38@38½c local and sold at 36½@38½c river. Malting, low grade, small berry, or heavy but dirty, quotable at 39@41c; clean, fair to good, at 42@45c, and large berry, heavy, quotable at 46@48c, with choice to fancy 49@52c.

SEEDS—A firm feeling prevailed in Timothy Seed with a small improvement, while Clover and other Grass Seeds were lifeless and unchanged. There was a weaker feeling in Flax and for Buckwheat a shade lower prices were quoted

Timothy—There was a firm but quiet market. A lead of 2½c advance paid for March delivery caused the entire market to follow along in a firm way. There were few cash lots on sale Contract spot or November delivery was called nominally $2 70 and January $2 75 March sold at $2 85 for a few cars and that remained bid. Market for country lots was quotable at $1 75@2 60 for low grade to fancy; inferior lower, fair to good, $2 35@2 45; and rough dirty or hulled $2 20@2 31.

Flax—A decline of ½c from Wednesday's quotations was quoted. It was a nominal decline, due mainly to less favorable Northwestern advices. There were no offerings of any kind on the market. Posted 1 car or 900 bu received, and 4 cars or 4,216 bu taken out. Minneapolis got 81 cars and Duluth 257 cars. No. 1 Northwestern was nominally $1 19, and No. 1 was $1 11½ Rejected, depending on quality, quotable at $1 09@1 16. November and December both were nominally $1 11½ and May held at $1 20.

Clover—Was quoted as steady to firm, but there was none on sale, a fact which rendered the market inactive. Contract grade, spot or November delivery, remains nominal at $12 25. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—Were quotably steady all around, with the regular market without offerings. Following prices were said to be obtainable Hungarian $1 05@1 15 for common to choice Millet, common, was quotable at 90c@$1 15 for common to choice. German at 90c@$1 25. Siberian at 80@90c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 75c@$1 00 Buckwheat easy under fair arrivals; good quality at about $1 20@1 25

HOG PRODUCTS—Only a moderate business was reported in Hog Products, and the undertone to the market was stronger. Outside orders were comparatively small, and local trading was only fair. Hogs were in good supply, and prices ruled lower, but this feature had little effect on the market, being offset by the strength in Grain. Offerings were moderate, and the demand was only fair. Trading almost exclusively in the deferred deliveries. Prices ruled higher on all the leading articles, and the appreciation was fairly well supported to the close. Foreign markets were quiet and dull, and Cumberland Sides were quoted 6d lower. Domestic markets steady. Receipts of Hogs at the leading Western packing points were estimated at 92 800, compared with 57,500 one year ago. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited an increase of 55,000 Hogs. Receipts of Products were rather liberal—of Lard and Meats about 38 cars. Shipments were fairly large of Lard and Meats about 158 cars. Inquiry on shipping account was moderate, and offerings were fair Exporters not inclined to purchase to any extent. Domestic demand was moderate. Offerings were fair, and holders inclined to grant concessions for partly cured Products. Sales were somewhat limited, and prices were without material change.

Mess Pork—A moderate business was transacted in Mess Pork, and the feeling was steadier. Offerings were not very large, and the demand was fair. Trading almost exclusively in the deferred deliveries, with May most in favor Prices ruled 17½@22½c higher, and the advance was fairly well supported to the close. PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Nov. 24.]

There has been considerable enlargement in the marketing of Hogs the past week, the gain over the preceding week being 100,000, against which there was a gain of 105,000 last year for the corresponding comparison. Total Western packing 615,000 Hogs, compared with 515,000 the preceding week and 410,000 two weeks ago. For the corresponding time last year the number was 560,000 and two years ago 465,000. From Nov. 1 the total is 1,645,000, against 1,455,000 a year ago, an increase of 190,000. There has been some betterment in the average quality of current marketings, and as a rule it is quite satisfactory. Prices are easier, prominent markets at the close indicating an average of about $4 55 per 100 lbs, compared with $4 65 a week ago, $5 00 two weeks ago, $4 25 a year ago, $6 05 two years ago, and $5 70 three years ago.

There was fair activity in the speculative Provision market the past week. The tone of the market was easy early in the period, but as the week progressed a stronger feeling prevailed, and there was recovery of practically all of the loss in values, the close being fractionally lower than the close a week ago at Chicago for leading articles. The Grain markets seemed to have more influence on the trade than the liberal offerings of Hogs and the lowering of prices for them. The low point of the week in both Grain and Provisions was reached on Monday, and with strengthening of the Grains, Provision prices rose while Hog prices declined. The export clearances of Product were liberal and show an increase over the preceding week, and a gain over the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city

Minneapolis mills ground 42,912 brls more Flour last week than the week before. With more milling capacity in operation than a week ago the output for the current week should show an increase and is likely to approximate 320,000 brls.

Flour trade has been quiet this week; indeed some millers report it absolutely dead, while others speak more encouragingly and report fair sales with about the usual proportion of shipping directions coming along.

The prevailing opinion seems to be that if the market would become steady now, there would be fairly good buying at the reduction in price that millers have made. Millers are hoping for some change that will give them a satisfactory margin, which they are not now obtaining.

The large jobbers who generally place extensive orders in the autumn do not appear to have bought heavily this year. Flour stocks in the hands of the Eastern trade are by no means large, so the situation appears to be such that a satisfactory trade may ensue at any time that dealers become satisfied that Flour has got down to a safe basis.

During the week under review a certain amount of Flour has been sold for export, but the last few days export sales have dwindled away to the vanishing point.

The heavier sorts of Feed, including Red Dog, are called slow of sale by shippers, but millers report no difficulty in disposing of their Bran and Feed.

Minneapolis and outside millers quote Patent at $5 65@5 75 per brl in wood f.o.b Minneapolis.

Eastern prices to day (Nov. 22) asked by Minneapolis and outside mills for Patent in wood, were: Boston rate points, $6 25; New York rate points, $6 20, Philadelphia rate points, $6 15; Baltimore rate points, $6 0; Albany rate points, $6 20; Utica, Syracuse, Hornellsville and Rochester rate points, $6 15; Ohio, lower peninsula of Michigan and Indiana, $6 05; upper peninsula of Michigan, in sacks, $5 75; Missouri points, $5 65; Wisconsin, Iowa and Illinois, $5 80.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Nov. 24.]

Dry weather conditions have continued to prevail, the past week being without precipitation to an extent calling for record, in any district of the Central and Western regions. The mildness of temperature has not been favorable to rapid curing of sappy Corn. Such Grain needs frosty or freezing conditions to promote the drying process. In various localities the husking of Corn from the shocks has been retarded by the dry conditions of the stalks, serving to make it difficult to handle them acceptably. Much progress has been made, however, in a general way, in husking and cribbing this Grain. The interior movement into market channels is enlarging, but is not notably active, considering the understood plentifulness of the production. The husking evidences of yield are disclosing deficiencies in many instances, in comparison with the reported expectations earlier. Such returns, however, as mention estimated yields per acre appear to give such figures as to imply averages suggestive of as good general results as have been officially reported and accepted by the general trade. The 2,450,000,000 bu estimate may be regarded as not excessive.

The continuance of dry weather has somewhat increased the unfavorable talk about the situation and appearance of the new crop of Wheat. There is deficiency in growth as compared with ordinary conditions at this period, to a large extent, and in some instances actual impairment of the crop has apparently occurred. But when the nature of the Wheat plant is taken into full consideration it must be conceded that the situation now attending the crop is not of a discouraging nature. It would be made more assuring by having good rains without much further delay.

The Wheat markets have yielded to the burdensome position to which they have been carried and maintained by influences more speculative than natural, but it should not be expected that the important recession in prices which has recently developed is to be regarded as the beginning of a downward course greatly below the depression already reached. While it is true that Wheat values in this country are abnormally high as compared with other food products, the conditions are such that sentiment and speculation may be expected to maintain an unusual disparity in such values.

LIVE STOCK EXPORTS.

[From the Chicago Drovers' Journal.]

That the exports of Cattle, Hogs and Sheep have, generally speaking, more than held their own thus far this year will be a matter of satisfaction to Live Stock men in general. As long as exports play a prominent part in the marketing of Beef Cattle and Mutton Sheep, as is true at the present time, breeders, feeders and exporters in general will regard a steady growth with interest. During the ten months ending with October, the figures just issued by the Department of Commerce and Labor show a gradual increase from the principal customs districts of this country.

Cattle exports for the ten months ending with October amounted to 451,761 head, valued at $33,606,166 as compared with 382,653 head, valued at $29,919,462, for the same ten months of 1903. October, however, has not quite held its own, since only 42,879 head were exported last month, against 46 998 for the same month in 1903.

Hogs lost a little. For the ten months of 1904 there were only 2,868 head, valued at $27,840, exported, as compared with 2,898, worth $29,623, shipped abroad during the same ten months of 1903. The exports for last month are proportionately small, but less than for the same month a year ago.

Sheep exports are booming. During the first part of the year ending with October there were exported from this country 287,735 head of Sheep, valued at $1,829,436, against 151,261 head, valued at $942,029 for the same ten months of 1903. October shipments have also grown. Last month there were shipped from this country 27,004 head of Sheep, as compared with 15,192 head for October of 1903.

Not only are the Live Stock exports holding up well, and in most cases making most substantial gains, but dressed products are also gradually increasing. There is scarcely any need of other evidence to demonstrate that our exports are popular abroad, and that as long as we continue to send quality there will be an ever-increasing market.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Nov. 23.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 42 "outside mills" with a daily capacity of 32,000 brls, from Jan. 1, 1904, to Nov. 12, 1904, with comparisons:

	1904 Flour, brls.	1904 Wheat, bu.	1903 Flour, brls.	1903 Wheat, bu.

THE RUSSIAN GRAIN TRADE.

[London Times Correspondent.]

Owing to the extraordinary accumulations of Grain in railway sidings, the Russian Grain trade as a whole has latterly become completely disorganized. Grain blocks on various Russian lines not infrequently occur towards the end of the year in Russia, but this year they are more extensive than usual. The official returns a few days ago put the blocks on the Southeastern and Samara-Slatoust lines alone at 24,127 vans and trucks, containing about 290,000 English tons, and 10,409 vans containing roughly 122,000 tons. The total Grain block in Russia is returned at the remarkable figure of 91,186 vans and trucks, containing about 1,050,000 tons of Grain. This would load 525 steamers and sailing vessels of an average carrying capacity of 2,000 tons. The Grain blocks are bound to assume even greater proportions during the next few weeks, and it is exceedingly doubtful whether the last of the sidings will be cleared without the assistance of the waterways at the opening of next year's navigation. In the meantime the losses, many of which have to be borne by the mujiks themselves, are most serious.

ITEMS OF GENERAL INTEREST.

The International Paper Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable Dec 31.

The Chicago and Northwestern's gross earnings for October were $5,372,570, a decrease of $175,608; from July 1 $20,313,294, an increase of $21,627.

A report that Reading will go on a 3 per cent dividend basis in January comes from a source which Wall Street would consider well informed on such a point.

The Railway Steel Spring Company has declared the regular quarterly dividend of 1¾ per cent on its preferred stock, payable Dec. 20. Books close Dec. 9 and reopen Dec. 21.

The American Waltham Watch Company has declared a semi-annual dividend of 4 per cent and an extra dividend of 2 per cent, payable Dec. 10 to stockholders of record Nov. 22.

The Rubber Goods Manufacturing Company has declared the regular quarterly dividend of 1¾ per cent on the preferred stock, payable Dec. 15. Books close Dec. 6 and reopen Dec 15.

The United States Leather Company has declared the customary quarterly dividend of 1½ per cent on its preferred stock, payable Jan. 1 to stockholders of record Dec. 10.

The Underwood Tyewriter Company has declared a semi-annual dividend of 3 per cent each on its first and second preferred stocks, payable Jan. 1 to stockholders of record Dec. 10.

The management of the Pennsylvania announced Wednesday, the completion of the double track between Chicago and Pittsburg. It will be put in use Saturday over the entire distance.

A dividend of $4 00 per share on the stock of the Boston and Lowell Railroad Company will be paid Jan. 3, 1905, to stockholders of record Nov. 26. Books will be closed for the week ending Dec. 3.

The Laclede Gas Light Company, of St. Louis, has declared the regular semi-annual dividend of 2 per cent on its preferred stock and the regular quarterly dividend of 1 per cent on its common stock, both payable Dec. 15. Books close Dec. 10 and reopen Dec. 16

J. J. Sullivan, receiver for the Aultman Company, of Canton, Ohio, has reported that the liabilities of the company, which manufactured farm implements, were nearly $7,000,000, direct and contingent, and that the assets are $1,644,100. He says the creditors will receive 25 to 30 per cent.

Information received in Chicago from New York, Wednesday, was to the effect that the deal between the United Box Board and Paper Company and the independent manufacturers of box board, which has been under negotiation for two and one-half months, has fallen through. While no formal declaration has been made that the deal is off, the circumstances are such as to make it almost certain that the matter has been abandoned.

There was a little selling of the preferred stock of the Kansas City Railway and Light Company on the Chicago Stock Exchange, Wednesday. It is the intention to formally list the securities of the company on the Chicago Exchange, where they are now traded in on the free list. The statement that the preferred stock of the company is not paying dividends is an error. Dividends were suspended for a time last year, owing to the great flood in Kansas City, but have since been resumed, and a quarterly dividend of 1¼ per cent is payable December 1. The common stock has never paid any dividends. The authorized issue of the preferred stock is $12,500 000 and of the common $12,500,000. Of these only $9,350,000 of the preferred and $9,500,000 of the common have been issued. The preferred is limited to 5 per cent annually, but is not cumulative.

Executive officials of Western roads met in Chicago, Wednesday, and agreed to discontinue their divisions of the through rates with the so-called industrial roads. This action was in deference to the recent finding of the Inter-State Commerce Commission that the divisions are excessive and amount to the payment of rebates to shippers. The railroad officials agreed that they would offer to pay the industrial roads a maximum of $3 50 per car for the delivery of cars brought over the lines of the industrial roads. The action was harmonious and if carried out probably will prevent action by the Government to collect fines for violations of the Elkins law, and also will save the railroads about $3,000,000 annually. The interests that will be most severely hit by the new deal are International Harvester Company and the United States Steel Corporation. These companies were securing from the railroads division of the rates, which amounted to $20 and $25 per car on shipments from Chicago to the Missouri River.

Reports have been given circulation that Standard Oil interests had purchased at a stipulated price H. O. Havemeyer's interest in the American Sugar Refining Company. H. O. Havemeyer would, the reports stated, resign the presidency of the American Sugar Refining Company, but would give his moral support to the company and would not again enter the Sugar refining business. The Standard Oil Company would, it was further stated, assume control of the American Sugar Refining Company. The remaining interest in the American Beet Sugar Company not at present owned by the American Sugar Refining Company was, according to these reports, to be purchased by giving one share of American Sugar Refining Company stock for two of American Beet Sugar Company, the American Company increasing its capital for that purpose. The reports, however, did not seem to be taken seriously at either end of Wall Street. A friend of Mr. Havemeyer said that not the slightest basis existed for the statement that Mr Havemeyer had decided to sell out his Sugar holdings. So far as purchasing the remaining holdings of the Beet Sugar Company was concerned, he did not believe, even if finally decided on, it would mean the issue of any new Sugar trust stock. Another representative of the Sugar trust declared the entire series of reports to be ridiculous.

Banks hold $8,381,375 in excess of legal requirements.

Favorable weather throughout Germany has worked a great improvement in the condition of the cereal crops. On a scale of 2 for good and 3 for medium, Winter Wheat was rated at the middle of November at 2.2, which has not been excelled since 1893, and was equalled only in 1901. Winter Rye at the same time was rated at 2.2, which was better than the average since 1893.

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 79,000 brls of Flour and 83,000 bu Wheat, against 89,000 brls Flour and 61,000 bu Wheat the preceding week, a decrease of 10,000 brls of Flour and an increase of 22,000 bu Wheat. For the corresponding week last year the exports were 218,000 brls of Flour and 1,237,000 bu of Wheat.

The New York Stock market closed strong for the most part at small advances over opening prices. The Steel issues were features of the trading, but ended with narrow gains. Copper was the active feature, closing 1¾ points higher. Illinois Central's advance of 1⅝ points led the Rail Stocks, which were firm. Great Western was to the fore among low-priced Rails, and Pressed Steel Car common led the Industrials of that group.

The Duluth correspondent of the *Northwestern Miller* writing under date of Nov. 22, says: "Several million bushels of Flax Seed have been contracted for fall shipments to Buffalo and winter storage there aboard ship. The base of most of this chartering has been 2¾@3c, though a few cargoes have been taken at 2½c. Aside from what may have been done by the American Linseed Company, there have been some 2,500,000 bu of this stuff, and it is expected that at least 4,000,000 bu of Flax Seed will go out from here before the close of the season. There are now 7,000,000 bu here, and it is coming at the rate of 1,250,000 bu weekly, a rate that may prevail for a time yet, as there are intimations of large forwardings from the country. In spite of this large stock and the immense weekly receipts there is a premium of 2c per bu for cash over December or to-arrive Seed."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Dull and dragging, with the feeling easy.

WINTER WHEAT—Very quiet and feeling easier. Scarcely any trading to-day. Buyers not at all anxious. Offerings small. No. 2 Red in store quotable at $1 12¼@1 13½ and fresh arrivals free on board at $1 13½@1 15½. No. 3 Red fresh receipts free on board quotable $1 08@1 13, with a sale at $1 13. No 4 Red sold at $1 00. No. 2 Hard fresh arrivals free on board quotable at $1 08@1 10 and No. 3 Hard at $1 02@1 07½.

SPRING WHEAT—Was quiet and so little doing it was difficult to establish quotations. However, the feeling was generally easier. Choice Wheat was salable, but poor Wheat was dull. No. 1 Northern fresh arrivals free on board quotable at $1 15@1 18. No. 2 Northern quotable at $1 10@1 13. No. 3 Spring hard variety sold at $1 10 and was quotable at $1 00@1 10. No 4 Spring free on board sold at 85@97¼c and was quotable at 80c@$1 00 for poor to choice, with sales at the river at 95¼@98¼c. No Grade sold at 60c.

REGULAR WHEAT—The declines ranged between ⅜@⅝c. The reactions from the lowest points reached were made upon the reported large sales of Flour at Minneapolis, some putting them as high as 62,000 brls. The particulars were not obtainable, the sales being made in sub rosa manner. There was "long" Wheat to come out on the hard spots. Cash business dull in all positions. Trade was mainly local and prices averaged lower. The "bears" were not disposed to depress values by large offerings, while on the other hand the "bulls" showed no disposition to support the market. Word came from Argentina via London that the weather there is clearing, but this cable was about offset by talk of labor troubles in that country. The buying as well as the selling was led by the largest houses in the trade. World's shipments for the week are stated by *Broomhall* at 8,800,000 bu, or 2,708,000 bu less than a week ago and 1,500,000 bu less than a year ago. The same authority predicts a good sized decrease on ocean passage. Imports into the United Kingdom the past week 4,500,000 bu, compared with 4,594,000 bu the week before and 4,736,000 bu a year ago. English farmers' deliveries the past week were 328,000 bu at 92c, compared with a like amount at 91¼c the week before, and 440,000 bu last year at 80¼c. The English visible increased 617,000 bu for the week, compared with an increase of 1,217,000 bu a year ago. Liverpool was unchanged to ⅜d higher. London ⅛d higher. Paris ⅛c higher. Buda Pesth ⅛c higher. Berlin ⅛c lower. Antwerp was unchanged. Northwestern receipts for the week 5,022 cars, compared with 4,040 cars the week before and 4,674 cars a year ago. Australian shipments were 352,000 bu, against 304,000 bu the previous week. A report from Minneapolis told of 600 cars Wheat on track there owned by one party. Receipts at Duluth 143 cars at Minneapolis 517 cars, a total of 660 cars, against 1,118 cars yesterday, 805 cars a week ago, and 683 cars last year. Local receipts included 60 cars Winter, 30 cars Spring and no cars mixed, total of 80 cars, against 95 cars last year. Included in above were no cars contract grade. There were also 18 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 59 cars. The withdrawals were 1,100 bu. Receipts at Western points were 1,078,103 bu, against 1,331,136 bu last year. At Eastern points 70,699 bu, against 161,058 last year. Shipments from Western points 499,431 bu, against 489,455 last year and from Eastern points 58,704 bu, against 105,445 bu last year. Shipments of Flour were 35,355 brls. Exports of Wheat in Flour were equal to 217,801 bu.

Future Deliveries of Regular Wheat—Fair trade and closing lower.

NOVEMBER—Entirely nominal and closed about $1 05⅝.

DECEMBER—Sold at $1 08⅝@1 08¾ and at $1 09⅞@1 10. Opened with sales at $1 09½ to $1 09⅝; sold to $1 09⅞@1 10, to $1 09⅜, to $1 09½, to $1 09¼, to $1 09, to $1 08⅝@1 08¾, to $1 08⅞ and closed at $1 08⅞ bid.

MAY—Sold at $1 09¾@1 10⅝. Opened at $1 10¼ to $1 10½, sold to $1 10⅝, to $1 10¼, to $1 10½, to $1 09⅞, to $1 10⅛, to $1 09¾, to $1 10, to $1 09⅞, to $1 10, and closed at $1 10 asked.

JULY—Sold at 98⅝@99½c. Opened at 99½c to 99¼c; sold to 99⅜c, to 99c, to 99¼c, to 98⅝c, to 98⅞c, and closed at 98⅞c.

CORN—The close was 1c lower for the nearby months and about ⅛c lower for the more deferred. "Longs" seemed to back away from probable deliveries. The cash sales included about 30 loads at the seaboard and 70,000 bu were sold here. The continued brilliant Corn making weather was against the "bulls," and this fact was felt in the December market, which was the weakest spot on the list. Some of the "longs" in that future were willing to get out at a loss, and the increased offerings depressed the market, as the buying power was lacking. Local receipts were 618 cars, but none of it contract. For Monday, 529 cars are expected. Primary receipts of Corn for the week were 3,711,000 bu, compared with 3,072,000 bu the week before and 2,120,000 bu a year ago. Liverpool was unchanged to ⅛d higher, with the spot demand for La Plata cargoes good on Continental account. Primary receipts for the day 886,000 bu, against 563,000 bu a year ago. Clearances for the day 90,000 bu. Car lots were quiet and prices ½@1c lower. Demand only fair and supply liberal. No. 2 closed at 51½c. No. 2 Yellow closed at 57c. No. 3 old closed at 61c. No. 3 Yellow new sold at 47½@47¾c and old closed at 58½c. No. 4 sold at 45@45¾c for new and 46c for old but poor.

Corn by sample—The offerings were large and demand only fair. Prices ruled steady to 1c lower, with most of the decline on poorer grades of yellow. Sales on track and free on board: No Grade sold at 40@45½c. No. 4 at 44½@47c. No 3 at 47@47¼c. No 3 Yellow at 47½@47¾c. No. 3 White at 46½@47c. Billed through: No Grade at 40@44c. No. 4 at 43½@45½c. No. 3 at 45½@46½c. No. 3 Yellow at 46¼@46½c. No. 3 White at 45¾@46c.

Future Deliveries of No. 2 Corn—Dull trade and market ⅛@1c lower. December suffering most.

NOVEMBER—Closed nominally 1c lower, at 49¾c.

DECEMBER—Sold at 48½@49½c. Opened at 49½c to 49⅜c, sold to 49⅜@49½c, to 48¾c, to 49c, to 48½c, to 48⅞c, to 48½c, to 48⅝c, closing at 48¾c bid.

JANUARY—Sold lightly at 44½c.

MAY—Sold at 45¾@45⅞c. Opened at 45⅞c, sold to 45¾c, to 45⅞c, to 45¾c, closing at 45⅞c bid.

JULY—Sold at 45¾@45⅞c to 45⅞c and closed at 45⅞c.

OATS—Resisted the declining tendency in other markets. There was no selling pressure from any source and also little demand. The closing prices are steady, except for July, which gained slightly. There was moderate covering of May by Northwestern "shorts" and buying of July by Provision houses which absorbed the scattered pit offerings. Receipts were 169 cars and 71 cars are estimated for Monday. Withdrawals from store were 800 bu and the seaboard cleared 18,035 bu. Country acceptances were light. The cash market was steady.

Oats by sample steady to ¼c lower. Offerings moderate, demand fair. Sales on track and free on board: No 4 White sold at 30@31c. No. 3 White at 30¾@32c. Standard at 32@34½c. No. 2 White at 34½c. Billed through: No Grade at 27½c. No. 4 White at 30¾c. No 3 White at 31@31½c. Standard at 31¼@31½c. No 2 White at 31¾c. At the river: No. 4 White at 29¼@29½c. No 3 White at 29¾@30c. Standard at 30½c.

Future Deliveries of Contract Oats—Steady.

NOVEMBER—Closed at 30¼@30⅜c.

DECEMBER—Sold at 29⅛c to 29¼@29⅜c. Opened with sales at 29¼c and 29¼@29⅜c, and closed at 29¼@29⅜c.

MAY—Sold at 31⅜c to 31½c. Opened at 31⅜@31½c, sold to 31½c, to 31⅜c, and closed at 31½c.

JULY—Sold at 31½c to 31½@31⅝c. Opened at 31½c, sold to 31½@31⅝c, and closed at the latter.

RYE—The market was very quiet and unchanged. A few cars of fresh receipts offered, but there was little demand. Millers and distillers indifferent and not anxious. Futures neglected. There were seven cars received and one car withdrawn from private warehouse. No exports from New York. No. 2 in store nominally 78c. Fresh receipts free on board sold at 78½@80c—depending on quality. No 3 quotably about 77@78c.

Future Deliveries of No. 2 Rye—Neglected. November nominally 78c. December nominally 78c. May nominally 80c.

BARLEY—There was a good supply of malting Barley offered, at the same time little of the low and mixing grades. Of late there has been an improvement in the average quality of the receipts. To-day maltsters were again present and they were fair buyers, and yet no anxiety was manifested. Values were not materially changed, though late in the session there was said to be in evidence a little weaker feeling, especially for the better grades. It was easier to purchase them than it has been. Receipts were posted as 93 cars. Little was done in Screenings; prices remain quotable over a range of 26@36c for poor dirty to very choice. Barley—low-grade feed, salable at 38@38½c local. Malting, low grade small berry, or heavy but dirty, quotable at 39@41c; clean, fair to good, at 42@45c, and large berry heavy, quotable at 46@48c, with choice to fancy 49@52c.

SEEDS—No business to speak of was done, at the same time Timothy was unmistakably firmer, there being 2½c advance. No. 1 Flax also was a little better, and these were the only changes noted.

Timothy—A firmer feeling and 2½c advance in prices was quoted. This occurred without any business being done aside from the sale of some spot delivery contract Seed at $2 72½. A firmer feeling seemed to have for its basis the late speculation in March delivery and a falling off in cash offerings. To-day there were no fresh country lots offered. January delivery was quoted nominally $2 77½ and March at $2 87½. Cash Seed on the regular market, country lots, were quotable at $1 75@2 60 for low grade to fancy; inferior lower; fair to good, $2 37½@2 47½; and rough, dirty or hulled, $2 20@2 30.

Flax—No. 1 cash and nearby delivery quoted 1½c better to-day. No 1 Northwestern and May delivery as unchanged. Advices from the Northwest denoted some improvement there. Local receipts increased, being 17 cars or 15,300 bu, but no offerings and no trading in cash Seed could be learned of. No output appeared. Northwestern receipts were 33 cars at Minneapolis and 153 cars at Duluth. No. 1 Northwestern was quoted at $1 19 and No 1 at $1 12. Rejected, depending on quality, quotable at $1 09@1 16. November and December both were nominally $1 11½ and May at $1 20.

Clover—Remains steady. No change could be learned of either in prices or tone of the market. There was again an absence of sellers. Contract grade, spot or November delivery, remains nominal at $12 25. Country lots, common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $9 50@11 00.

Other Seeds—Steady and salable at late prices, but inactive, owing to an absence of offerings. Hungarian $1 05@1 15 for common to choice. Millet, common, was quotable at 90c@$1 15 for common to choice, German at 90c@$1 25, Siberian at 60@80c, Broom Corn Millet at 95c@$1 10, and Early Fortune about 75@90c. Mustard about 7c@$1 10. Buckwheat remains easy; good milling sold at $1 25.

HOG PRODUCTS—A fair speculative trade was reported in Hog Products and the undertone to the market was stronger. Not much business on outside account, but local trading was fair. Offerings were comparatively light, while a fairly good demand prevailed. A few scattering trades were made in the near deliveries, but the deferred deliveries were fairly active. "Shorts" bought moderately. Market opened rather strong, with slight advances in a few instances, and after the early orders were provided for, small reductions were submitted to. Later, the market was firmer, prices rallied again, and closed comparatively steady around outside figures. Hogs were in good supply and prices were well maintained. Good supply anticipated next week, owing to the Live Stock Show. Receipts at the leading Western packing points were liberal—60,800, compared with 36,000 one year ago. Foreign markets were decidedly stronger, and Liverpool quotations were advanced 6d on Backs, Hams and Cumberland Sides and 3d on Lard. Domestic markets were quiet, but a steadier feeling prevailed. Receipts of Products were quite large—of Lard and Meats about 46 cars. Shipments were fair—of Lard and Meats about 125 cars. Receipts of Products for the week from interior packers were unusually large—about 183 cars. Demand on shipping account was moderate and mainly for home wants. Sellers a little more independent in their views and not pressing much property for sale. Prices favored sellers, with moderate trading.

Mess Pork—A fairly good business was transacted in Mess Pork, and the feeling was stronger in a general way. Offerings were moderate, and the demand was fairly active. Trading mainly local. Market opened rather firm, but a little pressure to sell caused a decline of 5@7½c. Later, the market was stronger, and prices rallied 12½@15c, and the market closed rather steady around outside figures. Shipping demand was light, and offerings were moderate. Cash lots quotable at $11 50@11 60.

NOVEMBER—Quiet and quotable at $11 55.

DECEMBER—Sold sparingly at $11 45@11 55, and closed steady at $11 55.

JANUARY—In good request and offerings were moderate. Sales were made at $12 77½@12 92½. Opened at $12 85, sold to $12 77½@12 80, to $12 85, to $12 82½, to $12 90, to $12 85, to $12 92½, and closed steady.

MAY—Offerings were not very free, and the demand was active. Sales were made at $12 90@13 05. Opened at $12 97½, sold to $12 90, to $13 05, to $12 97½, to $13 05, and closed steady.

Lard—Trade was fair in the Lard market, and the feeling was rather steady. Offerings were moderate, and the demand was fair. Foreign advices were more favorable to holders. Market opened rather steady, but eased off a trifle and prices receded 2½c. Later, the feeling was steadier and the decline was recovered. Market closed rather steady around outside figures. Demand on shipping account was limited, with light offerings. Cash lots were quiet at about November figures, closing at about $7 07½. Loose lots in moderate request, with fair offerings. Prices were quotable at 4½c discount on January figures. Leaf Lard was in limited demand, with fair offerings. Prices quotably steady at $6 75. Neutral in light demand, with only fair offerings. Prices quotably steady at $8 00@8 12½ for No. 1, and $7 50@7 62½ for No. 2.

NOVEMBER—Quiet and rather firm at $7 07½.

DECEMBER—In moderate request and sold at $7 00@7 02½, and closed steady at $7 02½.

JANUARY—In fair request, with moderate offerings. Sales were made at $7 05@7 10. Opened at $7 07½, sold to $7 05, to $7 10, to $7 07½, to $7 10, and closed steady.

MAY—Offerings were fair, and the demand was moderately active. Sales were made at $7 22½@7 27½. Opened at $7 25 to $7 22½@7 25, sold to $7 22½, to $7 27½, to $7 25, to $7 27½, and closed steady.

Short Rib Sides—A fair business was reported in the market for Short Rib Sides and the feeling was rather steady. Offerings were not very free, and the demand was moderately active. Trading exclusively in the deferred deliveries. Market opened rather steady, but a little pressure to sell caused a reduction of 2½@5c. Later the market was stronger, and prices rallied 5@10c, and the market closed comparatively steady around outside figures. Shipping demand only fair, and offerings rather light. Cash lots quotable at $6 62½@6 75 according to weight.

NOVEMBER—Quiet and quotable at $6 70.

JANUARY—In rather good demand with fair offerings. Sales were made at $6 57½@6 62½. Opened at $6 57½, sold to $6 62½, to $6 60@6 62½, to $6 62½, and closed steady.

MAY—Offerings were not very large, and the demand was good. Sales were made at $6 72½@6 82½. Opened at $6 77½, sold to $6 72½, to $6 75@6 77½, to $6 75, to $6 80@6 82½, to $6 77½, to $6 80, and closed steady.

Other Meats—Trade only moderate and the feeling was steadier. Domestic demand was only fair, and orders from abroad were limited. Offerings of all kinds were not very large. Green Meats in light demand and prices comparatively steady. Pickled Meats in limited demand, with fair offerings. Prices were unchanged. Dry Salted Meats in fair request with moderate offerings, and prices ruled higher. Smoked Meats called for moderately, and prices were unchanged. Closing prices were as follows:

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING November 25, 1904.

There is a continued ease of the money market with no immediate change for the stronger in sight. The deposits of the Chicago banks are the largest in their history, having gained $3,000,000 in a little over two months. At the same time loans have decreased $5,000,000. The banks are all in a much easier position than on September 6, when it was thought that a stronger market was in sight. The banks have passed through the greatest period of activity when the most money is required for moving the crops and have not felt it, increasing their deposits at a time when they generally shrink. At the same time there are a few local bankers who predict a firmer market in the future, and look for an increased demand for funds and better rates. The condition of the countries finances is best explained by a New York writer who says: "The best clew to a correct understanding of the matter seems to be that afforded by a comparison of the statistics of the increase in the country's total money supply and of total bank deposits, as this is made possible by the estimates thereof taken by the Treasury Department at the end of each year. Taking the figures at the end of last year we find that in a ten year period the money in the country has increased $940,000,000, but bank deposits have increased $4,926,000,000. Large as the increase in the increase in the stock of money has been, the expansion of credit has far outrun it. The actual proportion of cash held by the banks with which to meet deposit liabilities was at the end of last year only 8.8 per cent, the smallest ever known in our financial history, and there is of course, no doubt that the showing at the end of this year will be more favorable still. It may be said that all such phenomena as these are inseparable from the development of the modern credit system, but it is to be remembered that another inseparable accompaniment of the system is an occasional tumbling down of the credit superstucture when it becomes top-heavy. How, it may be asked, will the case stand when the business of the country, now visibly beginning to evince new life, makes larger and larger demands each day upon Wall street's 2 per cent money market; and what will be the case if after a time it should be discovered that business has improved only moderately and that the profits of railroad and other corporations whose shares have recently advanced in price so hugely are not as large as hope and prophecy made out."

New York Exchange was rather firm at 10 to 30c premium, and closed at 30c premium.

Foreign Exchange was strong with shippers sixty-day documentary sterling bills on London 482¾ to 483.

In the mercantile trade there was an active distribution of all kinds of goods. Most of the business was in the way of reordering, and the purchases in this way made business better than the average for this season. Holiday goods are being bought freely, and trade so far is ahead of last year. One of the features of the trade was the enlarged demand for furniture and for household goods generally. In the Iron and Steel line there was more confidence in the future of prices, the action of the Bar Iron Association last week in raising prices $2.00 per ton having a good effect on buyers in general, by bringing them in earlier than expected, as they fear further appreciations may be made in other lines. There is talk that prices on bar Steel and Plates will be advanced in the near future, and that prices on Steel Rails will not be lowered. The latter is to be decided at the meeting of the Rail Association, Dec. 15. Pig Iron is having a more general trade, and the market is firm at the advance of 50c made the previous week. Hardware of all kinds was sold in increased volume, and the market is showing good strength. In the lumber line the movement is above the average for the season. This is due to the mild weather stimulating building operations, and there is a consumption above the average prices are firmly held in all lines, as supplies at the mills are lighter than usual at this season. Supplies of Anthracite Coal in the West are less than last year, but consumption is being curtailed by the high prices and the substitution of other Coals that are to be had at lower prices. Consumption of bituminous Coals are larger and the trade in better shape. Collections are good, and the merchantile trade on the whole is in better shape than a year ago.

The New York Cotton market ruled lower last week, depression being caused by selling coming as a result of weakness in Southern spot markets. General liquidation was caused by pool movements and dealings were largely professional, commission house selling having become exhausted after a loss of about 10 points. The ginners report suggested a big crop of Cotton, and that a large amount has already been baled in excess of the same period last year. Feeling on the market was stronger at the lower prices.

The past week saw a reaction in prices on the Chicago Stock Exchange. Active selling followed the break in Eastern markets and the recuperative powers were not so pronounced as in the New York trading. However, there was a strong undertone and traders were not inclined to remain "short" of Stocks for more than a brief turn. Realizing sales in the shares of National Biscuit common and American Can weakened prices, but the salient Stock was Box Board, which broke radically when it was announced that the deal with independent interests for the lease of several of its plants had fallen through. The Elevated Railroad shares were strong, being bought on the strength of reports to the effect that some progress had been made in the plan to consolidate them. Stocks of the surface lines were quiet and dull. No important news developed concerning the Traction situation. A number of Stocks of less importance held comparatively firm.

The week's trading in New York Stocks was important in many more ways than one. On several occasions the market was weak, but in each instance the losses were regained and at the end of the period were about at the level where they started, some being quoted even higher.

The technical position of the market was not regarded so strong as formerly since a number of unforeseen elements were uncovered during some of the breaks which occurred during the week. For example, the theory of easy money during the balance of the year was somewhat modified when call loans were rushed up to higher quotations and many loans were called on Tuesday. The big banking interests are said to have been buying bonds, and called in a great deal of money to meet the payments. There were also further indications that a large amount of Gold would be taken for export.

Professional advice to take profits on holdings was ascribed as the reason for heavy commission house selling at times. The fact that the market recently narrowed down to activity and strength in the specialties was regarded as having been responsible for the condition. There was a noticeably wide disposition to patronize Stocks which have been recently inactive, and it was pointed out by many that these issues would have to advance commensurate with the market's strength elsewhere, thus explaining the rise and strength of so many so-called low-priced Rail and industrial shares.

Criticism was rife to the effect that the market might be going ahead of conditions and establishing values which cannot be more than sustained by even the best results of the next six months of business. Surface conditions prevailing go a long way toward substantiating this theory, as very little disposition is being shown to calculate beyond the results of this year's crops and business resulting therefrom. Another factor is the question of tariffs under the administration of the next four years. These have not been decided and may remain a curtailing influence over the country's business volume until they are settled. Total sales on the New York Stock Exchange for the week were 5,356,000 shares, compared with 8,839,000 shares the previous week and 1,975,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade was called fair the past week. The holiday naturally caused some curtailment in the volume of trade, there being considerable evening up of outstanding contracts, more particularly in Grain on Wednesday. Outside interest appeared more marked the opening days, particularly in Wheat, and fluctuations covered a somewhat wider range than lately recorded. Local speculators traded in larger quantities and the leading speculative markets in a measure were broader. Values were governed to a greater extent by the weather conditions, though the stocks at home and abroad were important factors.

Weather and crop conditions in Europe were cabled as favorable the past week, while the advices received from Argentine were less satisfactory. Rains in the latter country it was feared had caused some injury and impaired the quality of the Grain. Conditions in Austria-Hungary are most favorable, and recent rains in France have given partial relief, but complaints of drouth came from several districts. More rain would be welcomed in Italy and Spain. The winter crops in Russia and Roumania have started well, conditions generally being favorable.

Weather conditions in the United States were unseasonably mild the past week and there was a general lack of moisture through the Winter Wheat belt. Reports as to the condition of the growing crops were somewhat variable, but should rains come soon the Wheat plant no doubt will be greatly benefited. Advices from Kansas, Oklahoma and Missouri were generally of one tenor, and moisture is undoubtedly needed badly in this section of the Winter Wheat belt. Conditions were most favorable for the curing and marketing of Corn, and the quality of the crop is unusually good. The crop has dried out faster than usual and will be ready to move earlier than customary.

The movement of Grain from the farms and interior elevators of the country was fair the past week. In the Northwest the movement of Wheat has kept up well and across the line in Canada receipts at distributing centers were unusually liberal. In the West and Southwest the Wheat movement was fair, though gradually decreasing. Corn was moved with less freedom from the farms through the Central West, the recent steady decline in values no doubt being partially responsible for the reluctance on the part of growers to sell. The marketing of Oats was moderate. The movement of Grain toward the seaboard was fair. Exports were light of Flour and Wheat and moderate of Corn. There was a better foreign call for Corn and bookings were materially enlarged. The call for Wheat was also a little better. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was an increase in Wheat and Rye and a decrease in Corn, Oats and Barley. *Bradstreet's* showed a fair addition in the world's supply of Breadstuffs, while a moderate decrease was reported in Corn.

Considerable interest was manifested in the leading speculative markets on 'Change the past week and the feeling manifested was somewhat unsettled. Wheat was easily the leader in the speculative list and sentiment was decidedly "bearish" at the start. Liquidation of "long" property was general and stop-loss limits were uncovered on the break, which was most severe. Coarse Grains sold off slightly in sympathy, but at the same time the undertone was relatively firm. At the declines established "shorts" accepted liberal quantities and investment buying became quite general, resulting in stronger markets all around. The strength manifested abroad and adverse crop advices from the Southern hemisphere strengthened Wheat, while smaller movement and improved foreign demand helped Corn. Hog Products were rather irregular in price and attracted a fair amount of attention. Outside buying orders were fair, and local trading was rather active. Offerings were moderate and the general demand was quite good, with a fair proportion credited to packers and "shorts." Hogs were in good supply, and prices lower, but this feature had little effect on the speculative market. Prices ruled higher on all the leading articles, but extreme figures were not fully supported to the close. Packing of the West for the week 615,000 Hogs, compared with 660,000 Hogs same week in 1903. For the season 1,645,000 Hogs, or 190,000 ahead of the corresponding period last year.

A fair trade was reported in the market for cash Grain the past week. Offerings were only moderate in the aggregate and the demand rather active. Wheat was in moderate request and prices somewhat easier, while Corn was in more active demand, the late steady decline being checked. Oats were in small supply and met with a fair demand. Rye was quiet and Barley fair sale. Seeds were quiet and steady. Flax was firm, as also Timothy. Hay was inclined to dullness. Low and medium grades quiet. Prairie was firm. Hog Products were in limited demand and offerings fair. Prices without important change. Exports for the week, compared with the corresponding week in 1903, exhibited decreases of 573,000 lbs Lard and 5,123 boxes Meats, and an increase of 522 brls Pork. Hogs were in fair supply and prices rather easy. Receipts of Cattle were liberal and prices were well maintained. Sheep were marketed in fair number and prices fairly well supported.

FREIGHTS—Traffic on Eastern and Western roads is good and Eastern roads have no surplus of cars. The present tariff is as follows:

To—	From Chicago. Domestic.	From Chicago. Export.	From Miss. River. Domestic.	From Miss. River. Export.
Boston	19½	18½	22½	10
New York	17½	13½	19½	16
Philadelphia	16½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 5c per bu on Wheat, 4c on Corn and 3c on Oats.

Ocean rates on Grain are steady, with small call for tonnage. Rates on Grain are ¾@1d per bu from New York and 1d from Boston. Through rate on Wheat from Chicago to Liverpool is 6.27c per bu and Corn 6.15c. Flour 19c per 100 lbs and Provisions 35¾c per 100 lbs.

Lake rates are firmer, with a fair demand for boats, at 1¾c on Wheat and 1½c on Corn to Buffalo.

FLOUR—In sympathy with the break in Wheat early in the week has tended Flour downward. On the decline the domestic trade has taken hold more freely and the general situation is in a healthier state than for some weeks past. The consignments of Flour are not as liberal as they were at this time last week, but the number of Northwestern and Southwestern millers in the market for the purpose of placing their output is larger. The local miller looks upon the situation as promising. He expects Wheat to advance with bad weather and a small movement and the this means a higher price for Flour. The bids from abroad while still 50c a barrel out of of line are closer to a working basis than for several weeks past. The Flour changing hand here for Eastern shipment is going mainly to the seaboard. This movement is expected to increase. Sales ranged during the week.

MILLSTUFFS—A moderate demand existed during the past week and the offerings were light. Bran in 100-lb sacks sold at $18 00@18 50 and in bulk quotably about $17 50. Shorts in bulk sold at $14 50. Middlings in sacks sold at $18 00.

WINTER WHEAT—The market did not develop any special features during the past week. No important change occurred in prices and trade has been of a moderate character. Millers showed a little more disposition to purchase and there was also some shipping demand, and a number of round lots, besides the car lot fresh arrivals, were sold. The round lots of No. 2 Hard Winter sold at 2c and 2¼c under the December prices. Speculators bought occasional cars. The stock of No. 2 Red in store was 291,000 bu, and a year ago was 531,000 bu. For the week receipts were 212 cars, against 153 cars the previous week. There were withdrawn from public elevators 90,600 bu, and from private warehouses 35 cars and 25,000 bu. No. 2 Red in store was quotable at $1 12¼@1 14 down to $1 10¼@1 13¼, and fresh arrivals nominally $1 13@1 15. No. 3 Red fresh arrivals free on board quotably $1 04@1 12 and No. 4 Red at $1 00@1 04. No. 2 Hard fresh arrivals free on board ranged at $1 09@1 12, and sold at the river at $1 08½. No. 3 Hard fresh arrivals free on board quotable at $1 10@1 09, and sold at the river at $1 01¾@1 08. No. 4 Hard sold free on board at $1 00@1 02 and at the river at $1 01¾. No. 3 White sold at $1 07 and No. 4 White at $1 02.

SPRING WHEAT—Only a light business was transacted in this market during the past week and prices ruled slightly lower. So little business, however, was transacted that it has been difficult to establish a market, and quotations have been little better than nominal, especially so for the higher grades. The small receipts prevented trading. Choice Wheat would sell, there was a demand for it, but poor Wheat was dull. No round lots were reported sold, trading for the week being confined to a few car lots received from day to day. The receipts for the week, including Colorado Wheat, were 89 cars, against 126 cars the previous week. There were withdrawn from public elevators 6,000 bu and from private warehouses 10 cars. No. 1 Northern fresh receipts free on board were quotable at $1 15@1 20, but entirely nominal, as was also No. 2 Northern at $1 07@1 14. No. 3 Spring ranged at $1 00@1 10 for common to choice. No 4 Spring sold at 60c@$1 03 for poor to choice.

REGULAR WHEAT—This market was active and broad, closing with the December 1¼@1½c lower than on last Friday, while the May declined ¾c and the July ⅝c. The situation the opening days was decidedly weak and December sold off to $1 06⅝ while May touched $1 08 and the July 97½c. Besides the liquidation by "longs" there was increased selling of "short" lines in which the Northwest seemed to lead, followed by the East and the Southwest. The lack of cash demand in all positions, coupled with the piling up of Wheat in many of the markets were the leading "bear" factors at the time. There was an enormous business, with all the large concerns in the trade on one side or the other. The buying was pronounced. Some of it was put down to Wall Street, some of it to Minneapolis and Duluth, and some of it to the Southwest. One thing was certain and that was the fact that one of the large elevator concerns bought freely. It was a grand rush of "shorts" to get in early—"shorts" with profits. On the early advance on Monday there was the sharpest kind of selling, and as this was indulged in by many of the large traders it can readily be seen that there was considerable excitement and that the trade was pretty well divided. The selling on the hard spots was large—sufficient to drive the buyers out of their position and to send prices down from the early level. The continued drouth in the Southwest has caused the Kansas State Agriculture Association to send out a report which said the dry weather was damaging Wheat and that a large acreage will have to be plowed up. Wheat on passage increased 1,024,000 bu last week making the total 39,224,000 bu, compared with 38,000,000 bu a week and 25,856,000 bu a year ago. There was a decrease of 2,660,000 bu in the amount on passage a year ago. The visible supply increased 2,097,000 bu the past week, and is now 33,399,000 bu, compared with 31,302,000 bu the week before and 29,472,000 bu a year ago. Local stocks of Wheat decreased 232,000 bu during the week, and are now 1,673,000 bu, compared with 2,045,000 bu a year ago. Stocks here in all positions were reported at 3,903,000 bu, a decrease of 318,000 bu. Stocks one year ago 4,847,000 bu. Contract stocks decreased 84,472 bu, and now include 1,402,598 bu, against 1,519,005 bu one year ago. *Bradstreet's* available supply increased 3,453,000 bu, against 5,631,000 bu increase one year ago, and this showing tended to impart a little more strength to the situation. World's shipments were 11,508,000 bu, against 12,308,000 bu a week ago and 10,512,000 bu a year ago. Liverpool stocks are 4,816,000 bu, compared with 4,784,000 bu the week before and 3,016,000 bu a year ago, the increase during the week being 32,000 bu. On the break and around $1 06⅝ for December and $1 08 for May, the demand was most urgent and investment buying followed. The failure of the English markets to follow the declines established on this side, both the London and Liverpool markets coming higher caused a regular stampede among "shorts" and before the demand was satisfied, December sold to $1 10¼, while May sold to $1 11 and July to 99⅝c. The unfavorable Argentine crop news was also one of the main "bull" incentives, heavy rains in the principal producing districts causing considerable damage, and it was feared would affect the quality. The lack of rain through the Winter Wheat belt, in the Southwest more particularly, also acted as a stimulating influence and helped bring about the change in sentiment. Primary receipts were smaller than a year ago and the total between June 27 and Nov. 21 aggregated 116,598,000 bu, against 115,900,000 bu last year and 151,665,000 bu two years ago. Exports were limited to 1,332,000 bu, and since July 1 foot up 28,643,000 bu, compared with 70,310,000 bu a year ago. Bookings on the coast were very moderate. Crop conditions in Europe were generally favorable. *Broomhall's* weekly summary of foreign crops said: "Austria-Hungary — Prevailing conditions are most favorable. France—Recent rains have given partial relief, but complaints of drouth come from several districts. Supplies of native Wheat are somewhat larger. Italy and Spain—More rain is wanted, otherwise outlook is satisfactory. Russia and Roumania—Winter crops are starting, with general condition favorable. Smaller shipments are expected, but stocks at Black Sea ports are fair." Argentine shipments this week were fair at 848,000 bu, making 80,980,000 bu since January 1, compared with 61,136,000 bu for the same period in 1903. The visible supply there was reported 2,025,000 bu, against 2,218,000 bu last week and 1,024,000 bu one year ago. The *Modern Miller* was moderately "bullish" in this week's summary on the crop situation.

CORN—The Corn market was fairly active the past week and the feeling developed was somewhat unsettled. Lower prices were established the opening days, December selling off to 47¾c, while May touched 45⅛c. At the declines recorded "shorts purchased freely and situation became December rallied to 50¼c and May sold to 46¼c, the close showing gain of ⅛c for December and ⅛@¼c for the May. The break in Wheat the opening days proved a drawback to Corn, but with the rally in that cereal the market developed quite a strong undertone. The more moderate receipts and better tone to the cash market proved a "bull" help, as also did the better demand from abroad. Foreign advices were more favorable to holders—both Liverpool and London being strong. The small local stocks of old Corn created a feeling of uneasiness among December "shorts" and there was general covering by "shorts" on all soft spots. Statistics were in the main construed as "bullish." The world's shipments were 3,034,600 bu compared with 4,204,000 the previous week, and 4,545,000 bu a year ago. The visible supply showed a decrease of 783,000 bu for the week. Total now in the visible is 1,493,000 bu, against 2,276,000 bu the week before, and 6,116,000 bu a year ago. Liverpool stocks decreased 86,000 bu for the week, making the total 934,000 bu, against 1,020,000 bu the week before, and 951,000 bu a year ago. The local stock of Corn increased 10,000 bu during the week, the total in public houses being 265,000 bu, compared with 255,000 bu the previous week and 911,000 bu a year ago. Stocks here in all positions were reported at 750,000 bu, an increase for the week of 174,000 bu. Stocks one year ago were reported at 3,255,000 bu. Contract stocks are now 238,341 bu, compared with 241,639 bu last week and 757,554 bu one year ago. *Bradstreet's* available supply decreased 728,000 bu, compared with 1,955,000 bu decrease the corresponding week in 1903. Receipts this week 2,716 cars, against 1,150 cars for same week last year. The *Orange Judd Farmer* made the Corn crop of 1904 2,573,863,000 bu, against 2,346,312,000 bu in 1903, and 2,556,311,000 bu in 1902. The quality of the crop is unusually good, and the pleasant Indian summer weather experienced since Oct. 1, has dried it out faster than usual, so that the crop will be ready to move earlier than normal. Weather conditions were again favorable for the movement and curing the new crop, but holders in the interior were less disposed to sell at the prices current. The export demand was much better this week, both from the United Kingdom and Continent, and a good business was booked at the seaboard. Exports, however, made a very poor showing at 30,000 bu, which makes a total of 11,264,000 bu since July 1, as compared with 21,491,000 bu one year ago. Argentine shipments were again rather liberal at 2,655,000 bu. Total since January 1 foots up 88,633,000 bu, compared with 71,094,000 bu for same period in 1903. The visible there is now 3,821,000 bu, compared with 3,704,000 bu one week ago and 3,036,000 bu one year ago. The call for car lots was more brisk all the week and all grades sold more readily at relatively better prices as will be noted in the table on the following page.

OATS—Dragged through the week with scarcely a feature and with speculative trade almost entirely local. May made a net gain of ⅛c for the week, and December a gain of ⅝@¾c. The relative strength of the nearby delivery was due largely to a strong cash situation. Cash interests were buying December and selling May in a small way all through the week. Cash strength was the result of small receipts, about large enough to supply current needs and no more. In addition to buying by local interests there was a fair shipping demand, and shippers had to get their Oats to offer East from receivers, as elevators are not anxious to sell and are asking prohibitive prices. Country acceptances, however, were reported better the last of the week, and better receipts are expected for a while, as in some localities farmers are selling some of their Oats to make room for Corn. A feature of the week was the disappearance of the small July premium over May, the two selling at the same price Friday at the close. Stocks are liberal, but exhibited a decrease here of 471,000 bu during the week, and the visible supply was 154,000 bu less. The receipts were 514 cars compared with 570 cars last week, and 866 cars for the corresponding week last year.

RYE—The market has been rather dull during the past week, and trading limited. An easy feeling existed and for fair lots of fresh arrivals prices declined 3@4c, while futures held comparatively steady. Fresh arrivals have for some time commanded a liberal premium, but the usual buyers have acted indifferent, and it has been found necessary to reduce prices in order to effect sales. There has not been sufficient demand to enable receivers to maintain the premium. Manufacturing industries have not been so anxious for Rye and part of the receipts went to speculators. For Rye in store there was apparently no demand on the open market, but some round lots were withdrawn from elevators. Receipts for the week aggregated 28 cars, against 27 cars previous week. There were withdrawn from public elevators 1590 bu and from private warehouses 9 cars. The visible supply increased 154,000 bu, and was reported at 1,929,000 bu, against 1,338,000 bu a year ago. Local stock in store was 409,000 bu, an increase of 3,000 bu compared with the previous week, and a year ago was 190,000 bu. No. 2 in store was quotable at 78c; fresh arrivals free on board sold at 82@85 down to 79@81c, and billed through at 79@81½c. No. 3 sold at 77½@78c. For future deliveries of No. 2 Rye the market was quiet. December sold at 78c and May at 80c.

BARLEY—There was just a moderate business; it was quiet for this time of the year. There was, perhaps, a little more Barley on sale than a week ago, and yet the offerings were small. Of feed Barley, there was so little that it was hardly worth while for buyers to pay much attention to the market. This grade, however, was salable and steady. There was a fair business in Screenings. Goods of this class, when clean and good color, sold well and ruled steady, but common dirty, seedy cars, of which there were more or less, ruled dull and weak. Maltsters were on the market for what Barley of their kind there was offered. A firm feeling prevailed for malting Barley. Although all offered sold very well the requirements of buyers did not seem to be urgent at all. No anxiety on their part was shown and they seemed to get all they cared for out of the cash offerings; they being hardly willing, except now and then, to consider lots to-arrive. Exports from New York were again fairly large. This and consumption is telling on stocks. Last week the visible fell off 65,000 bu. It has been larger than a year ago all along, but this brought it down to less than at that time. The visible was given as 5,511,000 bu, against 5,655,000 bu the same time a year ago. Local stock did not change, remaining at 11,714 bu, against 60,005 bu last year. Receipts for the week were 179 cars, the previous week they were 239 cars and two weeks ago 316 cars. There was no output from local regular houses and there has not been for several weeks. Exports from New York were 566,000 bu, the week before they were 233,590 bu and two weeks ago 286,771 bu. Values were quoted over much the same range from day to day. Screenings having a range of 25@38c for poor, dirty to very choice Barley—low-grade feed quiet, scarce and steady at 38@38½c local. Malting low grade, small berry, or heavy, but dirty, quotable at 39@41c; clean, fair to good, at 42@45c, and large berry, heavy, ranged at 46@48c, with choice to fancy 49@52c.

SEEDS—Have ruled quiet. The main business was done in Timothy and had speculation as the basis for trading; small gains in future prices were witnessed. Grass Seeds of other kinds were all exceedingly quiet and they presented nothing new or changed especially. Flax advancea a little and in this line the extreme quietness of the past prevailed.

Timothy—There was a slight gain in strength in the market for March delivery. At first it was offered at $2 82½, with $2 80 bid. Later the bids were raised to $2 82½ and buyers got something over 15 cars. There remained some demand with little desire to sell; it sold finally at $2 85. Lately a good deal of March delivery has been taken, largely, it is said, for account of local speculators. The selling has been by houses engaged in cleaning Seed. This demand would seem to have been a good thing for cleaners. It has kept them on the market for cash Seed and kept them busy at a time when shipping business was small. Reference to the output, if same is correct, is about all that is necessary to convince one of a slow order trade. Contract spot quotation was raised 5c in sympathy with the other, not that anything was done. Cash offerings on some days were fair, on others small. There were some very nice lots in the offerings, also ordinary and common. Better grades were steady and under grades easy. Demand not urgent, and it was against future delivery sales more than based on current trade needs. November delivery or contract spot was $2 65@2 70 in the quotations, closing at $2 70. January was nominally $2 72½. Cash, poor to choice, was quoted at $1 75@2 50 and some fancy brought $2 60. Fair to good lots were usually quoted at $2 35@2 45 and rough Seed at $2 15@2 30.

Receipts and shipments were as follows:

Receipts the past week, lbs	1,197,130
A week ago	885,637
Two weeks ago	1,314,941
Corresponding week last year	791,530
Shipments the past week, lbs	70,880
A week ago	81,355
Two weeks ago	384,430
Corresponding week last year	187,135

Flax—There was an easy feeling early and prices tended down to the extent of ⅛c decline. Later there was a turn, a stronger feeling followed with ½@1c net advance and a final reaction of ½c. The week passed with no trading any more than now and then a car lot sale. The market was devoid of offerings beyond this small extent. Only 6 cars were received, compared with 25 cars the previous week and 43 cars two weeks ago. Output small, though a little larger than it has been, there being 9,285 bu taken out, the week before there were 5,134 bu withdrawn and two weeks ago 1,553 bu. Stock changes were confined to Northwestern stocks. There was no change here. 10,647 bu reported, compared with 89,756 bu the same time a year ago. Duluth increased 686,702 bu, with 7,046,792 bu reported there, and Minneapolis increased 91,300 bu, with 1,257,143 bu. Nominal range for the

NO SESSION.

Sides were in moderate request and prices ruled lower—closing at $5 60@5 65. Rough Sides met with a fair inquiry and the offerings were not very large. Prices ruled slightly lower—closing at $5 37½@5 62½ according to weight. Plates were in limited demand and prices favored buyers. Butts quiet and dull and prices slightly lower. Backs in moderate demand for sparinaly, and prices ruled lower. Bellies were in fair demand and prices ruled in favor of buyers. Foreign fancy and special cuts were in light request and prices without material change.

Smoked Meats—The trade in Smoked Meats the past week was moderate and the feeling was easy. Offerings at no time were excessive, while orders were for moderate quantities. Stocks were reported as fair. Hams in fair request and prices ruled ½@¾c lower. Skinned Hams were in moderate request and prices ruled ½@¾c lower. Shoulders were in light demand and prices ruled ½@¾c lower. Picnic Hams were in small request and prices ruled ½@¾c lower. Sides of all kinds were called for moderately, and prices ruled ¼@¾c lower. Breakfast Bacon in fair request and prices well maintained.

Beef Products—The past week was quiet in the market for Beef Products, and the feeling was rather steady for most descriptions. Offerings were fair, and the demand only moderate. Cattle are in large supply, and prices are lower, though the better grades held up fairly well. Foreign markets were easy, and domestic markets were steady. Shipments of Dressed Beef rather liberal. Manufacture of Products was moderate, and supplies on hand are fair. Beef Hams were called for moderately, and prices were unchanged. Extra Mess Beef was quiet and steady at former prices. Plate Beef in rather light demand and steady. Extra Plate Beef in moderate demand, and prices were unchanged. Tallow was inclined to quietness, but firm, and prices were unchanged. Oleo-Stearine rather quiet and steady at 6¾@6¾c.

Greases—Only a moderate business was transacted in Greases during the past week, and the market was stronger in a general way. Offerings were not very large, and the demand was fair. Holders rather firm in their views, and prices were advanced ¼@½c, especially on the better grades.

The Inter-State Commerce Commission has ordered an investigation in Chicago December 4, of conditions in the uniform bill of lading which carriers propose to put into effect January 1.

On account of the excellent weather for plowing and breaking in Manitoba and the Northwestern Canadian Territories during a long period this fall it is estimated that 500,000 acres will be added to the wheat area of those sections the coming year. This would make the Wheat area 4,000,000 acres.

KANSAS WHEAT CONDITION.

[From the Northwestern Miller.]

No rain has fallen in Kansas this last week and the need for it is becoming more and more important. Not much of the Wheat is suffering as yet, but conditions are by no means good and the Wheat is not making progress. Little of it is necessarily to be regarded as going backward, but it is not making the headway toward a sturdy growth which is so necessary for its successful resistance to winter's cold. Winds have not generally been high, and the dryness of the ground has not resulted in damage otherwise than in the keeping of the Wheat back and preventing its development in the plant.

Many fields show scarcely any green, while in normal seasons the Wheat at this time should be well grown and prosperous. In some sections of the State the snow and light rain of ten days ago did much to help conditions. Present conditions may be regarded as unsatisfactory and leave much to be desired, but they can in no wise be taken as the basis for pessimistic views much less the alarm voiced in many letters of which much is being made in the market gossip daily.

It is well also to recall that at almost this same time last year very similar conditions prevailed. These conditions were later reversed and the crop turned out to be of bumper character, until it was destroyed by the misfortune of a wet harvest.

BOSTON WOOL MARKET.

BOSTON, Nov. 25.—The *Commercial Bulletin*, concerning the Wool market says: "The week has been free from exciting features. A fair amount of business was closed previous to the holiday, including sizable transactions in Idaho, Utah and Wyoming fine, fine medium and medium. For fine and fine medium the scoured basis has been as high as 65c and half blood sold to cost 56c. The market is very firm and foreign advices are strong, London showing a good advance all around. Tight money, heavy importations and possible tariff agitation are talked about as restraining influences.

The shipments of Wool from Boston from Dec. 31, 1903, are 2?0,1 8 417 lbs, against 212,344,039 lbs last year. The receipts are 291,873,457 lbs, against 261 4 7 ?s lbs last year."

THE WEATHER CONDITIONS.

Extreme Northwest—Temperatures, 8 to 24; generally cloudy. Northwest—Temperatures, 16 to 26; partly cloudy. West—Temperatures, 18 to 30; generally cloudy. Southwest—Temperatures, 18 to 45, generally fair. Ohio Valley—Temperatures, 25 to 34, fair.

Weather forecast to Sunday night shows generally fair and continued cool weather throughout this forecast district.

ITEMS OF GENERAL INTEREST.

The Elkhorn Valley Bank, O'Neill, Neb., failed to open its doors, Friday. Deposits, $80,000.

Official announcement is made that the East St. Louis works of the American Steel Foundries Company will resume operations, Monday.

The Big Bend National Bank of Davenport, Wash., has been closed by direction of the Comptroller of the Currency because of insolvency, and a receiver has been appointed.

Street's Western Stable Car Line has declared the regular semi-annual dividend of 3½ per cent on the preferred stock, payable Jan. 1, 1905. Books close Dec. 22 and reopen Jan. 3.

The next monthly meeting of the directors of the Atchison Railway Company will be held on the first Wednesday in December. If a quorum is present the regular semi-annual rate of 2½ per cent will be declared.

The Pittsburg Steamship Company has allowed most of the tow barges to make another trip in the ore trade. Fine weather has permitted operating them.

The New York Stock Exchange has listed $3,148,-000 of new Illinois Central stock. It has also listed $70,000,000 common stock, $28,000,000 first preferred, and $42,000,000 second preferred stocks of the Reading, to take the place of voting trust certificates now called in.

The contracts for export shipment of harvesting machinery during the winter already closed by the International Harvester Company represents about 60 per cent of the volume placed up to this time last year. The Lake Shore has been awarded the contract for 3,000 car loads. Last year the company's contract was for 5,000 car loads.

The Rock Island system is buying cars. Its needs in this particular are said to be large. Last week orders were placed with the American Car and Foundry Company for 1,500 refrigerator cars and with the Pullman Company for 1,500 box cars. Another order for 1,000 freight cars will be placed with some one of the companies within a week.

The Illinois Trust and Savings Bank, Chicago, has paid its fourth extra dividend of 1 per cent this year, making 16 per cent in all. It is the expectation of the management that dividend payments will be maintained at the 16 per cent rate in the future. As a rule the bank earns something more than double that percentage on its stock each year.

A syndicate has purchased from the Detroit United Railway Company $8,200,000 of its first consolidated mortgage 4½ per cent thirty-year Gold bonds due January 1, 1932. These bonds are a part of an issue of $25,000,000, which will eventually be a first mortgage on the entire property. Included in the syndicate are New York and European firms and some of the large financial institutions of the West.

The Wooster Ohio, National Bank, Wednesday, went into voluntary liquidation and A. D. Lynch was appointed receiver on orders from Washington. Government officials say the reason for the closing is that the capital has been impaired to the extent of $25,000. The total resources Nov. 10 were $583,510 and the total liabilities were the same. The capital stock was $100,000 and deposits were $321,700.

Altogether 163 bids for the issue of $25,000,000 of corporate stock of the City of New York at 3½ per cent, to mature in fifty years, were opened Wednesday. The largest bid for the full amount was that of William Solomon & Co. coupled with Lazard Freres. They offered to take all or any part of the issue at the rate of 102.401. Eugene Meyer & Co. bid 102.51, 102.60, and 102.71 for three lots of $250,000 each. Foster & Lounsberry bid 102.78 for $800,000. Nearly forty of the bids were for the $10.00 certificates.

A special meeting of the shareholders of the Great Northern Railway of Canada will be held Dec. 29 to consider the expediency of authorizing the directors to issue consolidated debenture bonds of the company to an amount not exceeding $1,962,000, plus the sum represented by $20,000 per mile of certain of the company's lines of railway and branches hereafter constructed; also for approving an agreement with the Canadian Northern Railway Company for the guarantee by the latter company of the payment of the principal and interest of these bonds.

The present season has been the dullest on record for Grain shipments by lake from Chicago and South Chicago, and vesselmen who have entertained some hope of numerous cargoes and high rates during the closing days of the season have now given up all hope of a rush movement of any kind. Last year in the neighborhood of 32,000,000 bu of Grain were shipped by lake from here during the last two months of the season, while this year the showing for the same period will not exceed 15,000,000 bu. The shipments for the present month will not run more than 65 per per cent of the 10,000,000 bu sent forward by steamers during November last year.

The Colorado Fuel and Iron Company filed with the county recorder at Denver, Colo., Friday, a mortgage to secure the issue of $45,000,000 5 per cent thirty-year Gold bonds, in accordance with a reorganization plan adopted at the last annual meeting. The issue is for the conversion of $11,858,000 convertible debentures of the fuel company and $6,000,000 general mortgage bonds and for the acquisition of the Colorado and Wyoming Railroad Company, the Rocky Mountain Coal and Iron Company, and the Crystal River Railroad Company.

The Chicago, Burlington and Quincy Railway Company has sold to J. P. Morgan & Co. $20,000,000 of the old Illinois division 4 per cent bonds, of which $85,000,000 were originally authorized. The present purchase exhausts that issue. It is learned on authority that an arrangement will be completed in due time by which $20,000,000 of 4 per cent bonds of the Illinois division will be used to refund the same amount of consolidated first mortgage 4 per cent bonds of the Chicago, Burlington and Quincy which mature in July, 1905. The latter were originally a 7 per cent issue, but when they fell due last year were extended to 1905 on a 4 per cent basis.

Seldom have the Chicago banks carried as large reserves against deposits as on the occasion of the last official calls for statements showing their conditions at the close of business Nov. 10 and the opening of business Nov. 11. A large fraction of the reserves were carried in other banks, however, the greater part in New York exchange. Legal reserves, or the proportion of cash in vaults to the net deposits, were still very high. The larger State banks compare well with the national banks. Features of the individual statements of the banks are cash resources of 53 per cent held by the Drovers' Deposit National and of 50 per cent held by the First National, Bankers' National, Fort Dearborn National, Hamilton National, Merchants' Loan and Trust, and the Royal Trust. The Commercial National held 28 per cent legal reserve, the largest in years, and the First, Bankers' and Continental 26 per cent each. The Merchants' Loan of the State banks held 24 per cent.

The *Commercial Bulletin* of Cleveland says: "The United States Steel Corporation has opened negotiations for the purchase of the control of the American Ship Building Company. The Steel corporation has plans formulated for the replacement of the entire fleet of its subsidiary company, the Pittsburg Steamship Company, with modern Steel vessels of over 10,000 tons carrying capacity each. This program will cover a period of several years, but before it will be consummated the total bill of expense for replacement of the present fleet alone would foot up $25,000,000, and if the carrying capacity of the fleet is to be expanded in proportion to the growth of the trade, the Steel corporation will have to expend at least $40,000,000 in the next ten years in the construction of new tonnage for the Ore and Coal carrying trade. The Steel corporation proposes to lead in the development of the lake carrying trade, and at the same time, as far as possible, control it. The cost of the item of delivering Ore at the lower lake ports is one of the utmost importance to the Steel trust. When the trust is in a position to dictate carrying charters on the lakes its control of the Ore situation will be complete. Its fleet of 112 vessels already gives it a commanding position in this respect, but when the fleet is replaced with sixty vessels of the largest type, built in its own shipyards from Steel plates manufactured in its own plants, its position will be one of absolute domination." Chicago interests in the American Ship Building Company deny that any such negotiations have been opened.

The *Wall Street Journal* says: "The improvement in the position of the railroads in the last half of the calendar year as compared with the first half still continues and each month since July the net gain has shown an increase. At the end of August the roads reporting showed a loss as compared with the same period of 1903 of $13,803,000 in gross and $19,033,000 net, but there was a marked decrease in expenses in that month of this year and the comparative net result was favorable to the extent of $2,254,000. At the end of September the decrease in gross earnings of the roads reporting as compared with last year was $14,151,000 and the decrease in net earnings $18,802,291. The month of September showed an increase in gross of $3,328,-100, a decrease in expenses of $1,277,075, and an increase in net earnings of $4,605,175, which is equal to 11.22 per cent. The improvement in that month was conspicuous in the Central Western and the Southern States. There will no doubt be a further comparative recovery in the remaining months of the year. The revival of activity in the Iron and Steel industries has added an enormous volume of profitable traffic to a large number of roads. The Coal tonnage is much larger than was expected, especially that of the anthracite carrying companies, and the general merchandise tonnage has been heavy. The expectation was not that the railroads of the country would do as well as in 1903, but that they would make a fair comparison with 1902. They will do better than that and the present calendar year will be more favorable for transportation interests than was thought probable at the end of June."

ITEMS OF GENERAL INTEREST.

New York Exchange 20c premium.

Documentary Sterling steady at 482½.

Chicago Bank Clearings to-day, 633,481,108.

Reported that 40,000 bu Wheat and 80,000 bu Corn were taken at the seaboard to-day for export.

Ten packers purchased 42,000 Hogs to-day; shippers, 11,000; left over, 2,500. Market closed strong.

It is claimed that the Argentine Wheat crop will average lighter in weight than last year—about 57.6 lbs.

The output of the St. Louis Flour mills for the past week was 74,900 brls, against 76,700 brls for the previous week.

The packing at Milwaukee since November 1 is estimated at 78,850 Hogs, against 101,337 for the corresponding time in 1903.

Estimated receipts for to-morrow: Wheat, 82 cars; Corn, 428 cars; Oats, 162 cars; Rye, 7 cars; Barley, 70 cars; Hogs, 32,000

The Citizens' National Bank of Oberlin, Ohio, closed its doors this morning. The bank is in charge of the National Bank Examiner.

The quantity of Flour and Wheat on passage to Europe during the past week increased 376,000 bu, and the quantity of Corn increased 154,000 bu.

Advices from Argentine indicate that the Wheat crop has been made, and the yield will be good, but the quality may be a little irregular on account of rains.

Exports of Flax Seed from India the past week were 456,000 bu, compared with 248,000 bu for the week previous, and 120,000 bu for the corresponding week in 1903.

The stock of Flax Seed at Duluth on Nov. 26 was 7,440,389 bu, compared with 7,006,792 bu the previous week—an increase of 333,597 bu. Stock last year, 4,034,047 bu.

The average weight of the Hogs received at Chicago last week was 233 lbs, against 229 lbs the previous week, 227 lbs the corresponding week in 1903, and 222 lbs in 1902.

Cotton in New York was active and advanced early, as Liverpool closed 2 to 4 points higher. The decline that followed the advance was on realizing sales. The market closed 4@5 points lower.

Chicago received 1,300,000 bu more Corn last week than shipped, and the visible supply exhibited an increase of 6,000 bu, and a total supply of 271,000 bu. Private elevators must be increasing their stocks rapidly.

The monthly report on Cotton of the Department of Agriculture will be issued on Saturday, Dec. 3, at 11:15 A. M., and will show only the estimated total number of bales grown this season. Details will be presented on Dec. 5

Stocks of Wheat in public warehouses in Liverpool reported at 4,976,000 bu, against 4,816,000 bu one week ago and 3,072,000 bu one year ago. Stocks of Corn reported at 814,000 bu, against 934,000 bu one week ago and 1,110,000 bu last year.

Broomhall says the official figures of the German Wheat crop are given as 36,880,000 bu, against 47,624,000 bu last year, and is less than expected. The Oats crop is given as 159,260,000 bu, against 155,850,000 bu last year. The Potato crop is large.

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were increases of 2,196,050 bu Wheat, 360,000 bu Corn, and 527,000 bu Barley, and decreases of 92,000 bu Oats and 59,000 bu Rye

Local Stocks were active and averaged higher. The feature was Can shares, in which trading was unusually heavy. Common led the list and advanced ⅝, with a reaction of ¼. Preferred advanced 1⅜ and lost 1⅛. Good gains were made in nearly all the list, except Western Stone, which declined ⅝.

East bound shipments all rail from Chicago the past week are as shown in the following table:

	Flour, brls.	Grain, bu.	Prov tons.
Past week	90,637	1,447,000	23,318
Previous week	91,614	1,380,000	27,876
Last year	80,355	1,223,000	29,708

Stocks in New York closed irregular, but with more Stocks higher than lower. The strong interests supported the market on the weak spots. The feature was the advance of 5 points in Illinois Central, 3¼ in Atlantic Coast Line, and 4¾ in Northwestern. Industrials were irregular, with Sugar 1 point lower and Steel ¼ off. Republic Iron preferred ½ higher. Money, 3¼@3½ per cent.

The Santa Fe is planning to relocate its transcontinental line, which means practically the construction of a new road in New Mexico. The intention is to get away from the so-called "cloudburst section" of the territory. The Santa Fe, in its proposed line, which is termed a cutoff, will not only avoid the "cloudburst section," where, this summer, it has lost more than $1,000,000, and where the floods caused innumerable and long suspension of business, but it will avoid Raton Mountain and other steep grades. This means a large reduction in curves and a considerable shortening of the road, that will enable it to haul larger loads and do business at a reduced cost.

The rail and Steel mills of the Illinois Steel Company in South Chicago closed down Saturday. The order throws 3,000 men out of work, or nearly half the total force. They were among the best paid in the mills, earning $6 00 to $12 00 a day, under semi-annual contracts, on the "tonnage" system. Last June, when the renewal of the contract was sought, the company declined to enter into an agreement. The shutdown was ordered a week earlier in November last year. When the mills resumed operations the pay of practically all the workers except those in the Steel and rail departments was cut 10 to 35 per cent. A still greater reduction is anticipated by the men now out of work.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Much better business is reported at Minneapolis, but trade at Chicago is still dull.
